WAKE UP YOUR LIVER BILE withou? Calomei — and you'll jump out of hed in the morning full of vim and vigour

The liver should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour; sunk, and the world books punk.

Lerroves help a little, but a mere bowel movement decan't get at the cause. It takes those good old Carters Little Liver Pills to get these two pints of bile flowing freely and make you feel "up and up." Harmless, sentle, yet amazing is making bile flow freely. NEW PUBLIC HEALTH NURSE FOR CO. WATERFORD

Last week Miss Cathleen Cotter, of Tinniscart, Aglish, was appointed subject to the sanction of the Minister for Local Government and Public Health, to the position of Public Health Nurse for Co. Waterford. She was appointed by Mr. S. J. Moynihan, Co. Manager, assisted by a Board of Public Health officials from Waterford and Tipperary. There were 24 applicants.
The duties of the Co.

The duties of the Co. Public Health Nurse are numerous. They consist of school medical work, supervision of midwives and jubilee nurses, T.B. work, maternity and and child welfare, attendance at various clinics throughout the county and all the secretarial work

As President of this keen, energetic guild Miss Cotter has a lot of work to do, but her activities do not work to do, but her activities do not end here, for, even more exacting and urgent are her duties as a divisional officer of a First Aid Division of the Red Cross. The Division consists of about sixty members and comprises the areas of Dungarvan, Ring, Colligan and Ardmore, in all of which she must supervise and visit regularly the members. This she does with apparent ease having had much experience. Indeed, it is not easy to find in our county a divisional officer with more experience of the workings of the Red Cross in war as well as in peace than this nurse who has been in nearly three hundred air raids on Britain, witnessed the burnings of Coventry and other cities and who was actively engaged in the evacuation from Dunkirk. We feel sure her Division must benefit from her wide experience.

Things I have Heard,-That Kilgobinet are getting ready for Ballyup in Cappoquin during last week, That Villierstown Club are having some domestic troubles. That the Brickies may yet field a senior foot-ball team. That a big number of hurlers and footballers in Dungarouting at an early date. That there is "fifth column" work in Old Parish Club. That Modelige will be the dark horse of this year's junior hurling teams. That Sliabh gCua expect a win in their first round.

Cannot we be as friendly with England outside the Empire as we are at would be on a solid basis. But, howperialists are ever starting through

their avrice and jealousies, We in Aiseinghe believe : (a) That rather by its own strength, self-re-liance, faith in God's help, if the cause in just and a will to fight if necessary for her rights. (b) It is as The champion beet grower of Ireland in 1943 was Mr Maurice Veale, Ballinacourty, Dungarvan, who won the Cup presented by the Irish Sugar Co. by producing 21 tons 18 cwts of washed beet per statute acre. This washed beet per st Co. by producing 21 tons 18 cwts of washed beet per statute acre. This washed beet per statute acre. This read that men can still go but not for a strong unity and furthermore the removal of any basis of disunity which can be exploited by our tiri na hAiseirghe as regards the de enemies, such as warring political gratulations on his success.

The average yield for the whole country was 8.8 tons per statute acre, and the average yield of the prize winners was 16.3 tons. Individual results amongst prize winners ranged from 14 tons to about 22 tons.

Southern winners were in the securing of our complete independence. First of all it is based on the historical truth that England or any other big nation will not allow Eire become great if they can prevent it and until by her actions she can prove otherwise to telerate Eire as an equal. LATE MR. MCE. GRIFFIN.

Sincere sympathy was expressed on all sides on the news of the death of Mr. Mcc. Griffin, Sexton Street, Abbeyside, which occurred at his residence on Thursday night last. Although not in robust health for the preceding twelve months, nevertheless his death was not expected as he was out and about on the previous days.

the previous days.

The deceased was brother of the late Mrs. M. J. Christopher, N.T., who died only a few months ago; the late Mrs. A. Donoghue, and of Mrs. Wm. Flynn, Sexton Street, Abbeyside, and Mrs. Boland U.S.A.

A keen and progressive businessman the deceased took a lively interest in both national and local administrative affairs. He was a reministrative affairs. He was a recognised authority on municipal administration and in the Dungargarvan Urban Council chamber (of which body he was a member for a long unbroken period) his knowledge of the various clauses of Local Government Acts was amazing. A very large and representative cortege attended at the removal of the remains to Abbeyside Parish Church on Friday evening where the coffin, which had been shouldered all the way by relays of parishioners, was received and especially and especially and especially and especially are received. parishioners, was received and es-corted into the Church by the Rev. Fr. Ml. Power, C.C. On Saturday morning after the celebration of Re-ouiem Mass interment was made in the adjoining cemetery in the pre-sence of another big gathering of relatives and the general public. Very Rev. J. Roche, P.P., assisted by Rev. Fr. Power, C.C., officiated at the graveside. Many Mass cards telegrams and messages of sympathy were received by the family.

CORRESPONDENCE

OUR FOOTBALL TEAM.

From recent G.A.A. reports it is evident that there is a big number of Gaels interested in the welfare of the home serior football team. That just means that the Deise footballers are slowly recovering from a long slumber and when this strange wave in the final. Nobody will deny that Augustinian tournaments provide a standard of caman-craft equal even to county championship tests. That this particular game is destined to create a record in attendance and our county in some mysterious manner and I think its going to stay with us. The hurling team seems to the growing increase in travel diffi-culty, bicycles are becoming daily have left its impressions; outside, the more precious. There is even a possibility that in a short time the All-Ireland crown will rest on the south-east coast of Munster for the next twelve months and this will cause no shock-it's due. They know it's coming; the might of our hurlers is too well known. With an all-out organisation could Waterford not cause the sensation of the century with a double? With a win in the From the respective head quarters comes the following news: Glen Rovers—"Our boys have gone into all the clubs united in that grand all the clubs united in that grand old spirit, victory is assured. FISHERY BOARD MEETING.

Mr. R. G. Annesley, Chairman, presided at the meeting of the Lismore No. 4 Board of Fishery Conservators held at the Devonshire Arms Hotel, Youghal. Those present were: Messrs. G. Fitzgerald, Vice-Chair-man; Ion H. F. Villiers Stuart, M. Keniry, M. Shanahan, J. Kennedy, W. Dunne, J. P. Daly, B.E.; E. D. Condon, J. Healy, Dr. A. E. J. Went, Dept. of Fisheries; J. L. Keane, Solr. to the Board; Inspector J. P. Kenny, and J. Power, Secretary.

The Auditor's report of the Ac- and the majority reached upper counts for the three years ending waters. One salmon of 30 lbs. was 30th September, 1943, stated that the present arrangement of financing and operating the hatcheries had fry stage and will be liberated in subsisted for some 35 years and is about three weeks, also 15.000 trout not on a correct basis with particular regard to certain recent disbursements by the Conservators which have not yet been fully recouped to have not yet been fully recouped to the Board's funds. The Accounts were presented in the usual satisfactory manner and all required in- grating has been erected in all mills

The Department Officer, Dr. A. E. J. Went, who attended, suggested to the Board that a committee be Hatchery Committee" and consisting of two members and an ex-officio member of the tidal area and the same from the freshwater area, who would elect their own Chairman. The term of office of such committee to be the same as that of the Board. A diction. The Committee's accounts would not be subject to the L.G.D.

There was a lengthy discussion on the proposal and several members expressed the view that it was not possible to maintain the hatcheries by private subscriptions. The Clerk stated that the collection of subscrip-tions was not as difficult as members seemed to think. Eventually the Board decided to adopt the suggestion of Dr. Went and that the new when it was at a low level. Very nmittee be formed at the next

Regarding the poisoning of the Blackwater at the Mallow Beet Factory, Mr. J. L. Keane, Solr. to the Board, stated he had communicated with the Factory Manager and received a reply intimating that all resources were utilised to ensure that no process water entered the river in an untreated stated during the 1943/44 campaign. The Company will diligently continue to pursue methods for the elimination of matters which give rise to complaints

from the Board. In this connection a letter from the Department was read which stated that representation was made to the Irish Sugar Co. as to the necessity for taking immediate steps to amend the situation and an assurance was received that nothing practical would be left undone to find a solution of the problem. The Department suggested that daily readings be taken of the water shown on the guages at Mallow Bridge and at the intake works at the Factory and that they be furnished with a record of

same each quarter. The Board considered the reply of the Factory to Mr. Keane's letter as being unsatisfactory and Dr. Went stated that in the new Fisheries' Act provsion was made for re-enacting Sect. 80 of the 1842 Act which was repealed by the Act of 1939. It was also found that the provision for safeguarding the river from poisoning by factory effluent contained in the 1939 Act were insufficient. Mr. Keane expressed satisfaction that Sect. 80 of the 1842 Act was reenacted and said this was one of the

amendments to the Fishery Bill which he had forwarded on the Board's behalf. After further discussion the Board decided to leave the matter in the hands of Mr. Keane. The Drainage Bill now before the Dail was discussed and the Board directed that the following resolution be sent to each T.D. in the Waterford

SUPPER EXTRA. CYCLE PARK.

Mr. D. O'Sullivan wrote informing the Board that from the analysis of water taken at Mallow Beet Factory

on December 30, that the water contained a considerable amount of organic matter and its dissolved oxygen content has been so far reduced below normal (0.9 per 100,000) as to be inimical to fish life. Inspector Kenny reported that owing to the low level of the Black-

water, rod fishing had been poor, The net season at Youghal opened badly, only 135 fish were taken that day along the whole estuary. The catches at Carysville were somewhat similar to February, 1943, i.e., 80 salmon. A good supply of salmon entered the river during January taken by an angler at Mallow. At formation and explanation were to safeguard the descent of salmon smolts during March, April and May. A new timber sluice is required at Clondulane to replace the old one. Last December he visited Kilcorney formed to be called the "Blackwater | Creamery where a new water course the control of the course is constructed to convey effluent to the river Owbane and he instructed the manager to erect a salmon grating to prevent salmon entering the mill race. Fish can ascend the "pass" as the greater part of the water is passing through it as it was not possible to procure buoys the defined marks below the weir have not yet been erected. The campaign at Mallow Beet Factory ended to-wards the beginning of February. Practically all sour water was little of the effluent was allowed into the basin. While on duty on the morning of February 26, in the Clonard district of Youghal Bay, a drift net of 85 yards fixed by three anchors was seized by waterke feited at Youghal Court on March 3. As it was not possible to procure a boat for Clondulane it was necessary to have the old boat repaired. Waterkeeper Forde has resigned from

Mallow Hatchery and another man will not be appointed in his place.

The Board approved of the report. Wholesalers and retailers of Soda Crystals and Copper Sulphate, in-tended for use in spraying this year's potato crop, are strongly advised by the Department of Agriculture to place their orders for these materials mediately. It is understood that equate stocks will be available. If orders are delayed, it may not be possible, owing to transport difficulties, to give delivery in time.
