Waterford County Council

RATE INSPECTOR'S PENSION.

LATE J. F. WILLIAMS, SOLICITOR.

The quarterly meeting of the County Council was held in Dungarvan on Tuesday, Mr. John Kiersey, chairman, presiding. There were also present—Mr. John Keane, Messrs. N. Fitzgerald, E. J. Cahill, J. McAuliffe, J. O'Donnell, J. O'Connell, W. C. Dale, D. Healy, R. F. Kiersey, W. O'Donnell, L. Hallinan, P. O'Connell, V.C.; J. G. Dale, D. Healy, T. Dunne, F. J. Power, T. E. O'Shea, J. O'Connell, D. Ward, D. Conway, T. Healy, J. O'Connell, R. Tobin, W. Stacey, Mr. McGrath, M. Brennan, J. Butler and T. Malaly.

RATE INSPECTOR'S PENSION.

In considering the question of granting a superannuation allowance to Mr. Paik Kennedy, Waterford, late rate and rent inspector, Mr. E. A. Ryan, solr., who appeared for Mr. Kennedy, said his client had resigned his position as rate inspector at the last meeting under circumstances known to them, and he asked him to put before the council the fact that he had given 44 years' service as Assistant Clerk and later as Clerk of Waterford Board of Guardians and District Council. He was first employed in the public service in 1852. On the abolition of the District Council he was entitled to full superannuation, but unfortunately he took up the position of Rate Inspector at £244, which was about £600 to be accounted for by the rent collector (his son), and that sum Mr. Kennedy is making himself responsible for, and as he is now over 70 years of age, he asks you to grant him full superannuation, and he is quite willing that you should suspend payment of that until he pays up such sum of money as may be found by the auditor to be due by his son. That means that although you grant him a pension he will not enjoy it until he has made good what is found to be due. He expects to be able to pay it all in the next few weeks.

RATE INSPECTOR'S PENSION.

Tarring work as provided by your estimate has been practically completed for some time, only a small section near Kilmacomas remaining to be done. This means good except for about one week. Surface tarring under recent road fund grant (£65,000) is also nearing completion, only about one day's work now remaining to be done. By better management and more skill in our staffs we have been able to reduce considerably the cost of this work and to do a good deal more than was anticipated. As already pointed out, the amount of this grant is hopelessly inadequate for the requirements of your important roads, and the projects of maintaining the more important roads with decreased funds from all sources are decidedly remote.

RATE INSPECTOR'S PENSION.

A scheme for the expenditure of some two million pounds is now coming into operation, the portion of the first instalment for this county being £20,000. This scheme applies only to the road from Waterford to Toghach, and is not available for such important roads as Dungarvan to Fermoy, Clonmel, Carrick and Tramore, nor for the roads from Clonmel to Youghal, Tramore to Carrick, Waterford to Dunmore, nor Waterford to Tramore. The new grant is to be applied to the reconstruction of the main road from Waterford to Dungarvan between Scranhan and Dalgan Bridge, and from Dungarvan to Youghal between Palla and Killy's Cross, about 13 miles in all. We can be commenced immediately after settlement of certain details. The Ministry will decide whether the work is to be done by contract or otherwise. I am ready to go to work now, but request the council to carefully consider the second paragraph of the Minister's covering letter, relating to increased work and staff. The county and assistant surveyors should be properly remunerated for this extra work. Scarcely of coal may delay the work at the commencement.

RATE INSPECTOR'S PENSION.

Nearly all your plant is already in use as far as possible, so that plant will be in good working order when required. Some suitable storage has been rented for the idle plant.

RATE INSPECTOR'S PENSION.

The new bridge at Tor is nearing completion. There are no other special works provided for in your estimates.

RATE INSPECTOR'S PENSION.

In accordance with your request I have carefully considered the question of the proposed alteration of the pier at Boatstrand Harbour. I am very slow to advise that this work be carried out at present. It is doubtful if any works, which would effect any tangible improvement. By altering the direction of the pier-head removing a portion, and extending further to seaward, certain advantages may be secured. The cost of such work would be in the vicinity of £10,000. Unless substantially aided by the Board of Fisheries or other body, I could not recommend the Council to undertake this work.

RATE INSPECTOR'S PENSION.

At Ardmore the sea has encroached further to the north of the village, and the time is now ripe for a further extension of the sea wall constructed some eight years ago. About 100 feet should be added to this wall, and the cost would probably be from £1,000 to £1,200. Unless this work is done there is a danger of a north-easterly gale doing considerable damage.

RATE INSPECTOR'S PENSION.

At Whiting Bay the encroachment of the sea continues both east and west of the bridge. Some years ago I recommended that the road and bridge here be abandoned, and that, if necessary, a new road be made further inland. I now repeat this recommendation. It is quite impossible, and in no way reasonable, that you should continue to endeavor to hold this road in this place. Further patching of existing works is not economical.

RATE INSPECTOR'S PENSION.

I have considered the question of the reconstruction of the coastguard dwellings at Ballinacorney. These consisted of five substantial houses of three rooms and kitchen each, and one large house, in one block of two stories, together with out-works in a small detached range. The houses would be suitable for workmen's dwellings, and the larger house could be divided into two houses of about the same accommodation as the remaining five. The cost of reconstruction in a substantial manner would be about £2,000. Probably housing grants, amounting to some £700 could be secured, and there is also a probability of another grant being obtained. Thus the net cost to the council may be in the neighbourhood of £1,300 per house. If a loan be raised to carry out this work, the loan rents should be sufficient to pay the cost of repairs, interest, and sinking fund. The council must decide for themselves as to the probability of securing these rents, and as to whether this scheme would form part of their duties. It would be possible to reconstruct the buildings as two or three larger dwellings for better class tenants, but the probability of securing tenants would be more remote.

RATE INSPECTOR'S PENSION.

Under the Public Bodies Order, for any new work which a member considers desirable, notice must be handed in on or before the 1st day of November in order to be included in the works scheme for the following financial year. Hence if any member wishes to have any new work done next year he should set about it early. It would be very helpful if the council decided at an early date, not later than next quarterly meeting, what sum they propose to expend on roads in the next financial year, as my estimate must be made out in December.

RATE INSPECTOR'S PENSION.

In accordance with your directions, Mr. A. D. Dealy was engaged to inspect certain places with a view to devising means to protect your roads where these were threatened by erosion from the sea. Each of the places referred to were very closely examined, and the recommendations made should be carefully followed. His report will be circulated and will give you full particulars.

RATE INSPECTOR'S PENSION.

The new works to come before you are for renewals of maintenance, and are not of great importance. Some of the works for which no tenders have been received may be rejected for the present.

RATE INSPECTOR'S PENSION.

In the late rural district of Lismore it is proposed, with your approval, to transfer surplus money from the main roads section at Modeligo to the Ballinacorney section, in accordance with Clause 10 of the direct labour scheme. The surplus money arose from the fact that a large grant was obtained two years ago for the rolling of this road.

COUNTY SURVEYOR'S REPORT.

The County Surveyor reported—In the past quarter comparatively little work has been done on your roads, which are generally in fairly good condition. Usually the supply of broken stone for the following winter is prepared in the summer months. Contractors generally have done a little work and made some progress with the supply of stone. Nearly all are recommended for payment. I must of course be borne in mind that very few contractors are required to supply hard or quarried stone.

COUNTY SURVEYOR'S REPORT.

Work of maintenance on direct labour roads has been reduced to a minimum, and the staff very much reduced. Hereafter we have worked on a three years' system whereby the whole of the three years' supply of stone on a road was provided and patched-roll in one year. This year is the third or last of your current direct labour scheme, and the whole of the stone required has already been supplied.

COUNTY SURVEYOR'S REPORT.

Steam-rolling of the main road from Cappoquin to Lismore has been completed, while the rolling of the main road from Clonoe to Loughy's Bridge is also completed. These two sections were the only rolling works provided for in your estimate. A few small lengths, uncompleted from last year's programme have also been finished. The only rolling before us at present is the main road passing through Kilmacomas, which will be finished in the course of a few weeks. Owing to water in the quarry we were unable to deal with this earlier.

COUNTY SURVEYOR'S REPORT.

Tarring work as provided by your estimate has been practically completed for some time, only a small section near Kilmacomas remaining to be done. This means good except for about one week. Surface tarring under recent road fund grant (£65,000) is also nearing completion, only about one day's work now remaining to be done. COUNTY SURVEYOR'S REPORT.

In the late rural district of Lismore it is proposed, with your approval, to transfer surplus money from the main roads section at Modeligo to the Ballinacorney section, in accordance with Clause 10 of the direct labour scheme. The surplus money arose from the fact that a large grant was obtained two years ago for the rolling of this road.

COUNTY SURVEYOR'S REPORT.

Mr. Fitzerald—Is there any chance of getting a grant for it? Mr. Bowen—It is rather a big job. Mr. Butler—It will be much worse after this winter. Mr. J. O'Donnell—What would be the cost at present? Mr. Bowen—I estimate the cost at £1,000 for the wall and toe. In reply to Mr. Butler, Mr. Bowen said if he were authorized to go on with the work at once he would not be afraid of it, but three months hence it may be a risk. Mr. Healy—After the winter it may cost twice as much. Mr. Bowen—If we got half the work done as a sudden damage order and that it proceeded with at once. Mr. Healy seconded. Passed.

WHITING BAY.

Mr. Bowen said the sea was coming in very much at Whiting Bay and the existing works there are totally inadequate. A series of walls have been built there, but the sea is eating round them all the time. He could not recommend the council to go on patching as it would be spending money for which they would not get a profitable return. Sooner or later the whole road would be swept away in a heavy storm. They should either abandon the place or make a new road.

WHITING BAY.

Mr. Bowen—If you abandon the road you will abandon the bridge, and you must construct a new bridge to protect the new road. I would suggest that you build a short piece of a wall to save the present road for the next 20 or 25 years. On the suggestion of Mr. Bowen, members of the council are to meet him on the spot on next Monday at 3 p.m. and see what is to be done.

WHITING BAY.

Mr. Bowen—In connection with the report of Mr. Dealy on coast erosion, there is a small amount of work urgent, but the bulk of it can wait to next year. With the approval of the council he would carry out the small items which were pressing. That might save them a good deal of money later on.

WHITING BAY.

Mr. Dealy—In connection with the report of Mr. Dealy on coast erosion, there is a small amount of work urgent, but the bulk of it can wait to next year. With the approval of the council he would carry out the small items which were pressing. That might save them a good deal of money later on.

RECOMMENDATION.

The recommendation of the Finance Committee was approved.

RECOMMENDATION.

Mr. O'Connell, V.C., wrote thanking the council for their resolution of sympathy in his recent bereavement.

RECOMMENDATION.

The Secretary was granted a month's holidays, Mr. Casey to act in his place in his absence.

RECOMMENDATION.

In connection with the resolution of the council asking the L.G.D. to make an order to close certain roads in the Lismore district to heavy motor traffic, a letter was received stating that a resolution was necessary in the first instance asking for a local inquiry, at which evidence would be taken.

RECOMMENDATION.

Mr. Bowen—I saw the Roads Department, and as a result of my interview I think we must give this matter further consideration before we go on with it. As an inquiry must be held we must pay for it. Then for every road stopped we must put up large notices at every cross road and we must maintain them, and that will cost you thousands of pounds. There is unfortunately no provision made for police supervision or for prosecuting offenders. It would be highly unsatisfactory to go to all the expense and have nothing for it. I would suggest you refer to a small committee to consider it with me and see if we can pick out a large number of roads and try it on them. Further, since this movement was started by us motor lobby people are made to pay more taxes that may get a certain distance to meet our requirements.

RECOMMENDATION.

The matter was referred to a committee to consult with Mr. Bowen.

RECOMMENDATION.

Mr. Healy—Can you pay them something on account? Mr. O'Connell—The Mental Hospital has nothing to meet their liabilities this month unless they get a cheque from us to-day. Mr. O'Connell—Can you pay them something on account? Mr. O'Connell—The Mental Hospital has nothing to meet their liabilities this month unless they get a cheque from us to-day.

RECOMMENDATION.

Mr. O'Connell—The Mental Hospital has nothing to meet their liabilities this month unless they get a cheque from us to-day.

DOUBLE THE WORK—HALF THE COST.

Most Important.

TO PURCHASERS OF MATERIAL IN THE GENERAL HARDWARE AND BUILDERS IRONMONGERY TRADES.

We are very pleased to be in a position to announce to our numerous Customers and Friends that after our recent disastrous fire, which completely destroyed our General Hardware, Iron and Timber Stores, at the rear of our Premises on the Square, that same is now re-built on modern lines to suit our business, and is fully stocked with everything that is required in Iron Furnishing and Builders' Ironmongery.

Purchased direct from the leading Manufacturers, at the Lowest Possible Prices. CONSISTANT WITH QUALITY, we cordially invite you to come and see our new Stocks and ask for Quotations. You will not be expected to buy unless Our Lines and Prices satisfy you.

BUILDING REQUIREMENTS—Large Stocks of Imported Deals, Battens and Scantlings, also 6 x 1 and 4 1/2 x 3 Prepared Floorings and Sheatings. Best British Portland Cement, Blue Bangor and Asbestos Slates, Solid and Perforated Building Bricks, Best Roof Brand Galvanized Corrugated Sheets, Metal and Galvanized Rainwater Goods, and all Scantlings in Sound Bar Iron.

HOUSE DECORATION—Thousands of Patterns to select from in WALLPAPER. Prices from 6d. per dozen upwards. Paints, Oils and Distemper.—We have now received a fresh supply, including all shades in Hall's Distemper.

HOUSE FURNISHING—Wood and Iron Bedsteads in great variety, manufactured by Pierce and Co., of Wexford; also Hair, Fibre and Wirewoven Mattresses, Kitchen Chairs and all General Household Utensils.

GUNS AND AMMUNITION—Sole Agents for the famous B.S.A. and Vickers Guns and Rifles, Sporting Cartridges, all bores and any size shot can be supplied. The following Brands always in Stock—Eley Grand Prix, Westminster and Cunniger Cartridges, specially loaded for us by Messrs. Nobel's Industries, Ltd., London.

GUN REPAIRS OF ALL DESCRIPTIONS.

CARRIED OUT.

COMPACT HOLDING OF 9 ACRES, TO BE SOLD BY PUBLIC AUCTION, ON THE LANDS, ON THURSDAY, AUGUST 26th, 1926, At 1 o'clock (summer time), Rent to Irish Land Commission, 44 St. P.L.V., 22 7s.

Rent and Rates will be paid up to last Gale Day.

Splendid opportunity of acquiring a compact holding adjoining the Town. Lands of superior quality, well fenced, sheltered and watered.

E. A. RYAN, Esq., Solr., Dungarvan (having Carriage of Sale); or MICHAEL P. WALSH, M.L.A.A., Auctioneer and Valuer, Cappoquin.

KILBREE EAST, CAPPOQUIN.

HIGHLY IMPORTANT AUCTION OF THE KENNEL FARM WITH NEWLY-BUILT SLEATED DWELLING-HOUSE.

M. F. WALSH has received instructions from Major H. J. Chearnley, TO SELL BY PUBLIC AUCTION, AT HIS SALESTARD, CAPPOQUIN, ON THURSDAY, SEPTEMBER 2nd, At 12 o'clock (summer time).

This Compact Farm containing 52s. 8r. 4p., statute measure, and held in FEE-SIMPLE, subject to a terminable annuity of £11 8s. 8d., payable to the Irish Land Commission under the Land Act of 1901, P.L.V., 23s. 18s.

This is one of the most Compact Farms placed on the Market for many years. The lands are limestone quality, well fenced and sheltered and on the Main Road to Limerick. They are well timbered and part are bounded by the river Blackwater. There is a newly-built Slated Dwelling-house thereon and plenty of material on the grounds for further improvements. Inspection invited.

Terms and Conditions at Sale. Further particulars can be had from E. A. RYAN, Esq., Solr., Dungarvan (having Carriage of Sale); or M. F. WALSH, M.L.A.A., Auctioneer and Valuer, Cappoquin.

Dungarvan District Court.

Held on Wednesday, before Mr. Connor, acting D.J.

LARCENY OF BICYCLES.
John O'Mahony, Dungarvan was charged with the larceny of 3 bicycles, the property of Mrs. K. Healy, Square; Miss Bransfield, O'Connell street, and J. Christopher, Ballylemon.

Supt. Murray prosecuted. Guard Boddy deposed to arresting the accused in O'Connell street on the charge of stealing Mrs. Healy's bicycle, which he denied.

Sergt. Kelleher said when brought to the station, cautioned and charged with the larceny of the bicycles, he made a statement admitting he stole two and later to Guard Ryan he admitted having stolen three bicycles.

Michl. McCue said he met the accused, who told him he was selling a bike for 30s. He later said he would sell it for £1, and then he said he would give it to him for nothing, which he did.

Thos. Sanford deposed he met accused in Youghal road and he offered a bicycle for 12/6. He then said 8/6, and witness bought it for 4/.

Thos. Lynch, Ballylemon, said on July 29th he met accused and he recognized the bicycle as being the property of John Christopher, Ballylemon. Accused left the bicycle and went to get a witness to prove he had it for six months, but did not come back.

John Bransfield, father of Miss Bransfield, identified the bicycle as that of his daughter. There were several changes made in it. It would be value £3 or £5.

George Stokes, nephew of Mrs. Healy, identified the bicycle of his aunt. It was value £2.

John Christopher, Ballylemon, deposed he left the bicycle outside Egan's Hotel on a Sunday night. When he came out it was gone. The bicycle was value for £3.

John O'Mahony, accused, said he took the bicycle from outside Egan's Hotel to go where he was working. He stole the three bicycles.

Supt. Murray said it was a very clear case. It was evident it was a hobby of accused as he went to some trouble to change the appearance of the machines. It was a very neat form of theft. There is only one thing in favour of accused, and that is his candidness in admitting the charge. If these petty larcenies were not checked it would only lead to bigger ones. He was always lenient in cases of this kind as he thought they would act as a warning. In this case he would ask his Worship to impose the maximum penalty (six months). Another thing he would like to draw attention to was the fact of bicycles or any other stolen property being bought by people such as a bicycle being bought for 4s. He was inclined to take proceedings against these people on the charge of receiving stolen property. He would like it to be publicly known that proceedings would be taken in all future cases of the kind.

The Judge imposed a sentence of five months' hard labour.

LICENSING CASE.
Supt. Murray charged Margaret Power, Square, with a breach of the Licensing Act on the night of July 29th (Show night). Three men named Hickey, Morrissey and Quinn were summoned for being on the premises.

Guard Navin deposed that about 11.30 p.m. he entered the licensed premises of Miss Power. They were admitted immediately. Miss Power said all the people in were travellers. Two of the accused gave wrong names and another a wrong address.

Guard Wrenn corroborated. Miss Power said that on that night, at about 11.30 p.m. there was a Mr. Foley, a traveller, in the shop. When he was going out he went to the door by himself. When he opened it those two men were outside and he asked them in for a drink. They went into the office. When the came down she asked them if they were travellers and they said yes. After that there was a knock and the shopman went to the door and the others came in with dogs from Connell Dog Show. The shopman did not recognise Quinn, who had his hat pulled down over his face. They said they were travellers.

John Murphy deposed he opened the door when the knock came, and before he could ask if they were travellers they said "all travellers." He did not recognise Quinn until he took up his hat off his face. They had got no drink when the guards came.

Hickey deposed it was a man from Ardmore let him in. He told Miss Power he was a traveller. Morrissey deposed they were let in by Foley, Ardmore. They told Miss Power they were travellers. Quinn deposed that earlier in the evening he got a dog to mind from one of the men he was with. When he met them he was giving him up the dog as he wanted to go home. They were going into Miss Power's and he pulled the hat down over his face.

District Justice—In my opinion Miss Power was an innocent party in this matter and I will dismiss the case against her. The three men on the premises would be fined 10s. each.

DRAWING OUTDOOR BELIEF.
The Attorney-General presented Dick Maher for drawing outdoor relief while he was in employment. Supt. Murray prosecuted.

Michl. Dee, A.O., deposed he was a relieving officer under the Board of Public Assistance. Defendant was in receipt of relief on and off for 6 months past. He applied for relief for the period June 13th to 19th, and told me he was not working. I paid him 14s. week.

Mr. George Cummins said defendant was employed by him from June 8th to July 3rd at the rate of 35s. per week. Supt. Murray said it was a serious case and if it were not for the vigilance of those responsible the county would be defrauded of a considerable amount.

District Justice—It is a very serious case, and if those responsible want him imprisoned I will imprison him.

Supt. Murray—He is a married man and has a wife and children. He deserves to be sent to jail, and only for his children I would ask for this course. Defendant—I will pay back the 35s. Justice—I will impose a penalty of one month, the warrant not to issue if the money is paid back.

Waterford

Mr. Daly (Deputy) has sent his report to the Council on the coast of the County East, Traamore. His report made a coast in company with a surveyor, is very exact. It is suggested that a structure to check the Dealing with Traffic. The coast, which angle at this point facing south-east, direction, but in west, the coast to east and is bold and the coast-line turns across shore and where there two cliffs is 40 to 60 ft. Boulder clay and low mean sea level the cliff exposed to just where conditions in a south-east gale in patches on the by this angle and question, being for water at the south, the north-east to be any rate and probably level at the seaward. This threatened to feet high at its west feet its east end. From the county road I estimate, retreating of 1.5 to 2 ft. per annum is taken to delay of county road will be in about 30 years, the street will have been injury done to all the of Traamore road. The works which have been the shore east from the turned and a very serious connection should be solid good work that ward from the end of the solid rock above west of the threatened section should take a curved in plan and its exact position a survey to determine foundation could be depth below sand level. This wall should be section and be not high water. This wall as it is far too steep. I would suggest that the construction of the should be sloped and that would stand, the being used to back the at area or promenade. If all details of this carefully gone into, planted and graded promenade quite secure, to now a menace to Traamore a valuable attraction, which would add some and very much to the scheme would be the cool or outer wall to high water, forming a pool at all states of the These walls are in panning map. It is not possible to very rough estimate will be necessary to The least expenditure by making the shore to the foot of the cliff about it and pitching could be affected by cost from £4,000 to A heavy wall full slopes drained, grade a promenade formed from £8,000 to £10,000. I would recommend, means necessary for bathing pool would be the scale on which to A very careful and all this place would any scheme was started, and it is quite points that cannot be very serious consequences it is a case where any work would be of any nature of probably difficult to make things safe, estimate can be made surveys.

ENGINEERS.
Mr. Daly (Deputy) has sent his report to the Council on the coast of the County East, Traamore. His report made a coast in company with a surveyor, is very exact. It is suggested that a structure to check the Dealing with Traffic. The coast, which angle at this point facing south-east, direction, but in west, the coast to east and is bold and the coast-line turns across shore and where there two cliffs is 40 to 60 ft. Boulder clay and low mean sea level the cliff exposed to just where conditions in a south-east gale in patches on the by this angle and question, being for water at the south, the north-east to be any rate and probably level at the seaward. This threatened to feet high at its west feet its east end. From the county road I estimate, retreating of 1.5 to 2 ft. per annum is taken to delay of county road will be in about 30 years, the street will have been injury done to all the of Traamore road. The works which have been the shore east from the turned and a very serious connection should be solid good work that ward from the end of the solid rock above west of the threatened section should take a curved in plan and its exact position a survey to determine foundation could be depth below sand level. This wall should be section and be not high water. This wall as it is far too steep. I would suggest that the construction of the should be sloped and that would stand, the being used to back the at area or promenade. If all details of this carefully gone into, planted and graded promenade quite secure, to now a menace to Traamore a valuable attraction, which would add some and very much to the scheme would be the cool or outer wall to high water, forming a pool at all states of the These walls are in panning map. It is not possible to very rough estimate will be necessary to The least expenditure by making the shore to the foot of the cliff about it and pitching could be affected by cost from £4,000 to A heavy wall full slopes drained, grade a promenade formed from £8,000 to £10,000. I would recommend, means necessary for bathing pool would be the scale on which to A very careful and all this place would any scheme was started, and it is quite points that cannot be very serious consequences it is a case where any work would be of any nature of probably difficult to make things safe, estimate can be made surveys.

BALLY.
The next point on the coast, a place some distance from the shore, where the cliff is very high and the sea is very rough. It is suggested that a structure to check the Dealing with Traffic. The coast, which angle at this point facing south-east, direction, but in west, the coast to east and is bold and the coast-line turns across shore and where there two cliffs is 40 to 60 ft. Boulder clay and low mean sea level the cliff exposed to just where conditions in a south-east gale in patches on the by this angle and question, being for water at the south, the north-east to be any rate and probably level at the seaward. This threatened to feet high at its west feet its east end. ENQUIRIES PROMPTLY ATTENDED TO.

W. & A. J. FOWKES, YOUGHAL.

Youghal District Court.

Before Mr. G. P. Farrell, B.L. Mr. Justin Condon, rent collector, summoned a number of cottier tenants for possession of arrears of rent.

Mr. Condon said he was proceeding in those cases under a special letter from the South Cork County Board of Health.

In the case of J. Mars, tenant, at 11d. per week, at 18s. 11d. was due. There was no appearance for defendant, and a decree was granted.

James O'Brien owed £2 16s. 1d. Defendant said he was doing his best to pay his rent. He had 12 in family to support. He was 18 years in the house and was never summoned before.

Evidence was given of a number of payments within the past few months. Mr. Condon said he believed the man was doing his best to pay, but what was to be done in face of the Board's instructions?

A decree was granted, not to be executed if a payment, as promised, was made. In the case of Patrick Mars, Ring, who owed 10s. 10d. or four years' rent and arrears, Mr. M. J. O'Sullivan said Mr. Keane was engaged in the case and asked to have it adjourned.

Mr. O'Sullivan said he understood there was a defence on the merits. Justice—Do you think you can have a cottage rent free?

Defendant—No, sir, but I have paid for this cottage while I have possession. Mr. Condon said the cottage in question was formerly held by defendant's sister, who had a like record, and against whom a decree for possession had been obtained.

The defendant then got the house at 11d. per week on undertaking to pay the arrears and costs due by his sister at 1s. per week, but he did not keep his bargain.

The case was adjourned for two weeks. A decree for possession was granted against Patrick Savage, Park, who owed £3 16s. 7d.

Sergt. Corrigan charged Mr. Michael J. Ryan, Cove, with furiously driving a motor car.

Mr. Wm. J. Hodnett, solr., defended. Complainant deposed that defendant drove up the Main street at 11.30 p.m. on the 29th ult. at about 15 to 20 miles an hour. Witness called on him to stop, but he passed some 20 yards before he did so. Witness warned him, but defendant said he would take no warning or caution from him.

Cross-examined, witness said defendant had good lights and sounded his horn continuously. The lights showed up 10 to 15 miles ahead. There was no traffic on the streets, but a number of pedestrians were on the footpaths. In witness's opinion the car was going 15 to 20 miles an hour. He had heard that with powerful lights and a sounding horn one might form an exaggerated idea of the speed. He might have led the defendant to believe that if he had said, "I am sorry" there would be no more about it.

The man was a stranger and witness could see a certain amount of discretion. Guard Broderick gave corroborative evidence.

Mr. Ryan deposed that the car was a Morris Cowley. He had powerful headlights, lighting up the road for about 150 yards. A good candle would light 10 yards ahead. He kept sounding the horn continuously. His maximum speed was 20 miles, he believed. He could not see the speedometer. He told the sergeant so, but the sergeant said that could be an offence under some section of the Act. The sergeant then cautioned him, but witness said he had committed no offence, and the sergeant said he would prosecute.

Cross-examined by Sergt. Corrigan, defendant said he pointed out the pedestrians on the sidewalks. He could have stopped up the car sooner, but he didn't want to injure his tyres, as there was evidence to the contrary.

Replying to Mr. Hodnett, witness said he was driving nine or ten years, and had the present car 16 months, so that he knew it thoroughly.

Mr. Peter Moloney gave similar evidence. Justice—Are there any towns with fixed speed limits?

Defendant said it was ten miles in the city. Sergt. Ennis said it was 8 in Ennis. Mr. Hodnett reminded the Justice that a similar case came before him some time ago, in which the speedometer showed 13 miles, and it was dismissed.

The Justice said the speed should depend on the width and shape of the street. There ought to be a speed limit fixed for towns. All the ones in those cases was thrown on the court, and it was very difficult to get a proper estimate of the speed. He didn't think the rate excessive in the present case, and he accordingly dismissed it.

Four fishermen—Michael Mahony, John Buttiner, junr., Wm. O'Brien and John Roche, summoned Mr. Michael Condon, fish agent, each for the sum of £2 15s. 6d.

Mr. Wm. R. Hodnett, solr., defended. Michael Mahony deposed that Mr. Condon asked him and his crew to work a boat. Witness said he had been already engaged by Mr. T. Murphy, Market Square, but defendant said they would be better off with him. They finally agreed on the same terms—half share and 1d. in the lb. at the end of the season. They asked for a written agreement, but defendant said it was not necessary. They got the usual bounty and the boat share, but he refused to give the money in the lb. and said he would kick them out. In fact he tried to do it, but wasn't able. He produced the agreement with Mr. Murphy.

Mr. Hodnett objected. Mr. Murphy

lived near the court. Cross-examined by Mr. Hodnett—He had witnesses to prove that they were to get the penny in the lb. Witness didn't say they would swear defendant down. Stack's recent case had nothing to do with the present cases. They would have brought them before, but they were waiting to hear from Mr. Condon's principal. He did not bring the matter before the court, as he didn't belong to it. He didn't break his contract to fish at any time, but the men would not come with him.

John Buttiner gave corroborative evidence. Mr. Hodnett said their defence was that they denied any agreement to pay the penny in the lb. claimed.

The defendant gave evidence at length bearing out that statement. The Justice said he came to the conclusion that these fishermen asked for the agreement, but did not get it. The cases were dismissed.

Mr. Hodnett appeared for Mr. D. Casey, State Solicitor, in a number of cases on behalf of the Land Commission against tenants.

Some were withdrawn, having been settled meanwhile, and others were adjourned. Sergt. Corrigan charged Wm. Mahony, Cork, quack laborer, with being drunk and disorderly on the Strand on race evening.

Defendant's wife said they came down for a holiday and he got a few drinks, which upset him. Complainant said the man was violent and resisted arrest, but he afterwards said he was sorry. He was fined 5s.

Guard Kenny charged a woman of the tramp class named Winifred Kennedy, Newstreet, Tipperary, with being drunk and disorderly and using bad and obscene language. She was fined 7/6.

Sergt. O'Shaughnessy charged Thomas Long with driving a motor car down Cork Hill at a dangerous rate.

Complainant deposed that defendant drove down the hill at 15 miles an hour, and came round the corner, close to the kerb, without sounding his horn. It was 11.30 on Sunday, when the people were going to Mass and there were a number of cars on the street. When stopped he said he was in a hurry, as he was going to a christening. His horn had fallen off the previous day. Fined 21s.

The same complainant charged William Broderick, Exhale, and Paik Reid with a similar offence. Complainant deposed he saw them outside the town driving at an excessive speed, but they slowed down when they approached the town, passing one another previously.

They were also fined 21s. in each case.

Dungarvan Urban Council

COAL SHORTAGE. Mr. M. Brenock, chairman, presided. Also present—Messrs. W. O'Donnell, T. McCarthy, M. Clancy, J. Curran, M. Keane, J. Hackett, J. Moore, P. McGrath, M. Griffin, R. Craig.

Mr. M. Brenock, chairman, presided. Also present—Messrs. W. O'Donnell, T. McCarthy, M. Clancy, J. Curran, M. Keane, J. Hackett, J. Moore, P. McGrath, M. Griffin, R. Craig.

Mr. M. Brenock, chairman, presided. Also present—Messrs. W. O'Donnell, T. McCarthy, M. Clancy, J. Curran, M. Keane, J. Hackett, J. Moore, P. McGrath, M. Griffin, R. Craig.

Youghal Urban Council

THE LATE MR. JOHN KENNEDY. Present—Messrs. M. Whelan, chairman; P. J. McMahon, P.C.; A. W. D. Murphy, J. R. Smyth, P.C.; T. Harrington, J. Forrest, J. Bennett, vice-chairman; S. A. Little, M.P.; P. J. O'Grady, P.C.; W. Conaghan, J. Troy, T. Curran.

The Chairman said they had all heard with regret of the death of the father of their esteemed colleague, Mr. John Kennedy. Undoubtedly he was a fine type of a good old public man, who had given a lot of valuable service in his time. He suggested a vote of sympathy with his colleagues and with his brother, Dr. T. Kennedy, their late chairman, and as a further mark of their respect that they adjourn the meeting.

Mr. O'Grady proposed that their clerk convey the sympathy of the council to their colleague, his brother, Dr. Kennedy, who had been in the chair for some years, and the other members of the family in their bereavement. The deceased, who had lived to a fine old age, had devoted a great deal of his time to the public service in Youghal and the surrounding districts, having been a most useful member of the Board of Guardians and Rural Council for some 30 years. The name of Kennedy was synonymous with progressiveness in Youghal, which owed no small share of its prosperity as a seaside resort to the late Mr. Mich. Kennedy, brother of deceased, and a colleague in the past of their present chairman.

Mr. Merrick seconded the proposition. Their colleague and the family had the deep sympathy of the whole council.

Mr. Smyth begged to be associated with the vote. Their colleague deserved the best from them, and his brother, Dr. Kennedy, ably filled the chair of the council when it was neither safe nor pleasant to occupy such a position.

Mr. McMahon, the clerk and others having joined in the vote, the meeting adjourned.

Youghal Urban Council

THE LATE MR. JOHN KENNEDY. Present—Messrs. M. Whelan, chairman; P. J. McMahon, P.C.; A. W. D. Murphy, J. R. Smyth, P.C.; T. Harrington, J. Forrest, J. Bennett, vice-chairman; S. A. Little, M.P.; P. J. O'Grady, P.C.; W. Conaghan, J. Troy, T. Curran.

The Chairman said they had all heard with regret of the death of the father of their esteemed colleague, Mr. John Kennedy. Undoubtedly he was a fine type of a good old public man, who had given a lot of valuable service in his time. He suggested a vote of sympathy with his colleagues and with his brother, Dr. T. Kennedy, their late chairman, and as a further mark of their respect that they adjourn the meeting.

Mr. O'Grady proposed that their clerk convey the sympathy of the council to their colleague, his brother, Dr. Kennedy, who had been in the chair for some years, and the other members of the family in their bereavement. The deceased, who had lived to a fine old age, had devoted a great deal of his time to the public service in Youghal and the surrounding districts, having been a most useful member of the Board of Guardians and Rural Council for some 30 years. The name of Kennedy was synonymous with progressiveness in Youghal, which owed no small share of its prosperity as a seaside resort to the late Mr. Mich. Kennedy, brother of deceased, and a colleague in the past of their present chairman.

Mr. Merrick seconded the proposition. Their colleague and the family had the deep sympathy of the whole council.

Mr. Smyth begged to be associated with the vote. Their colleague deserved the best from them, and his brother, Dr. Kennedy, ably filled the chair of the council when it was neither safe nor pleasant to occupy such a position.

Mr. McMahon, the clerk and others having joined in the vote, the meeting adjourned.

responsibility, the people in the district suffer terribly. After further discussion it was decided to appoint a deputation to visit the place.

COAL COMMITTEE. Chairman—I would like to bring to your notice that at present there is no coal in the town for rich or poor. If we formed a committee to devise some means of getting a supply from some source it would be a good thing. In Lismore and Kilmacshane, they have a fairly useful supply.

Mr. Craig—There is a rumour out today that the merchants have refused to get coal as a reprisal for the increasing of the harbour dues. As far as I know the merchants have tried everywhere for a supply and I would like to repudiate the rumour.

Chairman—The people are not so narrow-minded as that.

Mr. Craig—The rumour was put out. Chairman—The only thing we know is that the coal shortage is acute and that we as custodians of the people's welfare should do something to provide them with coal. I suggest that a committee be formed.

Mr. McGrath—The merchants are interested in their own business.

Mr. Clancy—The coal is not rationed here and people with money can get a good supply whilst poor people can only buy a quarter as a time.

Mr. Craig—I have refused big orders for coal and held it over for the poor people.

The following committee were then appointed—Messrs. Butler, Keane, Clancy, McGrath, Moore, Curran.

A DESERVING CAUSE. Mr. O'Donnell—You have all heard of the way in which Mr. Dahill, Kilgobinet, was deprived of his mahill by the thunderstorm. It is now suggested that a committee be formed in order to obtain subscriptions, and any member of the council that likes can be on the committee. I for one would be on it as it is the most deserving of objects. It is impossible to understand what man has suffered since he was deprived of his home. Some years previous he lost his son more or less for the country, and I would ask you to give a helping hand.

Mr. McGrath—I am with you in every detail.

Chairman—It is a most deserving object, and any support the Urban Council can give will be given.

WASTE OF WATER.

S.S.O. Walsh was given full powers to prosecute any person found wasting the water.

Mr. Griffin proposed, and Mr. Moore seconded, the following resolution, which was passed in silence—"That the sympathy of the council be extended to Mrs. R. Craig, Abbeyside, on the death of her brother."

Mr. John Curran proposed, and Mr. Keane seconded, the following resolution—"That the clerk lay before the council at next meeting the financial position of all the schemes of houses (except the one now in course of construction) as to rent, rates, instalment due to Board of Works, etc., up to last gate day."

STONES ON SHANDON ROAD.

Mr. D. Draper appeared before the meeting with reference to the stones at present on the Shandon road, and asked the council to have the road put into repair before the day of the match between Tipperary and Limerick.

An order was made to have the stones rolled in or removed before that date.

EXPENDITURE.

The week's pay sheet amounted to £24 6s. 10d. Payment was passed.

LIGHTING.

The Dungarvan Electric Light Co. sent in an amended tender for the lighting of the town. The amount tendered for was £280, an increase of £10 over last year.

Chairman—The light is the same price without the increase as in 1921. Instead of reducing it they are showing the price up.

Mr. Hackett—They mention they have big expense. Where is it?

Mr. O'Donnell—A big outlay.

Mr. Clancy—The expense is no greater than last year.

Mr. Keane—The light is produced at 5d. per unit and the public are charged 1s. They have a fine profit.

Mr. Hackett—Get the old gas out again.

Mr. O'Donnell—Don't stir from last year's price.

Mr. McGrath—How long is the rate advanced so much.

Clerk—About two years. Last year it was £280.

Mr. Keane—It strikes me that we should make a reduction in the light as well as in other directions.

Mr. O'Donnell—When will we have the shandon scheme.

Chairman—In a couple of years. It was decided to refuse the tender and only accept it on the same conditions as last year.

THANKS.

Mr. Denis Ryan sent a letter thanking the council for their kind expression of sympathy on the death of his sister.

SEWERAGE.

The County Board of Health wrote stating that the nuisance at the County Home was being attended to.

YOUGHAL NOTES.

Unemployment.—Without the least fear of contradiction, it may be truthfully asserted that there has never been such widespread unemployment in our midst as at present exists. There are certain periods of the year when it prevails, quite naturally, as it were, especially in towns where there are but few well-established industries that are always on the go, except on the Sabbath and holidays. Then again great political disturbances and things of that kind, as a general rule, "upset the apple cart," and, being matters of such mighty importance, naturally give the people something else to think of than such mere materialism as bread and butter, or even bread without the butter, not to dream of jam. But here we are right in the middle of a brilliant summer, with law and order everywhere—when everything and everyone should be busy and humming as bees in a beehive, and yet outside the small number in regular employment—and some of these even sit on short time—the vast majority of the workmen, both labourer and tradesman, are all stark idle. This is all the more remarkable considering that it has been asserted over and over again by officials of the highest authority and estimates and emoluments in the land and is the most public fashion, that we "have turned the corner." There is very little good in pessimism, but there is even less in regarding the policy of the ostrich and burying our heads in the sand in order that we may not see the danger ahead. Forewarned is forearmed. The great desideratum is to get at the root of the evil if possible, and if it is found, remove it, ditto. The present condition of things is bad enough in all conscience. But the great question is: what is it going to be during next winter?

Is It So?—There can be no doubt that there is money left still in the country that might and ought to be available for local investment and speculation, say, in the shape of new industries, new buildings, etc. It is also a well-known fact that there would be much more available were it not that a substantial amount was withdrawn to other countries as a result, direct or indirect, of recent events. However, this does not account adequately for the almost complete fall stop to which we have come. Some of those representing capital say that works of almost every kind are so costly and so uncertain, when compared with former years, that there is no encouragement for persons with capital to speculate, outside the Stock Exchange, which has all the attraction of a gamble. For instance, it is said that building costs three to four times what it formerly did. This estimate applies pretty well all round. Now, why should there be such a disparity? Aye! there's the rub! At a recent meeting of the local council there was a discussion on a piece of work in operation. The engineer in charge said a certain workman was very slow. "Oh," said a councillor, amid laughter, "that is part of his job—to be slow." If there be anything in the statement, it would account to some extent for the fact that men with money to spare are so slow in speculating.

Coal.—The local supply of English coal is fast drawing to an end, and it must be replaced somehow, otherwise those—they are many, especially the poorer classes—who are entirely dependent upon grates and ranges, will be badly hit. In former years an attempt was made to get in a supply of turf, but it did not work out too satisfactorily. It is said that a foreign coal has been used for some time past in an important local industry—the Youghal Brick Works, but up to the present none has been imported for general use or sale. It will, therefore, be a great relief to the public to learn that Messrs. Richard Farrell, Ltd., are expecting a cargo of foreign coal any day now. Youghal has been luckier than many of the other towns around inasmuch as the local coal merchants had the laudable foresight to get in a large stocks before this unfortunate coal strike broke out across Channel. In all probability the example set by Messrs. Farrell will be followed by others, as, even if the strike were settled at once, it will take a considerable time before supplies of English coal will be available for us at this side of the Channel, for "charity begins at home."

"Crying for the Moon."—The public in general are, in some respects, like the baby in particular—they don't know what they want. They cry for a bit of moon, and oftentimes when they at last succeed in prevailing upon someone to supply it, they find that it is not the lunar planet they need, but the sun. For years past we have had repeated complaints in the Press regarding the absence of this, that and the other thing in Youghal for the purpose of affording additional attraction and amusement—band promenades, motor boats for the trips in the river, in the harbour and bay, chairs on the strand, and so on ad lib. Well, to make a long story short, this year the enterprising Messrs. "Terry" fitted up a tidy motor boat, the "Ballynac," for trips of the kind mentioned, but barring a few trips on Sundays, she is left idle on the jibs hands the whole week round. The proprietor of the Pierrot Troupe went to the expense of purchasing a lot of comfortable deck chairs for the beach, with the result that only a very small number are taken. As regards the band promenades, the repeated experience of former years was more than enough. "A burned child dreads the fire."

University Scholarships.—The renewal of the University Scholarships to Messrs. J. Dalton and E. Keane was passed by the County Council on Tuesday.

LOCAL NOTES.

Without the least fear... Mrs. Mary Ryan, Cappoquin, who died on August 12th, 1924.

LOCAL HAPPENINGS.

Notice—Prize-winners at Dungarvan show can have their money on application to the Secretary's Office.

China Street White Drive—We are informed that the above White Drive for which an Overload car was put up as a prize, has been withdrawn by arrangement.

Dungarvan Markets—Meal (first), 24/6; heavy fine, 24/4; middle-cut, 23/6; flour, 27/-; beans, 12/-; coal, 4/-; cwt.; butter, 1/7 per lb.; eggs, 1/2 per dozen.

Kerry v. Waterford—At Cork on Sunday past Kerry and Waterford met in the annual football championship, and we shall see the home team will give the Kingdom a fast game.

Popular Bank Official—Miss Cronin, who has been for the past 8 years an official of the Munster and Leinster Bank, Dungarvan, has been transferred to Cork.

Business Deal—Mr. Park Ryan has purchased by private treaty the business premises of the late J. J. Condon, Main street, Dungarvan.

A Band Promenade will be given in the Park this (Friday) evening at 8.30 p.m.

Tipperary v. Limerick—The meeting of Tipperary and Limerick in senior hurling at Dungarvan on Sunday week will be something to be remembered.

G.A.A.—In a friendly inter-county at Lismore on Sunday last in fine weather before a fairly large attendance, the Lismore H.C. defeated Kilmoyler (Gahr) H.C. by 8 goals 3 points to nil.

Agricultural Scholarships—We would direct attention to the award of scholarships in agriculture for boys over 17 years in respect of which an examination will be held at the Courthouse, Dungarvan, on August 27th next.

Keep Down Taxation—Waterford Co. Council at Tuesday's meeting adopted the Cork resolution calling for an Inquiry into national and local administration to find on how reduction can be effected.

Subscription List for Thomas Dahill, Kilmaree.

NOTICE. In order to comply with the requirements of the County Council and Local Government Department, we, the undersigned, hereby give Notice that all Rates Outstanding after 31st AUGUST WILL BE SUED FOR.—H. Harty, N. Quessly.

DRUMREE, CAPPOQUIN, COUNTY OF WATERFORD. HIGHLY IMPORTANT AUCTION OF LARGE RESIDENTIAL FARM.

MR. DAVID NOONAN has been instructed by Mr. Edmund Casey, TO SELL BY PUBLIC AUCTION, ON THE LANDS.

At One o'clock (sharp time), ON THURSDAY, 2nd SEPTEMBER, The Farm of Lands consisting of all that part of the Lands of Drumree Lower, formerly known as New Adane, containing 164 acres 1 rood 15 perches or thereabouts, situate in the Barony of Coshmore and Coshbride and County of Waterford, being the lands entered on Folio 306/16207 of the Register of the County of Waterford, held in FEE-SIMPLE subject to a terminable annuity of £56 9s. 4d., payable to the Irish Land Commission subject to the provisions of the Annuity Act. The original annuity of the said Lands was £94, which has since been reduced by legal reductions to the said sum of £56 9s. 4d., and will be further reduced until it terminates.

This magnificent Residential Farm is ideally situated on an eminence overlooking the river Blackwater, about 1 1/2 miles from Cappoquin, and 9 1/2 miles from Lismore. Three convenient entrances from the main Cappoquin-Youghal road give an easy access to the Holding. The Land is of the very richest kind and especially noted for its fattening and milk-producing qualities.

In virtue of its southern aspect, the Farm is well sheltered from the north and east, and conveniently sited and well-fenced fields make its working both easy and economical. A well, centrally situated and famous for the quality and quantity of its water, supplied the Farm with an invaluable asset; also access to the river gives an ample and never-failing supply of water for live stock.

The value of this fine property is still further enhanced by the possession of a splendid Limestone Quarry and a superbly abundant supply of growing timber (principally beech and ash) as well as affording excellent shooting and fishing.

THE RESIDENCE—A splendid three-storyed Building contains the Ground Floor a large hall, a sitting-room and dining-room; a kitchen and pantry and two servants' rooms. A grand spiral staircase gives access to the Second Storey, which contains 7 bedrooms equipped with massive marble fireplaces, whilst the front rooms are further embellished by large bay windows. On the top story there are 9 airy bedrooms.

OUT-OFFICES—Adjoining the Residence are 3 spacious yards containing 7 large stone built and slated buildings giving accommodation for 50 cows and 15 horses. Three of these buildings are finished with large laths. Convenient to the Residence there is also a splendid dairy and a large cement water tank and a roomy shed, stone built and roofed with corrugated iron.

To the importance of this Sale Subscribers direct the attention of intending purchasers, as the small annuity, the great fertility of the land, the picturesque residence, all combine to make this farm one of the finest in Munster.

For further particulars and Conditions of Sale apply to E. A. RYAN, Solicitor (having Carriage of Sale), Dungarvan; or DAVID NOONAN, Auctioneer and Valuer, Lismore.

MOLONEY'S Annual Autumn SALE

NOW IN FULL SWING.

Startling Value offering in every Department.

The Goods were keenly and judiciously bought in huge direct consignments ex the Continent and elsewhere on a wholesale basis, doing away with Middlemen's profit, and will be offered to the public bearing a very narrow margin of profit so they will be absolutely dead bargains all round.

The heavy Stocks on hands must be reduced considerably by end of August in order to make room for Winter Lines, which are due to arrive by September. This will be the Chance of the Season to secure the following at such very tempting prices:—

- China, Glassware, Delph**—Vases, Flowerpots, Teapots, Floating Bowls, Bedroom Ware, Breakfast and Afternoon Tea Sets, Cups and Saucers, Odd Cups, Dinner Services, Odd Plates and Dishes, Tumblers, Liqueur and Wine Glasses, plain and coloured.
- Toys**—Special Clearing Lines. A big range of Footballs.
- Fancy Goods**—A Wonderful Variety.
- Religious Goods**—Rosaries, Statues, Badges, Prayer Books.
- Pictures**—Religious, Scenery. A big assortment.
- Gramophones**—The celebrated "Columbia," also German Horn Models from 29s. Thousands of Records, Needles, etc.
- Melodions**—By reliable makers. Only 50 in stock.
- Mouthorgans**—A grand assortment from 3d.
- Clocks**—From 8s. 11d.
- Stationery**—Notepaper, Account Books, Inks, Pens and Pencils.
- Books**—All the latest by best authors.
- Cutlery and Plated Goods**—Steel-leaf handles. A grand range of stainless at stunning prices. Butchers' Knives, Carvers, etc.
- Plated Goods**—Tea, Dessert and Table Spoons and Forks.
- Wallpapers**—Over 5,000 pieces in beautiful designs. The biggest stock and range of patterns in Munster. Pattern Books on application.

- Enamelware**—Buckets, 2s 6d and 2s 11d, direct from Germany; Teapots, Basins, Ewers, Mugs, Jugs and Saucepans from 7d.
- Furniture**—A huge stock displayed in New Showrooms—over 200ft. long—Cheffoniers, Tables, Chairs, Cabinets, Dining and Bedroom Suites, Overmantels, Mirrors, Hall Stands, American Congoleum Squares, Rugs, Mats, Carpets.
- Beds and Bedding**—Ov. r 100 in stock in Black and Brass. Mattresses in Fibre, Hair and Mixtures, Wire on Pitch Pine Frames, etc., at very low prices ex contract.
- Perambulators**—Go-Cars in assorted colours and designs.
- Trunks**—Tin and wood, Suit and Attache Cases, assorted.
- Fenders, Fireirons, Ranges, Grates, etc.**
- Household Goods of every description**—Brushes, Pans, Kettles, Saucepans, Polishes, Mops, Galvanised Buckets, Whisks, Washboards, Pains, Distempers, Varnishes, Stains, etc., Valor Cooking Stoves, German Cooking and Heating Stoves.
- Bikes, new, shop-soiled and second-hands.** Only 50 in stock
- Over 100 Tyres and accessories of all kinds.**
- Terms will be strictly Net Cash during Sale.** Special Trade Terms to Shopkeepers and Hawkers for Wholesale Quantities.
