DUNGARVAN URBAN COUNCIL

Housing, Roads and Sewers Discussed.

Mr. T. McCarthy, chairman, presided at the meeting held on Friday, 13th inst. Also present were—Messrs. T. A. Kyne, T.D.; D. O'Sullivan, N. Kelly, J. Goode, M. Clancy and Senator J. Butler. Mr. E. Deery, Town Clerk, was also present.

Gateway Required.—Mr. P. Needham, a tenant in one of the new houses at Abbeyside, appeared before the council requesting that a gate be erected in the wall to be built at the rear of his house. Applicant will supply gate provided piers are erected.

On the proposal of Mr. Kyne, seconded by Mr. Clancy, the matter was referred to the Manager for favourable consideration.

Extra Lights.—Arising out of applications for extra public lights at Keating Street, O'Connell Street, Sheeharrie, etc., an estimate was received from the E.S.B.

Mr. Clancy asked if all those lights were recommended by the Council.

Mr. Kyne—Yes. The charge for maintenance is £4 8s. 4d.

Mr. Clancy—The cost of erecting a light at Keating Street is £15. Is this provided for?

Mr. Kyne said it was not likely that the lights will be in operation before the next estimate.

Messrs. Goode, Kyne and O'Sullivan referred to lamps on the present system not being lighting on occasions.

Mr. Clancy—Who is duty is to report and whose liability is it?

Clerk—We do not have to keep the lamps. The board has contracted to keep the town lit.

Mr. O'Sullivan referred to the distance between the lights in Friary Street where a lot of children roam.

Mr. Miller had an application for a light opposite his house at Abbeyside, and reporting on the same the engineer stated that what he agreed a light would be desirable there, he could not see that the expense would be warranted. It would require the erection of two poles from the existing light 115 yards away.

Mr. Clancy—This is Mr. Miller's second application and for the same reason the first was refused.

Minister to Open Housing Scheme.—A letter from the private secretary to the Minister for Local Government (Mr. M. Keates) stated that the Minister will be happy to open the scheme on February 1st and asking what time would be suitable for the ceremony.

Mr. Butler said he was very glad the Minister was coming down. Mr. Keates is certainly carrying out the good work initiated by his predecessor. He suggested that a committee of the council should consider as regards time, reception, etc.

This suggestion was approved.

Sewerage Scheme for Abbey-side.—The council approved, after a short discussion, the recommendation of Mr. Clancy in relation of an outfall sewer at Abbeyside for which the Department's grant will amount to 40 per cent. The estimated cost of the scheme is £7,157.

Mr. Kyne—Our engineer re-

ports its an absolute essential and he proposed that the scheme be carried out.

Senator Butler said that the estimate for 1950/51 will be considered towards the end of March and this scheme will still be in its infant stage at that time.

Mr. Goode—This is actually a separate scheme from the housing scheme? Clerk—Yes.

Mr. Goode—Could it be embodied in that scheme?

Senator Butler—By doing that it would increase the all-in cost of the houses.

Mr. Goode—I agree the old sewer is not nearly sufficient.

A report on the progress made in the building of the Abbeyside scheme for the month of December was read from Mr. Ormonde, B.E.—Houses completed since date of contract (15/12/49) 22; during the month of December, 6; value of building work carried out during December, £4,995 19s. 4d. To date 60 houses have been built to roof level and 12 built to first floor level. 48 houses have been tiled and all partitions, floors, window frames, doors and frames and window sills fixed in position. Two houses have not yet been started awaiting demolition of slum clearing houses at Shears Street.

Answering Senator Butler, the Clerk stated that 12 tenants were already residing in the houses.

Senator Butler raised the question of the failure of recent applicants to get an application form. He stated one case of a lady who came for a form and was refused. He did not know why she was refused. He held that the date mentioned (31st October) mentioned was mentioned only for the purpose of ascertaining the number of applicants for houses at that time.

The Clerk said that people came to him to know if they could get a form. Some date should be fixed, otherwise the County Medical Officer or the Manager could not allot the houses.

Replying to Mr. Kyne, the Clerk said there were 123 applicants for the 74 houses at that time.

Mr. Kyne said people also came to him to know if they could get a form. I take it that if the list was open again there would be 10 to 15 further applications.

Replying to Senator Butler, the Chairman—Also to the footpath from the top of Davis Street to Stephen's Street.

Mr. Goode—And from Priory House to Merry's Corner.

Chairman—We could eliminate the £500 for New Chapel Street from demand.

Mr. Kyne—The need isn't there.

Senator Butler—The main streets are all pretty good. There is one thing the footpath from the corner of Rice's Street to Fair Lane is in a very bad state. He suggested having the street widened and the footpath on either side of the road.

Chairman—Also to the footpath from the top of Davis Street to Stephen's Street.

Mr. Goode—And from Priory House to Merry's Corner.

Chairman—We could eliminate the £500 for New Chapel Street from demand.

Mr. Kyne—The need isn't there.

Chairman—It could be repaired. There is no need to spend £500 on it.

Both Messrs. Butler and Kyne suggested that the demand should be the same as last year.

Mr. Clancy—There is no doubt the roads are deteriorating. Last year only the potholes were filled in.

Senator Butler—What will you do? Put up the rates.

Mr. Kelly said he thought it would be much better to do one street at a time.

Senator Butler proposed, and Mr. Kyne seconded, a resolution that the demand be reduced to the same amount as last year.

Mr. Clancy said he would support it if he thought it was only the same thing as last year would be done to the roads. Referring to the traffic at present on the roads, he held the roads should be a national charge. We are all timid because we don't want to raise the rates.

Chairman—I think we have the best streets in Ireland, and since after time I have heard motorists say so.

The proposition was passed.

Gallows Hill Scheme.—A report and two copies of the revised plans of the above scheme were before the meeting from Mr. Foley, architect.

The report dealt with various parcels of land still to be acquired under the revised scheme and the plans, the layout of the three bed-roomed terraced houses and of the two bed-roomed bungalow type houses. The report stated that the difference in cost will be very little.

Mr. Kyne said from looking at the map the scheme seemed to be very compact now.

Replying to Mr. Clancy, the Clerk said the next step will be to acquire the land and then submit plans to the Department.

A report from the engineer suggested that a fireplace be put in the large bedroom of both types of houses. This was approved.

Mr. Kyne—In the Abbeyside scheme there are four different types of houses and he thought two would have been sufficient and make for more economy. The bungalow type is the nicest.

Replying to Mr. Goode, the Clerk stated that he had roughly 40 applicants for the bungalow type house.

BODY RECOVERED AFTER 20 DAYS

INQUEST ON REMAINS OF PATRICK MURRAY, CAPPAUGH

Dr. D. T. McCarthy, Coroner for West Waterford, held an inquest at the Courthouse, Dungarvan, into the circumstances of the death of Patrick Murray, Cappagh, who was missing from his home since the night of 24th December (Xmas Eve) when he was seen at Midnight Mass.

The following jury were sworn: Messrs. Jack Lynch (foreman), D. Power, T. Lannon, T. O'Mahony, J. McHugh and M. A. Moloney.

Supt. O'Mahony represented the authorities.

John Murray, Cappagh, brother of deceased, in reply to Supt. O'Mahony, said the deceased was about 60 years of age and was a widower. He was a respectable man, who was seen at Midnight Mass on Christmas Eve and was seen at the shop on the morning of the 25th. He was seen at the shop on the morning of the 25th. He was seen at the shop on the morning of the 25th.

Miss Morrissey, an employee of Mr. M. Power's shop at O'Connell Street, said she saw the deceased, whom she knew well, in the shop between 9.30 and 10 p.m. He later saw the deceased in the Friary Church at midnight Mass. He was seen at the shop on the morning of the 25th. He was seen at the shop on the morning of the 25th.

Patrick Tobin, Helvic, stated he was the skipper of a fishing boat on Christmas Eve and was trawling in Dungarvan Bay and about 3 p.m. he noticed an object floating in the channel. He hauled in the trawl and took the body aboard and brought it to Helvic where he handed the remains to Sgt. McLoughlin, Ring. The body was later removed to Dungarvan.

Dr. Anne Casey deposed to holding a post mortem examination of the body, which was in an advanced state of putrefaction. The lungs were waterlogged. There were no external signs of injuries. In her opinion death was due to drowning.

Dr. Cusack, who assisted at the post mortem, agreed with the findings of Dr. Casey as to the cause of death.

Supt. O'Mahony said that in the evidence he saw the deceased in the lavatory on the quay. Some inquiries failed to find any one else who had seen him subsequent to the time he was seen by Wm. Quinn in the Friary Church. O'Brien later agreed it might have been on Christmas Eve he saw him.

Continuing, the Superintendent said there was no evidence to show how this unfortunate man got into the water or at what time. He might have gone to the lavatory on the quay. Some of you may remember that it is scarcely 12 months ago since another unfortunate man lost his life there and probably for the same reason. The fact that timber is stored on the quay might make it more dangerous. The Superintendent said he did not think it is the proper place for a lavatory, and the timber stored near it is sometimes hanging out over and it often times a passage is left along the edge of the quay, making it more dangerous still, and for anyone not in possession of the full genes it is certainly a death-trap. Again, we have chains on the quay, sometimes in position and sometimes not. They get broken with the timber. It would be easy for this poor man to gravitate towards the quay after coming from Mass and find himself in the water.

The jury, after retiring, returned the following verdict: "That the deceased died on Christmas Eve last, of drowning, and added the following rider—"That as this is the second recent occurrence of this kind and in opinion the public is not a proper place for a public lavatory and that the chains and standards should be kept in position over and around the quay."

The Coroner said he heartily endorsed the jury's findings and expressed sympathy with Mr. Murray and the other relatives on the death of his brother.

Supt. O'Mahony, joining in the expression of sympathy on behalf of the Garda, said that in the course of their inquiries into his disappearance they found everywhere that he was well liked and a most useful man in the country.

Mr. Jack Lynch, on behalf of the jury, associating himself with the expressions of sympathy, said he knew the deceased personally. He was a very quiet and retiring man. He was a mechanical genius, whose loss will be sadly felt by the farming community in particular.

Mr. Murray returned thanks for the expressions of sympathy extended.

Waterford Sheep-Breeders' Association.

FIRST ANNUAL DANCE
will be held in **The Hall, Ballymacarbery** on **SUNDAY, JANUARY 22nd.**

THE BEST SHOW YET.
Postponed Raffle will take place same night.

Condition of Board's Dispositions.

Councillor Caulfield, chairman, presided at the monthly meeting of the above held at the Courthouse, Dungarvan, on Monday last. Also present were—Messrs. O'Ryan, Kenneally, McGrath, Browne, Roche, O'Connor, Butler, Kyne and Barron. The Co. Manager, Mr. O'Hare, secretary; Mrs. P. A. Crooke, assistant secretary, and Mr. M. Phelan, Superintendent H.A.O., were also present.

Arising out of the minutes, Mr. O'Ryan questioned the right to hold the special meeting at Waterford without the approval of the Board.

Manager—Meetings had been held previously at Waterford.

Mr. O'Ryan—Yes, but it should have been approved here.

Mr. McGrath—Does it apply to the County Council? Manager—Yes.

Mr. McGrath—The County Council held a special meeting at Arkleen House.

Mr. O'Ryan—That would not be legal.

Manager—The meeting was held in Waterford as it was important that the members should visit and inspect the institution. Seakinnis Dispensary Residence.—A report on the condition of the above was read from the engineer, which showed the building to be in urgent need of repairs. The repairs included replastering of wall, removal and replacement of ceilings and floors as dry rot had been found in the woodwork. The estimated cost was given at £750. The Manager's order made on the report was also read. This authorised the work to proceed at once.

Mr. O'Ryan agreed that the work was necessary. The condition of the house shocked him. There is mildew on the walls from the constant dampness. He thought that if a couple of hundred pounds had been spent on it a few years ago the present repairs would not be necessary.

Mr. McGrath—A couple of hundred pounds? I would very much like to see what money is spent on it for years. I am listening to it for years.

The board approved of the Manager's order.

Forlaw Dispensary.—The engineer's report on the above stated that when work was begun they found that dry rot had set in in the woodwork which necessitated additional work not included in the original estimate of £800. For the extra work a sum of £500 will be needed.

Mr. Roche said he is not satisfied that this work is being done economically. The work is now going on for over six months. Men are in, for two or three days and then taken away to another job. He is not satisfied that the supervision is satisfactory either. He has had several complaints from ratepayers and his own opinion is that the work should be done long ago. The ratepayers of that area feel they are not getting value for the money. The man in charge of the supervision has to cover the whole area. I still think the job should be done for £1,000.

Manager—When work was begun other replacements were found necessary. That happens even in the repairs to labourers' cottages.

Home Assistance Officer to be Appointed.

Mr. Kyne said he had heard that the duties of a certain Home Assistance Officer were being carried out by her son, who, he also heard, is making arbitrary decisions on his own.

Manager—I take it you are referring to the KilmacThomas area? Mr. Kyne—Yes.

Manager—The Home Assistance Officer has actually retired and the present position is a makeshift one. We were awaiting the report of Dr. V. White, who also appeared before the board, to authorise the installation of the following—An operating theatre, a lift, a sterilising room and a bathroom and other conveniences near the delivery room.

Waterford County G.A.A. Convention will be held at the Town Hall, Dungarvan, on Sunday, January 29th, at 1.30 p.m. and not on the 22nd as previously announced.
