

GAELIC ATHLETIC ASSOCIATION.

INTER-COUNTY FOOTBALL AT DUNGARVAN

WATERFORD NARROWLY MISS DOUBLE

M.F. Waterford, 2-3; Tipperary, 1-3. S.F. - Tipperary 1-19; Waterford, 1-8

Two hectic struggles were the outcome of the meeting of Tipperary and Waterford at the Gaelic Field, Dungarvan, on Sunday last in Minor and Senior Football, when honours were divided in the first round of the Munster Inter-County Championship.

The field was in perfect order and the big crowds were on their toes with excitement during every minute of the two games.

Waterford Minors covered themselves with glory and out-played the hefty, dashing Tipperary lads at every phase of the game.

In the Senior game Waterford were in very hard luck not to win, or at least make the match a draw, but they were beaten because of the wily tactics of the Tipperary forward division, in the closing stages, in drawing the Waterford half-back line too far ahead. These tactics getting for Tipperary at least two soft points.

Minor Game Waterford opened the scoring with a point after eight minutes' play. Close on ten minutes' hard play followed before Creghan equalised with a point for Tipperary.

Following a free, Waterford attacked and McGrath again put the home county leading with a point. Keane added a great goal. At the interval Waterford led by 2-2 to 0-1.

On resuming, Tipperary kept up a terrific barrage, but the Waterford defence covered itself with glory. McGrath added an easy goal for Waterford from close range. Nothing daunted, the Tipp. forwards rallied in the manner so characteristic of the Premier County and eventually Murphy scored a grand goal. O'Regan added a neat point. The spectators were treated to a rousing finish, there being no further score before the full time whistle was blown.

The teams were: Waterford - J. McCarthy (goal); R. Power, R. Phelan, T. Kieley, W. Aspell, P. J. McGrath, T. Yeale, D. McCarthy, D. McGuire, L. Brennan, K. Whelan (capt.), W. Terry, J. Curran, M. Keane, W. McGrath.

Tipperary - C. O'Sullivan (goal), J. Crotty (capt.), L. Heffernan, J. O'Regan, W. Lambie, T. Murphy, R. Creghan, T. Creghan, H. Gouldsboro, T. J. Burke, P. Larkin, J. Maher, W. Hickey, D. Ryan, P. Hogan.

The Senior Game Waterford were the first to attack and their forwards were soon in a good position for scoring. Barron's shot, however, struck the upright and the Tipperary defence held their own over resulting. The delivery of the Tipperary forwards broke away and Hickey opened the scoring with a neat point. Keeping up the pressure, McDonald added a second point for Tipperary. Waterford rallied and a centre by Paul Russell, was snapped up and pointed by Gough. A free to Tipp. was driven wide before the Waterford forward combined splendidly in a bout of hand-passing which was crowned by Greaney with a grand goal. Soon afterwards Barron struck the upright for the second time, an over resulting. The Waterford forwards were working hard and Casey eventually secured a lovely point. The Tipperary team rallied and Kessane levelled the scores with a magnificent shot that gave Hayes no chance of saving his net. The teams thus entered the second quarter on level terms. Gough, however, soon regained the lead with a point for the home county and Paul Russell added a like score a couple of minutes later. Power and Hickey added a brace of points to again level the scores. Play was remarkably even and the defences were proving sound on both sides. Paul Russell added a point from a free but McDonald again set the teams level with a grand point. The interval arrived with the teams still level at 1-5 each.

As Waterford had played against a slight wind in the first moiety the odds appeared to be in their favour for the second moiety. Tipperary, however, soon proved they were not going to be handicapped by the breeze and were the first to attack. The Waterford defence held, but the Tipperary forwards worked back and were awarded a free kick on the 14 yards mark. O'Keefe tried for a major score and an exciting tussle ended in a fine clearance by the Waterford defence. Following a short stoppage owing to a player being knocked out, Tipperary got going and J. Lonergan gave Tipp. the lead with a point. O'Keefe added a point for Tipperary before the Waterford forwards raced away at great speed. A promising movement was spoiled by an infringement. The Tipp. forwards again got going and O'Keefe added a point from a free. A free to each side neutralised, before Barron received a well-timed pass from Connors and narrowed the gap with a point. The Waterford forwards made desperate efforts to secure a goal but there was no denying the stout resistance put up by the Tipperary back line.

At this stage the half-back line for Waterford was repeatedly out of position and the Tipp. forwards were enabled to get close in. A free to Tipp. was pointed by O'Keefe. Again the Waterford forwards took up the running and Barron again narrowed the gap with a point. Heartened by this success, the Waterford forwards made desperate efforts to notch that elusive goal that would give

THEM THE LEAD. Time and again they appeared on the verge of doing so, only to be frustrated at the crucial moment. The spectators, however, were kept well on their toes while the struggle was waged fast and furious. The Tipp. defence was not to be beaten and when the Tipp. forwards took play to the other end, McDonald scored a lovely point. The Decies men were far from being daunted and they returned to the attack for a grand final set-to in which Ryan added a point. Time, however, was running out and there was no further score before the long whistle was sounded.

The teams were: Tipperary - J. Williams (goal); J. Hickey, T. McDonald (captain); R. Power, T. Kenny, T. O'Keefe, T. Power, W. O'Donoghue, P. O'Donoghue, B. Kissane, H. McGrath, R. Lonergan, J. Lonergan, P. O'Brien, R. Allen.

Waterford - J. Hayes (capt.); (goal); C. Moylan, W. Barron, J. Ryan, P. Russell, D. Goode, E. Casey, E. Moore, J. Lonergan, T. Greaney, J. Feeney, P. Gough, N. Connors, J. Power, R. Salter.

Mr. Dan Ryan (Tralee) refereed both matches.

THE LIFE-BEAT SERVICE IN 1937

524 Lives Saved

The annual report of the Royal National Life-boat Institution for 1937, just published, shows that the Institution gave rewards for the rescue of 524 lives from shipwreck round the coasts of Great Britain and Ireland, the largest number rescued for nine years. In addition lifeboats saved from destruction or helped in various ways nearly 200 boats and vessels.

Twenty vessels, belonging to eight different countries, were helped, and 107 lives were rescued from them.

Nine medals were awarded for special gallantry, and in rewards and other payments to the crews and launchers the Institution spent £52,490.

Eleven new motor life-boats were completed and sent to their stations, and sixteen more were being built at the end of the year. Altogether twenty-eight motor life-boats were being built during the year the largest number that there has ever been in any one year. The Institution now has 137 motor life-boats and 30 sailing and sailing life-boats, and the time is fast approaching when its fleet will be completely mechanised.

Largely owing to the heavy building programme there was a deficit of £27,333. Expenditure was £335,344 and revenue £308,011.

The record number of 779 flag days was held for the lifeboats, and the amount collected on these days was £43,474. The number of people who contributed was 5,267,000, so that the average contribution was just under 2d.

THESE GOODS ARE STILL DUTIABLE DESPITE THE TRADE PACT

Contrary to the common impression horticultural products are not exempt from import duties under the recent Trade Agreement. Notice has been given by the Revenue Commissioners that the following duties will apply on horticultural goods imported from Great Britain, Northern Ireland, the Channel Islands, and the Isle of Man.

Trees, shrubs and bushes (including stocks, but excluding rose bushes and rose stocks), 10s. per cwt.

Rose bushes, excluding rose stocks, 3d. per bush.

Cut flowers, flowers attached to bulbs, plants in flower and foliage, 6d. per lb.

Plants (including cuttings and slips) not in flower, and not chargeable as trees, shrubs, bushes or stocks 3d. per lb.

Roots (excluding bulbs and corms) of flowering plants (other than trees, shrubs and bushes) which have not both stem and foliage developed thereon, 3d. per lb.

It is understood that when imported from countries other than the United Kingdom the old rates of duty on these goods still apply.

MANX RATS LOSE TAILS - 2d. A TIME

The Isle of Man Government are to reduce the number of rats on the island by granting a reward of twopenny for each rat's tail produced to an authorised person in each town and village.

Commenting on this, Districter R. D. Farrant, senior judge of the Manx High Court, said: "I hope this is not going to result in a lot of tailless rats running about the island. We have tailless cats, but tailless rats... will only be paid on the production of a rat's tail as evidence that the rat has been killed."

Any one who breeds rats or imports them so as to obtain the Government reward by false pretences will be liable to a fine of £100 or jail.

JEWES ARE REFUSED TAX CUTS

The new Reich income tax law for the first time embraces the racial differentiation. In future there will be no tax reductions granted for children of Jewish parents. Nor will reductions be granted students attending the high schools.

Results of Money Back... PORKATINE Pig Powders

INCH NOTES

A Quiet Sunday

Last Sunday was one of the quietest Sundays we have had in Inch for a very long time, even the Fianna Fail election meeting held immediately after Mass did not cause any excitement. The speakers were listened to in respectful silence, and when the meeting was over they all quietly dispersed. What a contrast to the feverish activity at election times in other days. No doubt the change is all to the good. And it does not denote lack of interest either, but is an indication of a broadminded and independent spirit, that is commendable and which in the not far distant past was entirely lacking. This has certainly been a most orderly and decently-conducted campaign. A campaign in which vulgar personal abuse and vituperation found no place. It is to be hoped that all parties will now settle down and in harmony for the country's honour and welfare. On all sides there are distinguished able and brilliant men. The leaders have had the distinction of being sentenced to death by the enemy for their fealty and devotion in her hour of need to their motherland. Their blood is as Irish today as it was then in the stirring days of the invader.

Youghal Sports and Killageh

It was rather unfortunate that the Youghal Novice Sports and the Killageh Tournament final should both be held on Sunday last. The hurling match was of greater attraction, or in normal circumstances it would be, but on this occasion the conditions were not normal for many of the local people—members of the hurling club—were competing at, and concerned with the sports. Keniry, Murphy, and Joyce took part in different events, and for novices they acquitted themselves very creditably indeed. Were it not for the enforced inactivity of Michael Collins, due to an accident at the hurling field the previous week, they would in all probability have won the relay race. Even as things were they made a very good fight, and if they pay some attention to training they will be heard of again before the season is at an end. It is quite possible that we may have a novice meeting here at the very near future. The local G.A.A. grounds are most suitable and the district a good one for an event of this kind. I know the matter is under consideration at the moment, and I hope it will bear good fruit. There were many good meetings here in the past, and the members of the hurling club would be in a position to take charge of the arrangements, and give proper attention to every detail, there is no reason why Inch should not have a first-class Novice Meeting. True the project would entail a good deal of trouble, but there are men here who never balked at the difficulties, and where there's a will there's a way. So I see no reason why we should not have the sports, and good ones too.

EAST CORK JOTTINGS

Kilkeogh Tournament Final

Cloyne v. Ballymacoda. Despite counter attractions such as the inter-county match between Cork and Tipperary at Cork and the sports meeting near at hand in Youghal, there was a good attendance in the Killageh Club grounds on Sunday to witness the final of the "May Sunday" tournament between Cloyne and Ballymacoda. Although the weather was threatening from the day held up well, and though most people had taken the precaution of bringing along an overcoat in anticipation of a wet evening the conditions were favourable, and a very enjoyable game resulted from the day held up of those well-known and popular teams. Cloyne had the better of matters throughout, and had a good deal in hand at the finish. The score would indicate a one-sided game, but while it was evident from the beginning of the game that Cloyne were the better team, their sturdy opponents made them play their best during the hour, and even when playing against the wind in the second half-hour there were periods when they played with all their old time dash and vigour, and seemed quite capable of staging a last minute come-back, and pulling off a spectacular victory. It was not to be, however, the superior training and all round better field craft and faster first-time striking of the Cloyne representatives was too great a handicap to be overcome, and Ballymacoda defeated though not disgraced had to bow to the inevitable and acknowledge themselves beaten by a better team. At the conclusion of the match Very Rev. P. O'C. Sheahan, P.P. presented the medals to the victors and complimented both teams on their conduct and demeanour on the field. The Cloyne Capt. suitably replied and asked for cheers for Ballymacoda, which were very heartily given.

SAINTS' RELICS TO TRAVEL IN GLASS COFFIN

A special train has been sent to Rome to bring back to Poland in a coffin made of silver and glass the relics of Saint Andrew Bobola, recently canonised by the Pope.

During the journey Mass will be said in the chapel wagon in which the relics will travel.

There will be a reception in Cracow, where the body will remain two days. The relics are expected to reach Warsaw on Friday. From the station the coffin will be transferred to the Cathedral of St. John.

EARTHQUAKE SHOCKS IN LONDON

TREMORS CAUSE ALARM

WALLS CRACKED, CHIMNEYS DAMAGED

Earth tremors of an unusually severe character for the territory affected were experienced in London and in French and Belgian cities at noon, on Saturday. Seismic instruments in London recorded a sudden and, for the British Isles, violent earth tremor. Office furniture was moved, clocks were stopped, and cars parked in the street were shifted from their positions.

Though the tremors continued for about five minutes, the most intense period lasted only for a minute or less. It was estimated that the centre of the disturbance was no more than 200 miles distant. The disturbance, especially in the vicinity of the English Channel, buildings are stated to have shook and swayed.

In Brussels the telephones were put out of order, and the shocks lasted for twenty minutes. The shocks were also felt in Paris and Amsterdam, and in Lille chimneys were damaged and walls cracked.

An earth tremor, lasting about 30 seconds, was felt in London about noon on Saturday last.

The B.C.C., were inundated with calls from listeners in various areas of the Metropolis. Officials at Broadcasting House had also felt the tremor which, however, did not interfere with the programme.

An official said: "I was sitting at my desk and suddenly I felt my legs shaking, and I thought I was ill. I looked down and my legs were jittery; and then I saw a chair move. A listener who came on almost immediately afterwards said that she had experienced the tremor and that a dressing gown on a clothes hanger had moved to and fro."

Mr. J. J. Shaw, the West Bromwich seismologist, recorded the tremor on his instrument at one minute to twelve. He expressed the opinion that the centre of the disturbance was about 200 miles away and described it as "a good big shock for the British Isles."

A seismograph in a West End store recorded the tremor at 11.59, lasting about half a minute. The needle made quite a considerable mark on the machine. The people in the store also felt the tremor.

Kew Observatory reported a "sudden and big earth tremor," which lasted for about five minutes, the period of greatest intensity extending over about one minute.

Tremors, lasting about seven seconds, were particularly acute in Woolwich. In some offices desks shook and pictures swung. The tremors were especially noticeable on high ground. Their effect was also felt at Woolwich Barracks. Cars parked outside appeared to rock and were carried near the pavement.

Several clocks in the premises of the Wakefield Oil Co., in Cheapside, stopped exactly at noon. In one case a pendulum fell off. The tremor was felt mostly on the top floor. Cupboards and furniture wobbled.

The tremor shook buildings at Ramsgate, Kent. Windows rattled and furniture wobbled slightly.

At Sidcup (Kent) lamps and other accessories fell from shelves at a cycle shop.

DEATH OF REMARKABLE IRISH-AMERICAN

The following is taken from a recent issue of "The Chicago Daily News": "Richard Egan, War Ace Dies."

Richard Egan, Assistant States Attorney, died of pneumonia in St. Anne's Hospital. So passed another of the dwindling roster of war aces and one of the most colourful figures on the prosecution's staff, on his 43rd birthday. R. Egan—whose bullet-scared body was as brave and well conditioned as that of a heavy-weight prize fighter, was not only one of the best showmen, but one of the shrewdest investigators in the Criminal Court. He had gifts which won many a case before it ever came to trial. His fame before he entered the State Attorney's Office derived from his war record as a Canadian aviator. But he was born in Chicago, educated in Chicago, and spent most of his life here. He had just been graduated from Loyola University School of Law and passed his bar exams when he enlisted with the Canadians.

The United States had not yet entered the war. He went away, passed through an incredible period of training and remained alive merely because he had been born with a knack for the job. So the young lawyer who might have made a name and fortune in the prize-ring at a time when he was easily as good as most at the competition, went to France and rode with the dawn patrol. For months he learned the art of battle from one who had worked out most of the rules and strategy, all by himself, the famous Major Bishop. For a year and a half, he went out to the daily dog fights. He brought down a German plane and his squadron began to talk about his skill. He sent 5 others into flaming crashes and his name became a topic of conversation at German aviation messes. One day he emerged from a fog and stung the tail of Von Richthoven's circus. Filled with machine gun bullets, he coasted to a crack up behind his own lines. Every aviator on the West Front knew Egan when the war ended.

He was like most of the warriors who brought the medals back from France, essentially gentle and lady-like characteristics that promised to be of no use to him when he turned prosecutor. As it turned out to be, they were the basis of

Form 46. (Article 84.) NOTICE OF DEPOSIT OF POOR RATE BOOKS FOR INSPECTION

COUNTY OF WATERFORD (County Health District of Waterford.)

Notice is hereby given that the Council of the above-named County are about to make Poor Rates on the property rateable thereto in the County Health District.

The rate in the Pound for the ordinary expenditure of the County for the service of the year ending 31st day of March, 1939, is 11s. 5.752d. in the Pound, made up as follows:—

Table with 2 columns: Nature of Service, To be levied on Total Valuation of Holding. Includes ROADS, COUNTY SERVICES, POOR RELIEF, BOARD OF HEALTH CHARGES.

And whereas, the Separate Charges specified in Column II. of the table below are respectively chargeable on the Areas or Contributory Places specified thereon in Column I. of the said table hereunder mentioned; the Special Rate in the Pound in Column III. of the said table has been made on the appropriate area or contributory place for the payment of every such Separate Charge, and the same forms part of and will be collected with the above General Poor Rate in such area or contributory place:—

COLLECTION DISTRICT OF CARRICK-ON-SUIR No. 2.

Table with 4 columns: No., Name of Special Area or Contributory Place, Purpose or Name of Charge, Rate in the Pound. Includes Carrick-on-Suir Collection District, Malicious Injuries.

COLLECTION DISTRICT OF CLONMEL No. 2.

Table with 4 columns: No., Name of Special Area or Contributory Place, Purpose or Name of Charge, Rate in the Pound. Includes Clonmel No. 2 Collection District, Malicious Injuries.

COLLECTION DISTRICT OF DUNGARVAN.

Table with 4 columns: No., Name of Special Area or Contributory Place, Purpose or Name of Charge, Rate in the Pound. Includes Dungarvan Collection District, Malicious Injuries.

COLLECTION DISTRICT OF KILMATHOMAS.

Table with 4 columns: No., Name of Special Area or Contributory Place, Purpose or Name of Charge, Rate in the Pound. Includes Kilmathomas Collection District, Malicious Injuries.

COLLECTION DISTRICT OF LISMORE.

Table with 4 columns: No., Name of Special Area or Contributory Place, Purpose or Name of Charge, Rate in the Pound. Includes Cappoquin Dispensary District, Lismore Dispensary District, Tallow Dispensary District.

COLLECTION DISTRICT OF WATERFORD No. 1.

Table with 4 columns: No., Name of Special Area or Contributory Place, Purpose or Name of Charge, Rate in the Pound. Includes Waterford Collection District, Ballymacarna, Crobally Lower, including Inlake, Crobally Upper, Tramore Burrow, Inlake, Tramore East and West, and Townland of Newtown in Islandikane East Division.

COLLECTION DISTRICT OF WATERFORD No. 2.

Table with 4 columns: No., Name of Special Area or Contributory Place, Purpose or Name of Charge, Rate in the Pound. Includes Ballymacarna, Crobally Upper, Tramore East and West, Townlands of Dunmore and Nymphall, Do. Do., Carricksaggart, Crooke, Knock-Parson, Knockree, Newtown, Parkwood Upper, Parkwood Lower, Passage East and West.

The total sum payable in respect of Poor Rate by the occupier of agricultural land, the rateable valuation of which does not exceed £20 will be reduced by a sum equal to 74.6 pence in the £ on said land. A similar allowance will be made on the first £20 of agricultural land exceeding £20 valuation.

On the 20th of the valuation of agricultural land above £20 a reduction will be given at the Primary Allowance Rate of 74.6 pence in the £ on an amount not exceeding £12 10s. 0d. valuation in respect of employment of each male person (17 to 70 years of age) in the period 1st January to 31st December, 1937, where claims have been lodged on or before 31st March, 1938, and admitted.

The balance of the sum allocated to the County for the purpose will be to reduce the rates by a sum equal to 40.17 pence in the £ on the part of the valuation above £20 that does not otherwise get relief.

The Rate Books are deposited for the inspection of any Ratepayer in the Offices of the County Council, and will be there open for such inspection between the hours of 10 a.m. and 4 p.m. (Saturdays 10 a.m. to 1 p.m.) during the fourteen days next ensuing the date hereof, exclusive of Sundays and Bank Holidays.

Signed this 17th day of June, 1938.

J. H. O'SULLIVAN, Secretary to the Council.

his success. His modesty of sympathy made friends even of the rat-faced men whom he tried so earnestly and effectively to put out of circulation. Nobody in the Criminal Court Building could understand that phenomenon and perhaps, nobody ever will. The deceased was nephew of Mr. Wm. Harris, the Hotel, Ardmore, Youghal, and cousin of Rev. Fr. Harris, S.J., Hongkong.

WATERFORD CO. BOARD PUBLIC HEALTH.

Commissioner Moynihan, as Secretary's Office, Co. Home, van, on Wednesday 8th to transact business of the above Board.

Financial Statement The financial statement for the year ending 31st day of March, 1938, was submitted to the Secretary at the above Board.

Knowledge of Irish A letter from the Department Local Officers and Employment (tacht) Order 1938, stated that those terms of office terminated February, would be allowed to in office until 31st July, but not date unless in the meantime the knowledge of Irish must article 3 of the order.

Free Milk Supply Scheme The Department sanctioned the issue of tenders for the supply under the above scheme at price ceiling 1/- per gallon during the period ending 30/9/38, and not exceed per gallon during the period 31/3/39.

Temporary Clerical Assistants The Department sanctioned the proposed employment of Miss M. E. temporary Clerk in the Offices Board during the annual vacatio of the permanent staff.

The Nation's Physique A resolution was read from the National Athletic and Cycling Association of Ireland, viz.: "That we as Government of Ireland, in passing the Act, whereby a certain proportion of funds accruing from future Harbours Sweeps, be earmarked for, where necessary those and bodies whose aims are the development of the physique of the nation."

Vaccination Defaulters A letter from the Department the number of vaccination defaulters each dispensary district in the County. An order was made that Officers be instructed to prosecute cases of persistent defaulters.

Water Rent Arising out of a report from the Water Rent Collector, that refusing consumers in the Ring refused to pay amounts due in the half-year ending March 31st, 1937, as they consider it unfair to pay for the interest which had no water.

John Hartly (15); Ellen C. 11s.; P. W. Linnane (17); old; Linnane (17) 12s. 0d. An order was made—To be sent to the Water Supplies.

Reports from the Medical Officers and pumps in the following were read, and referred to the Board for reports:—Curraduff, Mothrick-on-Suir, Kilmagragh, Kilmagragh, Hacketstown, and Ballinacorney, Ballyradock, Kilmadonagh, Mr. Ormonde, B.E.E., reporting well at Farnane, stated the cost of erecting the well with concrete would be about £8.

It was referred to the Engineer's done.

Whitechurch Supply Mr. Bowen, B.E., County Engineer, wrote re the water supply at Whitechurch, reporting as follows:—

With reference to the Board's order to sink a well and provide a public water supply near Ballinacorney (Whitechurch) school, I am very strong spring of good water at Knocknagagh Upper, on the Mr. Hickey. This spring is at elevation to supply the school, and in the vicinity. It would also supply the Curate's residence, but only at floor level. I recommend that the well be enclosed and the water pipe point, using old piping now on the County Home, and that two fountains be provided at suitable points. A few farms and private houses in the vicinity may be willing to take in water and pay a small rent for the school authorities also may pay a rent or a contribution towards the cost. In this way the scheme will be very little to the Board, and more efficient and satisfactory pump.

The cost I estimate at about £15 should be added. The main costs would be negligible for a well. For lowest costs, I recommend that the work by direct labour of the land is agreeable to water rights and way leaves for in exchange for a service connection, and to a cattle tank for I would recommend this arrangement.

The matter was adjourned to reply from the Department of Public Health, as to their contribution.

Mr. Bowen also wrote re the extension of Ballydoon supply to Lackanure, reporting as follows:—With reference to the Board's order to extend the Ballydoon water supply to Lackanure, I am very strong spring of good water at Knocknagagh Upper, on the Mr. Hickey. This spring is at elevation to supply the school, and in the vicinity. It would also supply the Curate's residence, but only at floor level. I recommend that the well be enclosed and the water pipe point, using old piping now on the County Home, and that two fountains be provided at suitable points. Second-hand Cars.

Many people do not actually price Second-hand Cars without seeing or testing them—in all cases giving wrong prices for them.

Sometimes a "buyer" will express considerable surprise at the thorough examination and test I give his car before quoting on it; but some day he will think better of me, and incidentally make a mental note that a USED CAR bought from me will be a good specimen.

Reconditioned and Guaranteed Cars are overhauled in perfect order.

Call in and see the high-pressure greasing. All jobs have their prices plainly marked, and all Ford Repairs charged at the Standard Ford Prices.

MAKE QUALITY YOUR STANDARD AND YOU WILL CHOOSE A RALEIGH

THE ALL-STEEL BICYCLE

Last year more Raleighs were sold than ever before—proof enough that the Raleigh policy of building only quality bicycles is abundantly justified. Remember that when you buy a Raleigh you get a machine controlled throughout by the manufacturer and not just an assemblage of standard parts. Raleigh Individual Production gives you a bicycle built to your individual needs, scientifically designed for easy-running and interpreted only in the finest materials. And the lustrous

enamel finish, thick chromium plating and rust-proof spokes give your Raleigh an appearance worthy of its high quality and make it a bicycle you will be proud to own.

KIELY—June 19th at Lisfenell van, Co. Waterford, Kathleen, daughter of the late Beveridge Esq. Funeral strictly private.

IN MEMORIAM

WALSHE—In devoted memory of mother, Mrs. Elsie Walshe, (nee) Barranahughane, Water, who died at Church of St. Garvan, on June 14th, 1938, and St. Anthony pray for her. Cherished thought of one so long times bring a silent tear. Thoughts return to scenes. Time rolls on, but memory—(Lena and Daisy, New York)

LOCAL HAPPENINGS

CORPUS CHRISTI PROCESSION
The Annual Corpus Christi will be held in Dungarvan on Friday, June 19th, and granted a licence of the present good will should be a most imposing public worship. The decorative houses and streets en route will be profuse.

Our priests, assisted by an committee, have all arrangements complete.

All school children will take their respective schools and in Fair Lane, Children of Mary assemble in Emmet Street; Women's Fraternity in St. Mary's Street; Club and Men's Confraternity Church yard.

All processions must be places at 2.30 p.m. sharp, so procession can start at 3 o'clock precisely.

ORDER OF PROCESSION

The order of the procession follows:—
Children of Presentation; Children of Mercy Convent; Brothers Boys; Children of Mary cloaks and veils; Mercy House girls; Women's Sacred Confraternity; Brass and Reed Men's Confraternity (Dungarvan Abbeyside); Members of Urban Crossbearer; Altar Boys; Canon Canopy.

The route of the procession was same as in previous years that Mitchell street, Fair Lane, O Street, Main street, Church Street, Dead Walk.

There will be Solemn Benediction of the Most Blessed Sacrament Square, and at the Church Gate beautiful altars are being erected.

LATE REV. DR. HACKETT—
In the presence of a crowded congregation, the Rev. Dr. Hackett, Rector of High Mass for the late Most Rev. Hackett, Bishop of Waterford Lismore, were offered up in the rite, on Wednesday morning, Mr. Dr. Kinane, Bishop of the Diocese. His Lordship was assisted by Archbishop Kelly, Rev. J. P. Ballybricken, Very Rev. E. Prendergast, P.P., Carrick-on-Suir, Rev. N. Canon Walsh, P.P., Very Rev. P. Canon Power, John and Very Rev. Fr. O'Shea, P.P. present. The celebrant with the Rev. J. O'Connor, Rector, M. P. deacon, Rev. M. Barron, Bishop's tary; sub-deacon, Rev. P. Power, Little Sisters of the Poor, and of ceremonies, Rev. D. Power, John's. In the choir were—Rev. J. Han, C.C., Cathedral; Rev. Fr. C.C., do.; Rev. P. Ahearne, O. John's; Rev. R. Power, C.C., do.; T. Ahearne, C.C., do.; Rev. J. C.C., Ballybricken; Rev. Fr. P. C.C., Ballybricken; Rev. P. P. C.C., Ballybricken; Rev. P. Lane, do.; M. Farrell, C.C., St. Patrick's.

LISMORE ESTATE LEFT TO LORD CANNIBISH

It is revealed that the late Devonshire left all his Irish property to his second son, Lord Charles Cavendish, who lives at Lismore Castle. Charles Cavendish was world famous for her marriage in 1932 as Miss Astaire, dancing partner of her Fred Astaire, the famous stage dancer. Since her marriage Miss Astaire has given up the stage and is mostly at her beautiful Irish home, Lismore.

Lord Charles's elder brother, Lord Hartington, who has patronage and representation of his English property, succeeds to the three or four richest dukedoms in England. The Dukedoms of Bedford and Devonshire vie with other for the second place, the first taken by the Dukedom of West. The Cavendishes were easily the landlords in Ireland at one time, their rent roll alone amounted to a year. Today that huge income sent by about £3,000 a year from the Land Annuity Funds.

DUNGARVAN DOGS TO THE FORE

At Shelbourne Park on Monday last, Mr. T. F. Lynch's Lucky Combination (Ropewalk Carious Braz) won the St. Leger Stakes 550 yards, at the odds of 31.22. Betting 5/4 on.

At the same meeting Mr. R. P. f.r.d. Barrough (White Sandhill sons Gift) won a 525 yards race 31.22. Betting 5/4 on.

At Clonmel Track on the same Mr. A. Murphy's dog Lay Down won a 525 yards race. Time 31.22. Betting 3/1 against.

WHIST DRIVE

The open air Whist Drive will be played in the Parochial Lawn on next Sunday, is postponed week June 26th, when commencing at 2.30 p.m. (old time)

G. A. A.

Long Jump—J. Hartnett (19ft 4 ins) 1; C. Finn, St. Finbar's, (19ft 2 ins) 2. 10 completed.

PIGS BOUGHT FOR FEEDING

NEED FOR KEEN JUDGMENT

In buying pigs for feeding, it need hardly be said that the younger the animal the greater the skill required in assessing its subsequent progress.

The other extreme is, of course, weaners which demand keen judgment. In their case the potential buyer has to decide from their present condition not only how they will probably withstand transit and different circumstances, but also, in conjunction, recovery from separation from the sow, and just how they will meet that vital period extending from the eighth to the twelfth or fourteenth week, the most likely time for a pig to prove a water or contract complaint to which swine are very liable today—pneumonia, internal parasites, chills, etc.

As has already been indicated, private purchase does much to eliminate the gamble involved, but gamble it always must be, a fact that should ever be in buyers' minds to prevent them from succumbing to that extra shilling which eventually may turn out very costly.

An Important Point In passing the writer would like to take advantage of this opportunity for stressing what is truly a vital point in connection with the purchase of strong stores. Given that a bunch is in reasonable condition the final and agreed figure should be if any, on the low side, for it must be remembered that the pigs are being taken over at an age when they are about to enter an expensive period, or rather to a more than temporary rise in fat prices, or when for some obscure reason the stores initially are cheap.

A Source of Disappointment Too much emphasis cannot be laid upon the danger of an excessively attractive external appearance, more particularly of pigs from eight to fourteen weeks old. Stores of that age which have nice pink pliable and clear skins, with silky hairs and a general air of softness that will eventually do, should be viewed with suspicion. More often than not such animals cause intense disappointment, for soon after they have arrived at the buyer's premises they will begin to fret, eat very little, and rapidly lose that "attractive" appearance to a scurly skin and bone state requiring untold weeks in which to recover. Very frequently such pigs have been brought on with liberal allowances of that ideal feed, separated milk, and as

the result of its cessation and change of surroundings (possibly being more sparatan-like than before the deal) they proceed to go back and back, incurring the new owner in considerable loss, directly through death or indirectly through lack of economic progress—F.F. in "Farmers' Gazette."

SEPARATED MILK FOR PIGS

EXTENT TO WHICH IT MAY BE FED

When creamery societies and dairy farmers have gone in for pig-fattening on a large scale the ration commonly used is an uncooked meal mixture fed along with liberal quantities of separated milk. As some doubt has been expressed as to the economy of the practice and its effect on the quality of the pig carcass a trial was carried out at each of the Department's School Farms in 1934, and again in 1935, to ascertain the effect of feeding comparatively large quantities of separated milk to fattening pigs.

Group I.—Pollard, 60 parts by weight; maize mixture, 40 parts by weight; common salt, 1 part by weight; separated milk, 2 pints per head daily; water ad lib.

Group II.—Pollard, 60 parts by weight; maize mixture, 40 parts by weight; common salt, 1 part by weight; separated milk ad milk.

At one centre, Athenry, the milk allowance for Group II, was owing to shortage, restricted to 1 gallon per head daily.

The meals were damped by cold water beforehand, and the mixture was fed cold. After the meals were cleaned up the water and separated milk were poured into the troughs for the respective groups, and, except in Group II, at Athenry, as much liquid was given as the animals could drink. It was found that on the average over 2 gallons of separated milk per head daily were consumed over the trial period, and over 3 gallons per head were used at one centre.

The pigs in Group II, made normal progress in every case, and showed no signs of digestive trouble at any time. They made on the average, a slightly better daily gain in weight than those in Group I, but the consumption of meal-equivalent per lb. live weight increase was higher on the whole for Group II. The animals in Group II, looked quite flabby, but they handled well, and the curers' reports, where obtained, showed that the carcasses were very suitable for bacon. The results show, therefore, that when separated milk is available in large quantities there need be no hesitation in feeding it to fattening pigs up to two or three gallons per head daily. Full particulars are given in the "Journal" of the Department of Agriculture.

MASTER BAKERS MEET

At a meeting of the Irish Guild of Master Bakers in Portlaoighise, Mr. M. J. O'Connor, Secretary, read correspondence from the Ministry of Industry and Commerce regarding the constitution of the Master Bakers' Advisory Committee suggested by the Guild as a method of co-operating with the Ministry in matters affecting the baking industry.

It was unanimously decided to adopt the Minister's proposal and members were appointed to act on the Committee.

The Secretary's report as to the progress of the Guild was considered satisfactory, and arrangements were made for the Annual General Meeting in Dublin during the first week in August.

A report from the Guild's legal adviser as to the position of bakers and confectioners under the New Shops Acts was dealt with and a number of queries disposed of.

Mr. V. Halligan, Dublin, President, presided and there was a representative attendance.

HOW TO KILL GREEN FLY

Green Fly, Caterpillars, Raspberry Beetle and other such pests give many hours of work and disappointment to gardeners. They can be eliminated easily and cheaply with "Parapet." A six-penny packet makes 2 1/2 gallons of spray. Try "Parapet" in your garden. You can use it with perfect safety on vegetables although it is a super-powerful insecticide. Procureable from Harpur Bros., Quay, Waterford.

YOUGHAL URBAN C

Present—Messrs. P. J. P.C., Chairman; E. D. Connolly, D. McCarthy, J. Power, T. Beausang, E. P. L. Farrell, Vice-Chairman, T. solr.

Correction Mr. Daly said that the previous meeting didn't refer regarding the proposed extension of the Youghal Hospital. The Chairman—it would difference between the architect possible for the extra ordinary Mr. Daly said he had "Irish Times" that the amount was £200,000 and that the already claims for £37,000 sixth of the total amount. Alterations in the plans were the project.

Mr. Power—The best thing to be to build an asylum and put lot of them into it (laughter)

Rate Estimate The Town Clerk submitted Estimate for the coming year being an increase of 6d. on 1937. As there was a decrease in Poor Rate, the net increase is 1s. 6d.

The Chairman said he did thing in the estimate they could less. Taking everything into consideration and comparing the estimate of other towns it was very. It might not be perfect, but reasonably good services, and for the relief of unemployed saddled with a local contribution of the year's rates. It had and it was hard to get me they might look forward to ment in the future. In the estimate the Town Clerk matters very carefully and grip on the public purse.

The Town Clerk said there strict limit to all expenditure provided for.

Mr. Farrell said in view of man's remarks they had no but to accept the estimate. He proposed its adoption.

Mr. Whelan, seconding, said reason to congratulate them incidentally to compliment on his preparation of the estimate could see that other towns had their rate considerably. Seeing gave social services as good as that the increase was only 4d he thought they were in a position.

The proposition was passed.

The Election Mr. Power said as they were of a General Election, he that they should call upon all first to support the movement with Creameries and C. Societies, secondly to demand

DUNGARVAN

YOUGHAL URBAN COUNCIL

Present—Messrs. P. J. O'Gorman, P.C., Chairman; E. D. Condon, J. Daly, R.E.; D. McCarthy, I. Whelan, R. Power, T. Beausang, E. P. Lynch, R. C. Farrell, Vice-Chairman, T. K. Keane, solicitor.

Correction

Mr. Daly said that the report of the previous meeting didn't give his remarks regarding the proposed extension of the Mental Hospital correctly. He stated that the Youghal Hospital was in the same category as the Cork Hospitals and that the building was held up by differences of opinion.

The Chairman—it would appear that difference between the architects is responsible for the extraordinary delay.

Mr. Daly said he had read in the "Irish Times" that the amount involved was £200,000 and that the architects had already claims for £37,000 fees—sixth of the total amount. The repeated alterations in the plans were holding up the project.

Mr. Power—The best thing to do would be to build an asylum and put the whole lot of them into it (laughter).

Rate Estimate

The Town Clerk submitted his Rate Estimate for the coming year 8/8 in the £, being an increase of 6d. on the previous year. As there was a decrease of 2d in the Poor Rate, the net increase is only 4d.

The Chairman said he didn't see anything in the estimate they could delete or lessen. Taking everything into consideration and comparing the estimate with that of other towns it was very satisfactory.

It might not be perfect, but they gave reasonably good services, and every grant for the relief of unemployment was saddled with a local contribution that came out of the year's rates. Things were bad and it was hard to get money in, but they might look forward to an improvement in the future.

In his preparation of the estimate the Town Clerk had handled matters very carefully and kept a good grip on the public purse.

The Town Clerk said there should be a strict limit to all expenditure outside that provided for.

Mr. Farrell said in view of the Chairman's remarks they had no alternative but to accept the estimate. He therefore proposed its adoption.

Mr. Whelan, seconding, said they had reason to congratulate themselves, and incidentally to compliment the Clerk on his preparation of the estimate. They could see that other towns had increased their rate considerably. Seeing that they gave social services as good as any and that the increase was only 4d. in the £ he thought they were in a happy position.

The proposition was passed unanimously.

The Election

Mr. Power said as they were on the eve of a General Election, he suggested that they should call upon all candidates first to support the movement in connection with Creameries and Co-Operative Societies, secondly to demand justice for

THE RIVER BLACKWATER

By P. J. O'Brien

Continued from last week

MOUNT MELLERAY

Mount Melleray is about three miles from Cappoquin. The road to it is extremely picturesque leading through a wild and rocky mountainous district. One green spot seems an oasis in this sterile desert, and this is varied by the white walls and tall spire of Melleray Abbey. The members of this community were driven from their establishment in France during the Revolution of 1832. Sir Richard Keane granted them some 500 acres of mountain land here at a nominal rent. In an incredibly short time the brethren assisted by the neighbouring peasantry converted this stony waste, where no foot save the sportsmen in pursuit of game ever trod before into fertile fields. The Abbey is a large plain quadrangular building, the sides of the square occupied by refectories, dormitories and a beautiful Church in the course of erection. The latter displays a beauty of design and finest of execution worthy of the most accomplished architect.

Perpetual silence is rigidly observed and while visiting the various portions of the establishment beholding the numerous monks in their strange attire, actively employed in various avocation, all silently pursuing the tenor of their way, leaves a curious sensation of novelty on the mind.

All rise at 2 o'clock every morning, summer and winter, and occupy themselves in devotional exercises, until eleven.

From Cappoquin to Lismore are about four miles. There are two charming roads on each side of the river. Nothing can be more magnificent than the drive along from Cappoquin to Lismore. Parks and ricks covered with the grandest foliage; rich, handsome seats of gentlemen, in the midst of fair lawns and beautiful bright plantations and shrubberies.

Lismore was once a Cathedral town. It was one of the holy cities of Ireland at the early dawn of Christianity on the land; the scene of the education of Alfred King of Northumberland and in Alfred times rendered yet more illustrious as the birthplace of the celebrated philosopher Robert Boyle, seventh son of Boyle first Earl of Cork, born 1626.

The foundation of the bishopric is ascribed to St. Carthage in the 6th century, who established a monastery or university here. The Cathedral was restored in the 17th century by the Earl of Cork for the protestant religion and has since had many additions, but presents nothing remarkable; the spire of white limestone is extremely graceful. At Lismore, Matthew Paris tells us, Henry, King of England, who had watched with no little jealousy the progress of Strongbow and his companions received in person the allegiance of the Irish princes and prelates, and promulgated English law for the first time in 1172. The chief attraction is the castle of Lismore, which occupies the site of the ancient University of Lismore.

Another Wood Substitute
The latest in wool substitutes, states the "Textile Mercury and Argus," is the soya bean. It is reported from Japan that 7,800,000 yen (approximately £785,000) factory has been erected for the purpose of manufacturing what is described as wool silk, a new substitute fibre, from casain extracted from Manchurian soya beans.

The Department of Posts and Telegraphs announces that arrangements are being made, as on the occasions of previous Elections, for Information Bureaux to be opened in the Dublin and Cork Telephone Exchanges for the purpose of supplying to the public information concerning the results of the Elections.

The results of each Election count will be passed to the Bureaux as soon as announced and will be available to persons ringing up—

DUBLIN 72951
or
CORK 46

The Bureaux will be opened on Saturday, 18th June, at 10 a.m., and will remain open day and night (including Sunday, 19th June) until after the final results have been announced.

It is reported from Japan that 7,800,000 yen (approximately £785,000) factory has been erected for the purpose of manufacturing what is described as wool silk, a new substitute fibre, from casain extracted from Manchurian soya beans.

The Department of Posts and Telegraphs announces that arrangements are being made, as on the occasions of previous Elections, for Information Bureaux to be opened in the Dublin and Cork Telephone Exchanges for the purpose of supplying to the public information concerning the results of the Elections.

The results of each Election count will be passed to the Bureaux as soon as announced and will be available to persons ringing up—

CORK 46

The Bureaux will be opened on Saturday, 18th June, at 10 a.m., and will remain open day and night (including Sunday, 19th June) until after the final results have been announced.

Another Wood Substitute
The latest in wool substitutes, states the "Textile Mercury and Argus," is the soya bean. It is reported from Japan that 7,800,000 yen (approximately £785,000) factory has been erected for the purpose of manufacturing what is described as wool silk, a new substitute fibre, from casain extracted from Manchurian soya beans.

was originally erected by King John when Earl of Desmond, in 1185 and for four centuries afterwards became the episcopal residence of the bishops of the diocese.

In 1589 Miller Magrath, Archbishop of Cashel and bishop of Lismore granted the castle and manor to Sir Walter Raleigh at a small nominal rent. Raleigh founded a free school here soon after, and assigned a portion of the estate for its support. Lismore passed from him, along with his other possessions to Boyle, Earl of Cork.

During the anvil wars of 1641, the defence of this important post devolved on the Earl's son, Lord Broghill, the nobleman who was responsible for the murder of Bishop McEgan, who was cruelly murdered in Carrigrohoid Castle near Macroom; Broghill maintained himself against five thousand Irish compelling them to raise the siege. At last it was taken and burned by Lord Castletown, a free school here soon after, and assigned a portion of the estate for its support.

KILMATHOMAS NEWS

The Rabbit Pest—Farmers in the Mid-Deise district are complaining this year again of the damage done to their crops by rabbits. Great numbers of the agriculturists are occasioned by the rabbits eating the tender shoots of young plants. Lettuce and similar crops have suffered extensively. In a few cabbage gardens little is left but the bare stump of the cabbage plants. Farmers have been seen to be cutting rabbits. Farmers are disappointed. The high price of rabbits last year (1s. 4d. per brace at one period) induced many to hunt them, and groups of hunters were observed roving the countryside daily. Farmers were not averse to allow them to hunt in their lands. The number of rabbits leaving the area weekly in exporters' lorries ran into many thousands. Notwithstanding this there seems to be little diminution in the number of rabbits in the region.

The Opera.—In the New Hall, Kilmathomas, on Sunday night last, constituted an irresistible attraction which was reflected in an attendance of more than 300 people, and the function proved an unqualified success from every standpoint. Brilliantly lighted and beautifully decorated, the commodious Commodore Hall looked a veritable fairy palace, and the gay gathering of ladies and gentlemen thoroughly enjoyed themselves dancing on the glass-smooth floor to the haunting strains of Mick Delahunty's Band (Columel)—a truly topping troupe of instrumentalists. The catering left absolutely nothing to be desired, and the staffs in charge of the cloakrooms, parking of vehicles, etc., all served splendidly. Patrons were just in their praise of the Hall, which is undoubtedly one of the finest Terpsichorean structures in the whole country today. The first of a series of weekly dances in the Hall (hours, 10 p.m. to 1 a.m.) will be brought off on tomorrow (Sunday) night, and another bumper assembly is expected.

Hymenial Chimes—At the Parish Church, Newtown, on Wednesday morning of this week, Miss Margaret Dooney, daughter of Mr. and Mrs. M. Dooney, Ballyroy, Kilmathomas, was united in the holy bonds of matrimony to Mr. James Downey, son of Mr. and Mrs. John Downey, Millbrook Terrace, do. The ceremony with Nuptial Mass, was performed by the Very Rev. T. Galvin, P.P., Newtown. The bride, who looked charming, was attended by her sister, Miss B. Dooney, as bridesmaid. Mr. Michael Downey, (brother of the bridegroom) acted as best man. The wedding breakfast was served at the home of the bridegroom, where upwards of fifty guests were entertained. The happy couple, who are well and popularly known in local sporting and social circles, were the recipients of numerous costly and serviceable wedding presents. We warmly wish them length of years in the fullest enjoyment of the graces and blessings of conjugal bliss.

The General Election.—Taking place today (Friday) must be voted the quietest on record. Here in Kilmathomas there are two polling booths—one at the Temperance Hall (where Mr. Sean Ormond, N.T., is Presiding Officer), and the other at the Courthouse (where George Kieley, is Presiding Officer). Mr. P. J. Little, T.D., was present at a specially convened meeting of the Mid-Deise Comhairle Dail Ceannair Fianna Fail, held in Kilmathomas on last Sunday evening. It generally felt locally that Mrs. Redmond and Mrs. Little, Morrissey and Wall will again be returned for Waterford constituency.

Portia's New Chemist.—Mr. Thomas Barrett is the new chemist in charge of the Portlaw establishment of Mr. W. Nola, M.P.S.I., Dungarvan.

Edifying Scenes in St. Anne's Church.—The beautiful devotion of Quaran Ore or Forty Hours' Adoration was commenced in St. Anne's Church, Ballylannan, on this (Friday) morning. The devotion was opened with Holy Mass, celebrated by the Rev. P. Walsh, C.C. After Mass a procession of the Blessed Sacrament took place within the precincts of the Church. The Procession was headed by Cross-bearer and acolytes, and included the local school children and members of the Sacred Heart Confraternity. The Exposition will continue until after the 11 o'clock Mass on Sunday, and there is a constant stream of worshippers to the Church, wherein the Altar is specially dressed for the sacred occasion, and a word of praise is due to those responsible for the admirable scheme of devotion. The choir, under Miss Mary Flynn, organist, gave an impressive rendering of appropriate hymns, and the spirit of devotion and fervour prevailing cannot fail to edify all who are participating.

We Have Been Favoured With.—A copy of the Prize List of the Dungarvan Agricultural Show—to be held in the Show Grounds, Dungarvan, on Thursday, July 7th next. There are twenty classes for cattle, including: (28) Best Pure-Bred Aberdeen Angus Bull, calved prior to 1st September, 1937; (27) Best Pure-Bred Aberdeen Angus Heifer, calved between 1st September, 1936 and 1st Sept., 1937; (29) Best Aberdeen Angus Bull or Heifer, calved after 1st Sept., 1937; (30) Best Pure-Bred Hereford Bull, calved prior to 1st Sept., 1937; (31) Best Pure-Bred Hereford Cow or Heifer, calved prior to 1st Sept., 1936; (32) Best Pure-Bred Hereford Heifer, calved between 1st September, 1936 and 1st Sept., 1937, and (33) Best Pure-Bred Hereford Bull or Heifer, calved after 1st September, 1937. A feature of the jumping programme is the Handy Hunters' Competition (class 2). In the Home Industries' Section there are numerous classes for poultry, fruit, flowers, vegetables, jams and jellies, home-made cakes and confectionery. We are confident that this year will be again well up to the mark.

fore in the Show's various exhibits. A copy of the Prize List can be had on application to the Secretary—Mr. John Lynch, with whom entries close finally on the 25th inst.

FALLOW NEWS

The Monthly Fair.—The weekly meeting of the Fairs Committee was held on Monday at the Temperance Hall, Very Rev. Fr. Kehoe, P.P., presided. Minutes, correspondence, etc., having been dealt with the Secretary informed the meeting that the next fair would go further into the month than the former ones, as the date would be the 30th inst., and he recommended that the usual advertising should be continued, and this recommendation was unanimously adopted and the Secretary was instructed to prepare advertisements and have them published as heretofore.

The Rev. Chairman addressing the meeting, stressed again the necessity of the Committee throwing all their energy into encouraging the farmers to support the project by continuing to send their stock to the local fair, as by joint co-operation, on the part of the farmers and traders, aided by the attendance of outside buyers, all concerned would share in the benefits of such co-operation. He would again appeal to the stock-raisers of the district to realise the importance of having their animals on show as early as possible and in this way facilitate the buyers who usually were in attendance at a very early hour in the morning.

Continuing he said that there seemed to be a lack of that enthusiasm which he had hoped to find amongst those who should be most interested, and he was at a loss to understand why this should be so, and he greatly resented the unfounded and groundless statements which were in circulation regarding the prospects of future fairs. Concluding the Very Rev. Chairman said that everyone interested and particularly the individual members of the committee should leave no stone unturned in their efforts, to secure the continued success of the fair. He was also glad to inform the meeting that Mr. J. B. O'Connell, who attended the fortnightly Pig Market, which was held on Tuesday, had consented to effect a change in the week of the fair, and henceforth, the Fair Pig Market would be held on the same day, viz.—last Thursday of every month, and this he hoped would be helpful to the farmers and all concerned. Mr. T. P. Reynolds, addressing the meeting supported all the Rev. Chairman had said and appealed for that wholehearted co-operation that he and others had hoped for at the outset of their endeavours, and which he regretted to find had not been entered into in the spirit and the letter by most of those concerned. Co-operation which he had in mind could be most constructive in other fields, but for the present it applied to making the fair the success it should be, then having achieved success in one sphere, they would be free to undertake the other projects that would have equally beneficial results.

The members of the Committee present were—Very Rev. Fr. Kehoe, P.P., president; Mr. P. Condon, Chairman; Mr. Keniry, Treasurer; Messrs. F. O'Connor, W. Herlihy, T. McCarthy, I. D. Keller, T. P. Reynolds (M. and L. Bank); P. McCarthy, R. Hannigan, J. O'Keefe, R. Condon, D. Slattery, Dr. J. O'Mahoney, T. Colbert, Secretary.

KILMATHOMAS DISTRICT COURT

Held on Wednesday, before Mr. F. J. McCabe, D.J. This was the lightest court on record locally, his Worship having to deal only with a number of undefended civil bills and a few Gardaí prosecutions of the usual kind (branches of the Lictis' and School Attendance Acts, in which fines ranging from 1/- to 2/6 and costs were imposed). Mr. F. Kiersey, solr., Kilmathomas, applied for and was granted a license on behalf of Mr. M. Hill, Kilmathomas, to hold a series of dances in the New Hall, Kilmathomas, during the coming months.

COCK-FIGHTING CASE

HEAVY FINES IMPOSED Samuel G. Mardon, Investigation Officer of the Dumb Friends League, was called a "spy" and "Judas Iscariot" in the case in which 21 men were on Monday charged at Hartthorpe (Westmoreland) with participation in a cock-fighting match. Hugh Broadbent was fined £20 on two summonses, and on each of two similar summonses six others were fined £5 each, two others £10 each, and eight others £4 each. William Hully, the farmer, was fined £10 for permitting his premises to be used for cock-fighting. Costs of £1 against each defendant were added, and time to pay was given. Other summonses were withdrawn, in which three men and a boy were concerned.

PAINTING HINT

It is easy, when painting, to avoid leaving brush-marks. On flat surfaces, especially the place where the next brushful of paint began often stands right out and spoils appearance. Avoid such marks this way: First, use a paint that is easy to work. Then brush across and then "up" the grain. ALWAYS FINISHING EACH BRUSHFUL BRUSHING UP THE WORK THAT YOU HAVE DONE. If you have found paint hard to work see Harpurs. Harpurs carry a full range of superior quality work-paints and an exhaustive variety of good brushes. Harpurs, Ross, Quay, Waterford.

A COLLEGE MAGAZINE OF DISTINCTION THE ROCKWELL ANNUAL

College Magazines often serve up a rather monotonous bill of fare, but the Editor of the Rockwell Annual 1938 is to be congratulated for the successful attempt he has made to cater for every variety of palate. This beautiful volume is more than usually interesting and stimulating and several new features have been introduced which add considerably to its attractiveness for both Past and Present Alumni. A College Annual is faced with the delicate task of being true to the best traditions of the past and of allowing for healthy expansion in the present. This sense of balance and elasticity is clearly apparent in Rockwell's present number. Outstanding personalities of the recent and more remote past are linked up with the activities of the present and Rockwell boys of today must feel that they are no isolated units in the educational world, but are part and parcel of a great tradition, and that on them rests the responsibility of upholding it. This is the impression made on us by a careful perusal of this issue, which we are pleased to be able to say leaves a concrete and vivid impression of cultural and educational responsibilities nobly achieved and sustained. With a sane sense of values first things are placed first and no essential element of school life is forgotten. The best proofs of this are to be found in the opening editorial of the present and Rockwell privileges in being the nursery of so many priestly vocations yearly, supplemented by the splendidly displayed photos of twenty-five past students ordained last year. The Annual presents the usual attractive format, but the illustrations and photographic studies scattered so freely through its pages mark a real advance in Annual building. We note especially some beautiful and original studies of the College grounds, evidently the work of an experienced artist. Topical "shots" of College life day by day are also abundant and show the student's expert eye through its pages mark a real advance in Annual building.
