By "AN RUNAIDHE." Ring Tournament.—The Secretary

of the Ring Club has informed me that due to the members of the different clubs entered for the tournament being at present busy with harvest work his committee have decided to postpone the matches fixed for at least three weeks. I understand also that some clubs are objecting to play-ing at the Ring venue, but that, of course, is all nonsense because all club tournament games are always played in the home venue of the club inning the competitions. My advise to Ring is to make the fixtures and get dates to suit if possible and then

stand by your dates.

Draws and Fixtures Meeting
Very Rev. Fr. W. Flynn, P.P., President, Waterford County Camogie Board presided at the draws and fixtures meeting held at Conway's Hotel on Sunday evening last. Miss Cait Flynn, B.A., B.Comm., Chairman and Miss M. Montayne, Secretary were also in attendance. Delegates were present from the following clubs:—Aglish, Beary's Cross, Ballyduff, Cappoquin, Clashmore, Cappagh, Dungarvan, Kinsalebeg, Knockanore, Lismore and Tallow.

Inter-County Match at Lismore.—

Inter-County Match at Lismore. -The Secretary reported that the inter-County Munster championship match, County Munster championship match,
Tipperary v. Waterford, originally
fixed for Clonmel on Sunday next,
August 27th could not be played as
the Clonmel field would not be available and the Munster Council had
agreed to change the venue to Waterford, the venue to be either Lismore
or Cappendin.

The Rev. Chairman said that both the Lismore and Cappoquin field committees would give their fields without charge in an effort to secure the fixture. The proposal that the match be played in Lismore was put by Miss Monica Noonan and seconded by the Aglish representative, and an amendment that Cappoquin be the venue, was proposed by Miss K.
Mansfield seconded by the Chairman.
Lismore was selected on a vote of 11

to 8 for Cappoquin.

The Rev. Chairman then gave the names and placings of the Waterford team to represent the County in their inter-County contest as follows:— Mary Scanlan (Ballyduff), goal P. Curran Nora Hennessy P. Neville (Clashmore) (B'duff) (Knockanore)

Sunday's Match at Cappoquin between the Probables and Possibles proved a very closely contested affair and so evenly were the teams matched that only a goal separated minutes. The match was a tribute to the players concerned and incidentally the game set the selectors a further very difficult problem in the selection of the final team to represent the County from such a galaxy of good players. It goes without say-ing that the girls of Waterford (who have only 3 months' practice), if they continue to train will be a force to contend with for the best. The final score in last Sunday's trial game was —Probables, 6-1; Possibles, 5-1.

Overdraft Accommodation.—Resoutions requesting the treasurers of the Council for overdraft accommodation, limited to £20,000 in respect of the general account and £30,000 in respect of the turf account, were

Board Vacancies.—The following were re-appointed on the Infirmary Board:—Messrs M. Butler, T. Power, N. Sheehan, and G. Torpey. Mr. L. A. Veale was re-appointed to a vacancy on the Board of Assistance. In connection with a vacancy on the Vocational Education Committee, caused by the resignation of the Very Rev. T. B. Walsh, P.P., St. Patrick's,

Waterford, a letter was read from the Tramore Development Association asking that the vacancy be filled by someone from Tramore. The Acting Secretary stated that no official notification had been received of the vacancy yet.

Chairman—As we have not been informed by the Committee of the vacancy, we can't do anything yet.

The matter was adjourned. Slaughterhouse Bye-Laws.—When the matter of the adoption of bye-laws in respect of slaughter-houses came before the meeting, Mr. Cough-lan asked would it affect people who already had licences and would they be obliged to comply with the new regulations.

The County Manager said that in accordance with the wishes of the Council regarding the resolution asking that Mr. Michael Connors be given an opportunity of acquiring a further knowledge of Irish so as to enable him to carry out his duties through the medium of that language, he had received a communication from the Department which stated that the Minister was not prepared to vary his decision in that matter and that the Council should proceed to fill the vacancy. He (the Manager) had felt statutory bound, however, to that the Council should proceed to fill the vacancy. Mr. Coughlan said that at the be-

In Kilmacthomas the Parish Council cut turf and were the Parish Council cut turf and were able to sell it at 35/- per ton up to last year, when there was a slight increase up to 39/-. The Parish Council went to a lot of trouble to cut this turf so that the poor people could get it cheaply, but now they could not cut any turf. This meant that they had to get turf from Waterford city and had to pay 64/- a ten for it plus carhad to pay 64/- a ton for it, plus carriage. An inspector from the Department visited the area, and after that ment visited the area, and after that they were refused a permit to cut turf or even buy turf from the County Council. The thing was ridiculous, and there was a whole amount of turf only a few miles from Kilmacthomas.

Senator Goulding said it was an extraordinary thing, as a Parish Council was a non-profit-making body.

Mr Coughlan-We can't buy it anywhere; we must get all turf through Fuel Importers.

Senator Goulding — Could individual producers do it?

Arising from the above Mr. O'Ryan spoke of the inconvenience caused to pensioners in the Knockanaffarin area who were in the Carrick No. 2 district and said that if the sub-committee in the area were transferred to the Clonmel No. 2, it would

Council of the country's most efficient officers. He (Mr. Harty) must congratulate Senator Goulding on his re-election but he was sorry that he could not congratulate him on the manner the Government had made this appointnent. To his mind everything in this country to-day was being run on dictatorial and bureaucratic way. He resented the way this commission had come to a decision about a man whom they all knew was one of the most efficient and capable officials in the country, without consulting the Co. Council about his qualifications. It was impossible to do it. He resented it very much and he strongly resented it on behalf of the hundreds of people who had spoken to him

of people who had spoken to him about it last week. Mr. Veale said he regretted very much the way Mr. Boyle had been turned down, and if such a system of appointing were continued there was no chance for efficient and capable officials of ever getting promotion.
Mr. Boyle was a very highly efficient official and they should protest against his being turned down. Mr. O'Ryan said that no one regretted more than he did that Mr.

gretted more than he did that Mr. Boyle had not been appointed. They would all like to see a man from their own county appointed. He (Mr. O'Ryan), however fully believed in the Appointments Commission, because, after all, it was composed of experts. He was in public life for 40 years and he knew the bribery and corruption that went on when and corruption that went on when appointments were being made. The appointments were being made. The man with the long-tailed family always got the job. A man voted for someone he did not know because he could not refuse some relation or other of this man's family. He, for one, was glad that this method of appointing was gone and he held that all appointments should be made by the Appointments Commission. Mr. Harty said that he did not say that the Appointments Commission should not be there, but he did and

would still say that the members of the Commission should have con-sulted the Council and got the views of the members on Mr. Boyle's qualiwas a very efficient officer. Senator Goulding then went on to describe the composition of the Commission pointing out that it was composed of a panel of experts in different pro-fessions such as doctors, engineers, etc. When the apointing of a doctor was being made the examiners were chosen from the doctors' panel; in the case of an engineering appoint-ment, engineering experts examined the qualifications of the candidates, and so on Senator Goulding also

pointed out that the members of the Commission were selected from nearly every Co. in Ireland and any pproach to them by a candidate be approach to them by a candidate before an interview meant disqualification for such candidate.

Mr. Morrissey, T.D., said that there was not more efficient official than Mr. Boyle and they all regretted that he had not been successful. He (Mr. Morrissey) because a greed with Mr. Morrissey) however, agreed with Mr. O'Ryan that the Local Apointments Commission should have the making

LOCAL HAPPENINGS

On the Farm.—Good progress has been made with harvest operations Senator Goulding said he knew and was a personal friend of Mr. Boyle for a long number of years and he regretted very much that he had not been successful. Mr. Boyle is a possibility of a lean period for time to prepare for such an even-tuality and a number of farmers have already done so by sowing catch crops. This is a lead that could profitably be followed by others and particularly by those who fear a shortage of roots. Best results are obtained when stubble get an application of dung, followed by a light ploughing. Rape is one of the most reliable crops, and sowings should be made at the earliest possible date.
