Congratulations.—The result of the Easter Scholarships Examinations has just been published, and we note will pleasure the success of Mr. James Foley, Shandon, and Mr. Thomas Higgins, Mary street, the two candidates sent forward by the Dungarvan Christian Schools. In a list of two hundred successful candidates from the Free State, Mr. Foley took 8th place, a very remarkable achievement. These results are the more striking since it was generally thought that a Secondary School following the ordinary programme.

Sole Agent for the famous B School following the ordinary programme could not successfully prepare students for the specialised courses which this examination demanded. It is evident, however, that in our local schools the material interests of the students are not subordinated to the requirements of a mere academic course of little practical value. Either the Secondary programme is in itself a very practical one or it can be made so by a wise adaptation whenever there is a desire on the part of the teachers to provide for the material welfare of the students and fit them for the battle of life—a battle which is every day becoming more streamens. > CAMPHIRE, LISMORE

5th Aug., '24. Dear Sir, I beg to inform you that I have heen a first-class prize winner in Yeast Cakes at the two recent Shows held in Dungarvan and Lismore. In these Cakes I used your Flour "Snow

Queen" bought by me from Mrs. A.

C. Walshe, High-Class Bakery, Lis-The manufacturers of "Snow Queen" may be pleased to know the good quality of this flour. It is splendid. As their Agent you can use my opinion and results. I am. Dear Sirs. Yours faithfully,

(Signed) BRIDGET GEARY

We congratulate Miss Geary on her success, and on her foresight in using "SNOW QUEEN" the Flour that can be relied upon to produce the best results.

With Sulphate of Copper and Soda Crystals showing saving of £16 worth of Potatoes per Acre at a cost of 19s. 6d.

The advantages of Potato Spraying are forcibly demonstrated in our illustration. A crop of potatoes were planted in the usual way, and in the after-treatment were divided into three sections. The result is shown in the photograph. This experiment should convince every Potato Grower of the necessity in spraying and only with Pore Sulphate of Copper and Soda Crystals.
