E.E.G. GALF PREMIUM SCHEME 1982/83

1. CALVES BORN BETWEEN 20 MAY 1982 AND 30 JUNE 1982.

Application forms are being posted to herdowners to enable those with calves born during the above period to apply for payment of the Calf Premium of 32 ECUs (approximately E22), in respect of each digible calf, If an intending applicant has not received an application form by 31 December 1982, he should contact the local office of the Department of Agriculture.

Each applicant should complete the application form and return it together with the Certificates of Birth of the calves listed in the form to the Department's local office between 3 January and 21 January 1983. UNDER NO CIRCUMSTANCES WILL AN APPLICATION FORM RECEIVED AFTER 21 JANUARY 1983 BE CONSIDERED.

Payment of premiums will be made when check inspections are completed in April 1983.

2. CALVES BORN BETWEEN 1 JULY 1982 AND 31 DECEMBER 1982.

Flordowners are reminded that to be eligible for premium when six months old, every calf born up to 3) December 1982 must have been inspected, cartagged and issued with a Certificate of Birth by an inspecting officer of the Department. Local tagging centres, will continue to be manned by the Department's officers for this purpose up to Friday, 28 January 1983 but as these arrangements will then be discontinued, herdowners should ensure that all calves born late in 1982 are presented for inspection before that date.

Details of application arrangements for payment of premium on calves born in this half year will be announced later.

3. CALVES BORN FROM 1 JANUARY 1983.

The changes in the Scheme recently announced will apply from 1 January 1983 and will enable herdowners to earlag on-taim causes born on or after that date instead of presenting them at centres. From 1 January 1983, terdowners will be required to keep a simple Caff Register for calves owned by them and complete Certificates of Birth for calves sold. Both Register and blank Certificates will be supplied by the Department.

Special Calf Premium cartags and dagging phois with which the cartags and be attixed to the calf's KIGHT car will be available from the farmer's Local Al Service Network from 23 December 1982. The eartags will cost about 25p each and the tagging piers can be hired at a rental of £1 per day plus deposit or purchased for £25 approximately.

The eartag should be affixed WITHIN SIX WEEKS OF BIRTH and in the tollowing manner:—

- 1. on the RIGHT car;
 2. with serial number facing feliward (i.e. a person in front of and tacing the call should be able to read the number);
 3. in the position on the ear indicated by a diagram on the cover of the Call Register;
 4. with sufficient clearance above the ear, to allow for growth.

Within 3 days of eartugging, the herdowner must enter details of each call (particularly its date of birth) in his Calf Register.

No further entries will be required for calves kept on the farm until inspection for premium payment purposes at the six months stage. If, however, herdowners sell or buy calves or if any of their calves die, they must enter details of the sales, purchases or deaths in the Calf Register.

CERTIFICATES OF BIRTH

Because buyers must know the dates of birth and other details to enter in their own Calf Registers, sellers of calves will be obliged to complete and pass on with each calf they sell a Certificate of Birth giving the necessary informatics.

A Calf Register and a supply of blank Birth Certificates is being posted to each herdowner. Any herdowner who does not receive these documents by 31 December 1982 or requires an additional supply should contact the Department's local office.

Inspection and payment arrangements for calves born on or after I January 1983 will be announced later.
