Senator Butler referred to the mater of allowing an extra period at night in the recreation hours for attendants and nurses at Dungarvan, and said that he thought that it should be 11 o'clock. The members at the last meeting expressed that opinion also. He asked if there was any information from the Manager on the matter.

Secretary—He has dealt with it. Senator Butler—In what way? Secretary—Up to 11 o'clock. Senator Butler—That is cetrainly ent on those that were AMBULANCE COMPLAINT.

The Chairman reject the case of a patient from Ballymacarbery, who was removed to Clonmel Hospital and was then transferred to the County and City Infirmary, Water-ford. When the patient was dis-charged from the latter hospital the father asked for an ambulance to take the child home and he was informed that there was no ambulance available. He (chairmen) asked the Secretary if he had any information

quiries in the matter at the County ter. No request was made for an ambulance. The Board did not transfer the patient; it was Clonmel.

The Chairman said that he was not saying it was the responsibility of the Board at all. He was saying that one of the patients that was the concern of the Board was removed to Clonmel and they transferred him to the County and City Infirmary, and to take the child home to Ballymacarbery the father had to pay £4 10s. Whose responsibility, he asked, was it to take the patient home?

ion the biame rested on the County and City Infirmary, on the people who discharged this patient. They should have got in touch with the Board about the ambulance.
Senator Butler—I think Councillor
O'Connor has hit the spot. This
Board or the officials cannot be

The Chairman said he wrote to the Secretary about the matter three weeks ago and did not get an answer. He thought a vote of censure should be passed on the officials for not writing to him and giving him the information which was given at this nformation which was given at this neeting. When he wrote he ex-

pected a reply.

Secretary—I had to inquire at both ends and when I got the information I left it to this meeting. Chairman-There is no use in my

vriting at all. Councillor O'Connor recalled a decision made at a previous meeting of the Board, when it was decided that if any members had complaints to bring up they should make them to the officials concerned, so that they need not be discussed at meetings. He thought that the Chairman was entitled to get a reply, and if he had got it there would have been no neessity to raise this matter at all at

the meeting.
The Chairman said that the father of this child asked for an ambulance o carry the child home and he was informed that there was no ambulance available, and he had to pledge his credit for £4 10s. to take the child home. He (chairman) did not see why the parent of this child should be saddled with the paying of the £4 10s. He suggested to defer the matter to the next meeting so that information could be got from the County and City Infirmary as to why they did not get in touch with the County Hospital in connection with the ambulance

This was agreed to. PORTLAW DISPENSARY.

Mr. F. Roche raised the matter of repairs to Portlaw dispensary. This matter was now going on for the past 10 or 12 years and the dispensary was going into bad regair. In any case, the dispensary was inadequate. There was no room for the M.O. When the people were waiting for the doctor there they had to wait outside a wooden partition, and when a patient was inside with the doctor the people

Manager should make an effort to get more suitable premises.

Mr. Roche—I am going to raise the matter of weather at every meeting until vacated by the staff of the Board. Councillor O'Connor agreed that would be an ideal one. He would suggest that the Board recommend this to the Manager should be asked to give a report on it.

Ambullance Attendants for the Abord was inside with the doctor the people were waiting for the doctor the people were waiting of the doctor the people were waiting of the doctor the people with the doctor the people wit

WATERFORD BOARD

OF ASSISTANCE

Outside could hear the discussion and knew everything that happened. It was scandalous to have a place like that in a locality in which there was 1,000 of a population. "I can tell you," said Mr. Roche, "that the greyhounds are better looked after than the poor people. I think it is time it should be remedied."

O'Connor said that would not satisfy the Waterford City Council. A properly trained male nurse should be sent with the ambulances.

The Secretary said that when the

It should be remedied."

The Secretary said that when the late Dr. Walker was alive, the dispensary was in a portion of his bouse, and when he died permission was refused the Board to carry on the dispensary there. He (secretary) had great difficulty in getting any place there and this was the only place he could get.

Senator Butler—Is there any more suitable place there?

suitable place there?

Mr. Roche—I think if the Board expended a few pounds a more suitable place could be got.

Mr. Roche then went on to ask about the attendance hours of the

Secretary—The hours are fixed. can get the information for you. Mr. Roche—I know that the poor people get only a half hour to attend, and if the doctor is not there they can go home again.

The Chairman said he knew a particular dippensary which was not far away and the hours were not kept there. If a doctor was not able to keep his hours, surely a patient, too, might not be able to keep them. Surely £500 spent on a place where there were 1,000 working people would not break the Board, if things were as bad in Portlaw as Mr. Roche were as bad in Portlaw as Mr. Roche said they were, and he ought know. He (chairman) also had a grievance which he spoke about before, of poor people making public confession of their destitution.

thing applied to a great number of dispensaries and he was going to make a report to the Manager on them. The place mentioned by Mr. Roche was not adequate at all and was not suitable for an assistance officer. There must be alterations and improvements in many of them, as far as the paying of home assistance was concerned.

The Chair and improvements in many of them, as far as the paying of home assistance was concerned.

ance was concerned.

The Chairman said that he thought that the Board should back up the report on the dispensaries, which Mr. Phelan said he was making.

The Secretary said it was the intention of the Board to have a dispensary and a residence at Portlaw.

Owing to conditions when the war came along they could not go on came along they could not go on

The Secretary said that they would have taken the patient if they had information about it.

Replying to Senator Butler, the Secretary said the case was an extern one.

The Chairman asked if an extern patient could be taken back home by ambulance.

Secretary—We do if we are asked. Senator Butler—If you bring them.

with it.

Councillor O'Coonnor said that this Board and other Boards had made the war an excuse for holding up building. He protested against that because building was carried on in this country during the war, but not for the benefit of the poor people. Luxury buildings—had been built and the needs of the people had been neglected. He thought that it was time some move was made about building.

about building.
Secretary—Mr. Roche is here now and he should know of some place.
Mr. Roche—I wrote to you two years ago about this. The Board of Heath and the County Council are paying their own officials and expert men to find these places. It's not for me to do dt for me to do it. Chairman—What I know of Mr.

0 a.m. was most unfair that that power should be held in Dublin.

iMr. Roche said that these were not the hours there. In the M.O. made the hours to suit himself or not he (Mr. Roche) did not know, but he was not there from 9 to 10. Chairman—He surely must know that from 9 to 10 is not a suitable

Senator Butler said that these hours were wrong. There should be a certain amount of give and take between the doctor and the patients.

Mr. McGrath—He might be out on private calls.
Mr. Roche But that could not happen every day.

Senator Butler—I suggest that the County Manager be recommended to make more suitable hours. This was agreed to, the hours recommended being from 10 to 11.

Mr. Roche also asked that the
notices regarding attendace tickets
should be displayed in the dispensaries, so that people would know

mean four extra nurses, two for the day and two for the night. The Secretary added that there was a special attendant with each case. Councillor O'Connor said there was no such thing as a special attendant unless the attendant was specially trained. The attendant in

his opinion were not capable at all.
Patients going by ambulance must
be taken care of. Senator Butler asked what was done when a fever case was being Secretary-There is an attendan

Senator Butler said that they know nothing about the difficulty or the danger of infection. He though that in other places they always sent

that in other places they asways sent a trained nurse.

The Chairman suggested that in Dungarvan the attendants should have first right to be trained as nurses and that no others but them should be taken in. The Board should ask the Manager to give them an opportunity of qualifying. He could quote Dr. McCarthy, and had his permission to do so, as being in favour of it favour of it. The Secretary pointed out that the difficulty was that Dungarvan Hospital was not a training school. There should be a certain number of beds in an hospital before nurses could

be trained.
The Chairman said that was so but there was no reason why it

Councilior O'Connor said that some months ago the necessity for a second ambulance driver was discussed; in fact having two—one for Dungarvan and one for Waterford—was mentioned. During the course of the discussion the members of the Board pointed out that they had to work long hours, and the Secretary stated that they were to be paid overtime. While not agreeing with that, holding that the long hours for ambulance drivers should not be got over by paying overtime, he would

over by paying overtime, he would like to know if the drivers had been paid for overtime.
Secretary—No. The position is, we have asked the Department to define their day and we have got no answer yet. I wrote two or three times to them.

Councillor O'Connor said that the Manager should be asked to provide two second ambulance drivers—one for Waterford and one for Dungarvan. The Department was shelving this too much.

Sentor Butler said that it was a

many hours more than their ordinary hours. They had no power to say that payment should be made. The Manager agreed with them that they Mr Roche—Certainly.

The Secretary here read the days and hours of attendance for the dispensary doctor at Portlaw. They were—Monday, Wednesday, Thursday, Friday and Saturday from 9 to 10 a.m.

Chairman—Those in the payment should be made. The Manager agreed with them that they should be paid and was prepared to pay them, but he had no powers to pay unless the Department said so. Everything must be sent to the Department asking them to pay—even if it was only something.

It was agreed to refer the matter to the Manager for the next meet-ing as to the ambulance drivers' pay

DENTIST'S ATTENDANCE. The Chairman said he would like to get a report over the past six months of the attendance of the dentist at the County Home. He had received complaints regarding the attendance of the dentist. He (chairman) did not know him personally or had nothing against him. He (chairman) would also like to know what accommodation was in building for patients.

Secretary—We have provided place for them now.

Chairman—I want a report on the days he did attend and the days he did not attend and why. ACCOMMODATION FOR MATERNITY CASES.

that a scheme for providing accom-modation for tuberculosis patients The Secretary said they were always sent to the dispensaries.

Mr. Roche—They should be displayed. Perhaps they say there is no room to display them; there is something in that too.

Senator Butler—I think the County Manager should make an effort to get more suitable premises.

Mr. Roche—Law roine to the dispensaries in the county was going ahead, and he understood that a particular place near Waterford City was going to be used. That left the premises at the County Home, which at one time they thought could be used for this purpose, available for another purpose now. There was a terrible necessity for accommodation for maternity cases, and in his opinion the

The Chairman said he agreed with Senator Butler. The very least that could be done was to let them know to give them an opportunity to give their views on it. He was inclined to agree, after tuberculosis, about the urgency of maternity wards. Three beds for this county was out of all proportion. cappopula Defeat St. Augustine's College in Thrilling Match.—In the Western Divisional Final (minor football) Cappopula defeated St. Augustine's College at the Sportsfield on Sunday last in a thrilling game. The game never lacked interest throughout, and was full of thrills and excitement, keeping the spectators on their toes for the full 60 minutes. Cappopula opened the scoring by recording a minor. Some quick passages on both sides followed, but St. Augustine's found the net and gained further minors before half time. On the resumption Cappopula immediately went into the attack and soon brought up their score. With matters now level excitement ran high and never waried till the final whistle. Both teams were playing a ferrific game, but Cappoquin were proving their superiority and ran out worthy winners.
