Meetings of local public bodies have many a time and oft" fallen through upensation for criminal injuries will be cil, belonging to the County Cork side of day, when not a single councillor put in appearance. It must be admitted that the lestruction of 60 Tons of Pressed Hay. It was it did not hinder over 5,000 of the The place where the injury occurred is poor children of Cork coming down for a holiday to the seaside. It is quite evident decay, though a "job" seldom or never fails to buck them up-and the sooner they retire and give room to others prepared to give more attention to the interests of the people they represent the better for all

> The Board of Guardians also made a sorry figure on the same day, running a very close second to No. 1. There are rural councillors and town guardians, and out of these only two-Messrs. J. E. Farrell and Maurice Cashman-put in an appearance. The latter is very nearly, if not altogether, the " father " of the board. One other would have made the necessary If Mr. Cashman braved the elements in the discharge of his public duties it surely ought not be too much to expect that some of the younger bloods would follow his

Youghal is celebrated from time immenorial for the splendid bathing facilities t affords both at the County Cork and Waterford sides of the harbour. Indeed, vith proper development Waterford shore from the Ferrypoint out to the East'rd Point and on towards Whiting Bay would be beaten anywhere. Subsequent to the dance given in aid of the local Sick Poor Society in the Town - Hall on the 26th ult., rumour was very busy condemning the Y.C.Y.M.S. for havng at the last moment refused the use of their room to the dancers during the night, As the object in view was most praiseworthy and charitable-to help in raising funds for the purpose of employing a nurse for the sick poor of the town-this rumour created great surprise and some resentment added. However, after making due inquiry it is pleasing to be in a postion to

FOOTBALL CLUB SUCCESS.

The marvellous success which has attended the different grades of football in Youghal this year has caused a great re-vival of interest in the local teams, which bad lapsed owing to the war and other causes. The first team is now in the final of the county, having disposed of the formidable Bantry team in the early portion of the season, and then of Nils (conquerors of Macroom) later on. The final will be either against Cove or Collegian's, both teams to be conjured with, and it is hoped that the members of all the teams will devote themselves to hard practice at the times appointed for the future, and so do everything in their power to win the coveted honour for the dear old town. The and the same remark applies to them. Youghal out of twelve or thirteen matches cert in aid of the funds of the club to help to defray expenses will be held before the end of this month, and the generous support of the Gaelic-loving sportsmen of Youghal should be substantially given.

It is said that a gentleman from the neighbourhood is being subjected to somewhat of a boycott in connection with his action at a recent petty sessions court. Leaflets have been widely distributed and posted in the locality calling on farmers not to deal in any shape or form with this administrator of British law in Ireland," just another instance of history repeating itself, as will be appreciated by anyone acquainted with the course of events that took place during the land agitation

A RUMPUS.

Local gossip has it something pere will be heard of an incident which occurred at the recent dance gven in aid of the Sick Poor Society. It is said that shortly before the dance opened the use of the cleakroom generally given for the purpose was refused. Various reasons are given for the refusal-one being that it was owing IT WOULD PAY YOU TO VISIT OUR to the fact that the music for the occasion was rendered by a military band. Be the reason what it may, the incident has given rise to some very strong comments in view of the object for which the dance was or-

MILE PRODUCTION.

DEPUTATION TO DEPARTMENT.

A deputation of milk producers from dif ferent parts of Ireland waited on the Department of Agriculture and Technical In struction on the 27th August with a view to representing the present abnormal difficulties affecting milk production and the serious influence these difficulties were having in reducing the milk supply. The following comprised the deputation:--Messrs, Ferguson and Kirkpatrick, repre But let us suppose that Mr. De Valera senting the Belfast and North of Ireland Milk Producers' Association; Messrs Reamish and O'Grady, representing the Cork Dairy Farmers' Association; Messrs. The deputation was received by Mr. T P. Gill, Secretary of the Department, with Mr. J. R. Campbell, Assistant Secretary try had a grievance, and that he could Mr. J. S. Gordon, Deputy Assistant Sec retary and Chief Inspector; Mr. E. Gallagher and Mr. A. Poole Wilson.

Amongst the factors emphasised by the deputation were the continued shortage in the supply and the greatly increased price of imported feeding stuffs; the severe eflects of the prolonged drought; the recent, great increases in prices of beef cattle with their effect in raising the price of milch cows; and the difficulty of labour both as regards increased wages and shorter hours and unsatisfactory service. All these causes were making it almost impossible for many people to continue the industry and were driving farmers who such as above.
