TRANSMISSION—The Ford planetary system of transmission ensures a smooth pick-up, even under full load, on the steepest hills. There are no gear wheels to wear, no gear shafts to be strained by inexpert handling.

POWER-WEIGHT RATIO—Owing to its light weight and high power-weight ratio, the Ford Tonner can work over unmade ground where heavier vehicles get stuck.

And remember

That the Ford Tenner costs less to buy and less to run (as "Commer ial Motor's" Tables of Operating Costs prove); that the Ford is backed by the most efficient service system in the world; that Ford spare parts are nor sold at fancy prices; that 12 million Fords prove Ford reliability and capacity for hard work year in, year out.
