RE DUNGARVAN DISTRICT HOSPITAL

Dear Sir—
At the present time, I do not feel like taking part in a controversy but a sense of honesty and decency compels me to expose a ludicrous statement by Mr. C. Curran, M.C.C. which appeared in your issue of 18th August. He states, inter alia, "That the setting up of the Regional Health Boards was an exercise in democracy." Sure everybody knows and especially all the people of West Waterford to their cost, that the setting up of those Boards was a classical example of an exercise in bureaucracy and of course the chief bureaucrat is now safely ensconced in the Vice-Regal Lodge.

Mr. Curran further states that those boards have made a lot of progress not the least of which is the hospital "development" at Dungarvan. Of all the cheek! This same Board has left us an hospital with far less equipment than we had at the start of the century. They downgraded and denuded it even to the extent of ripping the lamp in the operating theatre from its moorings. This is one example; there are many more. However I am very pleased to note his change of heart regarding the interference of civil servants in the Health Services. What a pity he did not make those democratic "noises" when those autocratic boards were being set up.

Yours sincerely,
RICHARD A. WALSH,
U.D.C., Abbeyside

Killed in road accident

On Monday night last, John Power (22), Rockmount, Mahonbridge, was fatally injured in an accident, when struck by a lorry from behind, on the main Waterford/Cork road at Downey's Cross. The accident occurred at 9.45 as deceased was walking along the road. The lorry was travelling in the direction of Dungarvan. He was rushed to Ardkenn Hospital, Waterford by ambulance where he died soon after admission.

Cappoquin Ground Rents

Dear Sir—
May I make a short comment on Mr. J. McCarthy's letter in your last issue.

Mr. McCarthy was indignant about a leaseholder whose ground rent he alleged was being raised from £10 to £150 a year for a further 21 years. The facts of the matter are rather different. The premises in question were vacant 16 years ago and then leased for business premises for 14 years for the very small sum of £10 a year. Mr. McCarthy can be forgiven for mistaking this £10 for a ground rent, but he really should have

checked his facts. The £10 was, in fact, the actual leasehold rent for the house and the Estate accepted this low rent because the leaseholder undertook an obligation to put a derelict property into good order and repair. I estimate this must have cost the leaseholder at least £100 a year and on this basis the new leasehold rent now under negotiation for £120 a year is really a decrease after allowing for changes in the value of money!

Yours faithfully,
Sir Richard Keane Bart.,

CREDIT NOTES:

All credit notes containing tax adjustments which are issued by registered persons to other registered persons on or after 3rd September 1973 should show tax at the appropriate new rate, including the zero rate, irrespective of the rate charged on the relevant invoice.

CANTEENS:

Canteen, whether or not confined to a company's own staff and whether or not a charge is made, are required to register and account for tax at the rate of 6.75 per cent, if their receipts (or the cost of providing the service) exceed £300 in a taxable period of two months.

READY RECKONERS:

Ready reckoners and conversion tables, including a special conversion table for use by builders, have been issued to the traders concerned. Further supplies are available from the Revenue Commissioners (Supply Branch), The Castle, Dublin 2 and from inspectors of taxes.

Large Profit for Cork Marts

THE Cork Marts I.M.P. group are back in profit. The giant farmer owned meat factory and cattle marketing complex report a profit of £500,000 before depreciation (£95,000 after depreciation) for the 1972 trading year.

This is an improvement in net profit of £800,000 on the previous year when the group lost almost £3 million. During that period the Meat Industry in general had been going through difficult times. Mr. Derry Twomey, Co. Waterford farmer and acting chairman of the Board said: "In difficult times because of our scale of operation we were the hardest hit meat group but given a normal flow we should be the strongest because of the capacity of our plants."

At present the farmer owned I.M.P. group with meat plants at Middleton, Co. Cork, Leixlip, Co. Kildare and Grand Canal Street, Dublin, are killing 35 per cent to 45 per cent of the country's prime kill. This is higher than ever before and the throughput of sheep is 10 times what it was four years ago.

Mr. Twomey said: "Our studies indicate that for the last quarter of 1973 Ireland can be the world's largest exporter of

beef. Our organisation has by far the biggest beef processing complex in Ireland (and also in Europe) and will therefore have to be ready for unprecedented numbers of cattle coming forward. At present our biggest problem is to get skilled staff to deal with the extra throughput."

Mr. G. Beechinor, Chief Executive, of the grouped refuted suggestions that one or other of the plants should have been closed during the periods when beef was exceptionally scarce. He also defended the erection of the new plant at Middleton, which is at present killing over 1,000 cattle per week. The news that Cork Marts I.M.P. are back in profit is not only good news for the 30,000 farmers shareholders, but also for the whole farming industry. The performance of the Board and chief executive was praised by Jerome Buttimer, President of I.A.C.S.; Donal Cashman, Deputy President I.F.A. and Tom Sheehan, President of Macra na Feirme.

There will not be a dividend to shareholders for 1972, but Mr. Twomey says he is confident that they will be able to pay a dividend next year when he hopes that their profits will be around £4 million.

Projected beef and cattle flow for second half of 1973

Cattle numbers in Ireland have followed an increasing trend over the last decade. In recent years, with higher milk and beef prices and increased confidence at farm level, the expansion in numbers has been particularly rapid. In June 1972, increases of 7 per cent and 5 per cent in the breeding herd and in total numbers, respectively, were recorded. Although results are not yet available for June 1973, an even greater rate of expansion is most likely.

Cattle exports (live and dead) have generally increased in line with the increase in numbers over the past decade. However, in 1972 and so far in 1973, exports have been running at a reduced level compared with earlier years. In 1972 exports amounted to 597,000 head compared with 616,000 head in 1971. Similarly, factory slaughtering in 1972 at 579,000 head showed a substantial drop compared with 707,000 head for the previous year. Total exports at 1,176,000 in 1972 were 11 per cent or 147,000 head down on 1971. In the first half of 1973, as can be seen from Table 1, it is estimated that total exports at 463,600 were a further 16 per cent or 89,000 down on the corresponding period in 1972, mainly as a result of reduced live exports and prime cattle slaughtering.

The short in exports over the past 18 months reflects the increased rate of herd building taking place. It was due to reduced slaughtering cull cows (particularly in 1972) as well as a reduction in both slaughtering and exports of heifers — such heifers being drafted into breeding herds. Total exports (live and dead) of bullocks in 1972 at 809,000 compares with the 1971 figure of 786,000. Thus, taking account of past increases in cow numbers, there was a normal disposal of bullocks in 1972 and contrary to what is commonly believed, there was no abnormal carry-over of bullocks into 1973.

So far in 1973 however, total exports of bullocks have been running at below normal level. Factory slaughtering of bullocks in the Jan-May period of 1973 at 310,400 head were below the previous year's figure of 344,200. Similarly, live exports of bullocks at 88,000 head for the

first quarter of this year compare with the corresponding 1972 figure of 126,000. Thus, considering the expansion in the breeding herd 2-3 years lagged it is apparent that there has been some carry-over of 2-3 year old bullocks into the second half of 1973. While cow slaughtering in the first half of 1973 were above 1972 level they still reflect a sub-normal culling rate relative to earlier years.

Taking account of all the above factors, including—

the reduced culling of cows over the past 18 months;
the increase in the age of the cow herd as shown by Keane (Farm & Food Research, March/April 1973);
the reduced exports of bullocks in the early part of 1973;
the normal expansion in output expected from the increase in cow numbers 2-3 years lagged.
The allocation of cattle supplies between live exports and factories is most difficult. The figure of 518,000 estimated for live exports in the whole of 1973 is due to the greatly reduced level of such exports in the first half of this year, since the project figure of 300,000 for the second half of 1973 is substantially higher than normal. Up to 100,000 of this 300,000 are exposed to be shipped to E.E.C. countries mainly for immediate slaughter.

While a seasonal increase in slaughtering is normal for the second half of the year, the projections for the second half of 1973 for both prime cattle and cows are at unprecedented levels.

In view of such exceptional levels of slaughtering expected in the second half of this year, it is interesting to investigate if this will put an excess strain on factory capacity. Total factory slaughtering capacity is estimated by the Irish Fresh Meat Exporters Society at between 1.6 and 1.75 million head per annum. If we assume an annual capacity of 1.6 million head, this gives a weekly capacity of 30,769 head. In the recently published study the estimated affective capacity of Irish Meat Factories was placed at approximately 1.3 million head per year. This would appear to be a more realistic

CAPPOQUIN NEWS

DEATH OF RICHARD A. (DICK) FRAHER

It is our sad duty to record the death of Richard A. (Dick) Fraher, late of Main St., Cappoquin, which occurred at Ardkeen Hospital, Waterford, on Monday, August 20th. The removal to St. Mary's Church, Cappoquin took place on Tuesday evening, August 21st, where the remains were received and blessed on arrival by Very Rev. J. Power, P.P., assisted by Rev. Fr. E. Sweeney. The burial took place on Wednesday, August 22nd in St. Declan's Cemetery. Very Rev. J. Power, P.P. read the final prayers at the graveside assisted by Fr. E. Sweeney.

The huge cortege that attended on both occasions fully testified the popularity of the deceased person. A member of one of the oldest and most respected families in Cappoquin, his passing is deeply mourned by his wide circle of friends. Dick who was in his early eighties was a noted sportsman in his day. Among his many fine qualities, he possessed a beautiful singing voice and as many of the older folk can remember his singing in the local "Black and White Show" was a joy. He played a big part in building up the family businesses, which included Jarvey Cars, Undertakers and also Main Carters from the Railway Station and the boats that came up from Youghal. Another link with the "old Cappoquin" has been laid to rest.

Chief mourners: Dan, Dublin (brother); Alice and Gertie, Dublin (sisters); Cunningham family, Waterford. O'Connor family, Cappoquin. Fraher family, Cappoquin. Nephews, nieces and other relatives. (Funeral arrangements by M. J. Noonan and Son, Undertakers, Cappoquin). MASS AT ST. DECLAN'S — Mass will be celebrated at St. Declan's Cemetery on September 8th (Saturday) Pattern Day of the Parish. It would be greatly appreciated if everyone could tidy up their respective graves and have the graveyard in the order it should be kept, not alone for this occasion but all the year around.

G.A.A. NEWS—Affane senior footballers really turned on the style at Dungarvan on Sunday last when they trounced Portlaw, to qualify for their first senior county final since entering senior ranks. After a shaky first ten minutes, Affane settled down and each and everyone of the team displayed their talents to the full to make it a memorable day. All they have to do to bring home the title is to maintain their present form allied with greater determination and 1973 will prove to be a golden year.

Although, the Cappoquin minor hurlers splendid victory over Ballinameela was slightly overshadowed by the senior football victory, nevertheless this victory was attained despite injuries to key players, who showing great spirit fielded out. This is the kind of spirit that wins championships and while they may be on the young side they will make a fair "fight" of it to retain the title they won in '69.

At the Sportsfield on Sunday last, Talow accounted for the Lismore/Ballyduff combination to reach the Western Minor hurling final. The Intermediate football semi-final resulted in a draw between Ring and Clashmore.

figure to apply to the latter half of 1973. Among the reasons for assessing this lower figure would be:—

a) reduced availability of skilled operative; b) increased overall demand for further processing and slow down of through put in the Israeli Kosher Sector.

On this basis the weekly effective capacity is approximately 25,500 head.

The projected total kill of 557,000 for the second half of 1973 gives an average weekly kill of 21,423 head. Since slaughtering is never evenly distributed over the 6 months, allowance must be made for this seasonal variation. In other words it is the level of slaughtering in the peak week rather than the average week that is critical from the capacity point of view.

In order to determine peak weekly slaughtering in the second half of this year, we will assume that the seasonal weekly distribution follows the same pattern as in the past four years. For July-December of the years 1969, 1970, 1971 and 1972, weekly slaughtering ranged from an average of 36.4 per cent above the mean level to an average of 39.6 per cent below the mean. Applying this to the second half of 1973, we obtain a maximum weekly kill of 29,221 head and a minimum of 12,939.

Comparing this estimated maximum requirement of approximately 29,000 head per week against the estimated capacity of 25,500 per week, it can be seen that a considerable degree of foresight, forward planning and tight organisation in all sectors of through put will be a vital factor in fulfilling the needs of the trade.

The organisation of suitable transport associated with a through put of this magnitude, will require a comparable degree of foresight, forward planning and tight organisation.

BOWLING FINAL

The local Bowling Tournament has been completed. The winners were Deaglan O Fionnusa who defeated Ml. Gallagher by the narrowest of margins. It was real tough luck on Gallagher who has been the model of consistency this season, but the three bowls he was giving away for Fionnusa proved too great a handicap for this great hearted bowler. On the other hand we must applaud the winner who has distinct promise of "being one of the best." Deaglan is still in his teens and he must feel rather proud to win this tournament, which included some mighty big names in the bowling world. We congratulate both winner and loser alike and we sincerely hope they continue the game which is one of our oldest sports. It would be a shame if bowling were to die in Cappoquin, but if this tournament final is any indication, the

An Appreciation Late Michael Foley

Hundreds of Abbeyside people last Thursday night crossed the bridge to pay tribute to the late Michael Foley, and on Friday we buried his mortal remains in the soil of his native Dungarvan. Michael Foley was that unique being — a Dungarvan man who was also truly an Abbeyside man. His passing brings back memories of his years in the Abbeyside National School — particularly in the old schoolhouse in the far off nineteen forties. His enthusiasm, his interest, his humanity, his firmness of purpose, his essential goodness, all spring to mind. One remembers his magical handclap and the instant response it always received. He evoked a devotion from his pupils which only the charismatic quality of his personality can fully account for. And he was a craftsman. One had to be in order to survive in the conditions of those days in which two teachers taught a schoolful of children of all ages in one room.

Not long ago I voiced to him my wonder at this. His reply was typical of the man. "Ah," he said, "The lads were great". That this respect was mutual is borne out to-day by the hundreds of past pupils at home and abroad who mourn his loss. One remembers his extra curricular activities in Stokes' Field and at Abbeyside Strand. Michael Foley never counted the hours he worked. The need of his pupils was his only criterion and his interest in their welfare continued long after they left his charge. Retirement never really suited him. His restless indomitable spirit (which surmounted even personal tragedy of the cruellest kind) yearned to be up and doing. Those of us who had the privilege of learning at the feet of "the Master" will remember him with much pride and great affection. May his gentle soul rest in peace.

The Agricultural Credit Corporation Limited

Annual General Meeting 22nd August 1973

Mr. Brendan C. Considine, Chairman, ACC

- Record lendings of £29 million
- Deposits up by £18 million to record £41 million
- Total assets up to £61 million
- \$25 million loan negotiated with World Bank
- Further expansion of Area Office System

Continued Expansion

The unprecedented expansion in our lending activities experienced in 1971/72 has continued into the year under review.

The number of new lending transactions rose from 9,300 to 11,700, and their value from £17.4 million to £28.9 million. Reflecting this growth, the Balance Sheet figure increased to £54.3 million, almost double the figure of two years ago. In addition, the amount of Promissory Notes discounted by the Associated Banks under ACC guarantee rose from £1.4 million to £1.5 million.

Loan Purposes

Business increased substantially in all categories, and particularly under the heading of livestock. Here the rise amounted to £5 million, bringing the year's lending figures for this purpose to £11.1 million.

The next highest single category was loans for the erection and reconstruction of buildings (including both farm buildings and factory premises) which totalled £4.7 million — an increase of £0.9 million as against the previous year. Loans for land purchase rose by £1.5 million to £2.8 million, while loans for debt funding increased from £1.0 million to £1.3 million. Other productive purposes including such items as the purchase of farm machinery, land improvement, the purchase of fertilisers and the provision of working capital totalled £9.0 million, an increase of £3.8 million over the previous year.

Revision of Loan Facilities

It was only to be expected, in the year when Ireland joined the European Economic Communities, that progressive farmers would seek to bring their holdings to a more viable size. Recognising this trend, your Board substantially liberalised its land purchase policy in the course of the year, while at the same time taking steps to avoid contributing to an undue inflation of land values as a result of speculative pressures.

A further important development during the year was the introduction of Leasing facilities. These facilities are particularly suitable to the dairy industry

Deposit Facilities

Your Board was extremely successful during the year in the raising of additional funds by way of deposit investments by members of the public. The sums invested with us rose from £23.4 million to £41.1 million, a very satisfactory response to the efforts made to publicise the undoubted attractiveness of ACC deposit accounts. Not only are the rates paid on such accounts highly competitive but investors also enjoy the advantage of knowing that their deposits are guaranteed by the Minister for Finance and are trustee securities.

This continuing trend has again made it unnecessary for us to seek funds from the Exchequer to finance the rapid rate of growth in our lending activities.

E.E.C. Membership

The most significant economic event of the year under review was, of course, Ireland's accession to the European Economic Communities. This has altogether transformed the marketing opportunities for Irish agriculture, enabling the farming and food processing industry to benefit significantly from the substantially higher prices which are now available, on a secure basis, within an enlarged "home" market of 260 million people.

As predicted in my address last year, however, the farmer and the food processing industry have found it necessary to borrow considerably larger sums than heretofore to enable them to take full advantage of the emerging market opportunities. This is a wholly desirable trend having regard to the substantially improved repayment capacity of the agricultural industry as a result of E.E.C. entry and the extremely low ratio of indebtedness of the industry in relation to its assets. Your Board is determined to ensure that the industry is not retarded in its development, and in the contribution which it can make to the national economy, by virtue of any lack of suitable credit facilities.

International organisations of which ACC is a member include the International Confederation for Agricultural Credit (of which we have been members for some years), the Association of Co-operative Savings and Credit Institutions of the E.E.C., the European Federation of Finance Houses Association (Eurofinas) and the European Centre of Public Enterprise. It is our experience that active membership of these organisations has been of substantial advantage to ACC in enabling it to keep in the forefront of the agricultural credit industry.

During the year under review we established contact with the European Investment Bank in Luxembourg and there is every indication that this E.E.C. institution will prove of substantial assistance to us in providing long-term capital at reasonable interest rates to the food processing industry.

It is anticipated that the current financial year will see the implementation in Ireland of the three E.E.C. Farm Modernisation Directives. Of these, Directive No. 159/72 will have the most immediate impact on ACC's activities as it provides for the making available of subsidised credit to developing farmers. It seems inevitable that the ACC will have a major role to play in implementing this Directive, which involves the use of credit on a planned and supervised basis to promote agricultural expansion.

World Bank

Although the relative loan agreement was signed after the year under review, it is probably appropriate in this context to refer to the livestock development loan of \$25 million which has been successfully negotiated with the International Bank for Reconstruction and Development (the World

Bank). Details of this loan scheme have already been made public. We are very pleased indeed that it was possible to negotiate such a satisfactory agreement, which should prove of substantial advantage to the small and medium-scale family farmer. It is our hope that the loan will help the family farmer to survive and prosper in a world which is daily becoming more competitive. It is a source of satisfaction to us that the Associated Banks have also agreed to participate in the project.

The total sum involved in the project will be approximately £22.5 million, including World Bank funds of approximately £10 million and investments by ACC, the Associated Banks, the Government and farmer-borrowers themselves. The object of the loan is to promote increased production of beef and pigmeat on a planned long-term basis. The rate of interest chargeable will be approximately 1½% below normal lending rates.

In certain important respects the project will serve as a valuable introduction to the more developmental approach to agricultural credit called for by Farm Modernisation Directive No. 159/72 to which I have already referred.

The success of the project will depend very largely, of course, on the dedicated co-operation of the Advisory Services, to whom I would like to pay a special tribute for their skill and selflessness in helping the farmer attain the maximum return from his resources.

Organisational Developments

A far-reaching review of our organisational structure at Head Office, and of our accounting and data processing requirements, was carried out on our behalf by Messrs. Arthur Young Kennedy Crowley (now Stokes Kennedy Crowley). This has resulted in a number of additional senior and middle management appointments, and in the creation of a revised management structure which is adequate, in your Board's view, to meet current organisational requirements at Head Office. Our regional organisation requirements over the coming years are being studied at present by the Consultants.

Probably the most important single recommendation of the Consultants related to the selection of electronic data processing equipment. On the basis of their report your Board decided during the year to rent an ICL 1902A computer system to cope with the escalating number of deposit, loan, and hire-purchase accounts and to produce more sophisticated management information. As soon as ACC's own needs have been satisfied it is the Board's intention to provide a comprehensive computer-based farm accounting service to our customers.

ACC House

I reported last year on the Board's decision to construct a new headquarters building of 54,000 square feet at the corner of Harcourt Street and Hatch Street. I am pleased to state that work on this building was sufficiently advanced last month to enable us to move in our entire Head Office staff, from our two former locations.

Our move to ACC House is an important milestone in the development of ACC. We now have very fine offices, with ample scope for meeting any additional accommodation requirements which may arise, and we are far better geared than ever before to provide an efficient and comprehensive service to borrowers and depositors.

I am pleased to report that we have been successful in disposing of our previous headquarters building, the former Harcourt Street Railway Station, at a satisfactory price.

Regional Organisation

Considerable progress was made during the year under review in expanding ACC's local network of offices. New offices were opened in Tralee, Kilkenny and Sligo and it was decided to open offices at 7 new centres, viz. Ennis, Mullingar, Roscommon, Tullamore, Letterkenny, Wicklow and Naas. This will have the effect of increasing the total number of ACC offices to 23.

Seven additional Area Offices were appointed during the year, all graduates in Agricultural Science, and a substantial number of additional appointments are imminent.

Group Accounts

The latter half of the year under review was characterised by a rapid rise in the cost of funds, which has continued into the current year. This trend posed serious problems for your Board, which has traditionally maintained a policy of insulating farmers as far as possible from short-term fluctuations in interest rates. We are pleased, therefore, to be able to report a record net profit, after taxation, of £256,000, despite the extent to which our margins were squeezed in the course of the year.

The extent to which interest rates have continued to rise in the current year is a source of considerable concern to your Directors, who have a natural reluctance to pass on higher money costs to farmers except as a last resort. Apart from seasonal loans, the rates on all our lendings are fixed for the entire duration of the transactions concerned. We can only express the hope that a greater measure of success will attend the worldwide battle against inflation and that more normal conditions will soon return to the money markets.

Your Board has decided to recommend a final dividend of 2% on the share capital, making a total of 3½% for the year, the same as the previous year. Total payments to the Exchequer for the year, including dividends, interest and taxation, will amount to £807,000.

Years of Opportunity

It is a source of some satisfaction to your Board that ACC is now so well equipped to meet the needs of agriculture in the years of opportunity which have been opened up by E.E.C. membership. It is generally accepted that the land of Ireland is producing perhaps one-half its potential and that the economy of the country can be transformed if this potential is realised. I am fully satisfied that Irish farmers are capable of meeting the challenge with the leadership and technical support which are now available to them. The principal limiting factor is capital and it is here that ACC will have a role of paramount importance to play in the years ahead. Our greatly enlarged and improved organisation at Head Office and at local level, the network of Regional and Area Offices which we are opening throughout the country, our modern accounting and data processing facilities, and above all the dedication and enthusiasm of your Board, management and staff, can be confidently expected to make an increasingly profound impact on the farming industry, including the important food processing sector, in the years which lie ahead.

Cashin and to Mr. Thomas Griffin, son of Mr. and Mrs. Paddy Griffin who were married yesterday (Wednesday) at Ballynaneon Church. The reception was held in Lancers Hotel, Dungarvan.

BALLINROAD SOCCER NOTES

Dungarvan 5; Ballinroad 0.

For 50 minutes of this game, Ballinroad were still there fighting chance, in this Dungarvan Tournament semi-final played on Friday evening last at Springmount. At this stage the score stood at 1-0, but then the vastly superior skill and fitness of the home side showed its effect and they ran out deserving if somewhat flattering 5-0 winners. While making no excuses for this defeat, the visitors badly missed the experience of Breen and Tobin out of the back four and regular goal-keeper Landers. Although in fairness to stand in keeper O'Connor, he could not be blamed for any of the goals that passed

him and in fact stood between Ballinroad from an even heavier defeat.

In finishing a word of praise to both teams for the way the game was played. Praise also goes to the Dungarvan referee, John Beresford, whose decisions were met with general approval by players and supporters of Ballinroad alike.

Scores for Dungarvan: Sheridan (1); O'Connor (2) and Gorman (2). Ballinroad team: O'Connor, C. Power, Butler, Veale, Fraher, Power, Fraher, Harty, Landers, Tobin, Fraher, Res. Kiely for Landers.

U-16 GRADES

The Divisional finals in U-16 Hurling and Football have already been played with the new champions being Abbeyside (hurling) and Nire (football).

MICHAEL FOLEY

Hurling lost one of its greatest devotees last week with the passing of Mick Foley, the genial and much loved former Head Master of Abbeyside National School. In his youth Michael started in many games for Dungarvan C.B.S. and he won his fair share of honours with the great "Old Boro" teams of that period and he also figured prominently in forging Waterford's Hurling tradition on the Inter-county front both as a hurler and official. Yet, for all of that he was never happier than when he was amongst his own boys in the school, many of whom he introduced to the game with the special leagues he organised annually. Many great hurlers from the past and present were present at his funeral. Without doubt Michael Foley was a man steeped in the love of the game. A minute silence was observed as a mark of respect at all the games at the Fraher Field on Sunday last. Ar dheis De go raith a anam.

ABBEYSIDE PARISH LEAGUES

Close on sixty young hurlers were in action on Saturday afternoon last in the Abbeyside/Ballinacourty clubs annual U-14 league. From next Saturday onwards young boys who are playing hurling for the first time, will receive special coaching in the skills of the game from club officials.

On Saturday afternoon next, Wolfe Tones will play Emmetts at 2 p.m. and this game will be followed by the meeting of Seamus Feehan's Sarsfields and Paddy Organ's Fenians in what should be a most interesting clash. Team captains are requested to ensure that every boy on their panel of playing is present at the club grounds in good time for the games. The Club's annual football league which has been running since 1969, the prize for which is the Mick Higgins Perpetual Cup, will commence when the hurling league has concluded.

AFFANE IN FINAL

Affane Senior Footballers qualified for their first ever county championship final on Sunday last by virtue of a 1-12 to 0-5 win over Portlaw. So the 30th September will be a big occasion for the Affane club, when their team line-up behind the band for their first final and certainly at the outset of this year's championship there were very few football fans outside the confines of the Affane club who would have predicted that the men in the Blue and Gold would be in action on final day.

PHELAN CUP FINAL

This year Phelan Cup Final will be between Tramore and Stradbally who scored a 1-12 to 0-5 victory over Dunhill at Dungarvan on Sunday last.

SARGENT CUP FINAL

The finalists in this year's Sargent Cup final are Portlaw and Dunhill.

MUST MEET AGAIN

Local rivals Ring and Clashmore must meet again before Ballyduff's opponents for this year's Western Intermediate Football final are known. They played a thrilling draw at Cappoquin on Sunday last before very big and exciting attendance on the score of 1-5 each.

The Cappoquin club had the banking on the far side of the ground in use on Sunday last, a fact which was much appreciated by the big attendance.

RESULTS

S.F.C.—Affane 1-12; Portlaw 0-5. Phelan Cup—Stradbally 2-5; Dunhill 0-6. I.F.C.—Ring 1-5; Clashmore 1-5. J.F.C.—Dungarvan 2-9; Eire Oge 0-3. M.H.C.—Tallow 5-10; Lismore 6-1. M.H.C.—Cappoquin 5-5; Ballinameela 3-2. M.H.C.—Four-mile-water 5-5; Dungarvan 1-3. M.F.C.—Tallow 3-8; Clashmore 0-3.

WEEK-END GAMES

MINOR HURLING

The Divisional final of the minor hurling championship goes on at Cappoquin on this Friday night, when defending champions Tallow following their good victory over Lismore will be strongly fancied to account for Four-mile-water who defeated Cappoquin 6-14 to 1-6 in their semi-final game on last Monday night.

MINOR FOOTBALL

On Saturday night, Tallow play Eire Oge in the quarter final and once again the Bride-siders are strongly fancied for this one. Then on Monday night, Nire will start favourites to account for Affane. Indeed Nire could very well be the dark horses in this championship. Both these games go on at Dungarvan.

The Divisional semi-final between the winners of these two games will be played on Thursday, 6th September. All games to commence at 7 p.m. sharp.

U-21 FOOTBALL

On Saturday night at Cappoquin the outstanding first round game of the U-21 football championship between Lismore and Ballinacourty goes on at 7 p.m. and with the Lismore club showing tremendous strides in football this year, this could be a most interesting encounter.

CHAMPIONSHIP FIXTURES

The Divisional fixtures committee announced the following adult championship fixtures after their meeting on Monday night. I.H.C. Western final—Cappoquin v. Four-mile-water. I.F.C. Replay—Clashmore v. Ring. Both games at Dungarvan on Sunday afternoon, September 9th. J.F.C.—Dungarvan v. Kilgobinet at Dungarvan, September 9th at 6.30 p.m.

I.F.C. Western final—Ballyduff v. Ring or Clashmore, on October 14th at Cappoquin. J.F.C.—Tallow v. Ring, on October 7th at Cappoquin.

J.H.C.—Tallow v. Shamrocks on 16th Sept. Winner v. Kilgobinet on 30th Sept.

SYMPATHY

Through our column we extend sympathy to the Power family, Fews, on the tragic death of their son John on Monday last, the deceased was a brother of former John Mitchells star, Tommy Power.

OUR FORECAST CORNER

U-21 F.C.—(1 game)—Ballinacourty. M.H.C.—(1 game)—Tallow. M.F.C.—(2 games)—Tallow and Nire. TO DATE—171 Forecasts; 119 Correct; 44 Incorrect; 8 Drawn.

EASTERN FINALS

The Eastern Board staged its two Intermediate championship finals on Sunday last. In hurling the defending champions, Ballyduff defeated local rivals Clonea-Power by 4-8 to 2-7 before a £400 gate.

In football last year's junior county championship, Tramore defeated Butlerstown by 1-5 to 0-6 in their replayed final.

M.F.C.

Abbeyside 2-5; Ballyduff 1-5. Abbeyside minor footballers came out on top in this thrilling semi-final championship game played at Cappoquin on last Tuesday evening. Right up to the final whistle the issue was very much in doubt. Ballyduff inspired by Richie Walsh, Tom Shanahan, Joe Bennet and company played some great football. However, on the day the Abbeyside team just deserved to win this one. Hammered by the same opposition in the hurling championship this occasion with John Moloney, Richie Hanrahan and Tony Butler having very good games. All in all it was quite a promising performance by the winners. Referee: M. Burns, Affane.

ALL-IRELAND HURLING FINAL

Next Sunday, September 2nd is All-Ireland Hurling Final day and 70,000 spectators will converge on Croke Park to see if the defending champions, Kilkenny can win the McCarthy Cup for the second successive year. This is one feat that Kilkenny teams have failed to achieve in modern times as the last occasion that they achieved this feat was away back in the years 1923, 33. Since they have won seven further titles to bring their total to 18.

Limerick for their part have won a total of six titles in all and they share fourth place on the roll of honour with Dublin. Their best title success was achieved 33 years ago in 1940. Indeed Sunday will mark their first appearance in the final since then so these present day wearers of the famous green jerseys are guaranteed a wonderful welcome when they come onto Croke Park on Sunday next and all neutral hurling fans will be hoping that they achieve their ambition. In the minor game, Kilkenny play Galway. Both games will be shown live on R.T.E.

FINAL POSTPONED

Last Sunday's U-16 County Hurling Final which was to have been played at Walsh Park, had to be postponed as the Mount Sion club had lodged an objection to St. Mollorans club being awarded the Eastern Final. It is now hoped to have this final played as a curtain raiser to the county senior football final on September 9th.

CHAMPIONSHIP POSITION

Next Sunday being All-Ireland Hurling Sunday it will be a closed day within the county as per by law. So it provides us with an ideal opportunity to review progress in the various county and divisional championships.

SENIOR HURLING

County Final—Mount Sion (Holders) v. Portlaw at Walsh Park, on Sunday, 9th Sept.

SENIOR FOOTBALL

The position here is that Affane are now through to their first ever county final where they await the winners of the John Mitchells—Ballinacourty semi-final which will be played on September 16 at Dungarvan.

INTERMEDIATE HURLING

The Western final will be between Cappoquin and Four-mile-water and the winners will go forward to meet either Ballyduff or Clonea in the county final.

INTERMEDIATE FOOTBALL

Ballyduff must await the replay between Ring and Clashmore before they know their opponents in this years Western final.

JUNIOR HURLING

It was generally expected that we would have a Dungarvan/Kilgobinet Divisional final in this grade. Well one of these fancied teams is now out of the running and Tourin are through to the Western final. While Tallow very successful second string will now meet local rivals Shamrocks in the quarter final and the winners will play Kilgobinet in the semi-final and while the odds now favour a Tourin/Kilgobinet final, one cannot rule out another shock result.

JUNIOR FOOTBALL

In Junior Football, favourites Tallow will meet Ring's second string in one semi-final, while local rivals Dungarvan and Kilgobinet will meet in the second semi-final.

U-21 HURLING

In U-21 Hurling two of the big guns, Cappoquin and Lismore clash in their next outing with the winners being odds on favourites to account for Eire Oge in the divisional semi-final.

The defending champions Tallow now play Ballinameela and Four-mile-water meet Abbeyside and the winners of these two games will then meet in the second divisional semi-final and it looks as if we will see some very good games before the destination of this title is decided.

U-21 FOOTBALL

In U-21 Football, the defending champions Affane will meet Stradbally's useful team in the first divisional semi-final. At the other end of the draw, Ballinameela await the winners of the Ballinacourty/Lismore/Tallow trio and it is still early days to make any firm predictions about the likely outcome here.

MINOR HURLING

In Minor Hurling, Tallow, who defeated Lismore by 5-10 to 6-1 await the winners of the Four-mile-water/Ballinameela game in the Western Final.

MINOR FOOTBALL

In the minor football, Ballyduff and Abbeyside meet in one semi-final. This game was to be played on last Tuesday night and the result is shown elsewhere in this page. Tallow meet Eire Oge and the winners here will play the winners of the losers group final between Nire and Affane in the second semi-final.

STRADBALLY LADIES FOOTBALL

On Sunday last, Stradbally ladies had a run away victory over Kill in the semi-final of the ladies football championship, at the Christian Bros. Field, Dungarvan. From the first five minutes it was plain to see that Stradbally were by far the superior side. Their forwards had a field day and rarely did the ball pass the centre fields. The final scores was Kill 1 point; Stradbally 9-9.

Stradbally now go forward to meet the winners of Kilrossanty and Ballymac on Sunday next at 6.30 p.m. at the same venue in the league final. This promises to be a hard fought game in which Stradbally will start outsiders. But with victory now within their grasp, this young Stradbally team will not let the title slip through their fingers, without a struggle. Kilrossanty and Ballymac are both more experienced teams and the general feeling is that the winners of this match will be County champions. But already this year Stradbally have beaten Kilrossanty and held Ballymac to a draw. The final on Sunday evening will be ladies football at its best and a game well worth a visit. Stradbally have already named the team who they hope will bring home the cup to the Tay Side. The line out is as follows: B. Connors, N. Begley, A. Power, A. Dunphy, A. Foley, A. Fennell, M. Connors, E. Barnes, B. Whelan, M. Fennell. Subs: M. Cusack, M. Flynn, E. Kirwan.

HANDBALL

Playing superb handball, Garda Paddy McGrath, representing the Public Bodies, easily qualified for the Dungarvan inter-firms singles final with a 21-9, 21-3 victory over Mossy Butler (Co-Op.) at the Kilgobinet Alley on Tuesday night.

A feature of McGrath's great display was his tremendous tossing to which the gallant Butler had no effective answer and there was never any doubt about the final outcome of either game.

McGrath will now meet Deckie Mulcahy (Dungarvan Leathers) in the final, on a date to be arranged and will start the firmest of favourites to win.

DOUBLES FINAL—The doubles final will be staged at Kilgobinet at 8.30 on Monday night next (1st & 2nd nights) when McGrath will team up with his garda colleague Pat Noctor. They face Waterford Co-Op. representatives, spearheaded by Mossy Butler. The final will be preceded by a challenge game between Colburn Bannon and Jim Fahy representing Waterford County Council and John Mansfield and Tom Cummins.

In a challenge game before Tuesday night's singles games John Mansfield beat Pat Noctor in a three-game thriller, 21-19, 18-21, 21-19.

Kinsalebeg Athletic Club

Kinsalebeg Athletic Club held its annual general meeting in Clashmore on last Thursday night. After reporting a year of very good progress by the club the outgoing chairman and Secretary did not seek re-election. The following officers were then elected for the coming year: Chairman, Mr. Tony Shalloo; Hon. Secretary, Mr. Michael O'Halloran and Treas., Mr. Garry O'Halloran. It was decided by the club to compete in both novice and senior cross country races during the coming year. A long discussion took place as regards a transfer sought by one of the club members, but it was deferred to another meeting of the club in the near future.

Basketball blitz for Dungarvan

Dungarvan has been selected by the Amateur Basketball Association for their Munster Senior Cup games on Saturday, 8th September next. The top teams in Cork, Kerry, Clare and Waterford will participate in the struggle for placings at National Cup level. In all, twelve games may be held, so a feast is in store for followers of this fast spreading sport. Remember those vital three seconds at the end of the Olympic Tournament. The games will be in the Gymnasium of St. Augustine's College. A tournament of this type — all games on the same day — is called a "blitz". A winning team may have to play four gruelling hours before victory.

This venture follows the Basketball clinic recently held at the College for coaches, referees and players in which over 160 took part under the guidance of Irish, English and American coaches.

"Sonas", Ballinacourty
Profound and deep regret was expressed at the unexpected death of Michael Foley, M.A., "Sonas", Ballinacourty, who died at the Bon Secours Hospital, Cork, on Wednesday, August 22nd.
