WORTH A GUINEA A BOX BEECHAM'S PILLS

BE admitted by thousands to be worth above A GUINEA A BOX, for Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling after meals, Dizziness and Drowsiness, Cold Chills, Flushings of Heat, Loss of Appetite, Shortness of Breath, Cough, Scurvy, Disturbed Sleep, Bloating and Trembling Sensations, &c., &c. The first dose will give relief in twenty minutes.

This is no fiction, for they have done it in thousands of cases. The Proprietor of these Pills having obtained (at great expense) a Patent for them, he challenges the whole world to produce a medicine equal to them, for removing the above complaints and restoring the patient to sound and lasting health.

Every sufferer is earnestly invited to try one box of these Pills, and they will be acknowledged to be WORTH A GUINEA A BOX.

For females of all ages these Pills are valuable, as a few doses of them carry off all the impurities which collect in the system, and all that is required—No female should be without them. There is no remedy to be found to equal Beecham's PILLS for removing any obstruction or irregularity of the system. If taken according to the directions given with each box, they will soon restore females of all ages to sound and robust health.

Beecham's Magic Cough Pills As a remedy for Coughs in general, Asthma, Difficulty in Breathing, Shortness of Breath, Tightness and Oppression of the Chest, Wheezing, &c., these Pills stand unrivalled; and anyone labouring under any of the above complaints need only try one Box, to prove that they are the best ever offered to the public, for Asthma, and Consumption, Coughs, Hoarseness, and oppression of the Chest. They speedily remove that sense of oppression and difficulty of Breathing, which might deprive the patient of rest. They give almost instant relief and comfort to those afflicted with the above distressing and neglected dangerous complaints. Let any persons troubled with any of the above complaints give Beecham's COUGH PILLS a trial.

The most violent Cough will, in a short time, be removed. Prepared only, and sold Wholesale and Retail by the Proprietor, T. BECHAM, Dispensing Chemist, St. Helens, Lancashire, in boxes at 1s. 11d. and 2s. 9d. each. Sent post free for 15 or 30 stamps.

Sold by all Druggists and Patent Medicine Dealers in the United Kingdom. Excuse me more, in these arguments, and to comment upon the facts as the above would be superfluous. The extraordinary sale of Beecham's PILLS prove unmistakably that they are one of the best and safest medicines at the present day, and disease and sickness will not be found in any house after taking a few doses of these excellent Pills.

COMMINS & Co., 66, Quay, Waterford.

FRIEND OF ALL! HOLLOWAY'S PILLS. Let no one be longer oppressed with the evils that his malady is incurable till these purifying Pills have had a fair trial. A few doses will remove the most urgent symptoms, and thereafter completely control all disordered actions, retrace the torpid liver, relieve the obstructed kidneys, cleanse impure blood, and confer on every function healthful vigour.

IMPURITIES OF THE BLOOD. These wonderful Pills are valued at the humblest hearths as well as in the houses of wealth; and remove all causes of indigestion, bile, and stickiness throughout the whole system, without disordering the natural action of any organ, and eradicate those germs of complaint which consign tens of thousands to an early grave.

INDIGESTION, BILIOUS COMPLAINTS, AND ACIDITY OF THE STOMACH. No organ in the human body is so liable to disorder as the liver, and none more apt, when neglected, to become seriously diseased. Remember when nausea, flatulency, or acidity on the stomach warns you that digestion is not proceeding properly, that Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, bile, and stickiness, and effect a permanent cure.

WEAKNESS AND DEBILITY. In cases of debility, languor, and nervousness, generated by excess of any kind, whether mental or physical, the effects of these Pills is in the highest degree bracing, renovating, and restorative. They drive from the system the morbid causes of disease, re-establish the digestion, regulate all the secretions, strengthen the nervous system, raise the patient's spirits, and bring back the frame to pristine health and vigour.

TUMORS OF LIFE AND DROPSICAL SWELLINGS. The turn of life is the most distressing period in woman's existence; it destroys thousands. The whole of the gross humors collect together, and, like a tide, sweep away life and health itself, if not timely and powerfully checked. There is certain antidote for all these dangers is Holloway's Pills. Armed with them the very ordeal is passed through, and the sufferer is once more restored to the possession of unimpairing health. It is but little known that at the so-called "turn of life," man also, when verging on forty or forty-five, discovers that his health is considerably deranged, and knows not the cause—a critical period in his life. All perils to both sexes are at once removed by recourse to these Pills.

THE KIDNEYS—THEIR DERANGEMENT AND CURE. If these Pills be used according to the printed directions, and the Ointment rubbed over the region of the kidneys for at least half an hour at bed time, as salt is forced into most, it will penetrate the kidneys and correct any derangement. Should the affliction be stone or gravel, it is parthicularly recommended that the Ointment in such cases be used night and morning, as by its judicious application the most astounding cures may be performed.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague, Scrofula, Stone & Gravel, Sore Throat, Gout, Headache, Bilious Complaints, Indigestion, Skin Diseases, Ulcers, Bowel Complaints, Lumbago, Rheumatism, Dropsy, Retention of Urine, Irregularities, Scrofula, King's Evil, &c., &c.

The Pills and Ointment are sold at Professor Holloway's Establishment, 533, Oxford Street, London; also by nearly every respectable Vendor of Medicine throughout the Civilized World, in Boxes and Pots, at 1s 11d, 2s 9d, 4s 11d, 11s, 22s, and 33s each. The 2s 9d size contains three, the 4s 11d size six, the 11s size six, the 22s size six, and the 33s size six. The smallest quantity of a 1 1/2 Box or Pot. The smallest Box of Pills contains four dozen; and the smallest Pot of Ointment one ounce.

Full printed directions are affixed to each Box and Pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian or Chinese.

FROM LONDON

of

ENGLAND and

THE WATERFORD AND LIMERICK RAILWAY.

A circular has been issued, signed by the Chairman and Vice-Chairman of the Waterford and Limerick Railway to the shareholders, asking them for their proxies at the meeting to be held on the 30th inst. The circular says:— "You are aware that, on a requisition from certain shareholders, a meeting has been called for the purpose of 'considering and approving a proposed agreement to accept an offer of 4 per cent. per annum on the ordinary stock of the Waterford and Limerick Railway from the Great Southern and Western Company.' The requisition having been signed by the numbers of shareholders which the law requires, it became our duty to summon this meeting, though strongly disapproving of the policy of it. In the first place, we do not know of the existence of any such offer or agreement. It is true there was published in newspapers, and read at your last meeting, what purported to be a copy of a letter addressed to the Chairman and Directors of the Waterford and Limerick Railway Company, signed by the Chairman of the Great Southern and Western Company, to the effect that if it were the wish of the Waterford and Limerick Railway, on receiving a guarantee of a dividend of 4 per cent. on the ordinary stock, to sell their railway, the directors were willing to recommend such a purchase to their proprietors. We can only say that no such letter was presented to your Board of Directors, or ever seen by them; and even if it were, we cannot consider it a satisfactory document."

The Dublin committee have published the following letter with reference thereto:— "Sir—On the 23rd of last February, Mr. Haughton, the chairman of the Great Southern and Western Railway, wrote as follows to Mr. Malcomson, who had applied to him on the subject of the sale of the Waterford and Limerick Railway (Company) to sell their railway to the Great Southern and Western Railway Company, on receiving a guaranteed dividend of 4 per cent. per annum to the holders of the original stock, the directors of the Great Southern and Western Railway Company will undertake to recommend such purchase to their proprietors." In spite, however, of this clear and explicit statement, the directors of the Waterford and Limerick Railway have, in their circular just issued, cast a doubt upon the genuineness of this letter. The committee recently formed in Dublin for the purpose of carrying the purchase effect requested us, therefore, to write again to the chairman of the Great Southern and Western Railway Company, asking him to repeat his offer. This accordingly did, and have just received the following reply:— "King's-bridge, Dublin, April 22, 1872. "DEAR SIR.—In reply to your letter of the 20th, I now beg to send you a copy of the letter which I addressed to Mr. Malcomson on the 23rd of February last, as chairman of the Waterford and Limerick Railway, to which copy I have appended my signature. I may also state that I hold a letter from Mr. Malcomson of the same date in which he states unconditionally that he would do all in his power to carry out the offer made by the Great Southern and Western Railway, and if you refer to the 'Freeman's Journal' of the 24th of February, you will find a letter fully confirming this statement. I may state, in conclusion, that I have no doubt in my mind that the proprietors of the Great Southern and Western Railway, will confirm the offer of four per cent. made in my letter, if approved of by the shareholders of the Waterford and Limerick Railway. Yours truly, "WILLIAM HAUGHTON, Chairman."

After this letter from Mr. Haughton no one will deny the authenticity or bona fides of the offer made in February last, by the Great Southern and Western Railway Company. "MICHAEL J. O'SHAUGHNESSY."

MURDER NEAR PILTOWN.

A dreadful murder is reported. According to the police intelligence, it appears that on Sunday night a young man named John Kelly, residing near Piltown, county Kilkenny, and about eight miles from Waterford, left Mooncoin for the purpose of proceeding home. At an early hour on Monday morning he was found lying by the roadside quite dead. He had several stabs on the breast. Intelligence soon reached the police, and Constable Fullerton, of the Fiddown station, has made two arrests. An inquest was held on the body on Tuesday, at Cashel, the residence of deceased, before Mr. Sherlock, coroner, at which the following particulars transpired: Shortly before ten o'clock on Sunday night, William Kelly, the deceased, and a friend of his named John Synnot, entered the public house of Mr. Doherty, at Mooncoin, and called for two pints of beer, over which they sat down for some time. In a short time afterwards two men, named Barry and O'Brien, came in. The parties had some words but they separated on, apparently amicable terms. Kelly and Synnot went home together, and the latter accompanied the former a few hundred yards, beyond his own door. On returning he found Barry and O'Brien standing at the cross road. He heard Barry urging O'Brien to come along and they would have some fun. O'Brien said he would not go along the road for he wanted to go home across the fields. Barry was heard to say that he would go along the road and that he would like to see the man who would prevent him. This occurred about half-past ten o'clock, and at midnight two men named Henry-Bryer found the body of the young man Kelly lying stiff and stark within 300 yards of his own door. The Fiddown police were at once communicated with, and before three o'clock in the morning they succeeded in arresting Bryan and Synnot. They had some difficulty in securing Barry, who was found concealed, not in his own house, but under the bed, in the house of a farmer named Walsh. When dragged forth his hands were found stained with blood. His shirt and under clothes were also stained with blood, whilst a clasp-knife which was found in his waistcoat pocket was clotted with blood. We may mention that the deceased had received no less than seven stabs of a knife, the marks of which corresponded with the blade. Barry was committed for trial, pending the evidence of the elder Kelly and Barry, senior. It would appear that both old men had a long-standing feud in consequence of a watercourse which each was in the habit of turning into a field belonging to the other.

A letter from the Flax Association is held over till our next. Mr. Delahunty's address on 'The Carreny Law' will be found in the fourth page.

ANNUAL SOIREE OF THE WATERFORD YOUNG MEN'S CHRISTIAN ASSOCIATION.

On Thursday night last the annual soiree of the members and friends of the Waterford Young Men's Christian Association took place in the Assembly Room, Town Hall, under circumstances which reflect credit on all who were engaged in promoting or catering for this festive gathering. The doors were open at seven o'clock, and shortly afterwards nearly five hundred ladies and gentlemen were assembled in the spacious room. These annual reunions, where instruction is combined with innocent recreation, are justly popular, and none more so, we venture to say, than the soirees of the Young Men's Christian Association. Tea was served at half-past seven o'clock, and by this time the room presented a brilliant and animated appearance. The decorations were designed and executed with a degree of taste which reflects the highest credit on Mr. Blea and those who assisted him in this department. The walls were gracefully festooned with evergreens and wreaths of flowers, whilst appropriate mottoes and devices were interspersed amongst them. In front of the gallery might be read the inscription, beautifully executed, "Health and Prosperity," whilst to the left was the crest of the Association, a Crown and Bible, surmounted by the letters "V. R." Opposite to this, which was much admired for the beauty of its execution, were the mottoes appropriate to the Society, "Love God," "Honor the Queen." The tables were well supplied with cake, and admirably served by the ladies who presided at them with inimitable grace. These ladies were: Miss Hoare, Mrs. Blea, Miss Kingsborough, Mrs. and Miss DeBussy, Mrs. Dart, Mrs. Roberts, Miss Bernard, Mrs. Vokes, Miss Ruddell, Mrs. Clamptett, Miss Clamptett, Miss Roy, Mrs. Armour, Miss Harris, Mrs. and Miss Whalley, and Miss Walsh. These ladies were indefatigable in their desire to promote the comfort and convenience of the guests, and they succeeded as they always do when engaged in contributing to refined enjoyment. The stewards also deserve every credit for the manner in which the arrangements were carried out, and the unremitting attention which they bestowed on the guests. They were: Messrs John Sunderland, T. Andrews, John Blake, James Teggart, John F. Ward, Robert Waddell, William Olliver, Henry L. Ward, R. S. Blea, T. F. Rose, Dani-I Sunderland, and Charles James Ward. The honorary secretary, Mr. Richard Prendergast, deserves the thanks of the society for the part which he took in contributing to the success of the soiree. Ample justice having been done to the tea, and the confectary the chair was taken by the Very Rev. the Dean of Waterford, who delivered a short address in which he congratulated the Association on its flourishing condition, and pointed out the advantages which it conferred on the members. A short address was also delivered by Venerable the Archbishop of Lismore. Mr. Stuart recited, with much effect Macaulay's celebrated, "Henry of Navarre." A number of ladies and gentlemen under the able direction of Mr. J. S. Mitchell sang some beautiful pieces which were rendered with an effect which elicited repeated bursts of applause. After this the Council Chamber was thrown open as a promenade, and the guests were much pleased with some excellent photographic and microscopic views, kindly lent by Mr. William Street. A novel feature in the evening's entertainment was the ringing on eight hand bells of several sets of single cones, changes and some pieces of music especially arranged for the purpose. The ringers were stationed as follows:—Trebble, Mr. J. Longmire; 2nd, Mr. Elwin; 3rd, Mr. W. J. Mackesy; 4th and 5th, Mr. George Clamptett; 6th, Dr. G. I. Mackesy; 7th, Mr. R. S. Blea; tenor, Mr. Browne. The harmony thus produced was perfect, and delighted the audience. The galvanic battery, which was in charge of Mr. S. D. Budd, was especially attractive to the juveniles. Mr. Blea, by the aid of his magic lantern and the limelight, exhibited some magnificent views. On the mention of Mr. Clamptett, seconded by Mr. W. Ward, a warm vote of thanks to the Ladies was passed with acclamation. A vote of thanks to Mr. Mitchell and Mr. Blea, with the singing of the National Anthem, brought a very pleasant evening to a close.

THE LATE SIR B. W. BARROW.—The remains of this much-lamented gentleman, who was respected and esteemed by all classes in the city of Waterford, which he so long represented, will not arrive in this city till Thursday next. The delay has been occasioned in order to afford time to the family to assemble in Waterford to form part of the funeral cortege. Mr. Henry Barrow, will arrive here on Monday, and make arrangements for the funeral procession. The remains will be interred at the family vault at the Chapel of Ease, Ferrybank.

ADDRESS AND PRESENTATION.—Mr. Martin Kough, a valuable and efficient member of the Catholic Young Men's Society, was presented with an address and testimonial, on Wednesday evening, previous to his departure for America. Particulars in our next.

BIRTHS.

Galwey—April 23, at 39, Mary-street, Waterford, the wife of Charles R. Galwey, Esq. of a son.

BARRISTERS.

Barrington—April 7, at Africacombe, Devon, the wife of E. F. H. Barrington, Esq. L.R.C.S.I., &c. of a son.

MARRIAGES.

Arday and Jones—April 24, at St. Mary's Church, Donnybrook, by the Rev. W. G. Ryder, D.D., Thomas G. Arday, Esq. only son of the late Captain J. B. Arday, Staff, Madras, to Mary Alice Jones, elder daughter of William R. Jones, Esq., Hollyville Park, Monkstown, Barrister-at-Law.

Hall and Lawson—April 17, at the Presbyterian Church, Sandyhook, Dublin, by the Rev. Thomas Lytle, William Lytle, Esq. son of the late John Hall, Derrinagh, Ballinacorney, to Elizabeth, only daughter of Mr. Richard Thompson, late of Agber, county Meath.

WATERFORD BOARD OF GUARDIANS—WEDNESDAY.

The usual weekly meeting of the guardians of the Waterford Union was held on the above day. Capt Power, D. Y. C., and subsequently B. H. J. Paul, Esq., in the chair. The other guardians present were—Major O'Gorman, J. P. Elliott, J. P.; Congreve-Rogers, J. P.; Easty, P. Manning, D. Keogh, M. O'Shea, W. Healy, G. Meade, W. Delahunty, T. Duggan, T. Feney, J. Lawless, L. Ryan, and Dr. Condeall. The applications for admission and out-door relief were unusually numerous, and occupied the board up to two o'clock.

CIRCULAR LETTERS.

Letters were read from the Commissioners to the following effect:— 1st.—Directing the attention of the guardians to the fact that the sewerage committee should be chosen and elected in the same manner as the dispensary committee, and that the nuisance committee should consist only of members of the board of guardians, when that body was the nuisance authority. 2nd.—A circular informing the board that the names and residences of those parties who were entitled to issue dispensary tickets should obtain the utmost publicity, and on means of ensuring this was to have their names and residences posted on the doors of each dispensary house. The letters were marked 'read,' and the clerk was instructed to inform the Commissioners that their instructions should be fully attended to.

COMPULSORY VACCINATION.

The relieving officer of the Kilmacovegue Dispensary district informed the board that the children alluded to by Dr. Cane in his report of last week were re-vaccinated, and had obtained a certificate to that effect from the medical officer.

A BOVING CHARACTER.

At this stage of the proceedings an applicant for admission whose name had been overlooked was introduced. In reply to the chairman he said he had been an inmate of the house some time ago, but since then he has on tramp and spent some time in Dungarvan, Kilmacomas, Carrick, Clonmel, and Cashel workhouses (laughter).

POSTPONEMENT OF MOTION.

A letter was read from Mr. Clamptett dated Lichfield, requesting the guardians to postpone the consideration of his notice of motion to increase the salary of the master for a week. Captain Power thought that summonses should be re-issued, and that an additional fortnight's notice should be given.

MR. MANNING THOUGHT THAT THERE WAS NO NECESSITY FOR GOING TO THAT EXPENSE.

Mr. Healy: This postponing business is a great humbug (laughter). Farmers are now so busy that they do not like to be coming here every day (laughter).

Captain Power: Yes, it is very unpleasant to be bringing people here from their employment. Mr. Manning: You may postpone it for a month without going to the expense of issuing new notice papers.

It was then agreed that the motion should be postponed for a fortnight, and that by the same date the clerk should issue his new estimate of a rate.

THANKS.

A letter was read from the National Teachers' Central Association, thanking Captain Power and the guardians for having practically acknowledged the justice of the claims of the teachers.

THE GUARDIANS AND THE HARBOUR BOARD.

It will be remembered that some time ago the guardians requested the Harbour Board to provide side-lines to the planks which buggers and coolie ports had to pass over when unloading vessels lying at the quay. A letter was read from the secretary of the Harbour Board to the effect that the quay committee of that body had under its consideration the letter from the Board of Guardians asking them to prevent such lamentable occurrences as death by drowning from falling off the unprotected planks, but the committee was of opinion that the carelessness of the parties whose safety was contemplated was the great cause of the melancholy accidents.

THE CHAIRMAN: IS THAT LETTER SATISFACTORY?

Major O'Gorman: It certainly is not. They have done nothing to guard against the accidents; they have not put side lines on any of the planks.

Capt Power: Certainly do not regard the letter as satisfactory. The Harbour Commissioners have done nothing to give relief to the families of men who have drowned from want of the most simple precaution.

Mr. Ryan: But they are ratepayers.

Capt Power: But they are not responsible like us.

Mr. O'Shea: The ballast contractors and the merchants provide the men, and they fill or discharge the vessels as best they can.

Capt Power: But the Harbour Commissioners are bound to provide planks properly guarded.

Major O'Gorman: There are no side lines attached to many of the planks at all. They may be so at this side, but certainly not at Ferrybank. The letter is far from satisfactory. Even here at this side I found two or three planks which were not provided with side lines, although the Harbour Commissioners had formally promised to provide them.

Major O'Gorman: I was on this subject some time ago to the Harbour Commissioners, but I found they were done with their business in twenty minutes. However, three of our members, including Ald Jacob and the late Mayor, and remained in the room, and they said they would give directions to Mr. Nevins to see that all the planks were provided with side lines, but as a matter of fact they are not so provided. I say it evinces great and culpable neglect on the part of harbour authorities not to provide those lines. I venture to say there were no side lines to the plank from which the man fell who lost his life.

Capt Power:—If the Commissioners gave directions to Mr. Nevins to provide these lines, it was his duty to see that they were provided at once.

Major O'Gorman:—I do not know what duties they impose on their officer, but I do know that there is a passiveness about that board which is most culpable. They have more money than almost any other Harbour Board in Ireland, and yet they are doing nothing.

Capt Power:—You forgot the Ford.

A Guardian:—We don't forget the mill that was made about the dry dock and the bar shoal.

Major O'Gorman:—I move that this board should the letter of the Secretary of the Harbour Board as highly unsatisfactory.

Captain Power seconded the motion.

Major O'Gorman: We must be dictatorial if we wish any good to be effected. For my part, when the widow of a drowned man comes here next time, I will move that she get £1 a week out-door relief.

The suggestion of the chairman was then adopted.

TRAMWAY SEWAAGE COMMITTEE.

The sum of £139, ordered to be expended by the above body, was agreed to.

TENDERS.

The following tenders were accepted: Beef at 60s 8d per cent, Mr. Michael Flynn. While Bread at 6s, and brown at 5s per 4lb loaf, Mr. Thompson. Pork steaks at 6d and 5d per lb, Mr. Mahony. Eggs at 8d per dozen, Mr. Mahony. Dr. Keane's application for shives to the Slieverue dispensary was referred to the dispensary committee.

The clerk announced that there was a balance against the Union of £1,536 5s 10d, and the board adjourned.

NEW ROSS TOWN COMMISSIONERS—FRIDAY.

P. KELLY, Esq., in the chair. Other members present—Messrs. W. Forristal, M. Power, P. Carry, N. Murphy. A communication was read from the clerk of the Waterford union transmitting the following resolutions adopted by the board on the subject of the Grand Jury (Inland) Bill. Moved by Alderman Redmond, seconded by Major O'Gorman:—

Resolved—That feeling thankful to Lord Hastings, Chief Justice, for bringing forward Parliament to such grand questions, we deem it but right to say that it falls far short of our expectations. Moreover, we feel bound to state that the qualifications of a city grand juror should not be more than for a poor law guardian or member of a corporation, namely, £25 annual valuation, instead of £200, as set forth in the bill. It is strange, yet true, that the £200 qualification, if adopted, would render not more than six persons eligible for the office of grand juror. On the contrary, the qualification of £25 would make eligible 461 persons equally respectable and intelligent as those of a higher rating, whilst very many of the latter, though rated from £75 to £150, are not as well qualified, either from their social position or intelligence."

Proposed by Alderman Mackey, seconded by Mr. Clamptett:—That copies of the resolution be forwarded to his Excellency the Lord Lieutenant, and to the Lord Mayor of London, as a recommendation to the grand jury reform, and to the several poor law unions and corporations in Ireland.

After some consideration the resolution was adopted. The following communication to the clerk was read from Mr. Hancock, J.P. Lurgan, chairman of the Ulster Municipalities Committee for promoting Reform of Municipal Government in Ireland:—

"I am much obliged for your letters of the 26th and 27th ult. I have put myself into communication with Mr. Mahon. I have summoned a committee for the 12th, and will let you know the result of our consultation."

Sir Charles Adelderly's bill would require some modification to suit the circumstances of Ireland that I don't think the mere extension of it as it stands would do, and I greatly fear a large bill as it is will scarcely pass this session, but the Local Government Board Act, introduced by the Government, is an important step in the right direction, will I think pass. Then in next year we may fairly hope that the Local Government Boards in England and Ireland will prepare well digested bills and carry them in a more complete form with the support of the government than can be done by any private member of Parliament.

"Have you considered the proposed jury bill? Would it suit in your neighborhood to transfer the management of the roads from the barony presentment sessions to the different boards of guardians? Please to let me hear from you on this subject when you have time."

The communication was referred to the committee appointed to consider on the suggestion for the improvement of the Local Government Act 1871.

A communication was read from the hon. sec to the 'Irish Association for Closing Public Houses on Sunday.' Mr H. Wigham, 36 Capel-street, Dublin, saying Sir D. Corrigan, Bart; P. Pim, Viscount Crichton, Mr. McCare, Mr. Wm. Johnston, Lord Claud Hamilton, and Mr. E. Dease, having brought a bill into the House of Commons for closing public houses in Ireland during the whole of Sundays. It is of very great importance that the public opinion of the country should, as much as possible, be brought to bear upon Parliament in favour of the measure. I have, therefore, respectfully to request that you will bring the accompanying petition before your board at its first meeting for its adoption.

When signed, the petition should be sent with a letter to your representative or representatives in Parliament, asking them to present the petition, and vote for, second reading of the bill, which is fixed for Wednesday, 24th April.

PETITION.

Showeth—That your petitioners believe that the sale of intoxicating liquors on Sunday is a special source of interference, subversive of good order, and productive of crime. That on the days set apart for rest, and for Divine worship, when usual labour is prohibited, and the wages for the week's support of the family have been received, the temptations of the public houses and beer houses are permitted, to the grievous injury of good morals, and of the health, wealth and comfort of the people of Ireland. That keeping of public houses open on Sunday is injurious to the publicans themselves, and to the households.

That your petitioners have observed with much satisfaction that a bill entitled 'Sale of Liquors on Sunday (Ireland) Bill' has been introduced into your honorable house during the present session of Parliament, for closing public houses in Ireland during the whole of Sunday.

Your petitioners, therefore pray your honorable house to extend in Ireland the provisions of the law which prevents the opening of the public houses and beer houses during certain hours of Sunday to the whole of the twenty four days of that day and pass the 'Sale of Liquors Sunday (Ireland) Bill' aforesaid.

And your Petitioners, &c.

After some conversation the petition was adopted, signed by the presiding chairman and ordered to be transmitted to Mr. MacMahon for presentation.

The following petition in favour of union rating was adopted.

Showeth:—That the question of union rating is now before a committee of your honorable house, for assimilating the law of Ireland to that of England, but substituting union rating for electoral division rating.

That the system of rating each electoral division of a union for the support of its own poor, has worked disastrously for all classes in Ireland. That one of its main effects was to cause the clearing off of the labourers from the rural districts, lest they might become chargeable to the union on which they resided and to level their houses.

That the people thus driven out of their houses in the country were forced to seek sheltering in the neighbouring towns, where from want of proper accommodation and employment they were generally soon overtaken by want and sickness, and became a burthen on the rates of the town's electoral divisions.

That in consequence of this throwing into the towns of the rural population, together with

a sort of law of settlement, after one or two years' residence therein, the rates of the town's electoral divisions, which for the first few years after the adoption of the Poor Law in this country, averaged from 5d to 1s 6d, or 1s 10d, in the pound, rose to such exorbitant amounts that, in the electoral division of New Ross, they reached to 1s, and upwards; while in some of the rural electoral divisions, whose rates were at one time higher than those of New Ross, they have become reduced to 5d or 6d in the pound.

"That the system is most oppressive to the labouring classes, who, when they get employment in the country districts, are obliged to walk miles, morning and evening, to and from their work, in all sorts of weather.

"That the scarcity of laborers through the country is now universally admitted; but the same motive that led to their removal off the soil, and the levelling of their homesteads, prevents the re-erection of houses for their accommodation.

"That the want of suitable dwellings for the laboring population near the seats of their employment, is one great cause of deep-seated discontent, which would probably develop itself in agrarian outrages, were it not that it finds relief from outlet in migration.

The present disadvantageous arrangement of the fairs held in New Ross was conversed on, after which

It was proposed by Mr. Power, and seconded by Mr. Carry:—That a committee be appointed to inquire into the advisability of changing the fairs to other days, and to take such preliminary steps as may be necessary in the matter, the final decision to rest with the commissioners as a body."

Members of the committee: Messrs M. Power, J. Hutchinson, W. Carr, W. Cherry, P. Carry, P. Roche, N. Murphy, S. F. McCormick, W. Forristal, P. Kelly.

The committee to meet on Monday, 22nd, at eleven o'clock.

NEW ROSS UNION—SATURDAY.

M. F. SWEETMAN, Esq., J.P., Chairman, in the chair. Messrs J. Walsh, E. R. O'Farrell, V.C.; J. Bolger, N. Lumsden, J. Finn, W. Green, J.P.; L. Moran, D. Maddock, E. Kavanagh, and J. Hunt.

In reference to the out-door relief, as usually administered, Mr. O'Farrell said there had been a poor-looking old woman 10 inch receiving out-door relief for some time, and had been considered a proper object. Some time after, she appeared before the magistrates, prosecuting her son-in-law for forcibly entering her house and taking £3 of her money.

Mrs. J. Walsh, aged 66 years, was brought in the van, on a ticket of R. Byrne, relieving officer pro tem, on the morning of the 15th inst, and died about eleven o'clock same night. I reported case to the police. There was an inquest held by the coroner, E. R. O'Farrell, Esq. The following is a copy of the finding:— "We find that the said John Conway died at the New Ross workhouse of natural decay on the 15th April, 1872, in the parish of St. Mary's.—D. O. Nolan, Foreman.

There was a change of classification in the children made by the medical officer on Monday last. Twelve children out of the nursery, having been examined by him, were sent to the infant school, being over two years; and four boys from infant school, over five years, ordered to the boys' school.

"There will be blue cloth required for use of hospital during next contract."

Ordered: That the commissioners be informed that it is almost impossible to procure straw, but it will be procured as soon as possible.

COMMUNICATIONS.

One from the commissioners, saying they had before them the return of poor rate collected and lodged in the New Ross union to the 1st instant, which shew arrears outstanding to the amount of £1,127; also have before them the guardians' resolution of the 6th inst, allowing collector Walsh another month to close, thus nearly doubling the time within which the collector undertook to complete his collection. The commissioners consider that, with due diligence, the collection should before this have been completed, and that the guardians ought to require the collectors to adhere as closely as possible to the conditions of their order.

Another, referring to the minutes of the 13th inst, from which it appeared that a report was received from the master of the workhouse, in which he states that a supply of straw will soon be required; and the commissioners request the attention of the guardians to the subject, as it does not appear from their minutes that they made any order thereon.

In reference to the letter respecting the collectors some conversation followed, in which the chairman said he considered they had the best collectors in Ireland.

The clerk said that the collectors in the Ennis-corthy union had their collections closed on the 23rd of March last.

Mr. O'Farrell said one of their collectors had put his hand in his pocket and paid £100 in order to close his collection, so as not to be obliged to press poor persons.

Mr. Breen said when Collector Walsh summoned poor persons before the magistrates, and that they (magistrates) considered any of them cases of hardship, they (magistrates) gave him a rap over the knuckles and that was the view the magistrates generally took in such cases.

The chairman considered the poor rate was an oppressive tax in many cases, and if it were any extension it was by allowing poor people to pay it at their convenience.

Mr. O'Farrell considered the men were not adequately paid for their trouble in their collections.

Collector Walsh had to come many miles to Adamstown several times, and his remuneration for the collection in that district amounted to about £18.

Mr. Breen said he was not obliged to go to Adamstown several times. He could send his six days' notice, warning them to attend and pay; but the people had often to go several miles to pay their rate.

Mr. O'Farrell said Walsh served the six days' notice, and after that came to Adamstown, a distance of sixteen miles from Rosetown, and after spending the day there, perhaps only a few persons came to pay their rates, and he was obliged to come there several times before he could finish his collection.

Mr. O'Farrell hoped the observations about the smallness of the remuneration for the collectors was not getting in the small end of the wedge for the collectors.

The chairman thought it would be better to leave that part of the discussion aside until it came properly before them.

The matter dropped.

The following report was read:— "Saturday 23rd March, 1872. "An extraordinary meeting was held this day to consider a claim of Dr. Boyd's for attending during the absence of Dr. Mullin. Present, Michael Power (in the chair), David Maddock, L. Moran, T. Shee.

"Proposed by Dr. Shee, seconded by D. Maddock:—That in consequence of the shortness of the notice calling this meeting it be adjourned till the day following, and that sufficient notice be given to each member to attend."

"Passed unanimously." "M. Power, Chairman."

"Saturday, April 6th, 1872. "At an adjourned meeting held this day to consider a claim of Dr. Boyd's for attending during the absence of Dr. Mullin. Present—Mr. M. Power (in the chair), T. Shee, Michael Power, L. Moran, T. Shee, Michael Power, D. Maddock, W. Wallace, W. H. Bolger, and Walter Archer.

"It is the opinion of this committee that Dr. Boyd should be paid a salary and a half."

"Proposed by M. Power, seconded by W. Bolger, that Mr. Thomas Boyd be appointed chairman."

"Proposed by Dr. Boyd, seconded by W. L. Maddock, that Mr. Bolger be appointed vice-chairman for the current year."

"Passed unanimously." "Proposed by D. Maddock, seconded by W. Bolger, that the commissioners be asked if on an officer being handed a red ticket for a woman in labour is it sufficient in the first instance to send an experienced nurse-tender before the doctor goes himself. Passed."

"T. Boyd, Chairman." "E. Lawler, Sec."

A conversation ensued respecting Dr. Boyd's claim for his professional attendance.

Mr. Breen thought that as Dr. Boyd had been appointed a substitute for Dr. Mullin, he ought to be satisfied with the usual allowance, a salary and a half.

The clerk said Mr. Breen did not seem to be aware of the facts of the case. Dr. Boyd had not been appointed as a substitute for Dr. Mullin, but had been called on by the relieving officer when required.

Mr. Finn thought that when a doctor was called on to act pro tem, he ought to be paid by the doctor he was acting for.

Mr. Maddock believed that if the doctor was appointed as a substitute, he would only be entitled to a salary and a half.

The chairman thought the subject should have come before the board before any arrangement could be made about it.

The clerk said it had been before the board, and discussed generally, but if the case was admitted to be a precedent, he did not know where it would end.

The chairman recollected there was something about the subject conversed on at the board, and he had asked for the bill and it had not been produced.

The clerk said the bill was sent for, but it did not come until the meeting was breaking up; but it was discussed at the succeeding meeting.

Mr. Breen desired to know if when a doctor was sick, and that the relieving officer was obliged to call a doctor that the doctor was entitled to more than allowance to doctors, when temporarily appointed.

Mr. Maddock said he had asked Dr. Boyd if he had made an agreement with his divisions, and he said he did not at all, but he wrote immediately to the clerk stating the terms he could attend for.

The following notice to the clerk was called for and read from Dr. Boyd saying:—"I have been attending the Dysentery dispensaries last few days in consequence of Dr. Mullin

THE POET'S CORNER.

Give honor to the poet. Thy shall tell The ill of joy he bequeath—confer? Give honor to the poet, speak him well, God's High Commissioner.

THE CURRENCY LAWS.

In the House of Commons on Friday night, Mr DELAHUNTY rose to move the following resolution:—

"That in the opinion of this House it is expedient that, as far as practicable, equal laws should prevail throughout Great Britain and Ireland, and Her Majesty's Government should forthwith bring in a Bill to regulate and reform the Currency Laws of the United Kingdom, so as that the same system should prevail and be applicable in every part of the realm."

The hon. gentleman said that, in consequence of the present system of legislation, Ireland was not progressing equally with England. That which was called the Union, but which was no union, but merely a sort of connexion (a laugh), was carried out on the assumption that the interests of England and the interests of Ireland were different, and the result had been that during the last 70 years Ireland had been legislated for, not by the Imperial Parliament, but by the officials of Dublin Castle, who framed Bills for Ireland which were ratified by Parliament.

A meeting to consider the Scotch Education Bill was held in Edinburgh on Tuesday. The Government measure was condemned on the ground that it repeated the errors for religious instruction, and substituted one other, that it would lower the standard of education, and that it would place the direction of Scotch education under a London department.

The Queen, accompanied by Prince Leopold and Princess Beatrice, left Windsor, by special train, at ten on Tuesday, and arrived in London at 11.10, when she drove to Buckingham Palace, where the court will remain till Thursday.

It is rumored that Viscount Milton will retire from the representation of South-West Yorkshire. Mr. Leatham, the member for Huddersfield, will be the Liberal candidate.

Breakfast—Epps's Cocoa—Grateful and Comporting. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many doctors' bills."

CHLORALUM. AN ODOURLESS NON-POISONOUS DISINFECTANT—THE BALINE ANTI-SEPTIC—CHLORALUM IS AN ACTIVE PRESERVATIVE OF ORGANIC SUBSTANCES. CHLORALUM IS INVARIABLE FOR PURIFYING THE AIR.

CHLORALUM disinfects sewage so readily that one gallon is sufficient to be added to 150 gallons of the latter, so that it may be poured over the land without giving off foul emanations. Chloralum, being beneficial to vegetation, like common salt, can be used to fix the ammonia in Peruvian guano, and to add to the fertilizing powers of many manures.

CHLORALUM MEDICINE—Chloralum is a new agent in therapeutics. There are few superficial injuries, inflammations, or discharges in which its judicious prescription is not attended with great advantage, and it is of equal value in many internal disorders.

CHLORALUM can be relied on by horsemen in wounds and injuries, and by farmers in the treatment of foot and mouth disease, and in carrying on disinfection in their homes, stables, cow sheds, pigsties, and poultry houses.

CHLORALUM POWDER. THE BEST STABLE DISINFECTANT. Chloralum Powder will be found invaluable in Hospitals, Close-fitted Dressing Rooms, Apartments, Earth Closets, Dead Bins, Wine and Beer Cellars, and in Stables, Cowsheds, Alloys and Roads, Sewers and Gully Holes, In the Dairy, and all kinds of Provision Stores, In the Kennel, and in Poultry Houses.

LAWES' CELEBRATED MANURES. LAWES' BONE SUPERPHOSPHATE, PATENT TURNIP MANURE, LAWES' SUPERPHOSPHATE OF LIME, LAWES' SPECIAL MANURES, POTATO, MANGOLD, AND CORN CROPS.

"Mr LAWES' MANURE has an invariable Composition: it is dry to the touch, very finely subdivided, and may be therefore intermixed with the soil with much facility. I may add that, in examining with a lens the insoluble Phosphate present in this Manure, I find Particles of Bones, which must augment its value. Its character as an active and certain fertilizing agent for a soil in which Turnips or other Green Crops are to be grown is so well established, that it is quite unnecessary for me to say anything on such a subject."

"This is an extremely valuable Manure, carefully manufactured, and in admirable condition for applying to the soil. It is very rich in soluble Phosphates, and contains fair proportions of Ammonia and Bone Phosphate of Lime. I have so repeatedly reported in the most favorable terms as to the Composition of the Artificial Manures prepared by Mr Lawes, that I need only say of the sample now described, that it is everything which a Superphosphate ought to be."
