At ordinary times Hadden's Customers are given very good value in every Department—this is proved by the large extent to which it is availed of by the public. And until very recently the house of Hadden's traded without having "SALES." However, having determined to hold Sales—Hadden's decided to justify such events by giving really exceptional value. The event now announced will be no exception. Every item in every Department will be offered

Your entire Family can take part in HADDEN'S JULY SALE

at gratifying reductions on the ordinary prices. Ladies who are customers will at once realize that the opportunity is one to be availed of to the full because in these days of keen competition every chance of economy means that your hard-earned money will go further. Hadden's also wish to emphasise that their Tailoring Department will participate in the reductions which means that men have a Hadden's Suit, made to measure, at 12 1/2 per cent. off the already very low prices asked.

SPECIAL VALUE FOR BOYS.

Youths' Suits, long trousers, to fit ages 13 to 15 years. Usual Price, 21/-, 27/6, 35/6 and 41/6. Sale Price, 14/11, 19/6, 25/6 and 29/6.

MULCAHY'S, 3 & 4 MAIN STREET, DUNGARVAN.

BLACKWATER FISHERIES.

LIMMOROUGH MEETING.

At the monthly meeting of the No. 4 District Conservators of the above held at the Library, Limmorogh, on the 24th June, Mr. J. Kennedy, chairman, presided. Other present were—Mr. E. A. Rice, vice-chairman; Rev. Mr. Browne, Capt. Holroyd Smyth, Capt. V. Dunne, Messrs. H. J. Lucas, R. G. Annesley, J. E. Godfrey, Jerome Power, Thos. Murphy, T. McCarthy, Carey Joyce, W. O'Brien. The Secretary, Mr. Thos. Drohan, and Assistant Inspector Buckley were also present.

Legal or Not.
When the minutes had been read by the Secretary, the Chairman said he didn't know why the meetings were changed from Tallow without notice of motion. He (Chairman) thought it was illegal to hold this meeting and he doubted if the business about to be transacted would be equal either. His contention was that notice of motion of the change of venue should be given.
Mr. Godfrey—I raised that point.
The Secretary said they were unanimous.
Capt. Dunne—The Board took into consideration the terms service suited Rev. Mr. Browne and that was the reason.
Chairman—It could not be done without notice of motion.
Mr. Joyce—I move an adjournment of this meeting arising out of the death of Mrs. Meagher, member of Mr. Richard Meagher, one of our members.
Mr. Browne—Would not a resolution of sympathy suffice as a good attendance of members are present, having come long distances.
Mr. Lucas said he thought there was no necessity for an adjournment.
Mr. Joyce now moved that a resolution of sympathy be passed with Mr. Meagher on the death of his mother, and the Chairman seconded, and it was passed in silence.
The Venue Discussed Again.
Major Annesley said it was proposed the change as at one time they intended holding meetings at Fermoy, Mallow and Tallow, and someone suggested Limmorogh, where it was originally intended holding them, but Mr. Godfrey said they could not get a room there and suggested Tallow.
Mr. Godfrey—That is so.
Reading the minutes of the meeting of 9th October, 1925, Mr. Drohan said at that meeting Capt. Dunne proposed, and Mr. Murphy seconded, Tallow and Fermoy for meeting alternately, and Messrs. Kent proposed, and Annesley seconded, Tallow as the venue. The voting was 12 for Tallow and 7 against.
Chairman—Therefore did it not require a notice of motion to upset that. If any body or group could come in the next day and steal a march, it was not equal and it was doubtful if business would be transacted would be legal either.
Mr. Godfrey—And what would you advise us to do?
Chairman—Hand in notice of motion,

and I don't know can we hold this meeting at all.
Mr. Godfrey—If the Board are unanimously in so doing.
Capt. Dunne—It would be only right that every division in relation had a meeting at Tallow, Youghal, Limmorogh, Fermoy and Mallow.
Chairman—We had the best attendance of any at Tallow.
Major Annesley—On account of the transfer of Rev. Mr. Browne to Kanturk we thought Limmorogh more suitable for train purposes.
Capt. Dunne—Rev. Mr. Browne brought us to Cork one time and now to Limmorogh; he can bring us around in a week (laughter).
Chairman—It amounts to this—that any five or six members can come here and upset any resolution in this book.
Rev. Mr. Browne said he would propose that the next meeting be held at Tallow and anyone could hand in notice of motion after that.
Chairman—Everything should be on the agenda also.
Rev. Mr. Browne—I quite agree with the Chairman in raising the technical point; he is quite right.
Mr. Murphy—According to that this meeting is illegal also.
Capt. Dunne—If you follow on you'll find some members in a pole with the solicitor.
Chairman—Have we any power here to do this?
Rev. Mr. Browne—The next meeting would be held at Tallow, and the unfortunate part of the business is we have attended there to transact business and some come long distances.
Capt. Dunne—I would like to have Mr. Rice's opinion in this matter.
Mr. Rice, solr.—It rests with the Chairman. It is absolute, and he can either accept or reject a motion.
Major Annesley proposed, and Rev. Mr. Browne seconded, that they hold their meeting that day, and this was agreed upon unanimously.
Capt. Dunne—It was very good that this cropped up; in future things would be legally done.
The Chairman then said they all understood that the next meeting of the Board would be held at Tallow, and later Major Annesley handed in a notice of motion dealing with the change as set out in the discussion above.
The 27s Grant.
Ariasing out of the reading of the minutes, Rev. Mr. Browne asked was there any reply from the Ministry relative to the proposed grant of 27s for staking of the river.
The Secretary said that Capt. Spicer, the Inspector, who replaced Mr. Lee, whom he was sorry to say was since dead, was with him (Mr. Drohan) on the 12th inst., and had a long day also going into details, and he (Inspector) asked the secretary to bring before the Board the matters which they intended placing the stakes where the locality, etc., they were to be placed in. He also thought they would not be able to meet this expense, that they would exceed their estimate, and in such case they would hold him (Mr. Drohan) and the Board liable. There was no provision in the estimate for this work, and it

was held by it, and if it were exceeded they would be surcharged.
In reply to Major Annesley, the Secretary said in the interview Capt. Spicer had with him he asked the Board to specify what parts it was intended to stake from this grant, and emphasized the fact of overstepping the estimate and running the risk of a surcharge.
Mr. Rice said he did not see the danger of a surcharge. The Ministry had accepted their estimate and they cannot will go back of that afterwards.
After discussion and on the motion of Rev. Mr. Browne, seconded by Mr. Godfrey, it was decided that the Secretary should estimate and stake from a meeting of the Board for staking, and the Secretary be directed to reply to the Department's letter.
Mr. Annesley asked the question when the financial status of the Board was being discussed—"If we are unable to collect rates are we as a Board liable to surcharge at the end of the year?"
Referring to prosecutions which had been adjourned twice in Rev. Mr. Browne's district, that member said—"It stands to commonsense that the earlier in the year the prosecutions take place the better it is for the general public, and it would prove good to the river."
Mr. Rice said service was one for an adjournment, and the Secretary said the solicitor was engaged at the Circuit Court the other day.
Rev. Mr. Browne's intention was to delay another solicitor suit to avoid such a delay occurring again.
Inspector's Report.
Mr. Thos. Drohan, Inspector, read his report for the month, which showed where prosecutions for breaches of the Fisheries Laws had taken place at Cappoquin, Ardara, Youghal, Millstreet, Kanturk and Charleville Courts, and fines varying from £10 to £25, were imposed. Bailiffs had also seized 300 yards of net.
Messrs. O'Brien and Murphy argued strongly in favour of withdrawal of pending prosecutions for next Youghal Court, stating the men had the nets in the crib before 8 a.m.
Mr. Murphy—If the Guards and bailiffs were as strict on the upper waters as they are in Youghal they wouldn't kill a salmon at all there (laughter).
The Inspector, in reply to Rev. Mr. Browne, gave the facts of the case in question, stating he was sure that five fishermen from Youghal hadn't a watch (laughter).
Capt. Dunne—The tidal waters fisheries are penalized; they have a Guard and bailiff for every mile of the river.
Mr. McCarthy proposed, and Capt. Dunne seconded, that legal proceedings in these cases be discontinued.
Inspector—It is immaterial to me, as I hold no brief for a bailiff or anyone, but I think it is a bad precedent with the Guards assisting in the case.
The resolution was passed.
Rate Demand.
Continuing, Mr. Drohan said the response to the fisheries rate demand is simply appalling. He had only got four replies so far.
Mr. Murphy—But is this rate due?
Rev. Mr. Browne—It is not an opinion whether the rate is due; it is a question

of law, and this is a fishery authorised rate.
Mr. Drohan now read a letter received in reply to an application for £12 10s. 3d, as to Mr. Browne—Oh, it's easy to answer that.
Inspector (to a member)—It's the rated occupier.
Smyth—I have already paid Mr. Condon, of Youghal, the rates, and I cannot pay the two lots (laughter).
Mr. Rice said the sections were some what contradictory, and they should ask the Ministry of Fisheries to immediately put the matter before the legal adviser, who was the Attorney-General. Mr. Rice now asked—Does Capt. Spicer say they should pay twice? Capt. Spicer, added Mr. Rice, is only an Inspector, and he (Mr. Rice) would not think the courts would uphold that. Why not, said Mr. Rice, you bring on a test case, as this seems unfair and is not equitable?
In reply to members, the Inspector said on 10th. 3d. in the £, £1,619 is the amount realised on the valuation of the fisheries. Mr. Drohan explained that the Co. Council officials had not been apprised of the change, as when he visited them in Cork he found them filling in the forms as of old, and he (Inspector) immediately informed the Secretary of the Waterford County Council, who was in the same boat.
Mr. Rice agreed with the Inspector, and said he had a case with a collector in Tallow recently, and it seemed extraordinary they did not apply those people. Capt. Smyth and the others had the right of recovery as they were not bound to pay the County Council and us (laughter).
Capt. Smyth—I looked at it like this, as the County Council were so near broke, anything they got in their hands they would not give back (laughter).
After further discussion, Rev. Mr. Browne said—"It's not the equity we are to look at; it's the legality of it."
Mr. Rice (laughing)—We are very sorry we haven't the Duke as a defendant (laughter).
Secretary—Oh, Mr. Godfrey has paid. Suggestions were now made to prosecute some defaulters of the upper and lower waters, and the Board were for some time selecting two defaulters for test cases, and it was unanimously agreed on the proposition of Mr. Annesley, seconded by Rev. Mr. Browne, to prosecute in the case of Mr. Villiers, Stuart, Drohan, and Mr. Graham, of Kanturk, Co. Cork.
Removal of Stakes From Erida.
Mr. Rice asked with reference to the staked weir in the Erida, who was employed to pull the stakes?
Secretary—It is our staff.
Mr. Rice—Because they cut them—not pulled them.
Secretary—These are the eye pills, who are 9 or 10 feet deep, and you would need a fleet of men to pull them and a huge barge and winch.
Mr. Rice—I could get 200 men if you wanted them.
Secretary—Then the money for them.
Mr. Rice—I was approached by gentlemen here in Limmorogh—all of them labourers—who would give their services voluntarily for the work if you provide barge and winch.
The Secretary said these polls were there

30 or 40 years and could be only chisel-pointed he thought. There was barbed wire and all classes of protection about them.
Capt. Dunne said he never saw the stakes and he was up there all his life.
Mr. Rice—When were you up there last?
Capt. Dunne—About 15 years ago.
Mr. Rice—If a barge and winch were provided he knew 50 or 60 men on the Erida and 50 or 60 others who would assist at the work of removing them.
Secretary—All I think you can do is to cut a wing off them.
Mr. Murphy—A barge and winch could be got for about £8 from Mike Ahearne.
Mr. Rice—We have an Anglers' Association now and the barge, etc., is all we want.
Mr. McCarthy—If you remove them what guarantee have you they will not be put down again.
On the proposition of Rev. Mr. Browne, Mr. Rice was empowered to carry out the work of the destruction of the stakes in conjunction with the Secretary, and the Board would indemnify him of all expenses incurred. Mr. Lucas seconded.
Bailiffs.
Rev. Mr. Browne asked if there was any reply re Bailiffy on transact net question mentioned on the minutes.
The Inspector replied in the negative, and added that an inquiry in all probability would be held in Cork in October next, and he could raise the question thereat. He (Mr. Drohan) had embodied the matter in the minutes, but they did not answer.
Prosecutions?
Rev. Mr. Browne—Is it the considered policy of this Board to drop prosecutions?
Capt. Dunne—That is a very broad question.
Rev. Mr. Browne—Yes, but a very important one.
Capt. Dunne—That's an insult—"the policy of the Board to drop prosecutions."
Rev. Mr. Browne—I can assure you I have no axe to grind.
Capt. Dunne—You had an axe to grind when you brought us here from Tallow (laughter).
The Guards.
A letter was read from the Minister of Fisheries in reply to the Board's resolution re Civic Guards and protecting fishing industry.
The Inspector spoke in laudatory terms of the excellent work done by a sergeant, and when finances permitted he would again refer to the matter.
Chairman—Where bailiff failed this sergeant did effective work.
Essentially Felt.
The Rev. Mr. Drohan handed the Inspector a letter which he had received and which was signed by the parish priest, Rev. Fr. White, and bid by the Catholic Curate of Drumterritie, Co. Cork, relative to recent fishery prosecutions at the Kanturk District Court where Daniel Twomey and Jeremiah Sullivan were fined six

amounts. The letter stated the men were exceptionally poor.
Rev. Mr. Browne—The letter was sent to me and I just sent it to the board. The fine seems excessive considering the men. It was not within the power of the Board to recommend the reduction of fines, and he would suggest that they send up a memorial to the proper authorities. He knew nothing about the merits or demerits of the case, but the letter was simply sent to him, and he now placed it before the Board. The prosecutions gave a healthy lesson to the public, but the fine undoubtedly was excessive.
It was decided to inform the interested parties to communicate with the Minister of Justice for mitigation of the fines.
Mallow Hatchery.
The Inspector (Mr. Drohan) said in the conversation he had with Capt. Spicer with reference to the Mallow Hatchery, the latter (Capt. Spicer) said he thought the river was over-stocked with salmon fry (laughter).
Capt. Dunne—Oh, he is a military man (more laughter).
Secretary—His idea would be to discard the salmon hatch there and keep it solely for trout.
Major Annesley—Have you any more of that amusing letter to read?
Secretary—It's not a letter—only an interview I had with him.
Mr. Rice, solr.—When at Fermoy with me Capt. Spicer said the more salmon fry in the river the smaller the size of the salmon at maturity.
Rev. Mr. Browne—We must keep the salmon hatcheries going up to their full capabilities.
Secretary—Where will we get trout for Mallow hatchery?
Major Annesley was understood to say they required Mallow hatchery to work to its utmost capacity.
Secretary—It would be desperate difficult to fill the hatchery with trout; it would require tremendous. His idea is to have Mallow as the only trout hatchery in Ireland.
Rev. Mr. Browne—There is one in Adams.
Mr. Annesley related the manner in which salmon and grise were dealt with in Scotland and England. There they strip the spring fish as well as the autumn fish. When they are stripped at Limmorogh it is too late, and you get a greater percentage from spring fish. We should try and run our Mallow hatchery as far as we can.
Mr. Godfrey said they always imported and exchanged fry. He explained the process they had planned in late Mr. Drohan's time and said their losses were too big with the long distance of removing fry.
Capt. Dunne—Do not do away with the Mallow hatchery as we want the river stocked.
Mr. Rice said the preservation of small streams would preserve the rivers in spring-time.
Capt. Dunne—Why not? I propose that in late Mr. Drohan's hatchery in Tallow work?
In reply to Mr. Mallow was 9s
