

DRINK AND ENJOY
COLLEEN LEMONADE
"COOLING SOOTHING FLAVOUR"
 Made from Palermo Lemons.
 Colleen Lemonade is an ideal drink.
 Wonderfully inexpensive, too. A quarter lb.
 costing 4d. makes 20 glasses of lemonade.

Vol. 20. No. 941

SATURDAY, FEBRUARY 26, 1931.

Price 2d.

Dungarvan District Court.

DAUGEROUS LORRY DRIVING.

FISHERY PROSECUTIONS.

Before Mr. J. S. Troy.
 Sergt. Perrin summoned Patrick Moroney, miller, employed by the Dungarvan Co-operative Creamery, for dangerously driving a motor lorry in Dungarvan on February 13th and for having no driver's license.

Mr. Farrell, solr., defended.

Sergt. Perrin stated he was standing near Dunlea's corner and saw a motor lorry come on to the Square after an I.O.C. bus. No horn was sounded by the lorry. At the time Moloney's breadvan came up Main street driven by E. McCarthy at 10 to 15 miles an hour. The van pulled up at the foot of Mary street to avoid a collision. The lorry had no horn, but the brakes were perfect. The foot of Mary street was a dangerous crossing.

Cross-examined by Mr. Farrell—The lorry was 12 yards behind the bus and was travelling at, say, 20 miles an hour. If the van had not good brakes there would be a collision.

Justice—In my opinion you cannot be too careful coming down Mary st. or coming up Main street. Only that the Guards are there so often there would be accidents.

Mr. Farrell—If the driver says he was only going at 10 to 15 miles an hour what would you say?

Witness—I would take a cynical regard towards that remark anyway. I went to the County Council Office and found he had no driver's license, but the license was taken out next day.

Guard Siraime corroborated last witness and said the lorry sounded no horn. Witness was driving cars 12 or 14 years and the defendant's lorry was travelling 20 to 25 m.p.h. and the van coming up Main street 10 m.p.h.

By Mr. Farrell—Even if he sounded his horn 20 m.p.h. down Mary street was too fast.

To Mr. Troy—Even if Moroney sounded his horn I would still say he was travelling too fast.

Ed. McCarthy, driver of breadvan, said when approaching Mary street corner he saw the lorry flash past. He had no view of Mary street. He was going so slow he had only to tip the brake to stop. He got a fright.

By Mr. Farrell—If I were going anyway quick there would have been an accident.

For the defence, Mr. Farrell said the lorry was travelling 10 to 15 m.p.h., but had no horn, and followed the bus. At no time was there possibility of an accident.

Patrick Moroney, in the employment of the Dungarvan Co-operative Creamery as a miller, said he was driving the lorry because a man was ill. He had eight years' experience of driving. He followed the bus from the Sweep. Coming down Mary st. he was 30 yards behind the bus. He came towards the Square at 10-15 miles and slowed up entering the Square and looked up and down. He saw Moloney's van coming up. The brakes were good. From where he saw the van a train would have time to pass.

By Supt. O'Shea—I was driving carefully on to Square. I was coming from Grange.

Sergt. Perrin, re-called, said the general character of the defendant could not be better, and he bore a very good reputation as a driver.

Justice—Had the sergeant not given defendant the character he did, I would deal seriously with him and put him away from driving for a time. There was negligence coming on to the Square, and I fine him 20s. and 5s. for having no driver's license.

RAISING A ROW.

Guard Regan prosecuted Patrick Street for causing a disturbance in the street.

Defendant was bound to the peace in £10 with two sureties of £5 each, or in default two months' without hard labour.

MCCARTHY V. STREET.

This was an adjourned case of Thos. McCarthy v. Patrick Street in which a sum of 7s. was ordered by the Justice to be paid to McCarthy as compensation for a torn shirt, etc. Mrs. McCarthy now appeared and said the 7s. was not yet paid.

The Justice imposed a penalty of one month with hard labour.

FISHERY CASES.

The Waterford Board of Fishery Conservators prosecuted Moe. Walsh, Colligan; J. Dahill, Currahaha; L. Boland, Inchindrisla, and John Drummy, Shandon, with offences under the Fishery Acts.

Mr. Varrington, solr., for the Fishery Board, Mr. A. R. Farrell, solr., defended.

Guard Sweeney deposed to being on fishery duty on the 30th January. As he was cycling down Colligan he saw Dahill standing on the road. When witness was about 25 yards from him he made a sign with his

"In a Towering Rage."

RING ASSAULT CASE.

ALLEGED ATTACK WITH SPRONG AND BILHOOK.

At the Dungarvan District Court on Wednesday, before Mr. Justice Troy, Supt. O'Shea charged Thomas Terry, farmer, Ring, with maliciously striking Francis Templeton, O'Connell street, Dungarvan, with a sprong and a bilhook on the 31st January.

Mr. T. C. Williams, solr., defended, and Mr. A. F. Farrell, solr., held a watching brief on behalf of Francis Templeton, who is instituting an action for damages against Terry in connection with the occasion.

Dr. Moloney said he examined Francis Templeton on the 31st January. He had a small punctured wound on the side of the nose and his right hand had a slightly incised wound across the palm and two fingers. The cuts were fresh.

By Mr. Williams—Templeton was under my care for two or three weeks before he went to work. As he would have to start the lorry he thought it better he should not go back to work until he was all right.

Mr. Williams—I am pleading guilty to ordinary assault.

Justice—Will you reduce the charge to ordinary assault?

Supt. O'Shea—It is a serious matter and I don't think I could conscientiously do so with a sprong and bilhook used on the occasion.

Francis Templeton, driver-salesman American Oil Co., said on the 31st January he went to Ring and later to Ballinagoul. At the fork of the road going up to Seaview he saw two calves on the road. When about to pass them one calf came out on the road and he pulled up the lorry. The calves then ran on 10 or 15 yards and he passed without touching them. Nothing happened then. He went on to Ballinagoul and returned in 20 or 30 minutes. When coming to the spot where he met the calves he saw a man on the road who put up his hand and he stopped. That was the defendant, and he had sprong and a bilhook in his hand. Terry said: "Do you know the rules of the road?" and I said yes. Terry said: "Were not you driving very fast?" and I said "I was not, as there were calves on the road." He said they were his calves, and that one of them was after falling over the ditch, and was not that a nice state of affairs? I said I saw no calf go over the ditch, and if they were his he should mind them.

Justice—The calves were straying round the road? Witness—Yes. I asked him to give me his name, but he showed the sprong into my face. I was sitting in the lorry. I felt the prick of the sprong and I caught it to show it out from me, and then he made with the bilhook and struck me on the hand. I was terribly frightened and told O'Connor to open the door. I held the sprong and part of the bilhook in my hand. I jumped out then and he made after me, but I went over the ditch, and further down the road I joined the lorry. I went to the doctor at Ring, but he was not there, and then I went to the Guards and reported the matter.

Cross-examined by Mr. Williams—The calves were 100 yards from the defendant's house. I was going 15-20 miles an hour at the time and I slowed down. I touched no calf. Terry stood in the middle of the road and put up his hand to me to stop. I had not the slightest idea he would strike me. He gave me no chance to help him to suggest how to get the calves out. He did not say the calf was injured.

Mr. Williams—At this time Terry was in a towering rage? Witness—He was. He kept jabbing me with the sprong. O'Connor got out of the lorry as well as me and he watched his chance to get back again. When I got inside the fence I told Terry I was going to report the matter to the Guards and he said go to h—.

Did he say he would report you to your employer? Yes.

Justice—Was it in Irish he spoke? Witness—He was speaking English while he was with me.

Ed. O'Connor, assistant driver on the oil lorry, gave corroborative evidence. Terry started the assault with the sprong and then with the bilhook. Templeton was trying to ward off the blows before getting out of the lorry. When Templeton got out and jumped in over the ditch I drove the lorry and picked up Templeton some distance down the road.

By Mr. Williams—Terry was jabbing at Templeton with the bilhook for a minute. Templeton held the bilhook and sprong in one hand. Witness was sitting in the lorry at the time.

Justice—What else could the witness do except to get out and kill Mr. Williams? Witness—No.

Guard Moloney, Ring, gave evidence in Irish and produced the four-pronged fork and the bilhook used on the occasion. He also read a statement made by Terry, which stated

DISTURBING FISH.

The case against Lee. Boland of wilfully injuring and disturbing spawning beds on the river Colligan on January 8th was then gone into.

Guard Sweeney deposed to keeping the defendant under observation from ambush for about 25 minutes. Defendant was walking the bank and poking it with a stick. When he came opposite to where witness was in ambush witness spoke to him. Guard McGee was with witness. Witness crossed the river to see if defendant had a gaff, but he had not. Defendant admitted he was poking for salmon. The river is a good spawning river, and from the way defendant was acting he was disturbing the fish.

By Mr. Farrell—Defendant could not have poked the spawning bed in the river from the bank. Witness saw a salmon in the river. He was not poking the bank continually for the 25 minutes he was walking up and down.

Mr. Farrell also asked to have the First Offenders Act apply to this case. The man was never in the court before.

THROWING STONES.

The case against J. Drummy, that of throwing stones into the river above Ballyneety bridge, thereby disturbing the fish, was next dealt with.

Guard Daly deposed to being on duty on January 8th last. He observed defendant walking the river bank. He then saw him throwing stones into the river and afterwards searching the bank. From what he could see he thought the stones were thrown convenient to the river bank. He thought the main object was to disturb the fish under the bank.

The Justice said they all seemed very busy poaching about this time. The punishment for these cases is very serious. He imposed a fine of £2 with £1 costs on Dahill; Walsh and Boland were fined £3 with £1 costs in each case, and the case against Drummy was dismissed.

BOOKLET FOR IRISH CREAMERY SUPPLIES.

A very long-felt want has been supplied by the issue of a most attractive and very interesting booklet which has been prepared by Imperial Chemical Industries, Limited, specially for the information of creamery suppliers. This booklet deals with the economics of milk production in the ordinary farm and gives in the simplest possible language the precise instructions by which the creamery supplier's income may be economically increased. The market for butter is dealt with at some length, and the possibility of increasing the output of milk from Irish pastures is illustrated by numerous examples. The simplest possible instructions are given as to the procedure, and no farmer who reads the booklet should be left in any doubt regarding the proper treatment of his grass and hay land. Nothing on the lines of this booklet has yet been attempted, and it will certainly take a high place in current literature.

Copies will shortly be obtainable from any Creamery Manager, and our readers should make special point of asking at the creamery for this booklet.

HELPING FISHERIES.

GOVERNMENT SCHEME TO COST £39,175.

The further development of fisheries and Gaeltacht services is to cost £39,175 before March 31st, and a supplementary estimate for the amount has been circulated. As there have been savings amounting to £27,725 in other directions, the amount to be voted is £11,450.

Of the total, £25,735 is required to make up "deficiency in receipts" from the sales of kelp and products of the rural industries classes.

A grant of £3,500 is being made to the Sea Fisheries Association. It is made up of £1,500 for formation and administration purposes; advances for boats and gear £1,000; and a general development, £500.

County Council Budget.

THIS YEAR'S DEMAND £134,936.

RATES DOWN 4d. IN £.

GENERAL RATE 10s. 6d.

At the meeting of the County Council on Tuesday, Mr. John Kiersey, chairman, presiding, the Secretary submitted the estimate of rates for the coming year, which showed a total decrease of £5,318 15s. on last year's demand. The general rate is down by 4.2034d. in the £. The general rate this year will be 10s. 6d. in the £. The total estimate to be provided by the county is £134,936. The demand of the County Council on the Dungarvan urban area is £3,273 7s. 11d. this year as against £3,610 9s. 8d. last year. The roads estimate is down £5,256 on last year's, and the poor relief is down £1,420.

In Carrick collection district the rate is down 5.147d. in the £ except Portlaw dispensary, where the reduction is 9.88d.

In Clonmel district the rate is up by 9.522d. in the £.

In Dungarvan collection district the rate is down 2.75d. in the £ except Seskinane E.D., where the reduction is 3.89d.

In Kilmacthomas collection district the rate is down 6.47d. in the £.

In Lismore area Ballyduff dispensary district is down by 5.5d.; Cappoquin is down 3.7d.; Lismore dispensary 2.28d.; Tallow dispensary 6.30d. except in townlands of Tallow and Townparks East and West, where there is an increase of 1.286d. In Waterford collection district the reduction varies from 4d. to 12.5d. in the £.

The abatement in respect of the agricultural grant is 3s. 8d. in the £.

The Secretary said the Department had recommended the council to levy a rate of 2d. for agricultural purposes, and they had done that.

Mr. O'Ryan said while it was satisfactory to know that the general rate was down by 4d. this year, the Clonmel No. 2 district did not get much benefit as the rates there were up 9d.

Mr. O'Ryan—That was the decision of the council, but was due to the Board of Health. The council would remember that three years ago when the Board of Health was being appointed he suggested that Clonmel area should have a representative with a local knowledge, but that was not done. The water scheme at Ballymacarby was responsible for the increase. He knew it was not necessary. It had cost £500 or more, and yet some of the people to whom the supply was brought were not using it. There was a beautiful spring well 200 yards away, and the Nire river was only a few paces away. The well to which he referred had done duty for 100 years, and there was never any complaint about it. If the water supply had been brought down Barrack street it could be done for £100. Had he been on the Board of Health he would have advised against the scheme and not id. would be lost. During his time on the District Council people came for water, but it was refused, as the council believed if they took up water schemes they would be expensive. The valuation of the whole district was only £13,000, and it was dangerous to engage in any scheme of that sort. In a year when de-rating was considered necessary owing to agricultural depression, it was too bad that they had to impose on the people of that district such a rate. Had a representative of that area been on the Board of Health the people need not now have to face such a heavy rate, while in every other part of the county the rate is down.

Mr. Stack—The people are drowned with water all over the country.

Chairman—The Board of Health has only 10 members.

Mr. O'Ryan—The rural district is the area of charge for separate charges, and it is absolutely necessary there should be representatives of all the divisions on the Board of Health. In the past Mr. Delaney represented the district on that board.

Mr. Greene said the county area of Kilmacthomas included Kilmacthomas, Carrick and Clonmel rural districts and had only two representatives on the board.

Mr. Curran—At the time Mr. O'Ryan said he could not attend the meetings of the Board of Health.

Mr. O'Ryan—I proposed Mr. Hallinan and he was beaten on a division.

Chairman—All these water schemes that came before us it was only after great local pressure the works were undertaken.

Mr. O'Ryan—Was there a petition or a request?

Mr. McGrath—There was a doctor's certificate.

Mr. O'Ryan—A loan should be obtained and spread over a number of years. The people in the district are very poor about it.

Mr. Greene said the demand for the water scheme came not only from the people of the district, but from the

DEATH OF MRS. WALSH, BALLYLEMON LODGE.

Last week the death occurred at her residence, Ballylemon Lodge, Cappagh, of Mrs. K. M. Walsh, relict of the late Dr. J. J. Walsh, Newcastle, Clonmel, after a long illness. The deceased was a most amiable and charitable lady, who had won the admiration and esteem of all who knew her. She reared a most respected family, the members of which occupy very important public positions, and to them the deepest sympathy is extended in their bereavement.

On Friday evening the remains were removed to the Parish Church, Modeligo, and on Saturday the interment took place in the adjoining burial ground in the presence of a large gathering of relatives, friends and the general public. The last prayers were recited at the graveside by Very Rev. M. Carroll, P.P., and Rev. J. Dwan, C.C.

KILMATHOMAS FAIR.

At Kilmacthomas monthly fair on Tuesday young stores were in good demand at about recent rates, but rough animals were hard to cash. Fat stock exchanged at firm prices. Springers met a good inquiry at improved values. Fat sheep traded slowly at current figures. Stores—1 to 2 yrs., 1st class, £12 to £13; 2nd, £9 10s. to £11 15s.; 2 to 3 years, 2nd class, £13 to £15 10s.; 3 yrs. and up, 2nd, £12 to £16; 3rd, £7 to £11 10s.; fat cattle, cows and bulls, 2nd, £14 to £17; 3rd, £11 to £13 10s.; springers (cows and heifers), 1st class, £18 10s. to £22; 2nd, £13 10s. to £18; fat sheep, 2 yrs. and up, downs and cross-breeds, 56s. to 72s.; young and store pigs were bought at late quotations.

TIP FOR A "DOUBLE" FROM THE SEA.

A message enclosed in a bottle which was dropped overboard from the trading vessel Lady Belle on September 3rd was delivered to Edward Morrissey, of Hill Cottage, Kilmacthomas, last Sunday. It was washed ashore on Bounshon beach. The message tipped Drin and Acera for the National-Lincoln double.

County Council Budget.

THIS YEAR'S DEMAND £134,936.

RATES DOWN 4d. IN £.

GENERAL RATE 10s. 6d.

At the meeting of the County Council on Tuesday, Mr. John Kiersey, chairman, presiding, the Secretary submitted the estimate of rates for the coming year, which showed a total decrease of £5,318 15s. on last year's demand. Stores—1 to 2 yrs., 1st class, £12 to £13; 2nd, £9 10s. to £11 15s.; 2 to 3 years, 2nd class, £13 to £15 10s.; 3 yrs. and up, 2nd, £12 to £16; 3rd, £7 to £11 10s.; fat cattle, cows and bulls, 2nd, £14 to £17; 3rd, £11 to £13 10s.; springers (cows and heifers), 1st class, £18 10s. to £22; 2nd, £13 10s. to £18; fat sheep, 2 yrs. and up, downs and cross-breeds, 56s. to 72s.; young and store pigs were bought at late quotations.

TIP FOR A "DOUBLE" FROM THE SEA.

A message enclosed in a bottle which was dropped overboard from the trading vessel Lady Belle on September 3rd was delivered to Edward Morrissey, of Hill Cottage, Kilmacthomas, last Sunday. It was washed ashore on Bounshon beach. The message tipped Drin and Acera for the National-Lincoln double.

L.G.B. Inspector, and it was compulsory on the Board of Health.

Mr. Butler—Mr. O'Ryan's point is that a loan spread over a number of years should have been obtained. Chairman—In that particular case we had an application from several residents in Ballymacarby to extend the scheme.

Mr. O'Ryan—Yes, when it was finished. It was brought up to one person's house and left there and these people are using water from the well.

TOURIST ASSOCIATION.

Mr. Greene said £100 was voted to the Irish Tourist Association, and he held that Association was doing nothing for the country. If it were he would be the first to approve of it. The Association was only helping to keep visitors out of Ireland. Their booklets advertised trips to the Mediterranean, etc. He moved that the £100 be not granted, but that it be placed to the reduction of the bank overdraft.

Mr. Walsh thought the Association was doing a lot of work in getting people to come in thousands to the country, and the money spent on that was well spent.

Mr. Stack—It is spent badly.

Mr. Walsh—In what way?

Mr. Stack—Go and ask at Lawlor's Hotel.

Mr. Greene said the best thing to do was to put the £100 in reduction of the bank overdraft.

Mr. Walsh—You have other councils increasing the amount.

Mr. O'Ryan—What is the amount of money coming in from tourists?

Mr. Fox said the amount was not very large, and they could not blame the Tourist Association if tourists did not stay long in Waterford.

Mr. Walsh said Ireland was advertising in England, Scotland, France and the Continent generally, and offices had to be kept up in all these countries. That was how the money was spent.

Mr. Stack—I know that Association for a number of years, and I don't agree with Mr. Greene on many points at times. If you were as well acquainted with them as I am you would know that the tourists never come to this country. They are all running to Paris, London or Vienna and other places. Do you think they would stay at Tramore? They would not. I met a man lately who was 12 years in the States and he told me he was not going to Dublin as he was there before, but he was going to Paris. He just ran through Killarney and off to Paris.

Mr. McGrath—Tourist traffic is no benefit to the country at all. The only thing we gain is we are in danger of being killed.

It was finally agreed to get all the information possible as to how the Tourist Association spends the money and advertise the Co. Waterford, etc.

Very Rev. Canon Power, U.C.C., Cork, with Messrs. Kiersey, M. O'Ryan and H. D. Keane, solr., were appointed on the committee under the National Monuments Act for the preservation of the ancient monuments of the county.

EAST CORK FATALITY.

At Youghal District Court on Friday (before Mr. G. P. Farrell, B.L.), Palk Lynch, grocery salesman, was again charged on remand with the manslaughter of Patrick O'Donoghue, Ballykenally, Ballymacoda, on January 8th.

Supt. Dennehy prosecuted Mr. J. L. Keane, solr., Youghal, defended, and Mr. Wm. R. Hodnett, solr., holding a watching brief for the next-of-kin, was duly represented.

Sergt. Lupton, Youghal, deposed that he arrested the accused and formally charged him on 12th January with the manslaughter of Patrick O'Donoghue, Ballykenally, Ballymacoda. Witness gave him the usual legal caution and he made and signed the following statement: "I reserve my defence. I won't say anything at present."

Mr. Keane didn't cross-examine.

Superintendent—That is the case. I ask you to return accused for trial.

Mr. Keane—I ask you not to return him for trial.

Justice—I think there is a case for a jury.

Mr. Keane—It would then be only wasting time to address on the points involved.

Justice—Yes, I think so. I express no opinion, but return the case for trial to the next Circuit Court.

The accused, who made no statement, was then remanded on the same bail.

ACCUSED RETURNED FOR TRIAL.

At Youghal District Court on Friday (before Mr. G. P. Farrell, B.L.), Palk Lynch, grocery salesman, was again charged on remand with the manslaughter of Patrick O'Donoghue, Ballykenally, Ballymacoda, on January 8th.

Supt. Dennehy prosecuted Mr. J. L. Keane, solr., Youghal, defended, and Mr. Wm. R. Hodnett, solr., holding a watching brief for the next-of-kin, was duly represented.

Mr. Keane—I ask you not to return him for trial.

Justice—I think there is a case for a jury.

Mr. Keane—It would then be only wasting time to address on the points involved.

Justice—Yes, I think so. I express no opinion, but return the case for trial to the next Circuit Court.

The accused, who made no statement, was then remanded on the same bail.

SOUTH TIPPERARY CO. COUNCIL ADOPTED THE ESTIMATE FOR THE COMING YEAR SHOWING A REDUCTION OF 6d. IN THE £ ON THE COMING RATE. A PROPOSAL BY MR. FOGARTY, T.D., THAT THE MAKING OF THE RATE BE DEFERRED UNTIL THE GOVERNMENT'S DE-RATING SCHEME IS PRODUCED WAS RULED OUT.

At the meeting of the South Tipperary Co. Council on Tuesday, the estimate for the coming year showing a reduction of 6d. in the £ on the coming rate. A proposal by Mr. Fogarty, T.D., that the making of the rate be deferred until the Government's de-rating scheme is produced was ruled out.

Waterford County Council

TRAVELLING EXPENSES, RATE COLLECTOR'S POUNDAGE

At the quarterly meeting of the County Council in Dungarvan on Tuesday, Mr. John Kiersey, chairman, presided. There were also present—Messrs. G. J. Greene, W. O'Donnell, D. Coghlan, L. Hallinan, M. O'Ryan, M. McGrath, P. J. Fox, M. F. Walsh, W. O'Donnell, D. Heskin, J. Butler, W. Stack, M. Curran.

Sympathy.

Mr. O'Ryan proposed a vote of sympathy with Miss Lena Keating, and official of the council, on the death of her father, Mr. Michael Keating, Comeragh, who was a patriotic Irishman and reared a patriotic family. Mr. Greene seconded.

In putting the resolution, which was passed in silence, the Chairman said they were all very sorry that the occasion had arisen to move the resolution.

County Surveyor's Report.

It is generally agreed that the cost of ordinary maintenance of country roads is due one-half to traffic and one-half to wet. In the period under view the weather was continuously wet, and in fact, in the period from 1st July, 1930, to this date the roads of this county have not been dry for six consecutive days. Consequently maintenance has been very costly and results not nearly up to the average. Any provision made in my recent estimate to counteract the damage of the past period of exceptional wetness has been cut off by you, and, accordingly, unless a very favourable year prevails, it will not be possible to show any improvement a year hence.

Contractors in most cases have done some work, but not enough, and a considerable number have had to have payments withheld. The council should exercise greater care in selecting contractors and sureties. It is essential to have really solvent sureties, and to have contractors who mean to do their work, if the whole contract system is not to become a farce.

On direct labour roads the full amount of the year's work has been done almost everywhere. Only very little remains to be done, and very few men are employed. A good deal of patch-rolling has been done, with marked advantage generally. Repairing of pot-holes in main roads was difficult and expensive owing to constant rain. However, the main roads have stood up well against the winter's weather and traffic.

At present almost the whole of the plant is idle and undergoing a systematic overhaul in our workshops. It is hoped that every piece of plant will have been attended to in good time for the new season's work.

The work of reconstruction of the Courthouse at Lismore is progressing very satisfactorily, and I am hopeful that its completion will be reported at your next quarterly meeting. The job is having a good deal of my personal attention. A very good substantial job is being done, and so far the costs appear to be well within the estimate.

A magazine for storage of explosives is being erected, as already authorised. A small local store will also be necessary, and I shall require licences for both.

A grant of £12,275 has been notified for the improvement of three sections of trunk roads. These sections have been selected by the Roads Department acting on my advice. I have assumed that the council will approve of these, and arrangements for the execution of the work are now being made.

As directed by you, I interviewed the Roads Department on 11th inst. relative to a special grant for the Ardmore roads, and the case was received very sympathetically and fully considered. The Department are not in a position at present to come to our aid, but, if circumstances permit, it may be possible that something definite can be done at a later date. For the present, therefore, the matter must remain in abeyance.

The preliminary arrangements for the heavy new works of the coming summer season are now proceeding. It is hoped to commence actual operations in most areas in the very near future. This is essential in order to get the tarring and rolling work done in the proper season.

The new works to come before you are chiefly for renewal of maintenance contracts on county roads, and do not call for special comment.

Mr. Bowen said in connection with the making of the roads at Ardmore, he had made representations to the Ministry on the question and they could not at the moment give him anything definite, but they gave him the impression they would help him out as far as possible. They should let the matter rest for the present. The grant is better than last year, which is very desirable considering that my estimate was cut down so much.

Mr. Fox asked could anything be done for the Waterford-Tramore road for which no money was allocated. It would be false economy to let it get into disrepair.

Mr. Bowen said at present it would not be prudent to say too much about the Kibbary drainage. That drainage scheme had been under consideration and went so far as to have the votes of the local owners taken. Unfortunately a majority of the owners voted against the scheme. The Chairman of the County Council and the Mayor of Waterford convened a meeting of the owners of the land with a view to get them to agree to a scheme, but it has been adjourned and a further

meeting will be held. Until the Kibbary drainage scheme is carried out or something done he could not recommend the council to spend much money on the road. The right thing to do was first to get the water off the road, and anything else would be more or less a waste of money. They could safely leave it stand over for a short time.

Mr. O'Ryan asked was it true that the owners would have to pay 17s. 6d. an acre for the land reclaimed?

Mr. Bowen—Some of this would be very good land when drained and would be very valuable.

Mr. Coghlan asked would anything be done to the road leading in and out of Kilmacthomas.

Mr. Bowen—I propose that they be rolled and tarred, but the council did not approve of it. I have been proposing it for years and I cannot get it through.

Mr. Coghlan—There is far more traffic on these roads than on the Ardmore road.

Mr. Bowen said this was the first year in which the west of the county got any real benefit. The east had always the best of it.

Mr. Coghlan—Kilmacthomas has not got much benefit.

The County Surveyor's report was adopted.

Travelling Expenses.

In connection with the fixing of the travelling expenses of the Assistant Surveyors, the Secretary said the rate in existence was 6d. per mile for motor cars and 4d. per mile for motor cycles.

The Chairman said as pointed out by Mr. Butler at a previous meeting, men were living by hiring out motors at 6d. a mile. In addition these people had to pay their license and insurance. It was only fair that the Assistant Surveyors or County Surveyor should get their travelling expenses, but not a rate they would make a profit on.

Mr. O'Ryan said the men who hired out cars were able to do their own repairs to their cars, but they could not have the County Surveyor or his assistants losing valuable time in that way. If so it was the work of the council would suffer.

The Chairman proposed they make the rate 5d. a mile. Mr. Greene seconded.

Chairman—I don't know when the County Surveyor's application comes up.

Secretary—I took it that the County Surveyor's travelling expenses were a fixture to be changed by notice of motion.

Mr. Bowen—The understanding in my case was that the rate would remain at the rate paid by the Government to their officials.

Chairman—Let you fall in and we need not bother with a notice of motion.

Mr. Bowen—I will meet the Council, but I would suggest that you pay my tax. You don't pay my insurance. It has been shown that if I injure anyone as a servant of the council, the council are liable. According to law the Assistant Surveyor is not your servant and you are not liable. If you refund the tax to me I am quite satisfied.

Mr. Butler—Is the County Surveyor paying his own tax this financial year?

Secretary—Yes. The County Council always paid his tax.

Mr. Bowen—It has been refunded to him up to 31st December.

Mr. Butler—I don't think it should be paid at all. I think the County Surveyor and Assistant Surveyors should pay their own tax. I believe 4d. a mile for motors and 4d. for cars and 2d. for cycles should be enough. In connection with the insurance, the County Surveyor says you refund his motor tax. You should pay his insurance. If the council is liable for accidents by the County Surveyor as their officer, the County Council should insure him as it is they are liable. But the County Surveyor and the Assistants should pay their tax and their mileage should not be more than 4d. for cars and 2d. for motor cycles considering the arguments I have put up here before.

Chairman—I propose 5d. a mile for motors and 2d. for motor cycles.

Mr. Greene—Councillors are only allowed 2d. per mile.

Mr. McGrath—And you have to be punctual to get that.

Mr. O'Ryan—No officer of the council should make profit out of his travelling expenses, and if the council knew what it costs to run a car they would be better able to deal with it.

Mr. Fox proposed that an independent opinion be got as to the cost of running a car.

Mr. Greene—Any hackney motor owner will drive you for 6d. a mile. As to repairs being done by drivers, Mr. Butler said that was not so except to mend a puncture.

Increasing Poundage Fees. Mr. Curran moved that the terms and conditions governing the appointment of Mr. W. Connors as rate collector for Lismore No. 1 Division be rescinded in so far as they relate to the poundage rate of 4d. specified therein, and that Mr. Connors be placed on the same basis of employment as the other rate collectors of the council. He said Mr. Connors had given them every satisfaction since he was appointed. Mr. Walsh seconded.

Mr. O'Gorman, solr., on behalf of Mr. Connors, said he was working under difficult circumstances and it was most unfair that he should not have the same poundage as the other collectors.

The resolution was passed, Mr. O'Ryan dissenting.

The Finance Committee at their meeting on the 3rd February recommended that Mr. W. Connors, rate collector Lismore area, be paid the same poundage as the other collectors, and this recommendation was adopted without discussion.

Mr. O'Gorman, on behalf of Mr. Connors, returned thanks.

About Contracts.

Mr. Bowen referred to the price at which contractors took roads at the recent meetings, which were in some cases only 50 per cent. of his estimate, and said such contractors were either going to neglect the job or else do it for the fun of the thing. In any case where the money was cut down too much he would ask the council to reject the tender as there was something wrong. In one case his estimate was £12 18s. and the contractor's tender was £7 19s. In a Lismore case his estimate was £47 17s. 4d. and the tender £29 6s. By accepting such tenders they were only looking for trouble. As to sureties, he said in all cases they should have sureties worth money. In one case a surety was described as an ex-serviceman. He also objected to one man going surety for a large number of roads. It was time to draw the line.

Mr. Butler said all the roads for which contractors were not got would automatically be sent to the County Surveyor.

Mr. Bowen—I find one man, Patk. Barry, is surety for a lot of contractors and is liable for about £1,000.

Galway Secretary.

Mr. O'Ryan moved a resolution approving of the action of the Galway County Council in resisting the attempt of the Ministry of Local Government to fix an exorbitant sum as salary of the Secretary (£750 to £1,000). They were satisfied that the sum fixed by the County Council (£600 a year) was just and equitable, and it was bordering on hypocrisy for the Ministry to be imposing economies on public bodies while at the same time setting an example in extravagance having regard to the depression prevailing. He said that was apart from politics, and it may be their turn next to be attacked. These were extraordinary times, and it was unfair of the Ministry to fix a salary entirely too high.

Mr. Greene seconded, and referred to the increase granted to one of their Coroners over their heads. Those who pay the piper should call the tune, but that axiom is knocked on the head at present. Further, it was the people who had to pay the official should have his appointment.

Chairman—I think it would be time enough for us to consider this when the Galway County Council sent them a letter for adoption. We have agreed here and approved of the setting up of the Appointments Commissioners.

Mr. O'Ryan—We are only dealing with the salary.

The resolution was passed, the Chairman not voting.

Licensing Bulls.

Mr. O'Ryan complained that no notice was given by the Department of Agriculture of the County Committee of Agriculture as to the time for licensing bulls, and farmers who were a few days late found they had to pay 10s.

The Chairman said notices were posted up as usual.

Electric Wires.

Mr. O'Ryan handed in notice of motion to the effect that steps be taken to protect the public against electric cables falling down on the roads.

Lismore Town Clerk.

The question of the application of the Lismore Commissioners for a Town Clerk's Office in the Lismore Courthouse was referred to the County Surveyor.

Messrs. Little and Goulding, T.D.'s, wrote in reply to the council's resolution re Land Purchase Bill.

Tariff on Bacon.

The circular from the Managers of the Co-operative Bacon Factories re a tariff on bacon was read.

Mr. O'Ryan said pigs were bought at 8d. a lb. from the producer and in the shop you had to pay 1s. 6d. a lb. for bacon. That should be put a stop to.

The resolution on the subject was marked "noted."

Industrial Schools.

The Secretary said Industrial Schools were costing the county from £1,000 to £1,700 a year.

Mr. O'Ryan—it would be well to have our solicitor oppose such applications in court and find out the genuine facts.

Burn Motoney's Coal unless you have money to burn.

Kilmacthomas District Court.

Before Mr. F. J. McCabe, D.J. Mr. E. A. Ryan, State Solicitor, appearing for the Irish Land Commission, obtained decrees for full amounts of outstanding arrears, together with costs in each case, against a number of farmers in the court area.

Mr. John Crotty, merchant, Dungarvan, prosecuted a man named John Murray, stated to be resident in Kilmacthomas, for 25s. 4s. 8d.

Mr. Ryan, for applicant, said respondent was a contractor, and he had just finished the erection of four cottages in the Dungarvan district. The present debt was incurred by materials supplied for these cottages. Murray had a wife and six or seven children.

John Murray was called, but did not appear in court.

Mr. O. Haggie stated he served notice on defendant at the residence of his (defendant's) mother at Moonarud, Dungarvan.

Having ascertained that Murray apparently has no fixed abode in this court area, the Justice decided to leave service stand on the books until the next sitting. Mr. Ryan to endeavour to locate defendant's regular abode in the meantime.

Supt. Kelly v. Patk. Maher, farmer, Kilmovee, the Superintendent explained that Mr. Maher on the 26th November last entered into recognisances for the sum of £20 on behalf of a workman of his named Patk. Power, who was charged with the larceny of a bicycle. Power subsequently left the district and did not appear to answer the charge on the day the case called in court, and the present case was a claim for the amount of the surety.

Mr. Counihan, solr., Kilmacthomas, acting for Mr. Maher, applied for an adjournment of the matter for a period of three months. His client, he said, on finding that Power had disappeared, came to the Guards and swore an information.

The Superintendent agreed that Mr. Maher had facilitated the Guards as much as he possibly could, and he (Superintendent) would not be adverse to an adjournment.

District Justice—Very well; I will adjourn it to the May Court.

Fines ranging from 1s. to 2s. 6d. and costs were imposed in a list of Gardaí cases (no lights, wandering animals, etc.) in which Guards Monaghan, Kilmacthomas, and Park, Leamybrien, were the complainants.

Mr. Counihan, on behalf of Mr. Pk. Dunphy, licensed vintner, Newtown, applied for and was granted an occasional license for the Waterford Hunt Point-to-Point Races at Carrigen, Kilmacthomas, on March 5th next—hours from noon to 6 o'clock p.m. A letter in support of the application was submitted to the court.

Patk. Pigott, Kilcanavee, sued Ml. Wade, do., for £10 damages, due to trespass on his lands by defendant's sheep on divers occasions since June last.

Mr. Verrington, solr., Carrick, for applicant; Mr. Ryan, solr., for respondent.

Having heard the evidence of both parties, the D.J. said it was a case that should be settled out of court in a friendly neighbourly manner. He felt that any decision he might come to on the face of the evidence tendered would not prevent them from losing good days and money going further with the matter.

On the Justice's suggestion the parties and their solicitors withdrew accompanied by a neighbouring farmer, Mr. Thomas Dee, Kilnagrange, who was present in court during the hearing of the case, and who was mutually agreed upon by both sides when the Justice advised them to get a neutral neighbour to effect a settlement between them.

An amicable arrangement was eventually enacted.

A big calendar of civil bills having been disposed of (Messrs. Ryan and Counihan figured for most of the applicants) the court rose.

DEATH OF WELL-KNOWN SECONDARY SCHOOL TEACHER.

The death occurred on Sunday week of Professor John Kennedy, who had been for 13 years Professor of English, Latin and History at the Christian Brothers College, Carrick-on-Suir. Deceased was a native of Killooleman, near Laragh. He was a brilliant scholar and a most capable and successful teacher. He was only 46 years old. Before coming to Carrick he taught at Roscrea and Newbridge Colleges. The late Mr. Kennedy took a keen interest in politics and was President of Carrick-on-Suir branch of Fianna Fail. His brother, Fr. Kennedy, is a well-known and much-respected priest in Birmingham. The interment took place on Tuesday at Templederg after Office and High Mass.

DANGER OF WANDERING ANIMALS.

At Carrick-on-Suir District Court on Monday week when Mr. McCabe, D.J., found four persons from Co. Waterford district for allowing animals to wander on the road, he said the highest penalty he can inflict for this offence is a fine of a couple of shillings. These animals are a terrible danger to the travelling public. Their owners feed them free on the roadside and sell them at a profit. The penalty for allowing animals to wander on the public road should be made very severe in these days of motor traffic.

Important Notice to Farmers.

MANURES.

We are Sole Agents in Youghal for Gouding's Celebrated Manures which we are selling at the very lowest cash prices.

Bud Sargent, Lismore.

COUNTY WATERFORD FARMER'S £50 LOST AT FAIR.

MOTHER AND SON CHARGED AT CARRICK-ON-SUIR.

At Carrick-on-Suir District Court on Monday week, before Mr. F. J. McCabe, D.J.,

Mary Power, Gorey lane, Carrickbeg, and her son, James Power, aged 42 years, were charged with stealing £50, the property of James Quinlan, cattle dealer and farmer, Rathgorrack, Co. Waterford.

Supt. Fitzgerald, Clonmel, prosecuted, and Mr. J. A. Power, solr., defended.

James Quinlan gave evidence of having sold cattle for £80 at Carrick-on-Suir December fair. He got the money in £10, £5 and £1 notes and put it in his hip pocket. A neighbour named Patrick Norris, offered to drive him home. They had some drinks. Jas. Power, the lad in court, had been holding the horse outside the public-house. Witness drank a good deal of port wine that day. Next morning he missed £50 in notes.

Sergt. Moynihan, Carrick-on-Suir, and Sergt. Murphy, Clonmel, gave evidence of having searched Mrs. Power's house and having questioned her son. At first she denied having got money from her son. Witness questioned her about a £10 note she had changed in a shop in Carrick-on-Suir. She stated she got the £10 note from her sister in America. It came in the envelope from America as a £10 note. When the witness pointed out that £10 notes do not come from America the defendant said she got the money from her sister in London. After some further questioning by him and Sergeant Murphy the latter saw her lifting the mattress and trying to put a purse under it. Sergt. Murphy took the

pure from her. Defendant then said: "Now you have it all. That is all I got from the little child the fair day." The pure contained two £10 notes. Later on at the barrack she admitted in the presence of her son having got £30 from him. The boy admitted in the presence of his mother that he found the money in the hall of the public-house at Carrickbeg where he had been holding the horse.

The Justice returned accused for trial on bail to next Glonmel Circuit Court, and said he believed she knew where the balance of the £50 was. Judge Sealy would deal with her at Clonmel. He discharged her son, Jas. Power.

TWO MONTHS FOR STEALING A BICYCLE.

At Carrick-on-Suir District Court on Monday week, before Mr. McCabe, D.J., John Dowley, Carrickbeg, was sentenced to two months' imprisonment for stealing a bicycle value £4, the property of Patk. Shea, Ballyquiskin.

The evidence showed that defendant admitted having taken the bicycle, and stated that he missed the bus at Kilsheelan and was too tired to walk home to Carrick-on-Suir.

Supt. Fitzgerald said defendant kept the bicycle at his house for a week and then had it in a quarry where the Guards found it.

Defendant—I meant to take it to the barrack.

Superintendent—And if took you a week to make up your mind. The Justice said Dowley had already been let off on two occasions under the Probation of Offenders Act. Apparently leniency had no effect on him. He sentenced him to two calendar months' imprisonment.

Youghal Urban Council.

Present—Mr. J. R. Smyth, P.C., chairman; Capt. P. Dunne, Mrs. S. Hurley, P.C.; Messrs. E. P. Lynch, vice-chairman; T. Beausang, T. Harrington, A. J. Fowkes, J. Kennedy, W. J. Broderick, E. Clancy.

Gas Workers' Half-Holiday.
 Mr. Beausang suggested that the Gas Works staff got their half-holiday on Saturday instead of Wednesday.
 The Gas Manager called in and said that would not suit, as that was their busiest day. The half-holiday had been previously changed from Saturday to Wednesday to meet the men's wishes.
 It was decided to make no further change.

P. O. and Footpaths.
 Mr. Broderick called attention to the way the footpaths were being replaced by the Postal Authorities. They were done very badly.

Mr. Lynch—it is a proper disgrace. The Chairman said the Postal Authorities would have to put back everything as they had found it.
 Replying to Mr. Broderick, the Clerk said the County Council were the proper authority over the road from house to house. It was the Co. Council gave permission in the first instance to the Post Office to open up the roads.

Mr. Broderick said he would like to impress on the council the necessity of keeping in touch with the County Surveyor on the matter and give him due notice when they were satisfied that the footpaths were re-laid properly.

Patrick's Night.
 The Town Clerk said there were two applications for the use of the Town Hall on Patrick's Night—from the Choral Society to hold a Patrick's Night Concert and from the local branch G.A.A. to hold a concert and dance. There was also an adjourned application from the Southern Hurling Club.

Mr. Whelan proposed that they accede to the application of the G.A.A. Owing to the bad weather and other attractions their recent concert had not been a success. The Club was badly in need of funds to enable them to clear off the debt on the Copperally Sportsfield and to carry on the good work of fostering their national pastimes. For those reasons he hoped the council would see their way to be unanimous in granting the application, and thereby encourage the development of sport locally.

Mr. Harrington said he had much pleasure in seconding the proposition. The application was granted unanimously.

County Library Scheme.
 Mr. Broderick said that Saturday was an absurd day on which to expect members from the urban areas to attend.
 Mr. Beausang—He must think we are all wealthy farmers.
 Chairman—Or millionaire merchants (laughter).

Mr. Broderick suggested that the Secretary be notified to the effect that Saturday was not a suitable day for urban representatives.
 This was agreed to.
 Replying to a member, the Clerk said that at present they were getting a good supply of books for £40 yearly—a very economical arrangement.

Gravel From Foreshore.
 A letter was read from Mr. Woodley, engineer G.S.R., stating that he had been informed that gravel was being again taken from the Strand, and asking the council to look into the matter.
 The Chairman suggested that notices be put up, and then prosecuted anyone taking the stuff.

Mrs. Hurley said that the council having refused to prosecute in one case, she was going to do it, and the council had since condoned the man's crime by employing him after pilfering hundreds of tons of gravel and leaving them in a state of danger on the front strand.

The Chairman said Mrs. Hurley seemed to point to him particularly.
 Mrs. Hurley—Yes, sure you are running the council (laughter). This man took gravel recently.
 Chairman—That is news to me—I knew nothing about it.

The Clerk said they were hearing for a long time about the wiping away of the Strand, but the place seemed to any onlooker to be the same as ever. In support of that they had the opinion of an expert professional authority—the County Surveyor, Mr. O'Connor.
 Mr. Broderick said the council had agreed with other authorities to protect that foreshore, and prosecuted any person found removing sand or gravel from the prohibited parts, except when expediency compelled the council to take a limited quantity for public use.

Mrs. Hurley said there were thousands of tons taken and used on six miles of the roads.
 The Chairman said Mrs. Hurley ought stick to facts. There was not a half mile of roads involved, and it was ridiculous to be talking about thousands of tons. In spite of all the talk of late about the Strand, the Strand was there as safe as ever.

Mr. Hurley—it strikes me the Bishop of Cloyne knew what he was talking about when he wrote his Pastoral.
 Clerk—It is absurd to bring the Bishop's name into this discussion. Mrs. Hurley loses sight of the fact that the Urban Council and no one else are the owners of the foreshore, having purchased and paid for it, from Green's Quay out to Redham. The

council had therefore a perfect right to take some gravel when required for special circumstances.
 Capt. Dunne said they had entered into an agreement to protect the foreshore, and they should stick to it.
 The Clerk said the Town Superintendent had got instructions not to take any gravel.
 Mr. Lynch said there were people talking about the taking of gravel and they had asked that their neighbours should be allowed to take it.
 The Town Superintendent said he had got instructions not to remove any gravel.
 Mrs. Hurley—Did you send a man out last week for gravel?
 Town Superintendent—Yes. He went outside Claycastle.
 Mr. Broderick said there was a lot of exaggeration in statements about the Strand. That council could not accept a subordinate position in that matter.
 Chairman—By no means.
 Mr. Broderick said their agreement was not to take any gravel to the menace or danger or foreshore. But if it was necessary to take a few loads they did so as owners, in full of the foreshore.
 Mrs. Hurley—Why not give it to everybody?
 Mr. Broderick—That would suggest that the council has no right to its own property.
 Mrs. Hurley—I don't believe they have.
 The Clerk said that the council had bought the foreshore long before Mrs. Hurley had come to Youghal.
 Mr. Harrington said that there had been shiploads of gravel taken from Ferrypoint and it was replaced by the sea almost immediately.
 After further discussion,
 Chairman—I think we have had enough of gravel for to-night.
 Capt. Dunne suggested that when necessary they should send out their own horse.
 Mr. Broderick agreed.
 Chairman (to the Clerk)—Go ahead with the business. We'll have gravel on the brain at the rate we're going (laughter). I have been looking at the Strand for the past 37 years and I see no change one way or the other.
 The Chairman's suggestion to put up notices was finally adopted.

Tallow Races.
 AN APPRECIATION.
 Tuesday, the 11th, dawned a bright and a rosy morning on the town of Tallow. From an early hour people were astir. Everyone and everything seemed to be all agog. Barometers were read with a tense expectancy. Wireless were tuned in. Big Ben had chimed the hour. Good morning, everybody. Weather forecast for the next twenty-four hours is commenced. Visibility moderate. Slight showers. Local depression off North of Scotland. South and West of Ireland weather rather cold. Principal Events—Tallow Point-to-Point. Results broadcasted by the National Broadcasting Company at 6.30 p.m. (Click).
 By 10.30 the hooters of the autos were shrieking their undisputed rights to travel at unregistered speed the main arteries of the town. Pedestrians, while not availing of the automatic cross-road signals, remained content to abide by the older rule of the road "Safety First." From every conceivable point of the compass one sees a mass movement of people determining heading for the battle-ground of "equine skill." Kilcalf is the venue. It is an ideal spot for the "meet." The locality is not pretentious in its surroundings save for the perennial richness of gorse and furze, which blossom there "unprofitably gay." The district, however, commands a panoramic view of the winding Bride, the Castle of Lisfinny on the North, Mogeela Castle a little further West, with a bird's-eye view of the decayed greatness which once centred around the fortress of Conna, the last stronghold of the Fitzgeralds, who tried issue with the Ormonds for the supremacy of the valley of the South.
 From a slightly elevated eminence contiguous to the course, and yet a little apart from the "madding crowd," one can give only a moderate description of the enthusiastic gathering. Facial expression seemed to indicate that the men from the valley of the Bride are the inheritors of a vigorous "horsey" tradition. The gallant dash—the daring deeds which immortalised their forebears in story, song and lore, seemed to live again to-day with all the imaginings of a great, a tragic and a historic past.
 Gentlemen of the hunting fraternity were to be seen everywhere. All were dressed immaculately for the occasion. Stewards strutted the course, rosettes fluttered in the breeze, signals, which were beyond the intellectuality of the ordinary, were given. The whole affair was one condensed atmosphere of horsemanship.
 Ladies at the close of the season came to grace the occasion. Uncompromisingly dressed with their tight-fitting hunting costumes. They admirably filled in the only part of the picture which required a finishing touch. The neat-fitting bowler was in evidence. The hunting crop was held with perfect equipoise, and of course the immaculate white gloves carried nonchalantly in the true fashion of all lovers of the chase. There were the bookies, the butts, the tipsters, the faithful clientele of every race meeting, and with the faintest knowledge of horsemanship one had not the slightest difficulty in spotting a dark outsider or getting a dead snip at a long shot.
 The hospitality of the refreshment

Englishman's Lapse.

At Youghal District Court on Friday, before Mr. G. P. Farrell, B.L., Lee, P.C., Palk of several London addresses, member of a distinguished English family, was brought up in custody on remand charged with that on 13th, 17th and 19th of December, 1930, at Youghal, he did unlawfully and by false pretences obtain the sum of £6 from one David Linehan and £8 from one Thos. Murphy by falsely stating that the sums of money were in favour of or on behalf of one Simon Kernon, Captain of the "C. S. William Ashbourne."

Supt. Dennehy, Midleton, prosecuted. The accused was not legally represented.
 The Superintendent said that the accused had obtained two sums of money (£8 and £6) from traders in Youghal by falsely representing that it was for the master of a vessel discharging a cargo there. He left Youghal on the 19th December and was located in London on the 10th inst.

The Justice said there were two telegrams received in connection with the case—one from a firm of London solicitors and the other from a firm of bankers and a letter was expected. He would take some evidence and remand the case for a week to see if the money promised was forthcoming.
 Simon Kearnon, captain of the motor vessel "William Ashbourne," deposed that some days prior to 17th December the vessel arrived at Youghal with a cargo of coal for Messrs. Murray and Sons. He knew the accused, who was cook on board since last July. He joined the vessel at Cardiff. He was satisfactory while on the ship. While the vessel was discharging at Youghal in December witness went home to Dublin and returned to Youghal on the evening of the 19th December, being away about a week. He went aboard about 5.30 that evening. The accused was there and got witness tea ready. He wanted to know if they would be sailing next day and witness said they would, weather permitting. Accused went ashore about 6.30 and witness didn't see him after that. He was missing next morning, the 20th. Witness went ashore paying bills to the butcher, Mr. Linehan, and the grocer, Mr. Murphy, for goods supplied to the ship. Mr. Murphy made in addition to his bill which was paid, a demand for £8, money that the cook had got from him during witness's absence on notes purporting to be signed by him (the witness) (notes handed in). The note produced to him by Mr. Murphy read: "Mr. Murphy, will you please give bearer £5. I will be over in the morning to settle up.—S. Kearnon." Witness didn't authorise defendant to carry on that transaction. Mr. Murphy also produced a further note dated December 17th, 1930, purporting to be signed by L. Palk, being a receipt for £3, and claimed the amount. Witness told Mr. Murphy he had no business giving any money to any of the crew unless he authorised it. Witness didn't authorise the defendant, Palk, to get the £3 or £5 from Mr. Murphy. Witness next went to Mr. Linehan's, and in addition to other bills Mr. Linehan made a demand for £6. Mr. Linehan handed him docket produced, which read: "Mr. Linehan, will you kindly oblige me by giving bearer £5? I will be over to settle up in the morning.—S. Kearnon." Witness didn't write that note nor authorise Palk nor anybody else to write it. Mr. Linehan also gave him another note. Witness was familiar with accused's handwriting, and the note was in his handwriting. The signature to receipt to Mr. Murphy for £3 was also in defendant's handwriting. There was also a further note to Mr. Linehan asking for £1 for the crew in the absence of witness.

To the Court—The defendant by leaving the ship in the way he did was a deserter. Under his contract he should have given 24 hours' notice before the ship was discharged. The ship had been discharged and ready for sea and accused was therefore bound to go to sea to the next port (Cardiff) before he could give notice. Accused was a couple of shillings in witness's debt when he left.

The Justice said he was prepared to try the case summarily in consequence of a communication received from the London solicitors. He would hand the letter to the Superintendent to deal with.
 The accused was then remanded in custody for a week pending developments.

Youghal District Court.

Before Mr. G. P. Farrell, B.L.
 Beecher v. Morrison.
 This was a civil bill for £8 10s. by J. M. Beecher, Tallow, against Michl. Morrison, Ballycoleman, for injury to plaintiff's motor car by defendant's negligent driving of his pony and cart.
 Mr. W. J. O'Mara, solr., Cork, for plaintiff, and Mr. J. L. Keane, solr., for defendant.

J. Beecher, junr., said that on Sunday, January 29th last, he was driving his father's Ford motor car home to Tallow. Approaching a bend in the road on their own side they met defendant's pony and cart coming against them on the wrong side, and defendant hadn't the reins in his hands at the time. They collided, witness going up on a heap of stones to try and get clear. The repairs to their car cost £8 10s.

Cross-examined by Mr. Keane, witness said the Insurance Co. had paid them.
 Mr. O'Mara—The Insurance Co. has nothing to do with this case.
 Mr. Keane—He is paid, and I respectfully submit that if anybody brings the case it must be the Insurance Co.
 The Justice could not agree with Mr. Keane. He would reserve the point.
 Mr. O'Mara—This procedure is taken every day.
 Witness was cross-examined at length by Mr. Keane. He didn't see the cart till within a yard or so owing to the bend and a high ditch.
 Guard O'Leary, Tallow, said the road was 24 ft. wide at the scene, 4 ft. was taken up by a heap of stones. The mark of Morrison's car was 3 1/2 ft. from the stones on his wrong side. He saw where the wheel of the motor dragged the butt out on the road.

To the Court—There was a very high fence on one side and a low one on the other. There was a small drop in the road towards Tallow.
 Cross-examined by Mr. Keane—They would be three or four yards apart when they sighted one another.
 Mr. J. M. O'Brien, Tallow, gave evidence as to the repairs and cost of same.
 The plaintiff said he had O'Brien for the repairs.
 Cross-examined by Mr. Keane, witness said the Insurance Co. paid him, but not altogether.
 Mr. O'Mara—I don't think this point arises.
 Justice—I don't see how it is relevant.
 Mr. Keane said he was making the point.
 After some arguments the court ruled against Mr. Keane.
 Mr. Keane said his case was that neither party was liable, their being contributory negligence on both sides, and consequently the plaintiff was not entitled to succeed.
 The defendant said he was on his way home from Mass on the day in question. Approaching the bend it began to rain, and he put his hand behind, took his coat and was putting it on his shoulders when the motor came round the bend at great speed and crashed into him knocking his butt off the axle.
 After a very protracted hearing the Justice said that the evidence showed that Morrison had been on the wrong side of the road, and not having the reins in his hand, had no control over his animal. If the Beechers were going at the speed suggested there would have been much greater damage done.
 A decree for the amount claimed was given with 22s. 6d. expenses.

Licensing Case.
 Mrs. Joyce, vintner, was charged with a breach of the Licensing Act on Sunday, June 1st.
 Supt. Dennehy prosecuted and Mr. Keane defended.

Sergt. Lupton said he entered the premises at 5.55 on the evening in question and found a man belonging to the vicinity at the door leading into the bar. He said he had come in for a pint and the publican's son admitted he had let him in.
 To Mr. Keane—It is a very well-conducted house.
 Mr. Keane said he would plead guilty on his client's behalf. She had been 50 years in business and was very much distressed that she should have been brought up before the court after such a long period.
 Having detailed the circumstances under which the man was admitted, The publican was fined 10s., not to be recorded, and the man found on the premises 5s.

POPULAR REDEMPTORIST'S BEREAVEMENT.
 DEATH OF MRS. B. CLEARY, CARRICK-ON-SUIR.
 The death occurred recently of Mrs. Bridget Cleary, Bridge street, Carrick-on-Suir. Deceased was the widow of the late Mr. Thos. Cleary, general merchant, Carrick-on-Suir, and mother of Rev. A. F. Cleary, C.S.S.R., Mr. R. Cleary, Chairman Carrick-on-Suir Urban Council; Dr. John Cleary, London; Mr. Michael Cleary, Indian Police Force; Mrs. N. Parle, William street, Waterford; Mrs. Walsh, Carrigrairie, Waterford, and Mrs. Cheasty, Ballybrack. During her last hours deceased had the consolation of the spiritual ministrations of her son, Rev. A. F. Cleary, and her nephew, Rev. Fr. Nolan, C.M., Dublin. The late Mrs. Cleary was a sister of the late Dr. P. J. Whitty, Waterford, and an aunt of Mrs. A. F. Quirk, Carrick-on-Suir. She was a much-esteemed and respected lady. Her remains were removed to St. Nicholas's Church, Carrick-on-Suir and were accompanied by a large and representative cortege. The internment took place at the Friary, Carrickbeg, after Office and High Mass.

tent was sought belimes. One does not count the cost on a day such as this. The occasion is a great one and all feel that they are compelled to achieve greatness, if greatness is not cast upon them.
 The one way system of traffic, now so common a feature in Tallow, helped to relieve the congestion. A rather wide spacious avenue leading to one of our main thoroughfares was available for the return journey. And were it otherwise one has every confidence in the skill of the local chauffeurs to avoid the pitfalls where the less initiated may easily come to grief.
 We are all perfectly satisfied that the Tallow Point-to-Point of '31 has been an unprecedented success. The committee, the promoters, the West Waterford Hunt, the townfolk who subscribed, and those who gave the venue their blessing only, all deserve a deep debt of gratitude. The event in its every department anticipated our most sanguine hopes. It was truly not only a fitting link with the Baron's past, but also an index to Tallow's greatness in racing circles in the not far-distant future.
 T. C.

COUNTY CHAMPIONSHIPS, 1931.

The Draw for this year's Hurling and Football Championships will take place at the Meeting of West Waterford Divisional Board to be held in the Town Hall, Dungarvan, on Sunday, March 1st, 1931, at 3 o'clock.

Entries will be received for the following Competitions:—Senior Hurling, Senior Football, Junior Hurling (two Grades), Junior Football (two Grades), Minor Hurling, Minor Football.

Teams desiring to affiliate and enter for Championships should communicate with Secretary or attend Meeting. No entries taken after date of Draw.

P. O'FAOLAIN, Runsidhe.

Dungarvan Urban Council.

The weekly meeting of the above was held on Friday last. Mr. J. Butler, chairman, presided. Also present were—Messrs. M. Clancy, Jas. Hackett, Jas. McEvoy, M. J. Keane, Moe. Griffin, D. Foley and T. McCarthy.

Expenditure. The pay sheet for the week, which was passed, amounted to £10 15s. 10d. Mr. Keane asked the Borough Surveyor what the men were employed at during the week?

Borough Surveyor—Putting out stones, cleaning up after the fair, cleaning the sewer at the Brewery, etc.

Mr. Clancy referred to the putting out of the stones, and said it was ridiculous to be putting out such large stones as were put in Patrick street, as they won't go down. He also complained that nothing was done to the road at Miss Kiely's.

Mr. Hackett—The state of the quay is deplorable at the present time.

Borough Surveyor—Costin got definite orders to attend to the quay, particularly before boats came in.

Mr. Hackett—There was an order made to send two men on the quay every Monday morning, and he would propose that that order be carried out.

Mr. Clancy—I know the Borough Surveyor was busy attending to the building of the houses, but there are lanes in the town that should get more consideration.

Chairman—The Borough Surveyor should get these things done without bringing them before the meeting.

Mr. Keane—What were the men doing to the Hermitage road—is that road very bad?

Borough Surveyor—It is not good. The men were levelling off there.

Mr. Keane—There are any amount of complaints regarding that road. What do the council intend to do there?

Chairman—Get it repaired.

Mr. Keane suggested ploughing the grass margin.

Mr. Griffin—Steps should be taken to widen that road at the entrance from Sarsfield street. It is only eight feet wide and that is not allowable in an urban area. That was suggested when the Sheares street scheme of houses was being built.

Borough Surveyor—I never heard of it.

Mr. Griffin—The matter was discussed, and if the Clerk look up the minutes you will find that it was.

Chairman—The Clerk can look into the matter.

Mr. Clancy—I would ask that no more large stones be put out on the roads.

Water Shortage.

A letter complaining of the inadequate water supply to their premises was read from Mrs. Nugent, Mr. J. Giong, Michl. Moloney, Mrs. N. Draper and Mrs. Mary Shanahan, of Scarnacrine.

The letter was referred to the Borough Surveyor to inspect the supply.

Mr. Norris, Old Hospital road, Abbeyside, also wrote complaining of shortage of water.

The Badminton Club were granted the Hall on Thursday for a tournament.

Tree Planting.

The S. S. O. reported that 300 trees were planted at Cooney's Lough and Abbeyside. The sewer causing a nuisance at the Look-Out was due to broken pipes caused by car traffic, and recommended new pipes be laid on.

Mr. Keane—We should get this work done; it is only a matter of 15s.

Chairman—Is it a public sewer?

S. S. O.—In my opinion it is.

Mr. Clancy—In view of that I propose we get it done.

The proposition was passed.

A letter from Miss Devereux complaining of the condition of the roof of her house was read.

The Borough Surveyor was ordered to have the necessary repairs carried out.

Drainage.

The Chairman drew attention to a complaint from the Misses Scanlon, Mary street, regarding drainage.

The matter was referred to the Borough Surveyor.

Relief Schemes.

A letter was read from the Department requesting the council to forward specifications for the O'Connell street and Youghal road sewers. The letter approved of the laying of a 9-inch sewer at Sarsfield street, Abbeyside, and requested the council to also forward specification for this scheme.

With regard to the sewer at Church street, the Minister will raise no objection to the laying of reinforced concrete flags at the estimated cost of £58 2s. 6d., but a specification of the work should be submitted as soon as possible. A further communication will be addressed to the council as regards the contribution from Relief Funds towards the cost of the works.

The grant to be applicable only to the financial year ending 31st prox., and it is important therefore that the work should be started early in March. Competitive tenders may be invited for the Abbeyside sewer, as it will be a condition of the grant that the works be carried out under contract.

Further particulars should be given as regards the laying of the new water main at Sarsfield street and New Lane. Specification of these works should be submitted.

Borough Surveyor—I have all these plans and specifications ready.

After a discussion the council decided to send the Borough Surveyor to Dublin with plans, etc., so as to hurry up the scheme.

Use of Hall.

The Brass and Reed Band Committee were granted the use of the Hall on the usual conditions for 17th March.

DEATH. WALSH—February 19th, 1931, Mrs. K. M. Walsh, Ballylemon Lodge, Cappagh, Co. Waterford, wife of the late Dr. J. J. Walsh, Suirville, Newcastle, Co. Tipperary. R.I.P.

ACKNOWLEDGMENT. The family of the late Mr. James Lynch, Ballylemon, beg to return grateful thanks to all who sympathised with them in their recent sad bereavement.

LOCAL HAPPENINGS.

NECESSARY WORKS TO BE DONE.—£360 GRANT.

A special meeting of the Dungarvan Urban Council was held on Tuesday evening to consider a letter from the L.G.B. re the carrying out of important sewerage works. The Minister stated the plans in respect of sewerage works at Rice's street and O'Connell street were approved, as also that for the Church street sewer, and he has authorised an allocation from the relief fund of £360 in respect of the works estimated to cost £1,243. He also approved of the laying of new water mains at Sarsfield street, Abbeyside, at a cost of £33 and at New Line at a cost of £38. All men employed at the work to be engaged through the local Employment Exchange. The council agreed to invite tenders for the works, to be considered on Friday, March 6th.

DUNGARVAN MARKETS.

Meal (special), 15s. 6d.; middiecut, 15s.; flour, 15s.; bran, 10s.; pollard, 8s. 6d.; butter, 1s. 8d. per lb.; coal, 12d.; eggs, 9d. per dozen.

BIG ENTRIES FOR WATERFORD BULL SHOW.

The entries for Waterford Show and Sale of Bulls to be held on March 25th are bigger than ever and total almost 200. Of course the great majority are of the pedigree and non-pedigree dairy Shorthorn type for which the county has become famous, while in addition there are a big selection of pure-bred Shorthorn bulls as well as 45 Aberdeen Angus and 7 Hereford bulls. Experts tell us that the quality this year is up to a very high standard and that competition will be very keen. All on the look out for good bulls of the dual-purpose type would do well to attend the Waterford Sale on March 25th, when their requirements can be satisfied in a thorough manner. At this Show and Sale Bulls will be judged for premiums by the Department's Inspectors.

DUNGARVAN SHOW.

To the Ladies—At the forthcoming Show in July the following classes will be included in the Prize List, the prizes for same being generously given by Mrs. Usher, Cappagh House. The classes are (1) Best Hand-made Shirt, (2) Hand-made Padded Quilt (a little machining allowed), (3) Hand-knitted Gloves, (4) Raffle, Leather or other Art Handwork exclusive of wool or needlework, (5) Men's Vamped Socks, (6) Handknitted Woolen Scarf, (7) For School Children under 14 years (not open to convents), Cheaply Dressed Cheap Doll (clothes to come off end on), Conditions—No single competitor may enter more than one article in one and the same section, and anything that has already been entered for competition may not be entered again.

GARRANBANE SCHOOL DRAW.

The draw in aid of the Garranbane National School Fund will be held on March 10th. All persons holding tickets and remittances are requested to forward same at once to Very Rev. M. C. Crotty, P.P., Abbeyside.

"COW DOCTORS TO GO."

According to the terms of the new Veterinary Bill introduced into the Dail, all "Cow Doctors" and handy-men have got to go. Unless the Bill is amended it will be an offence for a farmer to physic a cow or attend to any ailments of his cattle. He must send for a Vet. or go to jail or be fined. Just fancy a beast getting a turnip in its throat and in danger of choking. If the local skilled man is got to do the trick and save the beast he commits an offence. In fact any treatment of cattle becomes an offence if practised by the skilled Cow Doctors of which our country was always so proud. In Spain long ago etiquette was very strict, and on one occasion the dress of the King's daughter went on fire accidentally, yet because the lady-in-waiting to the Princess was not present, none of the other ladies dare approach the Princess, whose clothes were in flames. The result was the Princess was burned to death while they were looking for her lady-in-waiting. Let us hope our T.D.'s will carefully consider the Veterinary Bill and not have our cattle perish while skillful men are locally available to attend to their wants. Further, in serious cases the veterinary surgeon is always called in, so that we fear it will be a bit of a job to kill the Cow Doctor legally.

DR. HARTY CUP.

At the Gaelic Field, Dungarvan, on Thursday, Dungarvan C.B.S. hurling team beat Lismore C.B.S. after a strenuous game by 3 goals 1 point to 3 goals.

"STRAWBOYS" UNMASKED.

In a paragraph under the above heading in last week's issue the words "wedding festivities in Mellery and District" should have read "in Mellery district." Mellery had no relation whatever with the festivities in question, and we regret the typographical error.

A PROFITABLE VISIT.

On Saturday last Mr. John McGrath, the capable Boro' Surveyor of Dungarvan, went and interviewed the Minister of Local Government in Dublin on the question of the proposed sewerage and waterworks scheme projected by the Urban Council. Having explained the plans, maps, etc., of the proposed works, the Ministry approved the schemes put forward, and gave a grant of £360. Mr. McGrath's action was most commendable.

CORK SHOW.

At the Cork Bull Show on Wednesday, Mount Mellerey won premier honours in the Dairy Shorthorn Class and the President's Prize. Mr. Ellis, Lismore, was awarded 1st prize for his dairy Shorthorn, Lismore Ace. Mr. T. O'Sullivan, Cloughduv, the well-known cattle judge and breeder, secured several prizes in Dairy Shorthorn Classes.

THE TALKIES.

All who have heard the Talkies at the Dungarvan Cinema are loud in their appreciation of them and the excellent pictures Mr. Croity is providing for the public. Elsewhere will be found full details of next week's capital programme, and no one should miss these delightful screen productions.

PRESENTATION TO INSTRUCTOR.

At the conclusion of the Winter Agricultural Class at Rathgormack last week, which was conducted by Mr. C. Cogan, Agricultural Instructor for the County Waterford, with conspicuous ability, the 35 students who attended the course availed of the occasion to make a presentation to Mr. Cogan, consisting of a dressing case, motoring gloves and travelling rug. In making the presentation on behalf of the class, Mr. G. J. Greene, Co. C., referred to the appreciation of the students, and said all who enrolled at the start attended throughout the session, and paid a high tribute to the efficiency and work of the Instructor, Mr. Cogan, in reply, thanked the class for their presentation and Mr. Greene for his kind personal remarks.

MOLONEY'S GREAT SALE.

This has been a season of falling prices, and the Sale offers described in our advt. represent reductions made on the new price levels. Never before have such supreme values been obtainable at such low prices. Don't miss them.—Moloney Stores, Dungarvan.

REDUCTIONS.

Reductions all round after Stocktaking at Fraher's, Dungarvan.

VENTILATING A GRIEVANCE.

The members of Dungarvan Postal Workers' Union have passed the following resolution:—"That this meeting of the Dungarvan Branch of the Post Office Workers' Union kindly requests the Deputies for the Waterford constituency to support the motion to be moved in the Dail asking for an investigation of the hardships caused by the present method of applying the cost of living bonus to the basic wages and salaries of the lower-paid grades of Civil Servants."

Kilmacthomas News.

RECENT DEATHS.

Fortified by the rites of his Church, Mr. John O'Brien, farmer, Munsboro', Clonea-Power, passed away into his eternal reward on the 17th inst., at the grand old age of 92 years. A warm-hearted, generous neighbour and a sound Irishman in the fullest sense of the phrase, deceased had deservedly gained the grach and goodwill of one and all of the many intimately acquainted with him. He was father of Messrs. Jeremiah, Maurice, Patrick, William, Thomas and Robert O'Brien, and of Mrs. Pat Hayes, Grenan, Kilmacthomas; Mrs. John Kirwan (Customs and Excise Official), Liverpool, and Mrs. James Dunphy (licensed vintner), Newtown, Kilmacthomas, with all of whom the deepest sympathy is felt in their bereavement. The funeral to Clonea Church on Wednesday evening week was extremely large and representative. Next morning after the celebration of Office and High Mass of Requiem for his soul, the interment took place in the adjoining cemetery in the presence of innumerable relatives and friends. R.I.P.

News of the death on the 23rd inst. of a most respected Kilmacthomas parishioner in the person of Mr. Patk. Higgins, of Crough, was received on all sides with sorrow and a sense of shock. Great numbers attended the wake, funeral and burial. May he rest in peace.

A PRESSING NEED.

While the County Public Health Board is displaying great activity in divers ways, it is regrettable to find Kilmacthomas still unprovided with adequate sanitary arrangements. The only sanitary conveniences worthy of the name here are those few furnished by a small number of private citizens for their own use and erected at their own expense. Will our Health Authority be stimulated by the Government grant to take appreciable action in this all-important matter? The installing of a proper sewerage system into our district would verily commend our Health Board to us in aecula saeculorum. Burn Moloney's Coal unless you have money to burn.

NOTICE.

LISMORE, COUNTY WATERFORD.

AUCTION OF EXCEPTIONALLY DESIRABLE RESIDENCE WITH EXTENSIVE GARDEN AND YARD HELD FREE OF RENT FOR EVER.

DAVID NOONAN has been instructed by the Owners TO SELL BY PUBLIC AUCTION, ON THE PREMISES, ON TUESDAY, MARCH 3rd, 1931. At the Hour of 1 p.m.

The above Valuable Freehold Property lately in the occupation of C. L. Galloway, Esq., Deceased. P.L.V. £21. This fine detached Residence is a large and compact two-storied Building in perfect repair, and contains on the Ground Floor—Spacious Hall, Drawing-room, Dining-room, Kitchen, Pantry, Scullery, Dairy and a Servant's Room.

On the Top Floor are five Bedrooms, w.c. and a Bathroom with Hot Press. Electric Light throughout. The Garden (about 44 acres) at the rear of the Residence, is tastefully laid out in Flower and Vegetable Plots, besides being well stocked with a fine selection of young Fruit Trees (apple, pear and plum). Two Greenhouses, Summer House and a Potting House combine to make it an ideal Garden.

The Yard, which contains a Coach-house, and other Out-offices, is conveniently situated between the Garden and the Residence. Subscribers would direct special attention to this Attractive Sale, as the opportunity of acquiring such a splendid Freehold Property in excellent repair and with all modern conveniences very seldom occurs.

The Sale of the Household Furniture and Effects will take place as soon as possible after the Sale of the Property. The date and particulars of this Sale will be advertised in due course.

All Outgoings will be discharged up to the date of the Auction. For further particulars and Conditions of Sale apply to Messrs. MacCarthy, HANRAHAN AND MOLONEY, Solicitors, 70, South Mall, Cork (having Carriage of Sale); or DAVID NOONAN, M.I.A.A., Auctioneer and Valuer, Lismore.

HAY FOR SALE—About 10 Tons of Prime Upland Hay. To be sold in one Lot or smaller Lots to suit purchasers.—James Brennock, Victualler, Cappoquin.

Waterford County Committee of Agriculture

TARIFF ON BACON

Mr. Thomas Flynn, V.C., presided. Also present—Messrs. John Greene and P. B. Sheridan.

The Department wrote approving of persons to hold horticultural plots under the 1931 scheme.

The Department also forwarded a summary of a report from their Horticultural Inspector in connection with the Shelter Belt Scheme in Ballymacarby area.

In reply to the Chairman, Mr. O'Shea said they would have about 55 persons under the scheme.

Chairman—That is very good.

Revising Schemes.

The Department wrote asking the committee if they had any suggestions or modifications to make in connection with the coming year's schemes, and asking for the decision of the committee on the matter as early as possible.

The matter was referred to the Chairman, Vice-Chairman and Mr. Sheridan to consider and report at an early date.

Money for Poultry, Shelter Belts and Grass Land.

The Department wrote the special relief vote of £300,000, and stated that the Ministry of Agriculture with a view to the development of certain aspects of agriculture, had agreed to give sums for Poultry Industry, Grass Land and Shelter Belt Schemes.

In the Poultry Section grants of £5 will be given to 10 applicants for incubator appliances. Stationholders not to be deferred. For chicken houses grants of £2 each will be given to 30 applicants in the county. Stationholders not to be deferred. Also £5 for each of ten selected applicants for poultry houses.

Re distribution of eggs, 6d. will be given for each sitting between 70 and 100 and 1s. between 100 and 120 sittings. To qualify for the subsidy, 35 sittings must be sold before 31st March.

For grass land plots, for 50 plots of 2 acres each dressed with the prescribed mixture, a grant will be made. £60 was granted for Shelter Belt Schemes, the trees to be supplied to selected applicants at one-third of the cost. The total amount of the relief vote of £300,000 ear-marked for agricultural development in the County Waterford was £282 10s.

Mr. Sheridan—There is a complaint amongst the people that stationholders cannot supply sittings of eggs as fast as they are required. They complain that the stationholders are filling the incubators themselves.

Secretary—In the olden days 35 sittings would not be sold in April, and to-day there are stationholders in the county who have sold 70 sittings.

Mr. Sheridan—There is an increased demand. Why do the stationholders supply their own needs first?

Mr. Greene—The supply is not equal to the demand.

Mr. Sheridan—The general feeling is that the stationholders have incubators of their own and won't supply outsiders.

Secretary—I will inquire into that. They can supply their own needs first. Under that new relief vote it means 35s. extra for stationholders, and in this county every one of them are qualified for that grant. A few years ago none of them would be qualified.

Chairman—Would not it be better for us to increase the number of stationholders?

Secretary—We have increased them from 18 to 30.

Mr. Sheridan—All the poultry-keepers are inclined to rear out early fowl. The people are rushing for sittings and they cannot be supplied. They have to wait three or four weeks before they get them. I am informed all the stationholders have incubators and are filling them first and leaving the outsiders wait, and that is not fair.

Chairman—It is not fair considering they are getting a subsidy.

Mr. Sheridan—It is very hard to get sittings of eggs at present.

Mr. Greene—What about the Giant Jerseys I read about lately?

Secretary—Mrs. Drohan is getting from outside counties up to 21s. a sitting, but we would not allow her to supply them until the needs of our county are supplied.

Mr. Sheridan—Can the stationholders supply their own needs first?

Chairman—Yes.

Mr. Sheridan—That settles it.

Chairman—I would like to increase the number of stationholders as there are not enough of them.

Mr. Greene—Oats is very cheap and Indian meal too, and it is a very favourable year for poultry. There is nothing on the farm to make more money than eggs.

Mr. Sheridan—Sittings cannot be got at present.

The Secretary read a letter from Miss Mullins recommending that the price of sittings of eggs be reduced by 6d. in view of the low price paid for eggs commercially.

Mr. Sheridan—That was a great grievance.

It was decided to reduce the eggs to 2s. a dozen.

Mr. Greene—I am sorry Miss Mullins is not here. I would submit her to cross-examination. Why not have a number of hens in every flock liable to clobber very often?

Premiums to Bulls.

The following applications for premium bulls were granted—Mrs. Kelly, Ballyshonock, Kilmacthomas, Mrs.

Connors, Garryhish, Andrew Walsh, Cush, Orange, Richard Keating, Kilmacree, Kilmacthomas (hereford).

The Secretary said they would have £125 left over from the special grant.

Mr. Sheridan—That is a shame.

The Secretary said they had a waiting list for premiums in Cork and Wexford, and if they did not use their money in the Co. Waterford it would go to Cork or Wexford.

The Committee ordered that the Secretary be empowered to grant premiums to any applicant prior to the next meeting.

Mr. P. Walsh, Moord, Kinsalebeg, was granted a premium doar.

Chairman—He must be told that if he does not mind him he won't get another.

Subsidies to Shows.

On the motion of Mr. Sheridan, seconded by Mr. Greene, the £50 allocated as subsidies to Shows by Committee was granted to the Dungarvan Agricultural Show.

Proposed Tariff on Bacon.

In connection with the proposed tariff on bacon, the following memorandum signed by J. C. Landy, Manager Waterford Co-operative Meat, Ltd., M. Matthews, Manager Wexford Meat, Co., and P. J. Ganly, Manager Roscrea Bacon Factory, Ltd., was read—

The Boards of Directors of the Co-operative Bacon Factories, of which the undersigned are managers, have passed resolutions in favour of a protective tariff on bacon. They represent a large body of shareholders and pig producers, and desire that these and the people in general should know their reasons for demanding this tariff, so that public opinion may be secured in support of their demand.

With this object in view, we, the undersigned, who as Bacon Factory Managers are intimately in touch with the situation, have been asked to prepare a short statement setting forth the conditions with which the industry is faced. In what follows we have endeavoured to do this without exaggeration, and in as condensed a manner as possible.

Our Boards and ourselves are fully convinced that at no time in their history were the pig and bacon industries of Ireland faced with such grave danger as at the present, and that unless something is done, and done quickly, to enable them to weather this storm, both are faced with extinction. Our export market is being rapidly wrested from us. The home trade is now disappearing fast, and unless we are granted protection to enable us to pull through until better times, another of our famous industries is bound to disappear.

In pre-war days the principal foreign bacon in these markets was American, but this being of an inferior quality, and as a rule very heavily salted, did not enter into competition with the high-class home-cured bacon. Of late years a much more serious competitor has appeared in the well-selected and mild-cured bacon from the Continent, which has been arriving in steadily increasing quantities since the war.

During the last two seasons, the pig herds on the Continent have multiplied enormously, so that the killings have more than doubled what they normally were a few years ago. Denmark alone had last August one and a half millions of pigs more than the year before, and with the enormous increase of in-pig sows (54,000) over the previous year, their pig herds, even in spite of their 130,000 to 140,000 weekly killings, must be larger still to-day. All the other Continental countries have increased proportionally, and one of these—a newcomer in the export field—is subsidising its bacon exports to the extent of 40s. per cwt., provided the subsidy is used for the purchase of pedigree seed wheat and other seeds.

As a result of the increase in pig population and weekly killings, enormous quantities of cheap bacon are being dumped on the markets at a price ranging from 12s. to 25s. per cwt. less than the Irish factories have been paying for their pigs on the dead-weight system, or the equivalent of from 30s. to 40s. per cwt. less than Irish bacon is now costing. Until very lately this competition was not keenly felt in Ireland, but recently our travellers complain that this foreign bacon is being introduced everywhere; that they cannot get orders in competition, and the factories with their cellars full of high-priced bacon, cannot without certain ruin attempt to meet the prices at which this bacon is being sold. To do so would mean a very serious fall in the price of pigs, and we are convinced that any substantial drop in pig prices below the present level would seriously curtail production, which in turn would mean half idle factories, the establishing of the foreign stuff firmly in our markets, and the ultimate ruin of the pig and bacon industry in Ireland.

Worse still, this foreign bacon in selection, cut, cure and appearance is so like the home bacon that unscrupulous traders are taking advantage of this fact and palming it off as Irish to the detriment of the latter, and at the expense of the public. We are, therefore, faced with the problem of either shutting it out or reducing the price of pigs to a figure that will allow us to compete. At present prices for foreign bacon these prices for pigs would have to be not more than 50s. per cwt. dead weight, or about 30s. to 37s. per cwt. live weight, delivered at the factories, and it may come lower still. We know only too well that the Irish farmers will not produce bacon pigs at these prices, so if the industry is to be saved there is only one remedy—shut out the foreign stuff and do away with this unfair competition.

It has been decided, therefore, to ask for a stiff prohibitive tariff on all

foreign mild-cured baled bacon, and a much smaller import on hard-cured boxed bacon, packed in salt and in the usual American style cuts. We do not see any reason why the imposition of the tariff asked for should cause any increase over present bacon prices.

Any shortage in the initial period will be met by present stocks in the factories, and by the heavy dumping which will follow the application for a tariff. In a few months time the Irish farmer, once he is assured of a stable market and is protected from the "Jumping Jack" tactics which have always been the bane of the bacon industry, will produce enough pigs to keep the market fully supplied, and prices should not exceed those ruling at present. In fact, even if present prices for pigs were maintained, bacon might come down in price, as increased production would mean a drop in overhead expenses, and factory costs would be less.

If, as a result of this tariff, say, one million pounds sterling of the one and three-quarter millions which have been going out of the country for foreign bacon were kept at home and distributed amongst the pig producers, it would mean ready money and prosperity in the country districts and in the towns, and our bacon industry would be saved from the extinction which now threatens it.

Mr. Greene—There is a lot of common-sense in that letter. How is it that in Denmark they kill 40 pigs to every one we kill? I don't know how they do it. They have a cold country and they cannot produce cabbage, mangolds or turnips, and so they have to buy more feeding stuffs than we do.

Mr. Sheridan—Producing bacon at 60s. per cwt. at present cannot be done. I propose the following resolution:—"That in view of the threatened extinction of the bacon industry by foreign subsidised bacon, we call on the Government to put a tariff on bacon sufficient to save the home industry from this unfair competition."

Mr. Greene seconded and said the bacon trade was one of their chief industries.

Chairman—It is going to go if something is not done. We cannot compete with it.

The resolution was passed unanimously.

West Waterford Hunt.

The following is the second part of the interesting Hunt Concert held in Cappoquin recently, which was unavoidably held over last week—

The second part of the programme opened with a musical selection by the Ubique Orchestra, the other items being as follows:—Mr. E. Phelan, "A Soldier's Song" and encore, "A Chip of the Old Block"; Mr. J. Moynihan, recitation "To Pop or Not to Pop," and as an encore he recited "The North Pole," in which he impersonated a Yank in the most faithful and effective manner; comic song and stentorian by Mr. J. Barnes; Mr. J. Keohan sang "Pale Hands," and encore "Drink to Me Only"; song, "Coming Home," by Mrs. E. C. Penrose, which was very sweetly rendered; song, "Beneath Thy Window," by Mr. M. Murphy, for which he had to respond.

A one-act comedy, entitled "Tactics," was then produced by a caste of local comedians, the characters being—"James Cullinane" (Mr. P. Mason); "Bridget," his sister (Miss M. Lovett); "Mike McMahon," Army Pensioner (W. J. McCarthy); "Mrs. Mary Walsh," a widow (Miss May Walsh); "A Tramp Tailor" (Moss Whelan). The various parts were admirably filled by the artists concerned, and the entire comedy went with great smoothness, the final scene provoking loud applause from all parts of the Hall.

Mr. Ion Villiers-Stuart, Dromana, M.F.H., then came before the curtain and thanked the audience for having so generously supported the concert, for which the members of the Hunt felt deeply grateful. On behalf of the Hunt he wished to express his special thanks to Mr. M. J. Sargent for his great kindness in organising such a successful entertainment for them, and he also thanked all those who had assisted Mr. Sargent in making the event such a great success. Finally, he wished to thank the committee and members of the Rowing Club for having so kindly given the use of their fine Hall, and said that both he and the other members of the Hunt deeply appreciated the great assistance which they had always received from the members of the Rowing Club (loud applause).

The members of the West Waterford Hunt Troupe, including Mrs. E. C. Penrose, Mrs. Alexander, Miss Anson, Miss Godfrey, Miss Freda Keane, Miss Adelaide Keane, Miss Noreen Villiers-Stuart, Miss Dobbs and Messrs. Ion Villiers-Stuart, Capt. Alexander, E. C. Penrose, E. P. Maxwell, M. Villiers-Stuart and J. Barnes, then sang the rousing hunting song, "John Peel," accompanied by the Orchestra, which proved a most appropriate finale.

GALVANISED WIRE NETTING.

We have just completed a very big Contract for Galvanised Wire Netting, and we will be in a position to offer it considerably less than last season. This Netting is made by one of the best manufacturers in the United Kingdom and is bright, clear and strong. Prices range from 14d. per yard. Special prices for rolls of 50 yards. HARMER BROTHERS, 33 The Quay, Waterford.

February on the Farm.

An open winter with one or two spells of severe frost has put the land in a favourable state for early spring work. November was a rainy month, but since then the land has not suffered unduly from the wet, and as soon as opportunities arise the teams will be at work on the autumn furrows in preparation for spring oats and barley. It is then not a day too early to decide on the fertilisers that are to be used, not only on the corn land, but on the pastures also. First come is first served, and at this season there is always a rush of business, so the farmer is well advised to make up his mind now what fertilisers he needs.

One of the best investments the farmer can make to-day is to spend wisely on fertilisers. On the whole, fertilisers are cheaper than before the war, and the nitrogenous manures have recently been reduced in price again. The farmer who recognises that 1 cwt. of Sulphate of Ammonia will give an increase of 2.6 cwt. in the yield of wheat, oats or barley, can have no hesitation in investing in fertilisers, even to-day when corn prices are so low. Indeed, it is only the man who employs cheap manures and tractor machinery who can expect to grow corn at a profit this year.

Nitrogen, phosphate and potash are the three foods which the crop chiefly needs. The soil contains these foods, but there may be short measure of one or other, and this limits growth. Often the soil will be short of all three. Imperial Chemical Industries, Ltd., are now offering farmers the advantages of a range of fertilisers suitable for all crops grown under any conditions in this country. There are concentrated complete fertilisers supplying nitrogen, phosphate and potash; concentrated N.P. fertilisers supplying nitrogen and phosphate and sulphate of ammonia and nitro-chalk, supplying nitrogen.

These new concentrated fertilisers have special advantages, for they contain just double the quantity of plant food usually obtained in mixtures, and are made in dry, granular form. This makes for economy in handling and application to the land. Moreover, they are correctly balanced for the needs of each crop, and since each grain of the fertiliser contains a due proportion of the plant foods, none can be wasted through faulty distribution.

Of the nitrogenous manures, sulphate of ammonia contains 20.6 per cent. nitrogen in a form ideal for application at the rate of 1 cwt. per acre to all crops at sowing time, and for top-dressing autumn sown corn. Nitro-chalk contains 48 per cent. carbonate of lime in addition to 15.5 per cent. nitrogen, which makes this manure particularly suitable for soils that are on the acidic side. One to two cwt. per acre is the usual spring dressing.

In the new circumstances of farming, grassland takes on more importance. The farmer wants the maximum output of feed from his grassland at the minimum cost. If he can increase the grass yield by only 25 per cent.—and this has easily been done in many districts—and carry an increased head of stock, he is well on the way to financial success. The factor limiting the stock carrying capacity of many farms is the short grass season. It is here that fertilisers can help the stock farmer. With proper cultivation of grassland in conjunction with the use of fertilisers, good grass can be got in April, even in March in favoured districts, and kept growing well into October.

For early grass on land that is in good heart, all that is needed is 1.2 cwt. per acre of sulphate of ammonia in February or 1.2 cwt. nitro-chalk in March. On other land, which needs all-round manuring, the concentrated fertilisers have given excellent results.

The grass that results from such treatment is particularly high in feeding value; it can be compared with bean meal. Obviously such herbage saves the farmer's cake bill in the spring and enables him to carry more stock. The best recommendation for the practice is the fact that over 200,000 acres were dressed with this object last year. These farmers are well satisfied with the results of their enterprise.

SIGNING OF STATEMENTS MADE TO GUARDS.

INTERESTING COMMENTS BY DISTRICT JUSTICE McCABE.

In a case at Carrick-on-Suir District Court in which Andrew Kavanagh, a young agricultural labourer, was charged with the larceny of a bicycle, the property of Michael Norris, Supt. Kelly, Tramore, who prosecuted, said defendant made a statement to Sergt. Bane, Portlath, that the bicycle was left outside his house late at night by some unknown person, and that his sister rolled it into the house next day. When he was asked to sign the statement he refused to do so.

Justice McCabe—Why should he sign the statement if he did not want to do so?

Supt. Kelly—His refusal to sign it did not look much like the act of an innocent man.

Justice—He might be a very innocent man and refuse to sign or to make a statement. It is time it was known that there is no obligation on a person to make or sign a statement. We have that much liberty in this country.

The charge of stealing the bicycle was dismissed.

Moloney's Bread has made his way by the way it's made.

CAPPOQUIN NOTES.

THE LAST DANCE OF THE SEASON.

The annual Shrove-tide Cinderella Dance held by the Rowing Club in the Boathouse Hall on Monday week was largely attended, as it was realised by all that this was to be the last dance of the season in this popular Hall. Between 60 and 70 couples were present, which was a record for a Cinderella dance, and with bright and lively music by Mr. J. Scott-Allen and Mr. J. Bartles, Lismore, and a perfect dancing floor, a most enjoyable time was spent by all until the gay proceedings terminated at 2 o'clock.

As will be seen by advt. in another column, a Monster Whist Drive and Grand Drawing of Prizes will be held in the same hall in aid of the funds of the Rowing Club on St. Patrick's Night, and as the prizes for the Whist Drive, as well as the Draw, will be valuable, there should be an extremely large attendance.

SALE OF LICENSED PREMISES.

Mr. John O'Donoghue, publican, Main street, has retired from the licensing business and has purchased the bakery, grocery and general establishment belonging to Mrs. J. Barron at Ballinameela. Mrs. Barron has meanwhile purchased Mr. O'Donoghue's licensed premises in the Main street. It was in this house her late husband, Mr. John Barron, was born, but when only nine years of age his father was evicted from his old home mainly owing to his pronounced Nationalist principles and the active part which he had taken on the National side during the De La Poer Election in County Waterford in 1867. Mrs. Barro is mother of Mr. John J. Barron, baker, confectioner and grocer, who is also owner of Harrington's Hotel, Cook street, Cappoquin.

BILLIARDS.

What should prove a most interesting Billiards Tournament has now been started in the Rowing Club, this being the annual tournament for the championship of the Club. As the competitors must start level from scratch, only the six best players in the Club have entered, and the draw for the first round is:—L. D. Dunne v. Jas. P. Olden, T. F. Olden v. J. V. Conway, J. Regan v. M. J. Sargent.

DEPARTURE OF TEACHER.

Miss O. A. Ruttle, teacher in the Parochial (Protestant) School in Cappoquin for seven years, left recently to fill an important position as assistant teacher in Kildare Place Training College, Dublin. Miss Ruttle took out the degree of B.A. T.C.D. Ven. Archdeacon Burkill, M.A., manager of this school, regarded Miss Ruttle as being the ablest and most brilliant teacher who had ever worked under his management, and held her in the highest esteem. Miss Ruttle also held diplomas in Irish, and was a fluent and cultured Irish scholar, having qualified for the teaching of Irish in the Irish Colleges in Ring and Dingle. Her qualifications as a teacher were fully recognised by the pupils attending the Parochial School, as well as by their parents. She was a social favourite with everybody in Cappoquin, and a testimonial has been subscribed to by her many friends.

CAPPOQUIN ROWING CLUB.— CLOSE OF BILLIARDS HANDICAP.

The interesting Billiards Handicap which had been in progress in the Rowing Club for some time past has concluded. The handicap was for the Sargent Cup, presented to the Club by Mr. A. J. Sargent. Messrs. M. J. Sargent and T. F. Olden were the two players left in for the final this time, so that no matter which of them won the final game the cup was destined to become his absolute property by winning it for the third time. The game was 200 points up, but as both the contestants were 150 behind scratch, the actual score to be made by the winner was 350 points. Sargent took the lead at the start, but Olden responded and drew level with him at 65. Sargent then went ahead again, but was again caught up by his opponent at 95, when the scores were level for the second and last period of the game. So far play had been of a very even character, and when Sargent reached 105 with Olden at 95, there was still very little between them. Olden then forged ahead and reached 137, while Sargent remained at 105, and next Olden got to 153, thus wiping off his handicap of 150, with 3 points to the good. Sargent was then 157, but a fine break of 22 sent Olden further ahead, and he was soon 108 points clear up, while Sargent was still 40 points short of wiping off his handicap. When he at length had wiped off his handicap and was 10 points clear up for the first 100, Olden was then 124. Olden was declared the winner of the game on the score—Olden, 200; Sargent, 78. The cup and accompanying prize were then presented to Mr. Olden by Fr. Crotty amidst applause, while the prize for the runner-up was presented to Mr. Sargent. Fr. Crotty said Mr. Olden fully deserved his victory, for which he congratulated him.

ANNUAL MEETING OF ROWING CLUB.

The annual meeting of the Rowing Club will be held in the Boathouse on next Monday night, March 2nd, when we understand a very satisfactory balance sheet will be submitted showing the popular and old-established Club to be in a sound financial condition after the past year's working. The annual report to be read by the capable hon. sec. promises to be of unusual interest, and as the election of officers and committees for the ensuing year, and also several other items of

interest will figure on the agenda, we hope there will be a full muster of members present so as to give the Club a good send-off for the coming rowing season.

INTER-CLUB BILLIARDS.

A very interesting Billiards Tournament between teams described as Grade 2, representing the C.Y.M.S. and the Rowing Club, respectively, was brought off on last Sunday, the teams consisting of six players on each side. The C.Y.M.S. team included Messrs. Jas. Brady, Stanley Watson, Jas. Ahearne, G. Cahill, John Regan (junr.) and Michl. Ahearne, while Messrs. P. Driscoll, M. O'Shea, Jas. Ryall, J. Collins, R. Glasse and P. English formed the Rowing Club team. Both sides were so evenly matched that three games were won by each team, but the aggregate scores left the Rowing Club team winners of the tournament by 31 points. The individual games were won as follows: P. Driscoll (R.C.) bt. Jas. Brady (Y.M.S.), J. Ryall (R.C.) bt. Jas. Ahearne (Y.M.S.), R. Glasse (R.C.) bt. John Regan, junr. (Y.M.S.), S. Watson (Y.M.S.) beat M. O'Shea (R.C.), G. Cahill (Y.M.S.) bt. J. Collins (R.C.) and M. Ahearne (Y.M.S.) beat P. English (R.C.)

A return tournament will be played between the same teams on next Sunday. In the meantime a more important tournament has been arranged between senior teams of six side representing the C.Y.M.S. and the Rowing Club, the draw for which has resulted as follows:—Thos. F. Olden (R.C.) v. Thos. Walsh (Y.M.S.), J. Lennon (R.C.) v. Jas. P. Olden (Y.M.S.), J. McCarthy, B.A. (R.C.) v. J. E. Crowe (Y.M.S.), John Regan (R.C.) v. M. J. Sargent (Y.M.S.), Thos. McCarthy (R.C.) v. Michael Walsh (Y.M.S.), and James Crotty (R.C.) v. J. V. Conway (Y.M.S.)

The games in this tournament will be 250 points up (scratch), the result to be decided by the total scores obtained by each side. This contest will not be started, however, until the important scratch tournament for the championship of the Rowing Club, now in progress, has been concluded, so that we have a regular "glut" of billiard matches going on in Cappoquin at present.

MEMBER OF WELL-KNOWN WATERFORD FAMILY KILLED IN NEW ZEALAND EARTHQUAKE.

News has come to hand that among the victims of the earthquake at Hastings, New Zealand, was Mr. Arthur L. Ryan, journalist, Hastings, a son of the late Mr. R. Ryan, grocer and general merchant, Michael Street, Waterford. Deceased, who was aged about 58, was on the staff of the "Tribune," a leading New Zealand journal. He was a brilliant journalist and was held in the highest esteem in New Zealand. He and his wife spent a holiday in Ireland last year and had been back in Hastings only three months when he was killed in the "Tribune" Office, which was completely wrecked in the earthquake. His wife and children, who were in the residential part of Hastings that was not seriously affected, escaped injury. The late Mr. Ryan was a brother of Rev. Mother Augustine, Mercy Convent, Carrick on Suir, and Dr. Fred Ryan, Liverpool. During his holiday in Ireland last year he spent some time in Carrick with his wife, both of whom were delighted with their visit to Ireland. It was Mr. Ryan's first visit to Ireland since he went to New Zealand 41 years ago. His fellow-citizens will extend deep sympathy to his bereaved relatives in their great sorrow.

LISMORE NOTES.

THE PRESENTATION CONVENT.

Professor O'Sullivan, Minister for Education, with Mrs. and Miss O'Sullivan and Miss K. O'Sullivan (niece), availed of their presence in Lismore recently to pay a visit to the Presentation Convent, where the distinguished visitors were cordially received by the Rev. Mother Brendan and the other members of the community. They were hospitably entertained and spent a considerable time in the convent in the course of which Professor O'Sullivan evinced the greatest interest in the progress of the Presentation College, which is now one of the leading educational establishments in Munster. Mrs. O'Sullivan is a native of Lismore, being daughter of the late Mr. John Crotty, draper, Main street, and received her early education in the Presentation Convent School, and returns almost every year to visit her old friends at her Alma Mater.

POPULAR GUARD TRANSFERRED.

Guard O'Rourke, who had been stationed in Lismore for the past seven years, was transferred to Kilmeehan on Tuesday week, and has been replaced here by Guard Murphy, Kilmeehan. Guard O'Rourke was one of the second batch of Civic Guards sent to Lismore after the establishment of the Civic Guard Station eight years ago, and during his long connection with the town he had always proved himself a most efficient and courteous peace officer. A keen and enthusiastic Gael, he was a prominent player in the Lismore Hurling and Football Clubs, and his departure is now much regretted by all.

INTER-SCHOOLS HURLING.

A great hurling match between teams representing Lismore Christian Brothers' School and Dungarvan C.B.S. was played here on Sunday week under admirable weather conditions and was witnessed by a fairly large attendance, who fully enjoyed the first-class exhibition of clean, fast hurling given by both sides. The homesters proved too fast and scientific for the visitors, who put up a very plucky fight, but the latter lacked the scoring accuracy of their opponents, and a grand game resulted in a very meritorious victory for Lismore on the score of 4 goals 2 points (14 points) against 2 goals 2 points (8 pts.) for Dungarvan. The Lismore C.B.S. team some months ago also scored a signal victory against a very strong C.B.S. team from Middleton, and their present fine form in matters Gaelic is eloquent proof that the athletic training which they are receiving in the local Christian Brothers' School is only in keeping with the high standard of mental training for which this progressive educational institution has been famous for many years past. The game on Sunday week was ably refereed by Guard O'Rourke.

SALMON FISHING.

Although salmon fishing with rod and line has been rather poor on the Blackwater in this district since the opening of the season, one well-known angler, Mr. Jack Campion, New street, landed a fine specimen of a spring salmon recently, which weighed 25 lbs. This fish was killed on the stretch of the Blackwater near Flower Hill, Ballyduff, through the kind permission of Mr. T. Usher, Flower Hill, owner of the fishing rights there. Certain restrictions have been placed on salmon anglers in Lismore by the Lismore Castle authorities within recent years, as a result of which salmon fishing, under certain conditions is not now permitted within a radius of two miles of the Castle.

LISMORE POINT-TO-POINT RACES.

The above popular sporting event will be held on Wednesday, April 15th, over the picturesque Castle Farm Course, quite close to the town, through the kindness of the Lismore Estate Co. This annual event, which for many years past has proved the most fashionable and successful Point-to-Point meeting in the South, will lose none of its brilliancy or successful features this year, and in the hands of a strong and efficient committee of well-known local sportsmen all the arrangements will be as perfect and complete in every detail as they have always been in the past.

IN AID OF THE HUNT.

A great day's sport is promised on Saturday, March 21st, when a most attractive gymkhana will be held in aid of the funds of the West Waterford Hunt. Horse racing, tent pegging and many other interesting and novel features figure on the programme, so that this should prove a gala day for Lismore. Further particulars will appear later.

In order to be a successful angler it is necessary to pay attention to the selection of your Fishing Tackle. We have hundreds of Rods, Baskets, Reels, Trout Lines, Sea Lines, Hooks, Casts and Baits of every description in stock. We devote a special department to the care and selection of Trout Flies, which are all hand tied from carefully selected material. The cut is particularly fine-drawn and the wings are matched so as to be exactly the same as the real fly. Every hook is made from the finest steel and will stand the hardest strain. We have over 200 varieties in stock and every one is true to name. We sell them at the lowest possible price consistent with quality.

TRAMORE SEWERAGE SCHEME. NOTICE TO CONTRACTORS.

The Waterford County Board of Public Health will, at their Meeting to be held at the Courthouse, Dungarvan, on Saturday, the 14th March, 1931, consider Tenders for the carrying out of a Sewerage Scheme for Tramore in accordance with Plans and Specification, which may be inspected at my Office, County Home, Dungarvan, or at the Office of Mr. G. H. Jephson, A.M.I.C.E.I., Courthouse, Waterford, from whom Forms of Tender can be obtained as also copy of Plans and Specification in exchange for a deposit of £3, which will be refunded on receipt of a bona fide tender and the return of all documents supplied. Intending Contractors must be prepared to proceed with the work immediately in the event of their Tender being accepted.

Tenders, containing the names of two Solvent Sureties, who are willing to join the person tendering in a Bond for the due performance of the Contract, must be lodged with me not later than 12 o'clock (noon) on the 14th March, 1931.

The lowest or any Tenders not necessarily accepted.

By Order, MICEAL O'FLYNN, Runaidhe, Oifig an Runaidhe, Arus a' Conntae, 1 nDungarban, 25ad Feabra, 1931.

Kitchen wired for Electrical Service according to OUR WIRING PLAN.

DOES YOUR WIFE WORK IN YOUR HOME?

There's no reason why she should. Electricity can do the work for her. Electricity will light, heat, cook, clean, wash, iron and supply hot water with the greatest economy of effort to your wife, money to yourself, and worry to you both.

OUR WIRING PLAN will save time, money and trouble and will make your home a place of perfect comfort. Our local Representative will be happy to attend to your requirements and to supply information and estimates without charge or obligation on your part.

OUR SPECIAL OFFER

To reduce pressure of work during the rush season and to enable us to keep on our full installations staff during the normally slack season, we make the following offer:— From now until July we will install free of charge to the customer ONE CONVENIENCE OUTLET FOR EVERY EIGHT LIGHTING OUTLETS ORDERED.

TAKE ADVANTAGE OF THIS OFFER & ORDER NOW

Residents of the following towns should apply to— DUNGARVAN, TALLOW, LISMORE, CAPPOQUIN.

MOLONEY'S, Wholesale and Retail Stores,

Bridge Street and Square, DUNGARVAN.

Oatmeal Manufacturing.

Influenced by the ridiculously low price for Oats, we have overhauled and refitted (on most up-to-date lines) our Oatmeal Manufacturing Plant, and we are in a position to receive Oats for the manufacture of Oatmeal.

We would remind intending patrons that in order to obtain first-class samples of Oatmeal White Oats give best results, and wherever convenient, are preferred as being the most satisfactory for all concerned.

We specialise in the manufacture of Pure Whole Meal.

We also wish to remind our numerous friends and the general public that we are now in a position to carry on the usual Rolling and Kibbling Grinding, kiln-dried or fresh as may be required.
