Weight of Crop in Contract to Quality

The relation of the weight of hay crop the time at which it is cut is a matter hich has always concerned farmers. Experience can be claimed to prove that early cutting need not necessarily lead to a loss of weight, and very late outting has invariably led to a poorer yield. There is one interesting reservation, however, where the seed mixture contains a certain proportion of Late Flewering Red Clover, there is a considerable increase in growth after the majority of the other plants have reached their maximum. But here again in waiting for the Late Flowering Red to mature, there is a deterioration going on in the already ripened clovers and grasses, so that the additional weight obtained from the former is offset by the decreasing weight of the letter. Moreover, tests have also proved that the late cut bay is not of the same high standard of quality as the earlier cut. It is pointed out, at the same time, that growers should not neces-sarily be tempted to discard Late Flowering Red Clover on account of its late Leaved Red in second, and in many cases third year's pastures. And it is well, too, that it should not be allowed to reach full growth in the hay crop, as it then exercises a depressing effect upon the development not only of the White Clover, but WATERFORD DISTRICT MENTAL, also the natural grasses, Cocksfoot and

Next morning we rose to find beautiful Kenmare bay radiating a luxuriant sunshine. Everything was bright and fresh. A cheerful note was struck and the smiling faces, the ready joke and the occasional burst of song, revived the typical 4th Waterford spirit. We rested on Sunday, but during the week following a series of delightful hikes provided pienty to enthuse about. Our first outing brought us through Kenmare to the Sheen Falls via Roughty Bridge and around the foot of Mucksna Mountain. Another enjoyable afternoon was spent strolling among the magnificent mountains of romantic-hidden Kerry.

Leader Sean McManus. An inter-Patrol football league contest resulted in a narrow victory for the Eagle Patrol, captained by Patrol Leader Mick Murphy. But high-light of the whole proceedings was the challenge football match played against a Kenmare selection, at the Breen Memorial Park. No doubt, our lads were a trifle daunted when they faced such doughty rivals, but having trained assiduously they were quietly confident, and proved their merit by dealing out a thorough trouncing to the Kenmare boys.

MEREAGED POTATO VIELD

The experience of many years has conclusively proved that the loss caused by potate blight can be, to a great extent, prevented by spraying, and the operation has now come to be regarded as easential to the successful cultivation of the potato crop. The reports received by the potat number of districts show that those who take the trouble to carry out the work properly are abundantly rewarded with an increased yield, while those who negan increased yield.

Unevpected Death of West Cork District Manager

The death of Mr. Walter D. Hilliard, District Manager of the Pearl Assurance Co., Ltd., for West Cork, which took place at his residence, Carrigmore House, Ballineen, after a short illness, came as a great shock to his numerous friends and clients throughout West Cork. Previous to the rather sudden attack the late Mr.

To enable Sheep owners to comply with above Order (which supersedes all previous Sheep Dipping Regulations) the county Council Travening Lank will attend at the following centres on the dates specified, where sheep can be dipped and true necessary certificates obtained.

FIRST DIPPING midway between Cappoquin and Mount Melleray, on Monday 15th inst., proved to be the most enjoyable and successful fixture yet held since those sports were Hilliard was up and about his business as

untimely death.

To the Misses Hilliard, Friary Street

Dungarvan (sisters of the deceased) the deepest sympathy is extended.

The funeral, which took place from his residence to St. Patrick's Church, Duntries had been received for the various events on the programme.

The promoters were singularly fortunate in the matter of weather this year, for with the exception of a slight driztle at the start, the evening turned out fine and warm, and the day being a Church Holiday, the attendance was the largest seen here for years, while the sport provided was also the best yet experienced in this district.

The fine field, which had been kindly even by Mr. Joe O'Keeffe, Boola, had undergone a most careful course of pre-

paration, the cycling track, in particular, having been well rolled, so that some very fast performances were witnessed during the evening.

The arrangements were perfect in every detail, and the various officials, especially detail, and the various officials, especially detail.

the programme from start to finish.

Mr. M. J. Sargent acted as Handicapper and Starter, for the various events, which he very kindly consented to do, and the Committee proved wise in their choice, judging by the many close and exciting finishes provided through Mr. Sargent's excellent and well-judged handicapping.

The neld was gaily decorated with flags and hunting, and presented a bright and festive appearance which was fully in keeping with the high spirits of the delighted crowd of spectators during the evening.

(nece), etc.

Amongst the members of the Petri Assurance staff were:—Mr. D. Nolan, Divisional Manager, Pearl Assurance, Co. Limerick; Mr. J. McDevitt, B.A., District Manager, Fermoy; Mr. J. Kennedy, District Manager, Ennis; Mr. J. Wills, District Manager, Ennis; Mr. C. Quane, Divisional Inspector, Limerick; Mr. C. Walsh, Bantry; Mr. C. O'Mahony, Clonakilty; Mr. D. Kearney, Dunmanway; Mr. P. J. Deasy, Courtmacshemy; Mr. F. C. Cotter, Bantry; Mr. J. Malone, Bandon; Mr. C. O'Driscoll, Drimoleague; Mr. I. Holland, Kilbrittain; Mr. J. Mr. J. Holland, Kilbrittain; Mr. J. O'Sullivan, Clonakilty.

MID-DEISE MEMS.

All that was mortal of Mrs. J. Kirwan (nee Harris), of Portlaw, was laid to rest in Fews Catholic Churchyard on Mon-It was an interesting coincidence that the same two who were first and second in the six miles' race in Villierstown the previous day should be again fighting out the finish in this race, but the positions were reversed now, as Ryan beat his conqueror of Sunday by a few lengths, with Foley a good third, after a most thrilling race.

In Pews Catholic Churchyard on Monday, in the presence of numerous relatives, friends and sympathisers. Very Rev. J. Crotty, P.P., Kilrossanty, officiated at the graveside. The late Mrs. Kirwan, was a most estimable lady. A family of six children are left to mourn her loss. The Light of Heaven to her soul.

Eight competed.

This race proved a repetition of the one mile cycle race in Villierstown, when Foley again beat McCaul by a length after a most exciting finish.

Ladies Half-Mile Cycle Race—I, Miss M. J. Butler, Waterford; 2, Miss C. Murphy, Ballyaaggert; 3, Miss Joan McGrath, Dremroz.

Miss Butler repeated her Villierstown success in this race by beating the same lady, who was second to her the previous day. Miss McGrath being close behind the second.

Potatoes are showing signs of blackening in some gardens in the Mid-Deise district. The yield of the crop is, however, very good. The quality is also up to the standard of previous years, despite the wet weather of the past few weeks.

Big numbers of young men and women. Co. Council Offices, Dungarvan, from these parts in occupation of positions in England, are now enjoying a pleasant holiday in our midst.

Second Heat—I, Norman Walsh, Cappoquin; 2, J. Barry, Tourin. 4 competed.
Final—I, Norman Walsh, Cappoquin; 2, D. McGrath, do. 4 competed.
220 Yards (Open)—I, J. Barry, Tourin; 2, R. Betts, Ardfinnan. 6 competed on the young birds.

Some good bags are reported by sportsmen on the Comeragh mountains, where grouse is fairly plentiful. Still they are not as numerous as in past seasons. The increase in foxes, stoats, and hawks preyed on the young birds.

Appoquin; 2, D. McGrath, do. 5 competed. Won by 6 yards.

See Yards (Open)—I, M. Butler, Monalour; 2, M. Prendergast, Bridame.

In some local districts fruit is much delayed in ripening, and in each glasshouse visited was found spot, a disease caused by the fungus Cladosporium Fulvum. The unusually bad weather is believed to be the cause of these conditions. In some local districts fruit is much de-
