EMIGRATION.

In to-day's paper we publish a highly interesting article on an important subject, from Mr. O'Neill, Government Emigration Commissioner to this country, and we commend its careful perusal to the attention of intending emigrants. In addition to his letter, we have had an interview with Mr. O'Neill, and have found him to be a gentleman of remarkable intelligence and frankness, and one desirous of promoting the interests of his countrymen.

The impression left on our mind from his conversation was, to strengthen, if possible, the conviction which we have long entertained and frequently expressed, that Ireland is the best and most congenial land for such of our countrymen as can possibly remain at home. The fact is incontrovertible, that this land is capable, if properly developed, and its resources brought to bear on the establishment of industry. But, unfortunately, our ports and harbours are empty, the fields which should produce the staff of life are turned into pastures, and our manufactures are nearly non-existent. We must then deal with facts as we find them, for necessity has no law, and under existing circumstances a considerable portion of our population must emigrate in order to obtain bread. This is a deplorable state of things, especially when we consider the natural resources and capabilities of Ireland, which only require a little development to maintain a large and flourishing population.

At present thousands annually to the United States and to the several British colonies. To those who feel compelled, from inexorable necessity, and nothing less, in our opinion, would justify such a step—to emigrate, we strongly advise a careful consideration of the best land to which to bend their steps. On this point the letter of Mr. O'Neill, who we are sure, is actuated by the most praiseworthy motives, will prove of vast importance. To many of our poor emigrants to the States are landed almost penniless in the great towns and there they must remain as hewers of wood and drawers of water till they finally sink into a condition of pauperism. We can assure our countrymen that gold is not to be picked up in the streets of the cities of the Union—the contrary they must literally earn their bread by the sweat of their brow. The Canadian Government, on the other hand, offers every facility for the acquisition of land, so that by the exercise of ordinary industry the emigrant may in a short time become landed proprietor.

He deceased at one time, for many years, filled the office of clerk of Waterford Union, but the principal labours of his life were at the press, having, from time to time, been connected in one capacity or other, all of which he thoroughly understood, with the journals of this city. He was a man of considerable vigor of intellect, varied intelligence, and unquestionable ability.

EMIGRATION.

ing the various fields of emigration were clearly put before the people, many who now emigrate would stay at home, because they found, on reflection, that after all the home field of exertion was the one best adapted to them. There are many who are now writing those who would go the right place then, because they know they must not take their journey at hazard, but must see the elements on which they are to work out success before they start; and finally, there are many who stay at home now who would emigrate, because the benefits of the new field of exertion would be more distinctly brought before them by the success of those who have emigrated, and carefully entered on it. Before I close this part of my letter will permit me to add that the benefits of emigration fields is the same as the benefits of all other sources' enterprise. They give opportunities for the men who were adapted to them, and know how to use their opportunities to make success for themselves in life. If the emigrant would only realize this, he would not be disappointed. It is too late, have to complain of his misfortune, having been ruined and his profligate expectations blighted. If I have so far trespassed on you in this matter, I beg your pardon, and do so again, if it is because I would have it fairly understood that he is the best settler in a new country who has amply considered beforehand all the elements on which he is to work out success. You may now permit me to say a word about the province of Quebec. In round numbers this province comprises a territory of 210,000 miles, or 129 millions of acres, and of this vast territory which have been conceded in lands and securities, 8,950,933 acres are held in townships in free and common socage, and 6,400,339 are divided into farms and lots, and are held in fee simple. There remains 14,997,747 acres of land still to be surveyed. More than two-thirds of the 6,400,000 acres of land surveyed and divided are held in fee simple, and the price of the same is nearly half of the lots are accessible by good roads. This land may be purchased in the district of Esapee in some cases as low as 20 cents per acre, but generally at the price of 50 cents per acre; and the price varies from 50 to 60 cents per acre; in the eastern portion of the province it may be purchased at 50 cents per acre. The purchaser, either by lot or by acre, may have the land surveyed and divided into lots, and the remainder in four equal annual instalments, with interest at six per cent. The land may be purchased in fee simple, or in fee simple for a term of years, and the purchaser may have the land surveyed and divided into lots, and the remainder in four equal annual instalments, with interest at six per cent. The land may be purchased in fee simple, or in fee simple for a term of years, and the purchaser may have the land surveyed and divided into lots, and the remainder in four equal annual instalments, with interest at six per cent.

Mr. Fisher's motion in reference to the church service was then put and carried by a very large majority, the assents being over four to one. Mr. Goff: Before you proceed to elect I may state that my name is on the list, and as I cannot conscientiously be bound by the resolution I must decline to be set forward. I consider that a great improvement has taken place, but I do not approve of intoning the Lord's Prayer. Besides the intoning of the Lord's Prayer, I will present a great number of persons who have not musical ears from taking part in the service. The Ven. Archdeacon of Waterford: I beg to say that I approve altogether the expression of opinion of Mr. Goff. I don't think the Select Vestry has any authority to regulate this thing. It does not fall within their province. It is not for the rubric goes so far as that. There are express directions in the rubric of the Church which should be attended to, and in so far as the rubric goes so far as that. Mr. Fisher: I have no direct evidence of the rules of the Synod, and I propose we proceed with the subject. Mr. Goff:—The rule, if passed, could be evaded by every one subscribing a penny towards the funds of the Church. Mr. Dobbins:—Every one on the registry has a right to vote, and is eligible to elect. Mr. Fisher:—If there was an objection to his name, it should have been made when his name was being put on the registry. EASTER VESTRIES.

PARISH OF TRILLY, WATERFORD.

The annual meeting of vestrymen of this parish was held in the nave of the Cathedral on Thursday last at the hour of twelve o'clock. The chair was occupied by The Very Rev. E. N. HOARE, A.M., Dean of Waterford.

The meeting was unusually large, and great interest was manifested in the proceedings, owing probably to the rumor that an effort would be made to null the acts of the late vestry by nominating other gentlemen. Amongst those present were—W. G. D. Goff, Ven. Archdeacon of Lismore (President of the Cathedral), Ven. Archdeacon of Waterford, Rev. G. Mackey, Rev. H. Mackey, J. Allingham, J. Clappett, R. W. Cherry, Robert Dobbins, Joseph Lee, Charles N. Bolton, James Mosley, Usher Fisher, W. J. Valentine, Thomas Slater, Thos. Roy, Mr. John Mackey, R. E. Blye, H. Nevins, Mr. H. Dart, J. Langmore, J. Morland, W. R. Ward, T. Stewart, R. Atherton, son, W. Atherton, jun., T. Blake, E. Wardell, W. Smith, H. Boushey, R. Whalley, son, Peter Whalley, Mr. H. Pomeroy, R. Clappett, H. Palmer, W. Thomas, J. O'Hara, J. Sunderland, A. McCoy, H. Sharpe, &c.

A long and desultory discussion took place as to the qualifications of vestrymen, the rev. chairman informing the meeting that, according to the rules of the Cathedral, no person was eligible to vote unless a subscriber to the church.
