SURPRISE DEFEAT OF DUNGARYAN.

S.H. SEMI-FINAL.

B. Rangers, 6-1; Dungarvan, 2-3.

Brickey Rangers created a major surprise by brilliantly defeating Dungarvan in the senior hurling semi-final at Lismore on Sunday last on the score of 6-1 to 2-3. There was a fairly good attendance present, but larger only for the heavy rain which fell for about an hour and a half before the game. Luckily the downpour ceased when the match commenced, and execut for a slight the crowd would have been much menced, and except for a slight drizzle in the second half, conditions were not too bad during the hour. As usual, the local club had the pitch in grand order, and the stewards performed their duties in a very capable manner. In the opinion of many, the stage was all set for a comfortable Dungarvan victory, and even the shrewdest judges were surprised when the Brickeys began to dominate the game right from the start. It was hard to believe that this was the same "blue-and-white" combination that had put paid to Cappoquin's account in such a decisive fashion of two recent occasions. The Brickeys seemed to revel in the soft going, and for speed and accuracy had the Dungarvan men beaten every time. Close tackling and hard pulling were feaures of the game, which was the veliest and most robust seen here or some time. There is no disputing the merits of the winners; who on Sunday's display should make a very strong bid for the senior title.

Dungarvan attacked from the throw in and sent over for the first wide. Interesting Lecture in

Prior to the lecture a concert, which included choruses by the Dungarvan C.B.S., choirs, Irish dances,

Mr. Desmond began by saying that he did not really know how to put over his lecture after such excellent music and dancing. He had never enjoyed himself so much for a long Special Opening Display time as he did for the past half hour.

Turning to the subject of his lecture, Mr. Shaw Desmond said that ture, Mr. Snaw Desmond said that the world was at a point which in years to come, if this planet still existed—which he was not at all sure—would be known as the parting of the ways. That parting of the ways was either to the right or to the left. If they went to the right, atomic energy would be too do not as a means. energy would be red not as a means of destruction but in the betterment of the world. If they went to the left, then they would come under the ruthless domination of Russia. Stalin had said that the atom bomb would not decide war, but Stalin knew as well as Molotov that there was no counter to the bomb. "I have
