Dublin's defeat of Laois coupled with Waterford's win over Kerry at Dungarvan on laid on by the proprietors of sunday last ensures the Deise side of promotion and a quarter side of promotion and a quarter final place in the National Hurfinst class

ANNUAL SOCIAL
The annual social was held on Friday night, February 29 and was attended by 260 supporters A wonderful meal was laid on by the proprietors of the Hiltop Hotel Youghal and the music was supplied by the Society Four and was as always first class

And while it would be hard to condemn too strongly Waterfords performance against a spirited Kerry side in last Sun-days clash their display nonetheless could not inspire confidence for their future prospects Only a handful of spectators were present for what turned out to be an uneventful game | KEANELAND CUP The pitch was in poor state due to the weather and top class hurling was not feasible

Yet Waterford on the day

showed a complete lapse of form and the gap in standards was not all that noticeable even though the home side did always seem to have that little bit extra to call on when the Kingdom threatened any danger The opening ten minutes produced a close struggle as Waterford failed to settle The early superiority expected never materialised due to the fact that star midfielder Mossy Walsh for once falled to hit form Waterford led 0 3 to 0-1 after ten minutes and were 0-5 to 0-2 in front by the 13th But it wasn t until Edgie Rockett switched with Walsh that the home side began

to put their game together Rockett helped John Fitzpatrick to win the midfield battle wnile Walsh showed great im-provement in the half line of attack and by the interval Waterford had increased their lead

Waterford showed a re-arranged attack on the change-over with Pat Curran coming on for Tom Moore Kerry's cause was not helped by the fact that they had to withdraw three of their players due to injury durmg the first half and they looked to be in real trouble as Wa terfora sent over six points in

The Kingdom however refused to accept the inevitable and Jim Sullivan's point in the 38th minute gave them new hope and when John Kirby goaled a minute later following a terrible mix up in the Waterford defence the home side looked anything but confident as an element of panic crept into their play as

Kerry piled on the pressure Todd Nolan added a point to cut the arrears further but Waterford with Nicky Cashin emerging as the dominant figure at centre back weathered the storm effectively

Kerry had two further points from Nolan and Hussey to which Waterford replied with a minor per Declan Fitzpatrick but the home side ran out comfortable u not very impressive winners in

As stated it would be hard to te too critical of Waterford's performance judging by the standard of the Kerry side who remain pointless after their coaching course

Waterford did enough to win on the day but what might be a cause for concern was the fact

Attending the football coaching course being held at the Friary College ground are club a cause for concern was the fact that the attack failed to get through for a goal during the course of the hour

Farmers Blatantly Discriminated Against

Irish Dairy

Mr Noel Davern TD TPE said today that he was indig-nant to learn that Irish dairy farmers had again been duped by the EEC Commission Earlier this month Mr Gundelach had assured the Minister

for Agriculture Mr MacSharry that Ireland's normal butter export trade with the Soviet Union would not be affected by cently the Commission announced that such sales would now be regulated by a new tendering system and would not benefit from Community subsidies The Commission had not made it clear how it intended to organise exports of fresh EEC butter Clearly EEC as-surances could no longer be taken at face value Was Ireland to face the full brunt of all the blatantly dis-

criminatory measures against dairy farmers from super levies to interference with our export markets? Who was the real force behind Commissioner Gundelach? Who was dictating the future of the CAP? Mr Davern in conclusion advised the Commission not to underof any club running off eight farmers The Government and estimate the strength of Irish the Irish members of the European Parkament were unani-mous in their determination to stand up to the threats posed by the growing antidairy farmer campaign This had been clearly demonstrated in the European Parliament and in the
