# THE ART OF DRESSMAKING

is as fascinating as it is necessary. Successfull dressmaking requires more than materials -a pair of scissors and the ability to sew. Many other factors enter into the art of producing the kind of garments that clothe with grace and give an air of distinctive individuality. It is a creative art acquired successfully by few in the degree it is revealed in Hadden's Dressmaking Department. This service is at your disposal together with a pleasing range of the newest materials for all occasions, at moderate prices.
