PROBLEM OF OLDER PEOPLE Musical There is ample evidence to uggest that the Associations forts over the past few years to reduce the toll of pedestrians at night have been successful One major problem area has nowever Leen identification. The problem of elder people in rural areas is that they are most vul nerable on the reads at night because their clothing tends to be mostly durk coloured A lot of them live alone and they have as a roup proug mes difficult to contact and comm of the benefits of waring an armband on the road at maht In an effort to combat this

ANFIELD TRIP

Over last week-end a group of club members and friends numbering 15 went to Liverpool to see Liverpool beat Wolverhampton Wanderers 3-0 One of the main talking points was surprisingly not the super display of the home team, or a very rough Friday night sailing but the very disappointing performance of England's most expensive footballer Andy Gray

Saturday when lesser teams would have got disheartened after letting the lead slip so often
