LARCENY OF BICYCLES.

A young lad named Vincent Moran, Ballymacanogue, was charged by Superintendent Walsh, with the larceny of a bicycle, the property of Declan Flynn, Inchindarra.

Replying to Superintendent Walsh, Flynn said that on the night of July 29th he left his bicycle at the Weigh House and went to the Carnival. The bicycle was a Raleigh Sports Model with a dynamo lighting set. The hind fork was brazed and the handle grip missing. He had not seen the bicycle since. He knew the accused by sight only. He called on witness to make a statement about the bicycle and offered witness a new one.

He told witness that there were four of them and that one of the others took this particular bike off him and gave him back another.

Superintendent Walsh said some of the four went to the North and joined the British Army.

Guard Enright said he interviewed the accused on August 1st. He made a statement, which was now read.

Accused who was not professionally represented, in reply to the Justice said he was sorry for taking the bicycle and asked would it do to get another bicycle.

Sergt. Teehan said there was nothing previously against the accused. The case was then adjourned to the next court to enable accused to pay £5. the value of the bicycle.

SCRAP METAL TAKEN.

Superintendent Walsh charged two young men named Pk. Drohan and Jas. O'Connor, with the larceny of metal from the premises of Mr. Joseph Power, O'Connell Street.

Mr. A. R. Farrell, Solr., appeared for Drohan; Mr. L. F. Lanigan, Solr., appeared for O'Connor.

Sergeant Teehan gave evidence of investigating the case of larceny of metal from Mr. Power's premises. He interviewed O'Connor who made a statement admitting removing with Drohan, a quantity of metal with the intention of selling it. Witness also interviewed Drohan who admitted that he had previously got 3s. 6d. for metal from Coward's Foundry.

Mr. Power identified the metal as his property.

To Mr. Farrell—Sergt. Teehan said the place from where the metal was removed was a derelict store, but it was enclosed by a high wall. Drohan is one of a family of ten.

To Mr. Lanigan—Witness said that O'Connor after removing the metal to his home did not go back again. Justice—You had then started inquiries Sergt.

Sergt. Teehan—Yes.

Justice—That's why they did not go back for it.

Mr. Coward said that Drohan came with metal twice towards the end of July.

To the Justice—Witness said he did not question people who brought him metal.

To Superintendent Walsh—Witness said he paid Drohan 3s. 6d. for the metal he bought, that was at the rate of 30s. a ton.

Mr. Farrell said his client, Drohan, is only 17 years old. His father who is in court will tell you he is one of a family of ten children with only the father working. Drohan has a definite promise of a job in London and is taking this boy with him. The father is willing to pay for the damage. He would ask the Justice to deal leniently with him even by suspensory sentence or the P.O.A. so as to allow him to get to London.

Mr. Lanigan also appeared for leniency for his client who was never before the court before.

The Justice in allowing both accused off under the P.O.A. said that anyone coming before him on like charges in future will not get off so easy and when he says a thing like that he means it.

MORE BICYCLES TAKEN.

Superintendent Walsh charged Trooper M. Walsh and Trooper M. Howe of the Ballinacourty Outpost, with the larceny, on Saturday, August 9th, of two bicycles from the Square, Dungarvan, the property of John Dover, Ballylemon, Cappagh, and John Elsted, Ballinacourty.

John Dover in reply to Superintendent Walsh said he came to Dungarvan on Saturday evening last. On his sister's bicycle. When ready to go home he took the bicycle from the house he had left it. He then met a friend and while speaking to him he left the bicycle against the Weigh House. When he went to get the bicycle it was gone. He saw the bicycle at the barracks later and identified it as his sister's.

John Elsted, Ballinacourty, said he left his bicycle on the square on Saturday night last and when he went to get it about 9.30 p.m. it was gone. The bicycle contained a tape, pulleys and thermos flask. He identified the bicycle at the barracks, it was value for £2.

Guard Farrell said he was on night duty on Saturday night and saw one of the accused (Walsh) come to the Weigh House and take two bicycles. Witness got on his own bicycle and followed him. When he came up with him he gave his name as McCarthy, witness was not satisfied and took him to the station where he identified his name as Walsh. Witness got into communication with the Outpost and brought the men before a special court.

Both accused said they took the bicycles with the intention of selling them back there again. They had a little too much drink taken.

Lieut. J. Draper said he had known both for some months past and both bore good characters.

The Justice said he would not spoil their good characters and he would deal leniently with them by applying the P.O. Act, but said the people looked for better than that from them. We look to you to give good examples.

CARROTS STOLEN.

At the children's court held later, a young lad named Paul Dunne, Fair Lane, was charged with the larceny of 20 dozen carrots from an allotment plot.

Thomas Lee, Loughmore, said he was an allotment holder in Bluet's Field, Loughmore, and was also caretaker of all the plots there, about 50. Witness then related how he missed some carrots in June and later finding the bed completely stripped. About 5 dozen he had missed previously and the second time about 15 dozen were taken. He did not see Dunne take the carrots but he found them in a shop.

The accused in reply to the Justice admitted taking the 5 dozen but denied taking the remainder.

Guard Begley said he interviewed the accused on July 19th and he made a statement in which he said that he got up at six o'clock that

"FORWARD FASHION"

AUTUMN frocks this year will maintain the youthful charm of the lovely models we all admired so much in the Spring. The new tendency, however, which even enhances the attractiveness of these designs, is an accent on trimmings and decorative work; for instance, notice that in light weight fabrics Broderie Anglaise, Richieu Work (sometimes transparent and sometimes opaque), and delicate draperies—gathered, draped, or fringed—enriched with Feather Embroidery and Gupure Lace, both of which lend a new meaning to the term "smart."

GLORIA GAY FROCKS. I was particularly interested in the new range of Gloria Gay frocks and from what I have seen these are supreme in the popular qualities. The designs represent the most recent American ideas and—what is just as important—the fittings are well-nigh perfect. Their graceful lines and delicate draperies—gathered, draped, or fringed—enriched with Feather Embroidery and Gupure Lace, both of which lend a new meaning to the term "smart."

There is a noticeable rise in the neckline of many of the new frocks and a suggestion that small collars and folk effects will be popular. Contrasts in colour scheme—trimmings, belts, etc.—are certainly going to play a big part, but the smart plain tailored dress is still good. Many people will probably be glad to hear that larger fitting frocks are being designed on more youthful lines and even the "matron" styles are losing their sophistication.

(Next week we will think about new colour preferences.)

The owner of the land has no objection to sinking a well in the place in question.

The Board directed the engineer to prepare plans and specifications for the sinking of well, etc.

WELL AT RAHEEN. Mr. Dunne, B. E., reported inspecting well at Raheen and stated the overflow channel requires to be opened up and cleaned. He estimated the work would cost about £1.

The matter was referred to the engineer to get the work done.

BALLYEELINAN WELL. Mr. Dunne, B. E., reported inspecting above well. The existing stone work around the well is falling down and requires to be rebuilt. The overflow from the well needs to be piped away from the well as it is flooding the adjacent ground. The cost would be about £10. There are four families using the well matter was referred to the engineer to have the work done.

The matter was approved by the Board.

TRAMORE PUBLIC HEALTH COMMITTEE. The report of the monthly meeting of the above held on 31st July was as follows:—The members of Committee raised the points regarding the particular period selected for cleaning the water services of the town. It was recommended in the early months of the year that this work be carried out. The Committee would like to record that they were not consulted in this matter. Hundreds of complaints have been received by them from the ratepayers and residents, demanding an explanation for the appalling inconvenience caused by this work being done in the most inopportune period of the year, considering that for nine months of the year less than 2,000 people would be inconvenienced whereas the work was put in hands at a time when Tramore contained a population of at least 10,000.

Visitors whom the town is dependent on to pay their rates, etc., are now subjected to a state of affairs that would not be tolerated in any other sea-side resort of its importance. The Committee are unanimous of opinion that a grave injustice has been done to them, as they received no intimation that this state of affairs was to take place; and were denied the opportunity of recommending a more favourable time for carrying out this work

which involved the town being without water for lengthy periods.

An order was made that the County Surveyor make arrangements so that there will be the minimum amount of inconvenience caused during the remainder of the period in which the work is being carried out.

WATER RENT. Mr. P. Quin, wrote informing that £19 is the total valuation on the premises in which Dr. Prendergill resides and he is only occupying portion of the premises. PUMP AT KNOCK HOUSE. A communication was received from Mr. M. Murrisey, T.D., which stated that he wished to bring to the notice of the Board the necessity for carrying out repairs to a pump on Higgins' land at Knock House. This pump, he stated, was not used for the past sixty years, and if it were put back into repair it would be of immense service to the eight families residing in the district who have to travel at least one mile to get water for domestic purposes.

The matter was referred to the engineer and County M.O.H. for report.

EXTENSION REFUSED. A petition was read from a number of residents in the Ballygaghin-Mapstown area requesting that the Board extend the Ballyduff water scheme so that they could get connections from it to their respective houses and lands for domestic and agricultural purposes. "Considering that the existing water supply is so near our respective farms," the letter continued, "we think that it is only fair that the extension should be made so as to enable us to get the necessary connections."

The Board decided that further extension of this scheme be refused at the present time.

WATER CUT OFF. Mr. M. Murrisey, T.D., wrote stating that since the 5th Aug. the water supply for his garage premises had been cut off owing to a broken pipe. He continued, saying it would not be turned on again until he got a plumber to repair it. In the meantime, he stated, he would be liable for the water rate for the garage premises.

It was decided that the Board in reply to the Justice should state that the rate being paid for the period mentioned.

GRANGE BURIAL GROUND. Mr. Dunne, B.E., reported that the grass at Grange burial ground requires cutting. As there was a caretaker appointed he would ask the Board's permission to have the work carried out by direct labour at a cost of £2.

months. Well was ordered that Michael O'Floughda be written to that the work is most urgent and the Board must insist on its being carried out at the earliest possible date.

UNFIT SLAUGHTERHOUSE. Mr. Walsh also reported that Patrick Tobin, Coleen, Dunmore East, is slaughtering sheep for human consumption. He (Mr. Walsh) ordered him to stop immediately. (1)—The slaughtering is carried on in a small shed attached to his cottage and is in a very dirty condition; (2)—He has no humane killer; (3)—He has no humane license and he never made an application for a slaughterhouse license; (4)—He has no humane license and he never made an application for a slaughterhouse license; (5)—He has no humane license and he never made an application for a slaughterhouse license.

It was ordered that Patrick Tobin be severely cautioned and informed that a repetition of the offence will lead to prosecution.

PORTLAW SEWERAGE. Mr. Doyle, B.E., stated the sewerage connection from Dowley's premises, Portlaw, to the Town Sewer would have to be about 30 yards (lined). To do this with a 4" pipe which would have to have an approved bucket trap at yard end and also a waste service for flushing purposes would cost about £20.

The matter was referred to the Local Government Department.

BALLYDUFF SEWERAGE SCHEME. Mr. Doyle enclosed engineering fees for above at £69 3s. 6d.

It was decided that as this work commenced before the amalgamation scheme came into operation that the account be paid subject to sanction.

HOUSE REPAIRS. Mr. Ormonde reported that a number of repairs were needed in the house of A. MacNamara at Bank St., Cappoquin.

An order was made that notice be served on the owner to have repairs carried out as suggested by the engineer.

Mr. Ormonde, B.E., reported that a house at West Street, Tallow, owned by Dr. E. W. Waters, Coma, and lately occupied by Jss. Fitzgerald had been repaired and a new tenant was in possession.

The letter was noted.

PRINTING CONTRACT

At a meeting of the Waterford Co. Board G.A.A. on Thursday evening, August 7th last, Mr. M. V. O'Donoghue (Chairman), presided.

A notice of motion was read from Mr. C. Ware which requested that all printing be done by trade union houses. He claimed that the two houses in Dungarvan were not trade union houses.

The Chairman then quoted the rule from the Official Guide which stated: "All contract work shall be executed by the trade union men or where no trade union exists the material shall be paid the standard rate of wages in the district. Irish materials only shall be used. Tenders for contracts over £5 must be sealed and opened in the presence of the members in meeting assembled."

Mr. Ware said any work for G.A.A. purposes should be given to trade union houses.

The Chairman said we should help our own as the place mentioned housed Gaels and players. Furthermore he said we should support the family who supports and plays the game. Contracts do not mean all work.

Mr. Ware proposed that in future all work be given to trade union houses. J. Keane seconded.

Chairman—I will get the view of a higher authority in this matter.

F. Flynn—You never know who you are hitting in this case. You may be hitting people you may not like to hit.

Mr. Ware—The G.A.A. should stand for fair play. I always thought it did.

Chairman—You can't see the matter at the next County Board meeting when we will have the opinion of a higher authority.

A Vanishing Species.

According to a report published this week, the professional tramp will soon cease to be a personality of the highway. This is all the more singular in the face of the unemployment statistics. But the tramp of other days was not swayed by economic fluctuations. When seized by the wanderer he gave up his job and took to the open spaces, trusting to luck and relying on his "card" and the kindness of those he met "to do the needful." Two brothers, typical of many, worked steadily throughout the winter, but with the call of spring they left the workshop and the autumn snap drove them back to shelter again.

Up till now we thought a hobo was a tramp. But, according to his editorial columns he is thus described: "A hobo is one whose philosophy is based on taking life easy. He demands much humour in life; has a keen appetite for the open road, food and books; loves all things and everybody except politicians; never worries, hurries, and always reaches his destination on time." When it was suggested that these train-riders were tramps, one of the fraternity wrote a letter of indignation with this definition: "A hobo is a migratory non-worker. The Hoboes are forming a union and their official journal predicts that a hobo college with a series of simple lectures may be a realisation of the future. We have a few tramps in Ireland, but no hoboes. They thrive only in the great open spaces of the American continent or the Colonies. That they lead a carefree, happy life will be gathered from these lines:

"Whether you're snug in a Pullman chair with trouble swept off the floor, Or understrung 'neath a cart of sheep with the cinders rasping your neck, Or maybe twirling the brake wheels or maybe splitting the whistling air, Your's is the bliss of motion, boy, for you're on your way somewhere."

SAVE WASTE PAPER

The drive to save waste paper is one householders are being asked to save every single scrap of paper which has ceased to serve its purpose, and the collection of paper is being made nationwide.

Depots for receiving waste paper have been opened at many places, but those who feel that the quantity they have does not justify bringing it to one of these depots can hand it over to the Boy Scouts, who are giving their services to the collection of waste.

In nearly every home and establishment there must be comparatively large quantities of paper which are no longer required, and which, if turned in, would help to keep men in employment.
