On June 7th, the biggest election in European history will pick a Parliament for Europe.

of Ministers, the Commission and the Court of Justice, the European Parliament is one of the 'big four' at the heart of the EEC This year, for the first time, the 410 members

of the European Parliament will be directly elected for five years by 180 million voters from the 9 EEC countries

Ireland will have 15 members in this Parliament, each one making sure that you are effectively represented

The Parliament is the only EEC body that debates in public

The Commission drafts proposals and originates laws, which the Council of Ministers finally approves But even though their work is done in private, they present their conclusions for public debate to the Parliament

It's through the Parliament then that your chosen representative gives approval or criticism

Nothing becomes law without the Parliament of the people of Europe giving their

opinion first So if you don't vote on June 7th you could end up with no one representing your point of view in Europe

o Information Offices of the European Communities 29 Verrion Square Dublin 2 on on the European Parliament Flection

VOTE! And let someone you know keep an eye on things.
