THE COURT.

At the monthly District Court held on the 11th inst., before Mr. F. J. McCabe, D.J., a number of people from the Kill and Kilmaden police districts were prosecuted for breaches of the Lights Act, and nominal fines were imposed in all cases. A man named Daniel Corbett, of no fixed abode, was charged with drunkenness and disorderly conduct at Kilmacthomas on the 1st inst. and also with assaulting a Guard on the occasion. The Justice took a serious view of this matter, and but for a good recommendation from Sergt. O'Donnell on behalf of the defendant would have inflicted a very heavy penalty. Corbett was fined 5s. for being drunk and 10s. for the assault with the usual costs in both cases.

A list of infringements of the School Attendance Act were dealt with. The Justice commented severely on the carelessness of parents in this important duty relative to the proper upbringing of their children, and issued a stern warning to the effect that he would deal more sternly with such offenders in future. Fines ranging from 5s. to 21s and costs were imposed.

Numerous cases of animals found wandering on the public thoroughfare were heard and small fines were registered. A hire tender of civil bills suits occupied the attention of the court for a considerable time, decrees being granted in all save one or two, which were stated as having been settled out of court. Mr. Williams, solr., Dungarvan, appeared for the applicants concerned in these.

OBITUARY.

After a few weeks' illness the death occurred at Carrigcastle, Kilmacthomas, on last week of Miss Nellie Walsh, daughter of Mrs. Walsh, and of the late Michl. Stanislaus Walsh. The genial and kindly disposition, simplicity and straightforwardness characteristic of the deceased young lady, made her loved and respected wherever she was known, and gained for her hosts of friends and acquaintances, who now mourn her untimely demise. In her home, however, she will be missed most. Always an exemplary Catholic, she was a faithful member of the Confraternity of the Sacred Heart established at Ballypleneen Parish Church. R.I.P. Her funeral cortege to Newtown bore ample testimony of the respect and esteem in which deceased lady was held. It would be almost impossible to give a complete list of the relatives, and no attempt could be made to give a list of the general public. Solemn Requiem Office and High Mass was offered for the repose of her soul in Newtown Parish Church, and the remains were subsequently laid to rest in the adjoining cemetery. Rev. John O'Donnell, P.P., officiated at the grave-side.

G.A.A. Owing to the inclemency of the weather on last Sunday afternoon the hurling and football challenge matches arranged to take place at Durrus Sportsfield had to be abandoned. A similar programme listed for the Rathgorman venue was also postponed on account of the exceedingly unpleasant climatic conditions experienced out of doors on Sunday.

Co. Board of Public Health.

Mr. P. O'Gorman, chairman, presided. Also present—Messrs. J. P. McAuliffe, P. McKealy, J. Kiersey, J. Butler, T.D.; J. O'Donnell, W. Stack, D. Heskin, D. Conway.

SECRETARY'S REPORT.

The Secretary reported that Mr. R. Delaney ceased to be a member as he had failed to attend the required number of meetings. He also reported that Miss Casey's appointment for 12 months in his office was drawing to a close and asked the board to make application for a further appointment.

Mr. Butler—in connection with Miss Casey, I formally propose that the Department be asked to make the appointment permanent.

The proposition was passed. ARDMORE WATER SUPPLY. The report and estimate of Mr. Spreadborough, engineer (West Waterford) in connection with the water scheme to Ardmore was before the meeting.

The Secretary said there was also a report from the analyst, which stated that in her opinion the water was suffering from vegetable contamination, and suggesting that the springs be cleaned up and another sample sent.

The board decided to have the springs cleaned and a further sample sent on, and adjourned consideration of Mr. Spreadborough's report and estimate pending the result of the second analysis.

TALLOW WATER SUPPLY. Dr. O'Mahony reported a shortage of water in the town of Tallow, although there was an overflow at the head works. The matter was referred to the contractor.

PORTLAW WATERWORKS SCHEME. Mr. Jephson, engineer (East Waterford) submitted a report and estimate of the above scheme. The estimate amounted to £2700.

Mr. O'Donnell suggested that a copy of the estimate and plan be sent to the Portlaw Committee, and that Mr. Jephson consult with them.

This was agreed to, and the matter was adjourned pending the result.

REPAIRS TO COTTAGES. Mr. Butler handed in a list of the following cottages which badly needed repairs—Miss Vesle, Ballinacourty; Mrs. Cooney, do.; Park Wall, Ballinacourty; John Heaney, Ballymacnaghs; Thos. Fraher, Mapetown, and Thos. Guiry, Ballycollins.

APPLICATION FOR ALTERATION PERIOD.

INQUIRY AT YOUGHAL.

At Youghal Court-house Mr. Green, Chief Inspector of Fisheries, B. Southern, Assistant Inspector, issued an Inquiry into an application by the net fishermen of the Department of Fisheries for the period during which it shall be lawful to kill, destroy or take any trout in No. 4, or Lismore district. Mr. J. A. McCarthy (instructor J. L. Keane, etc.) appeared before the court and requested the period to be altered from the 15th February, each year, to the 1st of February, each year, for the purpose of the defence for and against that application.

IMPORTANCE OF FISHING INDUSTRY.

Mr. McCarthy said the present Inquiry was brought about because of the fact that the net fishermen and Board of Conservators of the river, fishing was practically the only industry in Youghal, and that about three thousand persons were dependent on that industry. In the last portion of the river there are bay houses and 20 harbour boats apart from the return brought in by the fish to the district there are on equipment alone a sum of £20,000 worth of fish. There is in addition to the amount of the fisherman in the bay and an important factor therefore, of the community was the prosperity of the fishing industry.

The net fishermen held the 15th of January instead of the 15th of February, the date of opening of the season was altered to 1st of February, on similar terms to those on which the fishermen in the district there are on equipment alone a sum of £20,000 worth of fish. results of the last Inquiry held along with the industry, about thirty-five years ago, the date of opening of the season was altered to 1st of February, on similar terms to those on which the fishermen in the district there are on equipment alone a sum of £20,000 worth of fish. There is in addition to the amount of the fisherman in the bay and an important factor therefore, of the community was the prosperity of the fishing industry.

APPLICATION FOR ALTERATION OF PERIODS.

INQUIRY AT YOUGHAL.

At Youghal Courthouse Messrs. C. Green, Chief Inspector of Fisheries, and R. Southern, Assistant Inspector, conducted an Inquiry into an application made by the net fishermen of Youghal to the Department of Fisheries to alter the periods during which it shall not be lawful to kill, destroy or take salmon or trout in No. 4, on Lismore district.

Mr. J. A. McCarthy (instructed by Mr. J. L. Keenan, solicitor) appeared for the fishermen of the harbour and bay of Youghal in support of the application; Mr. H. P. F. Donagan, solicitor, represented the Lismore Estate, Company and a number of owners and users of fisheries on the Blackwater river, to request that no change be made in the existing fishing period.

The Chief Inspector said the memorial need in connection with the application asked that the open season for salmon fishing in the Blackwater should be altered to begin on the 15th January, instead of the 15th February, each year. Their sitting was for the purpose of hearing evidence for and against that application.

IMPORTANCE OF FISHING INDUSTRY.

Mr. McCarthy said the proceedings at that Inquiry were brought about by a resolution that had the approval of the net fishermen and Board of Conservators of the river. Fishing was practically the only industry in Youghal, and there were about three thousand persons solely dependent on that industry. In the Youghal portion of the river there were 43 bay licences and 29 harbour licences, and apart from the returns brought by the capture of fish to the district there was spent on equipment alone a sum of 24,000 annually. There was in addition the amount spent as the result of the successful efforts of the fishermen in the bay and harbour. An important factor therefore, in the life of the community was the property and success of the fishing industry. As the result of the last Inquiry held in connection with the industry, about thirty or thirty-five years ago, the date of the opening of the season was altered from 15th to 1st of February, on similar grounds to those on which the fishermen now asked that the date of opening should begin on the 15th of January instead of the 1st of February. They submitted that the run of fish had so changed and the spawning season had also so changed that no injury of any kind could be done to the fishing industry in the upper reaches of the river or harbour, or bay of Youghal by the introduction of such an earlier opening of the season.

Having dealt with the change that had taken place in the nature and habits of fish to warrant such an alteration, and the steps taken in the fixing of new opening periods on other rivers in the country, he pointed out that evidence would be given to show the run of fish in the months of December and January, and the necessity for an early opening of the season. After touching on the poaching, dynamiting, and poisoning of fish in the upper rivers during the period from 1915 to 1922, he went into the general state of the rivers of the country, and said at the present day they were in good condition. The circumstances of the existing state of affairs justified their contention that there was a certain portion of the year in which products of the industry were allowed to go waste. The nature of the whole industry had changed, and fishermen must get an earlier opening or otherwise the industry would not succeed. They presented their case with confidence, and in the hope that such a step would be taken for the development and improvement of one of the country's most important industries.

Mr. Donagan—At the meeting of the Board of Conservators seven votes were cast against the proposal to have an earlier opening of the season. There was not so much poaching that year as last year, but reports had been received in connection with captures of illegal nets and other equipment. No one ever offered witness a poached salmon. The salmon fishing that year had improved in the tidal waters and also in the lower portions of the Blackwater.

In reply to Mr. Carroll, witness stated that he was a merchant and used to trade in fish, but was not doing so at present. He had no interest in fishing that year on the river except the ordinary interest that he evinced in the river and its industry.

Michael Tobin, a draft net fisherman in the Villiersstown district, stated that the net fishermen of the "Tidal Fishermen" Association were unanimously in favour of the proposed earlier opening of the season. For the last seven or eight years spring fish were running in December and January. He detailed the changes he noticed in the habits of fish for some years past, and said the fish were running earlier than was the case in the old days. He fished pool and salmon in July. He dealt with catches, and said up-river and net anglers had good catches. There was plenty of fish, and every opportunity for the fish to go freely up and down the river.

In answer to Mr. Donagan and Mr. Carroll, witness added that the present season had proved very satisfactory.

Falk, Bowler, a member of the same association, and John O'Sullivan, hon. sec. do. gave evidence of a corroborative character. It was the general view of the members of the organisation that spring fish were running in the months of December and January, and that spawning fish were running as early as August. The season should be opened early in January, and no fishing should be allowed after the 1st July of each year. Such an alteration would not be detrimental to either rod or net fishing on the Blackwater.

In reply to Mr. Donagan, Mr. O'Sullivan said the object of his association was to look after the lawful interests of its members. Another of their objects was to remove all the obstacles from the river, including the weir at Lismore.

Mr. Donagan—Have members of your body fished in December and January of last year? They would not be allowed to do so by the present rusty old laws (laughter).

In answer to Mr. Carroll, O'Sullivan said he had a shop at Villiersstown. The witness stated that since the present season started the price of salmon varied from 1/7 to 1/11. The catches in February had been fairly good. In 1920, when witness was not licensed, he bought salmon before the season opened in order to help some people who were in poor circumstances, owing to the depressed state of the country. Spring fish were available in December and January.

In reply to Mr. Donagan, witness stated that the salmon had not been better than the season started well privately in England and realised 4/6 per lb.

Mr. Donagan—Is not that what is wanted, to get ahead of English and other markets? No, sir.

Witness added that he gave such evidence to show that the fish must be sold real spring fish caught in 1920 before the season opened were gravid or spawning fish.

Mr. McCarthy then produced a minute of the Board of Conservators of the 25th November 1926, in which it was stated that the Inspector reported on the success of the salmon fishery and trap and holding pond at Bantore, and stated that they had so many fish he was obliged to close it down.

Chief Inspector Green—That does not get us away from the fact that the present has been a phenomenal year. The catch for the fishermen was then closed.

Michael Condon, manager of Rosay's Fishery, Youghal, was then examined by Mr. Donagan, and having dealt with the fact that he did not believe old fish run in January in the river. Fish had recently been transported by motor to Waterford and Cork. Poaching was extensively prevalent along the river Blackwater. As a matter of fact the Conservators themselves would take or purchase a fish for every day of the year if the season were left open for twelve months.

In reply to Mr. McCarthy, witness said it seemed to him that tons and tons of fish were taken in the close season in January in the upper reaches of the river and shipped to London in February. They were old and spawning fish. Wholesale poaching undoubtedly went on. He had a strong objection to the granting of the present application.

The proceedings were then adjourned.

LONG LIST OF CIVIL BILLS.

Balfour Mr. G. P. Farrell, B.L., District Judge.

GAME CASES.

By the way Mr. Carroll, these game cases must be further adjourned as I have not heard anything about the case stated.

Mr. E. Carroll, solicitor—It should be on the evening week as it is a fishing case. The case must be further adjourned then.

CIVIL BILLS.

John Ryan, Fountain, Tallow, obtained a summons for costs only against Wm. Doyle, Cappoggin. Mr. Hollett, solicitor, for plaintiff.

Miss Mabel O'Neill v. Ellen Carr, Ballyknock, 20 lbs. l.d. default. Decree granted.

K. Walsh, Tallow v. James Ahearne, Ballyknock, 15/6. Decree together with 7/6 motor cost expenses.

Same v. Robert Prendergast, 41/6. 11/6. Decree.

Irish Land Commission v. John Galagher, Oona, for costs only. Decree.

Same v. Kate Morrison and Mary Higgins, Ballyknock, Ballynoleigh. The Justice adjourned both cases to ascertain if both defendants were spinners or otherwise.

Same v. Mca. Dooley. Decree costs only.

Same v. Michl. Lyons 23/6. 8d. Ad. judgment.

Same v. Patk. Shanahan, struck out.

Same v. Johanna Keefe, Anker, adjourned for description of defendant.

SMITH v. BALDWIN.

This was a civil bill brought by John Smith, Tallow Hill, against John Baldwin, Kilmalk, Tallow, for 20 for services fees alleged to be due to the plaintiff, who is the owner of the site horse Blairvale.

Mr. O'Gorman (for Mr. Ryan, solicitor) for plaintiff, and Mr. Carroll for defendant. Plaintiff gave evidence of the debt being due.

In cross-examination by Mr. Carroll—His reason for not using earlier was there was no law in the country then (laughter). It was three years next August since witness gave the case to a solicitor (laughter). He got 21 from defendant about the month of July.

Mr. Carroll—And if 23 were due to you why did you take 21? Witness—Half a loaf is better than no bread (laughter).

Mr. Carroll now cross-examined the witness as to entries in the passbook and ledger (produced in court), which later were inspected by the Justice, who closely questioned the witness.

Mr. Carroll said it was a resuscitated claim, and this last 21 given to plaintiff by defendant settled the matter between them, and it was because his client brought matters to a rival owner's horse that this ancient and stale claim was brought forward. Smith was going back to the dim mist of memory. Mr. Carroll now mentioned about a foal bargain agreement and had defendant and Patrick O'Brien examined in support of his statement. The Justice dismissed the case.

A LICENSE.

Miss Christina O'Donnell, West street, Lismore, was granted transfer of an ordinary 7 day license in respect of premises held by the late Mr. Wm. D. Keary. Mr. O'Gorman (for Mr. Ryan, solicitor) for applicant.

A COTTAGE.

The Waterford County Board of Health sought possession of a labourer's cottage of which Thos. McCarthy, Ralph, had been tenant.

Mr. O'Gorman for plaintiff and defendant was not professionally represented. Mr. O'Gorman pointed out defendant had broken the terms of agreement which he had signed regarding sub-letting and residing in the cottage.

The Rent Collector No. 1 District proved notice to quit, and Mr. Murphy, Secretary's Office Board of Health, proved defendant's signature to the agreement.

Defendant, in reply to the District Justice, said he had lived 24 years in the cottage and could not get employment. He did not give the key to anyone. He was presently working in Kilkenny. O'Donnell's letter produced.

The Justice said there was a breach of agreement, and gave a decree for possession.

SCHOOL CASES.

Geard Stratford, S.A.O., summoned Pk. Hennessy, Strough, for failing to send his son Paul, aged 9 years, to school regularly. He was absent 19 out of 41 school days, and no excuse was given to the teacher.

Defendant said the children were sick and the weather bad. Witness also proved the summons brought in respect of Thomas, aged 12 years, and no excuse was given.

Defendant—They got the measles, the "flu" and they had no topsacks and had over two miles to go. It was a bad winter on children, your worship.

Justice—We are talking now about March and April, the period you are summoned for. What was wrong with the beginning of April?

FOLEY v. SULLIVAN.

Miss Foley, Ballyduff against Peter Sullivan, same district. Mr. Carroll, solicitor, for plaintiff, and Mr. O'Gorman, solicitor, for defendant.

Mr. O'Gorman asked an adjournment as his client was in bed sick. Granted.

RATES.

Civil bills were issued against a number of defaulting ratepayers in Lismore No. 2 Collecting District, with Mr. Thos. Barry, collector, as plaintiff.

The case against Palk. Geoghegan was taken up first, and the amount alleged to be due was 23/9. 8d.

Mr. E. Carroll, solicitor, for plaintiff, and Mr. O'Gorman, solicitor, for defendant. Plaintiff, examined, stated the rate was due.

Cross-examined by Mr. O'Gorman—it was for 1923-24 period. Witness was not rate collector then. If defendant swore he said the rate to a former collector witness could not contradict him.

Mr. O'Gorman—We had a defaulting rate collector in this district, and our case is that these rates were paid him. In this case defendant sent the money through the post to the collector and had a receipt from the Post Office, which he lost. He wrote the Postal Authorities, and in their reply to him stated they were unable to trace this letter as it was so far back that the books were lost.

To Mr. Carroll, witness replied he was paid for 1923-24, and other ratepayers had settled under this warrant.

Mr. O'Gorman—You are suing in the dark. The defendant, examined stated he paid every rate, and had his rate paid to-day. He sent this rate by post to Mr. Ryan, collector, and when Mr. Barry demanded it he (defendant) said it was paid and the collector said: "It was in the book against me." He got no receipt from Mr. Ryan.

To Mr. O'Gorman—I wrote to the Postal Authorities about this registered letter that was lost and that was their reply (produced).

Mr. Carroll—We don't want anyone to pay the rate twice. Cross-examined—He sent the money by post. He had two pound notes and 0/10 in cash. He sent in coin through the post. He forgot all about getting a postal order. He heard about that. It was Mr. Golding, Co.C., that sent it. He did not know of his own knowledge or not if he sent it as he did not see him. He never had the post office receipt in his pocket. In July he got the demand note and paid the two rates.

Mr. O'Gorman now mentioned he would require Mr. Golding as a witness, and looked for an adjournment.

Mr. O'Carroll, objecting, said he gave Mr. O'Gorman an opportunity at the outset of adjourning all the cases, as he Mr. O'Gorman wanted some of them adjourned, and he decided to go on with this. It was not fair now at this juncture to look for an adjournment. The case was adjourned.

Same v. Edmund Coleman for 21/6. 8d. rates for Inchlesney East holding. Decree granted.

LIMMOROUGH TOWN COMMISSIONERS.
 Mr. Thomas Coffey, chairman, presided at the above monthly meeting held in the Carnegie Library. Other members present were—Messrs. John Goodling, Co.C.; T. E. O'Shea, Co.C.; E. A. Murphy, P.C.; Timothy Duggan, John Keyes and John C. Heelan.
 Mr. O'Rourke, clerk, having read the minutes, said the new lengths of hose purchased had been sent back to the contractors as the couplings were a mischief. The gate erected at the new house had been completed, and the Chairman and Mr. Duggan inspected it, and state it's a satisfactory job, and payment may be passed to-night for same. They had £80 to credit, but payments as follows were to be made out of the £80 as follows:—£31 12s. 6d., balance due on gas account; £9 for the gates, and £4 7s. 6d. scavenger's wages; total, £45.
 Mr. Murphy—Then you have the wheels for the watering cart and hose to pay for also.
 Clerk—I think we will be able to meet it (laughter).
 Mr. Goodling—The price of that gate will come out of the housing account though.
 Clerk—You have only one fund now, sir.
 Mr. Goodling—Is that so? Well, that is not good finance.
 Clerk—It was done on the instructions of the auditor. At any rate you have £80 to credit, and again there is £33 17s. 9d. town rate outstanding, which should have been collected since 31st March, and the collector should be here to-night with his books etc., to get his new warrant.
 The members, while expressing surprise at the dilatory action of the rate levier, were pleased with their financial position.

TENDERS.
 Only one tender at 35s. was received for the heap of manure in the Commissioners' yard, and it was accepted. Mr. Midge-Crowley being contractor.
 Clerk—A few years back we used get £3 for that manure.
 For the tillage land at the new houses as the season now ran late, a tender at 25s. was accepted, received from Mr. J. M. Cahill.
 The Clerk reported that the wheels for the town watering cart were ordered two months ago, and the only reply he got from the firm was that the work was on hand.
 Mr. Heelan—Where are they coming from?
 Clerk—From England.
 Mr. Murphy—They are wanted immediately as we had a sand storm a fortnight ago had enough for anything.
 Mr. Heelan—Anything from the County Council about tarring our streets since?
 Mr. O'Shea—They are at the Ballyduff road, and when finished will put out metalling for the Main street as far as the College and the Hill will be done last.
 Mr. Heelan—I see that they are at the Cappoquin streets; but will they tar our streets though? Mr. Goodling—Yes.
 Mr. Heelan—That is good, because we hear a lot of talk about falling horses, etc.
 Mr. O'Shea—Sixteen feet will be tarred; horses will get cut after a bit (laughter).
 Before the meeting ended Mr. O'Shea drew attention to an unsightly dump in Chapel street where rags and bottles were thrown, and it was ordered to write the proper authority.

Cold-Water Dyeing
 There are lots of "prepared tints" for home tinting of your daily lingerie, but did you ever try real dye-tinting with a real dye? You get glorious effects when you begin with the true tints that only real dyes can impart to fabrics!
 An envelope of the actual dye powder is only sixpence at any chemist or store. Sift a bit in cold water—dip the garment—and it's done. Only, you'll have a smooth, even tone just exactly like materials have when bought; none of that streaky look; never weak or "washy," no matter how much you dilute or lighten the color. Furthermore, you can "set" the tint if you want by merely having the water boil.
 Ask your chemist for color cards and suggestions.

Dungarvan Urban Council
 The weekly meeting of the above was held on Friday night. Mr. M. Brennan, P.C., chairman, presided. Also present—Messrs. Wm. O'Donnell, vice-chairman; T. McCarthy; Moore; J. Hackett, M. Griffin, P. J. McGrath, M. Clancy and J. Curran.
EXPENDITURE.
 The payments for the week amounted to £14 15s. 10d. Passed.
MARKET HOUSE.
 The following tenders were received for the erection of a new Market House on the Square—Lee, Greeny, £36; Ed. Butler, £36.
 Chairman—Both exceed the estimate of the Borough Surveyor.
 Borough Surveyor—Yes, by a small margin. My estimate is £30.
 Clerk—Sanction for the loan is not yet given.
 Chairman—When do you expect to have it?
 Clerk—In a few days.
 The tender of Lee Greeny was accepted conditionally.
 Mr. Griffin held that two months was too long a term to allow for the building. He said the time should be shortened, and it would mean the employment of more men.
 Mr. Hackett agreed.
 Mr. Clancy said it was an important job and should not be rushed, but he thought it should be shortened to about six weeks so as to enable Mr. Bowen to go on with the other work on the Square.
SEWER.
 The report of the S.S.O. re Mitchell street sewer which is out of order, was referred again to the S.S.O. and Borough Surveyor to report on at next meeting.
PARK CARPENTER.
 The council decided on the recommendation of the Borough Surveyor to advertise for a caretaker for the Park.
THANKS.
 A letter was read from Wm. Boreford, Abbeyside, thanking the council for resolution of sympathy passed by them on the death of his brother.
 Mr. M. Brennan, chairman, presided. Also present—Messrs. W. O'Donnell, J. Butler, P.D.; J. Hackett, M. Keane, M. Clancy, J. Moore, T. McCarthy, J. Curran, M. Griffin, P. J. McGrath.
NEW FENCE.
 The council decided to build up a fence at the houses at Mitchell street, the cost of labour not to exceed £4.
 Mr. Curran was of opinion that the work should be advertised for and disented from the decision arrived at.
ABBEYSIDE NEW ROAD.
 As regards the new road at Abbeyside, Mr. McGrath, borough surveyor, stated that they could take down some of the end wall on Monday next, and he intended making concrete steps down the bulwark.
 Mr. Griffin asked that whatever was done there should be by provision made for taking ramps into the street.
 The Borough Surveyor said that he would take down some of the wall and then see what arrangement was best.
REPAIRS TO HOUSES.
 Arising out of a letter from one of the tenants the repairing of some houses in Mitchell street was considered.
 Mr. Curran—Those repairs may cost a good sum, and I think that they should be grouped and tendered for.
 Mr. Butler—We made an order that the Borough Surveyor carry out certain repairs to these houses and he has engaged a carpenter. I hope the work will not be delayed.
 Mr. Curran—The Borough Surveyor should make an inspection and prepare an estimate. We could then advertise.
 Mr. McCarthy—The repairs are outstanding for a long while and Mr. Curran wants to delay them further.
 Chairman—You never know how much work is to be done and what the cost will be.
 Mr. Butler—I understood that one of the houses was repaired months ago and it has not been done.
 Mr. O'Donnell—Mr. Curran wants to say we have had tenants and that No. 1 scheme is not paying.
 Mr. Clancy—If the scheme is not paying it is not our fault; the tenants pay what we ask. Mr. Curran might have the courage to suggest a raising of the rents.
 Mr. Curran—I am not for raising the rent or making a target of the council; the houses are not paying.
 After further discussion it was decided to instruct the Borough Surveyor to carry out the repairs to the houses from which application have been received.
ESTIMATES.
 Mr. Butler—When will the estimates be brought up?
 Clerk—In two or three weeks' time.
 Mr. Butler—Will the footpath that Mr. Keane brought up some time ago be included? Clerk—Yes.
 Mr. Griffin—There is a footpath at Abbeyside that should be included.
 Chairman—We will include them all.
 Clerk—I would like to see footpaths all over the place, but when the estimates come up you will have enough without footpaths unless you want to tax the ratepayers out of all proportion.
EUCCHARISTIC CONGRESS.
 A letter asking the board to give their support in trying to have the Eucharistic Congress of 1932 to be held in Ireland was considered.
 A resolution to the effect that the council would give every help in order to have the great honor for Ireland was unanimously passed, especially as 1932 is the 15th centenary of St. Patrick.
EXPENDITURE.
 The week's pay sheet amounted to £14 15s. 10d. Payment was passed.
