Shoes that are dainty and serviceable!

Now that most ladies possess a pair of Russian boots or Wellingtons for the very worst weather, dainty bar shoes have almost entirely supplanted lace shoes, even for country wear. Here are two of the many stylish service shoes in the new 'Comac' range for 1926. Both are stocked in brown willow calf of a medium shade, a material noted for its durability. The soles, although light, will give good service. We can fit any normal foot with 'Comac' shoes and they are guaranteed by the makers.

Youghal Notes.

A Practical Joke.—A curious instance of a practical joke was perpetrated on a townie in Strand street during the week. Passing a certain horse a bucket of water—minus the bucket to be sure—was emptied on her, drenching her completely. An accident may happen, but this is a practice that has been much indulged in in the same locality in the past, accident may be ruled out. Now we would like to know how would the perpetrators of this crude and cruel practical joke, that was no joke, but rather a species of outrage, feel if a sister or sweetheart of their own were the victim instead of a chance stranger? Some of our week-end visitors when they let themselves go at all don't know where to stop. If they were gentlemen or had anything of the instincts of gentlemen left—perhaps it was all washed out by the heavy rain that prevailed during the week-end—they would have hesitated before going the length they did. It is not so very long ago that the Civic Guards had to be called in to make them conduct themselves. It would really seem as if, when they arrive in our midst from the big city, they become immediately the victims of a bad form of "tight hat," or swelled head, if they don't happen to wear hats, and set out to take possession of the whole show.

The Late Mr. E. O'Brien.—The death of the late Mr. Edmund O'Brien, at one time a prominent resident of the town, recalls the stirring times of the Land League days, and also of the elections that followed the introduction of the Local Government Act in 1906, when the late Messrs. Michael Kennedy and John Farrell (or Frogmore) were candidates for the County Division of Youghal. Mr. O'Brien acted as Mr. Kennedy's agent, and many and lively were the meetings held locally and at Ballymacoda, Castle-martyr, Killagh, etc. It was one of the toughest fought elections known in the vicinity. It elicited quite a literature of its own, poster and counter-poster, pamphlets by the dozen, in prose and rhyme. And who of those who took part will ever forget the fierce scenes on the night of the declaration of the poll. Then and long after Mr. O'Brien was a regular stormy petrel in local politics.

NOTICE.

WATERFORD COUNTY COUNCIL.

The County Council travelling Dipping Tank will attend at the following Centres in Dungarvan and Youghal Union Areas where Sheep can be Dipped and the necessary Certificates obtained.

G. A. A.

CHAMPIONSHIPS AT DUNGARVAN. CORK AND WATERFORD.

On Sunday last in beautiful weather and before a big attendance, Cork and Waterford met in the Munster championships in senior hurling and junior football. The Gaelic Field never looked better. As usual Mr. Frater had the arrangements perfect down to the minutest detail, and the thousands present were loud in their praises of how well things are done here to provide spectators with the best possible value and enjoyment. During the afternoon the Dungarvan Brass and Reed Band played a choice selection of music, which was much enjoyed. The hurling teams from Cork and Waterford were largely patronised, and from all the intermediate districts contingents came. And they got value, as both matches were well contested, especially the football contest, which the home team made a draw though a win for them would be more in keeping with the play. The hurling game was a splendid exhibition, the Cork hurlers showing a considerable improvement since their visit to Dungarvan last year. On the form shown by the Waterford footballers on Sunday, with constant practice they should easily win the replay against Cork and make a good run towards the Munster championship.

Tipperary and Limerick met in Dungarvan in senior hurling when the former return from their trip to the U.S.A. where they are at present on tour.

FOOTBALL—FIRST HALF.

Cork attacked from the opening, for Styles to send over. After a short exchange, Cork again forced, for Barrett (Collins' centre forward), to annex the initial honour—a goal. Soon after this, Organ started a movement for Waterford, and in the course of a vigorous onslaught Vaughan sent wide. A free to Waterford saw the Cork backs tested, but Crowley brought relief. Tolin again centred for Waterford, and the Cork backs cleared. Cork's stronghold was now severely tested, but the replay was trustworthy, and Walsh eventually sent over the lines. From the end of the game opened up to further advantage for Cork, but Waterford returned, and a penalty was given against Cork. Dooney took the shot, and Vaughan sent over. The Waterford fielding showed some points against Cork, but the advantages were not driven home. At this stage Waterford had a couple of advantages in the way of penalties, but the back play of Cork was equal to the occasion. Cork worked up in the next challenge, but lost the ground gained. They soon recovered, and fought their way to a fifty, which Tolin saved. A free to Cork, taken by Long produced a point for Cork, who were strenuously tested in the following stage. The clearance was effective, but Waterford replied smartly, and getting a free well inside the Cork lines, Dooney did his best to advance Waterford's interests. The defence was no sound, and later on a free was taken by O'Donnell, and Monahan sent a point for Waterford. The Cork lines were still in danger, and a free relieved the pressure. Cork made the most of the opening, and the defenders were hard pressed to save their lines. A free to Waterford proved acceptable, and Cork holding their opponents, Barrett got through for a point. In the next test Cork went strongly for a score when they had to concede a penalty. It did not prove of much avail, the Waterford back division responding to all the emergencies with much effectiveness. After a series of up-and-down tussles the short whistle went, when the score stood:

CORK—1 goal 3 points. WATERFORD—1 point.

SECOND HALF.

Cork were first to take the offensive, but nothing came of the tussle. Waterford got going next, and a free gave them an opportunity for a score, which was spoiled by an excellent defence. Maintaining the offensive, Walsh forced a point for Waterford, after which Cork reached the other end, to be sent back by fine performances by Waterford. Cork overcame the opposition to send wide. From the delivery, Cork need away, but were somewhat slow in getting in their shots. An interesting display by Cork gave them a free, in the course of which a Waterford player was knocked out. Though the lead established by Cork was fairly substantial, yet the issue was enveloped in doubt. Waterford had to take on a substitute instead of Hart, and the game was resumed by Waterford missing the objective. Cork carried play after this inside their rivals' lines, where a great defence prevailed. The Waterford fielding at this stage was superior, but there was no follow up worthy of note. A neat piece of play on the part of Dr. Kieley gave Waterford a point, which proved a big encouragement to their side. Cork were now not working their opponents to any appreciable degree, and on more than a few occasions the Cork net was in peril. The game was being followed with the keenest interest. After a couple of challenges, Waterford again appeared in the picture, and it gave Cork a bit to do to save their lines. Cork lost no time in securing an entry, and pulling off a point. A free to Waterford followed soon after, and play had to be suspended owing to an accident to a Waterford player. On resuming Cork attacked in full force, to be defeated by a sound defence in which Clancy figured. Waterford had the better of the next tussle, and finished with a point. The score was now narrowed down to a small margin. A fifty to Waterford went out, and Waterford returning to the attack got a point after an excellent defence by Brennan. Waterford, again on the aggressive, ran up a point, making the score level amidst much excitement. A close and exciting match wound up on the scoring being level.

CORK—1 goal 3 points. WATERFORD—4 points.

THE ISSUES—CORK.

Cork—J. Brennan (goal), Guards; J. Callaghan, Bandon; P. Clancy, Guards; J. Crowley (captain), South Kilmorey; J. Dermody, Buttevant; M. Walsh, Macroom; J. Barry, Mallow; J. Mulcahy, Geraldine; P. Lynch, Nemo Rangers; Styles, Guards; P. Long, South Kilmorey; J. J. Phelan, Bandon; J. Barrett, Collins; W. Barrett, Nils; McCarthy, St. Anne's.

WATERFORD—CORK.

Waterford—M. Dooney (capt.), R. Tolin, C. Keane, J. O'Donnell, J. Hunt, J. Furlong, W. Organ, J. Walsh, J. Vaughan, M. Dooney, J. Monahan, J. Kieley, P. Greany, E. Spratt, J. Barron. Referee—Mr. P. O'Keefe, Sec. Cork Co. Board.

HURLING—FIRST HALF.

Cork won after the throw-in secured two goals, per E. Coughlan and P. Aherne. Immediately after D. Aherne ran up the third goal for Cork, and the pressure was maintained with a few overs to the same side. Cork holding their opponents splendidly, another score was written down to the Southerners, Dr. Kearney having lowered the Waterford net of a pass from M. Aherne. The opening stages so far were by no means promising for the Waterford side, who fought stubbornly but ineffectually to checkmate the frequent invasions of the Cork fifteen. Another strong rally by Cork was met with a fairly strong defence, but Cork forwards maintaining their hold on their opponents' lines, Mat Murphy took charge far out to send a point all the way. D. Aherne having put up a goal for the Cork fifteen, Waterford sprang a surprise by beating the Cork defence for two goals in succession (O'Rourke and Ormond). These successes had a wonderful effect on the Waterford side, who put more sting into their play. The change in the play was most acceptable from the spectators' standpoint. A dangerous Waterford invasion was stayed by Mick Murphy, who received the necessary support, and Cork attacked to experience a reverse at the hands of Waterford. Cork renewed the test for a deservingly earned point, in which all departments of the side shined. Cork got through some brilliant passages in the next stage, but the finish was lacking. Waterford put up a strong fight in the ensuing stage, but it was short-lived. D. Aherne accounting for the Waterford net, Waterford stood up splendidly against the next demands made on their lines and brought off an admirable clearance. The centre field replied effectively to their chances from the delivery for Walsh to land a pretty point for Waterford. It looked like a repetition by Waterford, but, thanks to a great Cork defence, the invaders were dislodged, and the closing stages continued to favour Cork, whose units, without exception, played a winning game to the short whistle, when the register stood:

CORK—6 goals 3 points. WATERFORD—2 goals 1 point.

SECOND HALF.

The game was resumed with a visitation to both ends, the Waterford net just narrowly escaping. Mick Murphy sent Cork to a further attack, which was smartly met without any expense, and Cork continuing the pressure, sent wide, after some telling defence by Kennedy. Having been on the defensive for some time, Waterford opened up the game with advantage for Dooney to pull off a goal. This register had not long been recorded when Cork moved up with aid of sound combination, and Dr. Kearney completed the movement, with the fall of the Waterford net. After some strenuous play Cork had the mastery for P. Aherne to finish with the major score. Waterford replied with a major score (Dwyer), and a point by Moloney. A 70 to Cork gave rise to very exciting play at the Waterford goal. The defence, which was very good, had to give way to a major, and Cork, per M. Aherne, followed with a similar register. Ormond having set up a goal for Waterford, with some quick response to the delivery, the contest proceeded on lively lines. A 70 to Cork evaded from the delivery, and the Waterford followed. It was of no advantage, due to a remarkably fine defence. Falvey was responsible for some excellent clearances of the Waterford territory. The match finished with the score—

CORK—13 goals 3 points. WATERFORD—5 goals 3 points.

THE TEAMS WERE—

Ballynascree—P. Hickey, Lismore; W. Hogan, do.; D. O'Rourke, do.; M. Moloney, do.; M. Walsh, do.; B. Neville, do.; J. Ormond, do.; J. Hunt, Ballyduff; M. Falvey, do.; W. Dwyer, De La Salle; C. Ware, Erin's Own; P. Dooley, Dungarvan; W. Hickey, Lismore; C. Kennedy, Ballytobin; J. Heare, Erin's Own. Referee—Mr. P. O'Keefe, Secretary Cork County Board.

WHAT INJURES THE EGG TRADE.

At Drumkeeran (Lisriver) Ed. Dolan, Newbridge, was fined 5s. with 20s. witness's expenses and 28s. court costs, for exposing for sale a case containing 679 eggs, of which 59 were broken and the balance externally dirty. Mr. G. Lynch, State Solicitor, said the Minister for Agriculture looked on these cases seriously, as it was the dirty condition in which the eggs were exposed for sale that destroyed the Irish egg trade.

Solicitor Shot Dead.

Mr. Wm. J. Ryan (68), a Dublin solicitor, was shot, and fatally wounded, in his office, 83 Lower Gardiner street, on Tuesday night. Daniel Joseph Gleeson, a law student, with an address on Clonliffe road, has been arrested.

COUNTY COMMITTEE OF AGRICULTURE.

A meeting of the above was held on Saturday in the Courthouse, Dungarvan. Mr. D. Coughlan was moved to the chair. Also present—Messrs. T. Flynn, D. Ward, E. Beresford, P. Mulcahy, J. O'Donnell, J. Curran, W. Stack, Wm. O'Donnell and T. Hart.

Additional Funds for Premiums to Bulls and Boars.

The following letter was read—"Sir—With reference to the communications addressed to you on the 11th March (E. 892/26) and the 10th ult. (E. 894/26) respectively, I have to state that the Department will be glad if you will be so good as to furnish, not later than 1st June next, a return giving the following particulars—(a) Amount of your committee's allocation from the joint fund in respect of bull premiums for the year 1926-27, with particulars of the breeds and ages of the bulls, and the total value of the premiums awarded in this connection. (b) Number of premiums awarded out of the supplemental grant made to your committee for additional bull premiums, with particulars of the breeds and ages of the bulls, and the total value of such premiums. (c) A similar return in connection with the boar premiums awarded by your committee should also be furnished not later than 1st October next. All claims in respect of the payment of bull and boar premiums should be submitted to the Department not later than the 31st January, 1927. This is particularly necessary in view of the fact that the supplemental grants above mentioned are applicable only to premiums in excess of the number normally provided out of the Joint Fund, and actually awarded in 1926; and it is essential to ascertain the exact total amount to be paid to your committee under this head within the current financial year. The special grants will be paid quarterly with the Department's annual grant to County Committees of Agriculture, and the necessary adjustments will be made when the final instalment is being remitted in each case—I am, sir, your obedient servant—F. J. Meyrick, Secretary."

Agricultural and Live Stock Schemes.

The Secretary read the following letter—"Sir—I have to acquaint you that the Department are about to review the above mentioned schemes and, where necessary, to revise them for the year 1927-28. In order that the Department may have an opportunity of considering fully any suggestions which your committee may desire to offer in this connection, I have to request that you will be good enough to obtain, for transmission to these offices (Division A) a statement from your committee as to the modifications, if any, which, in their opinion, should be made in such schemes in operation in your county. It is accordingly requested that you will place this matter before your committee at their next meeting and inform the Department not later than 1st July next as to what action, if any, your committee may take in the matter. When submitting your communication on this subject to the Department, kindly state to which scheme, and to which class of same, each suggestion has reference. I have to add that you should in the meantime submit a requisition for any supplies of the 1926-27 schemes which you may require for reference in this matter—I am, sir, your obedient servant—F. J. Meyrick, Secretary."

Cow-Testing Associations (1926).

"Sir—I have to enclose, for the information of your committee, a list giving particulars of the Cow-Testing Associations in County Waterford in respect of which letters of recognition have been issued during the year under the provisions of the Dairy Cattle Scheme, No. 20, a copy of which is also sent herewith. In the cases of any associations which are marked on the enclosed list as having fallen through, and which obtained milk testing apparatus through the County Committee on specially reduced terms, steps should be taken by the committee, where necessary, to secure the return of the apparatus, in accordance with the conditions on which such apparatus was supplied—I am, sir, your obedient servant—F. J. Meyrick, Secretary."

Cow-Testing Associations.

Scheme of Instruction in Agriculture, 1926-27—Annual Leave of Instructors.

The following letter was read—"Sir—I have to state that the Department would be glad to be informed at an early date of the arrangements proposed by the committee with regard to the taking of annual leave by their Agricultural Instructors. In this connection I have to point out that the care should be taken that the Instructor's absence at the period selected will not interfere with his duties (if any) for Cottages and Small Farms, and with the furnishing of returns relative to the yield of the hay crop in his county or district. It is desirable, also, that the Instructor's

BLACKWATER FISHERIES.

At the usual monthly meeting of the Lismore No. 4 Fishery Conservators held at Talrow, Mr. E. A. Rice, a/r., vice-chairman, presided. Also present were—Capt. P. Dunne, Messrs. T. Murphy, R. Meagher, H. J. Lucas, H. P. Maxwell, R. G. Amessley, J. E. Goffrey, J. McCarthy, James Power, Jas. Keen, Messrs. T. Dolan, Inspector and Secretary, W. Buckley, Assistant Inspector, were in attendance.

A letter was read from the Department of Fisheries relative to the exercise of the powers conferred by Section 24 of the Fisheries Act, 1925, stating that every member of the Garda Síochána could exercise the powers in questions without written authority. The words "authorised in writing" only referred to officers and servants of Boards of Conservators.

A letter was received from the Minister of Justice acknowledging the alleged use of galeight by poachers in the river near Fermoy, and stating that the matter was receiving attention.

A further letter was read from the Department of Fisheries stating that the Minister was prepared to consider the making of a grant within a limit of £75 or £1 for every £1 contributed by the Lismore Board of Conservators towards the cost of staking the River Blackwater to prevent illegal netting. Before going further with the matter the Minister wished to know how the Board proposed to provide the £75 they had allocated for the purpose without exceeding the total of the expenditure set forth in their estimates. Full particulars of the places to be staked was to be prepared and the manner in which it would be carried out should be submitted. The Minister was unable to make a contribution towards the cost of destroying seals. Mr. Murphy said in the old days, under the British Government, the Department of Fisheries used supplement the 10s. for each seal destroyed allowed by the Board by a similar sum. The appointment of a maskman to Youghal to shoot seals was a most important step and a great benefit to the fishing. He patrolled the coast from Youghal to Ardmore, and had killed a large number of the seals since his appointment. He estimated that the killing of each seal meant some £100 weekly to the fishing.

Capt. Dunne said only for the seals killed by Mr. O'Neill there would not have been such a good run of fish on the upper waters.

Mr. Murphy said owing to the destruction of a large number of seals the boats at Youghal had taken from 150 to 200 salmon each. They could press the Department for a renewal of the grant given under the British regime and keep the marksmen in the job for the whole year.

Mr. Kent said a good deal of damage was also being done by the cornucopia and systematic effort might be made to reduce their numbers. It would be to the benefit of all concerned.

In connection with the proposed grant of £75 towards the staking of the river, Mr. Goffrey said he took it that they could correct their estimate with a view to include the £75.

The Clerk said that would be difficult. The estimate adopted had been approved by the Ministry.

Mr. Amessley understood that there would be a surplus at the end of the year. Could not they pay the £75 out of it? Mr. Goffrey said he expected they would have a surplus of some hundreds of pounds.

Clerk—Provided all the rates are paid up (laughter).

It was unanimously proposed by Mr. Amessley, seconded by Mr. Lucas, and passed unanimously that the £75 be paid out of the anticipated surplus.

Arising out of the question of the financial condition of the Board, a lengthened discussion took place on the matter of the rates and arrears of rates due, portion of which had been collected by the County Council.

Several members suggested that legal action should be taken against the County Council for the recovery of the amount; others complained that the ratemakers were being called on to pay twice.

The Chairman said it seemed as if one section of the Act was contradicted by a subsequent section.

Ultimately, on the proposition of Mr. Amessley, seconded by Mr. B. O'Sullivan, it was decided to instruct Mr. B. O'Sullivan, to take up the question with the Department.

In the case of his usual monthly report the Inspector stated that a number of over-length nets had been seized and forfeited.

Mr. Murphy—At the rate the Inspector is going on there will be very few nets left in Youghal Harbour or Bay—it was altogether too short.

Capt. Dunne said there were miles of water in Youghal Harbour and the whole ocean outside.

The Chairman—How many nets fish at one time? Capt. Dunne—Only one.

Mr. Goffrey—Are there not 29 nets in the harbour? Capt. Dunne said the nets were fished one at a time in turns. It was not like up the river, where there were only 80 yards across in parts.

Chairman—How is it there has been no complaint about this 200 yards net previously? Captain Dunne—The board never bothered their heads about the bridge the 200 yards net would go across the whole way.

The Chairman said fish were caught outside all the same.

Capt. Dunne—Yes, often at the risk of the men's lives.

Mr. Amessley said there were some 80 fishing engines at work between Lismore and the sea. As an upper river man, he thought that quite enough in the circumstances, without increasing the length of the nets.

Chairman—Are you aware that the

DISEASES OF ANIMALS ACT COMMITTEE.

A meeting of the above was held on Saturday in the Courthouse, Dungarvan. Mr. D. Coughlan presided. Also present were—Messrs. T. Flynn, D. Ward, E. Beresford, P. Mulcahy, J. O'Donnell, J. Curran, W. Stack, Wm. O'Donnell, D. Dempsey and T. Hart.

Salaries of Veterinary Surgeons.

A letter was read from the Secretary of the County Council asking for the views of the above on salaries on the agenda for this meeting.

Chairman—Would it not be well to have a joint meeting? Mr. O'Donnell—The County Board of Health have 3 or 4 representatives here today. Another matter is the County Board of Health representative from Clonmel district (Mr. Delaney) is not satisfied with the proposal allocation of the salaries at present.

Mr. Flynn—All we want to do is to find the amount paid to the vets from the County Board of Health.

Mr. Curran—We can't exceed the £1,000, but is the allocation fair? Mr. Hart—You can't dismiss Mr. Walsh of the Youghal area.

Mr. Ward—No. He has a small salary under the Diseases of Animals Act.

Mr. Mulcahy—Mr. Delaney also spoke to me about the allocation of the salaries. Secretary—The County Board of Health pay Mr. Lynch £40, Mr. O'Donnell £28, Mr. Walsh £12.

Mr. Hynes, V.S., said £15 was a small thing. When they were fixing the salaries they did not think of Mr. Walsh. He thought the committee should pay the £15 to Mr. Walsh.

Mr. Flynn—We have definite instructions not to exceed the £1,000. I suggest we take £5 off the three highest salaries. We cannot touch Mr. Mulcahy's salary; it is small enough already.

Mr. Ward then proposed that £5 be taken of the salaries of Messrs. Lynch and O'Donnell and £2 10s. off the salary of Messrs. Hynes and Creagh.

The proposition was passed.

Dipping Tanks.

Mr. Hynes, in answer to Mr. Flynn, said they would require a new dipping tank as the old ones were very bad.

A letter on the subject was read from Mr. Bowen, county surveyor, stating that it would be more economical to build new tanks as the old ones were very much worn.

Mr. Flynn—The carpenter who repaired them last year says it would be easy to repair them this year.

It was decided to get the tanks repaired at once for the summer dipping.

Deputy for Mr. Lynch, V.S.

A letter was read from the Department stating that they would raise no objection to the appointment of Mr. Cunningham, V.S., as deputy for Mr. Lynch, V.S. The committee approved of the appointment.

Sheep Dip.

The committee decided to use Nicobrand Sheep Dip for the coming season.

Motorists' Patron Saint—1,000 motorists and the sea.

Mr. Wm. J. Ryan (68), a Dublin solicitor, was shot, and fatally wounded, in his office, 83 Lower Gardiner street, on Tuesday night. Daniel Joseph Gleeson, a law student, with an address on Clonliffe road, has been arrested.

Edward Hill, Kilmacthomas

SPRIT FISHERMEN CATCH SALMON DURING THE YEAR?

Captain Dunne—I have never heard of the like before.

Mr. Murphy referred to the killing of salmon in Ballycotton Bay, where "trammel" nets were used for the capture of pollock, but salmon were got instead, and their Inspector could do nothing.

Chairman—He could if he chooses. Captain Dunne—I think the question of fishing in Ballycotton Bay should be taken up this and next January.

Inspector—I have asked it to be attended to on a former occasion, and I will bring the matter on again. Ballycotton has been getting off scot free too long.

Mr. Murphy condemned the use of trammel nets as being most injurious to the salmon fishing and unfair to the man who paid licence.

The Chairman said he had got only a hint of it.

The Inspector read the following resolution unanimously adopted by the Board in 1916—"That we, the Conservators of No. 4 Lismore District, again beg to call the attention of the Inspectors of Irish Fisheries to the serious destruction of salmon by the so-called trammel nets used in Ballycotton Bay. These nets, which are made up of salmon and peed nets, are from 300 to 400 yards long. They are fixed at both ends, about 50 yards apart, and parallel to the ebb and flow of the tide, there being no apparent difference in the mountings from the ordinary drift nets used by licensed fishermen. It is almost impossible to prevent them capturing salmon or to detect them doing so; moreover, they pay no licence duty, and do not otherwise contribute to the preservation of salmon. We, therefore, request that an inquiry be held with a view to repealing the bye-law dated 21/12/03, allowing trammel nets to fish within certain portions of Ballycotton Bay."

Mr. Goffrey said undoubtedly the trammel nets were the trouble.

The Chairman said it was a matter for an inquiry. In the meantime the Inspector of the Department should be informed of the facts. The trammel net was decidedly a nuisance.

Beautiful Tributes in a Will.

A beautiful tribute to the virtues and devotion of his wife is contained in the will of Lieut.-Col. A. Hatfield Mooly, Stourbridge, Worcester, Editor and proprietor of the "County Express," and a former Mayor of Stourbridge. He left estate of the gross value of £18,000.

Among his bequests was a sum, not to exceed £100, to the Corporation of Stourbridge for the provision of a chain of office for the use of the mayoress "to ornament the wily virtues and devotion of my wife, who, by the exercise of every womanly grace, has bestowed upon me the inestimable blessing of perfect happiness in my married life."

Chairman—Are you aware that the

SONG OF SUMMER.

I come, I come with light and joy, In my warm and sunny beams; I come with the hum of a thousand birds, And the hum of a thousand streams.

I have loosed the rills from their icy chain And made them wander free, Thro' long green vales, where shining flowers Arise to welcome me.

My voice is the cuckoo's call at morn, The thrush's song of love, The carol of rills by echo borne, And the coo of the woodland dove.

My sigh is the breeze that gently steals At eve o'er the valley's breast, To kiss the cheek of the pure white rose Before it droops to rest.

I have scattered flowers of shining bloom, In the paths of the young and fair; I have passed with light o'er the lonely tomb, And smiled on the mourner there.

With mournful smile I've silent been By strange old halls forsaken, And thro' bright vales of radiant green O'er the wrecks of war and time.

My path is the spot where the bluebells bloom, And the soft winds wander free, But my home is the young unsmiled heart, For it best can welcome me.

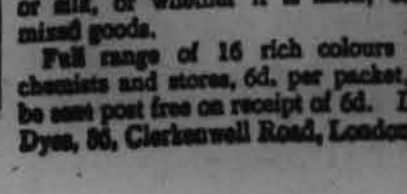

And the soft winds wander free, But my home is the young unsmiled heart, For it best can welcome me.

Cappoquin District Court.

FISHERY PROSECUTION.

Before Mr. G. P. Farrell, B.L., D.J. Fisheries Prosecution. Thomas Drohan, Mallow, Inspector of Fisheries, summoned three fishermen from Drohan, Aghish, named Declan Barry, Theo. Whelan and Michl. Morrissey with fishing at 4 a.m. on Sunday, 21st March, 1926, for salmon, and secondly the same three defendants were summoned with a breach of the bye-law by using a salmon drift net in the tidal portion of the river Blackwater within the No. 4 Fishery (Lismore) district.

Mr. J. L. Keane, solr., Youghal, appeared for the complainant, and the three defendants appeared personally and were not professionally represented.

When the case was called Barry came forward and handed a letter to the Justice. Mr. Keane, solr., said the men were charged with a breach of the weekly close season, and secondly with a breach of the bye-law by using a drift net, which was something like 200 yards, where only snap or phise nets, which are only 11 yards long, are used.

Mr. Ryan said he was perfectly satisfied he had heard all the evidence he expected to hear. Anything of importance was gone into to-day and at the January Court, and he (Justice) was doing ordinary duty when he went to pull up the owner of this motor, and if the owner had not lost his temper probably there may be no more about it. He now reviewed the evidence at considerable length, and said if the case were proved, there may be a constructive assault, but his view was there was no assault proved in the sense of the section, and he would not impose a conviction in the case of assault and informations would be refused on these counts. I think it would be necessary for me to bind both of these gentlemen to the peace, but would not want sureties, as both appeared to be very respectable men.

Both defendants were bound to the peace on their own sureties of £5 each, and the cases under the Prevention of Crimes Act were marked "informations refused."

IRISH FISHERIES. LETTER FROM DEPARTMENT.

At the usual fortnightly meeting of Youghal Branch Irish Fishermen's Association (Capt. James presiding), a letter was received from Mr. M. J. Hennessy, T.D., enclosing one from the Department, replying to a letter from the Association on the subject of illegal steam trawling in Dungarvan, stating that the Department is doing what is possible with the limited resources at its disposal to prevent the operations of steam trawlers in that bay.

It is understood that the "local trawlers" referred to in the Association's letter alludes to the Ballinagool boats, many of which are unseaworthy and in need of repair. The Department offered to get these boats mended seaworthy at special low rates to the fishermen last year, but the offer was not availed of.

The Department will await the promised details of the State grant given to the Youghal area under the British Government to develop the lobster industry. This Department is not in a position to give free grants to develop the industry, but if a concrete proposal is put before the Minister for the acquisition of a power boat to carry live lobsters to market by a dealer who is qualified to run a trade in lobsters, as was formerly done by Mr. Keane, of Ardmore, and if such parties can obtain satisfactory security for a loan to acquire such a vessel, the Minister would be prepared to recommend a loan from State funds for the purpose.

The Hon. Sec. (Mr. E. C. Ronayne, B.L.) said the Association experienced locally the same difficulty as the Department had met at Ballinagool in getting the lobster business, which had been such a success locally, but they were justified in expecting a more generous acknowledgment of the Department's mistake in replying recently. Neither grant nor loan was made by the State, and the business was financed solely by private enterprise.

The Hon. Sec. was asked to reply to the Department's letter. In connection with the salmon fishery, a complaint was received that the Duke of Devonshire's agents at Lismore had refused to grant a license for Youghal Harbour, although the usual number of licenses have not been issued for this year, and it was decided to communicate with the Fishery Office, Lismore, regarding the matter.

Mr. E. A. Ryan, solr., for plaintiff, and Mr. E. Carroll, solr., Fermoy, defended. Plaintiff, examined by Mr. Ryan, stated he was employed as motor driver and assisted in general repair work at the garage. He was employed at £1 per week, and defendant said when work would improve his wages would also improve. He was paid 25s. and 30s. some weeks. When defendant took a holiday to Wembley he told witness take £1 a week out of his earnings.

Mr. Carroll cross-examined the witness. Defendant, examined, said the average wages would be 15s. weekly. Mason was out of work and he only wanted to help him at the time. Plaintiff did a job for Mr. Watson and for Mr. Dempsey, and witness gave him the tools and helped him in every way and did not get the money out of these jobs. He also worked for his own father driving while with him. Some weeks he (McGrath) only paid him 10s.

Mr. Ryan, solr., in cross-examination, asked—Did you not know he was a married man? Witness—I didn't know he was a married man. No one knew it (laughter). Witness admitted telling Mason to keep £1 a week out while he was at Wembley.

The Justice having asked the defendant some questions, gave a decree for £2 10s. against defendant.

Alleged Assault on Civic Guard. Two men named O'Connor and Healy were charged at the suit of the Attorney-General under the Prevention of Crimes Act and also with using obscene and threatening language towards Constable Healy, whilst in addition two charges in connection with lights on motor cars after sunset were preferred against O'Connor.

Mr. E. A. Ryan, State Solicitor, appeared for the complainant, and the two defendants appeared personally and were not professionally represented.

When the case was called Barry came forward and handed a letter to the Justice. Mr. Keane, solr., said the men were charged with a breach of the weekly close season, and secondly with a breach of the bye-law by using a drift net, which was something like 200 yards, where only snap or phise nets, which are only 11 yards long, are used.

Mr. Ryan said he was perfectly satisfied he had heard all the evidence he expected to hear. Anything of importance was gone into to-day and at the January Court, and he (Justice) was doing ordinary duty when he went to pull up the owner of this motor, and if the owner had not lost his temper probably there may be no more about it. He now reviewed the evidence at considerable length, and said if the case were proved, there may be a constructive assault, but his view was there was no assault proved in the sense of the section, and he would not impose a conviction in the case of assault and informations would be refused on these counts. I think it would be necessary for me to bind both of these gentlemen to the peace, but would not want sureties, as both appeared to be very respectable men.

Both defendants were bound to the peace on their own sureties of £5 each, and the cases under the Prevention of Crimes Act were marked "informations refused."

At the usual fortnightly meeting of Youghal Branch Irish Fishermen's Association (Capt. James presiding), a letter was received from Mr. M. J. Youghal Urban Council.

Present—Messrs. M. Whelan, chairman; P. J. McMahon; P.C. A. J. Fowles; J. Troy; P. J. O'Gorman; P.C. M. J. Fleming; T. Harrington; A. W. D. Murphy; J. Forrest; P. Kennelly; M. D. Broderick; W. J. Broderick.

Wages. On the proposition of Mr. Harrington, seconded by Mr. Murphy, a cheque for £66 6s. 4d. was passed for the week's wages, etc.

The Market House. The following letter was read from the council's solicitors, Messrs. J. Hodnett and Sons, to Market House—In reply to yours of the 21st inst., we have sent instructions to counsel to advise and direct the most rapid legal method by which the council may recover possession of the Market House. We should have counsel's opinion in the course of a few days.

Technical Committee. The following letter was read from the County Technical Committee—Cork, 20th May, 1926. A Chair—With reference to your letter of the 14th inst., I am directed by my committee to reply that your council appear to be under a misapprehension as to the functions of a Local Technical Instruction Committee. These duties are set out in Section 9 (8) General Conditions of the County Scheme, copy of which is enclosed herewith. Your council will observe that matters relating to policy or appointments do not come within the scope of these duties.—Yours—J. M. Buckley.

Letter From New York. The following letter was read—469 Fifth Avenue, New York, 12th May, 1926. Dear Sir—During the past 8 years this office has booked as a concert feature a six-reel motion picture of Ireland. All places of interest are shown in a masterful manner. This picture, accompanied by our lecturer, who has toured all Ireland, has been engaged by schools as an educational subject and by steamship companies as a stimulant towards Irish travel. For the coming season we plan on replenishing this picture with new views. If you can furnish some scenes of Youghal, we will include them in our new edition. As this feature will be shown throughout the United States, you can readily appreciate the value to you as an advertising medium. All necessary credentials—Very truly yours—Thos. L. Brawlers.

It was decided to comply with the application. A Memorial. A largely and influentially signed memorial was received from Messrs. Jas. Flavin and J. Torpey, who as secretaries for a contractor were ordered by the Circuit Court Judge to pay the council the amount of compensation granted to a workman who had lost an eye.

Replying to a councillor, the Town Clerk said the man had got work from the council but would not stick it. One member said he saw the man "rolling" along the street. The council, while expressing sympathy with the memorialists, decided with regret that they could not relieve them without involving themselves.

Mr. O'Gorman said he was sure the council would do anything possible for them if they could see their way. The meeting expressed agreement. The Ferry. It was reported that the new lease of the Ferry had taken up the motor boat last Monday and sent her up the river to tow down a craft.

During the discussion which ensued it was pointed out that by doing so he had broken his agreement with the council, and the Clerk was directed to write strongly to the lessee and his sureties.

Musie. Letters were read from Clonmel and Dungarvan bands offering their services for promenades during the summer. Chairman—We have a brass band in Youghal. No action was taken.

A Hackney License. The Hackney Car Inspector reported one driver and owner for using bad language frequently and also for the condition of his car. Several councillors endorsed the report and the man's license was suspended for one month.

The Chairman said there were many complaints regarding the charges from the terminus to the town, and the matter ought to be looked into. Before the war the charge was 1/- or 1/6; at present it was 3/6 or 3/.

After a short discussion the matter was adjourned for the present. Sympathy. Mr. McMahon said they all regretted to learn of the death of an old friend of theirs, Mr. Ed. O'Brien, who had played an important part in public life in the district years gone by. He proposed a vote of sympathy with the relatives.

This was seconded by Mr. M. Broderick. The Clerk desired to be associated with the proposition. The Chairman said they always regretted to hear of the death of their old friends, no matter how full of years, and the late Mr. O'Brien had made his mark in local life in his day.

Other councillors having joined in the proposition, it was passed. The Ministry of Lands and Agriculture is convening a conference of representatives of the Cattle Traders' and Stock Owners' Association, Cattle Exporters, Dublin Live Stock Showmen, the Pig Dealers' Association, and the Irish Farmers' Union, to discuss the problem of fixing the hours for the opening of fairs and markets. The conference will probably be held in the coming week.

MARRIED. BUTLER AND POLLEY—

Miss Molly, by the Rev. Canon C.C. Kilmacshomus, of Mr. Wm. Butler, of Mallow, to Miss, second daughter of Mr. James Foley, of Waterford.
