PUBLIC MEETING IN DUNGARVAN

A largely attended public meeting was held in the Courtnouse, Dungarvan, on Wednesday, to consider the question of De-rating and to decide a question of De-rating and to decide a course of action. The farmers of East and West Waterford were fully represented. Mr. C. J. Curran, County Councillor, was moved to the chair. Amongst thoce present were—Messrs. R. Murphy, Dunhill; John Connors, Fews; S. J. Power, Affane; N. Morrissey, Cappagh; R. J. Delaney, Ballymakee; M. O'Brien, Grange; W. J. Spratt, do.; J. J. Drohan, Kilmacthomas; T. G. Flahavan, do.; E. Queally, Stradbally, T. Connors, Faha; S. Bergin, Kilrossanty; P. Wall, do.; W. McCarthy, Ballyduff; John Green, Burgery; E. Beresford, John Green, Burgery; E. Beresford, John Green, Burgery; E. Beresford, John Green, G. J. Greene, Co. Co., Glenstown, G. J. Greene, Co. Co., Rathgormack; M. Shanahan, Clonea; M. Veale, Kilrossanty; T. Veale, Clonea; N. Fitzgerald, W. McCarthy, Ballyduff, etc etc. Ballyduff, etc etc.

Chairman's Address. The Chairman at the outset read a letter from Mr. Brooke-Bragier, regret-ting his inability to attend the meet-ing and stating his sympathies were with the farmers in their present state and unless help were given them the amount of derelict land would be increased to the detriment of the rest of the community. He also read an apology for non attendance from Mr. D. L. O'Gorman, Fermoy, who said the farming community would never get fair play until they had a strong independent party in the Dail. He (Chairman), said, he was sorry those gentlemen were unable to attend as they had taken a leading part in this matter in the Co. Cork. The question of De-rating had been before the public for some time and County Councils and other public Bodies had passed strong resolutions demanding Dail a resolution was proposed by the leader of the Opposition asking for a million for farmers. The official Opposition in the Dail represents half the country and Mr. De Valera had no mandate from the country to move that resolution. The reason he mentioned that was lest the Government might take it as a handle to whittle down the grant as low as possible. The Chambers of Commerce of the Country before that, proposed resolutions asking the Government not to grant De-rating. The "Daily Express" in a recent letter suggested that the Irish farmers of the Free State should be satisfied with a grant of £500,000 while the amount required was £2,000,000. He could not understand why an English newspaper was so interested in the Free State. There must be something going on behind the scenes. He asked the meeting to consider if they thought they should be treated as their neighbours over the Border were treat-

ed. Mr. R. Murphy, proposed the following resolution :-

That this meeting of farmers representing the entire County Waterford, at a public meeting specially called to discuss the question of Derating hereby endorse the demand unanimously made by County Councils, Agricultural Committees and Societies throughout the Free State, calling on the Government to grant the farmers a full measure of De-rating similar to that granted to England, Scotland and our neighbours across the Border in Northern Ireland, That Mr. De Valera as leader. of the Opposition in the Dail had no mandate whatever from the country to suggest any sum less than the full amount required. That the crisis in Agriculture is now mor

serious -even more aggravated by the increasing volume of foreign competition and having regard to the continuous and serious depression in prices since 1921, with a very dismal prospect for the future inless our demand is considered in time the resultant damage and chaos will be irreparable and the responsibility for which will rest on the Government and the Government alone. Mr. M. O'Brien, seconded, and said the time was quite opportune as the farmers wanted re-

Chairman-Since the days of the land agitation no more important meeting was held.

Mr. W. McCarthy—Where is the money for De-

Chairman—This question does not arise to-day.

An Inquiry has been held and they may provide ways and means of which we know nothing.

Mr. McCarthy—How many gallons of milk at 4d. a gallon would pay the Governor General's

calary? Chairman—That is a question of figures

Chairman—That is a question of figures
Mr. McCarthy—You must get the money somewhere. If we go in for Derating we have not
the British Empire at our back, we have only
the 26 Counties and if you take it from one
pocket, you put it into another, we have no
money and where are we to get it.

Chairman—If the County Council struck a tate
of 20s, in the 2 the extraordinary thing is that
the Government has plenty money to give a pro
rate grant.

Check On Building Material. Mr. Griffin proposed that the Council appoint a clerk to check all material in connection with the Housing Scheme, and to submit a weekly account of same to the Council.

Mr. Moloney, seconded. Mr. Griffin, referred to the last scheme and asked was there a check on it. There are men working to-day and where did the material come from. Clerk-I submitted a statement at the completion of the last Scheme which showed material left over.

Mr. Hackett—Is the work started. B.S., said one of the Contractors asked to be allowed start work as the timber was available. They can work but, no payment can be made until the bonds are completed. Mr. McEvoy-Will he be a whole-

time man. Mr. Griffin-Yes. He would go the station and check all stuff, check all material, sand, gravel etc.

Chairman—We should try to build the houses as cheaply as possible. He thought the resolution was very unnecessary. They decided quite re-cently not to have one man employed and everything was to go by contract. The Surveyor has a certain sum out of each house.

A letter was read from Mr . Thos. McDonald, Scretary of the Waterford Pipers' Band, stating that they were handing over the premises to the Board. The letter stated that the Band Committee carried out improvements costing £45 and were not able to use the premises, except to keep their furniture in. They asked that a sum of £3 was not fair to charge all the cost to Mr. Connolly, proposed that in view of the

repairs etc., carreid out by the Club, that the Board forego the rent. Mr. Dunne seconded. Secretary—I must formally object to the resolution. He thought there would be a surcharge. Mr. Cosgrave—Isn't this subject to sanction. Personally I would like to remit it, but I am not prepared to put down my hand and pay for it.

The Secretary said if the resolution was passed and went on to the Department, their reply would be it was a matter for the Board to deal with. BEAU BANDIT!

Stars-ROD LA ROCQUE and DORIS KENYON.

The story tells of a much "wanted," but commission by an old skin flint to murder a youth who is his rival in love. Punctuated with thrills as well as laughs, the story has the supreme merit of leaving the onlooker guessing as to how the enjoyable adventure will end. BEAU BANDIT will charm and delight audiences of every type. Usual Supports.

WEDNESDAY & THURSDAY, APRIL 22nd & 23rd, Special Double Feature Programme,

No. 1. Wings of Adventure

Stars-REX LEASE, ARMIDA, CLYDE COOK. WINGS OF ADVENTURE actually lives up to its title, being packed throughout with action, danger and excitement, tempered with a dash of attractive romance. Excellent acting by Rex Lease, the dashing hero; by Armida, the adorable little Mexican spitfire whom he rescues, and by Clyde Cook, an expert comedian who provides the laughs in the film, complete the good work of creating eminently satisfactory fare for the film-goer.

Hot Curves! No. 2

Laughs, thrills, action, romance. A very amusing and thoroughly enter-taining picture, packed with incidents that provoke laughter:

FRIDAY & SATURDAY, APRIL 24th & 25th,
GEORGE SIDNEY & CHARLIE MURRAY in

Around The Corner!

Hilarious situations, true-to-life characterisations and sparkling dialogue, are some of the features that make AROUND THE CORNER one of the snappiest and most diverting pieces of entertainment that has been shown in a long time. The story revolves around the adventures of a Jewish pawnbroker and an Irish Cop. An evening of genuine good fun is in store for you when you see this picture. Usual Supports

Mr. Butler—I gave rouse. Mr. Butler-I gave you some names

of people, who were willing to assist the present Hon. Librarian. That would allow the Library to be open

The Secretary said, he had offers rom others to act as Hon. Librarians Regarding youngsters attending for books, the Secretary, said, they hoped to be able to open juvenile Libraries in the schools, and allow only adults

Mr. Butler suggested that the congestion could be relieved by opening the Library, say four or five days a

After some further discussion, the question of the counter and extra shelving was referred to the local committee to deal with.

Examination Fee. Arising out of the recent examination held in connection with the appointment of Assistant Librarian, the Secretary said, he had received an a/c for 6 gns. from the Secretary of the County Council. The amount was passed subject to its being in acordance with rules governing other sub-committees of the County Council.

Insurance Of Library Van. The Secretary asked permission to

effect a comprehensive Insurance Policy on the Library Van.

In reply to Mr. Ussher, the Secretary explained that the buildings and property at Lismore were insured for £5,500. He could not say at the moment what proportion was on the building or rate per 100 on books.

The Committee decided to adopt the same procedure regarding the van and books as was done in the case of the buildings. The Secretary was also instructed to investigate and find what proportion was on the buildings and property.

Cappoquin Library. Mr. Walsh, referred to the delay in opening the Cappoquin Library, and also to the fact that there wasn't any books at the Tallow or Ballyduff Lib-

The Secretary, said, he would be in a position to supply books to the above in about a week.

A Complaint

Mr. Walsh, drew attention to the fact that some volumes of an encyclopedia presented to the Cappoquin Library by the late Rev. Fr. Dunphy, were removed and the people of Cappoquin were asking to have them re-

Allocations For Books 1931-1932. On the sugestion of the Secretary, a sum of £750 was allocated for the purchase of books during above period. As the contract for books expired on March, 31st it was also decided to ad-

vertise for contractors. Chairman-Asked in the event of there being an unexpended balance at the end of the financial year would it revert back to the County Council,

such was the case under the old Library Scheme in Lismore. Secretary—Not as far as I know. The money is lodged in the name of the Library Committee.

Mr. Ussher—Suggested that as a way out of the difficulty to expend the Rate a/c and carry forward any un-expended balance from the Carnegie

Trust Fund. Mr. Butler—I don't think the money would revert back to the County Coun-

Book Selection Committee.

A meeting of the Book Selection Committee, was fixed to be held after the next monthly meeting of the Com-

mittee.

Catalogues Ot Books.

An Fear Mor, asked if the Secretary intended preparing a catalogue of the books to be had in each Library.

Secretary—With a staff of only two it was not possible and cited the case of the Co. Dublin Library, which was formed since 1923 and had a staff of 10, but were as yet not able to get out a critalogue.

An Fear Mor—I do not mean a print-ed catalogue, what I would like to see is a list to give the selectors an idea what books were in the Library. Mr. Butler, said, there was such a

ANNUAL MEETING.

At the Annual General meeting of he above, Mr. John Flavin, P.G., President occupied the chair, and there were present Messrs.—J. H. Curran, John Hannon, Wm. Dower, J. Troy, Jas. Flavin, Patk. Foley, Thos. Foley, Supervisor; and D. O'Donovan, Cow l'esting Instructor.

The minutes of previous general meeting having been read and confirmed the President submitted a state-ment of Accounts which was adopted.

The Rules governing Cow Testing Associations, submitted by the Department were read and discussed and on the proposition of Mr. J. H. Curran, seconded by Mr. J. Hannon, the rules governing the Association were unani-

mously adopted.

Correspondence from the Department dealing with the Revised Scheme No. 20, for the improvement of Dairy Cattle, tattooing of calves the progeny of Registered Cow and approved bulls and the provisional acceptance of the Department of the notification of the births of the first second and third calvings of recognised progeny heifers was read and noted.

One common weighing day was appointed for all members to weigh and record the milk yields of their herds.

The Supervisor submitted the 7th., Annual report of the working of the Association, as follows:-During the year 1930 we had 17

members keeping records and com-plete records are available for 234 cows and the average yield per cow was 5,782 lbs. of milk or 560 gallons containing 214,.32 lbs. of butter fat, with an average test of 3.70 per cent. earning is. per lb. for butter fat with separated milk at id. per gallon £12

When the Association was established in the year 1924 the average yield per cow for 136 cows was 4,724 lbs. of milk or 457 gallons containing 168.75 lbs. of butter fat, with an average test of 3.57. It will be observed from those igures that the average yield per cow has increased by 103 gallons of milk and 46.32 lbs. of butter fat in the course of seven years which if valued on the foregoing basis would mean an increase of £2 14s. 11d. per cow in the earning capacity of each cow on test n the Association.

Those figures show that the Association is making steady progress in increasing the average milk and butter fat yield of each cow in the Association and that our members are gradually eleminating the low yielding cows from their herds feeding the good cows better and retaining only the best hei-fers in their herds.

The best cow in the Association was an 8 year old shorthorn which calved on the 14th. February, 1930 and yielded 11,067 lbs. of milk or 1,070 gallons containing 426.07 lbs. of butter fat with the high average test of 3.85 in 45 weeks and earned on the above basis £25 7s 7d. and is the property of Mr.

The second best cow in the Association was a 12 year old Registered Dairy Shorthorn cow which yielded 10,825 lbs. of milk and 358.30 lbs. of butter fat with an average butter fat test 3.31 in 45 weeks and earned on the same basis £21 7s. 8d. and is the

property of Mr. J. H. Curran.
A bad 4 year old Shorthorn cow yielded 2,996 lbs. of milk and 106.35 ibs. of butter fat with an average test of 3.55 in 26 weeks and would earn on the same basis as the good cow £6 11s. 8d. showing a difference of £18 15s. 11d. in the earning capacity of a good cow and a bad cow in the Asso-

It would take four cows of the later type to produce as much Dairy produce as the best cow in the Associa-

The ten best cows in the Association gave an average yield of 9.161 lbs. of milk and 322.70 lbs. of butter fat, with an everage test of 3. 52 per cent.

The ten worst cows in the Association gave an average yield of 3,747 lbs. of milk and 127.87 lbs, of butterfat and an average test of 3.45 which shows a difference of 54.14 lbs. of milk on 525 milks of 54.14 lbs. milk or 524 gallons and 194.83 lbs. of butter per cow in favour of the ten best cows in the Association and calculating butter fat at 1s. per lb. with separated milk at id. per gallon would earn £11 18s. 5d. per cow more than the ten worst cows in the Association. In 1923 we had only one herd having an average yield of 600 gallons of milk while in 1930 we have two herds with

while in 1930 we have two herds with an average yield of 750 gallons per cow, two others with an average yield of over 650 gallons per cow and 6 other herds with an average yield of over 600 gallons per cow.

Taking a summary of the 234 cows with complete records 22 cows yielded between 300 and 400 gallons of milk 41 cows yielded between 400 and 500 gallons of milk 67 yielded between 500 and 600 gallons of milk, 61 between 600 and 700 gallons of milk, 31 between 700 and 800 gallons of milk, 8 between 800 and 900 gallons of milk, 2 between 900 and 1,000 gallons of milk, 2 yielded over 1,000 gallons of milk, 2 yielded over 1,000 gallons of milk.

milk.

Several members in the Association have made very good progress in increasing the average milk yields of their herds some have increased their average yields of their herds by over 100 gallons of milk per cent, for example. In 1924 20 cows 4,667 lbs. 168.94 lbs.; 1929 23 cows 5,982 lbs. 235.25 lbs.; 1928 15 cows 4,770 lbs. 191.00 ibs.; 1920 15 cows 5,880 lbs. 222.00 lbs.; 1927 6 cows 6,115 lbs. 230.22 lbs.; 1929 8 cows 7,603 lbs.

273.23 lbs.; 1920 12 cows 3,393 lbs. 127..29 lbs.; 1929 15 cows 5,942 lbs.

217.68.

Those figures show clearly the great advantages to be derived from the keeping of milk and butter fat records in increasing the average milk yields of our herds and what the above members did it is quite possible for every tarmer in the district to do and I would appeal to every herd owner in would appeal to every herd owner in the district to become a member of our Association, as the keeping of milk and butter records are the only reliable means we have of finding out what each cow in our herds will produce in the year and whether she is kept at a profit or a loss and a cow yielding 800 gallons of milk in the year calculating milk at the average price paid by creameries during the past year which would be about 5d per gallon for whole milk and separated milk 80 per cent. of whole milk at 1d. per gallon she would earn £19 6s. 8d., whereas a cow yielding 400 gallons of milk in the year calculating milk at the same price would earn £9 13s. 4d. the same price would earn £9 13s. 4d. showing a difference of £9 13s. 4d. in

the earning capacity of two cows.

The best heifer in the Association was a recognised progeny tattooed 3 year old, which calved on 14th March 1930, and yielded 725 gallons of milk 295.15 lbs. of butter fat with an average test of 4.07, and is theproperty of

Mr. John Flavin. During the year we got 4 additional ows placed on the Department Register of Dairy Cattle making a total of 30 Registered cows in the Association, and out of those I tattooed 16 calves during the year.

During the year we had about 110 bull calves dishorned by the causic potash method and I would strongly advise you to continue dishorning all your calves not intended for breeding purposes, because in doing so you will increase the market value of your store cattle by from £1 to £2 per head. I wish to suggest that each member would fix a minimum average of600 gallons for his herd and this would be gradually improved, from year to year by continuing to weed out the low yielding cows, feeding the good cows petter, and mating them with the Re-

ng purposes. In conclusion I wish to thank the President and members for your kindness to me on the occasion of my visits to your herds and for your co-operation and assistance in the workng of the Association.

gistered Dairy Bulls in the Association

Mr. O'Donovan, addressed the meeting and saidhe wished to congratulate the members of the Association on the progress they were making in increasing the average milk yields of their herds and this was one of the chief objects of the Cow Testing Scheme and strongly advised all members to take full advantage of the scheme by mating all their registered cows with the approved Dairy Bulls in the Association, and to notify the births of calves from all Registered cows to the Department within the prescribed period of seven days and also to notify the Supervisor as he had to tattoo all calves the progeny of Re-gistered cows and approved bulls within 28 days. . The Supervisor's report of the work of the Association was most satisfactory and he wished to state that he had carried out his duties during the year in an excellent manner and gave every satisfaction both to the Department and the members. He also advised members on the feed-ing of and gneral management of Dairy cows.

Election of Officers.
On the proposition of Mr. John Curran, seconded by Mr. J. Hannon, Mr. John Flavin, P.C., was unanimously reelected President of the Association. Messrs. J. Hannon, J. H. Curran, Wm. Dower, Jas. Flavin, Pk. Foley, were elected on the committee. Messrs. George Kennedy and Wm. Curran were appointed auditors of the

Association.
Mr. Wm. Dower, proposed that Mr.
Thos. Foley, be re-appointed Secretary and Supervisor of the Association which was seconded by Mr. John

Troy, and passed unanimously.
A vote of thanks to Mr. John Flavin for presiding having been passed the meeting terminated.

The Butter Tariff.

AN OBJECT LESSON.

At a meeting in Cork, Mr. Hogan for Agring the farmers. He went fully into the lucid description of the present position in the one Irish Industry with which his name has been especially identified—butter. During the four months from December to April, he said, the Saorstat creameries can supply only about onehalf of the home requirements

A shortage analogous to that of winter sup-plies of butter, he said, is the general rule, so far as practically all our industrial production is concerned. With the exception mainly of beer, biscuits, and certain lines of manufactured tobacco and some others which are a negligible exception, our home production of industrial products is substantially short of the requirements of the home market. This shortage of home production which occurs in winter butter is common to the great bulk of our industrial require ments. Moreover, this shortage in industrial products is not merely seasonal. It occurs every year and in every season of each year.

Mr. Hogan went on to analyse the effects of the various tariffs imposed since the Free State began function. Starting with the latest, that on butter, he said :- When the tariff was imposed on January 22 last there were about 18,000 cwts. of creamery butter in cold store. The total requirements of the home markets up to April were about 60,000 cwts. The home market production between Jan. 21 and April 1 was about 24,000 cwts. There was, therefore, a total of 42,000 cwts, of home creamery available. To make up the full requirements of the home markets it was necessary to import about 18,000 cwts This shortage was about one-third of the total

It is illuminating to examine the effect of this tariff, because the conditions under which it operated during the period are analogous to the conditions under which practically all industrial tariffs would operate during the whole year, and are the exact opposite to the conditions winch govern the operation of agricultural tariffs. It is the first which gives an accurate standard by which to measure the varying effects

of tariffs generally. It is typical of one big class of tariffs. It shows clearly the effect of a tariff when there is a shortage of home production while that shortage lasts and, per contra, it shows equally clearly the effect of a tariff on another big class of products, those in respect of which there is a surplus over and above the requirements of the home market.

and retaining their progeny for breed-Moreover, unlike any of the other tariffs, we have all the data required to enable us to arrive at our conclusions. Ther is a standard quality of creamery butter and a standard price for it. The quality is known and the price is known and published. The consumption of butter, month by month, can be fairly accurately measured. All this makes it comparatively easy to measure the economic and financial consequences of the tariff. COST OF TARIFFS.

We can say by how much the price increased, prices for rolls of 50 yards. who got the benefit of the increase, and what it HARPUR BROTHERS, sort is almost impossible in the case of any other tariff. In the case of boots, for example, there is not one standard boot-there are hundreds of different kinds and qualities. The prices of all these different kinds and qualities are not published, and are not really available. Increased prices may be hidden by lowering quality, and as a result of all these uncertainties and complexi-

ties the real affect of the tariff may be hidden. We cannot say with the accuracy, that we can say of butter what industrial tariffs have cost the country. We cannot set out the cost in figures, but an analysis of home consumption and imports of some of them makes it quite clear that the cost, no matter how carefully hidden, must be very considerable. It is a fact that, as a result of tariffs, we have brought up the production of certain small industrial items such as certain lines of clothing and blankets to almost out_total home market requirements. But these are the exceptions. They comprise only a very small proportion of our total industrial requirements, and, so far as the balance is concerned, tht position is that there is a huge shortage of home production as compared with home requirements. This applies in particular to practically all industrial products which art not protected at present, but which might be protected under any extension of our tariff policy.

Tariffs are effective to encourage industrial development. They have already done done so in cases. These tariffs will immediately put up prices and will, thereby, furnish an inducement for further production to the Irish producer. The higher the tariff is the higher the price and the greater the inducement and the quicker the de-

The only point which I wish to make on it is that while this process of development is going on, and in all cases until we reach the time when the home producer is capable of meeting the re. quirements of the home market, the cons maer will as a rule, have to pay the full amount of tariff as a subsidy towards industrial development.

SUCCESSFUL DANCE IN CAPPOQUIN.

The Grand Eastertide Dance, held by the Cap-poquin Rowing Club in the Boathouse, Hall, on Tuesday week, proved a wonderful social and financial success. The attendance assumed large proportions, as the young ladies and gentle. men from Dungarvan, Lismore, Villierstown, Dromana, Cappagh, and other outlying districts, as well as those from Cappoquin, extend-

tricts, as well as those from Cappoquin, extended very generous support to the event.

All the arrangements were admirably carried out by the energetic members of the recently formed Entertainment Committee of the Rowing Club, including Messrs. P. Mason, T. O'Keeffe, Joe Mason and P. Morrisey, who were unsparing in their efforts to provide the maximum amount of pleasure and enjoyment for all.

Splendid music was supplied by the talented "Ubique" of estra, Lismore, under the able conductorship to Mr. J. Scott-Allen, and as the Orchestra was specially agumented by the inclusion of Miss Crowley, the brillian violiniste, everything proved as happy as the proverbial "Marriage Belle" during the night. The excellent catering arrangements carried out by Mr. G. Watson, Cappoquin, were the best ever seen at any boathouse dance, and with every other detail equally perfect and satisfactory it o dance proved one of the most brilliant and enjoyable functions held under the auspices of the Rowing Club for many years.

DEPUTATION TO THE DUKE OF DEVONSHIKE.

LISMORE WEIR.

The Duke of Devonshire received a deputation from the Owners and Leses' Association, at Lismore Lastle, on

the river. Several of our members have taken part in the various cases and enquiries concerning the weir and net-ting, notably the 1896 enquiry, and the 1900 enquiry. We do not, however, propose at this meeting to go into these controversial subjects, but to leave with you a memorandum that defines our unamimous views upon themand our suggestions concerning them. It has been suggested to us that the Lismore Estates Company might be willing to lease the weir and freshwater netting to the Association, which would be prepared to consider such a lease provided the difficulties referred to on the memorandum can be satisfactorily adjusted."

The memorandum was then handed to the Duke, who replied thanking the days. deputation for putting their views be-fore him, and assured them that no one was more anxious than he to see the angling improved, and that the memo-randum would have his very careful personal consideration.

The deputation, which consisted of Messrs. H. Percival Maxwell, R. G. Annesley, R. S. Lysaght, John Waddell and Major Lingfield, then withdrew.

The following is the memorandum:-A. The owners and Lessees' Association is advised that the King's Gap is not "maintained" according to the rules laid down in the Act, in that its sides are not 'in a line with and parallel to the direction of the stream at weir," and also in that "the bottom of the gap is not" level with the natural bed of the stream above and below the gap," nor is the width of the gap "one tenth part of the width of the stream." The Asociation requests the Lismore Estate Company shall put the gap into a condition that complies with the mation the price paid locally fresuggests that the Tail Hatch be permantely opened to this end. Or, if neither of these alternatives is agreed to, the Association requests the Lismore Estates Company to make a suggestion for the removal of the above objections. Or, would the Estates Com pany agree to the appointment of an money now and again on certain conarbitrator, who should be a recognised signments. authority on salmon rivers and fishery

B. With regard to the netting below the weir, the Association is advised that according to law, "a channel which can really be used for the purpose of passage" must be left while the nets are being shot and drawn (Commissioner's Report 1900 page 8, Clause 2, para "Passage of Fish.") Will the Lismore Estates agree to define, according to the 1900 Commissioner's recommendation, the space to be left for that purpose.—L. Longfield, Hon. Sec.

MORE HOUSES. It is surely something of an encouraging sign, in these days of downright pessimism in many and widespread quarters, to see a number of new sees' Association, at Lismore Castle, on April 4th. The deputation was introduced by Mr. Henry Percival Maxwell.

Major Lingfield addressed the Duke of Devonshire as follows:—"I have to thank you sir, for being so good as to the civilized globe. In the town itself Major Lingfield addressed the Duke of Devonshire as follows:—"I have to thank you sir, for being so good as to receive this deputation from the Owners and Lessees' Association. We have for many years considered the weir and freshwater netting at more to be mainly instrumental in keeping down the stock of salmon in the river. Several of our members have improved, in preparation for the new motor lifeboat which is expected to arrive sometime in June. Notice has been served on the Urban Council by Mr. M. Walsh, South Main St. Contractor, of his intention to erect two more willes for Knockeysory or the local property of the local propert more villas at Knockaverry, on the Upper Strand, between him and Mr. Kenneally. U.D.C., a fine terrance of imposing new villas will soon run Registered Pure-bred Irish Draught along the base of the hill, almost parallel with te villas facing the Main Road. Youghal, Cork, various other projects in the building line are under consideration and will probably take practical shape in the near future, when they do—it is said they have got well beyond the "if" stage, they will be the means of giving extensive employment, which is badly needed those

THE SALMON FISHING.

The present fishing season, which started with a record the first week, has fallen off considerably, and although taking it all round, it has been so far a fair average season, there is nothing much to boast about. The men have been at it, day and night, when suitable and sometimes, when weather was not, for the past 21 months, but beyond an occasional good day, after the first week, there have been no good takes generally speaking an occasional couple of fish are taken now and again, but there has been no really plentiful run since the opening week in spite of the fact that the men have gone out in all kinds of weather. Prices have kept up pretty well owing largely it is said, to a kind of competition between the buyers. Evidently foal getter. from the gross sales across channel. They say its an ill wind that blows nobody good. In this matter it would appear that the fishermen have benefited substantially by the price war. Indeed some go the length of saying that some of the buyers have dropped

WHIST DRIVE.

A highly successful Whist Drive Was held, in the Ball Room, Town L2 with ticket; Grooms fee 3s. Hall, on Thursday night, under the auspices of the Technical School Students' Union. Indeed it was a record for such an event locally. At the suggestion and under the personal super-vision of the Head Master, Mr. E. Ryall, the tables were arranged in a different manner, with the result that there was a complete absence of anything like confusion in changing places. Some 40 'foursomes'-if the term may be used took part, and everything passed off without the slightest hitch, thanks muchly to the increasing exertions of Messrs. H. and R. J. Chapple, who acted as M.C's. All who took part, without a single exception, expressed themselves highly pleased with all the arrangements. At the conclusion of the Drive, the prizes -all "airgead sios" were distributed with a few pleasant words. Congratulated by Mr. Ryall, the night's entertainment was brought tto an enjoyable finish with a couple of hours' dancing, the reputation of the Technical Students' Whist Dhive must have gone outside the town, for there were quite a number of players from the adjoining districts.

FISHING BOAT ACCIDENT.

A local salmon fishing boat, belonging to the British Legion, met with a mishap on last Wednesday evening, which narrowly escaped being a sad catastrophe. Ther was a crew of four aboard, with P. Leary, as skipper, while fishing in a dangerous part of the Bay, known as Cleary's Bank, Just while fishing in a dangerous part of the Bay, known as Cleary's Bank, Just outside the harbour she was struck on the quarter by a sudden and unexpected breaker, that swung her around broadside to the sea. Before the men could do anything to prevent it, she was capsized, throwing the men into the broken water, with e exception of J. Murphy, all managed to get back to the boats side, and scramble up and get a hold of the keel. Murphy got fouled in the net, placing him in a desperately precarious position, fortunately for the four men their plight was observed by the crews of D. Murphy's and P. Buitimer's boats, and these made all possible haste for the scene, finally succeeding in saving them. Seeing that Murphy was in a very bad way D. Murphy's boat rushed to his assistance, leaving his colleague to take the others from the boats bottom, the incident created some sensation as it was this week three years that three lives were lost by an accident to a salmon boat just outside the Harbour mouth.

SEED OATS AND BARLEY.

It is very difficult to procure good Seed Oats this season, so we are pleased to announce that we have been fortunate in securing large stocks of specially selected Black and White Seed Oats. We have also a limited quantity of Victory II. White Seed Oats to offer. We hold a supply of splendid Seed Barley, tested by the Department of Agriculture. Samples and Prices from—
