manner in which female members of bank staffs are being discriminated against in this regard.

Cver £150 million has been hanked out in loans by the banks to their staffs at interest rates of between 3% and 5% on mortgages of £20,000. Those figures when compared with the interest rates of £20,000. Those figures when compared with the interest rate of £16,25% which the average borrower has to pay is nothing to be sneared at For the bank compleyees the value of this "pork" is rapidly appreciating. A bank om ployee's £20,000 mortgage calculated at the rate of 3% will be worked to the current year. While most of the banks are screetive about the perk, it is generally accepted that the interest rate for staff bank varies between 3%, and 5%.

HOW TO MAKE A FAT PROFIT WITHOUT RISKING A PENNY National

All over Ireland, people are turning to National Instalment-Saving. Its the modern, easy way to save. For a start, you decide how much you want to put by-anything from \$1 to \$100 a month.

You save for one year only—then sit beyt and watch your money go into action!

2 years after completing your agreement, you'll have made a tax-free bagus of \$17.5, 3 years laker, 40%, 14 years latter, 50%.

And 5 years later your savings will have grown by a whopping 70% TAX-FREE.

These figures show your minimum returns. Because your capital is not only Government potamileed, it's index-lanked to keep pace with the cost of living. If he consumer Pice Index goes up, your earnings go up. It's bott simple.
