DUNGARVAN DISTRICT COURT.

Troy, D.J.,

Obstructing A 'Bus.

Supt. O'Shea, charged Thomas Murray, Douglas, Co. Cork, with obstructing an I.O.C. 'bus at Dungarvan on May 18th (Fair Day).

Mr. Williams, solr., held a watching brief for the 'Bus Company.

Denis Lyons deposed he was conductor of the Waterford to Cork 'bus on May 18th. When they arrived in Dungarvan from Waterford there was a crowd of between 50 and 60 people waiting to board the 'bus. They had an arrangement made on days like that to take only long distance passengers. On this occasion the defendant said he was going to Cork, and witness told him the fare was 4/6, he refused to pay until he got a seat. He was standing on the step of the 'bus obstructing others from going in or out. The defendant delayed the bus from 20 to 25 minutes.

The defendant who was not professionally represented, said his reason for not paying was that he was travelling by 'bus since they started and was never asked to pay like that be-

MORE NEW BUILDINGS. In view of the all-round welter of complaint of depression in all branches of trade and industry, it is something of a real consoling tonic to learn from correspondence read at the last meeting of the Urban Council, that no less than 6 additional houses are to be built in the Strand neighbourhood—3 by Mr. P. Kenneally at Seafield, and 3 by Mr. M. Walsh in the "Church Field" Knockaverry, on the Upper Strand. Mr. Kenneally has done yeoman's work in converting bare fields at the "back of Mag's" into pleasing rows of fine residences, and the running has been taken up in ad-mirable style by Mr. M. Walsh, Contractor. From correspondence read

at the meeting referred to, it would appear that some objection was taken to Mr. Walsh's latest undertaking, but after going into the pros and cons of the situation, the Council unani-mously decided to grant him permission to proceed with the work. By the way this "Church Field" was purchased with the money subscribed for the famous Anti-Conscription Campaign, and was intended for another purpose altogether. However, it is

satisfactory to see it made use of in the worthy object of extending and developing the "New Youghal." In connection with the new buildings going up it is worthy of note that there is an increasing tendency in favour of the "bungalow" as against the more elaborate style of dwellinghouse. There is another of this kind being erected in the neighbourhood of Summerfield Cross, and it is said that inquiries have been received for suitable sites from several parties. As the saying has it "Let them all come-

> Last Sunday was the real opening day of the summer season and quite a big crowd of trippers arrived by train. In addition there was a big influx of motorists and two excursion parties by 'buses and lorries. One of the latter made matters rather too lively for the residents of the Market Square during the afternoon. In addition to the potent effects of the "something on the seaside air," there must have been another something that galvanised to an extreme degree the exuberant vitality of some of the younger members of the party. Indeed matters reached such a pitch that a dance arranged for the Town Hall had to be called off. A similar fate befell an attempt to hold it at the Strand Palace. The result was that the welkin was kept ringing until well into the small hours. There must have been quite a number of cases of the morning after the night before in the hunterlands on Monday.

THE BUTTER BOUNTY

OPEN LETTER FROM MR. PAXMAN.

INTERESTING FACTS.

The following open letter is issued by Mr. Paxman; the well-known Lis-more Butter Merchant, to his friends and customers:-

It is now 44 years since I commenced business in Lismore. During that time I have built up the Best Butter Factory business (not the largest) in the Free State. My Brands stand out in the Butter Factory Trade like the Rolls-Royce cars in the Motor Industry.

The Government has decided to pass into law the Dairy Produce (Brice) Stabilisation) Bill, the effect of which is to bolster up the Creameries at the expense of every consumer of butter in the Free State. Many Creameries undoubtedly are in a bad way, and so for that matter are the farmers who make their butter at home; but the latter do not shout for Government help like the Managers of the former.

I am so fully convinced that the

proposed Bill is unworkable, and so unjust to every consumer of butter in the Free State, that I have decided to close my Factory rather than carry on under the new conditions sought to be imposed upon the Trade. I have stated in the Press, and again say here that I could make more money for my firm if I decided to work under the Bill; but it would be at the ex-pense mainly of the working men and women of the Free State. I do not in the least fear any competition from the Creameries or my competitors in the Factory business, in fact I wel-come it as being in the best interests of the Butter business.

districts where I was buying, many of whom have been dealing with me for 40 years. Not one person in twenty in the Free State realises what going people of the place are no lon- this Butter Bounty is going to cost ger driven to go to the city to hear them; when they do, they will have a good "talkie," they can have their something to say in the matter. This is the time to express your opinion, I am genuinely trying to assist you in peaceful woman. Defendant put her ence of travelling some 30 miles away this by placing all the facts before you, showing the practical effect of creating what will prove to be an

Choicest Danish Butter to-day is quoted at 89/-, 90/- F.O.B., Irish Creamery for the English market 98/-. while the price charged to Irish Free State Wholesale trade is 135/-, 137-, thus forcing the latter to pay 37/- to 39/- more for butter made and used at home. Let me ask the Creamery Managers' Association to state clearly in the Press the grounds for requesting the Government to bolster up the Creameries in this manner and at the expense of every family in the Free

State. I state without reserve that their case will not stand being brought into the limelight. The Bill, I believe, was born in secret and nurtured in deception, and consequently cannot therefore be of any benefit to the farmers. I know full well what it will mean to the farmers of Co's Waterford, Cork, Tipperary, Wexford, Clare, etc, as well as to my employees, to say nothing of the thousands of pounds I myself must lose through my Factory and Saw-Mill being closed down. Even the knowledge of this will not induce me to carry on if by doing so I am to become a Legalised Plunderer of the working classes of the Irish Free State

Four pence per lb. on butter may not mean anything very much to the gentlemen responsible for the Bill, but it would be a real hardship on the working classes, and especially on those with large famalies.

The Irish Butter Trade Association has been asked to place before the Department of Agriculture a scheme for the collection of the Levy on Home Made Dairy Butter. This recalls to my mind a remark made a few days ago by an Englishman, that "the Irish country of 'Inspectors and Inspected,' and I myself will add-"Informers" (a nasty word), as without the latter the law could be so easily evaded that honest traders could not get a living.

If the Irish Creameries cannot meet and hold their own against foreign competition, with the advantage of the 10% tariff, there must be something radically wrong with the management-at least that is my view of the situation. I have farmed in a fairly large way for 46 years; I have owned and worked Creameries, and closed them up. I know for a fact that many milk suppliers would leave the Creameries to-day were it not for the outlay necessary to purchase a

In connection with the purchase by the committee of the premises known as the Meat Shambles from the Urban Council, as a site for a new Technical School on the understanding that a clear title would be given by the Urban Council. The Department wrote stating that it is advised that the Dungarvan Harbour Markets and Improvement Act 1863, contains no power of sale, and in consequence the Dungarvan Urban Council has no such power.

Chairman—I thought it was the best site in the town. Mr. Keane-Was there something about the question of sufficient light. Chairman-Mr. Bowen got over that.

The Committee agreed to submit all the correspondence to the Urban Council. Apportioning £6,000 Grant. The Department wrote asking to be provided by the committee with sketch plan of the proposed school in Cappo-

quin, and also for information regarding the apportionment of the £6,000 for the building of the Dungarvan and Cappoquin Schools. Secretary-I replied that the approximate cost of Cappoquin was

£1,500 and of Dungarvan £4,500. Mr. Walsh urged on the committee the necessity of getting the work be gun in Cappoquin. It would give much-needed employment, and it would be much better to get it done during the fine weather.

Mr. Curran proposed, and Mr. Walsh seconded, a resolution asking Mr. Bowen to prepare the plan asked for, and to make preparations for the immediate building of the school, the cost not to exceed £1,500.

The proposition was passed. On the suggestion of the Chairman, the Secretary was asked to ascertain from Mr. Bowen before next meeting what his fees will be for the completion of the work..

Music And Choral Singing. A circular letter was read from the Department relative to the introduction of Music and Choral Singing into the curriculum of Day Continuation Schools, and calling the attention of the committee to a special course of instruction at Dublin for suitable part-time teachers.

New School For Clashmore. A letter read from Mr. Roger Power, Clashmore, offered the committee a site towards the building a Technical

School. Mr. O'Halloran-It would not cost much to build a little Hall that would. meet the requirements of the people of Clashmore. This site offered by Mr. Power is an ideal one, and would

be got cheap.
Chairman—We can not do anything about it to-day. I suggest you hand in notice for the next meeting.

Mr. O'Halloran then handed in notice of motion on the matter.

COMING TO BUSINESS.

CONFERENCE BETWEEN IRISH AND ENGLISH GOVERNMENTS.

A political sensation was caused on Tuesday by the announcement that President de Valera had invited the British Government to a Conference in Dublin on the question of Ottawa and other important matters at issue between the two countries. On that same morning, Mr. J. H .Thomas, Secretary of State for the Dominions and Lord Hailsham, Secretary for War, arrived at Dun Laoghaire and were met by Mr. Kelly, Minister for Local Government, and escorted to Government Buildings, where they were received by President de Valera and other members of his Cabinet, with whom they had an hour's conversation. Subsequently, the visitors were entertained by the President to Luncheon at the Shelbourne Hotel. President de Valera was in conference at Leinster House on Tuesday night with Mr. Geoghegan, K.C., Minister for Justice; Mr. Maguire, K.C., Attorney-General, and Mr. Lemass, Minister for Industry and Commerce, for a considerable time, and it is stated they were discussing the results of the conversations.

The British representatives were cordially received by the President and other Ministers, and in their progress through the streets were warmly greeted by the public and had an enthusiastic send-off on their departure from Dun Laoghaire.

After the Conference they were the guests of the President at luncheon at the Shelbourne Hotel, and were subsequently accompanied by Mr. Sean T. O'Kelly on a pleasure trip to

DEATH OF MOST REVD. DR. HACKETT.

MEETING ADJOURNED.

Mr. J. Butler, Chairman, presided at the meeting of the above held on Friday night. The others in attendance were-Messrs. T. McCarthy, Jas. Hackett, Jas. McEvoy, Mce. Griffin, and M. J. Keane.

Resolution Of Sympathy. The Chairman said-We meet tonight under the shadow of a great loss. Since our last meeting, the town has lost one of its most distinguished sons, I refer to the death of the Most Revd. Dr. Hackett. Bishop Hackett was a very saintly man and the Church is very much poorer because of his death. Bishop Hackett was very much attached to Dungarvan, his native town, and so were the people here attached to him. His loss to the Diocese is a very big one, and that loss will be felt more particularly here. bute to this town by coming here to perform personally the ceremony of Consecration of the town to the Sacred Heart, that was only one instance of his love and thoughtfulness for the people of Dungarvan. The late Bishop was noted for his charity and piety. He was humble in his high Office and was always ready and willing to help those in need of spiritual and temporal advice. You have decided to attend the Requiem High Mass to-morrow in Waterford, thereby representing officially his native town. As a further mark of sorrow, I propose this vote of condolence to his brother, Mr. Joseph Hackett, with whom I personally have the greatest sympathy, also to his relatives, and to the Clergy

of the Diocese:-"That we, the Dungarvan Urban District Council, place on record the expression of our deep sorrow on the death of our Revered Bishop, and fellow-townsman—Most illustrious Rev. Dr. Hackett. A brilliant student, sound theologian, eloquent preacher, and wise administrator—the friend of the poor and distressed—Dr. Hackett's name and fame have become household throughout the country. This Diocese over which he ruled with such conspicuous dignity and success mourns the loss of one whom they loved. That this Meeting be adjourned as a mark of respect to his memory,

second the resolution. Dr. Hackett loved the people of Dungarvan dearly. Mr. Keane-It is indeed a matter of the greatest regret, and it is very difficult to find suitable words to express the sorrow of the people of the town. The late Bishop was always ready to assist the needy, and always in a special way showed great love for his native town. I feel sincerely sorry that the occasion for the passing of this resolution has arisen and can only say that Dungarvan has lost one of its

illustrious sons. Mr. O'Meara (Town Clerk)-I wish to say a few words on this sad occasion on my own behalf and on behalf of the other officials. Dungarvan honoured the late Bishop who was one of her most illustrious sons, whose loss to Dungarvan and to the Church was a great one.

Mr. McGrath, Borough Surveyor-1 also wish to join in the expressions of sympathy. The late Bishop was a very kind man, and he always sympathised with those in sorrow. It is indeed a sad day for Dungarvan where the loss of the Bishop will be most keenly felt.

The resolution was then put and passed in silence, all present standing.

Declan McGrath, Goulane. Old Par ish, charged James Barry, Goulane. with assault and threatening language. The latter's brother, John, was charged by the same complainant with abusive language.

Mr. T. C. Williams, solr., Dungarvan, appeared for complainant; and Mr. E. A. Ryan, solr., Dungarvan, for defendants.

McGrath stated that he was a car penter, living with his mother at Goulane. On the evening of March. 19th, he was netting a couple of hares for the Youghal Coursing Club on Jim Allen's land close to Barry's place when James Barry came along, struck him with a stick and knocked him down. Barry asked witness was he as good as he was at Scart when he said he would shoot him (Barry) it he had a gun. When on the ground Barry kicked him several times in the ribs and in the back. The stick was an ash plant and he struck witness across the eyes with it. His ribs were sore yet. Witness got up and said he was all blood and Barry said he could have more of it, knocking him down and kicking him again. That was their first quarrel. He didn't remember anything about the incident at Scart. On April 11th, he met John Barry, who referred to the fact that

witness had his brother summoned,

threatened to kick his brains out and said he didn't care about the Guards

or the Court either. Witness was

He didn't say to John O'Leary that he would shoot the Barry's if he had a gun. He had no witness to prove the assault He was hardly able to walk home after the beating he got from James Barry. John Barry didn't strike me because I ran away when he challenged me. James Barry, stated he never had

any personal trouble with McGrath or anyone else. About 2 years ago, his family were catching hares for the Dungarvan Coursing Club. McGrath asked them to buy hares from him, Six birds but they knew his hares were snared,

to shoot him. McGrath had a snare and witness snapped it and was going to report the matter to the Guards. In the struggle he gave McGrath a slap with his open hand and he ran away. It wasn't true to say that he knocked McGrath and kicked him. The Sergt. came to him two days after and said that McGrath complained that he was struck by a stick and was unconscious for half an hour.

Cross-examined by Mr. Williams Witness said McGrath wasn't friendly with him for the past two years. He asked McGrath what he had done that he (McGrath) was going to shoot him. Did you honestly believe he would

shoot you?—He used have a gun some-time ago. Many men had guns some time ago?—Yes. Did you believe the story O'Leary told you?—Yes. He didn't think it right for McGrath to be snaring hares at the time. He didn't threaten McGrath. He took the snare because it was the close season and he was going to report it to the

law. Witness only hit McGrath a slap in the face-he didn't hurt him, and he turned and ran away. Witness had no stick

Patk. Barry, father of the two previous witnesses having given evidence regarding the snaring of hares, John O'Leary stated that McGrath said if he had a gunand met Barry he would shoot him. Witness told

John Barry about it. The Justice said as neither side had called the Sergt., he would do so. Sergt. Gallaher, said that McGrath complained to him about being assaulted by James Barry. There was a slight scratch in his forehead, but

it didn't look like the blow of a stick.

He showed no signs of assault. The

Barry's were respectable boys. The Justice said the Sergeant's evidence exactly fitted in with his conclusion—that the truth lay somewhere half way between the two stories. BABY BEEF FROM CANADA. FARMERS TO FEED SMALL RANCHERS' CATTLE.

It would appear that the "baby beef' idea has been taken up by Canada and that practical steps are being taken to cater for the tastes of the British consumer by preparing for export to Great Britain small, wellfinished types of cattle in place of the older and heavier beasts hitherto sent on to across-Channel markets

For the carrying out of this scheme, a correspondent of "The North British Agriculturist" states, a group of ranchers in Southern Alberta have organised to co-operate with members of smaller farmers in their area who are mostly growing sugar beet for the local factory, green feed such as alfalfa, sweet clover, and other grasses, and a grain crop to carry out the early finishing. The ranchers send to these farmers their choicest young cattle for feeding in October, when the farmer has completed harvesting. The feeder does not buy the cattle, but contracts with the Ranchers Association to feed them. The animals are weighed on arrival, and whatever increase in weight has been made at the marketing in the spring represents the feeders' profit, calculated at the selling price. By this method the rancher gains by being able to keep his cattle off a declining pre-winter market, while the farmer finds himself with an outlet for his feed and for the best beet pulp and other by-products on the sugar industry that are available, and the finished product is, evidently, finding a more profitable place in the British

The system is stated to be something in the nature of a revolution brought about by pressure of circumstances as these lighter-weight, earliermatured cattle are finding a much better market in London than the older type of Canadian cattle direct from the range.

POTATO BLIGHT. IMMEDIATE SPRAYING NECESSARY.

The occurrence of blight on the potato crop has been notified from County Waterford. Damp warm weather is particularly favourable to the rapid spread of the disease, and although crops are not yet far advancson through failure to spray the crop

The Department of Agriculture, therefore, warn growers of the grave danger of serious loss this season though unduly postponing the first spraying. It is of the greatest impor-tance that the spraying mixture should be properly prepared. tained. TO DUNGARVAN. The Gaels of these parts are travelling at full strength to the Old Boro' on to-morrow (Sunday) to cheer the home county senior hurlers and minor footballers to victory in their respective mixes. Charlie Ware and Co. can be confidently counted upon to "sink" Cork on this occasionmake no mistake about it, Waterford will win. The good word has gone far and far-afar that the arena is in apple-pie order, and that the Dungar-van people are "all set" to fully provide for the "appetiteial" wants of their thousands of visitors.

OFFICIALS AND IRISH.

POSITION IN THE GAELTACHT.

The Minister for Local Government and Public Health has made an order entitled the Local Offices and Employments (Gaeltacht) (Amendment) Order 1932 which amends the Gaeltacht Orders of 1928 and 1931 in the follow-

1.-Under Article 3 of the Order of 1928, as amended by Article 2 of the Order of 1931, the period for satisfying the Minister as to knowledge of Irish is three years, with an extension to the next following February or July We are glad to learn that the able County Waterford Gaelic teacher, Mr Sean Downey, will be starting classes at Kill, Ballylaneen and Kilmaath

The Minister has decided to allow this extension mainly in order to anord every opportunity for qualify-ing in the cases of elderly persons appointed or promoted to posts in the caeltacht, and thus obviate the undue hardship in connection with the obligation upon such persons to qualify in Irish.

In the case of new entrants to the local service, however, the Minister feels that a much shorter period should be adequate and that the Local Authority should in fact make every attempt to have persons duly qualified in Irish appointed in the first instance. It should be the aim of every officer appointed under the Order to qualify in Irish in as short a period as possible following his ap-Bull in a healtier state than he has been for many years. The great burdens of the past are rapidly lightening ready sent to you in connection with ready sent to you in connection with the half-yearly examinations which have been arranged by the Local Apwill note that next February interested | who presented themselves for exam- | year-old for £7,100 and won £3,000

ILLNESS, ETG.

Under the amending Order the Minhowever, to state that the discretion-A statement of the circumstances

incapacitating the officer should be sent to this Department prior to the date of examinations and evidence of inability to attend must be duly and properly vouched.

The Minister has also been concern-

ed as to the performance of the duties attached to specific posts where the holders of such posts are being discontinued under the Gaertachi Order. In certain cases the exigencies of the local service might require such an officer to continue to perform his duties within a limited period after the time of the expiration of his office fees fixed by Co. Committee of Agriunder the Gaeltacht Order.

This consideration would apply for example, to a rate collector entrusted tions from a local authority with regard to the granting of a limited extension of such cases, but as in cases of illness the necessity for the extenranted.

TEMPORARY SERVICE. 3.—The Minister has been advised that in view of the wording of Article 3 of the Order of 1928 temporary service immediately preceding permanent service before the date of the Order of 1931 has the effect of making the provisions of the Order of 1928 inoperative in the case of an officer possessing such temporary service, Article 5 of the Order now promulgated amends the Order of 1928 by providing that the Order shall in future apply, except where a person was immediately before his appointment and had been continuously from a date prior to the date of the Order of 1928, in the service of the Local Authority in a permanent capacity, although the legal interpretation of the Order of 1928 has the effect or excluding some officers appointed between the 6th June, 1928, and the 24th September, 1931, the Minister considers that a Local Authority should suggest to such officers the desir ability of attaining whenever possible the degree of qualification in Irish appropriate to the grade. The Local Appointments' Commissioners will raise no objection to these candidates presenting themselves at the ordinary Gaeltacht examinations. Moreover the Gaeltacht Orders are not to be regarded as having ceased to apply in any case except where an intimation to that effect has been received from

1931, and this Order and in the abing such extensions to be granted. a nuisance.

Irish Traders' Association

MEETING IN DUNGARVAN. STRONG BRANCH FORMED.

Following the preliminary meeting last week on the subject of the formation of a branch of the Irish Traders Association, at which a deputation from Carrick-on-Suir attended and exfrom Carrick-on-Suir attended and explained the aims and objects of the organisation, a largely attended public meeting was held in the Town Hall, on Monday evening. Mr. P. J. Moloney, occupied the chair and amongst those present were Messrs. Ml. Clancy, C. Lawn, J. J. Crotty, M. Moloney, J. Christopher, M. Fraher, B. Mulcahy, P. A. Walsh, P. Power, James Dunne, M. J. Cleary, P. J. Hallahan, W. J. Nolan, J. F. Foley, John Cummins, J. J. Morrissey, M. Brennock, M. Casey, Percy Casey, J. Bransfield, P. F. Crotty, Jas. Curran, O'Connell street, etc.

Messrs. P. Walsh, and J. J. Russell, Cappoquin, were also in attendance.

Cappoquin, were also in attendance.

The Chairman explained that the previous week some traders were approached by members of the Carrick Branch, with a view to starting a branch in Dungarvan. Having heard the views of the visitors and the objects of the Association, they decided to call a public meeting and that re-presentative attendance was the re-

Mr. J. J. Crotty, acting Hon. Sec., gave a brief review of the progress of the Association in other centres since it was first inaugurated by the traders of Ballyhaunis. It had done an enormous amount of good and went very far to restore trade to those towns. The Government were con-templating the setting up of a Commission to deal with the question which was so vital to the interests of the Urban areas.

The objects of the Association which was strictly non-political and nonsectarian were:-

To safeguard the interests of the legitimate traders of Ireland. To secure the abolition of Travelling Shops and street Trading. To pursue a vigorous agitation with the object of making it prohibitive for any person to carry on business except in a registered premises. To take whatever steps are necessary in the interests of our self-preservation.

All members to be active and true to the objects of the Association and to respond and help their Executive Committee whenever called upon. Continuing, Mr. Crotty said it was

ery necessary for them to form the novel by A. Hamilton Gibbs, with branch of the Association in Dungar-Douglas Fairbanks Junr., starring as the young Artillery Officer, a dashing of the town was going down gradually. Travelling Shops were going all around the country every day and taking money at every cross-roads. The result was that people were not coming into town. Most of the cash and trade was going else-where. The time had now come ATINEE on THURSDAY at 4 p.m when it was up to every trader, large and small, to join together and by banding themselves into an Association try and restore the trade again to the town. They could all remember the days when policemen had to regulate the traffic in the principal streets, but to-day what a change was there? No such service was needed in that line, but by get-ting their backs into the work before them and doing their best in combination to secure the abolition of the Travelling Shop, they would soon restore the town to the position it held, in the industrial life of the country.

Mr. Lawn-I have great pleasure in proposing that a Branch of the Irish Traders Association be formed in Dungarvan and that a subscription list be opened.

Mr. Jas. Dunne seconded. The Chairman referred to the spread this new movement was ,making all over the country and how each town organised the next. This organisation was from Carrick and as there are gentlemen from Cappoquin present they should try and have a branch formed there. The more As-sociations they had and the better organised they were the stronger they would be, and he suggested that a committee be appointed to call on the traders who were not with them

that evening. Mr. Clancy-It is strength you

Mr. Nolan suggested tha a committee be appointed to call on absent

Mr. Crotty—I would rather have their support than to get their sub-scriptions. The membership fee maximum 5/-, down to 6d. The Chairman referred to the gene-

ral aspect of the aims of the Association and said apart from the general there was a local aspect in every district. In Carrick, for instance, their trouble was that their fowl market was destroyed by vans going out the country. He then dealt with the recent starting of the pig fair in Dungarvan, which proved a benefit to the traders and farmers and said much could be done like that in other direc-

Sunday Cinema. The following letter was read from Mr. Daniel Crotty:-

Dear sir,-In view of the recent pronouncement of the Urban District Council on the question of Sunday entertainments, we wish to place the following points before them in the hope that each individual member will use the utmost effort to reinstate the Sunday Cinema licence which

was withdrawn some few years ago. In the first place the question is one of ordinary common sense, and one which the average man might well be allowed to decide for himself, since Sunday is a day for mental as well as physical recreation, and there can therefore, be no logical difference between a sports meeting and a cinema performance

As far as the cinema is concerned no objection can be maintained against opening on religious or moral grounds, as the censorship regulations in this country are stringent in the extreme, and no film which can sent in final certificates before date be shown on week-days is unsuitable fixed for the examination, or failed to for Sunday.

thing wrong with this form of entertainment, then, cinemas should not be allowed even on week-days, but should be rigorously banned all over the country.

Sunday amusements are an absolute necessity in this modern age, and there are hundreds of people in every crowded Urban Area with no real homes, to whom the cinema is a godsend, so why deprive them of their only amusement whilst tolerating practically every other form of enter-

Then again, the general policy of the Council towards Sunday amusement is mitigating against the natural development of the town as a holiday resort and is making direct inroads on the ratepayer's purses. The prohibition of harmless amenities only results in a loss to the rates and revenue, increase in unemployment, and a greater exodus of trade to other resorts, with a huge consequential loss to every trader and shopkeeper in this town, since it cannot be denied that everyone benefits directly or indirectly from holiday and tourist

Finally, we as well as any other ratepayer claim the right to live, instead of being strangled out of exisplay, as all other traders allowed to carry on business on a Sunday, such

It has been conclusively proved during the past few years that not only has spraying prevented potato blight, but it has almost doubled the crops in every instance. It also improves the quality of the potato by extending the period of growth, thereby bllowing

the crops to come to maturity. The necessity for spraying this season may be more urgent than usual. The eye may be of value in distinguishing a thoroughly bad beast proving our dairy cattle would be from a good one, but the eye can cer-tainly never be an accurate measurer on production records so also we select of production in dairy cows. And our bulls, and the production of a bull why should we want the eye to measure production when we have the scales and Gerber test? It is palpably value of a dairy bull can be assessed absurd that anyone should attempt to is by comparing the yields of his breed dairy cattle in a constructive daughters with the yields of the dams

Anyhow, the following is based on the proven sire.

The old saying that the sire is half are aiming at efficiency in that they the herd is perfectly true. In how record their milk. Before going into details it must be clearly pointed out that heredity is only one of many factors governing increased yield of milk. Defore going into many herds does the bull get as much attention as the high-yielding cow, and yet he is by a long way the most important animal. Management and length of dry period,

all these things into consideration and that we have the records of our cows upon which to base the breeding operations of our herds. Performance at the pail is the first esential. We must remember that total milk yield and butter-fat yield are probably inherited more or less independently of each other. Butter-fat percentage is an expression of the one as compared with the other, and, therefore, should not be used as a basis for selection. To stress one of these points such as total milk yield, and to neglect at the same time butter-fat yield is to lead to depression in the butter-fat percentage of future generations. Unless the performance of a cow reaches the desired

Studies in this country, America and Germany It is not necessary, however, to stress the value of milk recording to members of a Milk Recording Society. It is like preaching to the converted. We must lay greater emphasis upon

I have touched on the inheritance of age and feeding, all these points must be taken into consideration if the maximum yield is to be obtained.

Let us suppose that we have taken all these things into consideration and to be considered, and the principal to be considered, and the principal

of future generations. Unless the performance of a cow reaches the desired standard she should be discarded from the breeding herd.

The value of pedigree in the construction of our breeds cannot be over emphasised, but in the old days the number of pedigree animals was small. The animals of one breed tended to be located in one area, and hence the names of animals on the standard she should be discarded make the fullest use of their records? Much useful knowledge can be gained, not only of your own herd but other people's from an examination even of only those records which are published. Still more knowledge awaits the man who closely scrutinises his weekly records, knowledge that will bring cash into his pocket and right off?

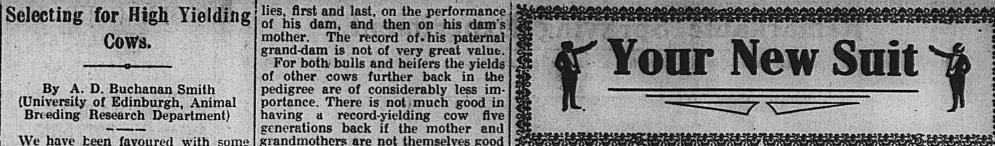

What are the animals to which we should look? Let us take the pedigree of a heifer which we are thinking of people. Recording alone does not Recording alone does not

PROTESTANT TRIBUTE TO LATE BISHOP HACKETT.

Addressing the congregation at Christ Church Protestant Cathedral, Waterford, on Sunday, the Very Rev. Dean Mayers, said it was with feelings of genuine sorrow and regret that they heard on Wednesday last of the death of Bishop Hackett, and he wish-ed to take that opportunity of express-ing deep sympathy with their Catholic fellow citizens in their sorrow on the loss of their chief pastor. He had the privilege, he said, of meeting the late Bishop fairly often, and he al-ways found him most affable and courteous. "He impressed me," said Dean Mayers, "as a man of independent mind, strong in his own beliefs and convictions, but free from bigotry and narrowness. Popularity made no appeal to him, he realised what a hollow and paltry thing it so often is

hollow and paltry thing it so often is and frequently demanding of its votaries a contemptible surrender of principle and consequent loss of self-respect, and, in the long run, of the popularity they set so much store in. So the late Bishop spoke out his mind boldly and took the course which he considered right, whether it made him popular or not, in itself a high testimony to his strength of character and courage. Such qualities entitle their possessor to respect and esteem of his fellow men. We therefore, desire to sympathise wholeheartedly with his people in the death of their esteemed Bishop. the Curragh area.

NEW INDUSTRY. TURF FOR COAL.

GOVERNMENT'S NEW COM-MERCIAL PROJECT

The following statement has been ssued from Government Buildings:-The Minister for Defence has decided to experiment on a large scale with the use of turf as a substitute for coal.

The experiment will be carried out at
the Curragh Camp during the coming winter season. If, as is hoped, it will be possible to obtain supplies at a figure which will compare with the cost of coal, it is intended to extend the scheme until all military posts are

supplied with turf.

The proposal is one which will be welcome in Kildare and other turf-producing districts. Employment will increase in these areas, and in addition money which would otherwise go out of the country will circulate at home. The Minister hopes that his desire to assist home industry will be ably seconded by the persons from whom the turf will be obtained. It is understood that tenders for the supply of turf will be called for immediately, and that advertisements ac-cordingly will appear in the next is-sues of the newspapers circulating in

CAPPOQUIN NOTES.

QUARANT ORE AT CONVENT. The annual Quarant' Ore devotions, at the Convent of Mercy, Cappoquin, opened in the Convent Chapel last

Mass was celebrated by the Rev. P. J. Flavin, B.D., Maynooth, before a large congregation, which included had the privilege of a special audience all the members of the Community with our Holy Father, the Pope. and a large number of the prominent townspeople, Industrial School Boys, CYCLING ACCIDENT.

The Blessed Sacrament was then borne back to the Chapel and placed these establishments as well. on the High Altar, which was beautifully decorated for the occasion.

On Sunday morning, Mass of Missa-Cantata, was celebrated in the Con-vent Chapel by the Very Rev. Canon Whelan, P.P., before another large congregation, after which a further procession was held around the grounds, the order of which was the same as on Friday morning.
On this occasion, the Brass and

Reed Band attended and played a choice selection of Sacred hymns and other music, the hymns being sung by the members of the Convent choir.

The natural beauty of the Convent grounds was greatly enhanced on Sunday morning by a most artistic scheme of decorations, in which the Papal and Congress colours predominated, and with these striking colours, the white veils of the school girls, the white jerseys and red sashes of the Industrial School Boys, and the blue cloaks of the Children of Mary, the scene was one of rare splendour and impressiveness in the brilliant flood of warm June sunshine which bathed the grounds.

The Blessed Sacrament was borne by the Very Rev. Canon Whelan, who afterwards gave Benediction of the Blessed Sacrament in the Chapel, which concluded a ceremony of singular beauty and striking religious fervour.

POPULAR PRIEST HOME FROM AUSTRALIA.

His hosts of old friends in the Cappoquin and Modeligo districts, were delighted to have the pleasure of greeting a well-known and popular priest, the Rev. John Collender, who has been on the Australian Mission for the past 32 years, ann who has now returned to his native land to participate in the Eucharistic Con-gress, the week after next.

Father Collender is a native of Sicholastown, Modeligo, being brother of Mr. Hugh Collender, while another brother of his, the Rev. Richard Collender, has also been on the Australian Mission for a long number of

COUNTY COUNCIL OF WATERFORD.

REGISTRATION OF UNEMPLOYED WORKERS.

Arrangements have been made for the registration of unemployed workers at Local Post Offices and Civic Guard Stations where these centres are more convenient to them than the existing local offices of the Department of Industry and Com-

Unemployed workpeople residing in districts too remote from the local offices of the Employment Exchanges system may, accordingly, now register themselves for employment at the nearest Post Office or Civic Guard Station, but where it is more convenient to do so they will continue to use the Employment Exchange service, which must in any case continue to be used as heretofore by those applying for Unemployment Benefit.

No applicant may register at more than one of the places provided for

the purpose. As grants for the relief of unemployment will be allocated on the basis of the extent of unemployment in each County, it is of the utmost importance that all persons seeking employment under relief schemes should IMMEDIATELY register their names for such work at the local Post Office

or Civic Guard Station. Employment will be given only to persons so registered and not to other persons. Small farmers and others seeking employment as carters should also register immediately.

This will apply to any persons who may be looking for work up to the 31st March, 1933.
