As a people we have followed all sorts of world fashions but we have remained faithful to that saying of St Patrick 'As have grown up and grown old praying for Benedict and Plus and John and Paul and John Paul-praying for him and for his intentions in Masses and in novenas and in damp November graveyards So if the man of our prayers is coming to visit why wouldn't we want to paint the room and change the curtains? It's like having the Stations for the whole country in one house because in this one man we are summed up—history and prayers and hopes and faith

he gets nothing done for people

that they are not one hundred per cent entitled to
I have estimated that roughly one hour of a deputy's day is taken up making these representations the usual method of doing so is as follows the deputy dictates a letter to the particular department involved and this letter is typed by the typist provided at taxpayers money and posted to the department by the free postage (300 letters per week) given to TD's When the standard reply is received from the Depart-ment the TD then dictates a covering note to go with the reply and this is then typed published at the office and tary provided by the secre-works, 78, O'Donnell Street, in the free postage provided by the taxpayers The holding
