DUNGARVAN URBAN COUNCIL

Mr. M. Morrissey, Chairman, presided at the weekly meeting of the above on Friday last.

PAYSHEET. Sums of £13.11s. 6d., on the General Account and £4 on the Housing Account were passed for payment.

HOUSE REPAIRS. Mr. Wm. Quinn, St. Thomas' Terrace, wrote asking to have repairs carried out to his house which were needed since he got the tenancy some years ago.

Mr. Dahill suggested a general inspection of the Council's houses by the B.S., and a report on their condition.

Clerk—Not at present, Mr. Dahill. You must remember we have no money at present.

The B.S. was asked to inspect and report on Mr. Quinn's house.

THE SLUM AREA'S. The following letter was read from Messrs. E. A. Ryan & Co., Solrs.:

We have been instructed by the Reps. of J. R. Dower, Reps. of John Wall, Mr. M. Ryan and Mr. John McGrath, with reference to premises, their property which are let to tenants in the slum area.

Our clients understand that the new houses built by the Council are ready for occupation, and as the tenants of the houses in the slum area are anxious to leave same as soon as possible we are requested to suggest to the Council that the tenants of our clients be given possession of the new houses allotted to them.

It will take some time before the inquiry by the Minister for L.G. & P.H., is completed and steps taken to demolish the houses in the slum area, but our clients will give an undertaking to the Council that when the premises are vacated by the tenants at present occupying same, they will not re-let or make use of their premises from the date upon which they are vacated until they are demolished.

We will be glad if you will ask the Council to consider this letter, and on receiving the necessary undertaking we will have same completed by our clients.

Chairman—We had a discussion on this before, but it ended rather abruptly.

Mr. Butler—Yes, and it is a pity it ended abruptly at the time.

Mr. Christopher—Does that letter mean that the new houses can now be occupied?

Mr. Butler—The Council are getting a guarantee from certain landlords and he had no doubt but that they would get a similar guarantee from the other landlords concerned that they will not re-let these houses so that they can be demolished.

Mr. Mansfield—What proportion of the eighty-six houses does those four landlords represent?

Clerk—A very big proportion.

Mr. Quann—If one landlord hold back, will the Council be then placed in a false position?

Clerk—That in my opinion would only affect the houses of that landlord.

B.S., replying to a member said that that letter embraced 77 houses out of the 86, leaving only 9 houses not included.

Mr. Butler—The Department should agree as well as the landlords. In my opinion it would be good business for the Council to leave these people off the rates this year.

Chairman—I think what we should do before we have any further discussion is to get the Department's opinion on this letter.

here to compel people to submit plans of proposed buildings to the Council. It was decided to hold a special meeting to deal with the adoption of bye-laws.

WATER. The usual report was read from the caretaker of the Glendine Water supply.

Mr. Clancy—We should have a report from the caretaker of the Kiladangan supply also.

Water Inspector—I don't think that the caretaker want to have anything further to do with Kiladangan.

Clerk—He has not paid his rent for a considerable time. There is a report from the Analyst on the Kiladangan supply which states that the water is safe for use as a drinking supply.

Mr. Clancy—Seeing that we have a favourable report from the Analyst we should now have a report from the caretaker.

Chairman—We must first find out if we have a caretaker there.

WATER TO NEW HOUSES. The B.S., reported as follows:—As the tenants may be going into occupation in about one month from now, and the proposed improvement in the water supply may not be carried out for some time and may go well into next year, it is necessary that some effort be made to improve the supply.

This might be done by a small outlay in checking the supply to the Co. Home, by cutting the main at the Co. Home wall and carrying it up eight or nine feet and down again, in other words forming a loop so that the water will rise sufficiently high to fill the tanks of the water closets before it can flow on to the Co. Home.

Replying to the Chair, the B.S., said that the arrangement would not interfere with the supply to the Co. Home, the cost would be about £6.

It was decided to have the work carried out by the B.S.

DANGEROUS HYDRANTS. Mr. Dahill called attention to a hydrant opposite Messrs. A. Moloney & Sons, and asked to have the hole in the road around it filled in as it was very dangerous at present for horses.

Mr. McCarthy—There is another at the Youghal Road Junction.

Mr. Croft—And there is also one opposite my house.

B.S.—I will have the one in Main street attended to. With regard to the others it is a question as to whether it would be our duty to lower stopcocks on roads that are not under our control or whether it is the duty of the Co. Council to raise a road that is worn down from the stopcocks. The stopcocks are set in cement.

The B.S. was directed to interview the Co. Surveyor on the subject.

FLOODING AT MITCHEL TERRACE. Mr. Clancy, called attention to the serious flooding of houses in Mitchel Terrace since the putting down of the new footpaths by the Co. Council and proposed:—That the Town Clerk be instructed to write to Mr. J. Bowen, Co. Surveyor, and inform him of the flooding of houses in Mitchel Terrace, owing to the footpaths recently constructed being too high, and that he be asked to have same remedied immediately.

Mr. McCarthy, seconded the proposition, which was passed.

KILRUSH GRAVEYARD. On the suggestion of Mr. O'Dwyer, the S.S.O., was directed to get the Kilrush graveyard cleaned.

GALWAY'S LANE. Mr. Christopher said that residents opposite Galway's Lane complained to him that it was being used by some people as a public lavatory. There is certainly material evidence there.

The S.S.O., was asked to investigate the complaint.

SYMPATHY. A vote of sympathy was passed to the relatives of the late D. and Nora Keohan, Nicholas street, on the proposition of Mr. McCarthy, seconded by Mr. Hayes.

Mr. J. F. Foley, proposed, and Mr. Croft, seconded, that the sympathy of the U.D.C., be tendered to Mrs. Sibbery, Abbeyside, on the death of her respected mother.

DUNGARVAN FAIR. Wednesday's fair was only a ghost of August fairs with a very small supply of cattle and practically no offers for same.

The transactions that took place in store cattle were not worth recording. Some 14-year-olds changed hands at 30/- to £3 10s, and 24-year-olds at £3 to £5 10s. 3-year-olds and upwards in advanced condition were quoted at £6 to £8 10s. good springers were bid up to £9. There was also a small supply of sheep, which sold at 35/- to 45/- and lambs 16/- to 22/- each; store pigs were scarce and made £1 to £2 according to quality. The horse fair was thinly supplied. Troopers were in demand.

Offertory Box Stolen

FROM LISMORE PROTESTANT CATHEDRAL. VERGER CHARGED AND ACQUITTED.

Before Mr. Farrell, D.J., at Lismore District Court, Cyril Jolly, Church St., Verger, Lismore Protestant Cathedral, was charged by Supt. Quinlan, Lismore, with breaking into the Cathedral and stealing an Offertory Box containing the sum of 2/6 on July 20th, 1934.

Inspector Tobin, Waterford, prosecuted, and Mr. O'Gorman, solr., Lismore, defended.

Miss Annette Leslie, daughter of the Dean of Lismore, examined by the Inspector, stated that she saw the Offertory Box in its usual position in the Church on the morning of July 20th, but it was not there on July 21st.

Rev. Dean Leslie, Dean of Lismore, said he last saw the box in the church on July 9th before he went on his holidays. The box was placed in the porch inside the entrance door and was screwed into a block of wood which was fastened to the wall.

Cross-examined by Mr. O'Gorman, he said he had cleared out the box and taken all the money before he went away. The church was open every day from 8 o'clock in the morning until 7 o'clock at night, so that everybody had free access to the building.

Mr. O'Gorman—Had you paid Mr. Jolly his wages before you went away? Witness—I had.

Mr. O'Gorman—So that he would be in no immediate need of money for some time? Witness—I shouldn't think he would.

In reply to further questions by Mr. O'Gorman, the witness said that the key of the Offertory Box was kept in a chest in the Vestry, and Mr. Jolly had access to this chest while witness was away on holidays.

Mr. O'Gorman—So that if Mr. Jolly wanted to rifle the Offertory Box he could unlock it with the key and replace the key in the chest without having to wrench the box from its fastening on the wall? Witness—Yes.

Mr. John Scott-Allen, Organist in the Cathedral, was next examined by the Inspector, and stated that he went to the Church at 2.30 on July 20th and found some trouble with the organ, the cause of which he could not then ascertain. On July 27th, he investigated the matter more fully and found that a square piece of wood had been placed under the pipes of the organ which caused serious obstruction.

A block of wood was now produced by Inspector Tobin and was identified by witness as the one to which the Offertory Box had been attached, and which had caused the obstruction to the organ.

Mr. O'Gorman, solr., asked the Justice for a direction at this stage, as there was no evidence whatever against Mr. Jolly, and further there was no evidence that there was any money in the box when it was taken, as it had been cleared out by the Dean before he went away.

Inspector Tobin said the next witness would prove that the sum of 2/6, at least, was in the box on July 20th, and he then examined Mr. Wm. A. Roe, South Mall, Lismore, who stated that he met a party of American visitors in the Church on July 15th, and one of the ladies of the party gave him a half-crown to put in the Offertory Box, which he then put in. He missed the box from its usual place on the following Friday, July 20th and told Mr. Jolly about it on Sunday, July 22nd.

A young girl named Mary Sheehan, Church Street, aged 11 years, was then called by the Inspector, but the Justice said she was too young to be sworn.

The Justice having asked her if she understood what it meant to tell a lie, she said she did, and also stated that she was in the Fourth Standard in school.

The Justice said she seemed to be a bright and intelligent little girl and he would accept her evidence without being sworn.

Witness then said that on the evening of July 20th, she was in her own house in Church St., and saw Mr. Jolly going from his house towards the church.

In reply to Mr. O'Gorman, she said it was a wet evening, and only for that she would be out playing about the street, laughing.

In reply to a further question, she said she did not see Mr. Jolly go into the Church that evening.

Miss Anne Doherty, who said she was reading a book at the front window of her house in Church St., on the evening in question, gave similar evidence.

Mrs. Elizabeth O'Brien, Church St., said she was speaking to Mr. Jolly on Friday evening, July 20th, and asked him did he hear about the box being stolen from the Church, and he re-

Ring Sports.

The Annual Sports under N.A. and C.A. rules at Ring on Sunday last in glorious weather were a perfect success and were enjoyed by a very large attendance. The grounds, which were kindly lent by Mr. M. O'Donnell, Ballinacourty, were ideally located and were laid out in a perfect manner, reflecting the greatest credit on the Secs.—Messrs. R. Harty, and P. Flynn and the other members of the Committee. Mr. W. J. Nolan, acted as handicapper and so excellent was his judgment in that respect that a few ties resulted. Mr. Percy Kirwan, Kilmathomas and Mr. M. Flynn, Dungarvan, were in charge of the field arrangements, which were carried out in a masterly manner. The Judges in the running events were Messrs. Liam O'Meehan, Liam Harty, Thos. Walsh, and D. Murphy, and needless to say none better could be found. Mr. M. Curran, had charge of the megaphone, and made all the announcements in the vernacular. In fact, very little Bauria was heard in the field.

Collegiate School, Lismore

The results of the Leaving Certificate examination were announced this week and once more the famed Collegiate School, Lismore, lives up to its honourable record by the magnitude of its success. 8 Pupils were presented and all passed, seven getting high honours. Now those who know the high standard of this examination in recent years can readily understand how capable and efficient the teaching staff must have been to win through with such distinction. These great schools go on yearly from success to success, and what noble work they have done and are doing for the boys of Lismore and all the neighbourhood can never be repaid. On behalf of the public, we tender heartiest congratulations to Rev. Bro. Mullan, the esteemed Principal of the school and his staff, and also to the successful pupils and wish them further honours as the days roll on. Classes will be resumed on Monday August 20th. All particulars can be had from the Principal.

plied—"The devil take Mr. Roe's caretaking," (laughter).

Mrs. Scanlan, Church St., was next called by the Inspector, but said she did not see Mr. Jolly at all on July 20th.

Sergt. Ballantyne, Lismore, having read a long statement made by the accused after being duly cautioned, in the course of which he detailed all his movements on July 20th, the Inspector said that that was all the evidence he had to offer.

The Justice said there was no evidence whatever against the defendant and he would dismiss the case, this decision evidently proving a popular one amongst the large attendance of both sexes in Court who had listened with great interest to the evidence in the case.

Death of Rev. Dean Leslie, Lismore.

A DISTINGUISHED CHURCHMAN.

We regret to announce the death of the Rev. John Herbert Leslie, Dean of Lismore, which occurred rather suddenly on Monday morning at his residence, Lismore.

He was born at Beaufort, Co. Kerry, on December, 24th, 1867, and was educated at Santry School and Trinity College, Dublin, where he obtained the degrees of M.A., and B.D. Having distinguished himself by winning Archbishop King's Bishop Fosters, Downes and Wavren Prizes, and obtained First of First Class Testimonium, he was ordained Deacon in 1893. He was curate of Waterford Cathedral, 1893-8, Rector of Clogheen 1898-1910, Rector of Clonmel 1910-20, and Precentor of Lismore until 1930. He was Dean and Rector of Lismore since 1930 until his death, and representative Canon of Cashel and Waterford in St. Patrick's Cathedral, Dublin, from 1910 until his death.

He was Domestic and Examining Chaplain to Dr. O'Hara, Bishop of Cashel, and later held the same position under Dr. Miller and Dr. McNiece, the present Bishop. He was a member of the General Synod, and Diocesan Secretary of the Board of Education and a member of the Board of the Incorporated Society and Erasmus Smith Schools. While Rector in Clonmel he was Vice-Chairman of Clonmel Technical School and other Boards, and Chairman of Clonmel Grammar School Committee until his death. During his 20 years in Clonmel he was highly respected by the members of all denominations owing to his great intellectual and administrative qualities, while he was ever foremost in supporting the cause of charity, and was a kind and generous benefactor to the poor at all times.

Bringing the same high qualities with him to Lismore in 1930, he was beloved and respected by all classes during his 4 1/2 years in that town.

In 1898 he married Miss Mary Richardson, daughter of Mr. and Mrs. Augustus Smith, Clonmel, and his only surviving child, a daughter, was born to him in 1900. He was a member of the most respectful sympathy of all is felt.

On Wednesday the coffin was borne from the Deanery to Lismore Cathedral by the members of the Vestry, and after the funeral service it was borne to the grave by the members of the Cathedral, Mr. Scott-Allen Organist, played the Hymn "For All The Saints Who From Their Labour Rest," and as the coffin was being borne to the grave, "Abide With Me" was played.

Right Rev. Dr. McNiece, Bishop of Cashel, assisted by the Ven. Archdeacon Burkit, Cappoquin, officiated at the graveside, the attendance of clergymen being extremely large.

The general attendance at the funeral was of a most representative character and included the Very Rev. W. P. Canon Burke, P.P., V.F. Lismore, Rev. Father Power, C.C., do.; Rev. Father Murphy, C.C., do.; several Christian Brothers and all the leading townsmen.

The Chief Mourners were—Mrs. Leslie (widow); Miss Isabel Leslie, and Miss Annette Leslie (daughters); Rev. Chancellor J. B. Leslie, D.Lit., Rector of Kilsarcon, (brother); Mr. W. J. Leslie, Caheriveen, (brother); Mr. L. S. Smith, Dublin, Mr. H. A. Carter, London, Mr. Arthur S. Megaw (brothers-in-law); Mrs. Megaw, Belfast; Mr. D. L. Shaw-Smith, Dublin (nephew), etc.

Between 60 and 70 beautiful wreaths were laid on the grave.

GLEN ROVERS V. MIDDLETON SELECTED.

At Copperalley Grounds, Youghal, the above teams met in a senior hurling friendly. A high wind mitigated against the standard of play, and also, from the point of view of a good gathering of spectators, marred what would otherwise proved a stirring encounter. Glen Rovers were superior in all departments and ran out comfortable winners by a big margin.

Glen Rovers won the choice for ends and took advantage of both wind and sun. At the outset a long drive almost found the Middleton net, but the goalie made a clever catch and clearance. Middleton broke away on the delivery, but were forced to assume defensive tactics, during which a few overs were recorded. Murphy at last opened the scoring with a clever point. He was responsible for his sides many scores and created various opportunities from which scores resulted. T. Murphy and Quirke held up the Rovers' attacks in fine style, but combining well and hurling in irresistible fashion, the city team piled

Co. Library Scheme.

At the Co. Council meeting on Tuesday before Mr. Commissioner Moynihan.

LIBRARY SCHEME MADE PERMANENT. In connection with the recommendation to make the Library Scheme a permanent one.

Mr. Murphy, Co. Librarian said since the Library was established it had made considerable progress as shown in the 3 years annual reports. The first year the number of centres was 21 and number of borrowers 2,198. The second year the number of centres was 44 and the number of borrowers 4,608 and the number of books in circulation 8,755. In the third year there was a total of 55 centres; 6,159 borrowers and 11,837 books in circulation.

The issue of books rose from 20,317 in the first year to 91,577 in the third year. From the inception of the scheme they had received £1,490 from the Carnegie Fund. The total amount expended to the 31st March 1934, was £5,776. The total book stock at the moment is 15,000 volumes and the number of borrowers would be at least 7,000. They were getting a rate of 1d. in the £, and for that 7,000 borrowers were supplied with books and in addition 80 per cent. of the schools in the County had Juvenile sections, and in most cases adult sections as well. All the reports he had, went to show that the general progress of the children who availed of the facilities offered had been much increased in general knowledge, with a marked improvement in English composition. They also give books to the Vocational Education Committee and circulate in the County books on agriculture, history, biography, literature, etc. He paid tribute to the hearty co-operation he received from the teachers in furthering the scheme. As to Irish, he wished to say that 75 per cent. of their total available stock of Irish books was always out.

From the public recreation side of the question, they controlled the reading matter of the public in the County and if for no other reason the Library Scheme would be justified as a strict censorship is exercised over all books—the censorship over the contractors and the censorship of their own Clergymen in the County. His Committee asked that he scheme be made permanent.

Commissioner—You seem to have made great progress for the past three years, and it does you great credit. The Library Scheme is most useful in the County from the educational and recreation point of view, and I have no hesitation in confirming it.

BANK OVERDRAFT. The Bank overdraft stands at £32,500.

GENERAL COUNCIL.

With regard to the appointment of delegates to the Co. Councils General Council, the Secretary said the Co. Waterford was not affiliated to that body for years.

Mr. Bowen—The affiliation fee was £20 and the Co. Council some years ago decided they were getting no value for their money and I don't see what they can do. Originally it was to be an advisory body between the Government and local bodies, but when legislation came along they had no say in it. All they did was to pass pious resolutions.

No action was taken.

up a big register. At the interval the score was:— GLEN ROVERS 3-6 MIDDLETON NIL.

On resuming, it was thought that Middleton would make a bold bid to level up matters, but despite determined efforts they were unable to penetrate a rock-like defence. On several occasions they were almost through, but poor marksmanship lost several scores. The change over did not seem to make much difference to the Rovers for they soon settled down and keeping up a fast pace, scored almost as they liked. It was nearly halfway through this period before Middleton succeeded in scoring a minor per Duggan. Glen Rovers replied with a goal followed by a point which was a grand solo effort by Murphy, who ran with the ball, evaded several tackles and coolly shot over the bar. A quick spurt by Middleton produced a goal followed by two minors. When the final whistle went the score was:— GLEN ROVERS 7-10 MIDDLETON 1-3.

The teams were:— Glen Rovers—M. Casey, D. Dorgan, T. Kiely, J. Conboy, P. O'Connell, J. Burke, J. Duggan, J. Lee, M. Hyland, P. Murphy, A. Mulcahy, M. O'Leary, B. Barron, W. Driscoll.

Middleton—M. Moloney, T. Murphy, D. Quirke, O'Brien, A. Harty, E. McLaughlin, D. McSwiney, C. Duggan, J. Healy, J. O'Keefe, J. McCormack, J. Hegarty, P. Murphy, T. Sweeney.

Cattle Seizures Sequel.

8 MEN SHOT IN CORK.
ONE DEAD; SEVERAL INJURED.
EXCITING SCENES.

Shooting and baton charges marked the sale of cattle seized in Co. Cork for Land Annuities at a Sheriff's Auction in Cork on Monday. Thousands of farmers attended the sale and as a result of the day's work eight young men were treated in hospital for bullet wounds. One young farmer named M. P. Lynch, died some hours later in hospital from his wounds. Over 30 were injured in the baton charges that followed. The sale of the 14 seized cattle was adjourned, but was held some time later when the animals were sold to a man giving the name of O'Neill for £17 16s.

Outside the Pound gates several baton charges took place and also in the adjoining streets. The crowds stood and fought the Guards. Police helmets were seen soaring in the air. The Guards had to fall back, but reinforcements arrived and another baton charge was ordered. Excitement continued throughout the day.

One man shot in the stomach, who later died, six others wounded by bullets, and some 30 men treated in hospital for other injuries were amongst casualties as a result of the scenes which marked the sale of seized cattle at the Copley Street Repository in Cork on Monday.

Exciting scenes attended the seizure of the beasts at Ballincollig and Bishopstown last week, when the bailiffs visited farms at Bishopstown, and at Ballincollig, and seized a total of 14 cattle.

In anticipation of opposition from farmers and others, Guards were drafted into the city from all over Munster this morning. Long before 10 a.m. a cordon of Guards was on duty in front of the entrance of the Repository, and by 11.30 there were some 300 Guards on the streets in the vicinity of the saleroom. These were situated in side streets and in Copley Street, whilst within the yard detectives and Guards held positions in every nook and cranny.

Lorries, special buses and private cars arrived in Anglesea Street with farmers. The first of these arrived in Anglesea Street about 11 a.m., but from this up to 11.45 the arrivals were frequent, so that there were several thousand people present when the hour of sale—12 noon—was reached.

The scene, however, was strangely different from that of the earlier sale at the time of auction. On that occasion farmers had been storming the gates as the auction was proceeding.

On Monday there was no excitement no waving of sticks—not even a shout was raised up to 12.20, and it seemed that the entire proceedings would pass off without an incident worthy of note. Guards were drawn in a cordon across the entrance to Copley Street from Anglesea Street, whilst another cordon (some 80 strong) was on duty outside the Repository gates and these kept the crowd moving when groups of men attempted to congregate.

All was still quiet at 12.25, but a few minutes later there came a sensational interruption. The Guards in the front cordon were in conversation when shouts were heard from the direction of Anglesea Street. This was followed by a roar of a lorry engine rapidly approaching, and then the crowd scattered in all directions as a lorry was seen making straight for the entrance gates.

The Guards in the cordon attempted for a moment to stop the progress of the lorry, in which were some dozen young men. They were forced to scatter to avoid being run over, however, and some Guards who attempted to grasp the sides of the lorry were beaten off by the occupants of the vehicle.

Straight at the second cordon went the lorry, and here again the police scattered in all directions to avoid the oncoming vehicle, which crashed right through the gates into the yard. Taking advantage of the disorganised state of the police, the crowd behind rushed the gates, and there followed a scene of wild confusion, as Guards with drawn batons fought men who used sticks in their efforts to get into the yard.

In the midst of all this shots rang out—several of them—and after a short interval more explosions were heard at the entrance of the repository. Spectators—amongst them many women—made a wild dash for cover, and doorways in the vicinity were congested by the rush for cover, whilst others of the onlookers made down Anglesea Street and up Infirmary Road.

The crowd at the repository gates, however, continued the attempt to drive home an entrance behind the lorry, and it was several minutes before it broke before the charge of the Guards scattered down and up Anglesea Street. Outside the Model Schools the crowd again stood and beset the Guards. Some of the helmets were knocked off the police, and several helmets were seen soaring into the air some of them landing on the roof of the Farmers' Union Abattoir. The Guards eventually yielded before the onslaught and fell back some distance. Here they were joined by reinforcements and the order for another baton charge was given.

This time the rush continued down to the new City Hall and down Albert Quay, over the New Bridge. Another charge continued over Parnell Bridge and down Parnell Place, and the Guards then took up a position at the city side of Parnell Bridge. Several

more charges followed up the South Mall and down the surrounding streets, but the crowd still persisted in returning.

Traffic was congested by the presence of the crowds on the thoroughfares, and eventually at five minutes past one, a determined charge was made, which continued up the South Mall, along Winthrop street, and into Patrick street, where the crowd scattered and was lost to view. The police then returned and took up a position at Parnell Bridge.

DRESSING WOUNDS.
Meanwhile back at Anglesea Street a protest meeting was being held, and injured men were being dressed at a temporary dressing station, where doctors were in attendance. It is stated that Mr. E. J. Cussen, Secretary of the Cork Farmers' Union, received a nasty injury in the head. Whilst the meeting was in progress a lorry of military arrived and was greeted by boos and jeers from those listening to the speakers. The lorry passed on and the military took up a position outside the Cattle Yard.

PROTEST MEETING.

"NOBODY IN AUTHORITY GAVE ORDER TO FIRE."

At a public meeting held subsequently, Mr. D. L. O'Gorman, M.C.C., presided.

Mr. E. O'Neill, T.D., said Mr. Kennedy, the Sheriff, had telephoned to Dublin detailing the circumstances of the sale. He had received a reply that the cattle must be sold under any circumstances. The law in this case was the aggressor, and the men who should be upholding the law had attacked men who were protesting in a reasonable manner. "There was nobody in authority in that yard," said Mr. O'Neill, referring to the shots fired, "who gave the order to fire." Continuing, Mr. O'Neill said it was done in a most reckless manner. They had respect for law and order, and the attack made that day was to be laid at the door of the men in the front benches of Fianna Fail in the Dail, who said that they were going to collect these annuities no matter what happened.

Messrs. P. Daly, T.D.; B. W. Brasier, P.C.; M.C.C.; S. O'Farrell, Tipperary, and T. J. O'Donovan, T.D., also spoke. Following the meeting, the crowd lined up and marched through the city.

PROTEST MARCH.

CROWDS RECITE ROSARY IN THE STREETS.

At the conclusion of the meeting, Mr. D. L. O'Gorman announced that a protest march would be held through the streets of the city. A procession was then formed and, marching four abreast, the men marched down Anglesea Street, on to the South Mall, across the Grand Parade, down Patrick Street to MacCurtain Street, and back via Brian Boru Bridge and Parnell Place to Anglesea Street once more. A number of women also participated in the march. The processionists numbered several thousand.

A moving spectacle was witnessed when just the head of the column, reached the South Mall end of Parnell Bridge, on the return march, it was announced that one of the wounded men had just died.

The report that a man was dead was passed back the lines, and an angry groan—half shout—swelled from the ranks—shouts of "Where are the murderers now?" were raised.

THOUSANDS RECITE PRAYERS.

Then one of the leaders announced that prayers would be offered up. Everyone in the ranks fell upon their knees and the murmur of the Rosary was heard from the thousands of men and women who lined Parnell Place. The large number of Civic Guards who had accompanied the marchers all removed their helmets while the prayers were being said.

Some hundreds of people were gathered in the vicinity of the bridge near the Provincial Bank corner and also near the Cork Savings Bank. These joined in the prayers also, kneeling on the asphalt road surface.

The rosary concluded, the processionists re-formed, and continued their march to Anglesea Street, where a halt was made.

As a result of the proceedings 41 young men were detained at Union Quay Barracks.

THREE ESSENTIAL POINTS OF A HUNTER.

1. Form: His whole body, legs, ankles, and feet must be so constructed as to enable him properly to perform the work required of him.
2. Construction: His heart, lungs, digestion and circulation must be such as to ensure endurance and stamina.
3. Temperament: His breeding usually will determine his intelligence, courage, disposition—in short all that goes to make up the character of an animal that any horseman would wish to own.

If Irish cattle are brought into Great Britain let them not receive the subsidy, but if imported as stores and fattened they will after three months become eligible.

DUNGARVAN COUNCIL.

Present—Messrs. P. J. O'Gorman, P.C., Chairman; T. Beausang, J. Daly, R. Savage, R. Power, J. Whelan, E. P. Lynch, W. O'Sullivan, E. D. Condon, M. D. Broderick.

Fishermen's Grievance.
Mr. Power asked had there been any reply from the Department of Fisheries regarding the sprat fishermen's complaint or the imposition of £1 license.

The Clerk said there had been no reply up to the present.

Mr. Power said he would like to avail of that opportunity to compliment the Clerk on the manner in which he had put the poor men's case before the Department and their T.D.s. His communication was tinged with a fine national spirit, justified by the occasion.

The Chairman said that all the Clerk's communications were front rank.

The Clerk—Thank you, Gents.

Strand Carnival.

Mr. Savage, as Chairman of the Strand Church Committee, referred to last year's successful Carnival, which had been a great asset to the town. The Committee didn't feel disposed to undertake the big responsibility of running it that year, and he therefore, suggested that the Council should take a hand, either by appointing a Committee or calling a public meeting of the townspeople to deal with it.

After some discussion the Clerk said there was already a resolution on the books promising to give the Committee every possible assistance. He was sure that stood still good.

The Chairman said the Council as a body could not tackle the matter, but in accordance with the resolution referred to they would give the Committee every possible facility.

Other members having expressed their agreement with the Chairman's remarks, the matter dropped.

Band Promenade.

A letter was read from the Hon. Sec. League of the Cross offering the services of the League Brass Band for promenades in the Green Park on Sundays, for £5 per performance.

It was decided to put the matter on the agenda for next meeting.

Awning For Ferry Boat.

One tender was received for the erection of an awning in the motor boat "Evangeline," for the sum of £18 10s. 0d.

Replying to Mr. Lynch, the Clerk said the Engineer's estimate for the work was £5 to £6.

A Committee was appointed to meet and consult with the Town Surveyor as to the best means of dealing with the matter.

Housing Questions.

A letter was read from the L.G.D. regarding an application for one of the Council's new houses, stating that the matter could not be considered until they had received the report of their Inspector on his recent inquiry.

The Chairman said the inquiry had been held 5 weeks ago. People blamed the Council for the delay in the matter but that letter proved the blame should be placed on other shoulders.

New Scheme.

In connection with the proposed further scheme of housing, a letter was read from the L.G.D., stating that certain alterations were required in the layout plan.

The Clerk was unanimously directed to invite tenders for the erection of the houses in question, immediately on receipt of the L.G.'s sanction of the layout plan—The houses to be 3 or 4 roomed, in Youghal brick, concrete blocks or massed concrete.

Youghal Sword and Mace.

The Clerk said he had again written to the Agent of the Duke of Devonshire at Lismore Castle in connection with the Youghal Sword and Mace, at present in the Castle. Although their value as symbols of the old Youghal Corporation might be vanished, still they were the property of the town, and the Duke was not entitled to retain them. He (the Clerk) had received a reply to the effect that Lord Charles Cavendish, had been taken ill and was sent abroad for treatment and his Lieut. agents did not wish to trouble him further on the matter till his return.

Mr. Daly said those were symbols of the British regime. Send them to the museum.

New Refuse Dump.

A memorial was received from neighbouring residents protesting against the new refuse dump as being a dangerous nuisance.

The matter was referred to the M.O.H.

Main Sewers.

A letter was read from the L.G.D. regarding the proposed new main sewer. Considering the great expenditure involved, it might be necessary to do the work in sections. Plans, etc., should be submitted, in the absence of which the question of a grant could not be dealt with.

On the proposition of Mr. Power, seconded by Mr. Broderick, it was decided to instruct the Engineer to proceed with the preparation of the necessary plans, etc., at once.

Loan Sanctioned.

A letter was read from the L.G. sanctioning the loan of £20,000 for the erection of 30 houses, on the conditions obtaining at present.

Meat Inspection.

The usual monthly report of the Veterinary Inspector, on his inspection of the meat was submitted and pronounced very satisfactory.

Mr. Power—It is still very dear—

WILLIAM O'MEARA,

Signature of the Clerk of the local Authority the Dungarvan Urban District Council.

that is the only trouble (laughter).

The Chairman—It may be cheap enough soon.

Mr. Broderick—It is dearer it will be (laughter).

Afforestation.

Mr. Daly called attention to the fine stretch of land on the banks of the Blackwater in the vicinity of Ballynstray, which would be an admirable place for re-afforestation. The older amongst them could remember when the banks of the river were nearly all covered with trees. He, therefore, proposed that they ask the Minister for Lands and Forests to send down an Inspector to examine the neighbourhood as to its suitability for afforestation purposes.

This was seconded by Mr. Beausang and passed.

Condolence.

Mr. Power, proposed a vote of condolence with the relatives of the late Mr. James Harrington, who had been an official in the local Post Office for over 40 years. His son had been for many years an esteemed member of that Council. The late Mr. Harrington had rendered good service to the town in many ways.

Mr. Broderick, seconded.

Mr. Whelan and other members having expressed their association with the proposition.

Mr. Daly said that Mr. Harrington was one of the old stock of the town. He had always given valuable help to local clubs in organising functions.

The Chairman said they all sincerely joined in that proposition. The deceased was well-known to them, all from their childhood, coming from an old and respected Youghal family. During his life he had worked like a Trojan in many good causes.

The Town Clerk, asked to be associated with the vote.

WATERFORD CO. COUNCIL. CO. SURVEYOR'S REPORT.

RESIGNATION OF MR. MCCARTHY RATE COLLECTOR. APPOINTMENT OF CO. M.O.H. RATES DEMAND.

On Tuesday, Mr. S. J. Moynihan, Commissioner sat in the Courthouse, Dungarvan, and held a Quarterly meeting of the Co. Council. There were also present Messrs. J. H. O'Sullivan, Co. Secretary; J. Bowen, E.E., Co. Surveyor; M. M. Hally, Co. Solr.; D. D. Doyle, J. Ormond B.E., and G. H. Jepson, Assistant Surveyors.

CO. SURVEYOR'S REPORT.

Mr. Bowen, Co. Surveyor, submitted the following report: The roads of the County have been maintained generally in reasonable condition in the past quarter. The favourable weather has been of very substantial assistance.

Road contractors have done some of the specified work, and most are recommended for payment. In many cases the money has been withheld for non-compliance with the specification or instructions. It is extraordinary that many contractors never read their specifications, do not possess a copy, and still expect to earn their money even though they don't know what they are supposed to do.

Maintenance of direct labour roads has been reduced, partly due to the financial position, partly to the reduction of money allowed, and partly to take advantage of the fine weather and to conserve our resources to a later period when they may be more urgently required.

During the quarter a good deal of heavy work has been done by way of rolling, and preparation of stone. The rolling work covered by the £10,000 loan has been completed. Several lengths of bad sides on main roads have been improved and made safer for traffic.

The plant and machinery has been maintained in good working order. It is to be regretted that more work is not available to keep the plant fully occupied. Practically all repairs are done in our own workshops, and we are able to get a large proportion of the spare parts made in this country.

The time for preparation of next year's road works scheme is approaching. For past two years my estimate has been seriously reduced. The reduction each year has been over £20,000 below 1932-33. This has had a very serious effect on the roads, and on employment on the roads.

From the Council's funds for road maintenance is approximately £20,000. This sum is partly borne by rates, and partly by grants other than Road Fund Grants. Comparing this with twenty years ago the roads cost the rate-payers of this county approximately only one penny in the pound more than at present.

The improvement grant is obtained direct from the road fund each year. The distribution of the improvement grant is on a basis to which several gets 2 1/2 per cent. of the whole amount for the 26 Counties.

Mr. Bowen—Not necessarily. Commissioner—The roads of Waterford are already very good roads. I would like to look into that question for myself and I will adjourn it to the next meeting.

Mr. Bowen—This would mean more money from the road fund grant for us, but it would not necessarily mean any increase in our own road rate. I would like to have the matter settled early as the roads works scheme must be prepared in the coming months.

Mr. Bowen—I would be quite happy to show them to you at any time. You might formally approve of them. They are subject to sanction?

SAND FROM THE FORESHORE. CLONEA APPLICATION.

The Ministry Industry and Commerce wrote re the Prohibitory orders made in respect of the shores and banks of the sea at the townlands of Ballinacourty, Kilgrovan, Tallacolemore and Clonea Lower, etc., and stating that the following applications had been made to the Minister:

From Ballinacourty F.F. Cumann, on behalf of John Daly, Lighthouse gate, Ballinacourty, who wants permission to draw 12 loads coarse grade sand to plaster a dwelling house from the part of the shore at Ballinacourty townland.

From W. J. Magnier, Clonmel, for permission to draw sand and shingle (and stone) from the shore at Kilgrovan for the purpose of building a concrete wall to protect encroachment by the sea on the plot of ground where he has a newly erected residence.

From Ed. Casey, Tallacolemore, for permission to draw about 50 loads of gravel from the shore at Tallacolemore to rebuild the wall of a well in concrete.

Having regard to the views of the Co. Surveyor, the Department are of the opinion that the applications must be refused except that of Mr. Magnier. They asked the views of the Commissioner on the matter.

Mr. Bowen—In my opinion no permission should be granted to anyone. Commissioner—Have you anything to say about this?

Mr. Bowen—I have nothing to add. Two of the applicants prevented people taking sand or shingle before the order was made and two of them also were instrumental in getting the order made, and now they want to get out of it.

Mr. Bowen—Yes, in Mr. Magnier's case he wants to build a wall for the protection of his land. Commissioner—I have nothing to add to the views already expressed by Mr. Bowen.

RATE COLLECTOR IN TROUBLE.

The L.G. Department wrote re receipt of statement showing the position of the collection of the 1933-34 warrant in Waterford. While the Minister must take a serious view of the general position of the collection he is particularly concerned at the unsatisfactory collection of Collector Quirke.

Mr. Bowen—If the Education Committee as such get a loan they must pay it all back, whereas if you give them a grant you will get half of it back and that's the difference. Commissioner—That Committee is in a sound financial position with over £2,000 to credit, and if the Bank were approached again he saw no reason why they should refuse.

Quirke?

Secretary—About 70. Commissioner—His collection is in a very bad way. I have decided to make Collector Quirke lodge £2,000, but in view of his old age I have decided to extend his time for his collection to close to the 26th August.

RATE COLLECTOR RESIGNS.

Mr. John McCarthy, Rate Collector, Waterford No. 1 Area, tendered his resignation as Rate Collector after 21 years service, and asking for the pension to which he would be entitled. He was born on the 15th December, 1852, and is 82 years.

Commissioner—I am sorry to see him going out. Mr. Bowen—He was a great man. Commissioner—The Secretary will convey to him the expression of the Council's thanks for his services as rate collector. I accept his resignation but it is due to the state of his health.

As to filling the vacancy. The Commissioner said in his opinion the area was too big for one man and he would divide it amongst two collectors.

VOCATIONAL EDUCATION.

The following resolution was received from Co. Waterford Vocational Education Committee: That, rather than mutilate the original plans for the proposed Technical School for Dungarvan, we request the Commissioner to increase the grant by £2,500.

CO. MEDICAL OFFICER.

The L.G.D. wrote it was incumbent on the Waterford Co. Council to appoint a County M.O.H. The necessity for the employment of a whole-time Sanitarian to reorganise and develop the public health services of the County of Waterford has become urgent and is emphasised by the outbreaks of diphtheria and typhoid which have occurred in certain districts in the county in recent years.

Counties where this service is in operation shows that a large proportion of school children suffer from dental defects, enlarged tonsils and adenoids, defective vision and physical deformities, the early detection and correction of which will obviate a considerable proportion of subsequent ill-health. The school medical service is in the nature of an insurance against sickness in later life.

The Commissioner said it was necessary in view of the outbreaks of disease in Cappoquin and elsewhere to make a temporary appointment of a County Medical Officer until such time as the Appointments Commissioners fill the vacancy. He would fix the salary for the temporary appointment at £10 10s. a week. For the permanent job the position was £800, with vouched travelling expenses.

The following resolution was passed: That the Local Appointments Commissioner be requested to recommend a person as whole-time County Medical Officer of Health at a salary of £800 and vouched travelling expenses.

Mr. Bowen—If the Education Committee as such get a loan they must pay it all back, whereas if you give them a grant you will get half of it back and that's the difference. Commissioner—That Committee is in a sound financial position with over £2,000 to credit, and if the Bank were approached again he saw no reason why they should refuse.

Mr. Bowen—It would be very desirable to have this work of building the school go ahead as it would give much employment. Commissioner—The Secretary can write to the Education Committee and let them call a special meeting and have a deputation appointed to deal with the matter. It is very important for the town. The question of the constitution of the Vocational Education Committee was adjourned to the next meeting.

CATTLE SLAUGHTER BILL. THE GOVERNMENT'S PROPOSALS.

On the second reading of the Slaughter of Cattle and Sheep Bill, in the Dail last week, Dr. Ryan (Minister for Agriculture) said that the Bill had been provided entirely in the interests of the producer of cattle, and it was not intended that either the butchers or consumer should get any benefit from it. During the past two or three years there had been a steady fall in world prices, but with that particular cause they could not attempt to deal in that Bill. Following the imposition of the penal tariffs by Great Britain in 1932, the prices of cattle fell, roughly, by the difference between the tariffs imposed and the bounties given here against them. The Bill was introduced in order to counteract the fall in prices, and to deal with the surplus cattle that might or might not be there as a result of the restrictions of export from the country.

Registered Retailers.

It was necessary under the Bill to register retailers of beef and mutton and fix a price for different classes of meat. Under the arrangement of a fixed price the local butcher would be as good a buyer as the exporter, and in that way the value of an export licence would be reduced to nil. If the demand for cattle was equal to the supply, then they would need operate only Part V, dealing with a fixed price, but it was more than likely that at certain parts of the year other parts of the Bill would be operated. They might have a surplus of cattle for sale during one particular period of the year which, if kept over, could be used in another period, and in that case they would have to bring into operation other parts of the Bill.

A Free or Cheap Meat Scheme.

The Bill would enable them to dispose of suitable quality of first-class beef to people in receipt of home assistance and unemployment assistance. Those persons would receive vouchers for a certain amount in accordance with the size of their families. They would be supplied by butchers with whom the Minister for Agriculture had previously made a contract. It was the intention of the Government to proceed with that part of the Bill as soon as it passed through the Oireachtas. It might be necessary to change the scheme from a free meat scheme to a cheap meat scheme, but they were not prepared to take the risk of operating such now, because it might be impossible to find meat for every person with a voucher. They thought it was more safe to work it on an ex gratia basis. Circumstances might make it desirable to alter prices. The tax of £1 a head was going to work out at about 1d. a lb. on the consumer. The price of beef was low compared with three, five or ten years ago, and, therefore, the consumer could afford to pay an extra 1d. Whatever the levy was, the producer did not suffer one penny.

undertake various activities or lend money to a company or co-operative society to do so, Dr. Ryan stated that one of the factories that was likely to mature under the Bill would be a factory to deal with old cows. Turning old cows into meat meal would involve a levy. The existing factories turning out meat meal were getting their cattle for practically nothing, and, if they got a factory to deal with these old cows, they would have to pay the owner by way of subsidy.

In reply to Mr. Belton, the Minister said that they would deal with about 40,000 to 50,000 old cows. He was not sure of the price, but he would say that if the owners got anything over 10s. they would be getting more than they were worth. They had received a deputation the previous day, and one of the complaints was that they could not dispose of the old cows at the present time. He gathered they would be very glad to get £2 or £2 10s., and they would get at least that. They hoped by this Bill to make right the issues and bad effects arising from the quota system, and that they might be able to get for the producer the very maximum that he was entitled to for his cattle.

Concluding, Dr. Ryan said he did not think it necessary at that stage to discuss in detail the various provisions with regard to registration. It could be done in Committee, and he thought it would be wrong to obscure the two main principles in the Bill, namely, trying to get better prices for the cattle for the producer and dealing with the surplus cattle.

DOGS WITH GRIT.

THE FIGHTING BULL TERRIER.

By "PHILOKON."

NOTHING equals the bulldog for putting an infusion of courage in any breed. The eccentric Lord Oxford of the eighteenth century tried the experiment on his greyhounds with excellent results, outward evidences of the cross disappearing in four or five generations, but the effects were apparent in the stouter hearts of the greyhounds. The outcross was not as incongruous as it sounds for the bulldogs 150 years ago were longer on the leg and more natural in body than their modern descendants. In another direction, the bulldog, in alliance with the terrier, has given us a dog of incomparable courage. Nothing daunts a bull terrier, the only thing he fears being the displeasure of his master. Changes in taste have subjected him to ameliorating conditions, but the old spirit remains.

He is no longer the protagonist of the fighting pit, nor do we hear of his prowess in killing so many rats a minute. With the shedding of his disreputable past, came an improvement in his appearance. The white variety that was fostered in Birmingham soon superseded the old-fashioned coloured terriers, and it is only in recent years that these have been revived with the assistance of the whites. At first very indifferent, they are now improving every year. By the side of them, the unimproved descendants of the Staffordshire fighting dogs that still survive in parts look commonplace.

Bull terriers are so many pounds of concentrated energy. They may weigh as much as 50 lb., or they may be little more than half that weight. The heavier can tackle almost anything and I should be sorry for the burglar who happened on one unaware. Some of them are death on cats. Puss, presuming on the terrors of tooth and claw, may stand at bay, and almost before she is aware, a powerful grip has put an end to her life. Being so strong and high spirited they should be trained to habits of obedience while young. Then they will make delightful companions. At one time, they were almost exclusively men's dogs, but for the last five-and-twenty years, women have been breeding and exhibiting successfully.

I do not know of any other British breed that is so popular in hot countries, where their sporting proclivities are much appreciated. Many a man owes his life to their intervention when he has been charged by wounded big game. They will hunt wild pig and other fearsome things, and in lonely places they are efficient guards. Sir Walter Scott never tired of singing praises of Camp, which he called a bulldog terrier. On the day Camp died the great novelist excused himself from attending a dinner party on account of the death of an old friend, and his daughter reported that she had never seen him so sorrowful as when he stood by the grave of his favourite. It used to be the custom to crop bull terriers until the abolition of the practice by the Kennel Club nearly forty years ago. For a time the natural ears were heavy and ugly, but they are now of a better size and shape. Entries at shows are increasing all the time and it is evident that the breed has embarked on an era of prosperity.

"Raffle That Didn't Come Off"

CHARGE OF FALSE PRETENCES AT LISMORE.

At Lismore District Court before Mr. G. P. Farrell, B.L., a case which excited great local interest was heard when Cyril Jolly, Church Street, Lismore, was charged at the suit of Superintendent Quinlan, Lismore, with having obtained sums of money by false pretences from various persons by selling them tickets at 3d. each for a Raffle which was not held by him.

Inspector Tobin, Waterford, (in the absence on leave of Supt. Quinlan) conducted the prosecution, and Mr. O'Gorman solr., Lismore, appeared for the accused.

The Inspector, in outlining the facts of the case, said that printed tickets were sold by accused at 3d. each to a number of persons for a raffle for a pair of blankets which was to have been held on Easter Monday, but the raffle was not held on that date, nor on any date since, and no effort had been made to refund the money to any of these who had purchased tickets for same.

Sergt. Ballantyne, Lismore, stated in reply to Inspector Tobin, that he visited the accused at his house in Church Street, Lismore, on July 30th and told him that he was making inquiries regarding a Raffle which had been promoted by him, but which was not held.

He duly cautioned him, and accused then made a long statement which was taken down in writing, and now produced and read by the witness.

In the course of the statement Jolly said that some time in February, 1934 he got tickets printed for the Raffle for a pair of blankets which was to be held on Easter Monday, April 2nd. He got 180 tickets printed by Mr. J. Browne, Lismore, and paid a deposit for same, the balance to be paid out of the proceeds of the raffle. He also ordered a pair of blankets, costing 22/6, from Mr. R. Allison, Draper, Lismore, on which no deposit was paid, as Mr. Allison was to retain the blankets until he was paid for them after the raffle. The statement continued that accused was ill on Easter Monday, and could not hold the raffle on that date, but he had intended holding it on a later date.

Witness then asked Jolly to hand over to him all raffle books and counterfoils in his possession, and he gave him one book from which no tickets had been sold, while he gave some counterfoils to Guard Martin.

Cross-examined by Mr. O'Gorman, solr., witness said that from inquiries he had made he believed that Mr. Jolly was ill on Easter Monday, as stated by him. He had also heard that the raffle was then to be held on August Monday, but it was not held on that date.

Mr. O'Gorman—it could not be held then, because the Guards had taken up all the tickets and counterfoils at the time.

Guard Martin, Lismore, gave evidence of having received a number of counterfoils from accused, who told him that he had received 17/- from the sale of the tickets and had converted the money to his own use.

Replying to Mr. O'Gorman, he said he was aware he was ill on April 2nd, the date named on the tickets for the raffle.

James Scanlan, Church St., Lismore, stated that he had sold a number of tickets for Mr. Jolly at 3d. each, and he gave the money and counterfoils to him.

Patrick O'Neill, Chapel St., Lismore, said he sold two tickets for 3d. each and gave the money and counterfoils to Mr. Jolly.

Mr. O'Gorman, cross-examining witness, said—Tell me, are you a Blue-shirt? (laughter).

And do you know that Mr. Jolly is a Blue-shirt?

Inspector Tobin objected to this line of cross-examination, but the Justice allowed the question, and witness said he knew that Mr. Jolly was a Blue-shirt.

Mr. R. Allison, Draper, Main St., Lismore, stated that some time before Easter Mr. Jolly ordered a pair of blankets costing 22/6 from him, which he said he wanted for a Raffle which he was about to hold. No deposit was paid, and witness was to hold the blankets and display them in his shop window with a label showing that they were prizes for the raffle to be held on Easter Monday.

Inspector Tobin—Have those blankets been paid for or called for since? Witness—No.

The Justice—What will happen to them now? Witness—Oh, they will be returned to stock, sir.

Mrs. Ellen Crotty, Main St., said she purchased a ticket for the raffle from Patrick O'Neill, Chapel St., for 3d., but had heard nothing about it since.

Mr. O'Gorman—Are you aware that Mr. Jolly previously held a raffle for a pair of turkeys which were won by you?

Witness—They were not won by me but by my son.

Mr. O'Gorman—Did he get the turkeys alright? Witness—He did.

Mr. O'Gorman—So there was no fraud about that raffle then? Witness—No, sir.

Redmond Daly, Main St., Lismore, said he purchased one ticket from Mr. Jolly for 3d.

To Mr. O'Gorman—Witness said that Mr. Jolly visited his father's shop nearly every day.

Wm. J. Baldwin, Ballinvela, and A. Deegan, having also given evidence of the purchase of tickets, Inspector Tobin said that closed the case for the

YOUGHAL DISTRICT COURT.

(Before Mr. G. P. Farrell, D.J.)

McNamara v. Shiney and O'Rourke. This was an application by Mr. W. St. Clair Rice, solr., Midleton, for plaintiff, for an Instalment Order, to be heard at Castlemartyr Court.

Castlemartyr Court. The Justice said it had been suggested that he should not sit at Castlemartyr next Court day, it being a holiday, the 15th. He therefore, would not sit there that day, except that a custody case arose. The hearing of the application was, therefore, fixed for the September Court.

Civil Bills. A number of undefended Civil Bills, in which Messrs. T. K. Keane, and J. N. R. Macnamara, solrs., appeared for plaintiffs were disposed of, or adjourned.

Seed Loans. The Waterford Co. Council, by their Commissioner, had a number of persons processed for arrears of seed loans.

Mr. J. F. Power, solr., (representing Messrs. Doherty and McCoy, solrs., Waterford), appeared for plaintiff's.

Decrees were granted in the undefended case, the others being adjourned.

Motor Offences. Sergt. Lupton, charged John Kavanagh, with using an expired motor tax, and also an expired driver's license.

Evidence having been given that the road tax had been applied for previous to the date in question, the charge was dismissed.

He was fined 3/6 for not having a driver's license.

Wrong Name. Guard Fenlon, charged "James Mills, Tallow," with using an unlighted vehicle.

Complainant said the man had given a wrong name, and he had not yet succeeded in locating him.

The Justice—I hope you will find the right man.

prosecution.

Mr. O'Gorman for the defence, said there was no element of fraud or false pretences in this case, as Mr. Jolly was a most respectable man and had previously held similar raffles, all of which had been properly carried out, and the prizes honestly handed over to the winners.

This Raffle would also have been carried out in the same way on Easter Monday only for his client got ill, but he then decided to hold it on the August Bank Holiday, and if the Guards had only waited a few days longer, and not seized the tickets and counterfoils on July 30th, they would find that it would be held on August Monday, as intended.

Cyril Jolly, was examined by Mr. O'Gorman, said that he had got about 10/- altogether out of the sale of the tickets before he got sick, and not 17/-, as stated by Guard Martin. When he found he could not hold the raffle on the original date owing to illness, he had intended holding it on August Monday, but the Guards had taken away all the books and counterfoils before that date and he could not go on with it.

Inspector Tobin—Why didn't you notify the purchasers of tickets that the raffle would be held on August Bank Holiday?

Defendant—I notified one family in Church Street, and all the people in that street knew all about it, and they were the principal purchasers of the tickets.

In reply to the Justice, defendant said he was carrying on a hair-dressing saloon in Church street, but business was not very good, as there was another hair-dresser in the town. His object in holding these raffles was partly to advertise his business, as they would be held in his saloon, and he found this a good form of advertisement.

The Justice—You say you had received only about 10/- from the sale of the tickets?

Defendant—That is about all I got, sir.

The Justice—So that with the blankets costing 22/6, and the cost of printing the tickets, you would be running this one at a loss?

Defendant—Yes, sir.

The Justice—What did you mean when you told Guard Martin that you had converted the money to your own use?

Defendant—I meant that I had purchased food and other necessities for the house with it.

The Rev. Dean Leslie, Protestant Dean of Lismore, was next examined by Mr. O'Gorman and stated that Mr. Jolly was verger of Lismore Cathedral, and he knew that he was ill on Easter Monday. He had known him for over 4 years and had always regarded him as a decent and honest man.

Having heard further evidence, the Justice said he would rather have a look into the law governing Raffles before he decided this case, and he would, accordingly, reserve his decision and give it at the Tallow Court on Tuesday, 21st inst.

MUNSTER HURLING.

WATERFORD WIN JUNIOR FINAL.

At Waterford Sportsfield on Sunday, Waterford beat Cork in the Junior Hurling Final by 7 goals 10 points to 3 goals and 2 points for Cork.

FOOTBALL.

Waterford opened with a strong breeze aiding and immediately got a point per Landers. Tipperary attacked and forced a 50. Keeping up the pressure Rheinisch cleared a dangerous shot.

Shortly after the resumption Tipperary put up a point (Maher). Tipperary were now playing with the advantage of a strong wind. They again forced an entry for a goal, which was disallowed.

Waterford team—J. Rheinisch, M. McCarthy, P. J. Queally, P. Lannon, M. Shire, J. Orpen, J. Ryan, N. Connors, J. Kiely, M. Landers, J. Henneby, P. Barry, J. Kelly, P. Whelan.

THE HURLING MATCH.

Cork pressed from a promising offensive, but Curley saved from a hot attack. Cork again got possession to encounter further opposition from the Waterford back line, and play was taken to the neutral line, where P. Sheehan lifting a nice ball, raised the minor flag for Waterford.

The strong wind which prevailed in the first half had moderated somewhat in the second half, and this did not favour the change over of the homesters. Cork were first to challenge, but Healy proved a strong and resourceful defender, and following the clearance, Cork's posts had a shave from Mahony, who with Walsh was always dangerous.

A hard duel saw Cork having an advantage but no headway was made against Curley's stonewall defence of his net. Pressing strongly, Cork had a point up, which brought a like response from Waterford (Mahony).

The Economic Dispute

MR. COSGRAVE'S VIEWS.

CATTLE SEIZURES AND LICENSES

On the motion for the adjournment of the Dail on Friday last, Mr. Cosgrave said that on practically every occasion since 1932 the main question discussed was the economic situation, the cause of that economic situation, the failure of the Government to deal with it, and generally the indifference shown by the Administration with regard to the industry which is responsible for providing the major wealth of the whole country.

Meantime we find ourselves in the position of having our export trade diminished to such an extent as that the effect of it on the general business of the country must be very bad. During the course of a discussion in connection with this matter some two years ago the President of the Executive Council mentioned what the sum in dispute, if it were to be attached to various items of our agricultural exports, would cost this country.

What is happening at the present moment? We are surrendering without a protest from the Government or its supporters a sum of £4,000,000 a year. More than that, we are surrendering along with the £4,000,000 a year, the position that we are entitled to in that market by reason of our membership of the British Commonwealth of Nations.

Tobin (Cork) returned a rapping shot from centre field, and a sideline free to Cork was broken by a practically unbeatable defence. Vigorous fencing marked the next stage, the advantage being with Waterford. It finished with Sheehan driving wide. Waterford were now showing up to the entire satisfaction of their followers.

The Waterford team—M. Curley, W. Henley, S. Whelan, J. Fitzgerald, J. Keane, J. Regan, D. Healy, G. Kehoe, P. Sheehan, M. Creed, W. Sheehan, W. Dalton, W. Mahony, J. Walsh, J. Murphy.

portant than a settlement of the financial problem is the question of our position in the British markets. If we got a settlement of this question at great financial advantage, and that we did not get the position to which we are entitled by a particular agreement it might cost us very much more and be much more unfavourable to the country as a whole.

We were importing coal from other countries. Our export to these were negligible and we had in essence practically destroyed or damaged very seriously our exports of beef to the mining districts. It will be said that consumption is falling from 68lbs. per head per annum to about 60, and while that has fallen chilled or frozen beef has increased from 75 to 84 p.c. in their appreciation in Great Britain in the matter of the live stock trade in this country.

The meaning of the section is this. There is a subsidy proposed to be given under this measure for beef in Great Britain—5s. live weight and 9s. 4d. dead weight—and therefore it is going to be given to animals which have been three months in Great Britain. In other words, there will be a subsidy granted on Irish cattle in Great Britain which had been there for three months.

It is fair to say of this Government that it has never made a settlement with anybody for anything; it is only fair to say that of them—it is about time for that to commence. At no time in the history of this country has the Sheriff been so busy as he has been in the last few months. We were told here by the Minister for Agriculture that it was the policy of his Department to issue licences to persons who attended Sheriff's sales and bought cattle that were put up for sale after having been seized—either for non-payment of rates or annuities.

Mr. Lemass—There was plenty of money in these cases. Mr. Cosgrave—These men cannot sell their cattle in the open market. He will not be given the licence which will enable him to cash them. But the licences are given to agents of the Government, or to friends of the Government to purchase the cattle which the owners cannot sell—and that is sound administration.

Mr. Lemass—They may have won it at the horse-races. Mr. Cosgrave—I see. They may have won it at the horse races. It is not a very good answer. Does the Minister take the line that Government policy is such that farmers are to be placed in the position that they must have other means of livelihood than their farms.

General Mulcahy—He knows it is true. Mr. Cosgrave—Well, then, I should like some explanation from the Minister of the reason why he gets up here and says that any person who

lays cattle—in other words, makes an unpopular purchase in connection with these sales for arrears of land annuities, and so on, will get a licence from them if he buys them at £1 or £2 a head, but that the unfortunate owner who has kept them and been unable to cash them will not get a licence. These expedients that have been adopted and these various measures that have been promoted by the Government have their costs.

The cost of the administration of this State has arisen very considerably. The number of persons employed by the State has arisen. An estimate introduced to-day proposes to employ 130 supervisors at £5 10s. per head for about six months. So the cost of the administration is rising all the time. On what? On reduced production and on a big reduction on the export trade of the country, which occurred from 1920 to 1927.

Mr. Lemass—Deputy Cosgrave stated that on every occasion upon which the motion for the adjournment of the Dail at the end of a session was moved the economic situation existing throughout the country and the result of their Government policy was discussed here by the members of his party. He flatters both himself and the members of his party upon which a motion similar to this was discussed here we have had speeches made by Deputies opposite having had the same bearing upon the economic situation, but at no time can it be seriously said that the economic situation was discussed by them.

There has been a change in the habits of the people of Great Britain and other countries. The people of Great Britain are eating less beef, but they are eating more mutton, poultry and bacon. The decline in the consumption of beef, which has been commented upon by the British Minister of Agriculture is one of the most noteworthy features of British agricultural conditions since the war. The second reason is that Great Britain has decided to adopt the Sinn Féin policy, and she is putting it into operation in connection with her cattle industry, and we have no more right to prevent her doing so than she would have to prevent us taking steps to protect our own industries in this country.

Mr. Flynn & Son, Family Butcher, Square, Dungarvan. A constant supply of best Beef and Mutton kept all the year round.

Mr. Cosgrave—Well, then, I should like some explanation from the Minister of the reason why he gets up here and says that any person who

KILLING OF SALMON FRY.

Mr. Drohan, Secretary, Lismore (No. 4) Fishery Conservators, summoned Mr. E. Hartly, Castle View, Lismore, for having three salmon fry in his possession on April 22nd.

Mr. Reardon, solr., Cork, (for Mr. Barry Sullivan, solr., Mallow), appeared for complainant, and Mr. O'Gorman, solr., Lismore, defended.

Patrick Ronayne, water bailiff, stated that on the date in question he saw defendant and a lady rod-fishing on the river Bride. He saw the lady catching some small fish and putting them into Mr. Hartly's bag, and he then approached and searched the bag and found it to contain 4 trout and 3 salmon fry.

Witness described the difference between salmon fry and trout, and said the former were of a bright silvery colour with scales, while trout were brown in colour and there was also a difference between the shape of a salmon fry's and a trout's tail.

Cross-examined by Mr. O'Gorman, witness said Mr. Hartly gave him every facility in searching his bag, and he told him that he did not know the difference between a trout and a salmon fry.

The lady who was with him told witness to summon her instead of Mr. Hartly, as it was she had caught the fish, but didn't know they were salmon fry.

Mr. Hartly having given evidence on those lines, the Justice said he accepted defendant's statement and dismissed the case.

ANOTHER CASE.

The same complainant summoned Mr. Joseph O'Sullivan, Main St., Lismore, for having two salmon fry in his possession on April 22nd.

The same witness swore that he saw defendant fishing on the river Bride and had him under observation for some time. He saw him throwing back some fish into the river, but when he examined his basket he found two salmon fry in it along with a number of trout.

Defendant in reply to Mr. O'Gorman solr., who defended, said he had thrown back over 30 salmon fry into the river that day, as he didn't want to keep them, and the two fry found in his basket must have been put in my mistake, as every time he knew he had caught a fry he threw it back into the river immediately.

The Justice said he should also accept this defendant's explanation, and he accordingly dismissed the case.

UNDIPPED SHEEP.

Guard Houlihan, Lismore, summoned John Cunningham, Gortneapky, for exposing four sheep at Lismore Fair on July 4th without being able to produce a declaration that they had been dipped.

Defendant produced the necessary declaration showing that the sheep had been dipped prior to the date in question, but he had not the declaration with him at the Fair. Fined 1/-.

The same complainant summoned Michael Lee, Curraheen, for exposing 2 sheep on the same date without being able to produce the necessary declaration that they had been dipped.

Complainant said the sheep had not been dipped and defendant was fined 10/-.

CRUELTY TO GOAT KIDS.

Guard Purell, Lismore, summoned a blacksmith named John Lawless, Deerpark, Lismore, for cruelty to 2 goat kids.

From the evidence it appeared the animals had been badly mauled by dogs early in the morning and were still alive and suffering great pain when the Guard visited defendant's house that evening.

Defendant stated that "he hadn't the heart to kill them and put them out of pain" and had to go to Lismore to bring out a man to kill them later on that evening.

The Justice said only for the defendant was a poor man he would fine him very heavily for such shocking cruelty and after giving him a severe caution as to his future conduct in such matters, he let him off without any fine.

A LOQUACIOUS DEFENDANT.

Guard McLaughlin, Ballyduff, summoned Edmond Hegarty, Mocollop, for riding a bicycle without a light on three occasions, July 18th, 23rd and 24th.

Defendant cross-examined the Guard at considerable length and tried to know why numbers of Blue shirts were allowed to ride without lights every night in Ballyduff, while he was singled out for prosecution. He was proceeding to make serious allegations against the Guards for neglect of duty in other matters in Ballyduff, when Inspector Tobin protested and said it was not fair that such sweeping allegations should be made against the Guards.

Defendant was fined 2/6 in each of the three cases.

Four young men from Cappoquin, were fined 3/6 each for cycling without lights, it being stated that they were returning from a dance at the time.

Michael Murray, Ballyduff, who gave a wrong name and address to Guard Martin, Lismore, was fined 7/- for a similar offence.

WATERFORD STRIKE.

MGR. BYRNE'S APPEAL.

The threatened strike of labourers in the city building trade, following the refusal of the Master Builders' Association to concede an increase in their wages of from 10jd. to 1s. 3d. per hour, became a practical reality on Saturday when the men downed tools.

For some weeks past negotiations had been in progress, and to the last it was hoped that a way out of the deadlock might be found. These expectations, however, failed to materialise, and the labourers, in accordance with the terms of their notice, translated their threat into positive action. It is stated that altogether between 200 and 300 men are affected.

PASTOR'S APPEAL.

In a letter to Mr. Dunne, T.C., local Secretary of the I.T. and G.W.U., Right Rev. Mgr. Byrne, D.D., P.P., V.F., Ballybricken, states:—

"Dear Mr. Dunne—I am taking the liberty of making a special appeal to the members of your Union not to proceed to the proposed strike in the building trade. We all know that it is a very serious responsibility to enter upon a strike, especially when it is likely to assume a considerable scale. It involves serious risks to higher interests, to the sacred interests of justice and charity, which no responsible person can lightly put aside. It always involves physical privation and suffering, often of a distressing character, and most frequently among the workers themselves and their dependents. Every responsible Catholic writer on moral and social questions, while recognising that the weapon of the strike may be lawful in certain circumstances, insists that it ought to be a weapon of the last resort—like war itself—and is permissible only when other means are not available.

"In the matter at present in dispute, I am not in a position to form an opinion on the merits. The claim which the workers make may be, for all I know, entirely justifiable. I speak entirely without prejudice. But I do venture most respectfully to state that the refusal to accept arbitration by a Government representative will be very difficult to justify before public opinion or before the bar of reason and prudence. I shall be very sorry if the workers put themselves in a position in which they cannot have public approval.

I appeal, therefore, to the workers to submit their claim to the arbitration proposed. In doing so, I am confident they will be consulting best for their material interests, and at the same time they will have the consolation of having preserved unimpaired the sacred interests of justice and charity."

STATEMENT AT PUBLIC MEETING.

"We want no ecclesiastical interference in our business. We have not broken any principles of religion in looking for the rights. If he is so interested in us, why not turn his attention and see if he can influence the master builders to accede to our demands." This dramatic declaration was made by Mr. T. Purdue, ex-representative of the unemployed on Waterford Corporation, when he presided at a public meeting at Broad Street, Waterford, on Saturday night, in support of the builders' labourers, who struck work earlier in the day, following the refusal of the master
