### CUTTING HEDGES.

Held on Wednesday, before Mr. J. S. Troy, D.J.

Mr. Bowen, county surveyor, summoned Mr. Patrick Egan, Ballyharahan, for failure to cut his hedges as required by law.

Mr. McCoy, solicitor, for the County Council, and Mr. E. A. Ryan defended.

Mr. McCoy cited the Act of Parliament as to the cutting of hedges, etc. Mr. O'Connell, assistant surveyor, deposed to serving notice on the defendant's hedges and after doing so he met the defendant and told him about it. Witness said the hedges at both sides of the road obstructed the view, and also there was a curve on the road at the point. Defendant had not complied with the notice.

By Mr. Ryan—It was within a month after getting notice to work at the hedges that the defendant was not done to them. He could not say the defendant was eight days with three men and three horses at the work.

Mr. Ryan said that was a pretty good job for a man paying £120 rates.

Mr. Troy—The cutting of the hedges would help to reduce the rates.

By Mr. Ryan—We never complained after he doing this work that the regulations were not complied with. The defendant told me before he started the work he could not do the work in the way he was asked.

He said the same last year, and gave as his reason he wanted protection for cattle. He did not get my back up as I was only doing my duty. Why did you not go and suggest to him what should be done? I was tired going to him the previous year about this matter and he only trimmed the face of the hedges.

In no case has he cut the hedge lower than 6 feet from the ground. The hedge is in places 20 feet high. The fence is 6 ft. high and the hedge is 14 ft. high in parts. On the particular road in question he never cut it down below 6 ft. In some places it was cut to 8 ft. and in other places more. Witness said the hedge should be cut down altogether, but he admitted it would be a heavy job.

To Mr. McCoy—The part of the fence not cut down to the required height would be about 700 yards. Nearly all complied with this order.

Mr. Patrick Egan, Ballyharahan, the defendant, said when he got notice himself and three men and three horses were for eight days working at the hedges, and after that he got the summons. The fences were done well and the hedges were cut down to 4, 5 or 6 ft. on the sunny side, and on the north side he had done all he could also. He was surprised to get a summons after all he had done. He could see to interfere with the road at present, and he would leave it to any two County Councilors or two farmers to decide. Until he got the summons he had heard no complaint of not having done all that was required of him. He still maintained he had done all he could. He paid close on £120 in rates.

By Mr. McCoy—This hedge is on the main road to Helrick. I think I complied with the regulations. I don't think the hedge is a bit of injury to the road at all. I finished the work in November. To Mr. Troy—I only cut down portion of the north side on top. I cut all the hedges along the face. I want to keep some of the hedge for shelter.

Mr. Ryan said that was the first case under the new Act and was an interference with a man's right of property. He held that the Justice should view the case with the greatest leniency to the side of the defendant. He complained of the manner in which his client was treated. He had complied for years with all notices served on him. Mr. Ryan then read the notice served on Mr. Egan, and said it should be made more specific before being served. He complained that no notice was served on defendant to show that he had not enough work done to the hedges.

He held the case before the court in a very unsatisfactory manner. This Act never contemplated that forces used for shelter should be cut down. He did not think it was ever the intention of legislation that no bit of shelter was to be left on the roadside, and that every tree and hedge had to be cut down in the interests of the motor lorries that were tearing up the roads. Even from sentiment they should preserve some bits of beauty on the roadside and save some of the trees and hedges. The post says:

"Woodman, spare that tree,  
Touch not a single bough;  
In youth it sheltered me,  
And I'll protect it now."

He (Mr. Ryan) held the notice served on the defendant was bad.

Mr. McCoy said this was one of the most beneficial Acts of the Statute, so that the roads may be maintained at the minimum of expense to the ratepayers.

He suggested that the Justice inspect the places and see how the matter stands.

Mr. Troy said he would go and see the road before deciding the case.

Mr. Troy paid a compliment to the ability with which Mr. O'Connell gave his evidence.

His Worship having motored to see the hedge in dispute at Ballyharahan, returned to court and made an order that the hedges be cut down within 14 days to 6 feet of the level of the road or 4 feet over the level of the land, which ever is the higher. At the expiration of 14 days if the work be not completed to the satisfaction of the County Surveyor Mr. Bowen to come along with his own staff and complete the cutting, the expense for this work to be levied off Mr. Egan.

**Bad Service.**  
There was a like prosecution against Mr. Michael Flynn, Granofada, Dungarvan, in respect of his failure to cut a hedge.

Mr. McCoy, solr., for the County Council.  
Dan Stokes, overseer, gave evidence of the state of defendant's hedge, which was 12 ft. high over the centre of the road. It extended for 300 or 300 yards. That interferes with the road as it keeps off the wind and sent the road is wet. He has done nothing to comply with the notice. The County Council workmen trimmed the face of the hedge, but the defendant did nothing. He promised to cut it, but that was not done.

Defendant—My dear man, you did not speak to me for 20 years? I met you on the road and told you.

Defendant—You did not. He gave the notice to a little boy of mine and when I got it it was dirty and there was something on it about hedges. Was it you or the county surveyor who did this to me?

Defendant—If he was doing his duty he should have seen it every day.

Defendant then referred to another man's hedge which was wretched, and Mr. Troy said—it would be better if you kept to your own place.

Mr. O'Connell, B.E., said the face of the hedge was trimmed. It was 12 ft. high and the road was narrow. The hedge was not lopped. There was a hedge at the other side and it was cut.

## Dungarvan Urban Council

### Mr. Wm. O'Donnell, vice-chairman, presided.

Also present—Messrs. J. Butler, T.D.; J. Moore, T. McCarthy, T. Mahony, M. J. Keane, P. J. McGrath, M. Clancy, J. Curran, R. Craig, T. Power, M. Griffin, J. Hackett.

The following payments were passed—General account, £31 17s. 7d.; water-works, £30 1s. 4d.

**HIGH VALUATION.**  
Mrs. Griffin, Abbeyside, appeared before the meeting with regard to the valuation of her property. She said that before the reconstruction of her premises the valuation was £20 10s.; now it was £30 10s. She asked the council to recommend a reduction to the Commission's valuation.

The Clerk stated that the Commissioners had decided to reduce the valuation by 4s.

Mrs. Griffin said she was not satisfied with that.

Clerk—All we have to do is to send in the complaint with the other property. Mr. Craig—it is unfair to Mrs. Griffin that her valuation should be trebled.

Mr. Power—Only a general revision of the valuation of the town will right matters. I know houses beside one another and the valuations are different.

Mr. Clancy—That would be a serious thing as the valuation would be bound to go up.

Mr. Power—Why should I pay 50 per cent. more than my neighbour?

Mr. Clancy—That is only in the case of new houses.

Mr. Butler—The question of re-valuation would require a lot of consideration. It would mean higher license duty and higher rates.

Mr. McGrath—This high valuation is detrimental to all new improvements.

A resolution proposed by Mr. Craig, seconded by Mr. Hackett, recommending a reduction in the valuation of Mrs. Griffin's house was passed unanimously.

**THE GRANT.**  
Mr. McCarthy—When will work be started at the water pipes?

Borough Surveyor—I wired on Monday last about the connections needed and I had an answer on Wednesday to the effect that the connections would be sent within 7 days.

Mr. McCarthy—I am afraid that the money will have to be sent back.

Mr. McGrath—It is serious; we have now only three weeks.

Borough Surveyor—We must have the T connections to start, otherwise the road will be open for an indefinite period.

Mr. Clancy—I think we should ask for an extension. I suggest we ask Mr. Butler to interview the Minister.

Mr. Butler—The Minister has no power in the matter as all monies revert back to the Treasury by the 31st March. However, there is a possibility that the money will be reverted.

Mr. Power—in the meantime we should try and get the work done.

**NEW HOUSES.**  
The L.G.B. were sanctioning the building of the 20 houses at Mitchell street in brick at £294. They took it that the plastering of the outer wall was included in the money. They also sanctioned the purchase of the two plots at Abbeyside-Dunogue's and Foley's at £100 each.

Mr. Butler proposed, and Mr. Craig seconded, that the two plots at Abbeyside be purchased for £100 each and that the solicitor be instructed to arrange for the transfer. Passed unanimously.

**STRAND STREET.**  
Mr. Curran—What has been done at Strand street?

Borough Surveyor—We took off some of the stones.

Mr. Curran—You should send a couple of men there to break the stones and make a pathway.

Mr. Clancy—It should have never been done at first.

Mr. Curran—It must be done.

**TOWN'S IMPROVEMENT.**  
Mr. Keane—Mr. Clancy and I visited the Civic Guards on Sunday last. The sergeant assured us that the protection of public property was receiving every attention.

## Kilmacothomas District Court.

Before Mr. F. J. McCabe, D.J.

**Alleged Cruelty to Turkeys.**  
Guard McCarroll, Stradbally, charged John Connors with carrying live turkeys tied in pairs, head downwards, at Stradbally, on the 18th December last. Jas. Grant, who assisted Connors on the occasion, was also summoned on a similar charge.

Guard McCarroll stated he observed the defendants carrying turkeys head downwards on December 18th. The birds were tied in pairs. Defendants each carried two pairs on both hands at a time for a distance of eight yards. In his opinion the birds were being cruelly treated. He approached the two men and asked them to discontinue carrying the birds head downwards. They refused and he asked them to give their names. Connors gave a wrong name saying he was Edmond Whelan, of Fiddown. The other man supplied his correct name and address. From information he received later Connors' identity was established. On Sgt. Keane asking the defendants to discontinue carrying the birds head downwards they obeyed him.

John Connors, sworn, told his worship that he was just a paid hand employed by Mr. Meade, Fiddown. He was for the past 6 or 7 years landing birds in the manner described by the Guards. So far as he knew carrying fowl head downwards for a distance of a few feet was not cruel. He did not give his own name to the Guard, but he gave the name of the firm which he thought was the proper one in the circumstances. He was in front of the Guard's barrack on the day in question and he could not stop loading the birds until he had finished the whole consignment purchased. He did not carry any of the turkeys head downwards more than three feet on the occasion.

Guard McCarroll—Did you see me measuring 12ft. from the heel of the car? Defendant (after slight pause)—Yes.

Guard McCarroll—Did you see me measuring 12ft. from the heel of the car? Defendant (after slight pause)—Yes.

Continuing, Connors said that on the day before he went to Stradbally he had handed 700 goose head downwards at Carrick-on-Suir and the sergeant there saw him and did not interfere.

James Grant (sworn) said he worked for Mr. Meade. He was 25 years in the business and travelled to all markets around within a radius of 60 miles for his employer. He handled 56 turkeys and 8 chickens at Stradbally. If birds were carried by their wings it would be cruel as the wings would be broken as a result. On the other hand, if they were thrown down on the scales it will cut their wings and will not be cruel, but will take from their value as well. Anything inside of 5 yards would not be harmful carrying birds head downwards. He wouldn't like to carry them further than 8 yards head downwards.

In giving his decision, the Justice said that it struck him the defendants were not deliberately cruel, but they were carelessly cruel. He did not accept Connors' statement relative to giving a wrong name to the Guard and he fined him 10s. and costs. The other defendant was fined 5s. and costs.

**Poaching Prosecution.**  
The case of four young men from the Leamhribin district who were charged with illegal fishing on the river Troy was adjourned to next court in the absence of Mr. J. F. Williams, solr., for the Board of Fishery Conservators.

**Stradbally Garda Complimented.**  
When the adjourned case of Sergeant Keane, Stradbally v. Richard Lenihan, Dunahribin was called, his Worship complimented before proceeding with this he wished to state that as the present was the first court, since the wreck of the Spanish ship occurred at Stradbally, he took this opportunity of congratulating Sgt. Keane and his men upon the splendid work of rescue recently effected by them on the occasion. It gave him the greatest pleasure in associating his with the many deserving compliments already paid them through the Press and otherwise. Epic feats on the part of the Garda's such as in this particular instance struck him as a creditable place in the hearts of the people. He felt sure that all present thoroughly appreciated the bravery shown by Sgt. Keane and his men, and were wishful to be joined with him in paying tribute to their valor.

Supt. Keane heartily thanked his Worship for the kind sentiments he had expressed, and assured him that he (Supt.) felt pardoned proud of the Sergeant and Garda's, whose gallantry at Ballyvooney added fresh lustre to the laurels of the force.

The case against Lenihan was then dealt with. Sgt. Lynch swore that he found defendant in a drunken state on 26th December last. A small fine was imposed.

**Ill-treatment of a Horse.**  
Sgt. O'Donnell charged Wm. Nevin with cruelly kicking a horse on the 11th February.

The sergeant said he knew defendant for some time and did not think that the cruelty complained of was deliberately performed as Nevin seemed to have some drink taken at the time. Defendant stated the animal was young and inclined to be flighty. He may have treated her roughly, but he did not ill-use her, fined 10s. and costs.

### Sympathy.

At a specially convened meeting of the Clonca Sports Committee held on Monday evening, Mr. Robert Power, Killergine, vice-chairman, presiding, the following resolution, proposed by Mr. Patrick Whelan, N.T., seconded by Mr. Willie Flynn, was passed with a vote in respectful silence—"That we beg to tender our very sincere sympathy to Messrs. John and Michael Hassett, Killcloney, in their recent sad bereavement caused by the death of their dearly-loved sister, Miss Maggie Hassett." The hon. secretary was directed to forward copies of same to the Messrs. Hassett.

**The Late Right. Rev. Monsignor J. W. Power, P.R., All Saints, New York.**  
The above-named eminent pastor, particularly of whose death was reported on last week's issue, was brother of Very Rev. Edmond Power, P.P., Larchmount, New York, and uncle of Rev. John J. Power, Catholic Rector of Hanford, California, who was ordained in Waterford a few years ago. The late Monsignor Power was considered one of the leading pulpit orators in the States.

**Saving Operations.**—The work of saving the cargo of the Spanish ship "Cirilo Amores" at Ballyvooney Cove (near Stradbally) is progressing speedily and satisfactorily under the personal supervision of Messrs. Shipsey and Millar, Dunmore, who are supposed to have purchased the vessel and its entire contents from an Insurance Company at a figure stated to be not less than £1,000. Goods to the weight of only 30 tons are being discharged daily, and provided weather conditions hold favourable, the boat will be completely emptied in the next fortnight. A goodly number of workers, drawn from Dunmore and Stradbally, are engaged in the operations. The salvaged goods are carted to Stradbally, where they are transferred to waiting lorries for removal to Dunmore. It seems that the boat's consignment is not nearly as badly damaged as it was first considered to be. We understand that an effort to re-float the ill-fated "Cirilo Amores" will be made as soon as she is fully discharged, and in the event of failure in this, she is to be dismantled and disposed of as scrap.

**Butter Producers** will note with much interest the fact that the local weekly fresh butter markets will again be resumed in our midst within the next few weeks, and we are automatically informed that records prices will be paid to vendors this year. One of the best known Cork firms has asked a local agent to inform customers that there is absolutely no short supply of fresh butter of late very high quality to the effect that the Dairy Produce Bill debar in future the making and selling of farmers' hand made butter. Cleanliness in the cow shed and in the dairy is the chief concern of this Bill, and it does not prevent the making of butter by hand and its subsequent disposal at the markets as formerly.

**Dungarvan Hockey Club.**  
Dear Sir—Referring to "Hockey" contained in your last issue, I am directed by the committee of the above to reply to same.

With reference to our good fortune in winning the match which inaugurates we were not the better team, we dismiss without comment or discussion.

Regarding the animadversion that our "fall" scarcely ever allowed the outside shoulder to pass without catching him by the shoulder, it is distinctly challenge and emphatically deny. This is a most unutilized statement to make with regard to any individual member, especially a lady. It is a well-known fact that the lady referred to has a thorough knowledge of, and has always played the game according to the rules, and which will be acknowledged by teams other than Lismore with whom we had the pleasure of playing.

It is quite apparent that your correspondent has very little knowledge of the game, as it is the duty of the "left half" and not that of the "fall" to mark the opposing outside right.

Under the circumstances my committee decline with thanks any advice on the rules concerning the "Hockey Code" which your correspondent may be willing to give.

## CARCASSES IN A QUARRY.

### WHO OWNED THE HEIFER?

**STRANGE CASE AT DISTRICT COURT.**  
At Dungarvan District Court on Wednesday, before Mr. Troy, D.J., Guard Walsh, Ballinacorney, summoned John McGrath, Lackenarra, to permit him to remain unburied in a quarry to which dogs could gain access. There was a second summons as regards a calf. Mr. E. A. Ryan, solr., for the State and Mr. Spears, solr., defended.

Guard Walsh said on the 17th February Patrick Hickey reported to him that a 2-year-old white heifer was thrown into his quarry at Lackenarra. He investigated the case and saw the carcass in the quarry. From inquiries made he found the defendant had two white heifers previously. He saw the defendant and took a statement from him in which he said he had three 2-year-old cattle, but in his fields he found four. Defendant said one of them was a 3-year-old. He denied he had two white cattle. Some time previous witness saw two white cattle on the land, and when he mentioned that to the defendant he said the second was probably a heifer that strayed on to the land. P. Hickey also reported to him that a calf was thrown into the quarry. When questioned on this defendant said he had five cows calving, but had only four calves, as the other calf died and he buried it in the manure heap. Later he said he gave the carcass to the dogs. Defendant said the cow was calving three weeks and Mrs. McGrath said she was calving two months. The carcasses were in the quarry yet. Witness reported the matter to the sanitary officer and to Mr. Hickey giving the latter 24 hours' notice, but he refused to bury them.

By Mr. Spears—I never spoke to Hickey or McGrath before and I know nothing about their relations to one another. Hickey came and reported the carcass of the heifer and calf were in the quarry. He did not say they were the property of McGrath. He could not say if any of McGrath's cows died. The calf found in the quarry was a kind of straw-ferry. It was a mottled calf.

Patrick Hickey said the quarry was in his land. He reported the heifer being in the quarry on the 17th February, and on the 19th February McGrath was found there. He knew McGrath and well he should know him. They did not love each other, but it was not his fault. He could swear that the dead heifer in the quarry corresponded with the white heifer McGrath had. He did not know anything about the calf.

By Mr. Spears—I did not take out the carcass out of the quarry and I won't. A white heifer two years in missing from McGrath and I assume this is the carcass of the dead beast. I never spoke of McGrath's name to the "Civil" Guard.

Mr. Spears—Would you be able to tell if the dead heifer had a calf recently? No.

Mr. Ryan—He would want to be a midwife for that (laughter).

Patrick Coleman said he knew the quarry on Hickey's land. One night in February at 7 p.m. he met John McGrath on the road near the quarry. He had a car, but could not say if there was anything in it. He saw no bag in the car. He was going in the direction of his land not far from the quarry and he returned in 15 minutes.

By Mr. Spears—I don't take the same interest in McGrath's cattle as Hickey. He has land at each side of the quarry.

Mr. Cliffe, Slesdy, said he met McGrath one night going towards his own land.

Mr. John McGrath, the defendant, said he had two holdings—one at each side of the quarry. He had 13 cows on the 13th February and has them still. On February 10th he had two 2-year-old heifers and 100 coming three years. One of his cows slipped a calf at seven months and he gave the carcass to the dogs. He had one roan, one white and roan and a spotted heifer in February and he had them still.

By Mr. Ryan—It was going feeding a pony I was with turpins in a bag on the evening referred to. I had no calf in the bag. I lost no heifer or calf. I could not say who lost a white 2-year-old heifer. I take no interest in my neighbor's misfortune. He was not friendly with Hickey on account of his wife.

Hickey—it is not the wife, but yourself. Defendant—I did not tell the Guard I buried a calf in the manure. He remembered meeting Coleman and Cliffe on the road one night going to feed the pony.

To Mr. Troy—I had no two white heifers.

Mr. Troy—Mr. Hickey and the Guard say you had them.

Patrick McGrath gave evidence and said the calf that was slipped was only as big as a cat.

Mr. Troy—What became of the other white heifer? Witness—We had no second white heifer.

James Wall said he became a servant at McGrath's on the 10th February. There was only one white heifer there.

Fat Blattery, Croughnamadree, gave evidence of the cattle the defendant had in August last. He heard of one losing a white heifer of late. He did not know who checked the dead cattle into Hickey's quarry.

Mr. Troy said he was satisfied McGrath had two white cattle and one disappeared, and he imposed a penalty of 20s. and costs in each case as he, each witness' expenses.

## CORRESPONDENCE.

### To the Editor of the "Observer."

A Chair—At a meeting of the Waterford County Council, which was held recently in Dungarvan, Mr. Deane, as reported in the "Observer," stated that he knew of a certain Irish class whose notices were sent out asking members for God's sake to attend or the class would fall through.

I am the only Irish teacher who conducts classes in Mr. Deane's neighbourhood, and, as far as my classes are concerned, his statement is entirely inaccurate. I hold evening classes in Ballymacarney, Kilkenny and Knockmal, and I am pleased to say they are well attended. They have been inspected officially, and found satisfactory

Co. Board of Public Health.

A meeting of the above was held in the Courthouse, Dungarvan, on Tuesday, Mr. Patrick O'Gorman, chairman, presided. Also present were—Messrs. J. O'Donnell, W. Stack, J. G. Duke, D. Ward, Mes. Walsh and D. Conway. Dr. O'Mahony, Tallow, reported that the main sewer was blocked in Tallow and required attention. The matter was referred to the engineer.

RINGVILLE WATER SUPPLY.

James McCarthy, Leagh, Ring, wrote to the board stating that he made arrangements with the Rural District Council to allow them to open a well on his lands in connection with above for the sum of £10. There was a big hole dug in the field which is 68ft. x 40ft. and a cut along three other sides for 4 years. He had to pay men himself to clean in some of the gut. The well and cut were cemented at first. As it was the water was not fit for man or beast.

Mr. Conway—I saw the place and I was amazed at the state of it. Mr. McCarthy (who attended) said if he knew it was to be left that way he would not let them into his land for £100. Mr. Kennedy, Ring College said the College authorities had paid one-third of the cost of the work, and it was not finished yet.

Chairman—How could the engineer do a thing like that. We will ask the engineer to have a report on the matter for next meeting.

ABREAS OF COTTAGE RENTS.

BOLSTER CUP, LISMORE.

In the third round for the above competition Dungarvan and Lismore Mixed XI's met on the grounds of the Lismore Club to try conclusions for a trophy for the semi-final for the cup. In a brilliant rain a fairly large crowd witnessed the contest, which was fought out in a most dexterous fashion. The ball state of the ground undoubtedly presented a scientific display of the code, and the frequent use of the whistle robbed the game of much interest from the spectators' point of view. At the interval both teams crossed over with a virgin sheet, although Lismore had had luck in not finding the net on more than one occasion, and particularly so when the Dungarvan custodian fell and while on the ground caught the ball and threw it from the vicinity of the goal uprights unnoticed by the referee operating in this half.

It was not until 25 minutes of the second half that Dungarvan annexed the only score during the hour's play, and Pointer, the inside right, was to a great extent responsible for this, as Rev. Mr. Stanley found the net after the former's brilliant run. The Lismore forward line were simply helpless in the circle and sent wide on several occasions, and out of four corners were unable to find the objective, and Dungarvan ran out lucky winners on the score of 1 goal to nil. Messrs. Hobbs, Dungarvan, and J. W. O'Gorman, Lismore, acted as referees, and their decisions came in for adverse criticism by interested spectators more than once.

ECONOMY ON COUNTY COUNCIL.

On Tuesday a meeting of the Economy Committee appointed by the County Council was held in the Courthouse, Dungarvan. Mr. John Kiersey (chairman) presided. Also present—Senator Sir John Keane, Messrs. D. Conway and M. Brennan.

The following recommendations were made regarding the coming year's estimate, which will be considered at a special meeting of the County Council on Tuesday next—

1.—That the poundage fees to rate collectors be reduced to 6d. in the £. 2.—That legal expenses be budgeted at £1,500 instead of £3,000, being £1,500 in respect of arrears, and £500 in respect of year 1925-27. 3.—That £5,000 instead of £20,000 be levied towards the reduction of the debt balance. 4.—That the treasurer be asked to continue maximum overdrafts of £50,000 to the 31st March, 1927. 5.—That half the amount payable for compensation for criminal injuries in the county be levied, and that the other half be borrowed or paid out of overdraft.

6.—That a rate of 3d. in the £ be levied for springing. 7.—That a rate of 3d. in the £ be levied for Technical Instruction. 8.—That the rate of 1d. in the £ for the teaching of the Irish language be discontinued. Mr. Brennan dissenting. 9.—That, owing to the suspension of the Bovine Tuberculosis Order, the amount of expenses under the Diseases of Animals Acts be reduced from £1,500 to £500, and that inclusive salaries not exceeding £1,000 be fixed for the Veterinary Inspectors. 10.—That the wages of road workers be reduced from 36s. to 34s. per week. 11.—That the wages of foremen be reduced from 38s. to 36s. per week being approximately a 5 per cent. reduction. 12.—That the wages of overseers be reduced in like proportion. 13.—That the maximum wages of engine drivers be fixed at 60s. per week. 14.—That the wages of all men in machinery yard be reduced by 2s. per week with the exception of the blacksmith and apprentice. 15.—That the wages for horses, ponies and jennets be reduced by 1s. per day. 16.—That the salaries of all the officials of the council be reduced by 5 per cent.

The Secretary stated that he could not accept any decrease. His present salary was far less than his predecessor enjoyed in 1914; his work was very much increased, and instead of his salary being reduced it should be substantially increased or he should be granted the Civil Service cost of living bonus.

The County Surveyor stated that not only would he not accept any reduction in salary, but he expected to get an increase of salary, as he had not a fraction of the 1914 salary, and had not nearly a living wage nor a salary commensurate with the value of the services rendered.

CO-OPERATIVE CREAMERY FOR CAPPOQUIN.

A public meeting was held at the Blackwater Valley Co-operative Society, Cappoquin, on Tuesday for the purpose of considering the advisability of establishing a Co-operative Creamery for the town and district. There was a good response to the invitations, as practically all the leading farmers in the locality attended, amongst those present being—Senator Sir John Keane, Bart., Cappoquin; S. J. Power, Aftane; P. Morrissey, do.; R. Connors, Carrigeen; Matt Coffey, do.; Hugh Walsh, Cinnabrogane; Andrew McGrath, do.; B. S. Walsh, Monerrey; P. Duran Kilbree; Wm. Woods, Killa; Thos. Scanlan, Colanene; J. Kennedy, Woodstock; E. Casey, Dromore; P. C. Donnelly, Headview, Lismore; Wm. Power, Seekin; Michael O'Brien, Bery; Jas. Fives, Tourin; John Sweeney, do.; K. Bell, Manager, Cappoquin Estate; Michael Cronin, Bawnfama; Thomas Walsh, Ballina, etc.

Mr. P. Courtney, Organizer of the I.O.S., and Messrs. T. Flynn, Chairman of the Dungarvan Co-operative Society, and D. Dempsey attended on behalf of that body.

Mr. John Flynn Carrigeen, was moved to the chair and pointed out the advantages of the co-operative system, and said it had been agitating for 180 establishments of a Co-operative Creamery in Cappoquin for the past 30 years, and hoped that they were going to establish one now for their own benefit.

Mr. Courtney, Mr. T. Flynn, Mr. D. Dempsey and others then addressed the meeting and pointed out the facts and figures that showed the necessity of the Co-operative Creameries in Dungarvan and elsewhere. Mr. Courtney stating that the system was taking root all over the country that he was at present organizing no less than 18 Co-operative Societies in Waterford, Cork and Tipperary.

After a long and practical discussion, the milk of a sufficient number of cows was guaranteed to warrant the starting of a creamery for Cappoquin, and sub-committees were then appointed to canvass their various districts to enlist the support of those farmers who were absent from the meeting, and it was decided to have a general meeting of all the shareholders and farmers on St. Patrick's Day at 1 o'clock when all details will be gone into and final arrangements made to equip the site kindly given by Sir John Keane in the premises of the old foundry in Cappoquin.

Cappoquin District Court.

Before Mr. G. P. Farrell, B.L. INDUSTRIAL SCHOOL APPLICATION. At the outset of the business the Rev. J. Crotty, C.C., Cappoquin, appeared before the court and made an application to have two young boys, who had been found wandering in Waterford, committed to St. Joseph's Industrial School, Cappoquin, in charge of the Sisters of Mercy.

Mr. Farrell asked if the Waterford Co. Council had been notified of this application and if all the necessary preliminaries had been complied with.

On Father Crotty's reply that he had not time to do anything in this respect Mr. Farrell asked him to come back to him during the luncheon interval, and he would see what he could do in the matter.

Subsequently the matter was adjourned to the next Lismore Court to enable all the preliminaries to be complied with.

CIVIL BILLS. A number of civil bills were entered at the suit of some local traders against various defendants for shop goods, etc., but on the cases being called, it was announced that they had all been settled, and they were accordingly struck out.

POSSESSION OF HOUSE. Mrs. Margaret Cranley, Cappoquin, summoned Mrs. Annie Reilly for possession of a house held by her as a weekly tenant in Back street, Cappoquin.

NO LIGHTS. Guard Hehir, Cappoquin, summoned John F. O'Donnell, Lismore, for driving a motor car on the night of January 5th without having his rear lamp lighting. It was then about 5 or 6 hours after lighting-up time.

Defendant appeared and explained that at the time the Guard met him he was assisting another motorist who had got a breakdown and whose lights were gone. He was going ahead of the other car, and in order to give him plenty of light he switched off the rear light.

In reply to the Justice, Guard Hehir admitted that this was correct, and the Justice there imposed a nominal fine of 1s. and costs.

Guard Seaton, Cappoquin, summoned Michael Bonamy for using a bicycle without a light after lighting-up time. As defendant did not appear, and the Guard who had served the summons was absent on duty at Aghis Races the case was adjourned.

Several other cases were called in which either the complainants or the Guards who had served the summons were absent on duty at the races, and Mr. Farrell said it was most unfair to be bringing in defendants long journeys in many instances only to have their cases again adjourned. He had to adjourn all the small cases himself the previous court-day owing to the number of depositions to be taken in the cattle stealing case, and it was most unfair that arrangements had not been made to have all the Guards, who were necessary witnesses, in court to prove their cases to-day.

All the cases referred to had to be adjourned to next court-day. Guard Hehir summoned Charles A. Murphy, Cork, for using motor car on the night of the 5th January without either head or rear lights, and defendant was also summoned for having no driver's license on him at the time.

Defendant appeared and said on the night in question he was on his way to the Hunt Ball at Donnan when his car got a breakdown which caused all his lights to go out. As regards having no license, he said he had taken out a license on November 28th, but in getting ready for the ball that night he forgot to take it with him, and therefore he hadn't it when the Guard stopped him.

Defendant now produced his license, which bore out his statement, and the Justice imposed a fine of 2s. for having no lights, while for not producing his license he would impose a fine of 6s. and costs.

Mr. Farrell subsequently remitted the latter fine, so that defendant's total liability was only 4s., which was promptly paid in court.

ALLEGED LARCENY OF TIMBER. Sir John Keane summoned a young man named John Callan for stealing a young ash tree, value 1s., from complainant's wood.

Mr. J. F. Williams, solicitor, appeared for complainant. John Hughes, wood-keeper, said that on February 15th he found the defendant on a fence sawing down a young ash tree for 1s. Witness ordered him off and asked him what he was cutting the tree for, and he replied that he wanted it for funeral, as he had no fire at home. Defendant said he was in very poor circumstances and went there to get a little stick to make a fire.

Mr. Farrell having questioned defendant about his position in life and his poor circumstances, Mr. Williams said he did not wish to press for a heavy penalty as he had just been informed that defendant's statement was correct, and that he earned little or nothing at his trade as a shoemaker. However, he should clearly understand that he had no right to go into any person's wood to steal timber no matter how poor he may be. The case was then adjourned for a

UNLICENSED GUNS.

Supt. Murray, Dungarvan, summoned James O'Donnell, Carty, and his son, Wm. O'Donnell, for having two unlicensed guns in their possession on December 10th. The senior defendant appeared, but the son was absent. A Cappoquin Guard gave evidence of service of the summons in the case of Wm. O'Donnell by leaving a copy with his father.

The father now stated that the son did not live with him regularly, as he was nearly always going around the country following a machine.

Mr. Farrell said he would rule that the service of the summons was had in the son's case, and it was then decided to proceed with the case against James O'Donnell.

Guard Trowey, Cappoquin, in reply to Supt. Murray, said he was one of a party of Guards searching for firearms on December 10th. In the course of their search they visited defendant's house at Carty and found two fowling pieces (produced for which he had no license).

Guard Cuffe, Cappoquin, corroborated, and said as they went towards defendant's house, O'Donnell left the house and went into a barn where he attempted to hide something, and on searching the place witness found one good double-barrelled shotgun (produced) hidden under some straw. He saw another gun resting on two sticks against the wall.

Guard Moricity also gave evidence and said when he asked defendant to account for the guns he said he thought one of them was the gun his son had a license for.

Guard Trowey said he found the licensed gun the next day, but it was not one of the two found on the occasion of the first search.

Defendant now said that he knew nothing about the guns except the one which was found on the wall and which he always thought was the one his son had the license for.

Supt. Murray elected to be sworn and said that he was the only person authorized to grant licenses for guns in the Cappoquin district, and no license had been issued for any of the guns produced.

Mr. Farrell said he was satisfied that it was the father who was responsible for the guns found on his premises, and he did not see how the son could be involved in the matter. In view of the fact, however, that defendant was a poor man he would let him off with a fine of 5s. and costs and ordered the two guns to be confiscated.

Several other farmers in the Cappoquin district were summoned for having guns in their possession for which no current licenses had been taken out. It was stated that defendants had licenses under the old Act, which expired on July 31st last year, but they had failed to take out fresh licenses as required by the new Act.

Fines varying from 2s. to 7s. and costs were imposed in the various cases.

ALLEGED THREATENING LANGUAGE.

A young man named Thomas Burns, residing at Aghis, summoned Mrs. Ellen Collins and her husband, Thomas Collins, Carrigen, for alleged abusive and threatening language on various dates in October and November.

After hearing evidence the Justice dismissed the case and advised defendants to have no further cause for complaint in future.

G. A. A. HURLING AT LISMORE. BOLSTER MEDALS.

Erin's Own Hurling Club, Waterford, and Dungarvan Hurling Club met on Sunday last in the replay contest for the Bolster Medal Tournament at Lismore, and after an exciting game Erin's Own were declared winners by 2 points. Both teams had previously played a drawn game, and great interest was centred in their meeting on this occasion.

The grounds of the Lismore Club were in splendid order and nicely marked. An improvement much appreciated. Consistently played with magnificent field service, these grounds are simple ideal for the pastime. Mr. John P. O'Donnell, Lismore H.C., held the whistle and gave complete satisfaction.

Dungarvan won the wind in their favour played towards the town goal, and after 10 minutes' play per Doyle registered a goal, and the same player was responsible for another goal in the second half. The goal was scored at the 70 minutes mark. Waterford in all half were outclassed, and Dungarvan appeared to have the game well in hand on crossing over at half-time with 3 goals 1 point to credit against the club.

CAFFOQUIN ROWING CLUB.

ANNUAL GENERAL MEETING. The annual general meeting of the above old-established Club was held in the Boat-house Hall on last Monday night. Mr. R. J. Collender, N.T., president, and there was a very large attendance of members.

THE ANNUAL REPORT. Mr. P. X. O'Leary, N.T., hon. sec., read the annual report as follows:—A review of the working of the club for the past year is necessarily filled with sad memories, for it will recall to us the great loss we have sustained by the deaths of our beloved president, Col. R. H. Keane, and of Mr. John Stanley. I shall not attempt to do justice to the many fine qualities by which our late president had endeared himself to all, nor yet his wonderful services to the club. They are sufficiently well known to us all—and even the great enemy, Time itself, shall not lessen the great affection and esteem which will keep the memory of this noble gentleman and thorough sportsman enshrined in our grateful hearts.

The death of Mr. Stanley, who removed one of the founders of the club, because of his progress as a carman and a sculler in his young days, and his coaching and coxing ability displayed in later years, his name was famous in Irish rowing circles for more than half a century, and will ever remain honourably associated with the many successes of Cappoquin rowers within that long period. Acting in accordance with the wishes of the members, you will not be surprised to find the necessary steps to perpetuate the memory of your late president by having a memorial erected in the Rowing Club premises. It had been hoped that this would be unveiled prior to this meeting, but owing to an unavoidable delay the ceremony had to be postponed.

The feeling that there should also be a memorial to the late Mr. Stanley will I feel sure, materialize in the near future. I regret to have to report that the year just closed has been a "lean" one for the club in the rowing arena. Few of our members showed any inclination to face the rigours of serious training, and thus for two successive years we have not been represented at any regatta, nor, for the same reason, have we been able to hold one of our own. Lack of funds in the early part of the season was a contributory factor, but this, I shall not attempt to analyse the other reasons for this regrettable lack of interest in the mainly sport of rowing. I know that it is the hope and wish of every member that the sport will be taken up and participated in with the greatest energy and enthusiasm this year.

If the rowing has been neglected, the same cannot be said of the social side of our club life. During the past year the dances and whist drives held by us were very well patronised, and were the means of providing a source of much amusement for all. The attractiveness and success of the splendid music provided by the Lismore Nightingale Orchestra, and also by the excellent catering of Mrs. J. Lennon on all occasions. The billiard table, too, has provided much amusement, and considerable interest was taken in the "Saracen Cup Tournament," which has just been concluded. I refer with great pleasure to our healthy financial position. You will remember that at the beginning of last year we, having completed the new wing for the billiard room and renovated the billiard table, were in debt to the extent of £30. Since then this debt has been discharged, and although we have carried out certain improvements costing £25 (including saw stops and a set of new whist tables), we now have on our credit a balance of £48 1s. 3d. In your treasurer's statement you will be given full details of all receipts and expenditure for the past year. All the club property, generally speaking, is in good condition, and the caretaker has been assiduous and punctual in the discharge of his duties. I do not intend to include this report without returning my best thanks to the officials and executives for your loyal co-operation during the year and to express the wish that the future will be filled with prospective and success for the club and for each and every one of its members respectively.

Mr. Wm. McCarthy, treasurer, then submitted his statement of accounts and balance sheet for the year, and having a credit balance of £48 1s. 3d. to be carried forward, which was considered very satisfactory, and both the secretary and the treasurer's statement of accounts were unanimously adopted and satisfaction expressed at the admirable manner in which both gentlemen had performed their duties.

The election of officers and committee for the coming year was then proceeded with, and resulted in the re-election of his Grace the Duke of Devonshire, and Sir John Keane, Bart., as patrons of the club.

For the position of president, Mr. Wm. McCarthy was elected, and Mr. J. P. O'Leary, N.T., hon. sec., and Mr. Gerald Villiers-Stuart, were re-elected and the names of Messrs. R. J. Collender, N.T., and M. J. Sargent were added to the above list of vice-presidents.

Mr. J. Villiers-Stuart, Drogheda, was elected, and Mr. Sargent, outgoing vice-president, declined to allow his name go forward for election owing to pressure of business, two vice-presidents were then elected, viz., Messrs. Jas. Leacy and A. J. Sargent.

The following were unanimously re-elected—Mr. Wm. McCarthy, treasurer; Mr. P. X. O'Leary, N.T., hon. sec.; and Mr. John Walsh, assistant secretary.

The following outgoing members of the committee were also re-elected—Messrs. P. Mason, P. Cox, T. O'Keefe, J. Serron, M. Mason and T. Stapleton.

Youghal Urban Council.

Present—Messrs. M. Whelan, chairman; W. Coughlan, J. Troy, T. Harrington, P. Beausang, P. J. O'Garra, P.O.; B. C. Farrell, P. J. McMillan, P.O.; T. Curran, M. J. Fleming, M. D. Broderick, WAJES.

On the proposition of Mr. Harrington, seconded by Mr. Beausang, a cheque for £52 19s. 11d. was passed for the week's wages, etc.

The following letter was read:—"Dear Sir—Mr. Edinborough handed in your letters of the 19th and 20th ult. I have gone into the position, and it appears to me that Mr. Edinborough failed to understand his legal position when he wrote the council. Mr. Edinborough for rather Mrs. Edinborough) holds these premises under an old lease. She is entitled under the lease to 90ft. from the railway fence, and I am instructed that as a matter of fact I am instructed that she is entitled to 67ft., so that she has encroached 23ft. to which she is entitled. May I take the liberty of suggesting that you refer the matter to the council's solicitors, and I will let them see the title deeds. A reply to your earliest convenience will oblige—Yours faithfully—John L. Keane."

Mr. Broderick said that as the case was he was entitled to do what he did. The Clerk said he had not no matter what lease he had. It was so he might come out 3ft. and close the road.

Mr. Farrell—who let him have the roadway? The Clerk said the matter should be referred to their solicitors—Messrs. Hoynet—with all the facts.

Mr. Coughlan suggested that the matter be left as it was and the matter. The Chairman said the council had no power to withdraw their last decision or review it for six months.

Mr. Coughlan said it would only mean trouble. It was finally decided to refer the whole question to their solicitors.

The Chairman said they would consider the matter again when they received their solicitor's opinion.

In reply to a query as to whether there was any further information on the question of the main roads, the Clerk said that there was a notice of motion in connection with the matter before the County Council. He understood that there was a big increase in the county surveyor's estimates for the roads arising out of the proposed change.

The Chairman said the Clerk would be seriously hampered in making out his estimates if he didn't get the required information within a reasonable time.

The Clerk said he could tell the council that the rates would be reduced, but he would not be in a position to fix the amount until they knew where they were as regards the main roads.

Chairman—Of course you are in the dark till then. Mr. O'Garra asked attention to the condition of the main road from Cook to Youghal. Between Miltown to Castleparry it was in a shocking state. No good car would travel it a second time.

The Chairman said they had no remedy—it was in the hands of the County Council, and still the Government wanted to give them more roads to maintain, although they can't keep those they have present properly.

It was decided to ask their representative on the County Council to look after the matter.

Mr. P. Kennedy, contractor, submitted plans of cottages which he proposed erecting on the Strand.

The Clerk said that similar plans had been approved in 1925. They were standard plans for the L.G.D.

Chairman—How many houses are to be built? Clerk—I am not sure—a considerable number I believe. The plans were referred to the Town Surveyor.

Armore District Court.

Before Mr. G. P. Farrell, B.L. Sergeant Vanishing Armore, charged Geo. Quinn, Kilmartin, with using an unlicensed vehicle. Quinn was fined 10s.

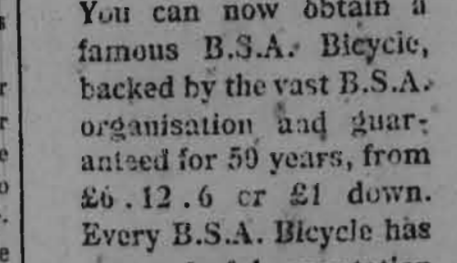

Guard Michael O'Donnell charged Michael Hayes with a similar offence, and the van fined 10s.

Wm. Cooke, charged by the same guard with a like offence, was also fined 10s.

George Acton, Chalmers, charged Michael Coyne, Moyne, with a similar offence. Complainant deposed that she defendant had no name on his cart, but he had not been cautioned for that. Instead of an excuse an explanation, Coyne gave witness impudence. He was fined 5s. and costs. John Conmy, Kilmalebeg, applied for a general dealer's license.

A Flash of Lightning—During a burst of thunder at Templepatrick, Limerick, a flash of lightning struck a wire pylon close to a farmyard. The wire was held by staples to a number of trees along a fence, and the lightning current consumed the wire and staples as they touched each other. As it reached the pylon it cut away a portion where the pylon was attached. An iron pipe divided the pylon at one point, and here the current passed along the top bar of the gate, which was buried, and reaching the wire entered as before. Finally it entered a large tree where the wire ended and cut a lump through its centre. A cow in a large field yards from the pylon was killed by the shock, but showed no injuries of scorching of any kind.

DIocese OF WATERFORD AND LISMORE.

CONDITIONS FOR GAINING THE JUBILEE INDULGENCE.

By an Apostolic Constitution, "Servare Jesu Christi," dated 25th December, 1925, Our Holy Father, Pius XI, has extended the Jubilee to the whole Catholic world, and thereby placed within the reach of all, the rich treasures of pardon that were available in Rome in 1925. This Jubilee Indulgence can be gained twice during the year 1926—firstly, for the Poor Souls; and secondly, for the Living Souls. In our solicitude for the welfare of those committed to our charge, we exhort the faithful of our Diocese to take advantage of this special act of grace.

THE CHURCHES.

The designation churches in this diocese is as follows— For the City of Waterford—The Cathedral, St. John's, Trinity Without and St. Patrick's. For Clonmel—St. Peter and Paul's, St. Mary's and the Franciscan Friary. For Carrick-on-Suir—St. Nicholas's, the Parochial Church, Carrickbeg, and the Franciscan Friary, Carrickbeg. For Dungarvan and Abbeystead—The Parochial Church, Dungarvan, the Parochial Church, Abbeystead, and the Augustinian Friary.

PRAYERS.

Prayers are to be recited during the visits to the churches for the general intentions of the Holy Father and for the intentions he has indicated as the special object of supplication during the Jubilee, namely— A. The Propagation of the True Faith. B. Peace and Concord among the Nations. C. The safeguarding of the Rights of the Catholic Church in the Holy Places in Palestine.

PROCESSIONAL VISITS.

We hereby reduce the number of visits to four visits a day, during three days, to the designated churches or public oratories for the following classes— (1) Ecclesiastical and religious colleges approved by ecclesiastical authority. (2) Confraternities, pious unions, and associations of the laity which have for their object Catholic education. (3) Youth who live in colleges or who frequent colleges daily, or on stated days, for the sake of instruction and education. (4) All the faithful who make the visits under the leadership of the Parish Priest, or another priest whom the Parish Priest delegates.

PRIVILEGED CLASSES.

Our Holy Father has made special provisions for the following— (a) Travellers who spend almost their whole time journeying by land or sea can gain the Jubilee once, when they reach a resting place, by visiting the principal church of the place five times in one day. (b) Special provision is also made for people who are impeded from making the prescribed visits to the designated churches. Ordinaries of places, acting personally or through Vicars-Fornae, or Regular Priests (for their subjects), or Parish Priests or approved Confessors, have power to reduce the number of visits, to reduce or increase the number of days on which the twenty visits are to be made, or to commute the visits in whole or in part into other appropriate works of devotion or charity which are not already obligatory. In virtue of this provision of the Apostolic Constitution we Ordinary hereby grant Vicars-Fornae, Regular Priests (for their subjects), Parish Priests and approved Confessors, habitual authority, which can be exercised outside the Tribunal of Penance, to these concessions and commutations impeded persons. We commute the visits of Religious Sisters and their girls into an equal number of visits to their convent chapels.

CONFESSORS' POWERS.

The Apostolic Constitution gives approved Confessors ample powers, which they can use in a salutary way, in receiving the Jubilee Confessions of their penitents. (Irish Ecclesiastical Record, February, 1926, pp. 202-204.)

WHEAT AND MAIZE FALLING.

Family men can seldom have found wholesale market news such a cheerful reading. Since the last production in bread prices, wheat flour has dropped 5s. per sack, and still cheaper bread is due. Canadian, Danish and Dutch bacon is 3s. to 3s. 6d. per cwt. lower this week on the London Provision Market, where demand has been limited of late. Danish butter is 8s. and New Zealand 4s. to 6s. per cwt. cheaper, stocks in cold storage being large, and the quantities still held in Australia and New Zealand considerable. Colonial cheese is 2s. to 4s. per cwt. lower, and English new-milk eggs can be bought in Tooty-street at the low rate of 13s. 6d. to 14s. per 120.

CHEAPER FOOD.

Speculation often means dearer food-stuffs. Last week we had a case of a plunging market in stocks and shares in Wall street, New York, helping to reduce some commodity prices, notably wheat. When Wall street prices "brake right open" speculators had perforce to raise prices to cover their losses; hence much selling of wheat and maize options on the Chicago and Winnipeg markets and of coffee futures in New York.

MAIZE AT PRE-WAR PRICES.

Wheat prices are about a guinea per quarter under those current a year ago, but, in the words of a member of the Baltic Exchange, "one couldn't sell canaries in a golden cage at present." Most of the news circulating tended to depress wheat values; American farmers are said to possess more wheat than was generally supposed, 80,000 tons of grain freight round has been chartered this week for shipments from Argentina; and Russia is reported to be preparing to export more wheat.

AUSTRALIAN MUTTON LOWER.

Smithfield reports, while showing beef prices steadier, confirm the greater part of last week's decline in values. Attention has moreover recently been called to Australian mutton being a good bargain at present prices, as this year's mutton crop is officially estimated at 8,000,000 lbs., which means an increase of over 3,000,000 tons on last year's yield.

WHEAT AND MAIZE FALLING.

The Wall street selling of wheat options has helped to make the prices of actual wheat and flour in London drop respectively 1s. 6d. to 3s. 6d. per quarter and 3s. per sack during the week. As things are at present wheat and flour prices need little outside help to keep them tumbling. European business in foreign wheat must have latterly broken the record for smallness, and the length of the spell of this inactivity is altogether abnormal.

Wheat prices are about a guinea per quarter under those current a year ago, but, in the words of a member of the Baltic Exchange, "one couldn't sell canaries in a golden cage at present." Most of the news circulating tended to depress wheat values; American farmers are said to possess more wheat than was generally supposed, 80,000 tons of grain freight round has been chartered this week for shipments from Argentina; and Russia is reported to be preparing to export more wheat.

TALLOW POINT-TO-POINT RACES.

Stewards—Tom Villiers Stuart, M.P.H.; Capt. Harold Smyth, Capt. P. S. Alexander, G. B. Nason, J. Power, J. Kent, R. P. O'Grady, T. Murphy, M. O'Brien, J. J. Walsh.

Judge—Capt. Harold Smyth. Starter—P. Condon. Clerks of Scales and Course—John Condon, P. F. Walsh.

Hon. Treas.—H. Kirby, M. and L. Bank. Hon. Secs.—J. J. Walsh, P. F. O'Grady.

The annual point-to-point races at Tallo, under the auspices of the West Waterford Hunt, were held on Monday over a good course, quite close to the town. The weather was fine, and the attendance up to the average for this fixture. From the hill close to the winning post the spectators had a clear view of every phase of the racing, furnished sufficient entertainment for patrons who followed the sport with keen interest. The first race started nearly an hour after the advertised time, due to the fact that the riders in it had first to walk the course. The obvious comment is that that was not the time to walk the course, and the event should have been declared void if some of the horses were ready to start at the appointed hour. Of course the result was that all the events were an hour late. Billy, who won the Maiden Race at Mountmuck, when started by Mr. G. Smith, was now ridden by his owner, Mr. W. Dwyer, in the Open Light Weight Race. He made all the running, and scored again, but had to be hard driven at the end to shake off the attentions of Mr. M. O'Brien on Rocky Road. Wild Melody fell early in the contest, and as a result his pilot (Mr. G. Smith) received a slight injury to one of his hands. Mr. J. O'Brien brought off a double with Juverna in the Maiden Race, and Kinross in the Heavy-Weight Hunt Race. P. Glavin being the successful rider. An objection to the first-named on the grounds of having gone the wrong course was lodged, but subsequently withdrawn. Juverna, a real nice stamp of horse, was afterwards sold for a big sum to Mr. T. Lawton, Carrigrohilly, who purchased for a client of his—Mr. H. S. Wilson, Oakville, Ontario, Canada—who whom he has already sent many useful horses. The Ladies' Race, for which there were five runners, provided the best contest of the afternoon, and it was won, after a splendid finish, by Mr. M. Madden's Little Wonder, admirably ridden by Mrs. B. Lyaght. Mustard Boy, with owner up, had a mere exercise gallop in the Ballinacree Plate, as his only opponent, First Attempted, could not extend him, and finished many furlongs behind. Details—

LOCAL HAPPENINGS.

Death of Mr. Wm. Foley, Main Street, Dungarvan.—We regret to announce the death of Mr. Wm. Foley, which occurred at his residence, Main street, on Tuesday last. The late Mr. Foley was an upright and honorable man, who by his business acumen and natural ability had built up a large and lucrative trade, and was held in the highest esteem by all who had the pleasure of his acquaintance. He was a sound and thorough Irishman, who always played his part in national affairs, and was ever a generous subscriber to all charitable and patriotic purposes. A good and pious Catholic, he passed peacefully away fortified by the rites of Holy Church and to the great grief of his family, who in their bereavement have the sympathy of all classes. R.I.P. On Wednesday evening the remains were removed to the Parish Church, Dungarvan, and were followed by a large and representative cortege worthy of the esteem in which the deceased was held by all.

Legacy of a Bicycle.—At Kilmac Thomas District Court on Wednesday, Martin Power, of Ballyhinch district, was charged with the legacy of a bicycle at Strathilly from Miss A. Flynn, Dungarvan. The bicycle was left in the yard of Whelan's Hotel on Sunday fortnight while Miss Flynn was away, and on her return the machine was gone. Defendant said he had drunk taken that day and did not know what he was doing. He paid 10s. in court to cover repairs done to the bicycle. Considering that Power was a fortnight in jail, Mr. McCabe, D.J., allowed him out on his own recognisance.

INSULT TO CLERGY. DIGNIFIED PROTEST BY CLERICAL MEMBERS OF TECHNICAL COMMITTEE.

The following letter will be considered at a special meeting of the County Council on Tuesday next:—

Dear Mr. O'Sullivan.—We beg to acknowledge receipt of your letters conveying a repudiation on the part of the County Council of the remark passed by Mr. Galgey and their request that we withdraw our resignations and continue as members of the committee.

With all due respect to the members of your council, we are forced to the conclusion—on reading the report of their discussion as given in the "Dungarvan Observer"—that they either completely misunderstood the reason of our resignation, or that they deliberately sidetracked the issue.

Let us recall to their minds what actually occurred on the part of the county districts had not sufficient representation. Canon Furlong was proposed; the insulting remark was then made, and that remark to our minds changed the issue absolutely. It was no longer a question between Canon Furlong and Mr. Coghlan. It was now the question of a deliberate insult to the clergy generally, and the council, by not repudiating that insult there and then, made it their own and thus intensified its gravity. It is against that insult to the clergy that we protest, and that and nothing else is the cause of our resignation. To our minds, repudiation on the part of the council comes now rather late in the day. Consequently we would ask you to convey to the members of your council that they must regard our resignations as absolutely final.—Yours sincerely,

(Signed), L. EGAN, MAURICE F. HEARNE, C.C. T. CONLAN, O.S.A. R. WALSH, O.S.A. Dungarvan, March 5th, 1926.
