Continuing in English, the Chairman said, they were gathered together to review the past year's work, to correct their faults and to remove any obstacles that might be retarding the progress of the G.A.A. in the West. He was very pleased with the work of the past year and Candidly, I do not agree with this system as it leads to canvassing on the part of some clubs and in my opinion this is the cause of the present "dagger drawn attitude" of last year's County Board. There is too much East and West in it for my liking and in fairness to both divisions, all I can say is that I have found the Gaels of East and West Waterford, Gaels hat anyone could be proud to associate with. You are well aware we have enough fighting and bloodshed throughout the world to day and surely we, here, in the Decies, should in 1942, settle our little differences and be united as Gaels should be.

The statement of accounts and secretary's report were read and adopted. Mr. Kyne said that all monies shown in the account as being outstanding had now been paid. In his report he paid a big tribute to the local press for its generous support of Gaelic games.

Mr. J. O'Dea commented that the gate receipts appeared small for several games which had been well attended and said that several spectators have been allowed in free. No venue should be given a match, he said, unless the local club could control the pitch

The Secretary stood over the amounts printed in his statement. The Chairman, commenting on this matter said that, in future, every gate should have representatives from all the clubs interested

Mr. Ross. Lismore, p. posed that somebody other than that Chairman and Secretary should be appointed to audit the accounts, and the Chairman replied that he would be very glad if this would be done.

Mr. Kyne said he had given £12 in grants to three teams which had competed in county finals, in 1941. It was proposed by D. O'Sullivan and seconded by J. Cunningham that the balance sheet be adopted.

Speaking on the Secretary's rereport, Mr. Ross said he thought the cause of most of the rowdyism at games was due to the selection of umpires who were sometimes not very impartial. The Secretary, replying said that

are obvious faults in most of the new ranges. One would have to put almost a week's supply of turf to light the fire, as the fireplaces are so large. If one would carefully examine the "Victor" range you will find that the fireplace is the ordinary size, and it is designed to burn coal, turf or timber, either individually or mixed together, and in addition to that can be converted into an open fire which gives a cheery warmith to the room. If you install a "Victor" range, manufactured by the famous firm, Philip Pierce and Co., Wexford, you will have made a very wise choice, as you will make your fuel go twice as far; and that is a consideration, as we beare obvious faults in most of the new neighbours attended at the removal will make your fuel go twice as far:
