

G. A. A.

MUNSTER HURLING FINAL. A CORK VICTORY.

At Clonmel on Sunday, inglorious sunshine and before an attendance of 15,000 spectators, Cork and Waterford met in the re-play of the Munster Hurling Championship. Two weeks previously the same Counties entered the lists, when the result was a draw though from every point of view Waterford won a complete victory. However, the referee's decision must be obeyed and so the teams went into training for the re-play. During the fortnight that elapsed the game was the sole topic of conversation amongst all followers of the game and though the majority were inclined to fancy Cork as the winners high hopes were entertained for the home team. The past record of Cork in hurling finals plus their long experience was a great advantage, but nevertheless, Waterford was a hard proposition, and carried a big lot of confidence.

The teams lined out with commendable punctuality, and were accorded a rousing reception, the National Anthem being played by the Waterford Piper's Band prior to Mr. Willie Gleeson, Limerick, taking charge of the fifteens. Waterford put up a strong fight for the greater portion of the opening half when it was evident that Cork were well away for a win. In all department's Cork held the mastery, a fact that was more pronounced in the subsequent stages of the test. There were a couple of accidents. Nearing the close of the game E. Coughlan, the Cork skipper, had to retire with an injury to the nose. His retirement was greatly regretted. Waterford, though much in arrears on the register, continued to play a hard but losing game. The half-time score was—Cork, 3-4; Waterford, 1-1; and the final score—Cork, 5-4; Waterford, 1-2. Cork met Kilkenny at Croke Park, Dublin, in the All-Ireland hurling final fixed for Sunday next.

FIRST HALF.

Waterford played against a light wind and Cork against the rays of a brilliant sun. The opening was marked by quite an uncommon degree of excitement. Cork were pressed and Waterford had gone over the line well inside their opponents' quarters, but "Fox" Collins stemmed the rush with a fine long field clearance. There was a sharp tussle at midfield where M. O'Connell and Jim Hurley made the presence felt against Shortall and Brown. Coughlan then came into the picture and Cork had some hard luck in sending wide. Hurley returned the delivery, and M. Aherne taking charge beat J. Ware for a point. The next stage of the test saw J. Regan figuring prominently but Waterford went on for an over in which Wise and Power did some useful work. Cork was again in possession, but were checked by some grand individual performances by Waterford. Coughlan forced another attack which was repelled to very effectively, and Waterford moving up Byrne captured the Cork net very neatly. This success was received with marked favour by Waterford's followers, who gave expression to their feelings in no ambiguous manner. The next passage was equally exciting, O'Grady, promptly bringing relief to his side. Aherne looked dangerous, but the defence withstood the challenge, and Waterford's forwards setting away J. Coughlan gave an attractive saving display in the mouth of his goal. Following a big duel Delea opened up an opportunity for Cork. It was smartly handled by M. Aherne, who beat Ware for a goal, and the supporters of Cork cheered the achievement. A hard shot from O'Connell was followed by a free to Cork, supported by O'Grady, but Cork were soon in difficulties until E. Coughlan came to the rescue. Pressing with much determination Waterford succeeded in reaching the other end, but failed to finish the movement with a wide. After a series of intensive bouts in all departments, in which T. Barry and D. B. Murphy, were conspicuous, M. Aherne got through for a minor, despite stubborn opposition. Renewing the offensive Cork's forwards lost an opening for a score, but a free coming their way Hurley responded with a well-judged point all the way. Not many minutes later Waterford had a free, and a desperate tussle raged round the Cork net, but the back line was solid. A Waterford player was temporarily knocked out. A strong cohesive effort by Cork marked the ensuing challenge. Cork pressing away from a seveny. Waterford net had a narrow shave. The offensive was again taken up for M. Aherne, supported well by his brother to put Cork ahead a further point Morgan Madden having stopped a movement by Waterford, O'Connell followed up with a telling shot, which enabled Clancy to pull off a goal. The same player was responsible for a like register a couple of minutes after this. The score now read—Cork, 3-4; Waterford, 1-0. Just before the short whistle Waterford had a point up leaving the register—

CORK—3 goals 4 points. WATERFORD—1 goal 1 point.

SECOND HALF.

The game was continued with Waterford getting a free in from the side line, but O'Connell was not to be beaten, and he pulled off a very clever clearance when the situation looked menacing. Returning again Power, Butler and M. Wise forced an entry but D. B. Murphy, O'Grady, and Barry held them well, and eventually the ball went out at the Cork end. A hot offensive by

Cork characterised the following passage, the Waterford net enjoying an escape from T. Barry. Waterford had much the better of the next test, but Cork's tackling, more speedy work, and closer cohesion were obstacles beyond the control of their rivals, who were, however, not dismayed by the odds against them. After a number of duels M. Wise was put in possession, but his shot, though accurately judged went over the line by inches. Soon after Waterford were awarded a free, which was unproductive, and following this phase of the play M. O'Connell had a try for a goal. James Ware saved splendidly. O'Grady having put up a goal for Cork, a free to Waterford was returned by J. Hurley. In the next stage a seventy went to Cork off a drive by M. Aherne. It was taken by Hurley and stopped by Shortall. Play was then interrupted by an accident to a Waterford player, who had to go off and after a short resumption D. B. Murphy had to discontinue owing to an injury. Having received attention from the trainer, he resumed, E. Coughlan, Delea and M. Aherne putting in fine work for Cork. At this point the score stood—Cork, 4-4; Waterford—1-1. A free to Cork saw them get a goal, and after further play, E. Coughlan, the Cork skipper, received an injury to his nose, which necessitated his retirement. His place was filled by J. Kennelly, St. Finbarr's who was an excellent substitute. The final score was—

CORK—5 goals 4 points. WATERFORD—1 goal 2 points.

The teams were—
Cork—J. Coughlan, M. Madden, E. O'Connell, P. Collins, D. B. Murphy, J. O'Regan, T. Barry, J. Hurley, M. O'Connell, E. Coughlan, M. Aherne, P. O'Grady, P. Delea, P. Ahearne, W. Clancy.

Waterford—Jas. Ware, J. Ryan, C. Ware, J. Fanning, R. Power, J. Ware, F. McCormack, D. Shortall, P. Brown, N. Fardey, D. Wyse, J. Power, M. Wyse, L. Byrne, J. Butler.

HEARING CALVES ON A LIMITED SUPPLY OF MILK.

Some dairy farmers find it difficult to rear their own calves owing to the greater proportion of the milk produced being sold off the farm. In such cases it is possible that, could some effective milk substitute be devised which would reduce the quantity of whole milk required to a minimum, a greater number of good heifer calves would be reared. Mr. James Mackintosh, of the National Institute for Research in Dairying, at Reading, has been doing very useful work in this connection. He tackled the problem in two ways. First the composition of milk was studied and mixtures of cake, meal, and grain were made up to approximate as nearly as possible to whole milk. Secondly the palatability of individual foods was studied by giving individual calves a free choice, so that those foods might be selected for the ration which calves will eat readily at an early date.

A TYPICAL RATION.

From these experiments it was evident that linseed cake must be one component of the ration and that the proportion of meals used could be varied without affecting either feeding value or palatability. A typical ration was—Linseed cake, 30 per cent.; crushed oats, 40 per cent.; maize meal, 20 per cent.; and fish meal, 10 per cent. Fish meal is the most expensive item, but some such supplement rich in protein and mineral salts is necessary to make a complete food for young growing stock. At Reading the experiment was tried on a few calves of substituting a mixture of extracted soya bean meal and chalk, and the result was quite satisfactory, though there was no great saving cost.

METHOD OF FEEDING.

The general practice adopted was to leave the calf with its dam for four days after birth; on the 4th day it was transferred to a pen, and for the next three to four weeks it received one gallon of whole milk daily—two quarts in the morning and two quarts in the afternoon—just after the milking of the cows, so that milk warm from the cows was available at each meal. During the third or fourth week a little good hay was available and a handful or so of dried cake and meal mixture given either in the bottom of the milk pail just after each feed of milk or in a separate trough fixed to the side of the pen. From the fourth or fifth week onwards the daily allowance of whole milk was reduced and the amount of dry mixture increased until by the seventh, eighth, or ninth week the whole milk was stopped entirely and the feeding thereafter consisted of dry cake and meal mixture, good hay, and water. Clean water, slightly heated during the winter, was given at the hours when milk had been given, and about three quarts were given twice daily. No difficulty was experienced in getting the calves to eat the dry mixture offered them, and scouring or other disturbances were practically unknown. The dry mixture allowance was increased as quickly as the calf would eat it up to 3 lbs. to 4 lbs. a head daily.

To test the real worth of milk in calf-rearing, the quantities allowed to the calves were varied from 30 gallons to 60 gallons. From Mr. Mackintosh's figures it appears that the subsequent growth records and general history of the calves which received less than 40 gallons of whole milk were perfectly satisfactory. Those which were given more milk showed no corresponding advantage after the age of five or six months.—"Farmers' Gazette."

YOUGHAL REGATTA

IMMENSE CROWD AT POPULAR FIXTURE.

EXCITING INCIDENT. RESCUE OF SALMON YAWL CREW.

Luckier than other recent fixtures of the kind, the Youghal Regatta Committee pitched upon a fine day, Wednesday 26th August, for their venture some event. The weather in the morning and forenoon was ideal for aquatics, but as the day advanced, the light summer breeze that prevailed developed into a blustering south-easter proving somewhat too much of a huffal for smaller craft, and hindered some from coming into scratch. As a result a rather exciting incident took place at the starting of the Salmon Yawls sailing race. While hoisting the lug, something jammed in J. Brennan's boat, and before it could be cleared, over she went, throwing the crew into the water. Fortunately, all three scrambled on to the keel and held on while M. Buttiner's boat, D. Crotty's motor boat, the new Youghal motor lifeboat, "Laurana Sarah Blunt," and others rushed to the rescue. Buttiner took off the coxswain, and the lifeboat took J. Bennett and J. McGrath aboard, amid cheering from the crowds assembled on the Mall and quays.

Towards evening the breeze moderated somewhat, and all the scheduled events were run off successfully.

Mr. Bateman, Bandon, added a novel spice to the proceedings by arroping over the scene all through the day.

An immense gathering from all the surrounding districts arrived by train, and all manner of motor vehicles for the Fireworks exhibition, supplied by Messrs. Brock. It was held in the Green Park, and it elicited the warm admiration of all the only drawback being that at times the spectators, owing to the direction of the wind, were enveloped in a regular smokescreen.

The No. 2 Army Band excelled itself, and contributed largely to the general enjoyment of a really enjoyable day and night, every item on the programmes following being warmly applauded.

By kind permission of Col. C. McAlister, Officer Commanding Cork district, the following musical recitals were given:—

At the Regatta—March, "El Capitán," Sousa; Overture, "The Bohemian Girl," Balfe; Waltz, "My Dream," Waldteufel; Fantasia, "Let Erin Remember," Brase; "Barcarolle," Offenbach; Selection, "Iolanthe," Sullivan; Rhapsody, "Hungarian Rhapsody No. 11," Liszt; March, "Review March," Brase. "The National Anthem."

At Fireworks—March, "Tannhauser March," Wagner; Overture, Orpheus in "The Underworld," Offenbach; Waltz, "Espana," Waldteufel; Selection, "New Sullivan," Sullivan;—"Melody in F," Rubenstein; Selection, "Faust," Gounod; Fantasia, "Songs of the Gael," O'Donnell; March, "The Green Flag," Brase. "The National Anthem."

Conductor—Lieut. Arthur Duff, Mus. B. B.A., T.C.D.

The officials and Committee have every reason to congratulate themselves on the all-round success of the event, especially in view of the fact that it was rushed on in a few weeks. The result achieved ought to be an encouragement to them to go even one better next time. The brunt of the heavy work involved fell on the officials—Chairman: Mr. J. R. Smyth, P.C., U.D.C., Starter: Mr. T. G. Field, Judge: Capt. T. Browne, Hon. Secs Messrs, M. H. Walsh, P.C., Town Clerk, and D. J. Linehan, U.D.C. Committee of the day: Messrs. P. J. O'Gorman, P.C., U.D.C.; T. Harrington, U.D.C.; A. J. Fowkes, U.D.C.; E. Clancy, U.D.C.; J. Murphy. RESULT OF RACES.

Local Yachts and Centre-board Sailing Boats (handicap). This event elicited a fine exhibition of sailing, which was keenly followed. After a perfect start in the teeth of a breeze that laid all down to what appeared a dangerous angle, they all beat out the harbour in grand style. A gruelling race ensued around both Bay Buoys, and M. J. Macnamara passed the flagboat leading. He was followed by Col. Ronayne's "Slainte," which missing stay fouled with a ketch at the quayside within 50 yards of the finish. Result:—J. Macnamara, 1st; F. McLean, 2nd. Gig Race (Challenge between fishing crews from Ardsallagh and Knockadown).—After a well-contested struggle an Ardsallagh crew won by three lengths.

Visitors' Gig Race—Following an amusing foul at the very start, two boats got away only to foul again amid shouts of merriment.—J. McCabe (Coxswain), 1st; R. A. Twomey, 2nd.

Salmon Yawls Sailing (Open)—Four started. One capsized, and so strong was the breeze at the time that two others had to give up. The race was awarded to J. McGrath, who made best way under difficult and risky conditions.

Blackwater Coats—R. Morrison, 1st; J. Aherne, 2nd. Four completed.

Gig Race (confined Southern Rowing Club)—J. Manual, 1st.

Salmon Yawls Rowing (confined to Harbour). Junior crews, 21 and under.—Michael Buttiner, 1st; Maurice Buttiner, 2nd. Four completed.

Yachts' Points—T. McGrath, 1st M. Mulcahy, 2nd. Four completed.

Salmon Yawls Rowing (confined to Harbour). Junior crews, 21 and under.—Michael Buttiner, 1st; Maurice Buttiner, 2nd. Four completed.

Motor Boats, Inboard Engines (handicap) (five times around flagboats)—J. Orpen, 1st; R. J. Flavin, 2nd; A. N. Cole, 3rd.

Challenge Gig Race between Pacific Hotel Visitors and Youghal Bankers. After an interesting and gruelling race keenly followed by the spectators, the Bankers (Mr. J. Kelly, cox) won by a few yards.

Salmon Yawls Rowing (open)—J. Hassett, 1st; J. Hynes, 2nd. Four completed.

Two-oared Pleasure Boats (confined to harbour and river)—James Aherne, passed the flagboat first, but was disqualified for not doing the full course. M. Buttiner, 1st; P. Dwyer, 2nd.

Two-oared Pleasure Boats, Ladies Race—Much interest was displayed in this, the first race of its kind held locally. After a keenly-fought struggle, the boat "manned" by Misses Agnes Aherne (cox), M. Buttiner and P. Murphy, passed the winning flagboat first, with Misses Peg Flavin (cox), E. Murphy, and L. Bowen, good runners-up. The third boat was close behind them. Four completed.

Swimming Race (100 Yards, Open)—W. Twomey, 1st; D. Thomas, 2nd. Six completed.

Duck Hunt—After a fine exhibition of swimming, W. Twomey succeeded in quickly capturing the bird.

Pig and Pole—This item excited the keenest interest and fun amongst the watching crowds. After a long drawn out contest, P. Fennell, Dungarvan, grabbed the prize.

New Education Schemes for the Gaeltacht.

SPECIAL GRANTS TO BE MADE

New education schemes for the Gaeltacht are announced by the Department of Education, including:

Additional facilities for the children of intensely Irish-speaking districts; and Secondary and University Scholarships.

Grants towards the cost of outfit travelling expenses, etc., will be made in special cases for students who obtain places in the Preparatory Colleges or are chosen for the special preliminary course.

Provision is also made for the payment of gratuities to National School teachers who prepare candidates for the examination.

ECONOMIC CONDITIONS.

The Department of Education, it is officially stated, has had under consideration for some time the question of providing additional educational facilities from children from intensely Irish-speaking districts, especially in the matter of higher primary and post-primary education. Since the establishment of the Preparatory Colleges there has been a dearth of suitable candidates from these areas at the entrance examinations. The reason for this are mainly economic.

Owing to the conditions existing in these districts children are unable to remain sufficiently long at school, and in most cases the parents are entirely unable to meet the heavy costs of providing outfits, etc., not to speak of maintenance charges, in residential schools.

In order to remedy this position as far as possible, the Department of Education, with the approval of the Minister for Finance, has revised the regulations for the admission of students to the reserved places in the Preparatory Colleges, so as to ensure the admission of a reasonable number of native Irish speakers each year.

PROVISION OF SCHOLARSHIPS.

Arrangements have also been made for the provision of a number of Secondary and University scholarships for clever boys and girls from these areas. These revised regulations and scholarship schemes apply only to children from intensely Irish-speaking districts in whose homes Irish is the language of ordinary use, and who have received their primary education through the medium of Irish.

For Fíor Ghaeltacht candidates the upper age limit for the entrance examination have been raised from 15½ to 16½ years.

One half of the places reserved for candidates who are adjudged to be fluent Irish speakers will, in future, be retained for native speakers, and a number of these will be allocated to the different main Fíor Ghaeltacht areas on the basis of the Irish-speaking population in each area.

A special preliminary course in Preparatory Colleges or approved Secondary Schools in preparation for the next following entrance examination will be provided for a limited number of the candidates who failed to secure places in the Preparatory Colleges, but whose answering at the examination showed promise.

Grants towards the cost of outfit, travelling expenses, etc.—not exceeding £30 for the first year and £20 for each subsequent year—will be made, where the circumstances warrant it, for students who obtain places in the Preparatory Colleges or are selected for the special preliminary course.

Prizes of £5 each will be awarded to candidates whose answering at the examination shows promise, but who fail to secure places in the Colleges or to obtain scholarships.

Small grants in aid of expenses in connection with attendance at the entrance examination will be paid to candidates living at a distance from the examination centre.

Eighteen scholarships will be awarded annually and will be tenable for a period of four or five years in approved

HANDICRAFT SUITS. If you want a REAL TAILORED SUIT TRY DALTON'S famous as "HANDICRAFT TAILORS" For more than a Century. Blarneys, Murroughs, Clayton's, etc. Suitings made by Man Tailors from £3. Indigo Navy Serges (colour guaranteed) from £2 15s. (cost of making included). No Post-Factory Orders taken. All your Suits will be made at LUKE DALTON'S, Merchant Tailor, 80 O'Connell street, Dungarvan.

OUT TO-DAY (SATURDAY, SEPTEMBER 5) FIRST ISSUE of The Irish Press The New National Morning Newspaper "THE IRISH PRESS" is to-day a FACT. THE New Daily is offered to the people of Ireland as something different in Irish Journalism—in its general arrangement, its editorial policy, and its complete and up-to-the-minute services of news and pictures. "THE IRISH PRESS" is above all a Newspaper. Its news columns will be free from all party bias. TRUTH IN THE NEWS has been adopted as the key-note—on the principle that if the people are asked to form political or other judgments they should be given all the facts. "THE IRISH PRESS" has two ambitions: to be the best newspaper in Ireland and, editorially, to reflect most faithfully the ideals and opinions of the Irish nation. Its national policy is for independence; its economic policy is for an Ireland fully self-supporting and self-reliant. NO expense has been spared to recruit the finest journalistic talent in the country, and premises have been planned and plant installed to place at the service of the Irish people one of the finest modern newspaper offices in these countries. EVERY thoughtful Irish man and woman will find in the New Daily the paper they have been looking for. It has something in it for every section of the community. ORDER YOUR COPY TO-DAY INSTRUCT your newsagent to reserve for you a copy EVERY DAY. Why not place your order NOW—while you think of it? Every Morning - ONE PENNY Advertisement of Irish Press Ltd.

Secondary Schools. Scholarship holders will be entitled to free education and free maintenance in these schools, and, in addition, an annual grant will be made to defray the cost of outfit, travelling, etc. These scholarships are intended to provide a full course of secondary education for the pupils. When they have completed their secondary course they will be eligible to compete for the University Scholarships, and for special reserved places in the Department's schools of Domestic Economy. The examination for these Secondary Scholarships will be the same as that for entrance to the Preparatory Colleges, and a number of scholarships will be allocated to each of the main Fíor-Ghaeltacht areas. UNIVERSITY SCHOLARSHIPS. A number of University Scholarships of £110 each per annum will be awarded by the Minister for Finance on the recommendation of the Minister of Education. These scholarships will be awarded on the results of the Leaving Certificate examinations, and will be tenable mainly at University College, Galway. The foregoing schemes will be put into operation next year. A beginning is however, being made in the present school year. Arrangements are well advanced for the establishment of a special preliminary course for the Preparatory College examination, to which about 25 students are being summoned. Six of the Secondary Scholarships and three or four of the University Scholarships referred to are also being awarded next month. The area of application of these schemes has been defined as— (1) The district west and north-west of Dingle. (2) The Aran Islands and Connemara, from the outskirts of Galway to Cashel (Co. Galway). (3) The west-central area of Tirconnell, as well as a few districts west of the line from Ardara to Killybegs. A few other less extensive Gaeltacht areas may also be included. RANGES AND GRATES. We are specialists in this particular branch and we devote more attention to it than any other department in our trade. We hold an immense stock of Open and Close Fire Ranges, Self setting Ranges, Cooking Stoves, Independent Ovens, Heating Stoves, Plain and Fancy Tiled Register Grates, Mantel Registers Slate and Marble Mantelpieces, Tiled Hearths, Brass Curbs, Fire Brasses, Fenders, Coal Vases and Hearth Rugs. We can furnish your house from top to bottom and we shall be only too pleased to give you an estimate for your wants and we guarantee perfect satisfaction to every customer. Harpur Bros., 48, The Quay, Waterford.

Diseases of Animals Committee.

CLEANING MARKET PLACES.

FAILURE TO DIP.

Mr. N. Fitzgerald, Chairman, presided. Also present—Messrs. T. Flynn, C. J. Curran, P. R. Power, J. Daly, and J. Roche. Mr. C. P. Hynes, V.S., was also in attendance.

At a previous meeting the Department wrote re the necessity for the thorough cleansing and disinfecting of markets etc., after fairs. In the course of the communication they stated—

The thorough and efficient cleansing and disinfection of markets etc., after use by the animals and before such places are again used for animals represents an important precautionary measure against the spread of contagious animal disease.

The Local Authority is empowered under the provisions of the Animal Transit Order of 1913 to make regulations in this respect.

They urged the Local Authority to carefully consider how far the adoption of such regulations can be made and effectively enforced as regards markets, fairs, sale yards, etc. They asked the Local Authority to submit proposals for dealing with the matter.

The Committee held that was a matter for the Board of Health, being Sanitary business and had the letter referred to that Body.

In reply the Secretary of the Waterford Board of Health under date 17/8/31 notified that while his Board would be glad to give every assistance possible in safeguarding the livestock industry of the County, they considered that they would be exceeding their powers in dealing with a matter of the kind.

The members were unanimous in the view that the straw litter used by hawkers in packing etc., and thrown indiscriminately around public places after fairs etc., was very likely to transmit diseases and said it was a matter for the Department to issue definite instructions in the matter.

The following resolution, proposed by Mr. Daly, and seconded by Mr. C. J. Curran, was unanimously adopted:—

With reference to the Department's Circular in connection with the cleansing and disinfection of places where fairs have been held, this Committee have found, after investigation, that the straw litter used by hawkers in packing cases and otherwise is very likely to transmit disease and request the Department to issue instructions to enable local authorities to deal effectively with this menace.

Tank at Comeragh.

The Clerk stated that a rent of £2 10s. per annum was being paid to Mrs. Mary Walsh, for the use in connection with Mountain Area Sheep Dipping of a concrete tank at Comeragh under the terms of a legal Agreement entered into between her and the Waterford County Council on the 21st May, 1914 for a period of 25 years. He understood that this tank was no longer used for this purpose owing to its unsuitability and to the erection of more modern tanks by the sheep owners in the district. The Agreement did not appear to contain a terminable clause, and he asked for the Committee's directions in the matter.

It was ordered that the Solicitors to the County Council be asked to advise as to whether the Agreement can be terminated forthwith.

Sheep Dipping at Melleray District.

Mr. C. P. Hynes, V.S., Temporary Veterinary Inspector for Lismore District, submitted a statement, showing that 488 sheep had been dipped under his supervision at the recent Special Summer Dipping in Mount Melleray Area, and also in a letter dated 22/8/31, wrote as follows:—

"In connection with attached report, I beg to report that two owners failed to bring their sheep to the tank at Knockanask for dipping and inspection, viz:—James Scantlon, Coolagortboy, Cappoquin, 80 sheep on Knocknasheega, James Coffey, same address, 7 sheep at Knocknafrehan.

"All sheep owners were notified by your Mountain Ranger, J. Hurley, Knockanask, and also by notices posted up.

I am of opinion that unless defaulters are strongly dealt with by your Committee the measures I have suggested to eradicate Sheep Scab in this District will become ineffective, and will encourage further default.

Chairman—It would nullify our work if all the sheep were not dipped.

Mr. Flynn—Have you power to bring them there?

Mr. Curran—Yes.

Chairman—The best thing would be to write to those people.

Clerk—The Autumn Dipping will take place soon.

Mr. Curran—If defaulters were allowed to go scot free, the rest will follow suit next time.

Mr. Daly—They should be either compelled to dip their sheep or prove they dipped them privately.

Mr. Power—Are the Guards the proper authority?

Mr. Curran—No. We are the authority.

The Clerk read the section of the Act enabling the Local Authority to deal with defaulters in Dipping.

Mr. Hynes said one man refused to bring his sheep as he feared they would get the mange. His sheep were dipped several times by him (Mr. Hynes), under the Sheep Scab Order and they would be the cleanest sheep there.

secute if they don't come in?

Mr. Flynn—Have not we power to compel them to come to the tank?

Mr. Hynes—You have.

Chairman—Would it be well to refer it to Mr. McCoy in the first instance?

Mr. Hynes suggested they write to warn them if they don't bring their sheep to be dipped the next time, they will be prosecuted.

Chairman—That would be sufficient for the present.

Mr. Hynes—There is always that class of difficulty at the beginning.

Mr. Daly—It is a dangerous precedent not to compel them to dip their sheep.

It was ordered that those owners be written to and informed that if they do not bring their sheep to the Autumn Dipping immediate proceedings will be taken against them.

NEW IRISH GROUP.

SUGGESTIONS TO PRESIDENT.

The following communication has been addressed to President Cosgrave:—

"National Centre Party.

"A Cara—I am directed by my Standing Committee to bring to your notice as head of the Government of the State, your urgent need for ameliorative measures of relief for agriculture, in view of this year's disastrous effects upon our primary industry. The urgency is so great that relief to be helpful cannot await any political action. The problem should be approached in a spirit of goodwill and a prompt solution can only come by raising the matter above political controversy.

"My Committee is prompted in this course by the communication you addressed to the Chairman of the County Dublin Committee of Agriculture in December last, wherein you recognised the urgent need to help agriculture and also by the view you expressed subsequently to a deputation from the Agricultural League, that you would consider sympathetically a proposal for complete de-rating if a case for abnormality could be made.

"I am to draw your attention now to the partial failure of the potato crop, the flooding of large tracts of meadow and pasture land, the poor corn prospects, low prices for cattle and pigs, and the record low prices for milk in the dairying industry. These facts are so well known that they do not require proof, and I am to ask that in view of their prompt action should be taken by the Government to relieve agriculture of the second moiety of the current rates. The grant of £750,000 to agriculture admits the principle of de-rating, but it is entirely inadequate to alleviate existing conditions. We do not ask relief financed by any taxation for we are satisfied such taxation is not necessary.

"The existing depression—apart from the losses due to bad seasons—is due entirely to ill-advised financial policy. For banking and currency were placed under the control of the Bank of England by our Currency Act of 1927, and thereby parted with the only possible means to foster our agricultural industry and commerce. That Act has left us now unprotected in face of the chaos of British finance, and left our note issue without any solid backing. Ours is the only nation without a gold reserve, and consequently we are helpless to promote trade with foreign countries save by England's permission. If British credit goes down so does ours, and our paper money becomes valueless. It is in the stabilisation of our money position that lies the only ultimate cure for existing depression. We urge strongly, therefore, the immediate necessity for prompt action in setting up an Irish Central Bank with a gold reserve, and control of our note issue. It will be remembered that the expert Government witness before the Banking Commission in 1926 urged in this course, but his advice was rejected by the Commission in the first instance and by our Government subsequently. We now know that his expert's advice was right, and that the advice of the Banking Commission was wrong. The Government accepted the wrong advice and adopted the wrong policy, as events have proved, and they should now reverse that policy before it is too late.

"The need for national action, as distinct from political effort, is obvious. Ministers and Front Benchers of the Opposition have stated in the Dail that they do not understand the financial problem. It is therefore essential in the national interest that action should be taken by those who know the problem. Since no one, save the President is in the position to deal with the matter with promptitude it deserves, I am directed by my Committee to request you to take the necessary action to save the country from the disaster awaiting it if the apparently inevitable financial collapse takes place in England. It can not be too strongly emphasised or too publicly stated that this country has no real money with an exchange value. Our note issue is based on England's credit, and if that credit goes down our money becomes valueless. My Committee, therefore, appeals to you to take immediate steps to establish a central bank with a gold reserve in Dublin, and have our paper money covered by gold and Irish credit.

"Signed—P. Duffy, Secretary, National Centre Party."

HER WEDDING PRESENT.

Wife: I never had a temper until I married my husband.

Blackwater Fisheries.

Mr. E. A. Rice, Solr., Vice-Chairman, presided at the usual monthly meeting of the No. 4 or Lismore Board of Fishery Conservators, in the Devonshire Arms, Lismore, and the others present were—Messrs. E. C. Penrose, H. P. Maxwell, W. Baldwin and T. A. Montgomery.

Messrs. T. Drohan, Sec., and Inspector and W. Buckley, Assistant Inspector were also in attendance.

The Election.

The Secretary said he had received instructions regarding the Election of Conservators. There was no change in the formalities.

It was decided to hold the election at Fermoy on October 15th., and at Youghal on October 17th.

Employment of Bailiffs.

A letter was read from the Department approving of the extension of the employment of certain bailiffs for the period specified by the Board.

Mr. Baldwin—How many have you in the fresh water now?

The Secretary—5 in the fresh.

Mr. Baldwin—That is not enough. I think the men should be kept on.

The Chairman—That was our opinion too, but what's the good—the rates are too low.

Mr. Baldwin—It is a critical time. There is a lot of fish being destroyed.

The Chairman said it was fortunate one of the principal poachers was in retirement at present, (laughter).

Mr. Penrose—For how long.

The Assistant Inspector—A month.

The following letter was read:—

Fermoy, 14th, Aug., 1931.

Dear Sir—Your letter of the 8th inst. directed to Mr. Penrose of Lismore Estates Company, reached me to-day, on his return to his office on yesterday. The Company was aware from the newspapers of the resolution passed by the Board calling upon the Company to open Nos. 1 and 2 Hatches. When I saw the resolution, I had an interview with Mr. Penrose and was informed by him that the Board of Conservators wished those hatches re-opened. Instructions were thereupon given and an Engineer of very great eminence was at once engaged, with directions to have the work carried out under his supervision. He is proceeding with the opening of the hatches, and it is hoped that the work will be completed before a month.

May I suggest that you would look up the minutes of the Board of Conservators of something over 40 years ago and see if you will get recorded in those books a resolution calling upon the then Duke of Devonshire and Messrs. Foley to close up 3 hatches on the Southern arm of the Weir, which was done at considerable expense.

I think it was in 1918 a request was made to re-open the hatches next the Queen's Gap, and in compliance with that request that hatch was re-opened. Even at that time those interested with the upper waters didn't think it would be of service to the river to re-open Nos. 1 and 2 hatches.

It does seem a little unreasonable to find a request being made by the Board of Conservators and those interested in the upper waters to close up those hatches at one time and re-open them at another time. However, the request is now being complied with, and I think you can assume that those hatches will not be re-filled which will probably be the request of a future Board.—Yours faithfully,

ANTHONY CARRROL.

T. Drohan, Esq., Fishery Office, Malrow.

Replying to a question, the Secretary said he hadn't gone back 40 years on the minute books, but he had found the following letter had been read at a meeting of the Board held on 29th August, 1919.

Dear Sir—Re-Lismore Weir and Mr. Holt's inspection of the weir on the 16th. I have to state for the information of the Conservators that the opening of the hatches doesn't appear to be a matter in which Mr. Holt, acting in the name of the Department, could deal with by way of a certificate. The Department, while not in a position to offer a legal opinion, believes that if the owner of the weir desires to re-open the hatches of any of them wholly or in part, there is nothing to prevent him doing so. Per contra, there appears to be no authority to authorise any other person to interfere with the weir in any way.

They desire, however, to express the opinion that in the general interest of the supply of fish to the river system, any alteration of existing conditions should be confined to opening the hatch known as Poul Polleen, and that if this is done, the sill of this hatch should be raised to about the level of the water above the weir on the date of the inspection to such a height as may be found by experiment to maintain a satisfactory flow from the King's Gap, where the river is low, while relieving the pressure of water from the gap in high river. It is, of course, understood that the opening will be galed as formerly there appears to be no reason for the removal of the bank of gravel on the King's Gap, as it offers no obstruction to the passage of fish and seems, in fact to be merely the remains of a considerable island which existed at the same place when the gap was approved. The Department consider it most undesirable that the present condition of No. 1 and No. 2 hatches should be altered as it is reasonably certain that the passage of water through these hatches would lead to divert fish from the King's Gap and keep them impounded for an indefinite period in the back-water below the South Arm of the weir.

—Yours faithfully,

T. P. GILL, Sec.

Mr. Maxwell—That seems to completely upset what we have asked for. Mr. Penrose—Those hatches have been closed for the past 60 years.

The Chairman asked was there a grating across those hatches.

Mr. Penrose—There will be when they are opened.

Mr. Maxwell—Isn't it the contention that the fish can't get up to the King's Gap?

The Chairman—That is the contention now.

Mr. Montgomery inquired had they that report and Mr. Holt's before them when Major Lingfield was there.

Mr. Penrose—I don't think he knows a thing about Mr. Holt's report.

The Chairman, suggested that the proper course to adopt would be to leave the matter over for the Major's attendance.

The Secretary—The work is being done now. It seems like building up a house and taking it down again.

The Chairman—In that case we can't do anything.

After considerable discussion as to the probable results of the opening of the hatches, it was finally decided to adjourn the matter till next meeting when Major Lingfield would be present.

The Secretary stated that he had received a letter from the Major to the effect that he would be unable to attend that day.

Mr. Penrose suggested that the Secretary send a copy of Mr. Gill's letter to the Major.

Mr. Maxwell said that some people had got a wrong impression of Major Lingfield's object—that he was up against the Duke of Devonshire. That impression was completely wrong, the Major's object was to try and improve the fishing on the river.

Mr. Montgomery—He is working for the general interest of the whole river.

Mr. Maxwell—And he is going to a great deal of trouble in the matter.

The Secretary was directed to send a copy of Mr. Gill's letter to the Major.

Escape Of Fry.

Mr. Montgomery drew attention to the fact that fry were escaping from the Mill Race near Fermoy.

After some discussion as to the best method of remedying the complaint the Assistant Inspector was instructed to procure estimates for the necessary work.

Letter From Knockadoon.

The Secretary read a letter from J. O'Mara, fisherman, Knockadoon, asking for the return of his anchor and gear, which had been seized with his net sometime ago.

Replying to the Chairman, the Secretary said the net, which was very much over length had been seized and forfeited last February. The net had been sold for £7.

Mr. Maxwell—Who bought it?

The Secretary said the owner. He (The Secretary) had received a letter from Mr. Brazier, M.C.S., laying the man's case before them, and stating that the poor man was unable to go fishing for whiting for want of gear.

Mr. Baldwin suggested that in the circumstances they return the anchor and gear to the poor man. It was hard to keep him without his means of livelihood.

The Chairman pointed out that they had been used for illegal fishing.

Mr. Baldwin—It may not happen again.

Why were they not put up for sale with the nets?

The Secretary said it might only invite more poaching and the Conservators were strongly opposed to the form of poaching involved. The return of the gear might only tend to foster it.

Mr. Montgomery—I agree with you.

Ultimately Mr. Baldwin, proposed, that the gear be returned to enable the poor man earn something.

There was no seconded.

It was decided to let him have them for £2.

New Motor Launch.

The Secretary said he had one tender for the building of a new motor launch suitable for patrolling the fisheries on the sea coast in their district. He had also got some correspondence regarding second hand boats.

After some discussion it was decided to advertise again, in a marine motor Journal, and the Secretary was directed to write to the Department, regarding a grant towards the project.

Reduction of Penalties.

Reference was made to the penalties imposed on poachers.

The Chairman said there was nothing to be gained by leniency of the kind. There was an instruction lately in which a noted poacher was dealt with lightly, and on that very night the river was blown up from end to end.

The Farmers' Famous Footwear—Dryfoot Brand.

Stocked in all Styles—Beva, Zug, Chrome, Kip and Split, Nailed and Plain Bottom.

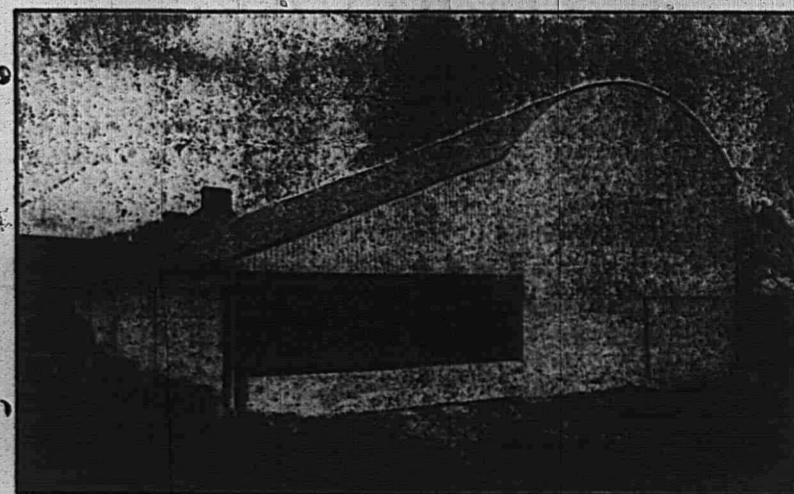

Gents Box Calf Derby Boot, unlined, standard sewed and stitched. Made for hard wear. Price 12/11. Gents All-Kip Boot, Whole Back and Cap, sewed and Stitched Toe Plate. Full tip. Price 15/9.

TO FARMERS!

Do you realize the opportunities which are offered you at present of placing on your farms two of the most important things to help you in your every day work—

HAY BARNs and CATTLE SHEDs.

You have prices practically down to Pre-War rates and you are offered from 25 to 30 years for the repayment of same at a reasonable rate of interest.

Don't you think it worth while dropping me a post card asking me to call on you and give you all particulars, and you will be under no obligation to purchase.

I represent one of the leading Firms in the Trade for above and if you are purchasing for cash and will advise me, I will take you to the Works where you can select your shed, which will be delivered to your haggard per lorry, with scaffolding.

If you are thinking about a barn I hope you will place your order with me. By doing so you are supporting local industry and labour, and dealing with a firm of 100 years reputation for solid workmanship and material.

COAST GUARD LIFE-SAVING DISPLAY AT HELVICK.

A very effective rehearsal of Rocket and Life-saving practice took place at Helvick, on Friday afternoon, 21st inst. Under the careful supervision of Mr. John Morgan, Inspector and Mr. Charles Shuce (No. 1 of Coaxswain) a rocket was fired in a high wind at a range of over 2,400 yards and carried to take with remarkable precision exactly over the "mast" of a fictitious wreck. This was followed by a demonstration of the latest word in breeches buoy life-saving apparatus and instruction in first-aid to the victims of ship-wreck. An interested group of spectators watched the pro-

ceedings. It is a high tribute to the efficiency of our local crews and of their instruction staff that operations of such delicacy and supreme importance can be rapidly and successfully performed. It was also a gratifying thought that our advances towards independent nationality should be accompanied by brave and kindly co-operation in the world-wide brotherhood of the sea.

Mr. T. Phelan, N.T., Traamore, who has been appointed Principal of Ballymacart School, is son of Mr. Phelan, N.T., Clonsa, Co. Waterford.

GREAT WATERFORD HURLING COMBINATION.

At Waterford Gaelic Field, Sunday
week, Waterford Juniors won the hurl-
ing Final of Munster and judging by
the excellence of their display in de-
feating Tipperary they should have no
bother with a bit of luck in putting the
Junior All-Ireland Final to their cred-
it later on. The team, which was
splendid in every part of the field was
composed as follows:—R. Condon,
(Capt.); J. Curley (goal); T. Condon,
N. Condon, W. Sheehan, (Tallow); D.
Goode, T. Greaney, J. Murphy, and S.
Whelan, (Dungarvan); M. Morrissey,
(Dunhill); P. Hannigan (Erin's Own); G.
Kahoe, (Ballytruckle); J. Jones, (De La
Salle); J. Hunt, (Ballyduff); J. Ormonde
(Lismore); J. Harigan, Tallow, played
as a substitute.

ESCAPED FROM CUSTODY:

EAST CORK INCIDENT RECALLED

ACCUSED SENT FOR TRIAL.

The escape of a handcuffed prisoner
last week from the Midleton Civic
guards barracks and his recapture af-
ter two days' freedom, had a sequel at
Youghal District Court, when the man
in question, Patrick Mulcahy, appear-
ed before Br. G. P. Farrell, B.L. The
prisoner, a middle-aged man, was
brought to the court handcuffed to two
members of the Gardaí and remained
so during the hearing of the case.

In answer to the Justice, Inspector
Ryan, who appeared to prosecute, said
the accused was wanted in a large
number of charges in different parts
of the country and it was only proposed
at that hearing to proceed with two
charges (1) breaking and entering a
dwelling-house at Bihery, Midleton,
and stealing therefrom a bicycle and a
number of other articles, and (2) break-
ing and entering a dwelling-house at
Clismore, Youghal, and stealing there-
from a shot-gun and a number of
other articles.

Sergeant Whelan, and Guard O'Shea,
Midleton, gave evidence of having ar-
rested the accused at Brooklodge, Glan-
shire, on Wednesday, August 19th. He
attempted to escape from them, and
they had to tie his hands behind his
back.

A number of other witnesses having
made depositions in this and other
charges in which Supt. O'Shea, Dun-
garvan, prosecuted, the Justice return-
ed the accused for trial in custody to
the next sitting of the Cork Criminal
Court.

DEATH. MULLINS—(Abbeyside), August, 29th, 1931—At her residence, King Street, Abbeyside, Annie May Mullins, deeply regretted by her sorrowing Parents, Sister and Brothers. Sacred Hearts of Jesus and Mary grant her rest.—R.I.P.

ACKNOWLEDGMENT. MRS. MULLINS, and family, King St., Abbeyside, wish to return sincere thanks to the many kind friends and Boy Scouts, who sympathised with them in their recent great sorrow.

LOCAL HAPPENINGS.

LOCAL PRIZE WINNER. At the Limerick Show last week Miss M. C. White, South Terrace, was awarded first prize for the best Fruit Cake and 3rd prize for Cooking apples.

DEATH OF MISS MULLINS, ABBEYSIDE. Sincere sympathy is extended to Mr. and Mrs. Mullins and family, Abbeyside, in their sad bereavement caused by the early death of their daughter Annie Mary, which occurred on Saturday last, after a brief illness. Deceased was a charming young lady, whose affability endeared her to all who had the pleasure of her acquaintance and her early death is deeply regretted. The funeral to Abbeyside Parish Church, on Sunday evening was largely attended. On Monday after Requiem Mass, the interment took place in the presence of her family and a large attendance of the general public. Several beautiful floral tributes were laid on the grave.—R.I.P.

DEATH OF MR. JOHN DOWER, DUNGARVAN. We regret to announce the death of Mr. John Dower, Dungarvan, which occurred at the District Hospital here, last Friday after a brief illness, fortified by the rites of Holy Church. Deceased was son of the late Mr. Wm. Dower, Carrigeen, and was a most esteemed and popular young man. A brilliant student in his day, he was engaged for a number of years as Professor of Irish under the County Technical Committee. An authority on the National tongue and an expert teacher he was most efficient in every way and was most esteemed by all who knew him. Sometime ago his health broke down and in the prime of life he has passed away to the great grief of his family and numerous friends.—R.I.P.

On Saturday evening, the remains were removed to the Old Parish Church and were followed by a large cortege. On Sunday the interment took place in the family ground adjoining in the presence of a large attendance.

DEATH OF MR. JOHN CONNORS, KNOCKENPOWER, COLLIGAN. On Saturday last, Mr. John Connors, Knockenpower, one of the best known farmers in the area passed to his eternal reward after a brief illness. He had reached a ripe age and was a splendid type of Irishman. Held in the highest esteem by his neighbours and a general favourite with all who knew him his loss will be much felt. His bereaved daughters have the deepest sympathy in their loss.—R.I.P.

The interment took place in Colligan Churchyard, on Monday, in the presence of a large gathering.

ABBEYSIDE SPORTS. On to-morrow (Sunday) the Annual Sports and Regatta will be held at the Sportsfield, Abbeyside, and granted fine weather the event should be the most successful yet held. The Prizes offered are most substantial. The programme is large, varied and most attractive. Held under the patronage of the St. Vincent de Paul Society of which Very Rev. Father Crotty, P.P., is spiritual Director, and Mr. M. J. McCarthy, President. Sunday's event should draw an enormous attendance and deservedly so. Since his advent to Abbeyside Parish, Father Crotty has done wonders for the upliftment of his people and has almost completed the Boys Club, as well as providing a splendid Sportsground. We are sure that the public will flock to the Sports on Sunday and show their appreciation of the great work that is being done for the people of the Parish—young and old. The programme will be opened with a Drill display by St. Joseph's Boy Scouts. Dungarvan Brass and Reed Band will attend. First event at 2.30 p.m.

ACCOUNTANTS FOR DUNGARVAN. We are pleased to note that Messrs. J. F. Cummins and Co., Accountants and Auditors, whose Head Office is 37 Barronstrand St., Waterford, are having offices at 16, O'Connell St., Dungarvan to facilitate clients. We understand that Mr. James P. Cummins, P.C.I., F.B.A.A., the Principal of the Firm intends to attend personally and interviews may be arranged by appointment.

MERCY CONVENT, DUNGARVAN. To-day we publish in detail the excellent results obtained by the pupils of the Mercy Convent, Dungarvan, at the recent examinations. A perusal of these results shows that year by year they go on increasing notwithstanding the fact that the tests are becoming more and more difficult. In the Intermediate Certificate all the pupils put forward were successful which is a wonderful record, and considering the wide range of subjects reflects the highest credit on the efficiency of the teaching staff. In the Secondary course examinations an equally honourable re-

cord was made. Honours and Passes fell to the credit of the pupils in big numbers, and we don't think it could be possible to have done better. At the examinations held by the Leinster School of Music and the Cork School of Music the pupils won several distinctions, and almost all got honours. In every department of the Educational curriculum—Literary—Commercial—Musical—the Mercy Convent has covered itself with glory and has given one more solid proof even if it were needed—of the sound practical education they give to their pupils. On behalf of the general public we congratulate the Mercy Convent on the results achieved in open competition and tender to their brilliant teaching Staff and pupils the heartiest thanks of all.

ST. AUGUSTINE'S SEMINARY, DUNGARVAN. Dungarvan has ever been proud of St. Augustine's Seminary, and the noble work they have done at all times in the broad educational field. This year they figure very high in the results of the University and Intermediate Examinations, having had a 100 per cent Passes. Of the 7 pupils presented for the Intermediate Certificate all passed 5 with honours. That is a record of which St. Augustine's may feel justly proud and a tribute to the excellent teaching Staff and the worthy and popular Rector—Father Walsh, O.S.A. We are sure as the time goes by St. Augustine's Seminary will loom even larger on the educational horizon and bring further laurels to this old town with whose history it is so closely interwoven.

CHEAP LEGGINGS. Special line of leggings going for half price this week. Splendid value. Fraher's, Dungarvan.

FATAL ACCIDENT AT HURLING FINAL. On Sunday last at the Hurling Final at Clonmel, a number of persons were on a shed viewing the match when the structure collapsed throwing over a hundred to the ground and injuring several. Palk Fitzgerald, aged 38, of Barrack St., Waterford, was badly injured and was removed to the Cottage Hospital at Clonmel, where he died on Monday. Deceased was an enthusiastic follower of Erin's Own. The other injured people are progressing favourably.

Abbeyside Annual Sports and Regatta. WILL BE HELD ON SUNDAY, SEPTEMBER 6th, 1931. AT ST. JOSEPH'S BOYS' SPORTSFIELD, ABBEYSIDE.

The Dairy Cows and In-Calf Heifers are of an excellent quality and deep milkers. The same high standard for which the Tourin Herd has ever been noted applies to Pigs and Sheep. The Agricultural Machinery and Implements are all of the newest and most up-to-date pattern and were only recently installed. This Sale is one that commends itself wholeheartedly to Farmers and Dairy Farmers who wish to have the best. For further particulars and Catalogue of Sale, apply to:— FLAHAVAN, HARTY & Co., Auctioneers, Valuers and Estate Agents, Dungarvan and Kilmacothomas.

FEAST OF ST. AUGUSTINE. The Feast of St. Augustine was duly celebrated at St. Augustine's, Dungarvan on Sunday last. Solemn High Mass was celebrated at 11.30 in the presence of a large congregation. The celebrant was Very Rev. P. J. Redmond, O.S.A., deacon, Rev. J. Law; and sub-deacon, Rev. P. Coffey. The music of the Mass was rendered by a special choir, Mrs. O'Hara, presided at the Organ. The hymn of St. Augustine was sung beautifully. At the evening devotions rosary was recited by Fr. Redmond and the hymn to St. Augustine was again splendidly rendered. Very Rev. Fr. O'Donoghue, O.S.A., Limerick, delivered a powerful panegyric on the life of St. Augustine and dealt with the various phases of his career and his work for the Church in a masterly manner. The large congregation closely followed the learned preacher's words of wisdom.

Each Night at 8.30 p.m. Matinee Thursday at 3.30 p.m.

MONDAY AND TUESDAY SEPTEMBER 7th and 8th. GRETA GARBO AND LEWIS STONE in Romance

The Celebrated drama that ran for three years on the London stage. The tragic love story of an opera singer who sacrificed her own happiness for another. Greta Garbo plays the part of the Italian opera singer who, at a farewell appearance in New York meets and falls in love with Tom Armstrong, the young pastor of a New York Church. Realizing that her past life is not altogether blameless, she shows preference for his best friend (Lewis Stone), and sends him away, letting him believe her faithless. The story is laid in old New York in the picturesque days of 1865 and the quaint costumes and crinolines of that period form a most attractive background for the story. Greta Garbo and Lewis Stone give the finest performances of their careers, while an excellent supporting cast introduce some delightful comedy.

A BEAUTIFULLY PRODUCED PICTURE WHICH GIVES GARBO THE FINEST PART OF HER ACTING CAREER. THE STORY IS WELL AND INTERESTINGLY TOLD AND ALTOGETHER IT IS AN EXCELLENT PICTURE. "Daily Chronicle." ALSO MOVIE-TONE NEWS AND COMEDY.

WEDNESDAY AND THURSDAY, SEPTEMBER 9th and 10th. RUTH CHATTERTON in The High Road

The Spectacular screen version of Frederick Lonsdale's world-famous play. Ruth Chatterton, America's leading Actress in a sparkling satire of modern London Society. "The High Road" is the story of a Musical-Comedy Actress who becomes engaged to the son of a peer and is taken into high Society to be "educated." Instead, she "educates" high society, in a series of hilarious comedy incidents—teaches the prim members of the peer's family how to drink cocktails and to jazz, and then suddenly faces an intensely dramatic problem, when torn between love and duty. How she puts duty before love and returns to the stage, leaving her lover to make a more suitable alliance, makes a thrilling climax to most delightful story in which light comedy and tremendous drama, are skilfully woven to make a distinctly entertaining picture. The attractive scenes in the picture include a reproduction of an exciting tennis match, and a scene in a London Theatre in which Ruth Chatterton appears with a chorus of "Piccadilly Dancers" and sings a music-hall number entitled "Say it with a Smile."

SCHMELING V. STRIBBLING FIGHT. A remarkably clear picture of the sensational fight in America for the world's heavy-weight Championship, which gives a round by round and exhaustive view of the great contest. ALSO MOVIE-TONE NEWS AND COMEDY. Balcony Seats Reserved. No Booking fee. Telephone No. 8.

G.A.A. APPEAL. WATERFORD'S ONLY HOPE FOR ALL IRELAND HONOURS.

THE JUNIOR HURLING TEAM. It is gratifying to know that hurling in the County of Waterford is increasing by leaps and bounds. No better proof can be given of this than seeing the Senior, Junior and Minor Teams qualifying for the Munster Finals this Season. The Senior and Minor teams went under to Cork and Tipperary respectively. The Juniors having won the Munster Final now stand, not alone to represent Waterford, but Munster in the Senior Final of All-Ireland As the Junior Team is selected through out the length and breadth of the County and as funds are not at the disposal of the Selection Committee to bring the team to a centre to train, we now appeal to all the Gaels of Munster and especially Waterford for their assistance and Co-Operation to crown our efforts.

Subscriptions will be gratefully received and acknowledged by the following:— William Walsh, Chairman County Board, Pax Whelan, Secretary, Co. Board, Dungarvan, Thos. Flynn, Tallow, Frank Ryan, Tallow; Jas. Cunningham, Tallow. Also M. V. O'Donoghue, Lismore, Joseph Mason, Cappoquin; Patrick Daly, Ballyduff; Frank Drohan, Kilmacothomas.

THANKS—To Holy St. Jude, St. Philomena, St. Theresa, and Sacred Heart of Jesus, for request granted publication promised. E. de M.

OUR BUYERS HAVE LEFT FOR THE LONDON FASHION MARKETS. MULCAHY'S, DUNGARVAN.

HARPUR BROS.,

IRONMONGERS,

48 The Quay, Waterford.

YOUGHAL URBAN COUNCIL.

Present—Messrs. D. J. Linehan, and subsequently E. P. Lynch, Vice-Chairman, presiding. Capt. Dunne, Messrs. D. Dennehy, E. Clancy, T. Harrington, T. Murphy, P. J. O'Gorman, P.C.; T. Beausang, P. J. McMahon, P.C.; A. J. Fowkes and M. D. Broderick.

Regatta And Fireworks.

Mr. Dennehy said, as representatives of the townspeople, he thought their best thanks and warm congratulations were due to those who organised and brought to such a successful issue the Regatta and Fireworks. He would also like to refer to the great work done by the Civic Guards on the occasion. In spite of the immense crowd attending and the large number of cars that came in, everything passed off without the slightest mishap. That was due not alone to the good conduct of the people themselves, but also to the capability and courtesy of the Guards.

Milk Supply.

The resolution of the Cork Corporation protesting against undue delay in securing hygienic clean milk for the people was read.

Mr. Dennehy said it was most important that they should have clean good milk and it was nearly time that the fiction of "milk as it came from the cow" should be done away with. He had pleasure in proposing the adoption of the resolution.

Mr. Fowkes, seconded. The Chairman (Mr. Lynch), said as far as Youghal was concerned, the milk supply was second to none.

The resolution was adopted.

A "Poseidon" Hero.

A letter was read from Leading Seaman Nagle, one of the heroes of the "Poseidon" (thanking the Council sincerely for their very kind and flattering message). He hoped to be with them at an early date, when he would thank them personally.

Mr. O'Gorman referred to the proposed presentation to their heroic young fellow-townsmen. It would be advisable to fix the date and decide on the form it would take.

It was decided to keep the subscription list open for a week, and to adjourn the further consideration of the matter till their next meeting.

Water Supply.

A letter was read from Mr. J. R. N. Macnamara, Solicitor, on behalf of W. McLoughlan, McCurtainstown, stating that his client's water supply was perfectly good and he was at a loss to understand the report to the contrary to the Council as no inspection had been made recently. He suggested that the Sanitary Inspector should visit the premises. His client had 11 not 19 in the house, as stated in Mr. Keane's letter.

Mr. Broderick said there was a definite order on the books about the water supply to the two houses concerned and it should be carried out.

CRICKET.

BUTTEVANT V. CAPPOQUIN.

On Saturday afternoon, Buttevant Cricket Club travelled to Cappoquin, to play a friendly match with the home Club on the latter's well-kept ground, and after a most interesting game the visitors won by one wicket and one run, the scores being, Buttevant 75 runs, Cappoquin 74 runs, when Buttevant declared, with two batsmen "not out."

A feature of the game was the fine bowling of McKay, Doherty and Thornhill for the visitors, while Captain Jameson, Lacey, and Gardner, were outstanding bowlers for the Cappoquin team.

The weather proved gloriously fine for the event and the wicket was in excellent condition so that the match proved a fast and interesting one from start to finish.

There was a large and fashionable attendance of spectators on the picturesque field who thoroughly enjoyed the grand afternoon's sport provided for them, and whose presence proved the great popularity of the sport of cricket in Cappoquin at present. Details—

Waterford County Committee of Agriculture.

POULTRY AND SMALL FARM AND COTTAGE SCHEMES. REPORTS OF INSPECTORS.

Mr. N. Fitzgerald, Chairman, presiding. Also present—Messrs. Thos. Flynn, P. R. Power, Jas. Daly, C. J. Curran, J. Roche, Thos. Hartly.

Standing Orders.
On the motion of Mr. Daly, seconded by Mr. Curran, it was proposed that the standing orders already in operation for the Co. Council be adopted for that Committee subject to the Department's sanction.

Border Leicester Scheme.
In connection with the Border Leicester Sheep Scheme, the Secretary said he had attended the Ram Sale in Dublin that week.

Mr. Curran said very few Border Leicester flocks were in the County except some in the western side.

Chairman—There are none of them in Co. Waterford. The Department wrote they would not approve of continuing the premium this year to Rams owned by Messrs. T. Connors, Fahá, P. Kiely, Cappagh, and R. Condon, Garryduff.

Mr. McCann's Case.
In connection with the case of Mr. McCann, heretofore Potato Inspector, for Co. Waterford, the Department wrote stating that after full consideration of the circumstances they did not consider that any further investigation was necessary.

Chairman—You will hear no more about it at that rate.

Agricultural Classes.
In connection with the holding of winter Agricultural Classes, the Department wrote that immediate steps should be taken to deal with the question.

The Secretary said successful classes were held last year at Rathgormack and Tallow and for this year he thought Ballymacarby would be a good centre.

Mr. Daly suggested Dungarvan and said it was in 1920, the last class was held there.

Mr. Hartly suggested the holding of one Class at Old Parish, Dunhill and Stradbally were also suggested as likely centres. It was left to the Secretary and Inspector to fix on two centres mentioned.

The Department's Horticultural Inspector reported having accompanied Mr. O'Shea, H.I., on an inspection of shelter Belt Scheme, Beekeeping, etc., and found everything perfect. He paid a high tribute to the efficiency of Mr. O'Shea.

Cottage And Small Farm Prize Scheme.
Mr. Hoctor who acted as Inspector under the cottage and small farm Prize Scheme in Co. Waterford, reported as follows—

There were big entries in Class A, and the standard of excellence reached in the case of the great majority of entrants was remarkably high. In every district I met with lovely little homes enclosed in roses, artistically decorated both inside and outside; beautifully cultivated gardens bearing an abundance of flowers and fruit and splendid collections of all the more useful vegetables; lime washed outhouses sheltering pigs and poultry of excellent quality. The desire to improve seemed to be everywhere. I was extremely sorry that owing to the limited number of prizes offered the owners of many well-kept cottages had to go unrewarded. Of all the cottages entered for the competition there were scarcely more than half a dozen which could be described as mediocre.

In the small farm section, the competitors numbered 25. The residences and farm buildings were generally neat and well ordered and there were everywhere signs of improvements effected in recent years. The principles underlying the judicious cropping of the land seemed to be well understood and the crops were well cultivated and promised bountiful yields. Pastures were generally well treated, but in a few cases, competitors lost marks through neglecting to cut thistles and other noxious weeds. Carelessness in the matter of weed eradication on the part of competitors is altogether inexcusable. Considerable attention was given on almost all holdings to the care of live stock and the cattle, sheep, pigs and poultry inspected were generally of good quality. Attached to many farms were well cultivated gardens devoted to the production of fruit and vegetables. In view of the fact that a small area of land set aside for this purpose can be made to produce an enormous amount of nutritious food at a very small expense, it is strongly recommended that every farm should have its kitchen-garden. No traveller through your County could fail to be gladdened by the beauty of the landscape. Much of this beauty is due to the plentifulness of trees. It was very encouraging to find that on almost all holdings planting had been done in recent years.

Waterford may well feel proud of its small farms and cottages. In my travels through your County I was continually being confronted with undoubted evidence that the excellence displayed in the competition is largely attributable to the splendid educational work which is being carried out by the Inspectors attached to your Committee. That their work is bearing fruit a hundred fold must be apparent to the most casual observer. The members of your Committee can certainly claim that they are leaving their mark

on the face of the County.

I am under a special debt of gratitude to your Secretary Mr. O'Dwyer, who arranged my itinerary in a most efficient manner and whose courteous guidance made my work in your County both easy and pleasant.

Mr. Hartly—What County man made that report?
Secretary—A Tipperary man.

Mr. Hartly—I thought he might be a Cork man. That is a great report altogether.

Poultry Prize Scheme.
In connection with the scheme of prizes for Poultry flocks in County Waterford, Miss Slattery, Instructor, reported as follows—

There were 26 entries in all and as this was the first year that the Poultry Prize Scheme was introduced in the County, it clearly indicates how the scheme has been appreciated when so many entries were received. On the whole the quality and health of the stock was very good and it was gratifying to record that amongst the majority of the entrants, large flocks of early hatched pullets were to be seen.

The general management of the flocks including method of feeding, housing and care of stock received ample attention and it was quite evident that in most cases the Poultry Inspectors' directions were carried out.

There are two important signs which indicate a continued progress. First the keen interest evinced by the competitors in egg and poultry production and secondly a perusal of the cash income received from the poultry flocks. Many of the competitors have emphasised the fact that poultry are presently the most profitable of farm stock.

The present position of poultry on most of the holdings is highly satisfactory, but it may be pointed out that increased production per bird is necessary towards success in poultry keeping. Low producing birds consume food, receive attention and occupy housing space for which they cannot pay. No hens should be kept for laying after 2½ years old and the policy of renewing at least half the stock annually should be adopted by all poultry keepers.

The list of awards made by the Inspector have been submitted to the Department for confirmation.

Mr. Hartly—How would you know when hens are 2½ years old? You (Mr. Chairman) are all your life time looking at them and you cannot tell.

Chairman—Ring them when they are young and you can then tell their age.

Railway Rates.
The Offaly County Committee, forwarded a resolution re-high railway rates for Agricultural produce.

Chairman—You can get goods far cheaper by lorry from Waterford to Bonmahon than you can get by rail from Waterford to Kilmacthomas.

Mr. Curran—The Railway Company are themselves to blame for the loss of traffic.

Mr. Daly said lorries were doing it at far less than the Railway rates. From Cobh to New York the freight was 47/6 a ton and from Dungarvan to Drogheda 46 a ton. The rate from Rotterdam to Dublin was 1/6 and from Dungarvan to Glasgow 10/6. UP to last week the rate for butter from Dungarvan to Waterford was 4/1 a ton.

Mr. Curran—Freight on barrels of apples from Canada was 3/9 and from Dungarvan to Dublin 15/.

Secretary—Half a waggon of cattle or sheep from Dublin to Lismore cost 40 15s. 0d.

Mr. Daly said the Railway Company sent their men round to merchants saying if they gave them their business they would reduce the rates, but they only did that after business men had got lorries etc., to do their work.

Chairman—If they did it a few years ago it would be all right.

Mr. Curran said the Royal Dublin Society approached the Railway Company about the carriage of horses to Dublin and they got no satisfaction and now they had a horse van on the road to convey them at far cheaper rates.

Excursion To Cork.
Miss Mullins, Poultry Inspector, said she was having an educational excursion to Munster Institute, Cork, on Friday 4th inst., and said she would like if some members of the Committee would go.

The Chairman said a good percentage of the bachelor members of the Committee should go.

Mr. Hartly proposed, that the Chairman and Messrs. Flynn, and Curran, go. It was left to the members who wished to travel.

Price Of Fresh Butter.
Mr. Roche, referred to the price paid for fresh butter at markets in West Waterford and said one firm was consistently paying 1d. to 1½d. a lb. less than another firm. It was a case of profiteering and something should be done to stop it. For Farmers handicapped thus, partial derating was of no use. He said 1d. per lb. meant 29 6s. 8d. per ton and the man paying the smaller price bought up to 10 tons of butter per week. He produced dockets to substantiate his statements. Last week one paid 9½ per lb. and the other man 10½ per lb.

Chairman—Why not give the butter to the man paying the higher price?
Mr. Roche—We have only one buyer in our area.

Chairman—Even the lower price you give is higher than the price paid in Kilmacthomas. The only way for the farmers in the area you mention would be to go to the creamery.

Mr. Roche—They have no creamery.
Mr. Power—The farmers should organise and take their butter by lorry to where they would get the top price.

ONE BUSY MAN. A bookmaker summoned at Highgate for not having a licence for his dog pleaded that he had been too busy at work to think about it.

YOUGHAL DISTRICT COURT.

HOUSE BREAKING AND LARCENIES

(Before Mr. J. A. Farrell, B.L.). Drunk And Disorderly. Guard P. J. O'Connor, charged Denis O'Brien, Chapel Lane, with being drunk and disorderly. There was also a second charge of the same kind against O'Brien. Complainant said defendant's attitude was very threatening and they had to take him to the Station. The Justice—Have you anything to say? O'Brien—Nothing to say, sir. The Justice—I suppose you must go to jail for a month. O'Brien—What harm.

Larceny By Trick. A respectable looking young fellow named John Donovan, Cork, was charged with larceny by a trick. Inspector Ryan, who prosecuted said the accused was taking a certain line of action. The Justice—What are the facts? The Inspector—He falsely represented that he was entitled to 9/8 change that should be paid to another. A visitor named Hipwell stated that he tendered a 10/- note in payment for 4d. for a friend and himself on the merry-go-round. When he looked for his change he was told it had been already paid out. It was finally paid to him.

Further evidence having been given by T. Dempsey, an employee of Field's Show. The accused pleaded guilty. He came down to Youghal went to the dance, and running short of money he yielded to the temptation and took the change when it was offered to him. He would pay the money back if he got time. Inspector Ryan said there was £1.13s. 4d. expenses incurred in connection with the case.

The Justice said he would adjourn the case and if the money and costs were paid he would deal with the accused under the P.O.A. "Guilty" But Innocent. Mary Kavanagh, wife of a caravan owner, of no fixed abode, was charged in custody with the larceny of a purse containing 12/6, the property of a visitor. Inspector Ryan, who prosecuted said that the girl from whom the purse was taken was delicate and couldn't attend the Court.

Sergt. O'Beirne, Youghal, deposed, he received a complaint and in consequence he interrogated accused. She made a statement after coming from Cork jail that morning in custody, where she had been on remand on that charge. She made the statement unasked, to the effect that she pleaded guilty to taking the money and that she would give back the amount to the girl and she would give her £2 that minute. Accused—I have two animals to look after, your worship, and the husband is blind and can't mind them. I know nothing about the money but I pleaded guilty.

The Justice—I will take no plea of this kind. Accused—I'd give £5 to get out of this to look after the little waggon. The Justice—What is this story about the husband being blind? Kavanagh—I got a summons for aiding and assisting her in the larceny of money that she gave me. I had no money but my own. Sergt. O'Beirne said the man met with an accident. The Justice—But she said he was blind. Kavanagh said he got a kick from a donkey.

The Justice said the female accused pleaded guilty and then proceeded to plead not guilty. He wasn't going to force anybody to plead guilty. Accused was remanded in custody for a week. Housebreaking And Larcenies. Patk. Mulcahy, of no fixed abode, was brought up in custody, handcuffed to a Civic Guard, charged with housebreaking and larceny. Much interest was displayed in this case. The accused being the man who broke out of Midleton barracks last week, while handcuffed and was recaptured two days later in the hills near Fermoy, still handcuffed.

Inspector Ryan, Midleton, prosecuted. The Justice—How many cases are there? The Inspector said there were several, but he was dealing with only one. The accused was wanted in different parts of the county on several charges.

Supt. O'Shea, Dungarvan, said he was bringing a charge of housebreaking and larceny at Clashmore, County Waterford, against the accused. Sergt. Whelan, Midleton, deposed, that in consequence of a complaint received, he made certain inquiries on the 19th August. He went to Brooklodge, Glanmire. He saw a cyclist going along the Brooklodge-Knockraha road, near Mr. McGrath's Brooklodge, going in direction of Knockraha. Witness was about 40 yards from him at the time. It was raining heavily, the cyclist slowed up. Witness was on a bicycle and accompanied by Guard O'Shea. Witness dismounted and took shelter on the wayside. He had the cyclist under observation. The cyclist also dismounted. He put the cycle on the wayside and entered the house. Witness and Guard O'Shea, examined the bicycle and identified it from a description as a stolen bicycle, a new Standard Raleigh. Guard O'Shea went towards the house, and witness went

across towards the outhouses. On approaching he saw the cyclist speaking to Mrs. McGrath in a cowshed. He identified the cyclist as being the prisoner. He informed him that he had certain suspicions and wanted to question him. He gave the name of Aberne, from Fermoy. Questioned about his address, he gave evasive answers as to where he lived. Witness then said "You are Patrick Mulcahy." He then rushed at witness in an endeavour to get away. Witness held him. Guard O'Shea came to his assistance. They tied his hands behind his back with a cord. On searching him they found the articles produced—a purse containing 11/9, a gimlet and auger, etc. He also produced a milk can found on the bicycle. They conveyed the prisoner to the Midleton barracks, arrested and charged him as set out in the deposition. He made no statement. Whilst at the Station, witness questioned him about another charge after cautioning him—the larceny of a shot-gun, at Clashmore, Co. Waterford. After being duly cautioned the accused made a statement to the effect that he met a man named Jas. McCarthy, who had a shot-gun. McCarthy put it in a hedge near Clashmore and he (the accused) proceeded to Youghal. He slept in a yard 1/4 miles from the town. McCarthy gave him the bicycle they found with him and also gave him a nurse with 17/6 in it. Guard O'Shea, Midleton, made a deposition corroborative of the previous witness's evidence and added that they took possession of the bicycle and the other articles, including the purse, all of which were now produced in the Court.

Margaret McKay, housekeeping to Daniel Garde, Bilberry, Midleton, deposed that on the night of August 18th she retired to bed about 11.15, seeing doors and everything secured beforehand. On the following morning at 8 o'clock she saw tobacco pouches that were on the hall stand had been taken. The bolt was off the kitchen door. The dining-room window was broken, glass being removed and the bolt taken off. All the floor room doors which had been closed the night before were open. Cakes had been taken out of the kitchen cupboard and there were crumbs on the floor. There was a basket with some eggs missing from the cellar. Some meat and bread and jam had also been taken and a purse containing 15/6 was missing from a drawer in the kitchen. It was there the previous night. She didn't identify the purse produced, but she did the tobacco pouch as being in Garde's.

The Inspector said they couldn't trace the purse with the watch produced found on the prisoner. The pouch was on the hallstand the morning before. The money was made up of a 5/- piece, two 2/- pieces and six single shillings and 6d., as was in the pouch produced and which was found on the prisoner, except that 4/- were missing. Thomas Ryan, groom to Mr. Garde, Bilberry, deposed that on August 18th, his bicycle was in the harness room. He last saw it at 11 o'clock that night. The door was closed, but not locked. On the following morning about 9 o'clock the bicycle was missing. He identified the bicycle produced as his. He bought it 5 years ago for £8 10s. It was a Raleigh. The agent's name which was on it was now scratched out.

Mr. Daniel Garde, Bilberry, deposed that on the night of August 18th, he retired about 11.30. It was a very wild night with thunder and lightning. About 9 o'clock, the following morning he saw the place disarranged. A pane of glass in the dining-room window was broken and the fastener pushed back from the outside. He had a pouch exactly like that produced, but it was missing from the hallstand. The Inspector said that completed their case. The County Waterford case was next taken up.

Supt. O'Shea, Dungarvan, prosecuted. Mrs. Josephine Kennedy, Ballinamultina House, Clashmore, deposed that on the 16th August, she retired about 10 o'clock, (old time). About 10.50 she heard a noise downstairs and also, she thought, about 1 o'clock from the kitchen. Youghal fair was to be held the following morning and John Ormond, was to call them. He called Mr. Kennedy at 2 o'clock and she was awakened. She went downstairs in about two minutes. She saw a light in the kitchen. She went into the drawing room first. She saw two big armchairs drawn together forming a couch. She then went into the kitchen, where she found a lamp lighting and the window broken open and Ormond then came in. The press in one pantry had been broken. In another pantry she found the food all disturbed in a safe. She found ham, bread and butter cut up in a basket. There were some other foodstuffs taken. There was milk bread and butter and puddings taken. In the breakfast room there was a bottle of whiskey missing from the press. It was almost full the previous night. The total value of food taken was about 15/-.

Mr. Geo. Kennedy, Ballinamultina, husband of the previous witness, deposed that on the morning of 17th August, he was awakened by Ormond at 1.50 a.m. He came downstairs in a few minutes. In consequence of what he saw he went looking for a shot-gun of his which was generally kept in the hall leading to the kitchen. It was missing. He hadn't seen it since. 11 cartridges were also missing. The value of the gun and cartridges was about £6 1s. 6d. He found the piece of wire produced in the kitchen and he gave it to Sergt. O'Shea, Clashmore.

John Ormond, Ballyheeny, Clashmore, deposed he was employed by Mr. Kennedy. On August 17th, he went to call his employee to go to Youghal

fair about 3 o'clock (new time), and he saw a light in the drawing room downstairs. He went to the window and tapped, but got no reply. The shutters were partly closed and he could see only a little into the room. He tapped at Mr. Kennedy's window with a pole, but got no reply. Witness tapped at the drawing-room window again and he saw the light going from the room to the kitchen. He then went to the kitchen. He heard footsteps going towards the window. After that Mrs. Kennedy admitted him.

Sergt. O'Shea, Clashmore, deposed that he visited Mr. Kennedy's house at 3.40 a.m., on the 17th August, in consequence of a complaint by Mrs. Kennedy. He found the back kitchen window broken in a pane near the sash-fastener. It was a French window opening in the centre. Mr. Kennedy handed him the piece of wire produced it could have been inserted through the hole in the window to undo the fastener. On August 22nd, he accompanied the accused to Clashmore to search for the missing gun. Near Clashmore he pointed to a hedge in which he said the shot gun was concealed, but it wasn't found. He formally charged the accused with the charges set out, and cautioned him. He made a statement stating that he got the loan of a bicycle pump, but didn't steal it.

Prisoner—He charged me with the larceny of a bicycle pump. I told him I got a loan of it and I put it back in the fence for the owner. That has nothing at all to do with the gun. Mrs. Mary Bagge, Coolboe, Clashmore, deposed that on 16th August, a man came to her door between 9 and 9.30 (old time). That man was like the accused. He asked her for the loan of a bicycle pump and she gave it to him. He gave it back when finished with it. He then left, Jas. McGrath was there at the time.

Michael Kiely, Ballyheeny, Clashmore, labourer, deposed he worked for Michael Halloran. About 5.50 a.m. on the 17th August, he met a man in the yard, a stranger to him. The prisoner was the man. He asked for a bicycle pump. He said he had none the accused went into the house and took the pump off the bicycle. Witness told the man to bring it back and he said he would leave it at the gate. He didn't get the pump back yet. It belong to Jer Dalton, Carrick-on-Suir. It was value for 2/.

Cross-examined by accused—Witness went in to the house and took the pump off the bicycle. Witness—Didn't you tell me you had cattle for the Youghal fair? Accused—Leave the cattle out of it, (laughed). Accused said he put the bicycle pump on the wall near the next farmers house. It wasn't worth 2d because it was broken. The Supt.—That is my case. I have no further evidence.

The Justice said he proposed to return the accused for trial in the first set of charges. As to the second he was in a difficulty, but he would send the lot to the Circuit Court Judge. Accused made no statement and was accordingly returned for trial in custody.

MORE EGGS

—and healthier birds

If your birds are kept strong and healthy their egg yield will increase. Give them Poultrine as a tonic twice daily with the damped food. It is a certain cure for discoloured eggs, drooping, not picking, diarrhoea and liver disease, and is invaluable for keeping the birds warm. It is packed in packets for 1/-. Also sold in airtight tins at 1/6, 2/6, 4/6, up to 20/6 (1000 doses) for large farms, by all chemists and local dealers.

POULTRINE

BUTTER STOCKS.

TRADE RETURNS TO BE COMPLIED. It is understood that notices are now being issued by registered post to proprietors of all premises registered under the Dairy Produce Act, 1924, to all warehouse men who store butter, and to the principal butter traders requiring them to furnish to the Department of Agriculture by the 31st September returns showing the quantity of butter held in stock, or stored for themselves or other persons, on the 31st August. As soon as the returns are collected and compiled, the result will be published in the Press.

The figures will be awaited with interest by all concerned with the butter industry in this country, as they will serve as an indication of the policy to be pursued during the next few months. The aim of the producer will be, of course, to ensure, in the first place, that the summer butter put into store, together with the quantity likely to be manufactured from December to March, will be sufficient for home consumption during the coming winter and early spring months; and secondly, that the quantity stored will not be as great as to create a large surplus on the home market next winter. The effect of such a surplus would be to depress prices and deprive the manufacturers of any benefit from the butter tariff even during the period of low production.

It is essential that complete and accurate returns should be furnished by the date specified, in order that all producers and merchants may be informed of the true position in regard to the stocks held. So much importance is attached to reliable information on this matter that the Dairy Produce Act, 1924, prescribes that any person on whom a notice is served who refuses to make a return within three days, or makes a return which is false or misleading in any material respect, renders himself liable on summary conviction to a fine not exceeding £20.

WE HAVE AGAIN AND AGAIN

warned our customers on the absolute necessity of Potato Spraying. It has been conclusively proved during the past few years that not only has spraying prevented potato blight, but it has almost doubled the crops in every instance. It also improves the quality of the potato by extending the period of growth, thereby allowing the crops to come to maturity.

The necessity for spraying this season may be more urgent than usual. The present weather is proving favourable for the spread of the disease which has already made its appearance in the South of Ireland. We stock the latest types in horse and knapsack sprayers and we also keep large stocks of sulphate of copper and washing soda. We shall be very pleased to answer any enquiries regarding quantity to be used per acre, and will quote special low prices for cash for sprayers or spraying materials.

KILMATHOMAS NEWS.

DEATH OF MRS. MARY WALSH.

Last week the death took place at her residence at Seafeld, Bonmahon, of Mrs. Mary Walsh, relict of the late Mr. Michael Walsh. Deceased, who had gained the grand old age of 76 years, sprung from a very respectable farming stock in the locality—the Mulcahy's of Ballydawn. Most of her family of nine children emigrated to foreign parts, and a brother of hers resides in Australia. A deeply religious lady, she answered the Great Call fully resigned to the Will of her Maker—R.I.P. On the removal of the remains to St. Anne's Church Ballylaneen, there was a very large procession of the public, representative of an extensive area. There was a similar tribute of respect paid on the following day, when the interment took place in the adjoining cemetery, after the celebration of Mass of Requiem by Rev. T. O'Shea, C.C., Ballylaneen, who also read the burial service. The chief mourners were—Mrs. M. Power, (daughter); Martin, John, and Kera Power, (grand-children); Mr. Martin Power, (son-in-law), etc.—American and Australian papers will please copy.

ANOTHER DEATH.

Deep regret was felt in these parts at the death of Mr. John Curran, farmer, Carrigcastle, Kilmathomas, which sad event occurred on Friday evening of last week, after a protracted illness and in the fullness of his years. Though of a retiring disposition, deceased won the esteem and affection of all who knew him. His high qualities of piety were a notable feature of his long career. At 4 o'clock on Sunday evening, all that was mortal of the deceased was reverently laid to rest in Ballylaneen cemetery in the presence of many friends and sympathisers. Requiem Masses for the happy repose of his soul were offered up within the week. The late Mr. Curran is survived by his wife—a most estimable lady—who has the fullest sympathy of her neighbours in her trouble—R.I.P.

AGAIN.

Her hosts of friends and well-wishers over the whole wide parishes will regret to learn of the death of Mrs. Foley, widow of the late Mr. Maurice Foley, Faha, Kilmathomas, who passed away into her eternal reward on Sunday last after a rather lengthy illness and at an advanced age. The deceased lady came of a fine old stock of the Deccies; she was an exemplary Catholic, and a model Irish mother in every sense of the phrase. May She rest in peace. The funeral to St. Anne's Church, Ballylaneen, on Monday evening was one of the largest seen locally for many years, being as it was a fitting tribute of respect to the memory of a worthy neighbour. After Masses of Requiem for her soul on Tuesday (at which her relatives and a large congregation of sympathisers attended) the burial took place in the adjoining cemetery.

The late Mrs. Foley was mother of Messrs. Maurice Foley, (ex-sergeant R.I.C.), and John Foley, Faha, for whom general sympathy will be felt.

1881-1931.

Sunday last (30th ult), marked the 50th anniversary of the solemn opening of the Chapel-of-Ease adjoining the Mercy Convent, Kilmathomas, by Most Rev. Dr. Power, (of honoured memory) the then Lord Bishop of the Waterford-Lismore diocese. The sermon in connection with the opening of the sacred edifice was preached by Father Wheeler, O.P., Waterford, a gifted and popular clergyman, whose demise occurred some few years ago. Sister Columba Fives (a native of Cappoquin, West Waterford), who died last year, was the longest survivor of the first party of nuns to enter the convent here half-a-century since. They came from the Mother House at Cappoquin. The community are deservedly held in the highest esteem by all classes and creeds locally.

KILMATHOMAS AND DISTRICT BEAGLE CLUB.

The Annual General Meeting of the above will be held in Kilmathomas on Wednesday evening, 9th inst. Members and supporters are kindly requested to send their usual subscriptions to the hon. treasurer, as soon as possible.

R.I.P.

Mr. Thomas Daye, an esteemed citizen of Kilmathomas, was called to his eternal home on the 1st inst. He had reached the allotted span, and had been in failing health for some months prior to the end, which came peacefully and calmly after his reception of the last consolations of the Church. The funeral to the family burial ground in the parish cemetery on Thursday was of imposing dimensions. We join with the people in tendering condolence to the bereaved relatives in their loss.

BREVITIES.

Hundreds of mid-Waterford Gaels battered the trail to the Suir-kissed South Tipp, ex-city for the Munster Senior Hurling final decided in the charming new venue there on the last Sabbath afternoon. The weather was gloriously fine, and although the home-county's canan combination succumbed to the Leaside lot, the local contingents immensely enjoyed their day's outing to "rare Clonmel."

A grand Cinderella dance brought off at Cummins' Hall, Kill, on last Sunday night, was largely patronised, and proved a pronounced success in every shape and form. The provision of wireless music for the dances was

CRICKET.

CAPPOQUIN V. HEARNE'S XI, WATERFORD.

Cappoquin Cricket team travelled to Waterford on Saturday last to play a return match with Hearne's XI, which belongs to the Sports Club attached to the firm of John Hearne and Son, Building Contractors, Waterford.

These teams met in Cappoquin on Saturday, August, 8th, when the home team were minus the services of their Captain (Capt. T. O. Jameson), Mr. I. Villiers-Stuart and other prominent players, but despite this handicap, they put up a very good fight, being beaten by only 18 runs, the score being Waterford, 74, and Cappoquin, 56, for one innings each.

Cappoquin travelled with a much stronger team on Saturday, and easily reversed the verdict in the first match, as they won comfortably by two wickets and 40 runs in a game of two innings each.

Hearne's XI had slightly the better of the play in the first innings, scoring 48 against Cappoquin's 45, but in the second innings the Waterford team collapsed in sensational fashion, being all out for 9 runs, due to the deadly bowling of Captain Jameson and J. Lacey, who had also done brilliant in the first innings.

Cappoquin declared for 8 wickets in the second innings, having then added 52 to their original 45 runs, so that the final score was Cappoquin 97, with two wickets to fall, and Waterford all out for 57.

Hearne, Sullivan and Hayes bowled well for their side in both innings, but the vigorous batting of Capt. Jameson, Hugo Anson, and P. Mullane, proved too good for them, and Anson had the honour of piling up the highest score for Cappoquin, being 21, not out, when the second innings were declared at 52 runs.

HEARNE'S XI FIRST INNINGS.

Table with 2 columns: Player Name and Score. Includes M. Hearne b Jameson (2), J. Hayes b Jameson (0), J. Sullivan b Lacey (5), E. Quinlivan c Jameson b Lacey (2), J. EDMOND KIELY, Clerk to Committee.

a novel feature of the eclat event. Harvesting operations are now in full swing up and down the countryside, the farmers and their employees being literally "up to their eyes in work" from sunrise to dark daily. "Cub hunting with the East Waterford pack will, we understand, begin next week. Already the opening of the fox hunting season is being eagerly looked forward to, and good sport for the winter is confidently anticipated hereabouts.
