TOBIN-At her residence, Curraghdarra,
Aglish, on February 26th, Mrs. Tobin, to the inexpressible grief of her sorrow-

One long year since mother left us, How we miss her loving face; " But she left us to remember None on earth can take her place.

A loving mother now has gone, A mother fond and kind, Whose memory always fresh will be With those now left behind,

The blast was fierce, the shock severe, To part with her we loved so dear; Our lot is hard, we won't complain, But hope in Heaven to meet again.

Local Official Prometed.—His numerous friends in Dungarvan and the County Waterford will be glad to hear that Mr. Hickey. Excise Officer. Dungarvan. has been promoted to be Supervisor in the Inland Revenue. At the examination recently held for the position Mr. Hickey secured 4th place in a big field of competitors. During his time in Dungarvan Mr. Hickey was an able and efficient officer, who did his duty fearlessiy and well. An official of merit and an Irish-Irelander of sound principles, his promo-Irelander of sound principles, his promo-tion is only in keeping with his worth, and congratulations are extended to him in the heartiest manner.

At Last.—The steamroller arrived this week and began work in Shandon. It is to be noped that the work will be expedited and that the Burgery and Youghal roads will be rolled without de lay, as they are in a very had state and a danger to those who use them.

The Water Supply.—We would advise the public to carefully peruse the report of Mr. Bowen. county, aurveyor, on the water supply of the town, which is in a very bad way. There is no water and no way of filtering it. The bottom is no way of filtering it. The bottom is no way of filtering it. The bottom is no way of the reservoir, and it is providedly out of the reservoir, and it is build it was practically out of the reservoir, and it is useless for the purpose for which it was intended. The whole water question is a disgrace and betrays a great neglect in the past. The result is that large expenditure must be incurred to get a supply commensurate with the needs of the town, but for that the present council have no blame, as the default was, long prior to their election. It is to be hoped that a good jeb will be made of the works and that no further complaints will be beard of a shortage of water. Mr. Bowen is to be congratulated on the manner in which he tackled the question.

# Again Something New in **Tillage Implements**

At the County Implement Depot.

THE VIBRATOR SPRING TOOTH HARROW ON WHEELS has created a sensation. This is one of the New Implements Mr. Moloney secured at the recent London

NOTE IMPROVEMENT AND ADVANTAGES.—Is much Lighter in Draft
The Vibrator Tooth has a Spring and a Bigging action. It will keep the ground
at any depth. Set while at the same time it vibrates breaking and pulverizing
the soil. The construction of the Vibration Tooth acts as a shock absorber, reducing dead weight on horses and bringing the strain to a minimum.

Just read what a local big tillage farmer says—"I have had the Cultivator purchased from you last week under test both in hilly and level ground. I certainly say it is the most wonderful tillage implement I have ever used. It will do double the work of an ordinary harrow and very much lighter in draft."

Every Harrow is sent out on trial and can be returned is not satisfactory.

A New Spring Tooth Harrow without Wheels is also on show. It has new Patent Tines and new Depth Regulator, and only just the price of the ordinary Harrow.
