### Waterford County Council.

THAT CLERKSHIP QUESTION SETTLED AT LAST.

LISMORE AND OTHER COURTHOUSES.

A quarterly meeting of the County Council was held in Dungarvan on Tuesday. Mr. John Kiersey, chairman, presided. Also present—Messrs. P. O'Gorman, P. Fitzgerald, P. Cunningham, M. McGrath, J. O'Donnell, C. J. Curran, D. Coghlan, M. F. Walsh, L. Hallinan, M. O'Ryan, J. Butler, M. Curran, J. Halloran, Mcc. Keane, P. J. Fox, M. O'Regan, W. Stack, M. O'Brien. All the officials were present.

That Clerkship Settled at Last.

In connection with the position of Clerk in the Motor Taxation Office of the Council, the Secretary read the let-ter he had received from the L.G.B. on the matter, which set out that Liam Hayes, who got first place at the competitive examination, was the person they were prepared to sanction subject at a previous meeting of the council Mce. Brown, Abbeyside, who got second place at the examination and was recommended by the examiner, Mr. Bowen, was appointed. On that day Mr. Farrell, solr., claimed the post for Hayes.

the last day. Mr. O'Gorman-I would not say very much about giving the position to the winner at the competitive examination though Mr. Bowen said he did not know bookkeeping. Of course he might acquire a kowledge of bookkeeping in a few weeks in the office. What I wish to protest against is increasing salaries against the wishes of the majority of the council. If they making good the restruction the ratewere going to increase salaries over

The Finence Committee recommended that the salary of John Bateman, Harbour Constable at Helvick, be increased by £4 per annum, and that he be allowed 5 per cent, on amount of due collected subject to his entering a

Mr. O'Gorman—The Justice as he follows:-"That we desire to draw the serious attention of the Government, particularly the Ministers for L.G. and Justice, to the case of the Courthouse at Lismore, which was destroyed by fire in 1921. The council has now purchased the ruins from the former out at the end of the first one. The estimate of the County Surveyor for the recosstruction is £5,940, while the council cannot afford to provide more than £2,500. The reconstruction clause in the award of compensation to the previous owners was waived, and consequently the amount allowed for reconstruction was retained by the Government. Mr. O'Ryan objected to the demand for a "free" grant. It would not be a free grant as the ratepayers had paid Mr. O'Halloran referred to the road from Monament to Beangalons, which what they were bound to give. Mr. O'Gorman-It is more for the convenience of the general public than the District Justices.

Mr. O'Ryan-The general public are well satisfied. The public in Lismore are not grumbling about the courthouse, but they are grumbling about the cost of those boyos.

SUMMER SEASON.

The summer season is with us, but still we cannot see any cheap excursion Sunday trips announced by the G.S.R. Co. for the seaside from this area. In pre-war days the Sunday afternoon train—Fermoy to Dungarvan—was greatly patronised, but it may be said times are changed since then with the times are changed since then with the former town and its population, but after all one would be inclined to think if the Railway Co. gave an occasional Sunday excursion to the seaside resorts it should be availed of. We notice that the Bus Co. has also ignored Lismore route, and patronage from this been a paying proposition, and per-haps one of the enterprising 'Bus Co.'s and back on Sunday afternoons, and if so many patrons would be forthcoming. At the moment there is a great opportunity for re-opening this route, and many of us look forward to renew acquaintances at Ocean View during the coming season. Perhaps the Dungarvan U.D.C. may also interest themselves in attracting visitors to their town, and may also but the finishing touches on the removal referred to

#### Ballydurn and Newtown Cow-Testing Association.

ANNUAL MEETING.

At the annual general meeting of the above Association, which was held at Newtown Schoolhouse, Mr. John Kier-sey, chairman, presided, and the attendance included—Messrs. L. Veale, D. Whelan, J. Baldwin, W. Mahony, J. Foley, D. Kiersey, P. Gough, Supervisor, and D. O'Donovan, Cow-Testing Instructor.

The Supervisor then submitted the third annual report of the working of the Association, which was as follows: area for any 'bus on Sundays should be forthcoming. The Clonea route, for instance, for some years back on the Sundays during the season should have per cow for 466 cows was 5,772 lbs. of per cow for 466 cows was milk or 560 gallons containing 216.37 lbs. of butter-fat with an average test operating at Dungarvan would extend of 3.74, and the average return per cow their service from Lismore to Clonea at 1s. 6d. per lb. for butter-fat with separated at 1d. per gallon was £18 1s.

Comparing the average yield per cow with previous years, we find that in the year 1927, the year the Association was formed, that the average yield per cow for 414 cows was 5,489 lbs. of milk and 208.82 lbs. of butter-fat with an average test of 3.80 per cent. In 1928 the average yield per cow for 454 cows was 5,594 lbs. of milk and 215.20 lbs. of butter-fat with an average test of 3.84: Those figures show that the Association is making steady progress since its inception in 1927, and that the average yield per cow has increased by 31 gallons of milk, which, if valued at 7d. sons' Circus. The public in this district appreciate what a first-class circus is, and the poster states: "It's the finest

A five-yearold cow in the same herd yielded 3,342 age test of 4.25 in 30 weeks, and would earn on the same basis as the good cow £8 3s. 6d., showing a difference of £22 15s. 5d. between the earning capacity shows the importance of the keeping of milk and butter-fat records of our dairy herds, which is the only reliable means we have of finding out whether our cows are kept at a profit or a loss. If the cost of food and labour for both cows in this herd was £12 per annum, the good cow leave a profit to her owner of £18 18s. 11d., and the bad milk at a cost of 83d, per gallon, showing a difference of 6d. per gallon in the cost of production of milk of two cows in one herd.

The ten best cows in the Association gave an average yield of 9,600 lbs. of milk and 350.63 lbs. of butter-fat with an average test of 3.65, and would earn on the foregoing basis £27 2s. 7d. per cow. The ten worst cows in the Association gave an average yield of 3,067 On Sunday last His Lordship Most lbs. of milk and 111.99 lbs. of butter-fat Rev. In other words, it would take 28 cows of the type of the ten worst cows to produce as much dairy produce as the ten best cows in the Association

Taking a summary of the 466 cows on test for which complete records are available, we find that three cows yielded over 1,000 gallons of milk, eight cows gave between 900 and 1,000 gallons, 41 cows gave 800 and 900 gallons, 72 cows gave between 700 and 800 gallons, and 87 cows gave between 600 and 700 gallons, 89 cows gave between 500 time in any parish. His Lordship referred to the Mission which had just 400 and 500 gallons, 59 cows gave between 300 and 400 gallons, and 20 cows gave yields of less than 300 gallons of

There are in the Association 211 cows yielding between 600 and 1,000 gallons of milk, which are a very good foundation stock for us to breed from, and if those cows are mated with the premium dairy bulls in the Association and their progeny retained in our herds for breeding purposes, there should be a great improvement in the quality of the dairy stock in the Association in

the course of a few years.

There are still in the Association rather too high a percentage of cows yielding less than 400 gallons of milk, and I would advise members to weed out those low yielding cows as they do not pay for their keep and are a source of great loss in your dairy herds.

In looking over the average yields of members' herds, we find that two mem-

lons of milk per cow for their herds and 13 other members had average yields of over 600 gallons of milk per cow for their herds.

Comparing the herds of two members we find that one member in the Association had an average yield per cow of 745 gallons of milk and 278.99 lbs. of butter-fat with an average test of 3.74, and earned at is. 6d. per lb. for butter-fat with separated milk at id. per gallon £22 i7s. 4d. per cow. Another member with a herd of i5 cows had an average yield of 494 gallons of milk and 489.79 lbs. of butter fat with milk and 189.79 lbs. of butter-fat with an average test of 3.83, and would earn on the same basis £15 17s. 8d. per cow, showing a difference of £6 19s. 8d. per cow, or a total of £46 3s. between the earning capacity of two members'

During the year I paid 230 double visits to members' herds and took 2,239 samples of milk and tested them for butter-fat, and 20 cows were placed on the Department's register of dairy cattle, and out of those I tattooed 16 calves.

There are 29 cows entered for the forthcoming inspection of cows qualified for registration, and I would advise members to endeavour to mate their registered cows with the three premium dairy bulls in the Association to comply with the regulations of the scheme.

In conclusion I wish to thank the president and the members for their kindness to me, and also co-operation with me in carrying out the work of the Association during the year without which the work of the Association would not be a success.

The Chairman said he had much pleasure in proposing the adoption of the report of the year's working of the Association for the year 1929, which of Agriculture, which was seconded by Mr. Laurence Veale, and passed unanimously.

Mr. O'Donovan addressed the meeting and said that he wished to congratulate the Association on the progress they were making in increasing the average yield of milk and butter fat of lbs. of milk or 323 gallons containing their Association as well as having the 142.03 lbs. of butter-fat with an averlargest Association in the Co. Waterford, and hoped that in the course of another year that they would have at least a 600-gallon average for their Association, which can be reached by continuing to weed out all cows yielding less than 400 gallons of milk per annum, and by the better feeding of their good cows and feeding all cows in the herd according to their milk yields, and getting cows to calve in good healthy condition, always using a properly balanced ration in the feeding of dairy cows for the production of milk, and a good mixture may be made up from 21 parts of crushed oats to 1 part of decorticated cotton cake or decorticated earth nut cake and feeding 31 lbs. of this to each gallon or milk produced after the first gallon. He also advised members to use minerals in the ration for the feeding of their cows and to dishorn all calves not intended for breeding purposes by the use of caustic potash.

On the proposition of Mr. David Whelan, Mr. John Kiersey was re-elected president, and Mr. P. Gough was re-appointed Supervisor, and the old committee were re-elected. This was seconded by Mr. Lce. Veale and passed

#### Important Point in Milk

Prosecution. Sergt. Hartigan, Food and Drugs Inspector, summoned Miss Florence H. Jacob, Lismore, for selling milk in Cappoquin, which, on analysis, was found to be 16.6 degrees deficient in fat. A young lad named Wm. Barry, Lis-more, who was selling the milk on the occasion, was summoned, but, on the suggestion of the Justice, this summons was withdrawn.

Mr. Keane, solr., Youghal, appeared for Miss Jacob.

Sergt. Hartigan stated that on the evening of March 18th he took a sample of new milk from Wm. Barry, who was delivering milk for Miss Jacob through Barrack street, Cappoquin. Barry had just delivered some milk at the house of Mrs. Bridget Regan, and witness produced the analyst's certificate, which showed that the sample was 16.6 deficient in fat.

Mr. Spears said the facts were that

In cross-examination by Mr. Keane, witness admitted that he did not take the sample while the milk was being the sample while the milk was being actually delivered to Mrs. Regan. He was cycling down Barrack street at the time, and as he had not the necessary vessels or instruments on him at the moment, he ordered a pint of new milk out of the same churn from which Mrs. Regan's milk had been drawn, but the milk was not actually delivered to him until about half an hour later when Barry brought it to the barrack to him where he paid for it and divided it into the usual three equal parts.

#### PRICE OF PIGS AT CAPPOQUIN.

The price of fat pigs continues to show a downward tendency. 81s. per cwt. dead weight was the highest price available last week, this being a drop of 7s. on the figure of 88s. paid the previous week. This week the price has gone down by 2s., as 79s. per cwt. was the highest figure paid, and the market promises to be unsteady for some time to come owing to the flooding of the English markets to the two younger boys: "You chaps, look rather young," and they both replied that they were all right, as they were over age, and it was after that statement he supplied them with drinks. He had no reason to doubt their statements at the time.

Defendant—I thought it very strange at the time, as I had distinctly asked them about their ages. Defendant added that he had drunk a bottle of stout with one of the lads two years ago, and he looked to be all right even then.

At Youghal on Friday a respectable-looking young woman, Miss Ellen Garde, of Ballycrenane, Ballymacoda, was brought up on remand before Mr. G. P. Farrell, D.J., charged with sending threatening letters to Patk. Leahy and John Motherway, two large farmers residing in the same townland. Supt. Dennehy prosecuted and Mr. Supt. The Superintendent said that on January, February and March last there were a number of prosecutions against the doubt to the defendant, and dismissed the case.

Barrack Street "Celebrities" in Trouble.

Guard Lee, Cappoquin, summoned an old woman named Mrs. Hannah Roche, residing in Barrack street, for being drunk on the public street on the evening of May 13th.

Complainant stated that he found defendant lying helplessly drunk on the footpath in Cook street, and when he lifted her up and tried to get her to go home he found she was unable to walk and he had to take her to the barrack with great difficulty.

Were a number of prosecutions against the members of a family named Donovan, of Ballycrenane, for larcenies of and malicious injuries to the property of the accused and her father, John Garde. All those prosecutions had been dismissed. On February 21st two respectable farmers—P. Leahy and J. Motherway had received threatening letters a few days previously and that he was making inquiries into the case. She then wrote some words at his dictation, which he now produced. He continued his investigations, and as a result of information he again interviewed her on the 17th April. He produced a number of specimens and handwriting and laid them on a table in her presence. He then cautioned her and informed her that he believed the specimens of handwriting were the were a number of prosecutions against

February he received an unstamped letter (produced). He partly read it and saw it contained threats to damage and burn his farm property, crops and machinery, and demanded of him to dispense with the services of the Donovans. It was signed "Moonlighters."

Sergt. Crofton, Ballymacoda, de-posed that he received the two letters night of February 21st, and he handed them over to Supt. Dennehy on the following day. He knew John and Ed. Donovan, who were employed by Patk. Leahy, and also Michael and Kathleen at John Motherway's. The Donovaus resided in a double next to accused at Ballycrenane. He knew the accused and her father. On January 8th John Garde made a report to him at the Ballymacoda Station that four of his pigs had died and that he suspected they had been poisoned. He investigated the matter. He visited Garde's house. As a result he decided to take no further action having received a medical report from an analyst. On January 18th John Garde made another report about damage to his harness. He went to Garde's and had a

conversation with the accused, Ellen Garde, on that date. She said she suspected the Donovans and Michael Donovan in particular, of having cut the harness. She said they were subjected to great persecution by the Donovan family. Michael Donovan was the man employed by Motherway. He (Michael) had been prosecuted at that court in January and the case was dismissed. John Donovan, the father, was prosecuted for the alleged larceny of a linchpin from John Garde on 7th February. That case was also dismissed. During January and February, 1930, he paid several visits to Garde's house to afford them protection. These visits were the results of complaints made by the accused and her father. He also performed several night ambush patrols in the vicinity of hteir great affliction. She said it wasi't much good searching Donovan's premises for the present, because the things would probably be con-cealed outside somewhere. On February 10th he procured a warrant on a further complaint of J. Garde's he searched Donovan's. Before going in he had a conversation with accused

the case was dismissed. On May 20th he arrested the accused, Ellen Garde, and charged her in respect of the letters to Leahy and Motherway. He cautioned her and she made a statement to the effect that she was innocent.

Cross-examined by Mr. Rice—He investigated the complaints and thought at the time that they were genuine. He knew the Donovan's. They were quiet people. They had often been in a bit of trouble.

Supt. Dennehy deposed that on the 22nd February Sergt. Crofton handed him the letters produced. On that date he had been engaged investigating the outrages. He interviewed several persons and obtained specimens of their handwriting, amongst them being the accused. He had no suspicion on her at that time. He asked if she had any objection to give him a specimen of specimens of accused's handwriting to an expert on the instructions of the Attorney-General, with the result that the present prosecution was instituted.

Patk, Leahy, Ballycrenane, Ballymacoda, farmer, deposed that he had John Donovan and his son Edmond in his employment as labourers for some years. He had them still. On the 21st February he received an unstamped letter (produced) He partly read it and statement she professed her innocence.

Mr. Keane said on the sergeant's evidence he should ask for a dismiss, as in order to sustain a prosecution of this kind the sample should have been taken at the time and place of the sale of the milk to Mrs. Regan, and this had not been done in the present case.

Guard O'Brien had a similar charge of drunkenness against Thos. Roche, husband of the last defendant, whom he found drunk at 9.40 p.m. the same his employment for some years. They were John Donovan's children. On the 21st February last his wife handed him a letter (produced). #### DEATH OF MRS. C. CRONIN, BAWNFAUN, CAPPOQUIN.

The death of Mrs. Catherine Cronin, Bawnfaun, Cappoquin, which occurred at her residence on Friday evening, 16th inst., after an illness of about two months, has caused the deepest regret amongst the members of her respected family and a large number of her relatives in various parts of West Waterford. She was wife of Mr. Ml. Cronin, a popular and extensive farmer, and a well-known breeder of highclass stock, who has been a frequent prize-winner at most of the Southern Cattle Shows held for many years past. The late Mrs. Cronin had sprung from one of the oldest and most respectable families in the Cappoquin district, the Noonan family of Poulbotha, and dur-ing her long life of 70 years she was always noted for her kindly Irish character and her well-known generosity and hospitality towards all. She was mother of Messrs. John and James Cronin, and also of Mr. Thos. Cronin, who had been a promient hardware and general merchant in Cappoquin for several years, and who sailed for New York only five weeks ago, and to all the members of her family, at home and abroad, the deepest sympathy of the public will now be extended in honest and God-fearing lady all her life and an ideal and exemplary Catholic, the last moments of her life were she died a peaceful and happy death after she had received the last Sacraments of the Church, which she had al-ways loved so well. Requiem Masses for the repose of her soul were offered up at hr late residence on Saturday morning, and at 2 o'clock on Sunday the funeral took place to Affane Chapelyard when the cortege proved to be of remarkably large and representative proportions, being well over a mile in length, and one of the finest and most striking tributes of public respect and sympathy seen in the district for many

Dungarvan Urban Council.

THE LIGHTING OF THE TOWN.

Mr. Butler (chairman) presided at the meeting of Dungarvan Urban Council on Friday night. Also present—Messrs. Moloney, Clancy, Hackett, McEvoy, Lawn, Griffin, Keane, Foley, Power,

Mr. Alger a representative of the Electricity Supply Board, appeared before the meeting in connection with the proposed lighting scheme of the town.

Chairman—I think it is the wish of this council that 100 met. this council that 100 watt lamps be put in the majority of places of the town. Mr. Alger—The Board does not sup-ply a public lighting system of a 100

Mr. Lawn-Is this going to be a per

manent charge?

Mr. Alger—That charge would remain for the whole system from the 1st of October next until next March. Next year if you decided to have the same system you could have it for the whole £55 0 0

year at the same price.

Mr. Lawn—People expected more than that, and they deserve more than that. The ratepayers are not at all satisfied with this. There is no alternative for us with the Electricity Board: it is a case of "take it or leave

Mr. Alger said that he could not see not getting the value. It was very curious, he went on, that out of a hundred towns in the Free State there were only A seventy for Limerick was taken by seven exceptions.

Mr. Keane informed the representative that the finance of the council was somewhat strained this year. He felt later Condon equalised. Limerick besure that in the future there will be a gan missing a lot, and the right\_wing to Youghal Harbour. He had 23 pots lot more protests from other towns. Mr. Clancy-The council are of opin-

ion that all 200 watt lamps are not wanted. Could we discuss the matter on a lamp basis? Mr. Lawn—All I am looking at is the permanent charge. I think the saving so small that it would hardly be worth

while getting in the 100 watts. Mr. Keane suggested that the council try and make a compromise for 20 lamps of 100 watts.

This was approved of. On estimating it was found that if this system was adopted it would mean £20 less than the price of £247 by the Electricity Board.

Mr. Keane handed in a resolution, seconded by Mr. McGrath, that the council agree to accept the new tender as arranged with the Electricity Supply Board for the public lighting of the town, viz., eight 100-watt lamps, all 200-watt to midnight at £3 each. That the system is to come into operation on the 1st October, and that the old system be continued until then.

This was unanimously passed, it being understood that the resolution will be strictly adhered to, and that this concession will not be a precedent for any other year.

Pay Sheets. General account, £11 2s. 5d.; there was £186 18s. 3d. passed for payments for last month; credit balance, £514

Mr. Keane moved a notice of motion to the effect that the Dungarvan Urban Council adopt the Public Libraries Act

of 1855. Mr. Lawn seconded and it was passed.

CARRICK-ON-SUIR MAN'S TERRIFY-ING ENCOUNTER WITH A BULL.

When a bull attacked Mr. Michael Foran, Carrickbeg, Carrick-on-Suir, as he was walking on the river bank near the town, Mr. Foran jumped into the river and was followed by the bull. Mr. Foran waded to the middle of the river and was breast high in water. The bull reterned to the bank and attacked two young men who had come to Mr. Foran's assistance. The men broke a railing nearby and beat off the bull with staves. Mr. Foran was very exhausted when he was helped out of the river.

FOUR DEATHS IN ONE HOUSEHOLD IN TWO YEARS.

The interment took place on Sunday at Carrickbeg, Carrick-on-Suir, of Miss Aba Holden, Kilonery, at the age of 21. The mother of deceased died a few months ago and two of her sisters died within the past two years. Deceased was a daughter of Mr. T. Holden, Kilwas a daughter of Mr. T. Holden, Kli-onery, Co. Kilkenny, near Carrick-on-Suir. Her mother was a sister of Mr. L. O'Kiely, M.A., N.T., Crehana, Car-rick-on-Suir; Mr. J. O'Kiely, White-church, and Mr. P. O'Kiely, N.T., and daughter of Mrs. O'Kiely, Tourancena, Co. Waterford.

WATERFORD v. LIMERICK. DOUBLE VICTORY FOR WATER-FORD.

At Waterford on Sunday in glorious weather and before some 10,000 specta-tors, Waterford defeated Limerick in the first round of the Munster Cham-pionship by 3 goals 4 points to 3 goals 3 points, and have qualified to meet Tipperary in the second round. In Minor football Waterford beat Limerick on the score of 2 goals 3 points to 1 goal 3 points. Erin's Own represented Waterford.

Their wonted good luck appeared to attend the homesters, who had scored within one minute of the start, per Fanwithin one minute of the start, per Fanning. They registered the first goal, catching the Limerick backs unsettled.

Then some pretty hurling became the saw four French boats off the coast. Three were well outside the limit, but the "Mercure" was inside. (Witness here gave evidence of the line of limit). Then some pretty hurling began, the ball being sent from one end to the other. Limerick, playing with a strong out, "Dottie" Power sent over for a splendid point. The usual comsteady, while Waterford continued to press hard, beautiful hurling ensuing. Limerick were holding well, and a nice pportunity coming from it was taken by Gleeson, who sent over for a point. Several times Waterford sent wide, while Limerick backs, regaining cohesion, stoutly defended all attempts. Play was now fast, the homesters de termined to lead, while Limerick defended gallantly. Power sent over the equalising point, and, before half-time, Wyse had put the homesters ahead by

Limerick continued pressoff. There was again some lovely

ing and better combined play by Limerick, but O'Keeffe put Erin's Own again in the lead by one point. McConachie took a free to send wide, and several times things looked dangerous for Waterford, who were put on their best to stop Limerick. The last five minutes of the game, when Waterford was only one point ahead and the visitors trying desperately to score, were very exciting. Several players on both sides were temporarily knocked out, and the big attendance once kept at fever pitch as during the close of the game Limerick pressed determinedly to gain victory. MINOR FOOTBALL.

The minor football tussle was keenly contested, and the issue was in doubt up to the last few minutes, when Waterford deservedly pulled out to win by a goal. Limerick's success up to the last quarter of an hour was against the run of the play, but they employed superior catching and speed to good advantage. McCabe scored Waterford's first goal. Doyle adding a point, and the scores at the interval

The lead was secured and lost twice by Waterford during the second half, but McCarthy scored the second goal and made matters safe five minutes from the end.

The Justice said he realised that that practice must be strenuously and firmly dealt with. He would take the defendant's word that he had not been in trouble before, and that he had been mistaken as to where he should cast his pots. He would be fined £7 10s. and his gear—the 43 lobster pots—would be forfeited.

The fine was paid and later on the

FRENCH SKIPPER FINED.

At Youghal on Friday, Jules Floch, skipper of the French fishing lugger, of Cameret, was charged with fishing within the three-mile limit and also with attempting to fish for lobsters within the ordinary fishing limit of the Saorstat. Supt. Dennehy prosecuted and Mr.

Wm, R. Hodnett, solr., defended. Mr. C. Flynn was sworn as inter-

Capt. David Thompson, of the "Muirichu," said that on arriving in Ballycotton bay on Thursday evening The interpreter said the Frenchmen didn't knew the line of the coast.

Witness, continuing, said that at 12.45 he saw two small boats belonging sun in their eyes, were slightly disad- to the smack-one a motor launch and vantaged. Taking the ball a long way the other a small punt, used for shooting the lobster pots. Both small boats were loaded with lobster pots. The ford end it was hot work for several crews had evidently recognised him as they were making off for the smack Then Limerick, per McConachie, sent and had reached her as he got up to over for a point. There was some nice them. Mr. Hodnett—Was he cautioned? Witness—He did jabber something I could not understand.

Witness said he then towed him in pliment was 60 to 80, and witness thought he had a lot down somewhere. "Mercure" was a tank boat, and witness could not say what fish he had on board unless she were beached.

Cross-examined by Mr. Hodnett-Witness said he was not charging defendant with fishing, but with at-tempting to fish inside the limits. The pots in the small boats were baited and ready for shooting well inside the limit. They should be acquainted with the position of the limit. Cable Island and Ballycotton Lighthouse were good "bearings" and the defendant could have no difficulty in finding his position. There was a reef of rocks there and it was evident they were going to shoot the pots there. The boats were well apart. The others had small boats in the water, too, but they were well outside the limit.

Prices citement, Charlie Ware scored a goal old (laughter); the youngest he meant. That was his only means of subsisting, and the Waterford backs found the utmost difficulty in shaking them brittany, had been exceedingly bad, and they thought they would go fur-ther afield. He fully believed he was outside the limit. Their visit to Ireland had not been a success, and he asked the court to take those matters into consideration. He recognised that what he had stated didn't constitute a legal defence to the charge. These men were not altogether strangers to the Irish, for the Brehons and they were members of the same big Celtic race. These men would undertake that they would not be found in these territorial waters again.

The defendant, sworn, said they were out 12 days, arriving on the Irish coast last Friday. They didn't fish within the limit, and he thought that

he was in the open sea.

Cross-examined by the Superintendent, defendant said that the fine would have to be paid by him and the fines. They had no plan or charts of the coast. They didn't know that they were within the 3-mile limit. They came to the place at midnish. came to the place at midnight and saw the land at daybreak. It took them time to get out, there being no wind Sportswear and the current was against them. They got 8d. to 9d. per lb. for the lob-

The Superintendent said the instruc-tions of the Department were to press for the full penalty in that case and for the forfeiture of the gear. For some time French boats had been invading time French boats had been invading the Irish coasts all round to the detriment of the poor fishermen in Youghal and elsewhere, who had to pay heavy dues. He asked for the full penalty—£10—on those grounds.

Some argument having taken place as to the question of the forfeiture of the great

Capt. Thompson said that the forfeiture was the main point the Department pressed for.
The Justice said he realised that that

On Sunday next His Lordship Most Rev. Dr. DUNGARYAN MARKETS. Hackett will administer the Sacrament of Con-

firmation to the children of Dungarvan Parish. DEATH OF MRS. MULCAHY, ABBEYYIEW,

DUNGARYAN. Deep regret is felt at the death of Mrs. Mulcaby, wife of Mr. Patk. Mulcahy, ex-Town Clerk, which occurred on last Thursday night after a brief illness, borne with Christian resignation and fortified by the rites of Holy

Church. The late Mrs. Mulcahy was most esteemed and popular among all classes, and her charm of manner and amiability endeared her to all. She was a true and tried patriot, and in the dark and evil days when her respected husband was interned she carried the flag with unfaltering hand, and was untiring in her efforts to comfort those on whom the Authorities had put their hands. She was kind and generoushearted, and all who had the pleasure of her acquaintance deeply regret her early death. To her bereaved husband and family deep sym-

pathy is extended on their loss. R.I.P. On Friday evening the remains were removed to the Parish Church, and on Saturday the interment took place. On each occasion the attendance of the general public was large and represntative, a fitting tribute to the esteem in which the deceased and her tamily are held.

MOTOR ACCIDENTS AT KILLONGFORD, TARR'S BRIDGE AND SPRINGMOUNT.

On Sunday evening at 6 o'clock a collision occurred on the road to Ring, near Killongford, when a motor driven by An Pear Mhor collided with a car driven by Dr. Duggan, Waterford. Dr. Duggan was accompanied by his sister, and in the impact the lady received facial injuries for which she was treated at the District Hospital by Dr. Hackett. Both cars were much damaged and conveyed to Crotty's Garage.

On Tuesday evening another collision occurred at Tarr's Bridge when a motor driven by Mr. George Cummins, who was accompanied by Messrs. P. J. Cootty, P. J. Hallihan and J. F. Foley was on its way to the Golf Links at Clones, had a rather hefty collision with a car coming in the opposite direction and driven by a representative of the firm of Spillers and Bakers, Cardiff. The accident occurred at the Bridge, where cars approaching from different directions have no view of each other. Fortunately none of the occupants of the cars were injured, but the motors were rather badly damaged and had to be towed to Crotty's Garage.

Last Wednesday evening as the Marquis of Waterford was driving an Alvis 6.cv.inder car he collided head on with a Ford lorry, the property of Mr. Broderick, Youghal, at Springmount, Dungarvan. The motor was badly damaged, but the Marquis was unburt. The Ford lorry was also damaged, but after being straightened up on the road it travelled on in the good old Ford way. The Alvis car was removed to Crotty's Garage, and the Marquis was driven to Cork in another car.

A NICE HOW D'YE DO.

When a respectable citizen challenged motorist some days ago for almost knocking him down on the street, the latter claimed that have ing paid his licence it was for the civilian to mind himself. Now a road license is not a license to kill, and the way to stop it is for pedestrians who are thus harrassed and endangered to report the matter at once to the Guards, and then the District Justice will put an end to all false notions about the limits to which a road license will go. Always remember-Once dead you never can return.

KILMACTHOMAS BIG DAY.

Sunday, June 22nd, is the date fixed for the Kilmacthomas All-Raleigh Cycle Races. Full particulars of the series of competitions on the card for the occasion will be advertised on our next number without fail. The first prize for the long-distance event is now on view at Mr. Edward Hill's (Raleigh Cycle Agent), premises on the Square. This is a ten guinea Raleigh racing machine, which is a "regular beauty" in every shape and form, and certainly a prize well worth winning

DEATH OF MR. L. McGRATH, NEWTOWN. Deep regret is felt at the early death of Mr. Laurence McGrath, Newtown, Kilmacthomas, which occurred after a rather protracted illness at the District Hospital, Dungavan, on Sunday last. He was a large and practical farmer, belonging to a most respectable family: a thorough sportsman and a sound Gael. In the Anglo-Irish war he was one of the first to be arrested by the Crown forces and interned in Ballykinler Camp, where he was kept until the Treaty was signed. Sincere sympathy is felt with his young widow and relatives. R.I.P. On Monday evening the remains were removed to the Parish Church, Dungarvan, accompanied by a large cortege, and on Tuesday after Requiem Office and High Mass for the repose of his soul the interment took place in the adjoining centietery in the presence of a large

### Agricultural Conditions

Meather and Work.—Wintry weather continued throughout the first forninght of April, during which period rains fell heavily and harsh winds prevailed, conditions which retarded growth and impeded outdoor farm work, so that little progress could be made with spring seeding operations. From the middle of the month onwards the weather was dry and favourable for tillage operations and considerable headway was made with all field work. Most of the grain crops were sown and the bulk of the potato crop planted during the latter period, although in many districts at the end of the month the planting of sugar beet, mangels and turning of sugar beet of sugar beet, mangels and turnips and in a few of the earlier districts a beginning was made with the sowing of the root crops. Other work done during the month included the sowing of grass seeds, where the grain crops were sufficiently advanced; the rolling of first and second crop hay fields and meadows; and attending to live stock. In the turf burning districts the cutting of turf was begun, but this work has been much delayed.

has been much delayed.

At the close of the month farm work was about three weeks behind as compared with the corresponding period last year, but nevertheless it was reported that crops had been got into the ground in good condition, and, given a continuation of favourable conditions and of reasonably good weather during the period of growth, the prospects appeared satisfactory.

State of Pastures and Condition of Live Stock.—The wet and harsh weather conditions which prevailed

weather conditions which prevailed up to the middle of the month retarded all vegetation, and consequently pas-tures, even those in sheltered situations, remained bare almost up to the end of the month. The only exceptions reported were pastures which had been treated with suitable dressings of artificial manures. This season again the advantage to be gained by the timely application of nitrogenous manures to grass fields has been well marked. Pastures so dressed have not only acorded much earlier grazing for stock than would otherwise be the case, but have also enabled farmers to

year. Sheep also, where they had not received adequate hand feeding, were Horses.—No feature of special inreceived adequate hand feeding, were in poorer condition.

Grain-Appearance of Crops.-In spite of the wet nature and lateness of the month. season, most of the crops were sown under favourable soil conditions. Early seasonal increase, but consequent upbrairds appeared strong and regular. month.

Flax.—Scutching was virtually finished during the month, but a few mills were still engaged in scutching tow. Demand for flax continued steady at prices ranging from 7s. for poor quality up to 9s. 6d. for the best, and the sale of the crop was almost completed at the end of the month. Prices for tow were unchanged around £26 to £28 per ton. The demand for seed for sowing for the current year's flax crop was about normal. Some fields of early sown flax brairded uni-formly and the plants appeared healthy and vigorous. Owing to adverse conditions only a small area was got in during the month, and a con-

siderable area remained to be sown.

Potatoes.—It was estimated that about two-thirds of the second early and main crop potatoes were planted by the end of the month. Planting and it was expected that the remainder of the crop would be got into the ground without further undue delay.

Owing to the comparatively poor demand for potatoes during the season, large stocks of last year's crop were still on hands in the principal potato growing districts at the end of the month, despite the fact that the tubers continued to be fed extensively to all classes of live stock. The shipping demand remained inactive and prices were practically unchanged.

Cereals and Catch Crops.—As a result of the unfavourable weather conditions which prevailed during the winter and early spring the area sown with wheat was reported to be smaller than usual. Autumn sown crops made little progress until the middle of April when, with the advent of milder and better growing weather, they made rapid progress. Although patchy in places, it was generally re-ported that wheat looked well and gave promise of satisfactory development.

Catch crops generally were later than usual, but in some northern areas rape was being fed from the beginning of April and rye and vetches were com-ing into use at the end of the month, and owing to the scarcity of hay, formed a very welcome addition to the supply of fodder.

Cattle.—The general health of cattle

remained good, as already mentioned, and with the exception of isolated instances of the presence of liver fluke disease which had fatal results in only a few cases, there were no report of epidemic or other serious ailments from any district.

The fairs held during the month were of average seasonal size with the normal attendance of buyers, and the cattle shown were mostly young stores of the shorthorn type, with a fair num-

of the season were in rather backward condition where not liberally supplied with hand feeding. Mild attacks of Pill. liver fluke disease were reported from a number of districts, but as flock owners are now familiar with the use of preventive medicines, the losses

The Secretary star received six amendation with the Bill.

The matter was from this disease were not of serious dimensions. The mountain lambing season was nearly finished at the end of the month and had proved satisfactory although there was considerable mortality among lambs. The whole.

crop of lambs for the season was reported to be about the average.

At fairs held during the month the number of sheep on offer was about the normal for the season, and demand

was steady. Well-conditioned lambs realised up to 60s. each; hoggets up to 55s., and fat sheep up to 80s. each.

Pigs.—The number of pigs on offer at the fairs and markets held during the month showed a falling-off of about 6 per cent. as compared with the corresponding period last year. Demand was good throughout the month for pigs suitable for the bacon trade. Prices had a downward tendency dur-ing the middle of the month, but recovered slightly at the end. During the month values varied from 82s. to 99s. 6d. per cwt. dead weight, or approximately 65s. to 74s. 9d. per cwt. on the mately 65s. to 74s. 9d. per cwt. on the live weight basis. In the Northern pork markets of Saorstat Eireann, the corresponding price was 91s. to 100s. dead weight. Supplies of porkers at most southern centres were short of requirements, but prices fell from 120s. per cwt. dead weight in the beginning reduce their purchases of feeding of the month to around 112s, at the stuffs and shortened the period of close. Young store pigs were in keen stuffs and shortened the period of house feeding.

Cattle were healthy, but were in somewhat more backward condition than at the corresponding date last breeding stocks in the country were re-

terest or calling for comment was re-Progress made with the sowing of ported with regard to the horse trade which showed little change from last

Milk.-Milk yields showed the usual sown crons germinated well, and on the fall in the world's price for butter, values fell during the month to In the case of the greater part of the around 5d. per gallon, separated milk crop, however, brairds were only be-ginning to show towards the end of the Meath for retail sale in Dublin returned 9d. per gallon to producers.

Land Annuities.

There were a large number of cases at the suit of the Irish Land Commission for arrears of annuities against farmers in West Waterford.

Mr. T. K. Keane, solr. (for Mr. E. A. Ryan, State Solicitor, Dungarvan) appeared for the plaintiffs. Decrees were granted in those cases that were not settled or adjourned.

Old Parish Case. In the adjourned charge against William, Patrick and Declan Hourigan, Goulane, Old Parish, for obstructing was done under fairly good conditions, Court Messengers acting for the Irish Land Commission,

Supt. O'Shea, Dungarvan, applied for a remand to next Ardmore Court, as the defendant's solicitor, Mr. Farrell, was unable to attend. Accused were accordingly remanded on continuing bail.

Speeding.
Supt. Dennehy charged John Forde, bus driver, with doing 30 m.p.h. Guard Stack having proved the case, defendant was fined 2s. 6d.

Overcrowding.
Guard Ceasor charged Michael McCarthy, 'bus conductor, with having 21 passengers in excess on the 4th May. Defendant didn't appear, the Guard remarking that he might be on strike. He was fined 10s.

Complainant said defendant was staggering in the street and shouting. When witness approached he took an empty stout bottle out of his pocket. Witness seized him. He had to get another Guard to assist in bringing him

to the barrack.

Replying to the Court, defendant said the Guard was telling lies.

# County Waterford Committee You can't go wrong

consider the Vocational Education

The Secretary stated that he had just received six amendments in connec-

The matter was adjourned until next meeting.

Marriage Gratuity.

A letter was read from the Department regarding the liability of the Waterford County Council for payment of a marriage gratuity to Mrs. O'Keeffe.

Mr. Curran—The County Council cannot stop the amount out of the rate.

Secretary—No; they are liable. We can now carry on our scheme the same as last year, which we could not do if that was withheld.

The letter was marked "noted."

Prizes for Feis. A letter was read from the Secretary Feis Na nDeis requesting the com-mittee to make a grant for prizes in connection with the County Feis to be held in Dungarvan on Sunday next, June 1st.

Mr. O'Halloran said something should be given as the Feis was a benefit and an education to the youth. Mr. Stack-What benefit is it? That

language is dead.

Mr. O'Halloran moved that £10 be given for prizes.

Mr. Stack-I am against it. It has the country ruined.
Chairman—Will you propose ar amendment?

Mr. Stack—No, but I dissent.
Mr. Lawn—As our finances are limited I propose £5.

Mr. Keane—That is a bit low. I suggest we make it £7 10s.

The committee granted £5, Mr. Stack dissenting. Irish Scholarships.

The four scholarships tenable for one month at an Irish College were awarded to the following, who received the highest marks at the recent examination, viz .: Patk. Fennessey, Reanadampaun; Liam Noonan, Camphire, Cappoquin; Maura Brazil, Faithlegg, and Josephine Morrissey, Cappoquin.

Instructress in Domestic Economy.

Two applications were received for the vacant position of Instructress in

Domestic Economy, viz. - Miss Eileen Flynn, Carrigeen, and Miss Norah Kennedy, Parnell street, Waterford. The Secretary said the position was advertised, and in accordance with the

advertisement Miss Flynn attended for the Irish examination. Miss Kenredy did not as she is teaching in the Cork Technical School. She sent a letter and references that she was competent to teach subjets through the medium of Irish.

Miss Flynn was unanimously appointed on the proposition of Mr. Curran, seconded by Mr. Lawn.

Itinerant Classes. The report of the Principal on the number of classes and the attendances at same held through the county in Domestic Economy and Manual In-struction was read and considered satisfactory.

> Equipment for Woodwork Classes.

Arising out of the report of the Principal that the equipment at the Dungarvan School for the Woodwork Class was in use with 28 years. It was at present being used by the class at Beary's Cross with the result that the Dungarvan pupils could not carry

The Secretary was directed to have estimates for tools and benches for next meeting.

LISMORE TENNIS CLUB. The Lismore Lawn Tennis Club offi-

cially opens its season on Thursday, Guard Stack charged Denis O'Brien, of no fixed address, with being drunk and disorderly and resisting arrest.

29th May, when it is hoped all the old members will put in an appearance. The grounds, under the charge of T. Russell, are in excellent order and condition, and a busy season is anticipated. Intending members should make early application for existing vacancies. Clubs desiring fixtures may now communicate with the hon. sec., Mr. J. C. Heelan. The grounds are beautifully laid out and consist of four grass tennis courts, two croquet lawns and a putting green, and to add to the comfort of members, a magnificent pavilion with dressing rooms, etc., stands on the ground.

Complainant said defendant had licensed one since and given the other away.

It is not very definite. Man away.

TALLOW DEFEAT SARSFIELDS.

The Riverstown enclosure was the venue for Sunday's hurling engagement between Sarsfields and Tallow. Sunshine prevailed for the greater part of the game, but periodical showers were also experienced. The pitch was in good order. The attendance was moderate. A good game was provided, Tallow gaining victory by a margin of eight points. Sarsfields held the lead in the earlier part of the game, but were afterwards outplayed by Tal-

low, whose success was merited.

During the opening stages Sarsfields made a few attacks, and Driscoll placed a point to their credit. Useful deliveries by Hartigan, Sheehan and Revins brought the Tallow forwards into Sarsfields' territory, but Summers cleared. Two overs followed at Tallow's end. Following the resumption, Ryan put the Tallow forwards in possession, and Hickey had a shot for the net, but Kenny saved, and relieved. Tallow returned, and, entering Sarsfields' goal-mouth, Ryan barely missed securing a major score. Alternate attacking ensued. In a movement by the Sarsfields' forwards, Murphy registered their second point. After an over at each end, play settled in Sarsfields' territory, until Crowley and Mahony effected a clearance. Looney and Walsh opened, an attack on the and Walsh opened an attack on the part of Sarsfields, and Horgan recorded a point. Tallow promptly replied, and in the forward play, close to the Sarsfields' line, Davitt scored two goals in quick succession. Sarsfields attacked, and, after an over, McNamara sent in a swift shot for a goal, but Deane made a fine save and clearance, Tallow were conceded a seventy, and, with the delivery well directed, Sarsfields had to defend, and Lewis cleared, but Curley, one of the Tallow players, raised the leather and drove it between the point posts. Tallow pressed for a few minutes, and Sars-fields afterwards visited Tallow's quarter, but two overs ensued.

At the interval Tallow had established a lead of four points, having scored two goals and one point to Sarsfields' three points. Tallow returned to the attack, and had three overs. Sarsfields' forwards, in a good movement, transferred operations to Tallow's end, but Keenan's centre could not be reached by Murphy, and Harti-gan cleared. The Tallow forwards were again in motion, and, reaching the Sarsfields' line, Davitt performed the hat trick by scoring his third successive goal. Two overs followed at Sarsfields' end. A series of attacks by the Sarsfields' front division culminated by Horzan road. ated by Horgan sending the leather in-to the net. Tallow were then pen-alised in the mouth of their goal, and Lenihan provided a point. Alternate attacking followed, the backs on each side being reliable, and the Tallow custodian made some good saves.
McNamara, Walsh and Lenihan returned operations to Tallow's quarter, but O'Leary, Flynn and Henley cleared on every occasion the attacks by Sars-fields' forwards. At the other end subsequently Kenny saved a long shot from Condon. Tallow then went wide twice, but on return to the Sarsfields' territory Davitt scored a point. In the closing stages Tallow scored another minor and a goal, and won on the

#### REPORT.

THE FOLLOWING IS THE REPORT RE-CEIVED FROM THE ANALYST TO WHOM WE SENT OUR POLISH ON TEST:-

"We have tested the Polish sent us and are glad to say that your product is exceptionally good and suitable in every way, which is owing to the fact that the Polish has been prepared by taking a high-grade raw material and by use of pure polish oil.

"We have applied the Polish and find that only a very small quantity is necessary in order to obtain a particularly lustrous and durable surface. We further find that your Polish preserves and gives a brilliant and fine colour."

June 9th. WATERFORD (Manor Paddocks)-Tuesday,

June 10th. After years of experience, and searching the Shows of the World, Mr. John Duffy has evolved an entirely new entertainment for his Circus this year, which will arrive in the towns named on above-mentioned dates. The programme is costly and on a big scale both as regards the varied talent of the performers and the number of artistes enaged. In order to create a series of impressive displays, Mr. Duffy has amalgamated various troupes of the most skilled entertainers, featurin Pipe Major George Deane's Famous Kiltie Lassies, the world's greatest ladies' bagpipes band, with Alvas, greatest lady piper on record, and Coney Island's greatest ride, "The Track of Death," by two beautiful young ladies; also group of real forest-bred lions. Patrons are assured of a rare feast of amusement. The Show this season, in fact, outshines all its predecessors. Finally, a word must be said about the wonderful performing animals, horses and ponies, possessing extraordinary powers of and artistic main entrance.

#### YOUGHAL MAN BY L.R. These jottings, so excellently written, so de

scriptive and so entertaining, the publication of which was suspended a year ago, will be resumed in our next issue, and we are sure they will be as highly appreciated as ever. The author is a distinguished Youghal man, whose literary merits are of a very high order indeed, and his word pictures, even on matter of fact events, never fail to seize the imagination and rivet attention in a manner that reveals the author as a writer of high rank.

Bathers should plug their ears, says a doctor. As a protection against those loud costumes. Money doesn't go far nowadays. But it goes.

Haulage workers often work overtime, says writer. Haul work and no play.

### CAPPOQUIN NOTES.

AN ENJOYABLE SOCIAL EVENT. Following the recent interesting Bil-liards Tournament between the Cappoquin Rowing Club and the C.Y.M.S., which was won by the former, a grand supper was held in the Boathouse Hall at which both teams were hospitally entertained. The Very Rev. Canon Whelan, D.D., P.P., Spiritual Director, C.Y.M.S., and the Rev. J. Crotty, C.C. were also present on special invita-tions, and the interesting function was presided over by Mr. Thos. F. Olden, Hon. Sec. of the Rowing Club, who made an ideal chairman on the occasion. After supper toasts, speeches and songs followed, in which vocalism and eloquence reached a very high standard, and after a most enjoyable social evening, Canon Whelan suitably thanked the committee for their great kindness and hospitality towards Fr. Crotty and himself, and paid a very high tribute to the Rowing Club for its brilliant exploits in the annals of rowing in former years, and expressed the hope that those victories would be repeated in the near future (loud applause)

The Chairman, in the course of an appropriate and eloquent speech, suitably thanked Canon Whelan for his kind wishes and generous references to intelligence. The mammoth four pole tent is the Rowing Club, and said the membrilliantly illuminated by electric light, and the bers of that Club were determined to gilded and carved front provides a very striking leave nothing undone to prove themselves in every way worthy successors No one should miss seeing this great Olympia of the great oarsmen who had won such great honour and renown for the 1 o'clock (headed by the Circus and Ladies' | Club and the town in the days gone by

(applause). The singing of "Aul Lang Syne" by the entire company concluded a most delightful and thoroughly enjoyable evening's entertainment.

LARGE TROUT CAPTURED.

The salmon net fishermen operating in the river Blackwater below Villierstown captured a splendid specimen of white trout last week which weighed 10lbs., this being considered a record weight for any trout captured in those parts for many years. This fine specimen was purchased by Mr. Wm. J. Baldwin for the Cappoquin Bacon Factory Co. and shipped to England with a large consignment of heavy sal-

mon the same evening. Trout fishing on the Blackwater with rod and line was never so successful as it is this season in the Cappoquin reaches of this famous river, as most of our local anglers have been capturing large baskets of fish within the FOR ALL CLASSES OF WOOL. ALL past few weeks, while several English CLASSES OF HIDES, SKINS, HORSE HAIR visitors staying at Mrs. Chearnley's AND FEATHER BEDS BOUGHT FOR Ex. picturesque residence at Belleville Park have also been equally successful. In the course of a few hours' fishing recently Mr. M. J. Sargent, Cappoquin's most famous angler, captured over 100 fine trout, brown and white, while Messrs, J. Lacey, S. Hick, Jas. Glasse and a few others have also been rewarded with very good "hauls."

> SUPPLEMENTARY BULL SALE. Following the very successful annual

Bull Sale held here by Mr. M. F. Walsh, M.I.A.A., on the May fair day, a Supplementary Bull Sale will be held in the Salesyard, Pound lane, on Thursday, June 5th (fair day) for which early entries are requested. Judging by the good prices obtained for yearling Shorthorn bulls at the May Sale. everything points to the coming sale being equally successful in this respect, so that those desirous of getting the best prices for their animals should enter same without further delay.

THE YOUGHAL FERRY AGAIN.

To the Editor of the "Observer." Sir-Your issue of 24th May, 1930, contains the following concerning the Youghal Urban Council and myself :-

"The Clerk was reading a letter from Col. L. Ronayne regarding the ferry when Mr. McMahon proposed that the letter be not read, and that they treat it with contempt after the Colonel's letter in the 'Dungarvan Obser.

This was seconded by Mr. Beausang and others and passed unanimously." I would be very sensitive of a rebuff from

anybody, and especially one from a public council. if I thought I deserved it. But I do not think the council is quite in a position to give me a rebuff. It may be said-why did I write an "open"

letter to the "Dungarvan Observer," instead of writing direct to the council: But it is only quite recently I wrote a long letter direct to the council concerning the ferry. This letter I thought important from several aspects-not the least of which was the nantical one; an aspect which, I think, the great majority of the council make no pretence to be well up in. Apparently no real consideration at all was given this letter. It was simply marked "read," and I received a very brief and curt acknowlegdment saying the council had no intention of increasing the wages. I thought the treatment and reply rather dis-

Hence my second letter to the council was an

As regards the ferry: The council seems to me to be acting with great aplomb and complacence, mixed with rather undue hauteur, in a matter it is by no means fully competent to deal with, owing to want of nautical experience.

I think the Government ought intervene, as the passibility of a serious accident is quite on the cards .- Yours faithfully,

L. RONAYNE.
