the Department's engineer pointed out that much money might be spent in litigation, either on a court case or under arbitration, for which the conexact cause of the mishap rould not be assessed from the evidence available. It was therefore preferable to out repair work, and this they would ment drawn up in 1941, under which the contractor had to be paid on a time and material basis for any work carried out.

"Under this agreement, stage one, stimated at £265 % od., covered efficient repairs to the tunnel to nable the water to be raised and the dam tested. If the foundations were found to contain voids necessitating grouting before repairs to the tunnel could be effected and the work was successful in making the dam hold water, the contractor to be 'liable' for all the cost of repairs and completionary work, apart from the cost of any surplus cement over 6 tons used in grouting. Actually, when the work was put in hand no 'voids' were found under the tunnel, but the latter was found to have been very badly constructed; water was found to be passing the cut off (puddle) wall in small quantity in the upper west side of the tunnel, and also to find its way to the downstream. A considerable amount of grouting had to be done, not only to staunch these leaks as far as pos-

sible, but was necessary to staunch

the tunnel itself before any test could be made on the dam with water at high level in the reservoir. The work was completed in April t a cost of approximately £650, and it tons of cement, i.e., 25 'extra' tons at £7 17s. 6d. was used. The reservoir was refilled from April 20th to May 5th, 1943, when it reached top level, the drains E and W of toe of dam, and pring upstream the read bridge, a which measuring weirs are fitted, are being watched, and so far are run ning lower than on the previou raising. We are therefore very hope ul that the dam has been made good Springs existed before the dam was rected, and the nature of the rock inder the dam is such that a certain ncrease in flow could be expected silling action in the reservoir should revent undue increase in these. The eement' included for a test of the iam with water at high levels for at least six months. No final report, or which a settlement with the contracors must depend, can therefore ye re presented. We can however, state hat the tunnel was faulty in cor struction, as the ramming of the cor-crete, which had been screened b plaster, was found to have been very had over considerable areas and the inforcement was found not to be it ordance with the specification.

though the work which was found by trictly in accordance with what had been envisaged in the contractors' 'non-prejudice' agreement, the Coun-cil should eventually be entitled to hold him liable for the expenditure except for the cost of surplus cement. The contractor will then have to decide as to whether he will pay, resist an action or call for an arbitration Apart from the mishap and faulty construction work in the tunnel, the contractors did not, in spite of our instructions and reminders, comply with the specification in the matter of proper allowance for shrinkage of the dam, which is under the specified ontours for most of the crest. To disturb the upper portion of the dam,

to bring it to full contours, would be nadvisable, apart from the portion ffected by the 1939 mishap, which should be brought up to surrounding levels. The matter, however, should meeting should take place with you at which the contractors and ourselves would be present, to see if a settlement could be obtained satis-

RURAL IMPROVEMENTS

The Parliamentary Secretary to the Minister for Finance announces the adoption of a new scheme for the joint benefit of groups of har-mers. The object of the scheme is to assist farmers to increase pla-duction of foodstuffs and fuel during the present emergency by arranging for the construction or repair of accommodation roads and small bridges used jointly by a number of landholders, and for the execution

of minor drainage works which serve more than one farm. One of the conditions of the scheme is that landholders who benefit by the works will make a joint contribution in cash of single quarter of the agreed cost of approved works before they are put in hands; but in the case of my ide calls out quanties in the tender cash contribution required from the

TIPPERARY Waterford 4-5; Tipperary, 1-2.

At the Gaelic Field, Dungarvan, on Sunday last, Waterford's senior hurlers got over their first obstacle on their way to Croke Park, by defeating. feating Tipperary by 4-5 to 1-2 in the first round of the Munster Senior Hurling Championship, From the throw-in the Waterford men attacked and outclassed and outplayed their opponents in every department. It was the Deise men's first championship win since 1938 when they contested the final that year with Dublin, but it was a most emphatic win. The game and the day were reminiscent of their epic struggle with Cork, whom they beat here in 1938 by 5-2 to 1-3. On Sunday's display it looks as if the Big Five made no mistake this time and they have picked men well worthy of representing the county.

The Waterford team was very fit and reached far better form than in any of the last four seasons. They were the speedier lot and adapted themselves much better to the prevailing weather conditions th

Heavy showers during Sunday's game made matters most unplea the teams on to the field and Mr. J. Barry, Cork, had charge of the game, Mr. Dec Goode, County Board Secretary, had complete charge of the arrangements, and this onerous work, no doubt, en-

tailed no small measure of care and attention. The apple-pie order of everything, even to the minutest detail, clearly points out the efficiency of Dec's. organising ability.

HOW THE SCORES CAME. Waterford opened the scoring inside five minutes when Galvin goaled, and some minutes later Keane sent over the bar from a free. Galvin added a second minor, and when Waterford's backs fouled, O'Brien opened Tipperary's with a point. Waterford again took the offensive and following a nice passing movement Feeney goaled. Tip-perary rallied but the Waterford defence cleared two stiff raids. Baston then sent in a beauty for Wyse to smash into the net, so that Water-ford led at the interval by 3-2 to 0-1. Waterford opened the second half again in brilliant fashion when Moylan sent over the bar and Baston followed with a similar score M. Maher (Tipperary) replied with a point but a minute later W. Barron negatived. Waterford were now

having the better of matters with Baston and Moylan dominating at midfield. Daly added another Waterford goal before a Tipperary rally gave them their only goal per M. Maher. Waterford.—J. Ware (capt.), C. Curley, A. Fleming, M. Hayes, J. Keane, M. Creed, M. Hickey, C.

SOCIAL SECURITY

The poor, the aged, the infirm, have at all times received special consideration from the Fianna Fail Government. £11,600,000 has been provided for social services in the present year, three times the maximum amount ever voted for similar services in any year before the election of Fianna Fáil Government.

FIANNA FAIL

- (1) Increased by a Million Pounds per year the provision for Old Age Pensions
- Reduced from 50 to 30 years the qualifying age for Blind Pensions. £100.000 was spent on welfare schemes for
- Instituted the Widows' and Orphahs' Pensions Scheme under which 58,000 people benefit. Expenditure on this service has totalled £4,000,000.
- Put over \$00,000 persons in new houses.
- Enacted the Unemployment Assistance Act. Before Fiantia Fail there was he Unemployment Assistance.
- Introduced the Food Voucher Scheme during the war, under which vouchers exchangeable for Milk. Bread and Butter are given to various classes. £200,000 has been given to Local Authorities to supplement the aid given by them to necessitous persons.
- Organised large-scale works schemes for which a total of x11.250.000 was provided. The expenditure on such schemes under Fianna Fail in any one year exceeded the total expenditure on similar schemes during the whole ten years of Fine Gael Government.
- £2.256.000 are being spent this year on Public Health Services, provided to challe the health and social wellbeing of the people.

The June Bride

The great day has come and the young couple are entering into a new and fuller life, happy in their mutual relations and facing the future with confidence.

But they cannot be sure of what the years have in store for them, and the wise bridegroom takes care to see that his bride is protected from the very start from the prospect of financial distress, by making adequate provision for the happy years of leisure they hope to enjoy together when it will be possible to retire from business.

It is easy to make the future secure at a cost well within the means of the average man by effecting a policy with the leading Irish Life Office. We offer absolute security at the lowest cost, and particulars of all classes of Life Assurance will be gladly furnished by our Representatives or on application to:

WAKE UP YOUR LIVER BILE

without Calomei — and you'll jump out of bed in the morning full of vim and vigour The liver should pour out two pints of liquid bile into your bowels daily. If this bile, is not flowing freely, your food doesn't digest. It just decays in the bowels. Cas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk, and the world looks punk.

Laxatives help a little, but a mere bowel movement doesn't get at the cause. It takes those good old Carters Little Liver Pills to get these two pints of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carters Little Liver Pills. Stubbornly refuse anything-els, 175 and 34.

Mr. Duffy referred to the neutrality policy of the Planta Fail Government, and to the fact that in some instances Irish nationals in Great Britain we's denied the facility of returning to this country unless they rould produce evidence that they owned property or resources in Irelated. He stated that the Labour Covernment would ensure that full employment was provided in this country, making it unnecessary for Irishmen to have to offer their services to a beligerent in order to maintain their families, and so make a neutrality policy a reality. He also mentioned the claim of the Fighus Fail Government that in their period of office the value of industrial production increased from 16 million pounds to 28 million pounds to 28 million pounds a year.

What the farmers want is representation in the government to see that they get remunerative prices for their produce. When they get these they in turn, can pay their labour remunerative wages. The political parties were going about the country cutting the feet, so to speak, from under each other. He appealed to the voters to think of the Farmers on election day and not listen to the politicians going around talking of wheat and beet, as it is the farmer and the labourer that know all about wheat and beet. as it is the farmer and the labourer that know all about the growing of wheat and beet. He will promise, on behalf of his coliegue, Mr. Norris and himself, the domestic matters, matters which concerned the men and women of Waterford City, Dungarvan and Lismore. He referred to the fact that in the course of one of his addresses early in the campaign he stated that Waterford, Dungarvan and Lismore were victimized by the Fianna Fial Government to the extent of a quarter of a million pounds approximately.

Since he made that statement many people had approached the Fianna Fail Party who stated that Jerome Guiry was speaking through his hat. Mir.
