Saulty Begins at Home.-In these dark days it is sheer madness to over-look the nightly risk of infection while you sleep. Ordinary mattresses, often made from old materials which have been rejuvenated, reteased, fluffed-up and allect new, are a regular playground for germs. You endanger your health every time you turn-in on one. But the "O'Dearest" Sanitized Mattress is made solely from new raw materials. It is actively antiseptic, permanently germ-proof, self-sterilizing, and sumptuously buoyant. Brushing and shaking cannot injure the sanitized effect, which lasts for the life of the mattress. Be modern. Have the presence of mind to insure the absence of microbes. Order your "O'Dearrest" Sanitized Mattress for every hed in the house. Pay as you sleep. CAPPOQUIN NOTES

G.A.A.—Loca! Gaelic fans were rather disappointed when it became known on Friday night last that the junior hurling match, Brickey Rangers v. Fourmilewater which was fixed for Modeligo on Sunday last, was off. Gaels throughout the County had looked forward to the meeting of those two teams. The result was that all Gaels turned their attention to the Inter-Brigade games in Dungarwan. Although the weather was most unfavourable, yet, all who travelled were delighted with the splendid exhibitions which they witnessed and hope to see more games such as those in the future.

N.A.C.A.—The toss of a coin decided the winner in the Three Miles' Cycle, open handicap race, at Cahir Sports on Sunday last. It was a splendid race and coming to the finish it developed into a neck-and-neck affair between Jimmy Foley and W. Condon. Both men crossed the tape together and the judges gave their decision—a dead heat. It was decided to toss a coin and Jimmy Foley won the toss, Jimmy was very foley won the toss, Jimmy was very foley won the toss, Jimmy was very foley and the future and rehearsals are held twice a week and are largely attended.

The Parish Council.—Several inquiries have been heard during the Foley won the toss, Jimmy was very narrowly beaten in the one mile cycle open handicap in which the handicap was rather severe. The winner of this event was J. Phelan, Tipperary, another champion. On this form it looks as if our local idol is going to make it pretty hot for his opponents at the coming sports meeting here. make it pretty hot for his opponents at the coming sports meeting here. All arrangements are made for this meeting, the track has been levelled granted favourable weather conditions some great cycling should be cil revived.

And Still they go.—Week after week we chronicle the departure of somebody of other from the "Old Cornerstone," for employment elsewhere. Early this week two more men took their departure, namely, Willie Crotty and John Driscoll. We wish them both as well as all other Cappoquin men across the seas, the best of luck and hope they may prosper in the land of their adoption.

Match at Lismore.—Tallow meet Tourin in the semi-final of the Lismore Group on Sunday next in junior nurling. The winners meet Araglen. Special preparations are going on at both camps for the game. Both teams fancy their chances and appear to have almost equal chances of victory while Tallow team will be without a couple of the players who were pro-moted to senior. I hear that the new comers from the river banks can easily make up for their loss. Tourin are a seasoned team and can be

NATIONAL ACTION. A PLAN FOR THE NATIONAL RECOVERY OF IRELAND.

This booklet offers a practical, simple, but comprehensive plan for the radical re-organisation of this country. It proposes the collective revision of all our major systems, as a basic requisite for national recovery. The great feature of the book is that wherever it indicates a defective system, whether in education, economics or public service, it sets out also reasoned, common it sets out also reaso sense alternatives. The fact that the first edition of 6,000 copies has been sold within six months of publication is an achievement in itself. The author is evidently familiar with our author is evidently familiar with our educational systems. He points out the weaknesses in our present primary and secondary programmes by overloading, over-emphasis on abstract teaching and the almost complete absence of practical training in relation to the person, the home or the land. He advocates a co-ordinated re-cast of the educational system and the inclusion, as obligatory subjects of Domestic Science for girls, natural science, drawing and manual training for primary and secondary schools, and a change orientation towards the life and work of the country. There are sections dealing with the language, finance, wheat, economics, the civil service and population. All approached from a simple, common sense standpoint and with the outline of a complete recovery plan coordinating every section.

Most welcome is the announcement that the Government and the E.S.B. are now taking the preliminary steps towards bringing the benefits of elec-tricity to the rural community. Legislation is to be introduced to en-able the Board to proceed with a ten years' programme of widespread rural electrification. Doubtless little if anything tangible can be done until the war ends and the essential supplies of material become available. 'While mindful of the heavy cost that will be entailed, we feel confident that the until will be entailed. confident that the outlay will be well worth while. "The comprehensive report called for by the Government from the Electricity Supply Board on the extension of electricity supply to the farming community has been considered. A decision has been taken by the Government to promote legislation which will enable the Board to mbark on a ten years' programme of widespread rural electrification.
"The Government has requested the Board to proceed immediately with plans so that that development may be undertaken simultar in as many areas as possible as soon as the necessary legislation is enacted and adequate supplies of materials become available. While the state of

emergency lasts it is considered that shortage of materials will not permit of actual construction work being "Steps are to be taken to ensure that as far as possible the necessary equipment for extension of electricity ply and electrical installations in farm dwellings is manufactured in reland by the Board or otherwise. "The scheme, apart from providing

for the requirements of the rural community in electricity supply, will afford considerable new and long term employment." The new scheme marks the last big step in the completion of the elec-trification of the country envisaged by Dr. T. F. McLaughlin, 20 years ago, when he planned the Shannon

Scheme as a first step. HAS COST £18,000,000. The development now contemplated may cost from £20,000,000 to £30,000,000. WAKE UP YOUR

The liver should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, has bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk, and the world looks punk.

Lixatives help as little, but a mere bowel movement doesn't get at the cause it takes those good old Carters Little Liver Pills to get these two pints at bile flowing freely and make you feel "up and up." Hafmless, gentle, yet amazing in making bile flow freely. Ask for Carters Little Liver Pills. Stubbornly refuse anything else, 1/3 and 3/-.
