So evenly contested was the game that neither side had scored even a solitary point in the first half, and for the first 20 minutes in the second half the result was the same, and it then looked as if the match would end in a scoreless draw. After Villierstown had missed some beautiful chances, Kinonkanore made a great spurt within the last 10 minutes and quickly shot a goal and a point, but, try as they would, Villierstown seemed to be in hard luck and could not find the net, so that Knockanore proved lucky win-ners on the above score. Mr. Wm. Hogan, Lismore, proved a capable and impartial referee.

SEAN TREACY'S MEMIORY HONOURED Carrick-on-Suir Urban Council has decided to name the field in which 95 new houses have been built at Conmel Road:

"Sean Treacy Park." Proposing the name of the Park, Mr. Babington said Sean Tready was one of the greatest Irish patriots Co. Tipperary or Ireland produced in our day. Mr. O'Driscoll, seconding, said today here was great need to honour and make known to the rising generations the names of the patriot dead who died in recent years in the fight for Irish freedom.

Mir. Babington—But for men The Sean
Treacy, we would have no louses for the poor for the next 100 years. It was decided to put up the name in Insie and English.

SEAN TREACY'S MEMORY HONOURED

Carrick-on-Suir Urban Council ha cided to name the field in which 95 new houses have been built at Clonmel Road: Sean Treacy Park." Proposing the name of the Park, Mr. Babington said Seam Treacy was one of the greatest Irish patriots Co. Tipperary

or Ireland produced in our day. Mr. O'Driscoll, seconding, said today there was great need to honour and make known to the rising generations the names of the patriot dead who died in recent years in the fight for Irish freedom. Mr. Babington—But for men like Sean Treacy, we would have no house's for the poor for the next 100 years. It was decided to put up the name in Irish and English.

GRASS: THE MOTHER OF MILK. SCOPE OF LEY FARMING.

In the light of modern knowledge milk is probably to be regarded as the most important of all health-giving foods, and there is still a great dealite be leained about the subtleties of milk. Clean milk, fresh milk—these are already national slogans. We know at all events that the quality of milk is profoundly affected by the quality of the feed supplied to the cows. Grass is the mother of milk; and grass of high quality supplied to the cows all the year round meansor should mean-milk of good quanty available all the year room!

National consumption is influenced by three factors in particular-know-ledge, the income of the poorer families, and the price of the com-modity Technique of production has a direct and indirect influence on the price of a commodity. If incproved technique makes for greatly cheapened production, this in the long run, will force consumers and producers alike to demand and to create facilities for rational and cheapened distribution. Let it once be generally realised that the product in question is of prime necessity in the interest of national health, then the cheapening of production will be the master-key their milk is so rich that their calves a!- that will open doors that have long seemed impenetrable.

The technique of production, where

grass concerned, has advanced out of all recognition in recent years, and is ready to combine with these other causes to revolutionise agricultural practice over an enormous acreage in this country. Grass, it must be remembered, is not only the mother of milk, but in realation to modera practice it is at least the stepmother of eggs, and it is the most important of all feedstuffs in the pro-

"I sever semember a nore beauciful spring." If we heard this remark once we heard it a nundred times nuring and since the Easter recess. But once again the prosaic expert steps in. A meterolo-gical correspondent states that for rainlessness the spring of 1938 has 10t Jeen matched for 150 years. This gives at dry dexion to an otherwise benign and genial experience, and we are remir dec. once again of the adage that : "One i man's meat is another man's poison." Those who helped at the drawing of prizes and whist drive held recently in aid of the Christian Brothers Schools, Carrick-on-Suir, were entertained on Sunday evening to tea and a concert, by Rev Brother Maher, Superior, and the other members of the Community at Carrickon-Suir. Father Cooney, S.J., Superior Jesuit College, Hong Kong, a former pupil of the Carrick-on-Suir Christian Brothers Schools was among the guests.

PROGRESS OF CARRICK-ON-SUIR HOUSING SCHEME

It was reported to this week's meeting of Carrick-on-Suir Urban Council that 95 houses at Clonmel Road and the 12 houses at Carrickbeg will be occupied at an early date, making a total of 180 working-class houses built since 1933.
