(Waterford Bridgade) it was unanimously decided in response to an appeal by Diarmuid Mac Fionnlaoich, President of the Gaelic League, to request the members of this Association to refrain from trading with the business premises in Talbot Street, Dublin, as a protest against the refusal of the traders of that street to have the street name changed from Talbot to Sean Treacy Street. This request is extended to the general public and particularly to any shopkeeper who may have business dealings with the

JUNIOR HURLING FINAL.

Vol. 33. No. 1,626.

Cappoquin secured the junior hurl-ing championship of the county when at the Gaelic Field, Dungarvan, they defeated Clonea (Power), Eastern game was, except for spasmodic flashes of good play, rather dis-appointing, and both sides, perhaps hrough over-eagerness, missed many opportunities. Cappoquin deserved their victory, and their policy of con-centrating on ground hurling, par-ticularly in the first half, against their opponents' proneness for lifting, earned for them a handsome lead in this moiety, and this lead stood them in good stead in the closing stages of the game, when Clonea staged a won-derful rally and were quickly wiping out the deficit against them when the Clones had a decided pull at midfield. the close cohesion necessary between

The Game.—Mr. Dec. Sullivan (Dungarvan Club) set the teams in motion sharp to time, Clonea going immediately into the attack, and although getting a free from a nice position, sent wide. Cappoquin took the puck-out all the way and Clonea saved at the expense of a 70, which the success of Mr. P. Cappoquin were conclusion that his relatively small acreage had not that potential earning capacity to make it economic. In the culture of fruit he found a much more profitable avenue of activity. At first he was slow to depart from normal farming, but he now thanks normal farming, but he now thanks greatly the encouragement and very practical help in that direction which he received from Mr. P. O'Shea, the he received from Mr. P. O'Shea, the horticultural instructor of the Waterford County Committee of Agriculture. On Mr. O'Shea's advice, Mr. Morrissey planted 1 acre of orchard in 1937. This proved such a success that he dealer to graph of the ball spun off his hurley and went the ball spun off his hurley and hard here. that he decided to go in for apple over the bar for a point. Clonea were now pressing determinedly and had a point. Keeping up the pressure Cappoquin saved at the expense of a 70. This was cleared and Cappoquin took play to the other end

This was nullified by the Cappoquin de-fence and play transferred, a good shot at goal again striking the upright and Clonea cleared. Arriving back at the Square, silence was demanded and Mr. Pat McCarthy, addressed the people in a very appropriate speech at the conclusion of which he introduced Mr. P. English (capt.), Mr. Jas. GAELIC NOTES : SENIOR CLUBS | WATERFORD HURLERS STAGE By "TAOBHLINE."

Congratulations to our senior nurlers who on Sunday last confounded the critics with a smashing eight points' victory over the All-I ns (Cork) in the final of the Ignatius Rice tournament, played at the Sportsfield, Waterford. To those of my readers who were not present, Waterford's victory was no fluke, and quarter, and at half time enjoyed a quarter, and at hair time enjoyed a 12 points interval lead. On resumption the Decies men faced a slight breeze, and when Cork goaled, followed by a point, it looked as if Waterford's lead was going to be wiped out. Mick Hickey, however,

Come. But for the benefit of those who were unable to be present, I will here give an unbiassed opinion of the team.

Jim Ware in goal had an off day, and were he in form I tremble to think of what score we would have won by. Readers note, "I tremble to think." Sonny Curley is going back and he was not reliable on Sunday last. Daly, the Army man, was not great, but he did some splendid spoiling defensive work, and he is likely to improve with a few more outings. Mick Hayes was as usual sound, but I have seen him play better games. Andy Fleming was out on his own and was our star defender. John Keane after his long lay-off was never he provided the matter to the thorities, but so far those reliable of the Aboeyside so in progress. The work was for a considerable time ow victory (Cork, 2-3; Waterford 1-0).

A point per Feeney led to a remarkable revival on the Waterford team. Baston and Barry added two further minors. A great shot by M. Hickey struck the upright and D. Power securing the rebound passed to Feeney who again gave Waterford a great goal. Amidst thundering applause C. Murphy cleared a dangerous situation for Cork and J. Lynch sent wide for the Rebel county. J. Keane showed some of his old form when he mashed a great Cork rally. P. Dowling but Barry in possession and the smashed a great Cork rally. P. Paddy Dowling could not be beaten, and we owe our victory to Make Mount Sion wing men (Flenning and Dowling), who were in rare form. Mick Hickey at centre field gave a great all-round display, and in my opinion was the best player on view. Barry (Army) has proved himself a real "find" and his lightning deliveries were a feature of the game. It is seldom our forwards get the bouquets, but they deserve them on Sunday's display. them on Sunday's display. Barron on the right wing, as I expected, gave one of his best displays, and his two great goals at a vital stage of the game were masterly. Davy Power on the forty yards gave his best display to date, and he was a great worker in close play. Vin Baston seemed to favour "on the loose" in the first half, but he had a very good second half and was always an opportunist deadly accurate. Mickey Feeney played havoc with the Cork defence and gave a great display in

Declish Waterworks Report.

Arising from the minutes of the last quarterly meeting, Mr. Morrissey asked if the consulting engineers had given the report on the Declish waterworks scheme

Clerk-Not yet, but it is expected next week. There are some outstandnext week. There are some outstanding items to be dealt with yet.

Acting B.S.'s Report.—The report of the Acting B.S. was as follows:—

Declish Waterworks.—Conditions at Declish remain unchanged. The filters are working, but the chemical dosing plant has not as yet been pu into service. Tests have been madfrom time to time to arrive at a cor-rect dose, and it was decided that it would be necessary to get two smaller pipettes. These had been sent for but have not been received as yet. The meter still shows that from 8,000 to \$,000 gallons per hour are passing through the town, with very little difference between night and day

Waste.—It is clear that a large mount of waste and leakage is sti pipes and fittings, care estionably leaks in the mains as thorough examination is carried out sumer's fittings be examined and tested; that all mains be tested and reported on with a view to stoppage of leaks. I estimate the cost of having this done at about £250.

I wish to report further damage to the Council's property, namely, the railing at Loughmore housing scheme and a tap at Youghal Road. The latter has been damaged on two occasions previously within a short time. believe it is not required here. As regards the railing at Loughmore, considerable damage has been done here on two occasions. I have re-

B.S.—It's a big job.
Mr. Morrissey—I know. Other Boards have their officers for looking after defective services and pipes. We have a water inspector, and if gear is wanted, give it to him by all means. I think it is ridiculous to spend that amount of money when we have an inspector here who, I am sure, can carry out the work, and if extra assistance is needed, let him

Manager-I am not casting any spersions on him. Inspection Deferred. - Mr. Morssey said tests were carried out before for leakages, but there was still leakage going on. Now it was proposed to spend £250 more.

B.S.—What I propose to do is a big job. Every main and pipe in the town

will be tested. If the water inspector had to do that it would last for twelve Mr. Morrissey said that £300 had ent already on testing the mains and he did not see why another £250 should be soent.

Objection.—Irish Tanners Port-law Senior Hurling Club objected against the Army Third Batt. S.H. Club being awarded the Waterford S.H. Co. Championship on Sunday, October 1st, 1944. Capt. Murrihy and Major Higgins represented the Army; D. Power and Frank Roche represented Portlaw.

possibilities of doing something to have the matter cleared up. Point No. 1-In discusion Frank Roche, Portlaw, said Joseph Kevin McMahon was not a registered mem-ber of the Army S.H. team who played against Portlaw in the S.H.

Capt. Murrihy said he made out the Army registers and the player objected to in point No. 1 of the objection was registered in the Army Football Register. He, therefore, maintained that Capt. McMahon was a registered member of the Army team and that by his transfer from Waterford to Kilkenny he had auto-P. Donnelly asked did the Army

Capt. Murrihy said if a player was transferred from one county another he was in order to play. Point No. 2: F. Roche quoted Rule 10, page 4, O.G., 1943, and said P. Molloy played in the Kilkenny onships with Three Castles v. St. Brendans on 14/5/44, and he could produce a witness who saw

D. Power, Portlaw, left the meeting for witness who saw Molley play J. O'Neill, witness, a member of Portlaw Club, came before the meet-ing. He said he saw Molloy play in the match, Three Castles v. saw Molloy play. Capt. Murrihy submitted a list which showed the match in question was played 14/5/'44. Point 2 was withdrawn. Point 2B was also withdrawn, as also was

Point 3A: D. Power, Portlaw, said Dunphy, the player objected to was Kilkenny in 1943, and he played with Ballytruckle in 1942. Withdrawn as there was no evidence in support.

Point No. 4: D. Power quoted Rules 10/45, 18/45, O.G., 1943. Capt. Murrihy said the player was supposed to play with Dunamaggin and Ballyhale. A letter was read from Richard Phelan, who saw this player, B. Daly, play with Ballyhale against Mooncoin in the Kilkenny J.H. championships at Mullinavat on

C. Murrihy—They don't say what B. Daly played with Dunamaggin. D. Power—We have evidence which arrived too late and was not included Capt. Murrihy-It cannot be accepted here.

Major Higgins said they were very deep in gratisude to Waterford Co. Board for allowing them to take part in the championships. He said they in the Army were very glad to be able to do something for the game in Waterford and they would withdrawn their counter objection if Portlaw would meet them in that

F. Roche said they in Portlaw were sorry to bring this objection but when the rules were there it was up to the clubs to live by them as far as possible.

Report of Vocational Commission.

The whole position of education in this country should be reviewed in the light of the teaching of Pope Pius XI as set forth in his encyclical on Christian education, and that would imply more radical reform than suggested by the Vocational Commission, said Rev. He was speaking on "The Report of the Vocational Commission and education," in the lecture series of the Catholic Socal Week programme. In every Christian community there were at least three societies to be considered — the family, the Church and the State. THE COUNTY CAMOGIE FINAL

Obituary.—The death of Mrs. Mary Barry, New Street, which occurred somewhat unexpectedly at her residence on Tuesday, 24th ult., following a brief illness, has occasioned feelings of regret over a wide area. Although the deceased lady, had reached the allotted span of years, she had enjoyed her usual good health up to a few weeks before her demise, and the news came as a shock to all. Belonging to a respected family, the late Mrs. Barry was possessed of many admirable traits of character, and throughout her life she enjoyed the At the moment the chief topic of conversation among followers of Camogie in Waterford is the county

Death of Mr. M. Kavanagh.-The death, at a comparatively early age, of Mr. Michael Kavanagh, farmer, Ballyleen, Kill, which sad event took ce at St. Anne's Private Nursing Home, Clonmel, is regretted throughout these parts, where he and his amily have many wide connection and are extremely popular. Deceased who had not been well for some time ore his affliction with exempla christian fortitude, and he pas way with sentiments of the liveliest faith. Mr. Kavanagh was a man of straightforward and upright convic-tions and was very highly respected by everyone who knew him. He was a very practical agriculturist, and a keen judge of cattle and horses, and a highly successful breeder and ex-hibitor of thoroughbred livestock. In his younger days the late Mr. Kava-nagh was a great athlete and one of the best Gaelic footballers in the Decies. He was the champion plough-man of Co. Waterford for a considerable number of years, and figured on a number of inter-county ploughing teams, following the formation of the Irish National Ploughing Association. He also acted as judge at important loughing matches in Munster and in einster over recent years. His demise has removed one of the good and true sports of the past. His worthily esteemed family and relatives are the recipients of numerous messages of the Parish Church, Dunhill, on onday evening last, and were ac-impanied by a huge concourse of ople. In the cortege were several embers of the public bodies, and the ofessional, business and farming people, from various parts of the county. It was a most impressive manifestation of popular respect by all classes and creeds to his memory, and of regret and sympathy with his nearest and dearest. Office and High Mass for his soul were held in the market at considerably reduced prices. No. 1 H. and C. Water Range, high-pressure copper boiler, £16 16s. WORKING.

Mr. Fergus O Murchadha, in his annual report on the year's working of the above, says:

I have the honour of submitting to you hereunder the 13th annual report on the progress and working of the Co. Waterford Libraries.

General Report.—The cumulative effect of five years of war on the Co. Waterford Library Service has now become very apparent. Increasing supply difficulties, soaring prices, transport restrictions, have all contributed their unhappy quotas of the transport restrictions, have an con-tributed their unhappy quotas of the deterioration of the library position. There are, however, certain other factors, irrespective of war condi-tions which must be taken into account when assessing the situation as a whole. It is now some eight years since the necessity for broadening the basis of the library service has been emphasised. The constant reiteration of the basis causes of the unsatisfactory conditions which prevail in the leavest library centres is certainly no tory conditions which prevail in the larger library centres is certainly no novel feature in our annual reports. Were it not absolutely essential to proclaim "ad nauseam" that inadequate financial provision inevitably produces an interior library service, we would consider that an apology were due both to the committee and the reading public. What the reading the reading public. What the reading public require, however, is not an apology but a really efficient library service equipped to meet their legitimate needs. This can only be attained by putting into operation a scheme based on rational planning which will provide for the reconstrucwhich will provide for the reconstruc-tion of the service on lines capable of exploiting the potentialities of the county library according to a minimum standard of competence. Demand exceeds supply. Amongst the most popular were all those whose outlook is somewhat more utilitarian. There were no bouquets handed round for the amazing work done in the year 1944—just an injunction to carry on the good work. Evidence of the problems of the movement in the problems of the movem future contingencies. The public library is an integral factor in the more utilitarian. That it should be necessary to clamour continually for library reform in this country indicates a rather early-Victorian attitude towards the whole subject or,

position which public libraries should

An instructive comparison may be drawn tween such centres as Dungarvan and Tramore, where little more than a skeleton service exists, i.e., totally insufficient hours of opening, no special library building, and Tallow and Lismore, where special buildings exist and the hours of opening are

We hope that in the general planning for the development of primary and vocational education after the war, the important role which a fully expanded library service may play will not be lost sight of. It appears that something in the nature of national planning, in which local autonomy would be still conserved, is requisite to meet present needs and conclusion to be drawn is obvious,

#### PLANTING TIME.

Wednesday last, November 1st, was Arbour Day in Eire. It serves to remind us of our national duty towards the task of tree planting. Prior to the war we lived in the poorest wooded country in Europe, although the geographical position of Eire should demand otherwise. Since, then there have been heavy demands on our already depleted woodlands. Trees of all kinds, whether planted as shelter belts or in block formation, help to transform the face of the country from misery and desolation to that of comfortable prosperity.

Even on the best kept farms a waste corner often exists which has little or no (1st Nov.) also recalls to mind the old time-honoured custom of "snapapple," when children suspended a golden apple from the ceiling, or dived in a pail of icy water after the elusive fruit. Of late years the apple fruit has become really elusive, not only to children but to adults. Here again we are faced with an obligation to provide our people with a really first class apple.

At the recent Show in Cork a farmer in the vicinity of Dungarvan was awarded the championship of Eire for dessert apples. We understand that this enterprising grower only started in 1937 and has now 111 acres under apple orchard.
