Prosecutions Against Tractor Owners. Minister Asked To

Stop Them. WATERFORD COUNTY COUNCIL RESOLUTION.

A resolution asking the Minister for Justice to stop the prosecutions against tractor owners, seeing that the necessary bands for the wheels were not procurable, was adopted by the Waterford County Council at their meeting at Dungarvan on

This decision was made following the reading of a resolution from the Committee of Agriculture asking the Manager not to proceed with the prosecutions, and that the Order be suspended to February 1st, 1946.

The Chairman said it was very unfair to bring these prosecutions. During the emergency, tractor owners helped to grow food, and in fairness to them the Council should not en-

Mr. O'Ryan said it was very un-fair. Every facility should be given to farmers to till their land and grow if they weren't, tractor owners should not be prosecuted. "If it was the case of the Army," said Mr. O'Ryan,
"there would be no question about
it. When the Army needed anything, everything else was swept aside. I hold that the growing of food is the first line of defence, and if one Department cannot facilitate the far-

The Acting County Surveyor said that they drew the attention of the Gardai to the damage to the roads caused by the knife-edged cleats. The Chairman said the difficulty was to get bands, and when they were got, a half day was spent fixing them and the other half was spent fixing bolts and repairing them.

The following resolution was then

That we request the Minister for Justice to stop the prosecutions against tractor owners for taking their tractors on the public roads in the course of the tillage operations, seeing that the necessary bands to render the tractors immune from lamaging the roads are unprocurable. We are satisfied that the production of food is the first requirement of the country, and nothing should be done to impede that work."

Mr: O'Ryan—That rate has been steadily on the increase for the past

The Waterford County Council, Mr. D. Heskin, T.D., chairman, presiding, at their meeting at Dungar-van on last Monday, adopted a pro-visional estimate of £66,658 for the maintenance of roads for the year 1946/47. This sum includes a grant of £8,596.

The agure for last year was £64,358. There is, therefore, an increase of roughly £2,000. Submitting the provisional road works scheme for 1946-47, the Acting County Surveyor (Mr. J. Ormond) stated that the total expenditure proposed is as follows:-Main roads, £39,500; urban roads, £1,200; county roads, £62,620; gross total, £103,670. This shows an increase of nearly £12.000 over last year's estimate, but it is still far short of what would be required to restore the roads of the county to a proper condition. The provision for main roads includes a sum of £14,740 to be obtained as maintenance grant: £2500 for steam. maintenance grant; £2,500 for steamrolling. £500 for contingencies, and £22,110 for maintenance works. No improvement grants have been paid to us for some years and no improvement works have been done out of council's funds. Except for the minimum of tar patching, nothing Manager—It is £370,000—in or has been done for six years by way of re-surfacing. Fortunately all roads Mr. O'Ryan said it was incorrect that C.I.E. buses and lorries were paying nothing. They were paying were originally well made and in con-

Traffic however, is increasing daily and I feel sure before a year will at least be back to pre-war level. Some of your main roads are not in a condition to meet this increased traffic unless provision for resurfacing is made in the coming year's estimate. In consequence I have included for tarring the most essential sections only, and tax the same as other owners. Why should they pay more than others? Mr. Harty said he was not asking them to pay more than others, but he believed they should not have a monopoly. The Chairman said that matter could be discussed later. At the moment they had to consider what they proposed to spend to comply with the roads work scheme. Mr. M. That would bring it down to £78,000 exclusive of the The estimate for county roads includes a sum of £800 to supplement relief grants; £700 for contingencies; £6,300 for steam-rolling; £1,500 for tarring: £650 for other improvements; £11,415 for councillor's proposals and £41,255 for ordinary maintenance. WATERFORD COUNTY COUNCIL (PUBLIC HEALTH SECTION). RATS AND MICE DESTRUCTION

SUGGESTED MEASURES TO BE ADOPTED FOR THE Destruction of Rats and Mice.

TRAPPING can be successfully adopted in many cases and someimes it may be the only practicable method. Where poisoning is resorted to, it must be carefully practised, the baits being so laid that they will not be accessible to fowl or domestic nimals, and notices being exhibited n places where the baits are laid warning people to keep dogs and other animals away. These places should be carefully recorded and Government Board Sanitary Order visited regularly and the baits de- No. 1 of 3rd May, 1900, and in Article stroyed if not successful within a short period. The poisons recommended for use in preparing the baits are generally red squill and barium carbon ate. Red Squill should extra remuneration be fresh, as it loses its potency after some time. It is understood that it s difficult at present to obtain supplies. Barium Carbonate powder can be obtained, but orders therefor should be given at an early date, as stocks of this commodity are not ualaly held by Chemists. The following recipes containing that poison have been recommended as being

casy to propert and effective in use Bariurn Carbonate Powder Rolled Ga Is Dripping (Melt the fit and make all ngredients into at thick Faste, but in summer use Barium Carbo:nate Powder fine Oatmers

ously held by him), his length of service and the date of his birth. A pensioned officer neust also state the When using these baits it is well to distribute them liberally at the first application, and to lay at least ten times as many baits as the number of rats estimated to be present. It will be well to vary the form and appearance of the bait at intervals. It is not recommended that strong poisons such as Thallium Sulphate, Arsenic, or Phosphorus should be used, in view of the danger to domes-

the animals or poultry.
It is desirable that farmers should o-operate to the fullest extent possible in exterminating rats. During threshing operations it is suggested that each stack or rick, before the being threshed, should be surrounded by a rat-proof fence of wire netting 4 feet in height, slightly sloping in wards, and at a sufficient distance

New short term plans to stimulate Referring to the Exchequer conmilk production have been antribution, the White Paper says it nounced by the Minister for Agriculture, in a White Paper. The scheme, which is based on the reommendation of the Committee of Post Emergency Agricultural Policy, provides that the present prices for milk delivered to creameries will be maintained relatively at the present level, and guarantees a market for the creamerfes' total output at a fixed price for that period.

The guaranteed price will take the form of a standard price which

will be subject to variation up or down according as the costs of milk production rise or fall. Two years' notice will be given before the guarantee will be withdrawn, and such notice will not be given until the guarantee has been in operation for at least three

It is hoped that these measures will give confidence to the industry and that it will secure equivalent benefit to those engaged in the manufacture of home dairy butter for sale. It is also hoped that the plan will result in such an increase in production as will ensure adequate supplies of dairy produce for

Deputations Before County Council.

At the meeting of the Waterford County Council at Dungarvan on last Monday,;
Mr. T. Morrissey said he had complaints from people in Kilrossanty regarding a water supply. It appeared that there were ten families who got their domestic water supply from a stream. The water got muddy and the M.O.H. sent away a sample to be analysed and the report was that it was not fit for domestic purposes. These ten families then, it seemed, encroached on a private well nearby. The owner of the well resented it as there was of the well resented it as there was too much trespass. New Record in Club Affiliation.

The difficulties experienced during the Emergency are now prac-tically at a finish and I look forward to greater honour and activi-ties in the years that lie ahead. With regard to our present position and prospects I will say that I am much more optimistic than I was twelve months ago. Conditions every day are becoming more normal and with a return to full scale transport we face 1946 in confident mood. During the war years we had many set-backs. Transport was a problem with few alternatives. Supplies of playing equipment were scarce, but nevertheless this did not prevent the onward march of the Gael and we here in the historic Decies continued to run our competitions with whatever means we had at our disposal. New figures were set up in the past year in club affiliations and a record of 90 clubs is the highest ever of 90 clubs is the highest ever reached. The Board I need not mention, are dependent largely for their revenue from the senior hurling and football championships, and the returns therefrom for the past year having regard to all circumstances, are satisfactory a view, I hope, with which you will concur.

The receipts of four senior hurling and fixtures were made before the divisional ones. During the year there was a series of withwas a series of wi drawals and postponements in the western area. Munster Championships.

It came as a great disappointment for our Senior hurlers to go down to the Premier County in the First Round of the competition at Fermoy. Our hurlers showed up well in the first half and hopes were high of victory as the same advanced. In the second period Tipp., playing with their traditional dash, went ahead and defeated us in convincing tashion. It may be a mall measure fashion. It may be a small measure of compensation to know we were beaten by a great Tipp, team, who practically with the same fifteen captured the All-Ireland in Saptember. On behalf of the Gaels of Waterford

Tipp, were again our rivals in Minor hurling and football, and at Fermoy our coming hurlers met a great Tipp, team, but they were by no means outclassed, and Tipp, officials afterwards paid our boys a small tribute by saying our Minor hurlers were the best they met in Munster. Our Minor footballers in extra time were also defeated by Tipp, at Carick-on-Suir.

This brought to an end Stradbally's reign as County Football Champions, and congratulating the winners I would like to pay a well-deserved tribute to Stradbally, who were unbeaten for five from winning the championship, the Stradbally Club made great efforts for football in the county, and I give as an instance the great display our Inter-County footballers put up against Tipperary at Carrick-on-Suir. The Dungarvan Club are not anxious to take over the selection of our Inyears in county co to take over the selection of our Inter-County football team, but they can expect full co-operation from the Stradbally Club when selections are

Junior Hurling and Football.—A Black and Amber Double is my best description of two thrilling finals, and the Brickey Rangers deserve great credit for having won both championships. Better known as footballers the Brickeys surprised their most ardent supporters when they defeated Butlerstown in the County Junior Hurling Final. There was nothing spectacular about this thrilling Junior games which I have witnessed. The replay produced some thrilling exchanges, and after a tough hour's play the Brickeys had added the football Championship to their already hard-won laurels. I wish to congratulate the Brickeys on

wish to congratulate the Brickeys on winning a great double, and a word of praise is also due to Butlerstown and Newtown, the defeated finalists. The Mount Sion boys added the Minor Hurling Championship to their long list of wins, and this famous Club also had a meritorious double. In the Minor Hurling Final Mount Sion beat the Western representatives (Cappoquin), who were a trifle unlucky in the County Final. Congratulations, Mount Sion; it is a grand thing to see you upholding the honour of our hurling hursery, and

How League Teams Fared. Government's Ten-Year

I am also enclosing along with my report a revenue account of the Four County Hurling League, which we participated in with Wexford, Tipperary and Kilkenny. The same as last year, we cannot boast of any great feats in this competition, and in the concluding rounds we were defeated by Kilkenny and Wexford, respectively. This concluded the Inter-County Hurling Competition, as the National Leagues were re-started after a few years' lapse. The decision of the Board to compete in both Leagues saw a busy season ahead.

Leagues saw a busy season ahead, Leagues saw a busy season ahead, Leagues saw a busy season ahead, and I did not agree with entering the Football Competition, due to the finances of the Board. The results achieved, however, are noteworthy, as we gave a great display against Carlow in the First Round, and were by no means outclassed against the Atl-Ireland Champions—Cork—in the Second Round. Our Senior hurlers were very much in the picture in the substitute for coal when consumed in suitably designed equipment.

The annual production of 1.000,000 tons of turf aimed at in the scheme will be consumed mainly in the producing areas for firing electricity power stations and for industrial and domestic purposes.

The White Paper mentions that it is intended to establish an experimental station costing an additional were very much in the picture in the Hurling League and were considered unlucky to lose to the All-Ireland Finalists—Kilkenny—who fielded 12 of their All-Ireland team. For our Second Round we had Cork visitors be provided for about 3,400 persons, to Waterford and our boys and an experimental station costing an additional £120,000, and also to erect a peat moss litter factory, machinery for which has been ordered from Sweden. Permanent employment will be provided for about 3,400 persons, and acceptance of the picture in the mental station costing an additional £120,000, and also to erect a peat moss litter factory, machinery for which has been ordered from Sweden. to Waterford, and our boys put up a and seasonal employment for a simi-great show against a promising Cork lar number. team. It was only in the closing stages that the Leesiders got the upper hand. mediate attention of the Board. Some clubs may be under the impression that the Board are not making real efforts to secure medals. The position is that the materials for making medals is presently very scarce, and until the position improves I see no kope of getting the outstanding medals. I admit there are plenty of medals to be got, but the question to be answered is: are they made in Iremedals are due that the Board will do its utmost to clear off all outstanding medals during the next few years. Another matter is the County Bye-Laws. I am aware clubs are getting Laws. I am aware clubs are getting indignant over the delay of publication of same. The County Chairman has them on hands, and the cause of delay is that he is bringing them up to date on similar lines to the Official Guide in the Irish and English languages. This intricate work demands careful handling, and it is a full-time job for the chairman, who has taken on himself a wearying and troublesome piece of work. Before concluding, and despite the many problems of the past, the result from 1945, I think, is quite an achievemen which the Board was faced from time

Before I close my report, I again appeal to all players and supporfters to stand together during 1946 and give your utmost co-operation to the Board to help stamp out the scenes and encroachments which we had in

Bereavements. During the year some well-known Gaels suffered family bereavements, and I join with you in extending deepest sympathy to their relatives. I refer in particular to Thomas was nothing spectacular about this win, but a great display by two fit teams produced grit and the will to win. Imbued by their hurling victory, the Brickeys took no chances in the Junior Football Final against Newtown, and the drawn game will live in my memory as one of the most thrilling Junior games which I have witnessed. The replay produced of the famous trio of brothers who has given years of service to the games of the Gael in the historic Decies. I regret very much to record the death of our Chairman's mother, which sad event took place early in the new them.

Water and Sewerage Complaints:

That only four houses had been built in Cappoquin during the past 100 years, was stated by a deputation from the Parish Council of the town which was before the meeting of the Waterford County Council at Dungarvan on last Monday. The deputation was in connection with complaints regarding insufficient water supply, inadequate sewerage facilities and lack of housing.

The deputation consisted of Messrs

Mr. McCarthy contended that if a site were taken and 4 or 5 houses built on it, the occupants of con-demned houses could be rehoused in them, and bad houses knocked down and other houses rebuilt. As bright January sunshine streamed over the broad acres of New Mellifont estate, Co. Louth, on Solemn Pontifical Mass of the Holy Tuesday afternoon, a white-robed monk walked to the reception door of the Cistercian monastery and read at 10.15. He was announcing to the rest of the Community and to the outside world that Dom Canice Maher, Prior of Mount Mellery, had been elected first Abbot of the refounded Order of Mellifont. The announcement was repeated at two other public places in the monastery. Earlier in the Chapter Room, when the voting took place, the same monk, Rev. Fr. Nivard Flood, of Mount Melleray, who acted as Notary, put down a bundle of ballot papers and uttered the two words: "Habemus electionem"—"we have an "Habemus electionem"—"we have an "Reception of the Cross and making the same and the sam "Habemus electionem"—"we have an election"—and a gulf of more than two hundred years was bridged.

County Convention.—The County Convention takes place in Dungaryan Courthouse at 2 p.m (S.T.) on Sunday next, January 20th. For the first time for a number of years the chair-manship will be contested. I feel that part of the opposition to the out-going chairman is due to his refusing to accept the views of the Board on many matters where he felt he was required to give a definite ruling. In all other points M. O Donnardah ahad the confidence of the Board for his excellent handling of the many diffi-cult problems which arose year by year. I feel he will be again returned, but I hope that he will accept the suggestion that opposition if of a proper kind can be a good thing and it never pays to overrule men who have as much the Association's interest at heart as the chairman himself. The return of D. Guid unopposed was only to be inspected as he has proved a capable secretary and is ever willing to oblige clubs at any time when asked. The treasurer, Sean Murphy, will, I think, be also returned as it is felt that it is only proper to have an Eastern man as an official of the Board, and Sean has proved himself very capable for the

COUNTY COUNCIL ROAD WORKERS

Church Holydays' Pay Question.

At the meeting of the Waterford County Council, held on Monday last at the Courthouse, Dungaryan, Mr. Kyne asked if any replies had been received from other councils regarding the payment of wages to workers on Church holydays. The Secretary said replies had been got and he proceeded to read them, following which Mr. Kyne said that as nine or ten councils paid their workers on Church holydays, the Manager had a precedent, and he (Mr. Kyne) would suggest that his (Manager's) big difficulty that he would be surcharged did not now exist. He surgested workers be paid on church holydays. Would he (Mr. 'Kyne) be fight in saying that the Manager would do it?
