MULCAHY'S Dungarvan

KILMACTHOMAS NEWS.

A Delightful Dance—Last Sunday night's grand Cinderella Dance in the New Hall, Kilmacthomas, was largely patronised, more than 500 being present from Waterford, Dungarvan, Carrick-on-Suir, Commel, Tramore, Porthole and other centres, as well as local patrons. A very enjoyable time was spent and the arrangements were perfect in every detail. The buffet supper left nothing to be desired, and the music supplied by Griffin's Accordion Band (Waterford) pleased everybody. That the fun-tions held in the New Hall are so largely attended speaks well for its popularity.
Sympathy—At a specially convened meeting of the Danhill Rifle and Drum Band, a vote of sympathy was passed to Messrs. Thomas and John Power, both esteemed members of the Band, in their recent bereavement, occasioned by the death of their father, Mr. William Power.
Mr. T. J. Hickey, L.S.I.—Carried out the annual inspection of cows and heifers, the property of members of the Mohel and Clonea-Power Cow-Testing Association.
Mr. Patrick Phelan, Carrowleigh, Rathgormack, was awarded 1st prize (£1) for the best cow shown, accepted for registration. Mr. Phelan was also awarded 2nd prize (10/-) in this class.
Mr. Edmond Kennedy, Rathgormack, was awarded 1st prize (£1) in the 2-year-old class.
Mr. Martin Coughlan, Ballyhest, Clonea-Power, was awarded 1st prize (£1) in the yearling class.
Mr. Kennedy's heifer is by the bull "Red Major," the property of Mr. Patrick Phelan, Carrowleigh.
Mr. Martin Coughlan's heifer was bred by himself out of the bull "Suir River." Prizes were also awarded to members of the Association resident in County Tipperary.
Kill Sports—The above Cycling and Athletic meeting, coming off to-morrow (Sunday) week in a field kindly lent by Col. P. O'Shea) represent what theatrical folk would call a strong variety bill. There will be running, jumping, weight-throwing, cycling and novelty events. One of the outstanding features of the capital card will be the 2-mile cycling championship of County Waterford. The splendid prizes on offer for the different tests will be on view at the venue. Mr. W. J. Nolan, M.P.S.I., Dungarvan, will act as handicapper and starter. Messrs. C. Horgan, J. Hayes and J. Cummins are the highly capable Joint Hon. Secretaries to the Committee in charge. Vide advt. in another column.

Gaelic Camerages

St. Anne's (Kilmacthomas) junior hurling team crossed ashen-blades with the boys of Lismore in a friendly test on Sunday evening last. On the Lismore Gael team pit-out pitch the struggle was staged. A harry-hundreded hosting enjoyed the encounter, which ended in favour of the home side by a margin of two points. The visiting players and their enthusiastic camp-followers thoroughly enjoyed every second of their stay there—where sterling sportsman John F. O'Donnell, is "still going strong," bless him!
The Frater Field, Dungarvan, will be Gaelic's grand Mecca on tomorrow (Sunday) Waterford versus Cork—Manchester Senior Hurling Championship, Penultimate, 1933. Which side will win? This is the all-important question. Licking Limerick at Thurles, Cork proved themselves very dangerous on sudden breaks away. They will rely mainly on craft. Waterford are the better natural hurlers. The Leaders will exploit every trick in their bag to "get there." If the game goes on uninterrupted, it will be in favour of the Waterfordian wielders. Again they are "together" as good as they were against Garryowen's gallant group in last year's classic championship Gaelic Cammel. The homesters have only to reproduce that form to win fairly comfortably. Assuredly, the clash is chockful of possibilities. It should provide a rousing tussle. With some degree of confidence the Metal Man tips the Desea duty-doers to come out on top. And Amertown Anne also predicts a Portlargo triumph! Let's hope our erstwhile fickle friend, the dime clerk, will be sporting a sunny smile facing tomorrow's multitude in the Old Borough!!
It is Expected—That the new Parochial House (Bungalow style) which is being built at Newtown will be completed within the next eight or ten weeks. The structure will cost something like £2,500, and to meet that amount the praiseworthy Parochial Committee are making every possible effort. At their meeting on Friday night of last week, it was unanimously decided to hold a collection at the Church in the parish, viz. Newtown, Kilmacthomas, Kill, and Knockmahon, on tomorrow (Sunday) week, when the parishioners will be expected to contribute at least double the amount of their Christmas donation. This plan was adopted with success by a neighbouring parish to defray a similar debt. The object is certainly a laudable one, and the parishioners concerned should respond as they did to their excellent Parochial Committee.

MAHON-SIDE SNIPS

A fully qualified Jubilee Nurse is now functioning for the recently formed Kilmacthomas and District Nursing Association.
At Stradbally this week-end are two prominent members of the Royal Ulster Geographical Society. They are touring the south in a motor-drawn caravan.
The clever Kilmacthomas hurdle and steeplechase jockey, T. F. Maher (son of Mr. J. J. Maher, licensed victuiner, Main Street) has returned from a pleasant holiday at his home town to W. Payne's training establishment at Burgh Heath, Surrey, England. Good luck to plucky pilot, T.F.!!
Hiking holidays are common enough, just as are motoring holidays and caravan holidays; but not so horse-back holidays. Here we have something new. Two young Bonmahon friends claim to be pioneers in this sphere. Actually they have no reason to make the claim for as yet their holiday has not taken place, only the plans being in order. But the plans certainly do seem to mean business. The pair propose to ride round the foot of the Comeraghs by easy stages. As regards horses they admit they are amateurs. Of course, so are the horses when it comes to this sort of thing. No doubt, though, they will get along all right, we understand, they are taking it fairly seriously, and are even carrying a spare—an extra horse-shoe each! For night travel the horses' tails will be fitted with tail lights. A very commendable precaution, we think. Anyway, here's hoping the holiday will be a success.
Confetti everywhere! Judging from this unmistakable symptom and the wedding groups in the papers June so far has been prolific in its nuptial returns. This should be a source of gratification to the whole wide community, and should once and for all dispose of the suggestion that men are getting too shy to "pop the question."
With most nations, a revised and savage, the prerogative of "popping the question" rests with the man, but amongst the Vizis, a powerful Afghan tribe, the maidens have the privilege of choosing their future lords. When a woman takes a fancy for a man she sends the village drummer to pin a handkerchief to his cap with the pin she has used to fasten her hair. The drummer performs this ceremony in public, naming the woman, and the chosen man must marry her provided he can pay the price which his father-in-law usually demands.

COUNTY WATERFORD LAND SETTLEMENT ASSOCIATION

At a general meeting of the above, held in the Town Hall, Dungarvan, on Sunday July 3rd, Dr. M. Casey, presiding. The following Branches were represented—Dungarvan, Garranbane, Modellig, Touraneena, Ballymacariskey, Nire, Colligan, Windgap, Clashmore, Kilmacmahon, Kiltossanty, Cooanahon.
General dissatisfaction was expressed by the delegates on the slow progress made by the Irish Land Commission on the division of land in the County, the Secretary having explained that 30,000 acres were available for division in the County.
The Secretary read correspondence from the Irish Land Commission relative to the position of various estates under protest of division, and progress made in negotiations for transfer of same to Irish Land Commission.
A general discussion by the members present on these estates took place and the Secretary's attention was called to several derelict estates not included on the list, with instructions that those derelict estates should be brought to the notice of the Minister.
The question regarding allotments of 5 acres to cottiers was discussed, and the meeting came to the conclusion that the giving of 5 acres to a cottier was creating an uneconomic holding, and where a cottier qualified for an allotment of land, an economic holding should be given to him. The Secretary was also instructed to bring this matter to the notice of the Minister.
The following resolution was passed—"Requesting greater co-operation between the Irish Land Commission officials and the organisation, particularly regarding the selection of candidates for allotments of land."
Co. Secretary's Office, Dungarvan, 28th June, 1933.

SHERIFF'S SALE FOR NON-PAYMENT OF ANNUITIES

STRANGER BUYS A HORSE
Less than five minutes were occupied in disposing of a working farm mare at the Waterford Pound, where it had been detained since last week-end. The animal which appeared to be in good condition and of a useful agricultural variety, was seized on a decree obtained by the Land Commission in respect of the alleged non-payment of annuities, and was brought away from the lands of Mr. Wm. P. O'Shea, Kilmacra, Mooncoin. The sale was conducted at 12 o'clock on Monday at the Waterford Pound by Mr. M. P. Kearney, County Registrar, County Kilkenny. Only one bid, for 15, was received from a stranger, whose name was not disclosed. The mare was knocked down at that figure, and the purchase was sold by the County Registrar to make his own arrangements thereafter. Outside those actually concerned with the sale, there was no one in attendance, and no incident of any kind occurred.

UNITY

'Tis not the time toicker now o'er things that might have been,
Nor heap disdain on any man that loves our Isle of Green.
Disunion 'mongst our Irish ranks has ever helped the foe,
His reign can only be upheld where strife and discord grow.
Too true, we have not yet achieved our total liberty,
The chains of slavery's yet unrent—some fetters still there be,
But worthy Gael will still uphold a cause so sacred—pure,
And thus by their undimmed faith the last triumph secure.
The soldier shows his wisdom when—lest erring prove the fates,
He halts his then untried task—his gain consolidates,
And Ireland's tasks unfinished yet, our patriotic pride,
Unsat is till all's acquired for which our heroes died.
The val'rous deeds of Easter Week gained a doubling world,
That Ireland's flag—then trampled down must once more be unfurled,
Let not the blood of Padraig Pearse be shed, and shed in vain,
Nor waste the lives of those heroes lives who died our rights to gain.
There's work to do within our Isle 161 comes that glorious day,
When those who would our cause deny, must yield or fight the fray,
Restored must be our Gaelic love to ancient heights of fame,
And unity is needed now to hasten freedom's day.
LYONACARRIGA, TALLOW. JOHN PARKER.

CARRICK-ON-SUIR HOSPITAL

MONEY ALLOCATED FOR IMPROVEMENTS
It was stated at Carrick-on-Suir Town Council on Monday that a sum of £6,000 has been allocated from the Hospital Sweep monies for the extension and alteration at the Carrick-on-Suir Hospital and for new dispensary buildings.
Mr. Ealing said these had been a misunderstanding about some matters he made at last meeting, when owing to the change of the Hospital, his remarks applied to the gloomy appearance of the building and surroundings and had nothing whatever to do with the Hospital staff. Everyone in Carrick knew of the excellent manner in which the Hospital staff members do their duty and the skill and kindness they show towards the patients.

CAPPOQUIN NOTES.

Excursion to Mount Mellary.

On Thursday, 23rd ultimo the members of the Junior Branch of the Legion of Mary, St. Anne's High School, Ursuline Convent, Waterford, enjoyed a delightful excursion to Mount Mellary Abbey, via Cappoquin. The party travelled in a large bus and halted in Cappoquin for a considerable time during which they visited St. Mary's Catholic Church and other places of interest in and around the environs of the town.

The girls looked very smart and neat in their cherry-coloured cloaks, and provided a gay and animated scene as they strolled around the streets in groups, while the bus waited for them at the upper end of the town.

The entire party was in charge of Mrs. Young, President of the Legion, Sister Hénebery, President of the Curia, and Sister Moloney.

In conversation with our correspondent Mrs. Young expressed the great pleasure which they all felt in visiting Mount Mellary, as very few of the girls had previously seen the famous Monastery, and when the time came for departure from Cappoquin all the girls quickly resumed their places in the bus and started in four miles through the grandest mountain scenery in the County Waterford.

Arrangements having been made in advance in Mount Mellary, all the guests were most hospitably entertained on arrival there, after which they visited the magnificent New Church and spent a most interesting time, until the hour of departure for Waterford arrived, when they bade adieu to this hallowed spot and cast a last lingering look at the lofty Knockmealdown Mountains towering in the background as they started on their way back to the "Urbs Intacta" after a most enjoyable and invigorating day's outing.

Local Sporting Successes.—At the Kilworth (Co. Cork) Sports held recently, a well-known young athlete, John Barry, Tourin, Cappoquin, won the 440 yards from a big "field," and got second place in the 100 yards, while at the Youghal Sports a few Sundays ago he secured second place in the 300 yards, for which 13 competed. This is not a bad start for this promising young runner.

At the Kilworth Sports another brilliant young sportsman from West Waterford, Jim Foley, Lismore, won the one mile cycle event, and was placed second in the 2 miles cycle event, while at the Youghal Sports on Sunday, June 12th, he had the honor of the Mile Cycle race with J. O'Shea, St. Finbar's, Cork, but won on the toss of a coin. In the 2 miles cycle race, Foley and O'Shea were giving promise of providing another thrilling finish when both fell, but the honours were still retained in West Waterford when the event was cleverly won by C. O'Connor, Glendine.

This young cyclist is son of Mr. John Foley and Mrs. Foley, Main Street, Lismore, and with greater experience, he should prove a worthy successor to Charlie Guest, who had so consistently upheld the honour of Lismore for many years.

Victory Celebrations.—In order to celebrate Fianna Fail's recent victory in the General Election some of that Party's prominent supporters in Cappoquin staged a Victory Celebration in the town on Saturday night week. A tall pole from the top of which a large Tricolour fluttered, had been erected on The Square, while smaller flags were displayed from a few windows in the Main Street.

Gerald Kenny, briefly spoke on the same lines.

Another Cricket Club Victory.—The local Cricket Team travelled to Waterford on last Saturday week where they met the Cricketers of Newtown School in a most interesting match.

The scoring was unusually high for a match of this kind, and after one innings each, Cappoquin proved deserving winners by 23 runs, the final score being Cappoquin 124 runs, Newtown, 101.

Several other interesting fixtures have been booked in the near future, and if the Cappoquin players can only reproduce the form which they have displayed in all their previous matches, they should have no reason to fear he results.

Great Progress at Mount Mellary.—Wonderful progress is being made with the building of the New St. Philomena's Church and Shrine at Mount Mellary, so much so, in fact, that the important work of roofing the new building will be started in the course of the next few weeks.

The erection of this New Church, in addition to the splendid Community Church which has now been externally completed, has entailed an enormous strain on the financial resources of the Cistercian Community, and while much has been done by the faithful Catholics of Ireland and all over the world in helping the Community to meet this heavy outlay, much more remains to be done, and further substantial financial assistance will be required before the two buildings are completed and furnished in a manner to make them fully worthy of doing honour to Christ the King and St. Philomena.

With this end in view, a Monstet Drawing of Prizes will be held in aid of the New Church Building Fund at Mount Mellary on Sunday, September 25th when the following valuable prizes will be offered:—(1st) Fox (and) Silver Tea Set; (2nd) Splendid Coloured Engraving of The Crucifixion; (4th) Case of Cutlery; (5th) Chromium Coal Scuttle; (6th) Silver Fruit Stand; (7th) Books, value £3 3s. 0d.; (8th) Tiled Hearth and Kerb; (9th) Ladies or Gents Bicycle; (10th) Splendid Clock; (11th) Beautiful Down Quilt; (12th) Side of Cappoquin Bacon.

Tickets for this wonderful Draw are only 6d each, and sellers of books of tickets will participate in a special Free Drawing on the same date, for which the first prize will be £5 and a week's free stay at Mount Mellary, so we trust that all those who wish to help in this noble and Godly work will now secure books of tickets from Mr. M. J. Sargent, Hon. Sec., Mellary Church Building Fund, Cappoquin, and thus give themselves ample time to have the tickets sold before September and share in the Grand Free Drawing for sellers on the 25th of that month.

It is also hoped to hold a Big Sale of a valuable collection of other goods a few days before the date for the Monstet Draw, and full particulars of this event, as well as further details of the Drawing of Prizes will appear in our advt. columns in due course, or can be obtained in the meantime from Mr. M. J. Sargent Cappoquin.

Pilgrimage to Knock Shrine.—In connection with the special Pilgrimage from Cork and Waterford to the Shrine of Our Blessed Lady at Knock, Co. Mayo, on last Saturday, and the all-night vigil before the Sacred Shrine on that night, we are proud to say that Cappoquin was well represented on the Solemn occasion, as the following local ladies travelled to Waterford on Saturday and joined the Waterford contingent there:—Mrs. E. Colander, Miss Alice Frasier, Miss M. Kerfoot, Miss M. McGrath, Miss Josephine Morrissey, Miss Molly Lee, Salterbridge, and Miss B. Looby, do.

The party left Waterford by buses at 1.30 p.m. on Saturday, and after a most interesting trip through the Midlands, in the course of which they halted for a time in some of the important towns through which they passed, they arrived at Knock at 11.30 p.m., just in good time to take part in the all-night vigil before the Shrine from midnight until 6 o'clock in the morning.

They were joined there by a still larger contingent from Cork, who were in charge of the Rev. P. O'Leary, C.C., Cork Cathedral, who conducted the religious ceremonies during the night, which included Holy Hour, The Stations of the Cross, Rosary, a special sermon on the Passion, and Mass and Holy Communion in the morning at 5 o'clock, in which all the pilgrims participated.

Miss Fraher described to us the Solemn and inspiring scene throughout the night within the shadow of the historic little chapel where the apparition of Our Blessed Lady appeared on the night of August 21st, 1879, 59 years ago, and said it was wonderful to see the great spirit of Catholic fervour and devotion manifested on all sides in honour of the Blessed Virgin and the hallowed spot where she appeared well over half a century ago.

The Cappoquin pilgrims arrived back here early on Monday morning, all greatly impressed by what they had seen, and not a little proud that they had been privileged to participate in this signal act of homage to Mary, the Mother of God.

Sequel to Robbery at Mellary.—As reported in this column in the time, the Mellary district on March 8th, when a daring daylight robbery took place in the mountain home of Mr. R. Ormonde, was broken into and a sum of about 32/- stolen while Mrs. Ormonde had temporarily left her house to go up the mountain for some turf. At short notice a strange man had called to the house and requested Mrs. Ormonde to make some tea for him, which she kindly did, but she was able later to give a good description of this man to the Cappoquin Guards, who immediately started active investigations into the matter.

Weeks having passed, and no trace of the missing man having been found anywhere, it was thought the event would have to be added to the list of unsolved crimes, but the Arm of the law is very long and very tireless, and on Saturday last, nearly four months after the robbery, a man named John Cunningham, aged about 60, and of no fixed abode, was detained by the Guards in Abbeyfeix in connection with the offence, and the Cappoquin Guards were immediately apprised of the fact. Sgt. Sean Quinlan, Lismore, and Sgt. F. Browne, Cappoquin, then proceeded to Abbeyfeix, where the man was formally arrested by Sgt. Browne and brought back to Cappoquin Barrack that evening.

On Monday morning a special Court was held in the Barrack before Mr. M. Walsh, P.C., when the accused was formally charged with the robbery, and remanded in custody to the next District Court in Youghal, and was removed to Cork Prison later in the day.

His arrest, so long after the offence, is a great tribute to the vigilance and efficiency of the Garda Force, as well as to the persistence of the Cappoquin Guards, who had handled the case in such a masterly manner from the start.

A Brides Gown With A History.—The following article, which should be of interest to our Cappoquin readers, appeared in the Daily Papers on last Saturday:—"An Irish bridal gown will make its fourth appearance at a wedding in October. It will be worn by Miss Madeline Keane, youngest daughter of Senator Sir John Keane and Lady Eleanor Keane, when she marries Mr. D. G. Emerson."

The dress was made originally for Miss Keane's mother's wedding, 31 years ago, and was worn by her eldest sister, Mrs. Pegge, at her wedding five years ago, and also at the wedding of her other sister Mrs. Knight, three years ago. The dress is a deep cream satin, with a panel of lilies embroidered down the front.

Mr. Emerson is the only son of Major-General H. H. A. Emerson, D.S.O., a member of a well-known Hampshire family.

Sir John Keane is the owner of a delightful residence at Cappoquin, County Waterford, overlooking the valley of the Blackwater, and it was an ancestor of his who gave the site for Mount Mellary to the Trappist Monks.

An extensive landowner, Sir John is a Director of the Bank of Ireland, and is greatly interested in Agricultural progress.

Some intending brides in Cappoquin are hoping that this famous dress will be passed on to them when it has finished its service with the Keane family.

The Sewerage Scheme.

The extensive and important Sewerage Scheme which has been in progress throughout the entire town for more than the past year is now rapidly nearing completion, and a few weeks more, at the outside, should see the finishing touches being put on the job. Many unexpected obstructions and difficulties have had to be surmounted from time to time, which have caused inevitable delays, but the able contractors, Messrs. H. and A. Hamilton, Waterford, have nevertheless carried out the work in the most expeditious and satisfactory manner under the capable and regular supervision of their efficient Foreman, Mr. K. Roche, and his assistant, Mr. P. Power.

We have previously referred to the eleven houses in Mill street, which were omitted from the original Scheme, but we are glad to see that our vigilant and practical County Surveyor, Mr. J. Street, has been recently brought to the notice of the Board of Public Health meeting in Dungarvan and recommended that the work be now carried out before the contractors leave the town, for which the residents of Mill Street feel deeply grateful.

Even though this may mean a supplementary contract, we hope the work will be undertaken without delay in the interests of public health.

The Rowing Club.—Almost without any practice or training, worthy of the name, the Cappoquin Rowing Club, in a true sporting spirit, sent a Senior Eight to the Waterford Regatta last week to compete for the Urbs Intacta Challenge Cup against the Waterford Eight, who had been in strict training since the opening of the season, and of course, the inevitable happened, and the untrained crew got beaten by their better-trained opponents, which should prove an object lesson to our local oarsmen.

No crew can hope to win in rowing races unless the members are properly trained, and as we understand the same Senior Eight intend to compete at Cork City Regatta next week, we trust they will utilise the short time left to get themselves into far better form for this important event.

Next Sunday in Dungarvan.—Everybody who is "anybody" in Cappoquin will be in Dungarvan on next Sunday to see the "match of the season" in the great hurling game between the Seniors of Cork and Waterford, which should certainly be worth going a long journey to see.

Knowing Dungarvan as we do, we know that visitors from all parts will receive a warm Irish welcome from the big-hearted people of the Old Borough on that day, but something more than a welcome will be needed to stave off the pangs of hunger, so we hope ample arrangements will be made to cater for all. Next to the "grub stakes," the liquid department also requires attention, so don't let anyone come home thirsty on Sunday night!

THE WRITERS AND PRINTERS OF YOUGHAL

By P. J. O'Brien

One of the oldest and most historic if not most prosperous of our Irish towns, Youghal, has been singularly fortunate in having had nearly all that is memorable in her past chronicled, and narrated—chiefly, too, by her own sons—to an extent and diversity such as few other places in Ireland can boast of.

Known nowadays as a popular seaside resort, thanks to its splendid sandy beach or strand, and its pleasant situation at the mouth of what its admirers fondly name "The Irish Rhine," Youghal still possesses many features of abiding interest to the historian and antiquary, and well adapted to remind its most unobtrusive visitor of the considerable importance it enjoyed as a borough town and seaport in bygone days, both recent and remote.

Most notable amongst those relics of Old Youghal are its venerable Abbey Church, portion of its town wall and Watergate; Myrtle Grove; the well preserved mansion in which dwelt the famous Sir Walter Raleigh; Sir Robert Tynte's Castle, the Clock Tower; the Red House, etc., all of which and much else that is of note in the surrounding vicinity have happily found loving diligent and unwearied annalists and historians in such distinguished Youghal men as Rev. Canon Hayman, the Rev. P. W. Drew, Dr. Charles Ronayne; Mr. E. Fitzgerald, and others including a well-known journalist and poet, Mr. D. O'Callaghan, of Inch, Killeagh.

Youghal Printers.—Mr. John Wesley Lindsay, who died about the year 1865, was the leading printer in Youghal, but though the most memorable of Youghal printers, Mr. Lindsay was not the first to practice his ancient craft there. Printing was first introduced into Youghal in 1770 by a man named Cox. This we learn from Dr. Madden's "Irish Periodical Literature" (1864) whose information is derived from Archdeacon Cotton's "Typographical Gazetteer." Cox was succeeded by Thomas Lord, by whom the first Youghal book was written and printed. The title was, "The Ancient and Present State of Youghal."

Thomas Lord subsequently left Youghal and set up printing in 1786 at Cashel, and finally at Roscrea, where in 1798, his Press, etc., were burnt on account of some seditious matter printed in the office though without his knowledge or consent.

DUNGARVAN PROBATE ACTION.

Before Mr. Justice Hanna in the High Court on Wednesday, a probate action of John Donovan, St. Augustine's Street, Dungarvan, against Mrs. Hannah McGrath, Drumroe, Cappoquin, and James Sexton, 15 Haulbowline Dockyard, was set down for hearing.

The plaintiff as executor, sought to establish the will of May 29, 1935, and codicil of November 19th, 1935, of Patrick Sexton, wool merchant, late of the Quay, Dungarvan, who died on March 26, 1937. The defendants opposed the will and codicil on the three usual grounds, but it was announced that

opposition to the will and codicil had been withdrawn, and it would be necessary only to take evidence of the making of the will and of testamentary capacity.

Mr. E. J. Kelly, K.C., with whom was Mr. Jas. I. Maguire (instructed by Messrs. E. A. Ryan and Co.) said the testator was 84 years old, the assets amounted to £1,500. He had left three children, two girls and one son, and had died a widower. His three children were named in the will. He had made no fewer than nine wills altogether. The will that plaintiff was setting up was that of 29th May, 1935, and codicil of November 19th, 1935.

Evidence of the making and execution of the will and of capacity having been given, Mr. Justice Hanna admitted the will and codicil to probate in solemn form of law. He allowed the parties their costs.

Mr. J. M. Fitzgerald, K.C., and Mr. Budd (instructed by Messrs. J. F. Williams and Sons) appeared for the defendants.

DISQUALIFICATION ORDER AGAINST MOTORIST.

UNUSUAL CASE. A case of a somewhat unusual nature came before District Justice MacCabe at the Dungarvan District Court on Friday, when an application was made by Supl. McCarroll to order (usually) to Tom Comerford, Ballinacreehan, from driving a motor car, by reason of physical disability. The section under which the prosecution was brought is section 32 of the Road Traffic Act 1933, and the case against the defendant was proved by Guard Toomey, who stated that he was on point duty on the 30th April last, when he observed a motor car approaching. The car was on the wrong side of the road. On reaching O'Brien's Cafe, the Quay, it suddenly swerved in towards the houses on the roadside and stopped. Witness shouted to the driver to get out of the way of the traffic, but got no response. On going over to the car, he found the driver slumped over the wheel, and he was told by his uncle, who was with him, that the driver had had a fit. When the driver recovered he said he had fainted, and the uncle said he usually sat beside the defendant and put on the hand-brake when his nephew had one of his fits. It was dangerous, said Guard Toomey, to have a man like that driving a motor car.

LOSS TO HOLY GHOST ORDER. REV. C. SCHMIDT.

Rev. Christian Schmidt, C.S.Sp., Rockwell College, Cashel, one of the best-known members of his Order, died on Saturday.

Born at Niederelbert, South Germany, he was prevented from entering the Holy Ghost Order in his own country because of Bismarck's Kulturkampf, which suppressed the Community at Marienstadt, and he was obliged to come to Ireland, where he entered the Juniorate at Rockwell College.

Having completed his secondary studies, he spent four years on the teaching staff at Rockwell, and subsequently he went to the Holy Ghost House at Chevilly, near Paris, where he was ordained in 1888.

His first appointment was in Australia, whither he sailed the following year. He served two years there. He returned to Rockwell College, where he spent the remainder of his life.

Father Schmidt was a distinguished Professor of Classics and Modern Languages. He was associated with Mr. de Valera as a Professor in the years immediately following Mr. de Valera's student days at Rockwell.

Deceased had a deep love for everything Irish. His was a noble life of self-sacrificing devotedness to the cause of the education of generations of Irish youth.

TALLOW NEWS.

The June Fair, was well up to the average in the amount of stock on offer. In some sections there was brisk demand, and in others, and many lots changed hands, good conditioned cattle selling well.

Dealers in attendance were below the usual numbers, due in great measure to their being presently over-stocked. Sheep met with very little demand owing to the existing depression in this trade.

There was an exceptionally large supply of lambs on offer for which demand was exceedingly brisk which resulted in a speedy clearance at remunerative prices. Yearlings fetched from £7 10s. to £10 10s. Two-year-olds from £9 10s. to £12 10s. Three-year-olds £14 to £16 10s.

SENIOR FOOTBALL MATCH AT DUNGARVAN

KILROSSANTY IN FORM PORTLAW RALLY TOO LATE

Kilrossanty 2-4; Portlaw Nil

Kilrossanty began the first round of the Senior Football Championships in sparkling form last Sunday at Dungarvan, when they had a smashing victory over Portlaw.

Kilrossanty last appeared in the Senior Football world in 1934, when they were defeated by a brilliant Senior Football team from Villierstown by the very narrow margin of 2 points after a gruelling hour's play.

The following list shows how Kilrossanty became seniors in 1937— Kilrossanty, 2-3; Stradbally 1-0.

It was often said that this team was well up to Senior status and should have entered the Senior grade—this indeed was justified last Sunday when they cleared their first jump on their road to Senior honours by scoring a smashing victory over Portlaw.

Kilrossanty winning the toss and playing with a slight breeze were off as old with a rare dash on the throw-in for the objective.

Portlaw under pressure before M. Whelan landed Kilrossanty's first goal. The Kilrossanty forwards were erratic in shooting and lost several golden opportunities of scoring, but their back line was very sound when pressed and covered up the Portlaw attack every time, leaving nothing to go for.

Positional changes having been made on both sides during the interval, Portlaw put up a great spurt on resuming, led by Hunt, Hickey and Thorpe, and the Kilrossanty net was in danger.

EAST CORK JOTTINGS

Dungarvan Next Sunday

All the way to Dungarvan agus to Dalriada, and a long way it is to go to a hurling match, but neither too long nor too far when the prize is the Munster Championship, and the contesting teams are the picked hurlers of Cork and Waterford.

In the Clonmult-Dungourney-Inch district nearly every male from sixteen to sixty will travel, and a week ago every car in Youghal, Killeagh and Castlemaryrty was engaged.

The following list shows how Kilrossanty became seniors in 1937— Kilrossanty, 2-3; Stradbally 1-0. Kilrossanty 5-5; Dungarvan Nil. Kilrossanty 5-4; Faha, Nil. Kilrossanty 1-4; Gleann-na-hUkifire, Nil.

The "B" teams, or second strings of those clubs had a very interesting match last Sunday in Youghal, in the presence of a very good crowd. I am inclined to think that many of the spectators thought it would be the "A" or junior teams that would play, and their presence in such numbers was because of the drawn games played by those clubs in a nearby venue in the recent past.

The Youghal v. Carrigtwohill minor hurling is down for decision next Sunday in Killeagh, and it is a match I would like very much to see. I believe that Carrigtwohill matches the hurling of a higher and better standard than in some of the more advanced grades.

REAL VALUE OF BRAN

What the Rowette Institute Says

In the Scandinavian Feed Unit System in which the feeding values of meals are based upon practical feeding experiments with dairy cattle and swine 1 lb. of bran is given as equivalent to 9 lbs. of linseed cake.

These concentrate mixtures were fed to different groups of cattle at the rate of 5 lbs. of the linseed mixture and 6 lbs. of the bran mixture, rising to 7.9 lbs. and 10 lbs. respectively.

The ninth report issued by the Department of Agriculture in connection with the current egg laying test at the Munster Institute, Cork, covers the period from 1st October to 9th June. It states that during the ninth period of four weeks the general health of the majority of the pullets was satisfactory.

FEEDING VALUE OF OATS

Proportion of Kernel to Husk

The feeding value of oats depends mainly on two factors: (1) The class of oats used; (2) The class of stock to which the oats are fed.

The percentage of husk to the total weight of the oat grain varies from 22 per cent. to as high as 30 per cent. It would appear, therefore, that oats of the former class are the most suitable for stock feeding purposes.

Widespread sympathy is extended to Mr. Ned Sullivan, Old Road, Kilmacshannon, on the death (following a brief illness) of his wife, whose mortal remains were laid to rest in the family plot in Newtown Churchyard.

SWORN evidence that Porkatine Pays

Before the Commissioner for Administration of Oaths in the High Court of Justice in London, Mr. M. Hill, Kilmacshannon, on the 14th inst., swore that a scientific test definitely proved TWO GREAT FACTS

Porkatine Pig Powders

Approved by the Department of Agriculture, Cork. It is the best pig feed in the world. One of Bell's Great Animal Cures.

YOUGHAL URBAN COUNCIL

Present—Messrs. P. J. O'Gorman, P.C., Chairman, R. Power, D. McCarthy, E. D. Condon, T. Beausang, J. Daly, B.E., E. P. Lynch, M. D. Broderick and M. Ahern.

On the proposition of Mr. McCarthy, seconded by Mr. Power, a cheque for £100 was passed, labour and wages was passed.

The Department of Industry and Commerce wrote regarding the position of fishermen under the Unemployment Assistance Act. The Acts did not enable assistance to be paid to any person who was neither unemployed nor available for employment. In common with all other fishermen are neither unemployed nor available for employment for the purpose of the acts, whilst they were working for wages in cash or kind. The presentation of certificates from employers to the effect that the men failed to catch fish whilst employed would not enable them to be regarded as unemployed and available for employment and consequently Unemployment Assistance could not be paid to them for any periods during which they were so engaged.

The meeting decided that the matter might be raised at the forthcoming meeting of the Association of Municipal Authorities.

The Private Secretary to the Taoiseach wrote acknowledging the Council's resolution re the employment of Irish technicians in native industries.

The Women's Prisoners' Defence League 'Appeal to Our Race' was read, and the Council adopted the suggestion calling on the Government of Eire to take immediate action regarding the citizens of Eire imprisoned in Belfast.

A complaint was received from the men working at the Sea Wall stating that they were sometimes called to work in the early hours of the morning, but never received overtime, nor for work after 6 p.m. The Clerk was directed to communicate with the County Surveyor on the matter.

The Department of Defence wrote stating that it was proposed to occupy the military Camp and Rifle Range at Youghal up to the 31st. As the number of troops would be less than in former years a reduction of the charge for a supply of water was suggested.

This was unanimously agreed to. Messrs. Broderick, Daly and the Town Clerk were appointed delegates to the Conference of Municipal Authorities at Galway.

It was decided that the delegates should bring before the Conference the question of Co-Operative Creameries and the taxation of Derelict Stores.

On the proposition of Mr. Lynch, seconded by Mr. Broderick, a sincere vote of sympathy was passed to the mother and family of the late Ed. Walsh, who was accidentally electrocuted at Youghal on the 30th.

A similar resolution was passed to Mr. J. Webster and family on the death of his wife.

EAST CORK JUNIOR HURLING CHAMPIONSHIPS

CASTLEMARTYR V. KILCRONAT

In the Grade B section of the above Championships Castlemartyr met Kilcronat at the Copperalley Grounds, Youghal, on Sunday, and provided a fast display of sporting and well-fought hurling.

The teams were played on to the pitch by the Youghal File and Drum Band and Castlemartyr winning the choice for cash, Mr. J. Wheeler, Youghal, set the teams going.

Castlemartyr were first to attack, but went wide. They recorded a few more overs and on the resulting play the Kilcronat custodian effected a few neat and well-timed saves. Keeping up the pressure Castlemartyr brought off a major which was shortly supplemented by a point. Kilcronat broke away but met with a great defence and in the ensuing play yielded another point. Kilcronat were awarded a "70" which was well-centred and in a flash raised the green flag. No further score was registered before the interval.

On the resumption of play, Kilcronat, with an and breeze in their favour, made determined efforts to wrest their opponents' 3-point lead, but Castlemartyr defended a sterling fashion and racing up field broke through for a goal. Kilcronat again fought back and a fine goal again seemed to get them hurling hard to gain the lead.

Castlemartyr had the better of matters in numerous centre-field struggles and again went further ahead with a great goal. Again excitement grew as Kilcronat shot under the bar for a goal. A free to Castlemartyr close-in resulted in a minor. No further score was added before the full whistle went, leaving Castlemartyr victorious on the score: Castlemartyr 3-4 Kilcronat 2-0

The teams were: Castlemartyr—McC. Mooney (capt.), J. O'Brien, W. Reilly, I. O'Brien, M. Hart, C. McCarthy, T. Foley, D. Lawton, P. Condon, F. Higgins, J. Ryan, E. Hayne, W. Carey, C. Hyde, P. Higgins.

YOUGHAL NOTES

Technical School Successes—At the recent Midleton Show amongst the awards in the Arts and Crafts Sections were the following from the Youghal and adjoining Technical Classes:—

White Embroidery—Miss Maureen Donnelly, Ballymacoda, 2; Miss Margaret Donovan, do., H.C. Coloured Embroidery—Bridget McGrath, Art Class, Ballymacoda, 2; Miss Kathleen Smyth, Vocational School, Youghal, 3.

Leather Craft—Miss Maud Rumley, Art Class, Ballymacoda, 1. Class 133—Miss Margaret Foley, Art Class, Youghal, 1; Miss Maud Rumley, Art Class Ballymacoda, 2.

Plain Needlework—Miss May Foley, Vocational School, Youghal, H.C. Class 133—Miss Lizzie Nicholson, Vocational School, Youghal, H.C. Class 133—Miss Christina Guiry, Vocational School, Youghal, H.C.

Our New T.D.—The following is taken from "Rambling Recollections" in the "Cork Examiner" of 25th June:—

I will be joined widely in my rejoicing over the return to an Dail of Mr. W. J. Broderick, the very efficient Chairman of Cork County Council, and I take this opportunity of congratulating him and the people of West Waterford from Youghal down, that he will again take his place on the Council of the Nation. Apart from his high capabilities as a public man, which we in Cork fully appreciate, I regard his return as affecting a most desirable link between the two southern cities, Cork and Waterford, for Mr. Broderick, under the reshuffle of the constituencies some time ago, now represents an area in both counties. A man of extraordinary energy, with the facility to grasp a problem and form instinctively the right view, he rarely missed attendance during his previous term in the Dail and the people he now represents will find him as understanding and sympathetic as ever.

The Season—At long last there are some indications of the coming summer, though some say that having had a kind of a summer earlier in the year, there is but a chance that we'll be vouchsafed another. Anyhow, visitors, including a number of obvious honeymooners are coming along in small numbers. Day after day there are advertisements for seaside residences of rooms wanted or let. In addition to the usual bus service to and from Cork, Dungarvan and Waterford, there is a bus (hailing from Co. Waterford) travelling regularly between the town and Strand and affording a much desired facility.

The Strand Palace—As may be seen by our advertising columns has begun to introduce a bit of life and liveliness into the vicinity. Were it not for the enterprise and energy of the popular proprietor of the Palace, the Strand would, indeed be a dull and dreary neighbourhood. Of course there is the sea, the promenade, Claycavale and miles of golden sands available, but the average young person requires a bit of variety. One or two dips in the day are enough for any ordinary constituted individual, and pacing up and down the promenade and along the beach is likely to become rather monotonous. Here is where the Strand Palace, with its splendid programme of dancing sessions comes into use. It is to be hoped that we will have a successful season.

Football—In the Great Book we are told about the foolish virgins who came to the feast with lamps without oil. That incident contains a salutary lesson for trippers and excursionists travelling long distances from their homes to the seaside and other tourist centres. Here at Youghal the pitiful sight is often seen of excursionists coming seventy, eighty and maybe more miles to get up in flimsy, even if pretty "rigouts" or "rigouts"—cacia is certainly to be caught in a downpour. A striking instance of this occurred last Sunday. The morning broke fine and, according to all indications fairly promising, but just about midday rain set in, lasting for quite a time. It was bad enough for residents taking a walk along the Strand or returning home from Mass, but it was a most inevitable position for a large number of trippers who arrived from various distant centres by bus or train. It was all O.K. for trousered bipeds who could adjourn to the nearest "taverna" in the town, but for the women and children, the majority decked out in summer attire, it was a catastrophe. Even the much-disputed "brolly" would be something of a saving clause. Verb sap.

DIRTY EGGS

Smart Fines Imposed by Listerwell Justice At Listerwell Court, Mr. Justice Kenny, imposed a fine of £5 with 10s costs in a case in which the CastleMahon Dairy Society, Ltd., Newcastlewest, were charged with having eggs which were externally dirty, contrary to the Agricultural Products (Eggs) Act.

On a similar charge, Farm Products, Ltd., Henry Street, Cork, were fined £10 with 10s costs.

The Justice said those cases should serve as a warning to all persons who sold or purchased eggs in Listerwell.

Agricultural Conditions

MAY, 1938

Weather and Work.—The long spell of dry weather which the country had experienced during the greater part of February, March and April continued up to the middle of May, but then broke gradually, and at weather during the remainder of the month was generally showery. At the outset the rain fell in light showers, which gradually became heavier and more frequent. The result was that most of it worked its way into the soil. The planting of the small balance of the potato crop which remained over was completed during the month, as was the sowing of mangels, turnips and sugar beet, and some headway was made with the after-cultivation of some of those crops. On the whole all seasonal farm operations, including the cutting of turf and the shearing of sheep, were very well advanced at the end of the month.

Pastures and Live Stock.—Pastures were rather bare during the first half of May, but when the rain came they made rapid progress, and all except those on light soils, and those which were closely grazed, were carrying a good covering of grass at the close of the month. Live stock continued healthy, although, in many cases, reduced in condition owing to the scarcity of grass. During the first fortnight hand-feeding of dairy cattle had to be resorted to in many cases. In the latter part of the month all cattle showed the benefit of the change in the weather.

Cereals.—At the close of the month all cereal crops except late spring sowings were looking very promising. Late sown crops looked weak, and there were isolated cases of complete failure. It was anticipated, however, that the winter wheat would improve with a combination of moist conditions. The general tenor of the reports was that the wheat acreage would show a substantial increase as compared with last year; that the oat acreage would be about the same as last year; and that the barley acreage would show a slight increase.

Catch Crops.—The small area of catch crops were sown mainly under very dry soil conditions and germination proved very slow. Mangels crops generally have made good progress since the rains began; and so have beet, but to a lesser extent. Early sown turnips are now coming on fairly well, but much of the crop was not sown until the end of the month.

Flax.—It was reported from Co. Cavan that sowings were carried on under excellent conditions; that crops have braided well, but the balance was not so extensive as last year and that the area sown is about 20 per cent. above that of last year. In County Donegal the dry condition discouraged farmers from sowing and the area was not so extensive as had been anticipated, being rather smaller than last season. Early sowings braided unevenly, but improved under the rains. Co. Monaghan reports an increased acreage corresponding with that in County Cavan.

Potatoes.—Adequate supplies of last season's potatoes remained on hands at most farms at the close of the month. Local demand was fair, while prices in the Dublin market ranged up to 5s. per cwt. for best table varieties. In the counties where potatoes are grown for export stocks were well cleared. The Industrial Alcohol factories used up a considerable quantity and the balance was sold for the home and export markets. Prices during the month for ware potatoes for export ranged from 50s. to 60s. per ton. Some early and main crops suffered slightly from frosts, but had made a good recovery and looked promising at the end of the month.

Frost—In some parts of Co. Dublin made good progress and a fair quantity appeared ready for lifting at the close of the month. Small quantities were actually lifted and realised about 4d. per lb. on the market. Certain provincial fairs held during the month of May were mainly of small dimensions. Demand was good, especially for well-bred stores.

The following quotations may be regarded as representing the average range of prices realised at provincial fairs during the month at the various kinds of stock mentioned:—

Calves under one month from £2 to £4 10s.; Calves 1 to 9 months £3 10s. to £7 10s.; First class Stores, 9 to 12 months £6 10s. to £9 5s.; first class stores, 12 to 15 months £6 10s. to £11.; first class stores, 15 months to 2 years £10 to £13 10s.; first class stores, 2 to 3 years £11 10s. to £16 10s.; first class stores, 3 years and over £13 10s. to £17 10s.; first-class fat bullocks and heifers £14 10s. to £20; best fat cows and bulls £9 10s. to £15; choice springing cows and heifers £14 to £18 10s.; choice down-calving cows £11 10s. to £18 10s.

Sheep.—Flocks were maintained in good health and were generally up to the usual condition for the time of year. The long period of unusually dry weather was rather trying for both sheep and lambs owing to the effect on pastures. Shearings were general towards the end of the month, but the market for wool had not opened and an estimate of the yield could not be ventured until shearing had reached a more forward stage. During the month the prices of fat sheep ranged from 36s. to 65s. each, according to quality, and those of fat lambs from 25s. to 40s. (best) and occasionally good lots made something more.

Pigs.—The number of pigs offered for sale in the various fairs and markets during the month of May was roughly about the same as in April. The average prices for pigs suitable for the bacon curing industry ranged from 66s. to 72s. 3d. per cwt. dead weight or approximately 49s. 6d. to 54s. 3d. per cwt. on the live weight basis. At the three principal centres the average prices for pigs of porker weight ranged from 56s. 6d. to 68s. per cwt. dead weight. Poultries were in ample supply at all markets at prices ranging from 25s. to 35s. each according to age, district and quality. Breeding stocks were well maintained with a continued tendency to increase.

Horses.—Demand for horses continued active during the month. Milk.—Supplies of milk to creameries were slightly below those for last month owing to the scarcity of grass. Milk delivered to creameries in April realised 4.97d. per gallon with separated milk returned to producers. Milk collected in the counties adjacent to Dublin during May for resale in the city returned 8d. per gallon to producers.

LISMORE NOTES

G. A. A.
Lismore met St. Anne's Kilmacthomas at the home venue on Sunday last, and after a fast game emerged winners on a two-point victory.

St. Anne's began with a lightning burst. Ash crashed as the ball flashed towards the Lismore lines, but Power's efforts went wide. Grand overhead stick-work was witnessed on the puck-out. Lismore were away and had a major per Healy, coming the delivery the visitors equated. Play was now very exciting. St. Anne's battled in rare style from the puck-out. Inaccurate shooting from frees ruined many chances. The Lismore forwards were again in action and took the lead with two goals. But the growing lead seemed only to spur the visitors on to greater efforts. Wides followed some fast bursts and St. Anne's brought down the lead to a goal before the half time whistle.

Lismore took up the running from the re-start and swept towards the visitors' goal. Fine defensive work followed, and St. Anne's were able to keep their goal intact. Play centred round midfield for some minutes and some keen duels were witnessed. The Lismore goalie held his charge well when Meskel crashed a fast shot from the wing and the visitors forwards closed in. O'Brien crashed clear in a further rush. Goal for goal was the motto of the last quarter of an hour, but the superior stickwork of the homestays told its tale in giving them a two-point victory.

The final score read:—
Lismore 5-7
St. Anne's 5-3

All Roads Lead to Dungarvan.
Dungarvan seems to be the centre of gravity for all Gaelic enthusiasts from the Lismore area on Sunday next.

Every motor car in the town has been engaged weeks ago and every bicycle has been brought out from its winter sleep to be taken to the big match.

It seems to be the only topic of conversation amongst the townspeople, and if such keen interest is evinced everywhere else the attendance should run to 30,000.

Lismore Boy Scouts.
The troop had a most enjoyable day on Sunday at Abbeyside, where they were entertained to a feast of amusements at the Scouts Den after the running off of the Farrell Cup Tournament at the Sportsfield, Abbeyside.

The Lismore Troop take this opportunity of thanking the Abbeyside Scouts for the cordial reception they gave them on the occasion of their visit and join with the other troops in congratulating them on winning the valuable Cup.

Lismore Novice Sports.
The Annual Lismore Novice Sports are due to take place in August. These sports have always been regarded as being amongst the leading meetings held in Munster, and this year's meeting should prove no exception as the committees in charge are already busy in preparing a complete new track for the cycling events.

The Road Cycle Race will be run as usual over a distance of 8 miles and granted fine weather this event should attract a large number of entries.

GRASS SEED PRODUCTION

Saving Perennial or Italian Seed for Sale

An enquiring correspondent from a Southern county expresses a desire to obtain some information regarding the method of sowing grass-seeds for the purpose of saving the seed for sale. There is no great difficulty in the method so widely followed in such counties as Monaghan, Armagh and parts of Derry and Tyrone. When laying down the corn crop, either Perennial or Italian, or both seeds mixed, are sown in the ordinary way. The following season if the crop is intended for seed—though this may be indeterminate until spring is well advanced—the field is allowed to grow out for a fortnight or three weeks time after the ordinary date it would have been cut had the crop been intended for hay. This means that fields for seed saving are cut at the first or second week of July—sooner or later according to the season. Cutting is done by the ordinary reaper, and the grass is bound into sheaves in the same way as a crop of oats and stoked in the field until dry enough to put into sacks. It requires two or three weeks to save and after being stoked is threshed by an ordinary steam thrasher, and cleaned in the same way as corn with of course, the use of finer sieves. The seed when bagged is sold in regular markets at prices which vary with the quality of the sample and the zone of demand in any particular season.

There is not much difficulty in judging whether the crop is sufficiently ripe to cut, the usual test being to rub a few heads between the hands, and if the seed falls off freely, cutting may safely be done. It is not advisable to allow the crop to become over-ripe, as this leads to excessive shedding of seed in threshing and also depreciates the feeding quality of the hay still further. The custom is to thresh the crop as soon as convenient, after it is stacked rather than allow it to remain unthreshed over winter, since the latter course is believed to make the hay less tasteful to stock. The chief drawbacks urged against the cultivation of the crop are that the hay, being stiffer stemmed, possesses less value as fodder than that made from grass cut at the regular time; it does not permit the same bulk of aftermath to be obtained, and to an extent is somewhat more exhaustive on the soil than a crop cut and saved at the usual time is. Despite this objection, a considerable area is grown in districts where the crop is favoured, and were it not found profitable, farmers would hardly continue to persevere in growing it. Yields are variable and in an average season may run to about 5 or 6 cwt. per acre. Prices, too, are variable and depend on the bulk of supplies which are available from Ayrshire and France.—R. in "Fanner's Gazette."
