THE FAIR.

Kilmac' monthly fair, held on Tues-day, was well supplied. The attendance of buyers was on the small side, and trade on the whole was dull. Late rates governed all deals transacted. The cattle trade met a very poor demand at slightly lower rates and many lots failed to clear. Choice springers and heifers were in request, inferior grades neglected.

DEATH OF MR. PAT McGRATH. TIPPERARY.

Well-known and highly respected in Tipperary, as well as throughout the whole country, especially in Gaelic Athletic circles, the death of Mr. Pat McGrath, Secretary of the Munster Council of the Gaelic Athletic Assiciation, came as a shock to Gaelic followers and many acquaintances and Council of the Gaelic Athletic Assiciation, came as a shock to Gaelic followers, and many acquaintances and friends. After a brief illness he passed away at St. Joseph's Home, Tipperary, on Friday, 21st. He was a highly popular figure for many years at hurling and football games, sports, and coursing meetings, and fixtures of the Central and Munster Councils, and Central and Central and Munster Councils, and Central and Munster Councils, and Central and Munster Councils, and

28 NURSES ON HORSEBACK.

MOUNTAIN CORPS THAT RIDES TO AID OF MOTHERS.

A mounted corps of nurses in remote parts of the Appalachian Mountains, is saving the lives of many mothers and babies, states Reuter from Lexington,

Kentucky.
The Organisation, known as the Frontier Nursing Service, was founded six years ago by a Lexington woman, Mrs. Mary Beeckenridge, grand-daugh-ter of a United States Vice-President, on the model of the famous "Queen's Nurses," of the Scottish Highlands, where conditions closely resemble those in Kentucky. Like the Royal North West Mounted Police, the twenty-eight young women, who compose the first unit, practically live in Mr. O'Donn the saddle. They are always ready to ride, with their lanterns filled and their saddlebags packed for emergen-

They must scale frozen, trackless slopes and swim rivers with their mounts, if necessary, always bearing in mind their maxim. "If the father can come for the nurse, the nurse can reach the mother." After the service is performed, the fee of five dollars (£1) may be paid in kind or in labour. Instead of money, acceptable payments pickled onions, skins, cane-bottomed chairs, fodder or shoeing for the nurses' houses or any necessary reserved.

chairs, fodder or shoeing for the nurses' horses, or any necessary carpen try. The fee may include care before and after the child's birth.

At the outset there were two nurses working alone in a four-roomed cabin. The Organisation now hopes to add to its twenty-eight nurses and to extend its services along a frontier of a thousand miles. In just under six years the Frontier Nurses boast they have tended 800 maternity cases, and only one mother has died.

dangerous.
Mr. Clancy, advised the Council to change the system of doing the quay in water macadam, as it would be all to go slush in winter time and suggested that they should try to do it in concrete in sections every year. The matter was adjourned for fur-

Mr. Thos. Flynn, Abbeyside, appeared before the Council to draw at tention to the dangerous condition of the slipway opposite Abbeyside Na-tional School, which was badly under-mined by the recent storms. In its present condition it is extremely dangerous especially for children.

The matter was referred to the B.S.. o get repairs carried out at once.

Mr. McCarthy drew attention to the condition of the sea wall at Mr Going's field, Abbeyside, and asked the Coun-

STOCK FOR ROADS Mr. Griffin asked that stock be nut out on the road from Abbeyside Chapel to Lands End and New Line. B.S. said it was his intention to have the stock ready when the roller was at Sarsfield St., and to give it a run over with the roller.

DISFIGUREMENT

Mr. Clancy drew attention to the disfigurement of the coping stones on the Abbeyside bridge by thoughtless people sharpening knives, etc. He also referred to the condition of the footpath at Mitchel Street. He thought pedestrians should be facilitated by having good paths and not be driven to walk on the roads, where there is heavy

Mr. O'Donnell-I got tired years ago mentioning these things. The footpath out the Youghal Road is a disgrace, two years ago the Christian Brothers and himself put gravel on it for shame

Mr. Griffin—I hope that the cause-way footparths will be again included.

Mr. Griffin asked if members do go, had they any proposals from this Council to put forward at the Congress. He suggested that something should be put forward from the Council if they send members.

Chairman—This Congress will be something like the meeting of the Co. Councils' General Council, and that in the opinion of everyone is a very useful body

Mr. Moloney—I am of opinion that the Public Health Conference to be held in October would be more beneficial to the Council to be represented Mr. Keane asked the Clerk if he had

allowed instead of 15/-. After looking through the pamplet. Mr. Lawn proposed, and Mr. Keane seconded, that no delegates be sent, but that they be sent to the Public Health Conference instead.

Mr. Clancy—As one who attended a Municipal Congress before 1 advise the Council to send members, it would be a very fine education for the members attending. He had no ambition to attend himself he was too busy. He noticed a large number of Council Clerk's at the Congress he attended and he would propose that the Chairman and Clerk be sent. He expressed surprise at Messrs. Lawn and Keane, first proposing, to send delegates and now proposing not to send any.

Mr. Keane-It is in view of the fact that after reading that pamplet and seeing that the Congress carries no weight, (everything turned down by the Minister) that I changed my mind. Mr. Lawn said it would cost the Council £10 to send delegates and if they send delegates to the Public Health Conference it would mean £20. He thought that the Council and the ratepayers would get very bad value for their money.

Mr. Hackett proposed, that £1 a day exclusive of Railway fare be given as

5TH SEPTEMBER

ON Saturday morning next, September 5, the first issue of "The Irish Press" will be in the hands of the people of Ireland.

THIS new daily is the outcome of intensive effort and organisation. The object was to establish a first-class morning newspaper, and that has been done — a newspaper, national in its policy, distinctive in its make-up, and complete in all its services of news, pictures, and special features.

NOTHING has been spared in making this great enterprise a success. Staffs have been chosen for their ability and experience of the work required of them. Machinery, the latest of its kind, has been installed, so that a better equipped Office does not exist in Ireland.

IN "The Irish Press" will be tound just those things the average Irishman and woman want -home news, gathered by a large staff of reporters and hundreds of correspondents throughout the country; foreign news supplied by special correspondents and by two of the biggest Agencies in the world: a special Irish Language section; a daily Woman's section; regular Agricultural features; Literary notices. Motoring notes—all directed by Editors long accustomed to this work.

THE financial and commercial pages will be particularly full and authoritative. A special Sports Department will give "The Irish Press" the best reports and commentaries to be tound in Ireland. A G.A.A. Editor. who is Ireland's leading expert, will handle the National Games. As for pictures, provision has been made to have each issue of "The Irish Press" profusely illustrated.

"TRUTH IN THE NEWS" has been adopted as the slogan of the new daily. It will not be a party organ or a political paper. It will be truly national in its contents, its vision, and its appeal.

INDEPENDENT in its comment, fearless in its assertion of national rights, scrupulously fair in its treatment of all sections, "The Irish Press" will cater for the whole people.

NEW TRAFFIC BILL.

Under the proposed Road Traffic Bill in the Free State, drovers of cattle along a road during lighting up hours must carry lamps. On a fair morning the roads will be like a picture from fairyland with all the farmers and their boys carrying lights. In the near future it is quite possible that every person who walks the road must have his license disc and number pinned on his chest and an identification number on the rere. When that day comes—as it is bound to do—it will be time to take to flying.

TO FARMERS!

Do you realize the opportunities which are offered you at present of placing on your farms two of the most important things to help you inyour every day work-HAY BARNS and CATTLE SHEDS.

You have prices practically down to Pre-War rates and you are offered from 25 to 30 years for the repayment of same at a reasonable rate of interest.

Don't you think it worth while dropping me a post card asking me to call on you and give you all particulars, and you will

be under no obligation to purchase.

I represtn one of the leading Firms in the Trade for above and if you are purchasing for cash and will advise me, I will take you to the Works where you can select your shed, which will be delivered to your haggard per lorry, with scaffolding.

If you are thinking about a barn I hope you will place your order with me. By doing so you are supporting local industry and labour, and dealing with a firm of 100 years reputation for solid workmanship and material.

Coppoguin's Great Carnival

The Carnival of Amusements organised by Mr. Sargent, Cappoquin, and several of the leading members of the West Waterford Hunt in aid of the funds of the Hunt was carried through in Cappoquin last week without a hitch, and received the most generous support from all classes of the public. The three Concerts held in the Boathouse Hall, on Monday, Tuesday, and Wednesday nights attracted large fashionable and enthusiastic audiences

A GREAT IRISHMAN AND GAEL.

By the death of Mr. Pat McGrath,
Secretary Munster Council G.A.A.,
which took place last Friday night at
Tipperary, after a brief illness, Ireland
loses one of her greatest and most
patriotic sons. A man of splendid
phyisque and imposing appearance,
Pat McGrath was the embodiment of
all that personified a typical gael. In
youth he was a great all-round athlete
and was a familiar figure at all gatherings. When little more than a boy he
was associated with the National Movement led by Parnell and for his prominence he lost his clerkship on the
G.S. Railway. Closely associated with

The funniest war-comedy ever screened. Buster Keaton as the "boob" of his family who enlists because his girl-friend has gone to France with a concert party, for the entertainment of the soliders behind the lines. Buster life in the army is a series of the most life in the army is a series of the most hilarious adventures. His sergeant bullies him continually, and when he is sent to get a German prisoner cut of a shell-hole, he brings back one of his own comrades, at the point of the gun. He is the laughing-stock of the army, but finally proves himself a hero when he "goes over the top" and returns with a map of the German positions. Delighted with himself, he insists on going over a second time, to find when he arrives in the German trenches, that he arrives in the German trenches, that the Armistice has been signed.

One long fusilade of fun, and son:e rousing song-numbers by a soldier's chorus-a most amusing Apache dance performed by Buster and froupe of "girls" are some of the scenes that make this picture the finest battle of laughs on the screen. Present Mr. E. P. Lynch, Vice-Chairman, Mrs. S. Hurley, P.C.; Messrs, D. Dennehy, E. Clancy, T. Beausang, T. Murphy, P. J. O'Gorman, P.C.; T. Harrington, J. Whelan, M. D. Broderick.

Acknowledgment.

A letter was read from Capt. P.

Dunne thanking the Council for their re solution of sympathy with him on the sad death of his grandson by accident in New York.

A similar letter was read from Mrs. Callanan, Cork, thanking the Council for their vote of sympathy on the death of her husband, the late Secretary of the Cork County Council.

Band Promenade... Complimentary reference was made to the success of the Band Promenade, given on the Green Park, by the No. 2 Army Band, on last Sunday evening. Mr. Clancy remarking that it was a most enjoyable couple of hours.

Mr. O'Gorman said it was greatly appreciated and it was a pity they had not it earlies in the year.

Strand Lavatory A letter was read from Mr. Woodley. Engineers Department, G.S.R., stating that the Company could not allow the Council drain the new lavatory in the Strand into the Company's drain at the

not it earlier in the year.

On the proposition of Mr. Beausang, seconded by Mr. Dennehy, it was unanimously decided to drain it into the Main sewer at McCurtainstown.

The Strand.

Mrs. Hurley again complained of the way the Strand was neglected. In several parts the water lodged so that persons got shower baths from passing motors. She would like to know what were all their Bolshevicks doing. Was it because she called them to account for their neglect that nothing was done for that vicinity?

Mr. Whelan—We have no Bolshevicks working for us.

Mr. Clancy-Have we 14 Bolshevicks

Chairman-I have never heard yet that we have even one Bolshevick on the staff and I think it is a remark Mrs Hurley should withdraw.

Mrs. Hurley—I withdraw nothing

Mrs. Hurley—I mean what I say. The Clerk said the parts of the road complained of were altered to level to meet the requiremen's of Mrs. Hurley, and Mr. Hurst. They saw the result. He wished to point out that the road in

After a long and lively discussion, the Clerk was directed to communicate with the Departments Co. Surveyor on the matter.

Water Supply Trouble. A letter was read from Messrs. J. L. Keane and Son, Solrs., an behalf of Mr. R. Devlin, McCurtainstown, com-plaining that owing to the fact that his and the next house were taking water from the same half inch pipe, the supply was most unsatisfactory. In view of the fact that there were 19 people in one and 28 in the other, the Council would recognise that it was abso-lutely necessary in the interests of pub-lic health that prompt steps should be

taken to improve the supply.

It was unanimously decided to call on the parties to comply with the previous order of the Council—that each should have an independent supply.

Regatta.
The Clerk said that the Regatta Committee formally applied for permission to enclose the Mall for the Regatta, to hold the Fireworks in the Green Park, and for the use of the Ball Room to hold the Regatta Dance—all on Wed-

nesday 26th.

Mr. Murphy—If this is the usual application it should be granted.

The Clerk said it should be the same

as in former years.

On the proposition of Mr. Clancy, seconded by Mr. Murphy, the application was granted unanimously.

Dunne's Park Railings.
Mr. Broderick said he was glad to say that the railings at Dunne's Park proved a real asset on fair days keeping cattle from straying. If a couple of gates were put on the opening it would be very useful.

The Clerk said the railings would hardly hold gates. It could be closed by chains. A Mr. Broderick—Anything to stop

The Pound.
Mr. Clancy called attention to the condition of the local pound, to which

condition of the local pound, to which there was no gate.

Mr. Broderick said it was a great nuisance and should be seen to.

The Clerk said it was a matter for the County Council, whose trouble was that they wern't sure as to the ownership, but there was no doubt that it belonged to the County Council.

It was decided to again call the attention of the Co. Council to the great nuisance caused by the neglected condition of the pound.

Light At Night,
Mr. Broderick complained that sometimes there were no lamps lighting in the Main Street during the night. That was a very serious matter for doctors

Agricultural Conditions

1st. AUGUST 1931.

Weather and Farm Work.—The weather during the month of July was very unsettled and generally cold for the season. Thunder accompanied by heavy rain was experienced in many areas. Dry periods of more than one or two days duration were rare, and seasonal farmwork—particularly hay-making—was seriously retarded. Hay-making under difficult conditions, the spraying of potatoes, the thinning of turnips and mangels, and, the after cultivation of these crops, represented the bulk of farm work accomplished. The cutting and saving of old meadows became impracticable owing to unfavourable weather during the latter portion of the month. Little progress was made with the saving of turf.

Pastures and Live Stock.—Generally pastures were abundant and live stock were in fair condition and in good health, and most provincial fairs, but trade was very quiet with falling prices. Trade in fat lambs was seriously affected by the export restrictions but may be the month of the month. Little progress was made with the saving of turf.

Pastures and Live Stock.—Generally pastures were abundant and live stock were in fair condition and in good health, and most provincial fairs, but trade was very quiet with falling prices. Trade in fat lambs was seriously affected by the export restrictions but may be the month of the month

pastures were abundant and live stock were in fair condition and in good health. In parts of Counties Kerry, Roscommon and Leitrim, pastures and live stock have suffered owing to the excessive rainfall during the month. In low lying ground the land was, in many instances, saturated with water over the greater part of the month, and the condition of the pasture adversely affected live stock and milk

Haymaking.—Most of the first and second crop hay was gathered in good condition by the end of the first week in July, but as the month advanced haymaking operations became troublesome, and though much of the meadow hay cut during the early part of the month was injured by unavoidable ex-posure to varying climatic conditions, a certain amount of fair quality hay was put together. Large areas of old meadow had not been cut at the end of the month. The yield of the hay crop is reported to be above that of

other years. Cereals.-Wheat, oats and barley, generally have made excellent growth during July. With the heavier crops the chief anxiety is the risk of lodging which has already occurred to some extent in the richer soils. In low lying, cold and heavy soils the oat crop, though improved, has not fully recovered from the effects of heavy rainfall earlier in the season. These crops generally, under favourable weather conditions, give promise of a satisfac-tory yield. At present their appear-ance points to later ripening than is

customary.
Flax.—The flax crop is fair except in cold wet soils. Generally its appearance indicates that the crop will not be fit for pulling until later than usual.

Potatoes.—Most of the first and se-cond early varieties of potatoes have yielded up to or slightly below the average for other seasons. Blight is general, but, except in second early varieties, it has not spread to a very serious extent, due to earlier and more effective spraying of the crop in all districts, and to the low temperatures prevailing over He wished to point out that the road in question was outside their jurisdiction being in the hands of the County the tubers of second early varieties were affected with blight. Maincrop varieties were retarded in development owing to the wet condition of the soil and cold weather, and in some districts the crop has suffered seriously from these causes. The foliage is not as luxuriant as is usual at this time of the year, and generally the crop has re-ceived a definite set-back. It is anticipated the yields and quality of the tubers will be reduced accordingly. Root Crops.—The wet and cold condition of the soil seriously checked the mangel crop in the early stages of growth, and though this crop has made some recovery during July the effects of the earlier unfavourable conditions are still visible in most districts. Ex-

cept in a few midland counties reports indicate the yield will be considerably below that of other years. Turnip crops generally give promise of satisfactory growth, but the presence of finger-and-toe disease is fairly

The sugar beet crop is healthy and generally up to average. An unusua! amount of difficulty is being experienced in coping with the growth of weeds in tillage crops, due to the unsuitable condition of the soil for after

cultivation operations.

Cattle.—The health of cattle is good and no losses have been reported, though hoose in calves has made its appearance in a few counties. Fairs held during the month of July showed held during the month of July showed a reduction in numbers of cattle on offer and were not well attended by buyers. The restrictions applied to export live stock, consequent on the occurrence of foot-and-mouth disease in England naturally depressed trade. Towards the end of the month these restrictions were relaxed, and there was a slight improvement in trade at

mr. Dennehy referred to the death on that evening of a respected citizen, Mr. McCall, the Hon. Secretary, of the local Lifeboat Committee, in which he took a deep interest. He proposed a vote of sympathy with his bereaved widow and family.

Mr. Beausang seconded, the proposition which was joined in by Mr. O'Gorman, the Chairman and others and passed.

and lambs from 30/- to 38/- each.

Shearing is completed, and the clip is up to average weight. Demand for wool has been quiet at low prices. At Dublin Wool Sales, held towards the end of July, trade was brighter at the following quotations:—

Long wool washed, from 5\(^1\)d. to 7\(^1\)d. per lb. Long wool unwashed, from 4\(^1\)d. to 5\(^1\)d. per lb. Down wool washed, from 7\(^1\)d. to 8\(^1\)d. per lb. Down wool washed, from 6d. to 6\(^1\)d. per lb. Mountain wool washed.

6½d. per lb. Mountain wool washed, from 5d. to 5½d. per lb. Mountain wool unwashed, from 4½d. to 4¾d.

Pigs.—Bacon pigs offered for sale show a decrease in number, but the supply of store pigs and bonhams on offer was large. Prices for all classes of pigs were less, and bonhams sold at very low rates. Considerable fluctuations in values took place during the month. In the earlier markets the average range of prices was from 51/to 54/- per cwt. dead weight, or approximately 38/3 to 40/6 per cwt. live weight. As the month progressed prices fell, but recovered slightly towards the end of the month, ranging from 46/- to 53/- per cwt. dead weight, or approximately 34/6 to 39 9 per cwt. live weight. In the Northern markets of Saorstat Eireann prices showed similar variations ranging from 52/to 57/- per cwt. dead weight at the beginning of the month, and towards the close of the month the range of prices was from 47/- to 52/- per cwt. dead weight.

Bonhams were easy to purchase at prices from 12/- each upwards. Reports indicate that breeding stocks

have not been seriously depleted. Horses.-The horse trade shows little change from conditions obtaining in the previous month. Good farm horses sold at from £20 to £35; troopers £30 to £45. Horses likely to make hunters were sold at from £40 to £60.

Milk.—Supplies of milk to crea-

meries showed an appreciable decrease in several areas, though over a large part of the country they were reported to be normal for this season.

He questioned Heaphy who said he must have taken them himself and sent them home and witness replied that he (Heaphy) must have taken them. Heaphy, thereupon struck him. As a result witness went to the barracks and result witness went to the barracks and result a complaint. Heaphy came after a foul against Waterford on both sides. Despite a strong wind against them in the first half, the visitors hurled vigorously, their forward line worrying Waterford constantly, and, as expected, they open ed the scoring with a point per Minney and a complaint. result witness went to the barracks and made a complaint. Heaphy came after him and in the hallway struck him with his clenched fist, knocking him into a bicycle which cut him a little. Heaphy then said he would do the same again, and the Guards put him into the dayroom till he left for home. Cross-examined by Mr. Macnamara—Before the first assault, didn't you charge him with stealing plants?—No, but he accused me of taking my own plants and I said perhaps it might be

Mulcahy that the plants might have gone home before.

The Sergt, said that although it was not before the Court, he understood that Mulcahy had been threatened by another member of Heaphy's family.

The Justice said he would take it that Heaphy felt aggrieved and grew excited when he went so far as not merely to strike Mulcahy in the shoo, but followed him down to the barracks and assaulted him in the presence of the Guards themselves. That was the most serious part to his mind. He would make allowance for his excitement and let him off with 10/- fine in each summones.

SWEEP.

A visitor to the Sweep Offices, Dub-lin, last week, had a decidedly unusual proposition to put up. A smart, sun-burnt, Military type of man, he said he was paying a visit to Ireland in connec-tion with the Air Pageant, and that he tion with the Air Pageant, and that he occupied a high and confidential position in a military capacity to a well-known Chinese general. He claimed that this general was in full and undisputed control of a province in China comprising some 25 millions souls, and that in order to finance the expenditure on his military budget he was willing for one hundred thousand pounds down and a small percentage thereafter, to give the Hospitals' Trust the sole concession to run sweepstakes in his territory for the next ten years. He pointed out that not only was this a valuable territory in itself but it would give the concessionaires practically a monopoly of sweepstake husiness in China and indeed in the Asiatic Continent. The proposition was respectfully but firmly declined. ESTABLISHED OVER 100 YEARS.

It has been conclusively proved during the past few years that not only has spraying prevented potato blight, but it has almost doubled the crops in every in-stance. It also improves the quality of the potato by extending the period of

growth, thereby allowing the crops to come to maturity. The necessity for spraying this season may be more urgent than usual. The present weather is proving favourable for the spread of the disease which has already made its appearance in the South of Ireland. We stock the latest types in horse and knapsack sprayers and we also keep large stocks of sulphate of copper and washing soda. We shall be very pleased to answer any enquiries regarding quantity to be used per acre, and will quote special low prices for cash for

HOW TO KEEP UP THE WINTER MILK SUPPLY.

One of the greatest problems which has to be faced on all dairy farms is that of maintaining a good output of milk during the winter months. Unfortunately the better winter, price for milk is offset largely by the expensive feeding stuffs which have to be purchased in order to keep up the yield. Little satisfaction it to be derived from a rise in price of a penny or two per gallon if the cost of production has in-

creased out of all proportion to it.

It is because of the high cost of imported foods that in recent years considerable interest has been taken in the subject of preserving grass in forms other than hay. Successful at-tempts have been made at artificial drying, but unfortunately the cost of the necessary plant is prohibitive. There remains grass silage, the making of which has come so tremendously in-to favour in New Zealand, and which is making considerable headway in Ireland, where unfortunately we seldom have the type of weather necessary for

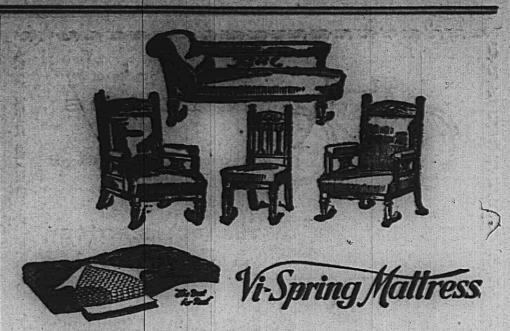

ing which has been carried on for hundreds of years, but with aftermath it is a different matter. Its manufacture into hay is often greatly hampered by bad weather, or short days and heavy dews, and when this is not the case the more serious claims of the corn harvest must be considered.

If a decision is taken to make aftermath into silage these problems do not arise. Bad weather has no effect on the crop and the advent of harvest in no way hinders the work. An enterprising farmer can often spend a couple of hours in cutting aftermath when owing to bad weather his men have knocked off from harvesting. Early the following morning, whilst the dew covered stooks are still unfit to carry,

the harvesting carts and gang may be profitably employed in putting on a layer on the silage stack.

The feeding value of aftermath silage is considerable. Particularly is this the case on manured land, and the crop will more than repay a small ex-penditure on one of the nitrogenous fertilizers like sulphate of ammonia or

It is in savings on purchasers that most progress can be made in farming to day, and it is surely a better proposition to make good, well-manured silage at a total stacked cost of about 15-a ton than to spend from £4 to £7 per
