COUNTY CONVENTION

Nominations and motions for the County Convention are now in the hands of the Co Secretary and everything appears to be in readiness for the annual set-together of delegates on unday, January 28th at Dun-

Four candidates are nominated for the post of County Chair-- Kieran O Ryan (outgoing), Noel Dalton, John A Murphy and Paddy Kenneally

(Brin's Own).

John Fraher, Paddy Kenneally, John Walsh (Tramore), Sean De Burca and Noel Dalton are minated for the post of Co Registrar and for the post of Oifigeach Gaelige, Nioclas Mac Craith, Bean Dolrin Ni Murchu Pat Curran, Seamus Fitzgerald and Liam Salpell are the people from whom the officer will be

Three are nominated for the post of PRO Seamus O Braon-aon, Liam Gleeson and Tom unningham.

The three nominated for Munster Council are the outsoing members, Tom Cunning-ham and Seamus Power with Sean De Burca.

It's too soon to predict the mmber of contests that will be held, but perhaps next week the position will be clearer and we will all have some idea of who will stand and who will decide to withdraw

A total of 41 motions are listed and these relate to bye-law and general rule changes I have not seen all the motions but most of the ones that I have been given sight of are inter-esting and likely to arouse good

The motions dealing with rule hanges concerning the new dates for the All-Ireland Championships, the new points sys-tem for the National Leagues and so on, have been tabled by Dungarvan. The same club will move a motion to have County championship trophies increased from twenty to twenty-one and they are seeking to have the bye-law concerning the granting of postponements

tightened up Portlaw, who have tabled a mber of motions are seeking to have Munster senior final dates free of county senior championships, unless there is prior agreement by the teams concerned. This, in my opinion is asking for too much and I doubt if it will get the required support especially as it shows no consideration for any other

how displeased they are about the accuracy of material used in match programmes and ask that they be checked before them. being put on sale to the public in future

Abbeyside and Clashmore have motions seeking to abolish the losers groups and the for-mer are asking that an effort be made by the appropriate authority to have Association rennes de-rated

Erins Own, who have quite a number of motions, ask that a committee be set up to publish a County Annual and that all vening games begin at 7 p.m. Next week, after I have seen a complete list of motions I will deal further with th. Coun-

Council Call to Fisheries

Waterford County Council at a meeting in Dungarvan last week unanimously passed a resolution calling on the Minister for Fisheries not to enforce the new salmon men in the Lismore Fishery District of West Waterford and East Cork

Proposing the resolution, the Chairman, Mr C Curran said that he had been asked by the fishermen concerned to bring a deputation to the meeting but he saw no point in doing so The fishermen had informed him that in introducing the new regulations to the area the Min-ister had either been wrongly advised or had taken leave of his senses as they felt that this form of conservation was not required in Waterford at all. Mr Curran said that the fishermen in the area who were

traditional fishermen had always been their own best waterkeepers and had always conformed to the law where the size and depth of nets were con-cerned "They feel," he said. "that the new measures are too drastic and that they will re-duce their incomes by as much

BEING VICTIMISED

Mr A. Deasy T.D, supported the points made by the Chairman and said that the fishermen in the area and licensed fisher-men generally were now being victimised because of the overfishing by poachers which was going on along the west coast "What good is it for the Min-

ister to be bringing in these restrictions" said Deputy Deasy "when they apply only to licensed fishermen and which won't affect the poachers of the west coast This poaching should be first tacked as otherwise the threat to the salmon industry will continue The resolution was seconded by Mr Harty and passed

unanimously

Call To Ban T.D.s And Senators From Local Authorities

Proposing a motion at Water. ford County Council in Dungar, van calling on the Minister for the Environment to ban all The of Local Authorities, Cilr P Cahill said that members of the Direachtas had enough to do to look after their Constituence affairs without being concerned with local bodies "There are young people interested in catering public life," said Clar Cahill, "but they haven't a hope

and Senators" Mr K. O'Ryan seconding said he did so as the ordinary aver age person could not compete when it came to competing against T.D's and Senator. They had no tree postage and other things that members of the Dail had and this provided the T.D's and Senators with an unfair advantage

Mr A Deasy, T.D said he saw a great deal of merit in the proposal as being a T.D was a the proposal was implenmente a nation-wide basis # could not be operated at all Ald. W Kenneally, TD also thought the motion a good one to which he had no objection

The resolution was passed.

Notice by the Revenue Commissioners

VALUE-ADDED TAX - CHANGES FROM 1 MARCH, 1979

* The Value-Added Tax (Amendment) Act, 1978, is to come into force on 1 March 1979

The following are the principal changes

The existing limits of £300, £1,000 and £2,000 per taxable period of two months will be increased to £500, £1,500 and £3,000 respectively Registered persons whose turnover is below the new limits and who wish to cancel their registration should contact their VAT inspector

Auctioneers, Estate Agents and Chartered Surveyors

Auctioneers, estate agents and chartered surveyors will be obliged to register and account for VAT at the rate of 10 p c on their commission on such of their transactions as are liable to VAT if their turnover in a taxable period of two months is likely to exceed £500. A leaflet explaining how auctioneers, estate agents and chartered surveyors will be affected is available from any VAT office

Livestock Marts and Livestock Dealers

Livestock marts and livestock dealers whose turnover in a taxable period of two months exceeds or is likely to exceed £1,500 will be obliged to register and account for VAT at the effective rate of 1 pc on and from 1 March 1979 A leaflet explaining how marts and dealers will be affected is available from any VAT office

Agricultural Services

The Act introduces a more restricted definition of agricultural services for the purposes of allowing persons supplying such services to remain outside the tax. Under the new proposals a person supplying agricultural services must register for and account for VAT unless (a) he is a farmer as defined and (b) the agricultural services which he provides are supplied by him using the labour force and equipment normally engaged in his farming

activities Services consisting of the natural or artificial insemination of livestock (that is cattle sheep and pigs) will no longer be exempt from VAT but persons supplying such services in the course of a farming business may, if they wish remain outside the VAT system

Restoration of 1 p c VAT credit in respect of purchases from unregistered

VAT registered persons will be entitled to claim in their VAT returns a credit or deduction equal to 1 pc of the amount excluding VAT which they have paid to unregistered farmers in respect of purchases of agricultural produce or agricultural services. The system will apply to purchases made on and after 1 March 1979 A purchase document specifying the net purchase price, the 1 pc addition and the total must be prepared by the purchaser and a copy supplied to the farmer If there is a subsequent adjustment in the price the appropriate VAT adjustment must also be made The 1 pc flat-rate addition will not be allowable in respect of purchases of fish (except from fish farms), horses or greyhounds

School or university education, and vocational training or re-training will continue to be exempt Driving schools, golf schools, dancing schools and the like will be liable to register and pay VAT at the rate of 10 pc if their turnover in a taxable period of two months is, likely to exceed £500

Agents

Schools

The existing exemption from liability will be curtailed so as to limit the exemption to travel agents and to persons supplying agency services relating to finance, banking and insurance services. All other agents will be obliged to register for and pay VAT at the rate of 10 pc if their turnover in a taxable period of two months is likely to exceed £500

Clubs and other associations

Membership subscriptions to clubs and associations will continue to be exempt where they are non-profit making organisations engaged in providing sporting or physical education facilities to their members or are of a trade union, trade advancement, political, religious, philosophical, philanthropic or civic nature. Any clubs or associations providing services to their members and not qualifying under these headings will become liable to tax in respect of their membership subscriptions

Motor cars, motor cycles, television sets, radios, record players and records The first tiers of the 2-tier VAT rates at present applied to these goods will be abolished They are to be replaced by appropriate excise duties, changes designed to maintain the present overall position

Place where international services are supplied

Certain changes will occur in regard to the place where international services are supplied These changes will affect services connected with

property, hiring services (other than the hiring of cars and other forms of transport), the provision of staff, advertising services data processing and certain other services. Some of these services, even though supplied by Irish traders, will be in certain circumstances (mainly when supplied to foreign traders not established here) regarded as being supplied outside Ireland and, therefore, not taxable in this country. Conversely, persons importing such services from foreign sources for business purposes will become liable to Irish VAT on the transactions Some taxable services supplied abroad for example the provision of accommodation by tour operators, will become liable to Irish tax where the service is supplied from an establishment in this country and not from an establishment in the country in which the service is provided A leaflet on this subject is available from VAT offices

Foreign Firms

In general, foreign firms which do not trade here and which are at present entitled to repayment of tax on certain services supplied to them in Ireland will, in addition, be entitled to repayment of tax on most goods. The main exceptions will be passenger motor vehicles and petrol

Ships and Aircraft The supply, modification repair, maintenance and hiring of certain kinds of commercial ships and aircraft will qualify for the zero rate of tax. The importation of ships and aircraft of the same kind will not be chargeable to tax The ships affected will be vessels of 15 tons gross or more used for specific designated purposes. The aircraft affected will be those used by international air transport companies

Sea-fishermen will continue to have the option to remain unregistered for the purpose of VAT They will also bnefit from (a) the zero rating of all fishing boats of 15 tons gross or more, (b) the continuation of the present repayment provision in the case of boats (assisted by Bord lascaigh Mhara) not qualifying for the zero rate and (c) the introduction of a repayment provision for certain items of heavy equipment (Purchases of sea-fishermen's catches will not qualify for the agricultural

I pc flat-rate relief referred to above) Shannon Airport

Goods supplied by a registered person within the area of the Shannon customs-free airport to another registered person whether inside or outside the airport will become liable at the zero rate

A new form of return will be introduced. This will not be significantly different from the existing return and it will have an improved and simpler format It will however require traders to declare full details of their imports in each tax rate category including the zero rate instructions on how to complete the new return will be issued in advance of the date by which the first return will be due

Registered persons are at present entitled to import most goods for business purposes free of VAT but not of duty. All imports will now become taxable but in general registered persons who undertake to enter their imports in their next following VAT return will continue to be entitled to import their business supplies without payment of tax at the time of importation

Only registered persons who satisfy the Revenue Commissioners that their trading transactions in this country are conducted mainly at a fixed place of business here will be eligible for this facility, where a person has been granted relief at importation on condition that he enters his imports on his next return and he fails to meet this condition the facility may be withdrawn from him and tax required to be paid at the time of importation on subsequent transactions

How to apply for VAT registration
Applications for VAT registration should be made on form VAT 1 available from any VAT office

Other Changes

Other changes will affect such items as business gifts and samples trading stamp companies, the State and local authorities promotion of, and admissions to, certain fairs, shows and exhibitions (annual agricultural shows will not be affected), and VAT terminology

Inquiries arising out of the issue of this notice should be-addressed to the Revenue Commissioners (VAT) Castle House, South Great George's Street, Dublin 2, (Tel 01-688711, ext 53 65 74, 104), or to inspectors of taxes

Call To Ban T.D.s And Senators From Local Authorities

Proposing a motion at Water-ford County Council in Dungar-van calling on the Minister for the Environment to ban all TD's and Senators from membership of Local Authorities, Cilr P Cahill said that members of the Oireachtas had enough to do to ok after their Constituency affairs without being concerned with local bodies. "There are young people interested in entering public life," said Clife, but they haven to hope the said that they haven to hope the said that they haven to hope the said that they have the said of getting in against the T.D's and Senators."

Mr K. O'Ryan seconding said he did so as the ordinary average person could not compete when it came to competing against TD's and Senators. They had no free postage and other things that members of the Dail had and this provided the T.D.'s and Senators with an unfair advantage

Mr A. Deasy T.D said he saw great deal of merit in the proposal as being a T.D was a full-time job However, unless the proposal was implemmented on a nation-wide basis lit could not be operated at all Ald. W Kenneally T.D also
