**DUNGARVAN URBAN COUNCIL.**

Mr. M. Morrissey, Chairman, presided at the meeting of the above. Also present—Messrs. J. Butler, J. Christopher (Jnr.), P. Quann, J. Dahill, P. Byrne, S. Hayes, T. McCarthy, J. F. Foley, J. J. Crotty, P. O'Dwyer, D. Foley.

**HOOR OF MEETING**

On the suggestion of Mr. Dahill, the Council decided to change the time of meeting from 8 o'clock to 8.15 p.m. during Lent.

**PAYMENTS**

A paysheet amounting to £14 1s. 4d. for the week was passed. For the corresponding week last year the amount was £15 19s. 8d.

**APPLICATIONS FOR A PUMP**

A letter signed by Messrs. Patk and David Power and Mrs. Cowman, Hermitage, was read, asking the Council to erect a fountain at the new bridge Abbeyside owing to the distance they have to go for water.

Mr. Crotty—How far have they to go for water now?

Mr. McCarthy—To Burke's at the New Line.

Mr. D. Foley—They are handicapped for water.

Chairman—Will it affect the supply?

B.S.—The more connections you make will take from the pressure in the town.

Mr. McCarthy said those people are entitled to water as well as any others, they are paying a water rate. It is a big drag on them at present to get water.

Mr. Butler—Get a report from the B.S. if it is feasible.

B.S.—It is feasible alright, but it will take off pressure on the higher levels.

Mr. D. Foley—As Mr. McCarthy has said, they are as much entitled to get water as anyone else.

**REPAIRS**

Applications for repairs to their houses read from Mrs. Maher, Thomas' Terrace and Mrs. Weeks, Abbeyside, were referred to the B.S. for report.

**ACKNOWLEDGMENTS**

Letters acknowledging resolutions of sympathy passed to them were read from Mrs. Ryan, Ballinahassery, Nicholas Gambon, Abbeyside and Augustine Hearne, Burgery.

**SEWERAGE AT ABBEYSIDE**

V. Rev. N. Dunphy, Abbeyside, wrote:—Further to letter of 22nd ult., re the question of sewerage in the neighbourhood of where the Curate's new residence will be built. The residents of the locality are all very anxious that something should be done in this direction. I would be pleased if the Council would give this matter consideration and go into the cost question as early as possible and let us know what is their best proposition.

Chairman—This was referred to the estimates meeting and the B.S. is to report.

**APPLICATION FOR REDUCTION**

Mr. F. Murphy, Co. Librarian, wrote asking for a reduction of the charge (£4) for the use of the hall for the recent lecture, which was a purely educational matter.

Chairman—What is the usual charge?

Clerk—£1. They protested before about the charge.

Mr. Butler—But they got no reduction.

Clerk—No. No action was taken.

**USE OF HALL**

The Dungarvan Amateur Dramatic Class applied for the use of the hall (large room) on four nights a week for rehearsals of the play "Not Guilty," which they are to produce in aid of the Friary Renovation Fund.

The application was granted.

**VALUATION OF NEW HOUSES**

The Council unanimously decided to appeal against the valuation of the new houses at Loughmore, which was fixed at £3 for the three-roomed and £3 15s. for the four-roomed houses, which is equivalent to 1/ a week rates on the three-roomed and 1/6 a week on the four-roomed houses.

**CUNNINGAR BRIDGE**

Mr. N. Wall, T.D., wrote stating:—I shall be glad to assist in any way possible in connection with the above object, but in view of the magnitude of the proposal and the amount of money which it would involve, I feel that mere representations by the T.D.'s will not be sufficient and I respectfully suggest that a deputation from your Council, accompanied by the Engineer and the local T.D.'s wait on the Minister. The Engineer to be prepared to give a rough outline of the scheme, the probable cost and the

number likely to be employed. The number of unemployed in the district from which the labour would be drawn, and what financial contributions—if any—would be forthcoming from your Council and the Co. Council.

Mrs. B. Redmond, T.D., wrote enclosing letter which she had from the Department in reply to Council's reclamation scheme and advising the Council to submit an estimate of the cost.

The following letter was enclosed from E. P. McCarron:—I am in receipt of your letter enclosing copy of letter from the Dungarvan Urban Council regarding a road and reclamation scheme which they are bringing before the Inter-Departmental Committee on Public Works. Before we can take any action in such cases we must await consideration and examination by the committee in the first instance. Such proposals as that outlined are, I understand considered in conjunction with all other proposals for public works in the area concerned and, with reference to the cost, necessity and ultimate value of the work. I think it would have helped that committee if even a broad estimate of the cost had been included in the Council's application.

Chairman—Would it be possible to get an estimate?

B.S.—Yes. There was an estimate of £11,000 given in 1913 for the erection of a concrete bridge.

Chairman—It would be well if you gave an estimate.

**BATHING PLACE**

Mr. J. Foley drew attention to the neglected state of the men's bathing place and asked that something be done to clean it up.

Mr. Walsh, S.S.O. said that he had the broken boxes nailed up about a week ago and had the place clean. He would go and see the place again.

**ANNUAL CONTRACTS**

The Clerk stated that the contracts for stones, gravel, etc., would terminate at the end of the month.

Mr. Dahill said it would be better to do their own quarrying and get tenders for the carting and breaking of stones.

The Chairman said that if the Council would do their own quarrying it would be more expensive.

Mr. Dahill—I wouldn't agree. You could quarry by piece work and get a contract for the breaking of stones.

The Clerk stated that the Council would still be liable if the contractor was no mark. The insurance would be considerable.

Mr. Christopher—We have enough responsibility without that.

Chairman—It would be all right if we wanted a lot of stones.

The B.S. said that they would only need 300 yards of stone.

Mr. Dahill—Don't take the refuse of the quarry like you did last year.

Mr. Butler—Did you take the refuse of the quarry last year?

B.S.—Some of the stones were blasted out on the road and got a little mud on them. The stones were good.

Mr. Dahill—They were the refuse of the quarry. You can't take the sight from our eyes.

Chairman—I think we should continue the old arrangement.

It was agreed to issue advertisements for the annual contracts.

**HARBOUR QUESTION**

Letters from Kinsale, Wexford and New Ross, were received in answer to the Council's query as to what was being done to improve the harbour finances in these places.

All letters stated that those harbours were in the same plight as Dungarvan and no definite policy had been adopted to improve their positions.

The Clerk read a letter from the L.G.D., requesting an answer to a previous letter which asked information as to what steps we had taken to improve the harbour finances.

A further letter from the Munster & Leinster Bank stated that the directors had sanctioned an overdraft on the harbour account of £220. The Council would be accommodated as soon as the Minister sanctioned the arrangement.

Chairman—Other harbours are in the same position as ourselves. I think it is a question as to how we could move jointly to obtain a subsidy.

Mr. Curran, Harbour Master, said that the new coal licence might improve the finances a little, but it would not put them in the same position as before.

Mr. Dahill—The coal will go down when they bring in the turf.

Mr. Crotty—It seems that some of those who brought in the turf have not been paid yet.

Mr. Dahill—They will be paid all right.

Mr. Crotty—They are poor men and cannot wait so long for their money.

Mr. Dahill—The men who are bringing it in are not grumbling.

Mr. Crotty—It was one of them that told me.

Mr. Dahill—They will go and cut it

**Proposed Leather Factory for Dungarvan.**

**INTERESTING DEVELOPMENTS**

For some time past the Dungarvan Development Association has been considering the question of the establishment of a suitable factory in the town and various suggestions have been put forward in connection therewith to the Department of Industry and Commerce.

Following the receipt of a communication from the Department of Industry on Monday last that two gentlemen interested in the manufacture of fine leather and boot and shoe linings were about to visit the town, Mr. M. O'Meara, Hon. Sec., summoned a meeting of the Association forthwith to discuss the question. The following were present—Rev. T. Walsh, C.C., Messrs. E. A. Ryan, Solr., P. J. Moloney, J. Christopher, U.D.C., J. J. Crotty, U.D.C., M. Morrissey, Chairman, U.D.C., J. Mansfield, U.D.C., B. Mulcahy, S. J. Moynihan, J. Lanigan, Dr. Casey, Paul Power.

Messrs. Wachman and Jacobs, two English Manufacturers interested in the matter were present.

A general discussion took place with the visitors who are anxious to start a factory for the manufacture of shoe and boot linings, the raw material for which is imported from the East Indies and for which no factory exists in Ireland at present, as the linings are all imported.

Accompanied by the Committee the visitors inspected as possible sites for the proposed factory the following:—Barry's Stores; Stokes' Creamery; Galway's Lane premises, Casey's Yard, O'Connell Street; Power's Factory and Dunlea's Stores. It is understood the visitors found no difficulty in concluding that a suitable site could readily be had and gave preference to Dunlea's Stores.

In the afternoon a further meeting was held and an interesting discussion took place on the question of finance.

The sum of £12,500 was estimated as being necessary to finance the scheme and of this amount Messrs. Wachman and Jacobs undertook to put up £5,000 the balance £7,500 to be raised by the issue of stock for the amount required.

A necessary undertaking required by the promoters was stated to be a tariff in favour of shoe linings and an undertaking that the Dungarvan Concern would have a monopoly of this particular business.

A deputation consisting of Rev. T. Walsh, C.C., Messrs. P. J. Moloney, J. J. Crotty, and Paul Power, were appointed to wait on the Minister for Industry and Commerce on Thursday and put all the matters at issue before him.

Should the factory materialise, as we hope it will it is stated it will give constant employment to 50 men and 50 boys and girls.

**PROMPTED BY GHOST**

Senhor Emilio Martins was a big game hunter in Portuguese West Africa, whose courage and sure aim earned him the title of "The white man the lions feared." One day one of his native carriers was shot by him, and he immediately surrendered himself to the authorities. An inquest was held, and he was finally vindicated, a verdict of accidental death being passed on the dead native. That was some time ago. But the native had a brother, and he did not forget. Senhor Martins has now been found dead at Porto Amboim. The brother has been arrested. "I killed the white man the lions feared," the man confessed, "because my brother's ghost came to me and told me to do so. My brother said he had been murdered by the hunter—not accidentally killed."

again this year.

Mr. Butler said that the Council were looking to the Department for a remedy by way of subsidy.

Mr. Mansfield—Cut down expenses.

Chairman—We can't cut them down any more.

Harbour Master—They are cut down to the minimum.

Mr. Dahill—You will have to keep the berths clear or shut down the harbour altogether.

Mr. Byrne—There was a good attempt made to shut it down before. The harbour is blocked enough already.

Harbour Master—Our harbour is a very dear harbour to maintain.

Mr. Butler said the only way to make a joint move was to hold a meeting of the Harbour Masters in a definite place and so have unified views when approaching the Department.

This ended the discussion.

**HARBOUR LIGHTS**

A satisfactory report from the Inspector of Lights was read.

**Waterford Bull Show.**

**A GREAT SUCCESS**

The Annual Show and Sale of Bulls under the auspices of the Co. Waterford Branch of the Irish Dairy Short-horn Breeders' Society, was held at Killohan Park, Waterford, on Tuesday last, and was a great success from every point of view. The weather was fine and the committee in charge had the arrangements perfect. There was a big attendance of buyers representing all the surrounding Counties. The 100 animals on exhibit were up to the best standard for which the Waterford Show is noted, and there was keen bidding to secure the choice lots.

Messrs. T. O'Sullivan and W. O'Callaghan, were Judges of the Short-horns and Mr. S. E. Williams, Macroom, of the Aberdeen Angus and Herefords, and they spoke in very high terms of the quality of the animals.

Mr. O'Sullivan, himself an expert breeder of Dairy Short-horns, said the bulls reflected great credit on the efforts of the Cow Testing Associations. So keen was the competition that it was very difficult to place the winners.

Mr. R. Lynch, Chief Livestock Inspector and Mr. O'Connor, Inspector, awarded 15 Premiums in the Short-horn Classes and 3 in the A. A. classes.

The general arrangements were excellently carried out by Mr. T. F. Lynch, Hon. Sec., and an energetic committee, while Messrs. Flahavan Hartly and Co., as Auctioneers, had a highly successful Sale.

**CAPPOQUIN ROWING CLUB.**

**ANNUAL GENERAL MEETING**

The annual general meeting of the Cappoquin Rowing Club was held in the Boat House on Monday night. There was a very good attendance of members. Mr. R. J. Collender, Vice-President presided.

**ANNUAL REPORT**

Mr. T. F. Olden, Hon. Sec., read the following interesting Annual Report: It is pleasant for me to be in a position to report a very successful year's working for our Club. Although at the beginning of the season last year there was good ground for being optimistic, yet few, if any, could have anticipated that rowing would have been taken up with such enthusiasm and that our crews would have been so successful at the different Regattas at which they competed.

A splendid beginning was made in the local "Scratch Races" held early in the season, and the promise then displayed by a large number of our members resulted in their being given as much opportunity as possible to prove their worth, which they assuredly did in New Ross, Waterford and at our own Regatta last August.

The New Ross outing was, however, rather disappointing because of the fact that being unable to procure the loan of an "Eight," which had been promised, our Maiden Eight were, in all probability, robbed of a very fine chance of winning that event. The Maiden Four won in most convincing style, and fully deserved all the congratulations which they received for their meritorious performance.

Much the same disappointment was experienced at the Waterford Regatta where hopeless conditions on the water were, without any doubt, responsible for the failure of our Maiden Four to annex the trophy. The Maiden Eight were splendid winners at this fixture over a course that was definitely dangerous.

Cork Regatta came next, and though we were not victorious there, still our Eight had every reason to be proud of the very fine show they made.

Our own Regatta in August was an unqualified success, both from the point of view of the number of outside crews attending, and for the great victories of our crews. To those members who succeeded in bringing such success to the Club we return our sincere thanks and extend to them our warmest congratulations.

Before I pass from the rowing aspect, let me pay a tribute to our Vice-Captain (Mr. J. McCarthy), for his valuable services to and keen interest in the rowing during the past season.

Early last year our committee were invited by the Waterford and New Ross Clubs to send representatives to a meeting being held in Waterford of the South-Eastern Clubs for the purpose of taking steps to foster rowing in the South-Eastern area.

Mr. James O'Donovan and I attended on behalf of the Cappoquin Rowing Club, and the best account of this meeting which I can give you is to read the minutes, which are a clear summary of what took place. I regret to have to report again a very bad year's revenue from Billiards.

The income from this source is now insufficient to pay the wages of the caretaker, where formerly it was double that amount. Subscriptions, too, were far from satisfactory, and many members paid no more than their entry fees.

Some strong action should be taken in this matter, particularly in the case of those who use the club premises during the summer months and pay nothing whatever, to the subscription sheet.

The dances during the year were again highly satisfactory and to them we owe much for our sound financial position at present. Gentlemen, in conclusion, allow me to thank you all, not only for your loyal co-operation during the past year, but also for your splendid and orderly conduct on the club premises at all times. With very best wishes for the continued success of the club during the year we are now entering, and hoping that we may fall ourselves in an equally satisfactory position at our next annual meeting, (applause).

The Chairman said the report was very satisfactory as it showed that the past year had been more than ordinarily successful from a sporting and financial point of view (hear, hear).

Their present happy position was undoubtedly due to the great work performed by Mr. Olden and the Vice-Captain, Mr. J. McCarthy, who were deserving of their best thanks for the invaluable services which they had rendered during the past year, (hear, hear).

Continuing, the Chairman referred to the number of Southern Clubs which had debit balances against the club at present, and said that after sending out crews to so many outside regattas last year, and also holding a most successful Regatta here, it was a great tribute to the able manner in which this Club had been managed that it was now in such a sound financial position, and he had great pleasure in proposing the adoption of the Hon. Sec's report.

Mr. J. O'Donovan, seconded. The report was then unanimously adopted.

Mr. A. J. Sargent said that some strong action should be taken against those members who were in arrears with their subscriptions, as it was not fair to the members who were paying up regularly that others should be enjoying the same privileges, without

paying anything, and he suggested that steps be taken to make them pay up more punctually in future, (hear, hear).

Mr. Olden, explained the difficult position he was in last year, as several of those in arrears were oarsmen, and as he was anxious to keep rowing going on during the season he did not wish to take any drastic action against the defendants, but he promised that firmer action would be taken during the coming year, (hear, hear).

**SATISFACTORY BALANCE SHEET**

The Secretary then read the balance sheet and detailed statement of accounts submitted by Mr. J. J. Barron, Treasurer, which showed the substantial credit balance of over £80, after meeting all liabilities to date.

Mr. Olden added that the sum due to the Club out of the big dance held on the Race Night, and also the profits on the Monster "45 Drive" run by the club, and only concluded the previous day, were not included in the £80, so that when these amounts were added, the club would have over £100 to its credit, (loud applause).

The Chairman said that he had audited the accounts that day and found every item correct, and he again paid high tribute to their energetic Secretary for his great efforts in getting in money during the past year, while the generous support extended to their dances by the public was deserving of all praise, and he proposed the adoption of the financial statement, which was a most satisfactory and highly creditable one, (hear, hear).

Mr. Dempsey, seconded and it was unanimously carried.

**ELECTION OF OFFICERS**

Mr. Olden said the next item was the election of Patron of the Club for the coming year, and he had great pleasure in proposing the re-election of Sir John Keane, Bart., (outgoing), as Sir John had always been a generous supporter of the Club.

Mr. Regan, Senr., seconded, and it was unanimously carried.

Mr. Hely, proposed and Mr. O'Donovan, seconded the re-election of Mr. R. L. Keane (outgoing) as President. Unanimously carried.

Mr. Hely, proposed and Mr. A. J. Sargent, seconded that all the outgoing Vice-Presidents, viz., Captain T. O. Jameson, and Messrs. Gerald Villiers Stuart, Thos. Daly, Jeremiah Dempsey, R. J. Collender and M. J. Sargent, P.C., be re-elected, which was unanimously agreed to.

Mr. T. F. Olden, proposed, and Mr. P. Morrissey, seconded, the re-election of Mr. Ion Villiers Stuart, M.F.H., as Captain, which was passed unanimously.

The Chairman, proposed the re-election of Mr. J. McCarthy, B.A., as Vice-Captain and paid a glowing tribute to the able and unselfish manner in which he had carried out his duties during the past year, and said the great successes won by their crews were due to the manner in which they had been trained and prepared by him, (hear, hear).

Mr. O'Donovan, seconded the proposition.

Mr. McCarthy, warmly thanked the Chairman for all the nice things which he had said, but he thought that much of the credit which was given to him for the successes of the crews belonged to Messrs. M. J. Sargent and A. J. Sargent, who had spent much of their valuable time in taking out the various crews and coaching them last season. He paid high tribute to the loyal manner in which the various crews had worked under him last year, and said a finer lot of sportsmen could not be found. He also felt bound to pay a tribute to the caretaker of the club (Mr. Cahill), who had given him great assistance in the handling of the boats, and who had always proved faithful and hard-working in the discharge of his duties. Continuing, Mr. McCarthy said he was sorry he could not accept the position of Vice-Captain again this year, and added that he had definitely decided to resign his position as an ordinary member of the Club.

Mr. T. F. Olden, the Chairman and other members appealed to him to reconsider his decision, but Mr. McCarthy proved adamant.

A long discussion followed and it was decided to allow the position of Vice-Captain remain vacant for the present, and to have a deputation of the members wait on Mr. McCarthy and ask him to reconsider his decision.

On the motion of Mr. Lennon, seconded by Mr. L. D. Dunne, Mr. J. J. Barron, was unanimously re-elected Treasurer, and high tributes were paid to him for the able and satisfactory manner in which he had filled that responsible position during the past year.

Mr. Daly, proposed the re-election of Mr. T. F. Olden, as Hon. Sec., and said they could not find a better man for the position, as it was owing to his wonderful energy and great ability that the Club had been kept alive for some years past, and the proud position of the club to-day was mainly due to his untiring work on their behalf. When clouds were lowering over them, and the fortunes of the club looked dark and hopeless, Mr. Olden had steered their ship through all the quicksands of adversity, and safely brought them out of the wilderness of despair, and the least tribute they could pay him was to re-elect him to the responsible position which he had filled with such conspicuous ability and brilliancy for so many years, (applause).

Mr. Regan, Senr., seconded. On returning thanks, Mr. Olden expressed the great pleasure which it always

A copy of "The Nassau Daily Review" (published in Long Island, New York) issue, dated the 12th ult., to hand, contains a drawing showing how the new St. Agnes Roman Catholic Church building at College Place and Clinton Avenue, Rockville Centre, Long Island, will look when finished, as conceived by Gustave E. Steinbach, New York architect. The edifice when completed in all details, will have cost more than 400,000 dollars. Its tower reaches 160 feet into the air, and its architecture conforms with that of other buildings in the St. Agnes group, including the rectory, parochial schools and convent. The Right Rev. Monsignor Peter Queally, is pastor. It is reported the church will be ready for services by Easter Sunday. Dominick Milone, of Rockville Centre, is general contractor. Work is progressing now on the interior, the limestone exterior being fully completed. The popular padre responsible for the raising of this beautiful temple to the glory of his Divine Master is a son of the late Mr. and Mrs. William Queally, Carrigabarahane, Stradbally. He is a brother of the Very Rev. Patrick Queally, P.P., Petone, New Zealand; Rev. Mother Angeline, Holy Cross Convent, Philadelphia, Pa.; Mother M. Evangelist, Presentation Convent, Maryborough, Leix; Sister M. Peter, Convent of Mercy, Blenheim, New Zealand; Sr. M. Patricia, Convent of Mercy, Stradbally; Mr. Edmond Queally, Carrigabarahane; Mrs. Mary Gough, Ballykerogue, Stradbally; Mrs. Ellen Rowe, Ballylinch, do.; Mr. James Queally, Petone, N.Z.; Mr. John Queally, New York; Mr. William Queally, California; and Mrs. Nicholas Power, Fahaleagh, Kilmacthomas. Mr. Queally is uncle of Sister Eileen Maria Power, Convent of Our Lady of Angels, La Verna Heights, Glen Riddle, Philadelphia, Pa.; Sister Aidan Gough, Convent of Mercy, Hill Street, Wellington, New Zealand; and Rev. Bro. Virgilius, O.Cist., Mount Mellerey Abbey. In his important and exacting parish, Mr. Queally discharges all his priestly duties with edifying zeal and an immeasurable amount of success. Each and every member of his flock deeply loves him for his unflinching kindness, helpfulness and wise counsel. And his thousands of parishioners all admire and appreciate him the more for his grand disposition of character—that is humility itself—a gentleman who never courts that popularity that comes to him as spontaneous recognition of his priestly and manly worth.

Mr. Queally's equally eminent brother (Very Rev. Patrick Queally, P.P.) ministers in pastoral charge of the extensive and thickly populated parish of Petone, N.Z., where he celebrated the Silver Jubilee of his ordination to the priesthood in June of last year. He was ordained priest for the home diocese, but soon after his reception of Holy Orders, for health reasons, he applied for an appointment on the New Zealand Mission, and the late Most Rev. Dr. Sheehan, Lord Bishop of the See of Waterford and Lismore, graciously assented to his application. In the climate of his choice, Father Queally soon gained the reverential regard and devotedness of the parishioners, by his pious fervour and warm heartedness, as well as by the practical sympathy he always evinced with all in trouble. In a short time he was elevated to the dignity of Parish Priest

gave him to be able to render some service to the Club, and he promised to be as active and unsparing in his efforts in the future as he had been in the past, (applause).

On the motion of Mr. G. P. Hely, seconded by Mr. P. Morrissey, all the outgoing members of the Committee, viz., Messrs. Jas. O'Donovan, S. Hick, Jas. Daly, J. Lennon, and J. Foley, were re-elected.

Mr. Olden said he was very glad the same committee had been again elected, as they were all "live members" who gave him the greatest assistance and co-operation during the past year, and he felt sure that the interests of the club would be safe in their hands, and it would be a pleasure to him to work with them during the coming year, (applause).

Mr. O'Donovan, proposed a vote of thanks to Mr. J. McCarthy, for his great services in so ably conducting the "45 Drive" run by the Club, and this was seconded by Mr. J. Daly and passed with enthusiasm.

Mr. Olden, proposed a vote of thanks to Mr. Collender for having so ably presided over the meeting that night, and said his services were always freely placed at the disposal of the Club, whether as Chairman, Auditor, or Judge at their "Scratch Races," and the Club should feel proud in having such an able member amongst them, and also men like Mr. J. Dempsey and Mr. T. Daly, who would be a credit to any Club.

Mr. Collender suitably replied, and said their best thanks were due to the "Dungarvan Observer" and its local correspondent for the manner in which all functions connected with the club had been advertised and "boosted" for years past, which had proved a great benefit to them.

Mr. J. F. Ryan, replying said he was a member of the club 30 years ago, and although he was not a member now, his interest in its welfare had never waned, and he would be only too happy to give the club in the future the same assistance which he had given in the past, (applause).

of Petone, where his labours in his Godly vocation constitute one capital chapter of noble devotion to duty, and the deep and abiding interest he takes in the spiritual and temporal welfare of gentle and simple alike in the urban and rural regions of his parish, earn for him firm and unfading fealty. Petone has made speedy, splendid and sustained progress in all things spiritual, under his competent administration. Sunday, October 28th last (Feast of Christ Our King) marked the solemn blessing and opening of the magnificent new Church of the Sacred Heart in that parish. The ceremony of the opening was performed, in the presence of a very large gathering of the clergy from all parts of the Archdiocese and the laity of Petone and Wellington, by the late Archbishop Redwood, S.M., D.D., the then 96-year-old Metropolitan of the Catholic Church in New Zealand. His Grace also presided at the Solemn High Mass that followed, and Very Rev. Father Patrick Queally, P.P., was the celebrant.

Taking for his text "I have built Thee a house to dwell in, a settled place for Thee to abide in forever" (Kings I, Chapter VIII, Verse 13), Very Rev. Father V. McManus, C.S.S.R., (Rector, St. Gerrard's Monastery, Wellington) preached the occasional sermon to a capacity congregation. "You people of Petone," he said, "out of the richness of your hearts have erected this beautiful temple to the glory of Jesus Christ. You are to be congratulated on the sacrifices you have made for its erection, and on the way you have supported the efforts of your parish priest. You have built a house of God to be a dwelling-place of Jesus Christ for His Most Holy Sacrament." Fr. McManus referred to the pleasure felt by all that Archbishop Redwood was present to open the new church. During the long period His Grace had occupied the Archbishopric of Wellington, the number of churches had been increased more than tenfold, and the Petone building would be one more gem in the crown that awaited the Archbishop above. Fr. McManus concluded by congratulating Fr. Queally on the erection of the new church, which would still be a monument to his efforts when he was worn out in the service of his Maker.

Fr. Queally visited his beloved Ireland for the great Eucharistic Congress of 1932, at which the late Archbishop Redwood (above mentioned) was the oldest Catholic clergyman present.

We are happy to be able to supply the foregoing particulars of the admirable activities of the Rt. Rev. Mgr. Peter Queally, P.P., Rockville Centre, N.Y., and the Very Rev. Fr. Patrick Queally, P.P., Petone, N.Z., and we respectfully add ours to the many congratulatory messages tendered to both on the erection of their respective churches—fine achievements undoubtedly.

**LISMORE NOTES.**

**ST. PATRICK'S NIGHT AT LISMORE.**

The Lismore Branch of the Gaelic League are presenting a Grand Variety Entertainment to honour the National Festival in a truly Gaelic manner. The well-drawn up programme should appeal to the innate National pride of all Irishmen, the principal feature of which is an Irish Play "An Dochtuir," that famous Bilingual Comedy which has been staged 1,000 times successfully.

The committee in charge is none other than that same body the members of which have long proved themselves adepts in the art of brilliant organisation as evidenced by the success in point of record patronage that has attended their past efforts. The programme will include step-dancing, Irish songs, music by Tomas Ceitin's Ceilidhe Band.

**LISMORE POINT-TO-POINT RACES**

At a meeting of the Lismore Point-to-Point Race Committee held in the Town Hall, on Monday night for the purpose of completing arrangements for the annual Point-to-Point Races. Mr. D. Noonan, Chairman, presided. Other members present were—Messrs. C. Farmer, J. O'Donnell, Junr., Joint Secs., O. U. Madden, M. Healy, J. Geary, J. Brown, A. Hickey, J. O'Farrell, Leo O'Donnell and J. O'Donnell, Senr.

The minutes of the previous meeting having been read and signed the Chairman reviewed the financial position of the committee. A discussion then took place as to the best means of raising money for the funds, and it was eventually decided to run a big Draw for twelve valuable prizes, to take place at an All-Night Dance to be run on Sunday night, April, 28th, under the same auspices. Mr. Farmer said they had received a tender for a bar on the course from Mr. Lombard, Fermoy, and after some discussion his tender was accepted.

A tender was also received for the preparing of the fences and was likewise accepted. Several matters having been dealt with, the Chairman thanked the members for their large attendance at the meeting and hoped they would all co-operate and work in harmony to make this year's fixture a pronounced success. This concluded the meeting.

A surgeon is writing his memoirs. The book will not be complete without an appendix.

Special afternoon matinees are arranged—Monday at 3.30; Tuesday at 4 p.m. and Wednesday at 3.30 p.m.

**A STRANGE ACCIDENT—**

A rather peculiar accident in which much damage was done to a motor car occurred in Dungarvan on Tuesday. A new motor car, the property of Mr. P. Cullinan, Rate Collector, Newtown, Kilmachomas, was parked outside the Co. Council Offices. A run away horse with a cart attached came along from the Abbeyside direction at full speed and swerving when an attempt was made to stop him, one of the shafts of the cart struck the rear of the motor with considerable force driving in part of the body with the impact and generally doing much damage to the car at the time. After colliding with the motor, the runaway horse fell, breaking the two shafts of the cart. Considering the traffic usually in Bridget street, and over the Causeway, it is Providential that no one was hurt.

**ANNUITIES—**

During the week Mr. English, of the Co. Registrar's Office, and his men were engaged in Kilmachomas area collecting unpaid annuities.

**DUNGARVAN DISTRICT COURT.**

**INTERESTING CASES**

(Before Mr. Troy, D.J.)

**DANGEROUS DRIVING**

Superintendent Walsh, prosecuted Wm. Moylan, Cross Strand street, under the Road Traffic Act, with driving a horse and cart at Main street in a dangerous manner.

Guard Regan, said that on February 20th (Fair Day), he was standing at Main street, when a horse and cart was driven furiously up Carbery's Lane, and across Main street into Friary street. When questioned the driver said the horse was wild and difficult to hold.

Defendant (to the Justice) said the horse was standing at the fair and got cold. She got nervous of the archway in Carbery's Lane. She was not galloping only prancing.

The Justice, fining defendant 2/6 said that he should remember that he was just as liable to be fined £100 as a motor driver under the Road Traffic Act.

Defendant—I would be in jail for my lifetime.

**UNTAXED CAR**

Supt. Walsh, prosecuted Matthew O'Brien, Kilmachomas, with using an untaxed car on 2nd January, 1935.

Guard Regan said he noticed defendant's car crossing the Square. Later he saw at the Co. Council office that the defendant taxed the car for the two months February and March. The quarter's tax is £3 12s., and by dropping a month he got a reduction of 21 4s. Defendant told witness he only used the car to drive a child to the Bone-setter.

Mr. Wm. Hayes, Co. Council Office, said defendant signed a declaration that he had not used the car during January.

Defendant in reply to the Justice, said he used the car on January 2nd, to take a child named Whelan to the

Bone-setter, and came back through the town to get bandages. That was the only occasion on which he used the car in January and when taking out the license he forgot all about that.

A fine of £2 was imposed. Guard Keane, Cappagh, prosecuted Michl. Ronayne, Coolcormac, with using an untaxed car at Carriglea on February, 12th.

Mr. Williams, solr., for the defendant said he had since taken out the tax for the full year covering the period from January 1st.

A fine of £33, mitigated to 10/- was imposed.

**DECREES FOR RATES**

Mr. J. Hartly, Rate Collector, sued Mr. Ryan, for £75 19s. rates arrears. Mr. Williams, solr., appeared for Mr. Hartly. Defendant in reply to the Justice said he was unable to pay at the present time. He was never in arrears before. He was also paying £17 10s. drainage rates on his farm. The drainage scheme was not doing him any good. He is offering cattle for sale, but cannot sell them. Mr. Hartly knew that. He would have fifteen cattle at the fair on Wednesday and if he could sell them he will give the money to Mr. Hartly.

Mr. Hartly, in reply to the Justice, bore out the statement of the defendant.

The Justice made an order for the payment of £30 in a fortnight; £20 on or before April 1st, and the balance on or before May 31st.

The same complainants sought a decree against John Hearne, Ballintaylor Lower, in respect of £35 10s. 3d. current rates and arrears.

A decree was granted. Same v. Luke O'Brien, Barranstock, in respect of the sum of £47 7s. 6d., rates and arrears.

Mr. Ryan, solr., for defendant, said he was doing his best. He paid £40 a few weeks ago. His farm is a very highly valued one and he was trying to rear his family. He would ask for reasonable time.

Defendant replying to the Justice said he would do his best to pay £20 within a fortnight and the balance before the 31st May.

An order on the above lines was made.

**CHILDREN'S COURT**

Two youths named Michl. and Jim McCarthy, Strand street, were charged by Superintendent Walsh, with the larceny of a pair of donkey cart wheels and a fire machine, the property of Mr. M. Flynn, Square.

Michl. McCarthy, who cried bitterly during the proceedings said they were going through the knocked down houses. They saw the wheels in a house that was not knocked, but there was a hole in the wall and they brought them home.

Defendants were let off under the Probation of Offenders' Act.

**SHORT CIRCUITING**

Two youths named James Donovan and Patk. Doyle, Thompson's Lane, were charged by Supt. Walsh, with attempting to throw a wire over the electric cables at the Quay and causing damages amounting to £1 8s. 5d.

Mr. Farrell, solr., appeared for Donovan, said it was his first offence and Guard Regan would tell the Court that he was very good to attend school. His father was an invalid, but his mother is in Court, and is prepared to pay off the damage if given a little time.

The Justice said it was a shocking thing for youngsters to do, and so terribly dangerous. What they really want is a good whipping.

Supt. Walsh said that a lot of lamps are being broken.

The case was adjourned for three months, the damage to be paid off by both parties in the meantime.

**RECENT BUS ACCIDENT AT KILRUSH**

Superintendent Walsh, prosecuted Denis Twomey, Clonmel, under the Road Traffic Act, for driving a bus on December, 22nd., over an excessive period (the driving period under the Act being 5 1/2 continuous hours).

Sergt. Fennelly, Clonmel, deposed that a statement made by Twomey after being cautioned in which he stated that he started work that morning at 8 a.m. and made three return journeys to Dungarvan. Owing to the heavy traffic that day and the fact that

he had to take his bus to the garage for repairs to the hand brake, he was unable to get any dinner or refreshments and worked from 8 a.m. to 6.30 p.m., without a break. On leaving Clonmel for the third journey about 4.50 p.m. they had a full load. When approaching Dungarvan at Kilrush he met an oncoming car. He was travelling at about 20 m.p.h. and when he went towards the side the steering locked and the bus mounted the foot-path.

Daniel Kiely, conductor, corroborated the statement and added that when they arrived in Clonmel after the first journey about 11.45 to 12 o'clock, witness went home and had a cup of tea, he returned about 12.15 and found Twomey and others attending to the brakes. They got to Dungarvan again about 2 p.m. and left again at 2.15, arriving in Clonmel at 3.45 to 4 o'clock. They left Clonmel again about 40 minutes after the regular time.

When approaching Dungarvan, witness was marking his sheet, the bus suddenly left the centre of the road and locked turning completely around. The driver was assisting witness all day with luggage. He would not say the driver had a reasonable period for rest and food. Witness had no dinner that day owing to the heavy traffic.

Having heard the evidence at length the Justice dismissed the case, as also the charge against the G.S.R., for allowing Twomey to drive over a period in contravention of the Act.

**ORDER REFUSED**

Claim under Illegitimate Children (Affiliation Orders) Act 1930 for an affiliation order in which Maureen Tobin, of Grattan Square, Dungarvan, spinster, was the applicant and Ml. O'Brien, of Knockenpower, Ring in the County of Waterford, Waiter, was defendant.

Mr. E. A. Ryan, solr., for Maureen Tobin, Mr. A. R. Farrell, solicitor, for Michael O'Brien.

The summons alleged that defendant was the father of applicant's child which was born on 19th August, 1934. Defendant denied this charge under oath, and produced a witness who swore that on the dates sworn to by applicant he was not with applicant, but with witness.

The Justice held that there was not sufficient corroboration of the applicant's evidence to entitle him to convict. He said that he made no comment as to whether defendant was the father of the child or not, but he dismissed the summons.

CAPPOQUIN NOTES.

SUCCESSFUL "45 DRIVE."

The monster "45 Drive" organised by the Rowing Club was concluded on Sunday week when the second and final rounds were played off in the large hall of the Boathouse.

Enjoyable Wind-up Dance.—On Sunday 3rd inst., a grand Cinderella Dance, to mark the wind-up of the dancing season in Cappoquin, was held in the Boathouse under the auspices of the Rowing Club which had done so much to provide various forms of enjoyment for all during the long and dreary nights of winter.

CAPPOQUIN VOCATIONAL SCHOOL.

On Shrove Tuesday night a most enjoyable Whist Drive was held in the Technical School here which was attended by 84 players representing 21 tables.

The games were played in the Domestic Science Classroom upstairs, which proved ideal for the purpose, as it is a spacious well-lighted and well-ventilated apartment which greatly conduces towards the comfort of all present.

THE EAST WIND STEEDS.—The East wind steeds that bear the winter down Night shaded ways all famishing with cold.

Ladies' Class—First prize (valuable Leather Handbag), Miss McGoldrick, Dungarvan; second prize (pair of Fancy Satin Cushions), Mrs. E. Spillane, Cappoquin; Third prize (A Rich Chocolate Cake), Miss M. Kerfoot, Cappoquin.

At the conclusion of the Drive all present were hospitably entertained to a delightful tea and a sumptuous supply of the choicest confectionery made by Miss Flynn and the students of the Domestic Science Class, and

KILMACKTHOMAS NEWS.

His countless friends and well-wishers on all sides will be glad to learn that Mr. William Lenihan, Newtown (the courteous and capable assistant at Mr. John Ken's well-appointed business establishment in Kilmackthomas) is now on the high road to complete recovery from the effects of his recent indisposition.

BY THE WAY—

The Boatstrand (Dumbratlin) fisherman who has vowed a slate-coloured mackerel that he will not "touch a sup" through the season of "sackcloth and ashes," will not, we are sure, agree with the subjoined, quoted cutely by a Carroll's Cross chap at a Fenor function a few fine days ago.

Good wine, a friend, or being dry, Or lest you should be by and by or any other reason why.

IT IS EITHER—

ASTOUNDING or amazing the trite things young people say. In Kilmackthomas, ere-yesterday, a mere child, fascinated by a poster in the window calling attention to Easter goods, said to his mother: "Look, mummy, the bill says 'get ready for Easter,' St. Patrick's Day isn't here yet."

BE THERE!

A "45" Card Drive and Ceilidhe will be held in Newtown Schoolhouse on to-morrow (St. Patrick's) Night, in aid of the Newtown and Kill Parochial Debt. Because of its very laudable object, the event should be well patronised by the people of these parts.

DEATH OF MRS. A. CURRAN.

The death of Mrs. Alice Curran (nee Flynn), relict of the late Mr. Thomas Curran, farmer, Robertstown, Kilrossanty, has been deeply regretted by a wide circle of friends. After a brief illness and in the fulness of her years, she passed peacefully away to her eternal reward fortified by the rites of the holy church on Friday morning of last week.

On Saturday evening, the remains were removed to St. Brigid's Parish Church, Kilrossanty, followed by one of the largest and most representative corteges seen locally for a considerable period. After the late Mass on Sunday, interment was made in the family plot in the adjoining cemetery, in the presence of innumerable relatives, friends and sympathisers, and amid many manifestations of sincere sorrow.

NOTA BENE—

The final rounds of the monster 45 card drive (in aid of local parochial purposes) will be played in Ballylanean Schoolhouse on Low Sunday night, 28th prox. The first round (3 twos at a florin each) can be played anywhere. A total of £10 will be distributed in prizes. Full particulars may be had on application to Mr. Jeremiah Foley, Ballylaneanogue, Kilmackthomas, who is the hon. secretary to the Ballylanean Parochial Committee.

THE EAST WIND STEEDS—

The East wind steeds that bear the winter down Night shaded ways all famishing with cold, Snow heavy come with trampling at moon change.

The East wind steeds wake tumult in the land, —Rebelling, ringing challenge, they ride in.

this proved a most delightful finale to a very enjoyable and successful social event.

Within the week, the people of these parts experienced the biting snap of the Eastern wind. The clerk of the clime "flaked" Mid-Waterford with "pretty snowflakes" throughout last Sunday. Undoubtedly, the weather, latterly, is very severe on sheep and cattle grazing on exposed, unsheltered lands, and early lambs have perished in many places.

THE "DR. HARTY CUP."

INTER-COLLEGE HURLING AT LISMORE.

Our Cappoquin Correspondent writes:—

With a view to developing Gaelic Sport amongst the students of the various Colleges in Munster, the Most Rev. Dr. Harty, Archbishop of Cashel, presented a Perpetual Challenge Cup some years ago to be played for each year by the Senior Hurling Teams from all the Colleges and Christian Brothers Schools in Munster, and the important competitions thus inaugurated have created a healthy but friendly rivalry between the various Colleges and Schools and have been productive of some high-class exhibitions of hurling.

The entries for last year's games were unusually large, but the students of North Monastery, Cork, displayed outstanding form in all their matches, and won the coveted Dr. Harty Cup by a big score in the final match.

Seven entries were received for this year's competition, viz., North Monastery, Cork (holders of the Cup); Limerick C.B.S.; Rockwell College, Ennis C.B.S.; Thurles C.B.S.; Doon C.B.S.; and Mount Sion, Waterford, and in the first match of the first round North Monastery, Cork, reproduced their brilliant form of last year by defeating a strong team from Limerick.

In the subsequent games in the first round Rockwell College beat Ennis Thurles beat Doon, while Mount Sion got a bye. North Monastery and Mount Sion had qualified to meet in the first match in the second round, and this match was played in the Gaelic Field, Lismore, on Saturday afternoon, and no better venue could have been selected.

Both teams travelled by special buses on Saturday, the Cork team being accompanied by a large following of supporters, and the town presented an unusually animated appearance for some time previous to the match as the players and their friends paraded the streets amidst scenes of buoyant and youthful enthusiasm.

A large number of Christian Brothers in charge of the respective teams also travelled with their proteges, and there was a fairly good attendance on the field when the game started at 3 p.m. The local Gaels had made special arrangements for the event, and the fine Gaelic Field had been admirably laid out in a manner which won the admiration of all.

A strong cold easterly breeze blew along the field from the town end, and playing with this in their favour in the first half, North Monastery made the most of this advantage, and playing with rare dash and combination they had the green flag raised for a goal within five minutes from the start of play.

Mount Sion next became aggressive and brought play down the field, but they met with a stubborn defence, and a determined attempt to score was cleverly frustrated and the ball was sent wide, but keeping up the pressure, they were soon rewarded with a point, which was followed a few minutes later with their second goal. Mount Sion rallied after this, and drove their opponents down the field where another attempt to score proved futile, the ball again going over the end line.

Mount Sion appeared to have "shot their bolt" after this effort, as North Monastery continued to press for the remainder of the first moiety, and adding four goals in quick succession, the half-time whistle found the score: NORTH MONASTERY ..... 6-1 MOUNT SION ..... Nil

It was thought that with the breeze in their favour in the second half, Mount Sion would be able to reduce this big lead and make the game more interesting for the spectators, but, instead, North Monastery seemed to revel in the adverse conditions, and soon had a point scored to their credit, which was followed by a goal a short time afterwards. With the score now standing at 7-2 to Nil, the prospects for Mount Sion were not very rosy, and whatever hopes may still have buoyed up their supporters were quickly dissipated when Cork added a goal, a point, and a further goal in quick succession, so that the final whistle found them easy winners of a very disappointing game on the score: NORTH MONASTERY ..... 9-3 MOUNT SION ..... Nil

It must be said that the North Monastery boys were a much heavier and better trained team than Mount Sion, and although the latter put up a game and plucky fight, they were always beaten in the forward and back divisions by their opponents, and on Saturday's form it seems quite safe to say that the team which beats North Monastery will be the winners of the Dr. Harty Cup this year.

### YOUGHAL URBAN COUNCIL

#### RESOLUTION NOT POLITICAL

Present—Messrs. P. J. O'Gorman, P.C., Chairman; J. R. Smyth, P.C., R. Savage, M. Ahern, E. P. Lynch, J. Daly, W. O'Sullivan, T. Beausang, J. N. R. Macnamara, solr.; J. Whelan, D. McCarthy, E. D. Condon, J. Forrest, R. Power.

#### Ferry Jetty

At the meeting of the Harbour Board.

A letter was read from the Ministry of Industry and Commerce, re the Ferry Jetty, stating that in the circumstances, he would not raise any objection to the jetty provided that for navigation purposes, a satisfactory light was erected on the seaward end of the jetty.

The Clerk—They must be under the impression that the river over there is navigable.

Mr. Smyth thought it would be advisable to have a light there for protection.

It was unanimously decided to put a light on the jetty, on the proposition of Mr. Macnamara, seconded by Mr. Smyth.

#### Objection To Minutes

The Clerk having read the minutes of the previous meeting of the Urban Council.

Mr. Lynch objected to them being signed. There was a resolution on the books that eight days' notice should be given of any proposition and that was not done in the case of the resolution proposed by Mr. Power and seconded by Mr. Broderick.

The Chairman said there was no such proposition as that referred to by Mr. Lynch on the books. Any proposition could go through so long as it was unanimous and not political. No one could say that Mr. Power's proposition was political.

Mr. Lynch—I'd like to hear the proposition read. Is the word "political" used in it?

The Chairman—Am I to infer that you are of opinion that Mr. Power's proposition was a political one?

Mr. Lynch—I am of opinion that 8 days' notice should be given.

The Chairman—In my opinion it wasn't necessary. No one questioned it as a political motion, and I as Chairman didn't consider it political. Accordingly I didn't see what purpose it could serve to defer it.

Mr. Lynch—You ruled me out of order.

The Chairman—I didn't. The proposition is on the books and there it is. You agreed unanimously the last night.

Mr. Daly—You ruled discussion out. The Chairman said that was a different matter. They all had the opportunity but no one dissented, and accordingly it was passed unanimously.

Mr. Power said he stood absolutely by every word and sentence of his resolution. There had been a lot of comments on it by different political sides, but it didn't affect him. He proposed it simply, earnestly appealing to the Government to come to the relief of the farmers, and he stood by it. He would like his critics to understand that in proposing it, it was not his intention to ask the Government to bow their heads before Jimmy Thomas or John Bull, but he felt the farmers were entitled to relief.

The Chairman—And it went through unanimously.

Mr. Forrest—Mr. Power is not speaking for the Fianna Fail organisation—he is not a member.

Mr. Daly—On the Press the titles F.F. and U.I.P. were used. That made it political.

The Chairman—Mr. Power never said that he wasn't Fianna Fail, nor Mr. Broderick that he wasn't Fine Gael.

Mr. Power said he acted through no political motive, but believing that the farmers were entitled to relief, he thought he was perfectly right.

Mr. Lynch—What do you want the Government to do? I want that proposition read.

The Chairman—I am ruling the matter without that proposition.

Mr. Lynch—You will have it from the Minister.

The Chairman—I am the Minister here.

Mr. Lynch—You are a dictator.

The Chairman—I am no such thing. As a matter of fact I give some members too much latitude.

Mr. Power—As a supporter of the Government, I did as much as any one in Youghal and I am prepared when necessary to stand by F.F.

The Chairman—That is an end of the matter. Next business.

#### Acknowledgment

A letter was read from Mr. R. M. O'Gorman, Ogden, Calgary, Canada, thanking the Council and the Clerk for their vote and expressions of sympathy with him on the death of his wife.

#### Tenders For Milk

Three tenders were received for the supply of milk under the Free Milk Scheme:—(1) (a) 64d. per gallon at the Market House depot, and (b) 1/4 delivered to the homes; (2) (a) 10d. and (b) 1/4; (3) (a) 7d. and (b) 1/2.

It was decided to lay all the figures before the Department, pointing out that in addition to the very much lower price, the milk if delivered at the depot would be subject to the supervision of their officer.

Mr. Broderick said if they were allowed to distribute the milk at the de-

pot, it would be supervised and they could give twice the quantity of milk.

Mr. Lynch said if the Department insisted on the milk being delivered to the home, it would be almost night before the people at the North end would get it.

#### April Fair Day

The Clerk read a letter from the Secretary of the Cork United Cattle Trade Association stating that in the absence of a meeting the Chairman suggested that the Council should use their own discretion regarding fair day. The last meeting had recommended the 19th inst for Charleville.

Several members having said that that would not interfere with the local fair, it was decided to hold it on that date.

Mr. Savage—I hope it will be a good fair (laughter).

The Chairman—You are having your little joke, Mr. Savage (laughter).

#### Suggested Improvements

A circular was read from the Inter-Departmental Committee on Public Works referring to their recent advertisements in the public Press inviting suggestions for useful public works. It occurred to the Committee that Local Authorities generally, to whom the advertisements were doubtless of particular interest, might have in course of preparation, schemes of works which they intended to recommend to the Committee. The Committee would be greatly facilitated in the formulation of their programme by the early submission of schemes in response to their invitation and they requested the Council, if they had any such proposals in mind to furnish all relevant information early.

The Secretary wish to emphasise that the works in which the Committee were mainly interested were those of a novel character which were not usually undertaken by Government Departments or Local Authorities, but which were, none the less, useful and desirable and calculated to afford the maximum degree of employment to unskilled labour.

The Clerk said he had already submitted the letter to the Chairman, who was of the opinion that the proposed "Swimming Pool" should be put forward.

Mr. Power said that Dunne's Park could be easily converted into a fine athletic ground by running a wall across from Green's Quay. At present the G.A.A. were paying £18 a year for a field, not very suitable.

Mr. Lynch said they should not forget one very important piece of improvement work and that was the protection of the front of Claycastle. It was most essential that something should be done, otherwise they would see the sea eating into the railway line in course of time.

Mr. Savage said he had a letter drafted to Mr. P. J. Little, regarding his field at Claycastle. If that and the surrounding fields were availed of they would in the future have a magnificent seaside resort. With an ideal situation, sea, land and river, there was every room and material for development of the place on a large and ambitious scale. They would then have a seaside resort second to none. (Mr. Savage here entered into details of the scheme he contemplated). The key of the whole situation was money. At the outset it wasn't a matter for private enterprise, but one, he submitted the Government should help in.

The Chairman said Mr. Savage's scheme was a wonderful one, but it all hung on L.S.D. The Council would do what they could, but he feared it was too expensive an undertaking for present times.

Mr. Broderick said that Mr. Lynch's suggestion that Claycastle should be protected was very important.

Mr. Ahern said some shelters along the strand were badly needed for their summer visitors. It was pitiful to see women and children rushing to the station premises from the rain.

Ultimately the members of the different wards were appointed Committees to visit the sites of the proposed improvements and duly report to the Council.

#### Sympathy

On the proposition of Mr. Daly, seconded by Mr. Ahern, a vote of sympathy was passed to the family of the late Mr. Máthéy Galvin, Pilmore.

Portion of a golf-course adjoining the Yorkshire cliffs has disappeared. Some golfers are very careless about replacing sections of golf-courses.

### ARDMORE

Its Mines and the suggestions placed before the Inter-Departmental Committee on Public Works, for the Relief of Unemployment in the Locality.

By James J. McGrath,

The Cottage, Curragh, Ardmore

It is pleasing to note that at long last the once famous Bonmahon Copper Mines are about to be developed again. It is a well-known fact that those mines were in full swing in days gone by, and gave much employment, and surely to-day, the tidings of their re-opening will be gladly welcomed by the people of the immediate and surrounding localities; and certainly the promoters of the undertaking—Messrs. Lenander-Broughton-Edge, and Austin Impey, are to be congratulated on their attempt at the magnitude of the work to be carried out; especially at a time when unemployment is so rife amongst us.

Surely this an opportune moment to bring before the public, notice of other famous mines in our own neighbourhood, namely the minerals of Minehead, Ardmore. These are indeed very famous mines. I have had the privilege of looking over the maps recently of the mineral locality. True it is that these mines were never fully developed, with the result that there are abundant minerals there yet, and which would yield untold products for years to come, as well as to give much-needed employment for a great number of years. The vertical shafts of these mines are in most cases still intact, but the horizontal ones have caved in. I am told by the old people of the locality, that these mines contain silver ore—and copper ore—and were explored last about twenty years ago by Messrs. Ferguson and Espargo. It is my intention to place the whole facts of these mines before the promoters of the Bonmahon mines, as well as the mineral Department of Industry and Commerce in the very near future.

The ore of these mines can be easily transported by sea, rail or road, also electric power is within easy reach. Therefore, it is to be hoped that when the whole facts of the case are placed before the proper quarter, it will receive the kind and sympathetic attention it deserves, and that the people of the village as a whole, irrespective of politics, will give a helping hand to make it a success.

By the way in reply to the official advertisements issued by the Inter-Departmental Committee on Public Works, I have placed a proposal for the development of these mines as well as seven other useful propositions, and from correspondence that has passed between us I understand that the Department concerned is giving the matter its attention. The people of the locality may be anxious to know what these proposals were, and how they would benefit the locality. Therefore, with pleasure I now make them known. Most of them were suggested to me by people who are extremely interested in the welfare of the village. No. 1 was the rebuilding and renovation of the old Coastguard Station, which could be used as a barrack or a hall, or in some other capacity. No. 2 the continuation of the present storm wall up along the dangerous unguarded thoroughfare in front of the Convent, with its ever increasing motor traffic in summer time—a very important and urgent work. No. 3 a Coast Erosion Wall, or concrete embankment from the Bridge at the end of existing storm wall for a length of about 200 yards, to prevent the tide encroaching on the land. This work would be very necessary also. No. 4 the enlargement of the Pier. This job would be gladly welcomed by the fishermen concerned. No. 5 a concrete guard wall in front of the famous ruins—Holy Well and Church of St. Declan, on the cliffs. This is a much frequented spot in summer time when visitors and College students are in the vicinity, and more especially at Patron time. Surely if this famous old Ruin and

the finding of the Military Tribunal in the cases against the 14 Cork Farmers charged with membership of an illegal association were as follows:—

Wm. Tail, Hermitage, John Tail, (do.), and Pak. O'Mahony, Toames East, Macroom, were found not guilty on all counts, and discharged.

Patk. Heskin, Aghlish, Glencairn, County Waterford; Edward J. Cussen, Shanahill House, Co. Cork; Wm. O'Driscoll, Glue Yard, Bandon, and Brooke Wellington, Brazier, Shanagarry, Co. Cork, were each fined £100 or six months' imprisonment in default.

Maurice Moore, Walshtown, Middleton; Jerh. Lehane, Carrigrohane, Co. Cork; Anthony Mullins, Ballincroikig, White's Cross, Co. Cork; J. F. Convey, Oldcastle, Carragline; John Bolster Barrett, Ballinagoragh, Ballinspittle, were each fined £50, or four months' imprisonment in default.

Thos. Russell, Titeskin, Rostellan, Co. Cork and Patrick Fahy, Ballyphilip, White's Cross, Co. Cork, were each fined £25, or three months' imprisonment in default.

The three charges on which convictions were made were (1) membership of the County Cork Land Annuitants' Defence Association, which association promoted, encouraged and advocated the non-payment of monies due to the Central Fund, namely, instalments of the land purchase annuities; (2) membership of an unlawful association which advocated, encouraged, and promoted the non-payment of land purchase annuities; (3) membership of an unlawful association which promoted, encouraged and advocated interference with the law.

On behalf of the prisoners, Mr. E. J. Cussen, said there were no funds at the disposal of the County Cork Land Annuitants' Defence Association for such purposes as payment of fines.

The President of the Tribunal suggested that the prisoners should consult their friends, and a period of fourteen days would be given for the return to the court of their answer.

Well are to be preserved for future generations, it is only right to expect that it be protected by a wall, besides it is very dangerous at the present time. No. 6 A Water Scheme for the village. For a long time a water scheme is spoken of here. But less talk and more work would be welcome. Ardmore to-day, sad to say has no water system, no matter how famous and varied its beauties are it lacks one of the greatest necessities of life—water. Other villages known to me in various parts of Ireland have in quarter of the time in which a water scheme is spoken of in Ardmore installed an up-to-date water supply of four times in proportion to any that will be ever carried out in Ardmore. So let us hope that this work will go on in the very near future, for the benefit of the users permanently and the unemployed temporary. No. 7 In conjunction with No. 6 an up-to-date Sewerage system is desired, of course it is an understood thing that a water system must be installed prior to the sewerage system. The first question asked by visitors who intend taking houses in any seaside locality is what are the water and sewerage arrangements? Well, the lack of either of these advantages keep a good many people away from an otherwise famous beautiful and healthy locality. It is, I know full well the wish of all the people of that locality—both rich and poor—to give a hearty cheer mile failthe to the strangers. Therefore, it was with these intentions in my mind that I placed the eight proposals before the Department concerned including the exploration of the mines, and as such I take it for granted—irrespective of creed and politics—that the people as a whole will gladly welcome the materialisation of these projects, no matter how small or great their magnitude be. Their primary object will be to make the village modern and up-to-date and secondly, give much-needed employment to the unemployed; and such were the ideas that prompted me to write this article.

### CORK FARMERS SENTENCED

The finding of the Military Tribunal in the cases against the 14 Cork Farmers charged with membership of an illegal association were as follows:—

Wm. Tail, Hermitage, John Tail, (do.), and Pak. O'Mahony, Toames East, Macroom, were found not guilty on all counts, and discharged.

Patk. Heskin, Aghlish, Glencairn, County Waterford; Edward J. Cussen, Shanahill House, Co. Cork; Wm. O'Driscoll, Glue Yard, Bandon, and Brooke Wellington, Brazier, Shanagarry, Co. Cork, were each fined £100 or six months' imprisonment in default.

Maurice Moore, Walshtown, Middleton; Jerh. Lehane, Carrigrohane, Co. Cork; Anthony Mullins, Ballincroikig, White's Cross, Co. Cork; J. F. Convey, Oldcastle, Carragline; John Bolster Barrett, Ballinagoragh, Ballinspittle, were each fined £50, or four months' imprisonment in default.

Thos. Russell, Titeskin, Rostellan, Co. Cork and Patrick Fahy, Ballyphilip, White's Cross, Co. Cork, were each fined £25, or three months' imprisonment in default.

The three charges on which convictions were made were (1) membership of the County Cork Land Annuitants' Defence Association, which association promoted, encouraged and advocated the non-payment of monies due to the Central Fund, namely, instalments of the land purchase annuities; (2) membership of an unlawful association which advocated, encouraged, and promoted the non-payment of land purchase annuities; (3) membership of an unlawful association which promoted, encouraged and advocated interference with the law.

On behalf of the prisoners, Mr. E. J. Cussen, said there were no funds at the disposal of the County Cork Land Annuitants' Defence Association for such purposes as payment of fines.

The President of the Tribunal suggested that the prisoners should consult their friends, and a period of fourteen days would be given for the return to the court of their answer.

### IRISH TRANSPORT & GENERAL WORKERS UNION.

#### DUNGARVAN BRANCH

#### ANNUAL MEETING.

The annual meeting of Dungarvan Branch of the Irish Transport and General Workers Union was held in the Town Hall, Dungarvan, on Sunday, 3rd March, Mr. P. Cullinan, presiding. There was a good attendance of members. Mr. Thomas McCarthy, U.D.C., Secretary, and Mr. P. J. O'Brien, Organiser, were in attendance.

Chairman opening the meeting welcomed these present and explained the business before the members.

Mr. P. J. O'Brien, Organiser, in the course of his address stated that organisation had made very great progress during the past year in all spheres, throughout Ireland. They had improved their membership and established organisation in several areas where workers realised the necessity and need for the protection of the I.T. & G.W. Union. The Irish Transport and General Workers Union was Ireland's foremost and most virile Industrial Trade Union, organised on industrial lines to cater for the large number of different sections of wage earners. They controlled membership in all the major industries, and had increased their reserve

funds to over £100,000. There had been substantial increases secured for their members in Flour Mills, Clothing Factories, Printing and Newspaper concerns, Building Labourers, Constructional Workers, Woollen Mills, Coal Mining, Cinemas, and Sugar Beet Factories, in addition to several other milling, factory and general concerns.

In addition they had nine members in the Irish Labour Party Dail and Senate group to safeguard the interests of the members in all Factories, Shops, and General legislation and secure as far as possible that whatever measure of political freedom was secured, that it was utilised to bring the benefits of freedom into the homes of the workers, the wage earners and unemployed of Ireland. Freedom would mean little to them if it consolidated the pagan exploitation of workers which had brought such miseries and chaos to other lands. They therefore, needed their own organisation which had its roots in the country and knew how to deal with the every day problems of the wage earners. Recently workers who had been organised in other organisations had transferred over to their union in globo, because they realised that the Irish Transport and General Workers Union had the equipment, power, organisation, determination and finance to advance the interests of Irish workers.

After a discussion and decisions on Branch business and Union matters, the following officers and committee were appointed:—

President—P. Cullinan; Secretary—Patrick Lynch. Committee—Messrs. J. Feeny, E. Lynch, E. Veale, J. Costin, Thomas McCarthy, U.D.C., and J. O'Shea.

It was decided to hold fortnightly committee meetings, and also carry out usual arrangements for members payments on each Saturday from 7.30 p.m. onwards.

*A Great Irish Monarch*  
**CORMAC MAC ART (A.D. 226-277)**

Cormac Mac Art (A.D. 226-277) Grandson of Conn of the Hundred Battles was the most illustrious King of pre-Christian Ireland. Great in war, he was greater still in peace. He gave to the office of ARD-RI a dignity and splendour hitherto unknown. A patron of learning, he founded three colleges at Tara, one for the study of military science, one for law, and one for literature and history. Cormac built the Teach Mic Chuarta, a great banqueting-hall, the grianan or sun-house, the House of Hostages, and the House of a Thousand Soldiers. Cormac made the Palace of Tara a building worthy of Royalty. He is also credited with having constructed the *first mill in Ireland.*

All ancient historians speak of the prosperity Ireland enjoyed under King Cormac. "In his time" writes one, "there was contentment and happiness. There was abundant produce of land and sea. Of Ireland he made a land of promise." "During Cormac's reign," says another Chronicler, "a sack of Wheat was produced from every ridge.
