## NO DISPENSARY RESIDENCE FOR KILMEADEN

By eight votes to seven a motion by Mr. P. Cahill that a dispensary residence be built in Kilmeaden, was defeated at Monday's meeting of Waterford Health Authority.

Mr. Cahill, moving the motion, said the area as the nearest doctor was 15 miles away in Tramore.

Mr. J. A. Hynes, Secretary, said that by the terms of his employment they were not compelled to provide a house for the doctor.

Mr. Cahill said it was the people in Kilmeaden he was interested in.

Mr. Lannon said the doctor should live within his area and not miles outside it. But he should provide his own house.

Mr. Cahill—There is no house available in the area.

Mr. Lannon—In this case there is no agreement to build a house, therefore I don't see why we should.

Mr. Cahill—It is not the doctor I am interested in but the people.

Mr. Lannon—Why should we provide big mansions for these people. All other people in every walk of life have to provide their own houses. Who do the doctors attend in Dungarvan? I know a local man who had been ill for a number of years; his father is only a casual labourer, yet the 8/- he had from the Health Authority was cut to 4/- and he was refused a medical card. What do we want doctors for all for when things like this are happening.

Mr. J. Griffin said they decided to build a residence in

## DEPT. BLAMED FOR DELAYING SCHEME

The Dept. always blamed the Local Authorities for holding up schemes, but by the looks of it, it was the other way round, said a member of Dungarvan Urban Council on Friday last, when members discussed a further proposed new housing scheme for the town.

Acting Town Clerk, Mr. B. White said that as yet they had received no replies to their advertisements for suitable sites in or near the town.

A member said they had not received sanction from the Department of Local Government for the plans for further new houses in the town. It was they who were holding up the scheme.

The discussion then ended, "CANNOT GO TO MASS ON IT"

"The road leading to Abbey-side Church is in a disgraceful condition, and the people cannot go to Mass on it," said Col. T. Lannon.

Mr. P. Walsh, B.E., said a drain had now been cut inside the field beside the road and that would relieve the flooding.

Deputy Mayor said the road outside Foley's seemed to be sunk, and that could be partially the cause of the trouble.

## Co. Engineer Specifies Area Speed Limits

STAGGERING as it may seem, thirteen people were killed and 126 injured as a result of road accidents in Waterford during 1962. In 1961, 332 persons were fatally injured and 5,092 injured in similar accidents throughout the country. Doubtless a high percentage of these accidents was due to excess speed by "road-hogs" and now as a means of combating this dreaded "phobia," speed limits are being introduced throughout Ireland.

J. D. HALLY, Co. Engineer

Waterford, in keeping with the other counties are giving the Oireachtas—who decided on the speed limits, its fullest co-operation and the erection of 163 signs in the County will be carried out to-day (Friday). The speed limits will come into operation on Monday next, April 1st.

At a Press conference in the office of the Co. Engineer, Mr. J. D. Hally, on Tuesday, it was revealed that these speed limits will be generally welcomed by the public as a means of reducing the number and severity of accidents on the roads.

The basic speed limit for built-up areas—towns with corporations, urban councils or commissioners, is 30 miles an hour, although in certain sections a limit of up to 40 miles an hour may be observed. While the signs will indicate the maximum permissible speed, it does not mean that it is the safe speed.

Among the main purposes of the speed limits are to enable pedestrians to cross the roads in safety, and to increase the safety factor in the event of a collision of children running across the road.

Sign-posting will indicate to the public what speed-limit to obey and in order to assist the public in this matter a special leaflet will be issued to each holder of a driving licence by the 1st April.

The signs will be red-rimmed with a white centre and black figures and at night will be quite visible.

A lot of work has been put into this by a technical committee set up by the Local Authority and comprising of the Co. Engineer, the Chief Assistant Co. Engineer Mr. J. Ormond, the City Engineer, Assistant Engineers, Chief Supt. of the Gardaí and the Assistant Superintendents in the various areas.

It is now up to the public to play their part in co-operating and observing the speed limits. This is a serious effort to deal with the problem of accidents and its success depends on the people themselves.

The cost of erecting the 163 signs will be a couple of hundred pounds while the signs themselves will cost approximately £1000. This expense, however, will be met by the Central Authority and will put nothing extra on the rates.

The Gardaí Authorities will be responsible for enforcing the speed limits and Garda cars will be equipped with radar meters to assess accurately the speed of each vehicle.

In addition to speed limits in the built-up areas as defined by the signs at the entry to the particular areas, there are also "ordinary" speed limits which apply to all roads to such heavy vehicles as buses, lorries, station wagons etc. and these are as follows:

The normal limit for station wagons, estate cars and single-decked vehicles with passenger accommodation for more than eight persons will be 50 m.p.h. for double-deck passenger buses and coaches the limit is reduced to 40 m.p.h. Rigid vehicles exceeding two tons unladen weight are limited to 40 m.p.h. the speed limit for articulated vehicles is also 40 m.p.h. Where an independent trailer is towed the limit will be 35 m.p.h. reduced to 20 m.p.h. if more than one trailer is drawn. Where more than one speed limit is prescribed (in any case) the lesser speed limit will be applicable.

In addition to appealing to the public through the national and local press, Radio and Television appeals will also be made for co-operation and it is hoped to issue in April a film on the subject which will be available in cinemas and on television.

The only exceptions to these

new regulations are Fire Brigade vehicles, Ambulances and Garda vehicles when on duty.

Mr. Hally told the Press conference that the introduction of speed limits in England had met with good results and in recent years there was a considerable reduction in the number of road deaths in that country.

Mr. Hally said the limits of 30 miles would operate in the following places in the county: Annestown, Ardmore, Ballyguff upper, Bonmahon, Cappoquin, Cashmore, Dunmore, Kilmacthomas, Lismore, Passage, orlaw, Stradbally and Talow.

Concluding, Mr. Hally said that the committee which had been set up would meet annually to review the position and if necessary make alterations.

Mr. and Mrs. Michael Condon, Millbrook, St. Dungarvan, wish to announce the engagement of their youngest daughter, Catherine (Kitty) The South Western Hospital, Stockwell S.W.9, of Thomas Boyle, of Stockwell and of Donegal.

## VANDALISM IN DUNGARVAN AND ABBESIDE

Complaints of vandalism in Dungarvan and Abbeyside were made at a meeting of Dungarvan Urban Council on Friday night last.

Col. Tom Lannon said that a seat had been thrown into the tide at the Look-out. This, he said was not the first time it happened.

Col. Rd. Walsh said that two seats were placed across the Causeway on the main Waterford-Dungarvan road one night last week. This showed a complete lack of civic spirit by the younger generation of the present time.

The Engineer said a seat was found up in a tree in the Park and in the Causeway. The people who did that were not children, he said.

Col. Lannon said the U.D.C. were too lenient with vandals. Those responsible for it should be caught and prosecuted. This behaviour would not be tolerated in any other town in Ireland, and some of the people of Dungarvan should have a little more civic spirit.

## 'Priory House Best Forgotten'

PRIORY HOUSE, Dungarvan, would never have been bought by them only for the people that owned it. It was nothing but a legal swindle for which the poor people had to pay and they should forget about that building, said Mr. T. Lannon at Monday's meeting of Waterford Health Authority when the members were asked to approve of the loan for the proposed new clinic at Priory House.

Mr. Lannon said that building was unsuitable for a clinic and there was plenty of room in the hospital for it. £1,000 was spent on plans for a clinic and dispensary in another part of the town and nothing was ever done about it; only the money was squandered.

Mr. Lannon went on: "A lot has been said about their building but I'm telling you that you can forget about it. By all means give the people what they are entitled to but not in this place. The buying of it first day was wrong and it was only a squandering of money. Forget about Priory House and throw it out."

Mr. J. A. Hynes (Secretary) said the Department was prepared to give a two-thirds grant for it and they were now ready to raise the loan.

Mr. Lannon—I propose we forget about it.

Mr. P. Cahill seconded.

At this stage Mr. Lannon rose to his feet and in vigorous manner alleged that Mr. Hynes would only answer questions that suited himself.

Mr. Griffin asked if they were obliged to have the clinic in a specified place.

Mr. Hynes said the County Council decided to convert Priory House into a clinic.

Mr. Lannon—The former Co. Surveyor, Mr. Sheedy, once told me that you would only be continuously spending money on old buildings.

Mr. W. Collins—Can they build even if we decide not to go ahead with it.

Mr. N. Walsh (Chairman)—I do not think so. We must provide the money.

Mr. Hynes said the Act stated that a clinic must be provided for every town over 3000 population.

Mr. J. Griffin said before making a decision they should first inspect Priory House and also look at all other prospective places.

Mr. Lannon said a clinic and dispensary was to be built beside the Courthouse originally and £1,000 was spent on plans for it. Then the Priory House came up.

Mr. M. Morrissey said the Department would give a two-thirds grant if the clinic was in Priory House but would they get it if they moved from there.

Mr. Hynes said the planning of the Clinic was going on with the consent of the Department and they could not appoint a quantity surveyor for work.

Mr. Morrissey proposed the matter be deferred to the next meeting and that they ask the Minister for Health what would happen the grant if the Clinic was shifted.

Mr. Lannon said there was plenty of other places for the clinic including the hospital where all facilities were available.

Mr. Morrissey's proposal was defeated 8-5.

Mr. Lannon's proposal (that Priory House be not considered was then carried 9-3. The voting was—For—Messrs. Lannon, Curran, Walsh, Cahill, Galgey, Madden, Browne, Collins, Against—Messrs. Foran, Morrissey, and Power.

## Reduced Working Hours for Domestic Staff

On the proposal of Mr. T. Gallagher, seconded by Mr. J. Griffin, Waterford Health Authority at its meeting on Monday last decided to reduce the weekly working hours of the Authority's Domestic Staff from forty-eight to forty-five hours. Excess expenditure of £3,835 for extra staff which will have to be employed as a result, was also approved.

Mr. J. A. Hynes, Secretary, said they had a claim from the A.T. and G.W.U. for the domestic staff at Adkeon only but decided to include all hospitals. 50% of the excess expenditure would be recoupable and would mean a little more than 1d. on the rates.

Mr. W. Foran said they were reaching the stage where a 45-hour week would be out of the question. There was no such thing as a 45 hour week for the farmer and they would have to draw the red light before the powers that be. If that trend continued it would lead to chaos and there would be Communism in the country.

The reduced working hours were agreed to with Mr. Foran dissenting.

## "HOSPITAL COULD GO UP IN SMOKE"

WHEN members were discussing a proposal to provide stand-by power plants at the various institutions, at the monthly meeting of the Waterford Health Authority on Monday last, Mr. P. Cahill remarked that the Mental Hospital in its present condition could "go up in smoke" at any minute.

In a report, Dr. F. Corrigan, R.M.S., Arkeen, stated that an emergency plant was necessary as a break down in power could cause loss of life in the hospitals.

Mr. J. Griffin said they had been officially warned by an E.S.B. engineer that the present electrical installation of the Mental Hospital, Waterford, were defective and if the Department did not agree at once to the rewiring of it they should hold them responsible for anything that occurred as a result. They should appeal to the Department of Health for the sake of humanity to approve that part of the scheme.

Mr. Cahill then made the remark quoted at the outset.

Mr. Hynes (Secretary) said at the February meeting of the Authority it was agreed in principle to install the stand-by

## COLR. CRITICISES DUMPING

A member complained that, despite objections raised at previous meetings to dumping at Springmount it was still going on and the place was now in a desperate condition. He did not know how they could stop it.

Deputy Mayor said it was a waste of time putting up a notice there. They would have to have somebody there to prosecute offenders.

Col. T. Lee said he believed a lot of the "stuff" was coming from the County Home.

On the proposal of Col. T. Lannon, seconded by Col. Lee it was decided to ask the Sanitary Authorities to investigate.

## COUNCIL SELL LOCAL SITE TO ABBESIDE MAN

At the monthly meeting of Dungarvan Urban Council, on Friday last, it was unanimously decided to sell one-quarter acre of land situated at Davitt's Quay to Mr. T. Wade, Murphy, Place, Abbeyside.

Mr. B. White, Acting Town Clerk, said he had written to the Dept. about it and they were now only awaiting sanction.

Col. J. McCarthy said the matter had taken quite a considerable length of time. It was a long time on for the past six months, he said.

Col. R. Walsh proposed and Col. T. Lee seconded that the site be given to Mr. Wade.

ESTIMATES MEETING  
April 5th was fixed as the date for the Council's annual Estimates meeting.

Col. R. Walsh so appreciably remarked when the date had been decided—"it is too soon it will come."

### SALMON FISHING

Due to weak tides and a big fresh in the river, salmon were very slack in all districts last week. In such conditions this scarcity is understandable amongst fishermen. With the spring tides this week there was a marked improvement on the opening days this week. The price, which had fell to 5/- has again risen to 7/6 this week.

### LATE MR. ML. HICKEY

The death of a well known personality in the person of Mr. Michael Hickey of Windmill Hill, Youghal, which took place after a few days illness at the Cottage Hospital, caused sincere regret to his many friends and acquaintances. Of an old established Youghal family, the deceased was one of the old seafaring stock of the town and had reached his 90th year. During the First World War he served with the Royal Naval Volunteer Reserve. He was well known as a member of the salmon fishing fraternity and in his early days was a member of the crew of the local Life Boat, of which his son Richard is Coxswain and younger son Maurice Assistant Mechanic. As a mark of respect to his memory, the Life Boat House flag was flown at half mast.

The remains were removed to the Parish Church from where the funeral both large and representative, took place to North Abbey cemetery.

The chief mourners, Messrs. Richard, John and Maurice Hickey (sons); Mrs. J. Hickey (daughter-in-law); Messrs. M. Hickey and Thos. Hickey, U.D.C. (nephews); the Messrs. Catherine M. and M. Hickey (nieces); Mr. and Mrs. T. Coleman and Mr. and Mrs. J. Polphrett (relatives).  
Rev. E. O'Callaghan, C.C., officiated.

### LATE MR. PATK. GRIFFIN

Deep regret was felt at the death of Mr. Patrick Griffin, which took place rather suddenly at his daughter's (Mrs. M. Ahern) residence 65 Sarsfield Terrace, Youghal. Of an old Youghal family, the deceased served in the British Army in the 1914-18 war and later during the emergency in the National Army.

The remains were removed to St. Mary's Parish Church the coffin being draped with the Tricolour and the funeral took place to North Abbey cemetery followed by a large gathering of sympathisers. He is survived by his three daughters and two sons to whom sympathy is extended. Rev. E. G. O'Dwyer, C.C., officiated at the graveside.

### FOOD PLANT FOR YOUGHAL

Mr. G. Good, U.D.C., Chairman of the Youghal Traders Association informed the members at a recent meeting that it was important that the people of the town and surrounding district should be made aware that the Association was fully behind the erection of a food processing plant in East Cork. He said if the factory was erected in Youghal it would have a very large vegetable area to draw from. The Chairman suggested that they get in touch with Major General Costello at Mallow and arrange for an interview with him on the proposed processing factory. The suggestion of the Chairman was unanimously agreed to.

### YOUGHAL PARKING REGULATIONS

The Youghal Traders Association, recently made the following proposals to the Youghal U.D. Council in reference to parking facilities in the town:  
(1) The Association was in agreement that as many parking centres as possible should be available in the back streets. It was not desirable to prevent parking in the Main St. but if found necessary, there should be a thirty minute limit.  
(2) Parking place at the

## LATE MR. ML. CURRAN

ABBEYSIDE, DUNGARVAN

The death occurred during the early hours of Thursday morning, March 21st, at his residence Abbeyside, Dungarvan, of Michael Curran. He was an outstanding gentleman and most popular for his reserved and retiring disposition. He was a most industrious worker previous to his retirement.

We extend to his wife Margaret, his brother James Curran, Connolly Row, Dungarvan, and his niece, Mrs. M. Smyth Murphy Pl., and nephews, our deepest sympathy.

His removal took place on Thursday evening to Abbeyside Parish Church followed by a most impressive and representative cortege and were blessed and received by Rev. Fr. M. Walsh, C.C., assisted by Very Rev. Fr. J. Roche, P.P.

Requiem Masses were celebrated on Friday morning for the eternal repose of his soul and the interment took place later in the adjoining family plot. The above clergy officiated at the graveside.

Large sheaves of Mass cards were received by his relatives. (Undertaking was by James Kiely and Sons, Dungarvan.)

# Mercy Pupils put on Super Show

**P**ACKED houses on Sunday and Monday nights and at the evening performance on Monday was a fitting climax to the wonderful work by the Sisters of Mercy in presenting an outstanding variety concert in aid of their new school building fund, in the Friary Hall. THE DANGER OF FOREST FIRES

The early Spring is a time of grave danger from forest fires. Many people believe that such danger is confined to the warm days of Summer but this is not so. During the Spring, dry, dead vegetation which has not been covered by new green growth is highly inflammable and can carry fire with great speed over long distances. Heavy frost followed by easterly winds has dried out last year's vegetation so that the fire danger far from lessening has been increased by the severe weather experienced last winter. There are now in this country 380,000 acres of State plantations and about 100,000 acres of private woodlands. All these woods and particularly the young State plantations are very vulnerable to damage by fire.

The burning of gorse and heather by farmers with the object of improving mountain and moor grazing often gives rise to very extensive fires. Not only such burning must be carried out under the strictest supervision but at least one week's written notice has to be given to the Garda and to the owners of any plantations within one mile radius. Heavy penalties are prescribed for failure to comply with this requirement.

If the local Forester is given the advance notice required the co-operation of the staff at the Forest Centre will be given to ensure that such burning can be carried out in a safe and controlled manner.

Many fire also occur as a result of the carelessness of people who throw away lighted matches or cigarette ends or who light picnic fires in close proximity to plantations. Carelessness of this kind can easily cause widespread destruction and may involve the expenditure as well as civil proceedings for any damage caused.

During the year 1961/62, 349 fires occurred in or near State plantations and 84 of these resulted in the destruction of 105 acres of plantations valued at £2,500. Prompt action on the part of forest staff, Garda, local fire brigades and voluntary helpers prevented the toll from fires being far more extensive.

The co-operation of all sections of the community is essential if the Forest authorities are to succeed in protecting our forest lands.

The Tagging of Attested Calves

The arrangements for having calves tagged in the attested counties have been modified by the Department of Agriculture. In past seasons when a herd owner in such a county wanted to sell a calf which had been born in his attested herd before the annual herd test, he had to have it possible to have the calf tagged and "blue-carded" on the herd owner's premises by one of the field officers attached to the local B.T.E. Office. The expansion of the attested area to 17 counties with three more to be attested shortly, has however, made this arrangement too cumbersome and time-consuming especially as it is necessary to move staff into the six dairying counties of the south to speed up attestation there.

In future Department officers will not make visits to farms for the purpose of tagging calves. They will however do whatever tagging they can on the normal rounds. In addition, farmers can bring their calves to a public sale where the B.T.E. officer or duty, if satisfied that the calves are from attested herds, will tag the animals and issue the necessary blue cards to the owners.

An important feature of the changed arrangements is that any farmer who wishes to keep calves which have been born on his farm need not have them tagged immediately but can leave the tagging until the next herd test, when it will be done by his veterinary practitioner, or until a Department field officer is available.

Dealers who buy dropped calves in the Attested Area must have the animals tagged and obtain the relevant blue cards before offering them for sale. This will be done by arrangement with the local B.T.E. Office, either at the dealer's approved premises or at a sale, but the dealer must satisfy the Department's officer that the animals have come from attested herds and supply the sellers names and addresses for recording.

Lismore Notes

DEATH OF MISS M. NUGENT It is with deep and sincere regret we record the death of Miss Mary Nugent, Monasterevin, Lismore, which sad event occurred rather unexpectedly on Saturday last, March 23rd. She deceased lady, who had reached a good age, was a very popular figure with young and old, and her passing has caused much regret. She will be sadly missed by all her relatives and friends, to whom we tender our deepest sympathies.

The remains were removed to St. Carthage's on Saturday evening and were received and interred by Rev. Fr. J. J. O'Donnell, P.P., assisted by Rev. Fr. J. J. O'Donnell, C.C., and Rev. Fr. J. J. O'Donnell, C.C., and the burial took place on Monday at the adjoining cemetery. Large numbers of sympathisers attended both funeral and interment.

TRAIN TO WATERFORD While en route to many local faces in Walsh Park on Sunday last to cheer Waterford to victory over Wexford in their vital hurling league game, we wonder just how many more "winners" of the game would have been there if only C.I.E.'s decision in refusing their excursion from Cappoquin and omitting Lismore, which a large number of cars brought a big following from Lismore to the city, they were numerous people relying on the train to bring them to the match only to find out that the excursion was starting from Cappoquin. Surely this is not fair. In the past years Lismore has always supported these excursions very well and we would like to know why C.I.E. took the decision in omitting Lismore. We sincerely hope that in future C.I.E. will again include Lismore.

CONFIRMATION His Lordship, Most Rev. Dr. Aherne, Bishop of Cloyne will administer the Sacrament of Confirmation to the boys and girls of the parishes of Lismore, Monasterevin and Ballyduff, in St. Carthage's Church, Lismore on Sunday next after East Mass. The reason for confirming the three parishes together is due through the indisposition of our Bishop, Most Rev. Dr. Cohanlan, and while we welcome Most Rev. Dr. Aherne to Lismore, we would also like to make this opportunity of wishing our own Bishop a speedy recovery to full health.

GLENN ROVERS 45 DRIVE The 45 Drive in aid of Glen Rovers hurling club concluded in St. Carthage's Hall, on Sunday night last, and proved an outstanding success, both financially and entertainingly. After some very exciting rounds the following three pairs divided the £15 cash prize: 1st, M. J. Donovan and J. O'Donnell; 2nd, Pat. Keating, Harks Rd. and Mossie O'Gorman, Co. delane; 3rd, J. and Frank McGrath, Monasterevin.

COMORTAS GLOR NA GAEL Lismore has entered this year's Glor na Gael competition and the organising committee which was formed last week are holding their first public meeting in St. Carthage's Hall on this Friday evening at 8.30 p.m. The committee are hoping for a large attendance, particularly those

KILMAC' FIRM IMPORT NEW TYPE MILKING MACHINE

The first cargo of a new type of Milking Machine, arrived in the port of Waterford on Friday morning last. These machines arrived by the "City of Waterford" from Rotterdam consigned to Townsend Flahavan Seeds Ltd., Kilmacthomas, the prominent National Seed Firm, by Messrs. National Electro-Constructors, Wavre, Belgium. The introduction of this new type Milker is a further example of the considerable expansion that has been made by this progressive firm in recent years. In addition to being the Sole Agents for the "National" Milking Machine this firm has secured the sole rights of distribution of farm seeds from many of Europe's leading Seed Breeding Establishments. Amongst the firms they represent are van Enkelen Bros., "S. Hertogenbosch," Holland, and Central Bereu Rotterdam, and some of the species introduced by them has won nation-wide popularity. Amongst the varieties are Bison and Ferax Fodder Beets, the latter the result of a modern technique in plant breeding called polyloid.

PIG PRODUCERS

The present pig grading standards require a length measurement of at least 800 mm. for Grade A Special and at least 775 mm. for Grade A. To get good grading results, pig producers must pay careful attention to breeding and feeding.

BREEDING Use sows that have produced a high proportion of Grade A Special and Grade A pigs, or gilts selected from the progeny of such sows. Buy stock for breeding from a producer who is getting consistently good grading results; or get gilts from Accredited Pedigree herds, either direct or through the Pigs and Bacon Commission.

FEEDING Controlled feeding in the later stages of fattening will help to improve grading.

CAPPOQUIN NOTES

LOCAL LADY BEREAVED
Sympathy goes to Mrs. M. McSweeney, Main St., who has been bereaved through the death of her sister, Mrs. E. Whelan, which took place in a Cork Hospital on 21st inst. BOWLING
P. Ormonn defeated Wm. Tobin by a bowl of odds in the only Tournament score bowled on Sunday.

MISSION OPENING

A two weeks Mission, conducted by Fathers Foxe and Dunning of the Redemptorists Order will open on next Sunday, I.C.A.
At Wednesday's meeting of the I.C.A. Guild the members had as a visitor Mr. Alex Heskin, Glencarrig, recently returned from the U.S.A. which he had toured as a representative of Macra na Feirme. Mr. Heskin gave a talk on his tour, illustrated by a beautiful set of slides. The talk, entertaining as well as educational, was much appreciated by the members, who formally thanked Mr. Heskin.

ENTERTAINMENT

"Full house" notices were on display shortly after the opening of the Parish Fund Benefit Entertainment in the Desmond Cinema on Sunday night. The audience thoroughly enjoyed a well-balanced and varied programme which was presented by Mr. Brendan Breen, who was run off with disaffecto. The opening feature, the operetta The Magic Woodland was brilliantly lit and beautifully dressed and the youthful artists, varying from senior pupils to toddlers, moved with grace and precision, which showed careful rehearsal. The programme, spoken by Miss Nora Cashman with clarity and ease and with perfect diction, was the prelude to a series of colourful scenes, tuneful choruses and lively dances which entrained the audience and drew rounds of well-merited applause.

WRECKED

"Wrecked" J. B. McCarthy's one-act tragedy was played with great effect by the members of the I.C.A. Drama Circle. In direct contrast with its sombre theme, was the comedy "Reilly's Daughter," which followed. It was presented by the Blynduff Guild of Muintir na Tí and gave general pleasure.

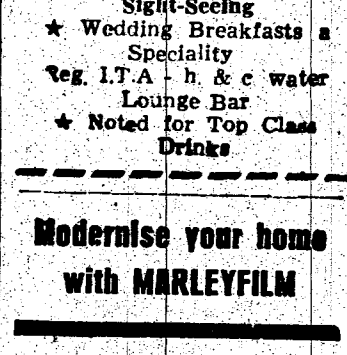

ST. ANNE'S SCHOOLS

The Anne's Schools rendered two numbers, "Dawn on the Hills of Ireland" and "The Old Maid" and were loudly applauded. Four boys, M. Brady, D. Connolly, J. Millea and B. Scanlan from the Hallahan School of dancing gave a reel in fine style. Mr. Sean Jeffers, tenor, was heard to advantage in numbers from light opera songs in the modern mode from the Lismore duo Ned O'Brien and Dan Doherty, sung to guitar accompaniment, gave immense pleasure and the talented pair were recalled again and again. A great night's entertainment closed with selections from the Accord on Band of Lismore C.E.S.

Countrywide Support for Dairy Farmers' Claims N.F.A. NEWS

COUNTRY-WIDE SUPPORT FOR DAIRY FARMERS' CLAIMS

A new deal for farmers on rates and milk prices—this was a recurring theme at the N.F.A. National Council meeting on the 18th March. The N.F.A. has long since completed its "home work" and has evolved a clearly defined policy in relation to these items. The dairy industry is the keystone to our national economy, particularly on account of the extent to which it is inter-related with our livestock industry. An immediate "shot-in-the-arm" is essential. Rates are unjust and inequitable as a form of taxation, particularly where the smaller farms are concerned. N.F.A. demands complete relief of rates on the first £20 P.L.V. of all farms, by means of an increase in the Agricultural Grant from Central Funds.

These brief statements of policy are an attempt to summarise in a few words what the National Dairy Committee and National Rates Committee have been doing in their respective fields of activity for some months past. The assembly of all relevant facts and figures and the much hard work on the part of those Committees and the Economic Section, until finally it was possible to present a clearly defined policy for consideration and approval by our National Council. This stage was reached at the January Council meeting in the case of the Dairy policy. The proposal for relief of rates on the first £20 P.L.V. is, of course, a long established part of N.F.A. policy.

The point is that the N.F.A. has now done its job as far as the preparation of a case is concerned. Consequently, further debate by the Association's National Council on the basis of policy would be superfluous. The only way forward until finally it was possible to present a clearly defined policy for consideration and approval by our National Council. This stage was reached at the January Council meeting in the case of the Dairy policy. The proposal for relief of rates on the first £20 P.L.V. is, of course, a long established part of N.F.A. policy.

A significant feature was the whole-hearted support pledged to the milk issue by counties not directly engaged in milk production. In fact, farmers in a number of these counties feel just as strongly about this issue as do farmers in the dairying areas (which term includes both creamery and liquid milk production) and their County Representatives gave an unqualified assurance that those counties would actively support the efforts of the National Council.

Re-representatives from the traditionally dairying counties were impressed by this development and stated that it was obvious to them that only a truly National organisation of farmers could do the job in this way. Dairy Farmers' representatives are now looking to the N.F.A. to secure their just demands for them. The National Action Committee was instructed by Council to continue its investigation and planning in preparation for any eventually which might arise.

FALSE ALLEGATIONS ON SUPERMARKETS
At its March meeting, the National Council of the N.F.A. expressed its concern at allegations which have recently appeared in the public press suggesting that the Association favours the elimination of the small rural shopkeeper by the introduction of outside multiple store interests. These allegations are without foundation of any kind. The Association has, however, drawn attention usefully to the fact that such interests are already operating in Ireland and plan to expand their operations. It is reasonable to assume that this development will follow the pattern already set by similar developments, notably in the U.S.A., the U.K. and on the Continent of Europe. It is the hope of the Association that where in large urban centres this form of service is demanded by the housewife, it will be provided by Irish rather than by outside enterprise and the Association will be pre-

WORLD-HELP WHEAT GROWERS

After many years of examination of the subject, N.F.A. is quite convinced that many of our wheat marketing difficulties stem from the fact that the Millers have no financial incentive to use Irish wheat. The wheat growing industry is the only industry on record in this country that not only has no protection, but in fact has the very reverse. Duty free imports are allowed at a price very much less than the price of the home produced article. These imports are nominally limited by quota but we have the extraordinary situation that instead of the Government controlling the quota, the quota is controlled by the Flour Millers themselves. The Flour Millers have only to decide unilaterally that the home crop is not up to standard, for the Minister for Agriculture to agree to lift the import quota and allow the Flour Millers to import as much foreign wheat as they see fit. Incentive: The solution to this, as applied by every European country, is to place an import duty on wheat so as to raise the price of imported wheat to somewhat above the price of home grown wheat—in other words to give the Flour Millers the incentive to use all the home grown wheat they possibly can. If we were in the E.E.C. now we would be compelled to raise an import duty on foreign wheat and it can be shown that this import duty, under E.E.C. regulations, would amount to about £14 per ton. The N.F.A. accordingly has again requested the Minister that he put a duty of this amount on all imported wheat.

Consumer Subsidy—This import duty would involve a rise in the cost of flour amounting to a little over 4d. per 25lb. loaf. Naturally, though the N.F.A. does not desire that the price of bread or flour should be raised, this indeed would only lead to a further reduction in consumption and therefore a further reduction in the demand for wheat. It is suggested that the money collected by way of import duty be refunded as a subsidy on the sales of flour. This also is the course envisaged under E.E.C. regulations, in any case where a country is compelled to increase its import duties on wheat.

FREEDOM FROM HUNGER CAMPAIGN

More than half the world's population suffers from hunger. The National Council of the N.F.A. has been instructed by Council to continue its investigation and planning in preparation for any eventually which might arise.

or malnutrition. Attention is now being drawn to this fact by the Irish Red Cross Society, who are organising the country's contribution to the Campaign.

Under the auspices of the Food and Agriculture Organisation of the United Nations, the campaign aims at helping the needy countries to help themselves. This is a cause which deserves the support of everyone.

The N.F.A. hopes that, as far as possible, the Irish contribution will include some of our own agricultural products. It is essential that there are no problems to be overcome in implementing this suggestion, but we trust that with the means of doing so will be found.

N.F.A. regards the campaign as a short-term policy which is essential in the interim period pending the permanent over-all solution to the problems of higher living standards.

BETTER TRADING TERMS WITH BRITAIN

While full details of the An-

gle- Irish trade talks in London this week have not been discussed, the subsequent reports convey a note of optimism about the possibility of more satisfactory arrangements for our agricultural exports to Britain. It must be remembered that our many competitors are also seeking concessions and it is essential to use our bargaining power in industrial imports to the best possible advantage. This also raises the question of urgency in improving the production, processing and marketing of our farm produce. It is obvious too, that we must continue to be on the alert to avail of any opportunity of securing outlets for agricultural exports elsewhere.

FARMERS CONDEMN PRICE REVIEW

Complete disagreement with the British agricultural price review was expressed at a meeting of the Council of the United Farmers' Union on the 20th March. A statement issued from the meeting says that the Council is of the opinion that the increase in the value of the industry will be a result of the decisions which provide for no increase in the value of the guarantee, despite a heavy bill of increased costs.
